

# HERITAGE®

U.S. COIN AUCTION

JULY 7-8 & 10, 2016 | FUN | ORLANDO

3899

# U.S. Coins

Featuring: The Eagle One Collection, Part II • SLADGrubb Family Lincoln Collection • The Black Bay Collection • The Corso Collection • The Pellegrini Collection, Part III • The Lenny Reiner Collection, Part V

July 7-8 & 10, 2016 | Orlando

## Signature® Floor Sessions 1-4

(Floor, Telephone, HERITAGELive!®, Internet, Fax, and Mail)

Orange County Convention Center  
West Concourse • Hall WE1-Room 230A  
9800 International Dr. • Orlando FL 32819

### Session 1

Thursday, July 7 • 1:00 PM ET • Lots 3001-3735

### Session 2 – PREMIER

Thursday, July 7 • 6:00 PM ET • Lots 3736-4091

### Session 3

Friday, July 8 • 1:00 PM ET • Lots 4092-4359

### Session 4

Friday, July 8 • 6:00 PM ET • Lots 4360-4720

## Signature® Internet Session 5

(HERITAGELive!®, Internet, Fax, & Mail only Session)

### Session 5

Sunday, July 10 • 3:00 PM CT • Lots 7001-8250

## LOT SETTLEMENT AND PICK-UP

Friday, July 8 • 10:00 AM - 1:00 PM ET

Saturday, July 9 • 9:00 AM - 12:00 PM ET

Extended Payment Terms available. Email: Credit@HA.com

Lots are sold at an approximate rate of 200 lots per hour, but it is not uncommon to sell 150 lots or 250 lots in any given hour.

**This auction is subject to a Buyer's Premium of 17.5% (minimum \$19).**

FL Auctioneer licenses: Heritage Numismatic Auctions, Inc. ## PRELIMINARY LOT VIEWING

By appointment only. Contact Roy Porras at 214-409-1295 or RoyP@HA.com. (All times subject to change)

Heritage Auctions, Dallas  
3500 Maple Avenue • Dallas, TX 75219

Monday, June 20 – Wednesday, June 29 (Excluding Weekend)  
9:00 AM – 5:00 PM CT

## LOT VIEWING

Orange County Convention Center  
West Concourse • Hall WE1 – Room 230C  
9800 International Dr. • Orlando FL 32819

Wednesday, July 6 • 10:00 AM – 6:00 PM ET

Thursday, July 7 • Friday, July 8 • 8:00 AM – 7:00 PM ET

Saturday, July 9 • 8:00 AM – 12:00 PM ET

View lots & auction results online at [HA.com/1237](http://HA.com/1237)

## BIDDING METHODS

### HERITAGE Live!®<sup>1</sup> Bidding

Bid live on your computer or mobile, anywhere in the world, during the Auction using our HERITAGELive!® program at [HA.com/Live](http://HA.com/Live)

### Live Floor Bidding

Bid in person during the floor sessions.

### Live Telephone Bidding (floor sessions only)

Phone bidding must be arranged on or before Wednesday, July 6, by 12:00 PM CT.

Client Service: 866-835-3243

### Internet Absentee Bidding

Proxy bidding ends one hour prior to the session start time.

Live Proxy bidding continues through the session.

[HA.com/1237](http://HA.com/1237)

### Fax Bidding

Fax bids must be received on or before Wednesday, July 6, by 12:00 PM CT. Fax: 214-409-1425

### Mail Bidding

Mail bids must be received on or before Wednesday, July 6.

Phone: 214-528-3500 • 877-HERITAGE (437-4824)

Fax: 214-409-1425

Direct Client Service Line: 866-835-3243

Email: Bid@HA.com

Dear Bidder:

Welcome to Heritage's Official Auction of the July, 2016 Summer FUN Convention in Orlando! This year's event includes more than 1,700 Floor Session lots, of which 356 coins are featured in the high-value Premier Session to be held on Thursday evening, July 7. An additional 1,250 lots are slated for the Signature® Internet Session.

Please take a few minutes to read about the Featured Collections that headline our Summer FUN offering:

### **The Eagle One Collection, Part II**

Early half dollars, Bust half dollars, Buffalo nickels, and Peace dollars represent additional selections from The Eagle One Collection, a consignment that drew plenty of attention from collectors at our June Long Beach event. Without exception, the coins in this fine collection offer excellent eye appeal and quality for the grade. The early half dollars and Bust halves deserve close attention, with better Overton varieties including key overdates and collector-favorite die combinations. A third installment of The Eagle One Collection will appear in the upcoming ANA auction in August.

### **The SLADGrubb Family Lincoln Collection**

Dazzling coloration and high numeric grade accompanies every Lincoln cent in this outstanding consignment from the SLADGrubb Family Lincoln Collection. Classic collector pieces such as a 1909-S Lincoln cent in MS66 Red PCGS (only six finer pieces at PCGS), and a 1909-S VDB MS65 Red with CAC endorsement are joined by a 1924 cent in MS67 Red PCGS, tied for finest certified, and an exquisite 1918-D cent MS65+ Red PCGS with CAC approval for its deep, original Red color.

### **The Black Bay Collection**

A stunning set of proof Shield nickels comprises The Black Bay Collection. The entire offering grades PR67 Cameo or finer, with the exception of a single coin – the rare and in-demand 1867 Rays in PR62 NGC, Dannreuther 3, which is a challenging key to the proof series of keen numismatic significance for Shield nickel and type collectors.

### **The Corso Collection**

Among Jefferson nickel specialists, The Corso Collection is well known at the top – or nearly so – of several PCGS Registry Set categories. A splendid group of Jefferson nickels represents the collection in both the Premier Session and Floor Session 1 at Summer FUN, with additional examples in the Signature® Internet Session. Most of the nickels are proofs, including a Superb Gem 1939 Reverse of 1940 (Straight Steps) nickel graded PR68 PCGS, the sole finest at either service.

### **The Pellegrini Collection, Part III**

Additional selections from Dr. John L. Pellegrini's collection of proof Morgan dollars is an extension of those offered at our April, 2016 Central States event. Most of the coins carry the Cameo designation in the PR64 to PR66 Cameo categories, all with Dr. Pellegrini's unfailing eye for quality and visual appeal.

### **The Lenny Reiner Collection, Part V**

Yet another group of GSA silver dollars in their original packaging comes to Summer FUN from the Lenny Reiner hoard, now in its fifth consignment. A group of Carson City dollars from 1890 and 1891 lead the offering, which includes several Gem 1881-CC dollars as well, selected for their high grade and high-end surfaces.

Many lots from other consignors deserve special recognition – in fact, too many to mention here. A pair of Panama-Pacific fifty-dollar gold pieces – an octagonal fifty in MS62 NGC, and a near-Gem round fifty certified MS64 NGC (just 483 pieces were distributed) always draw strong bids. Two early half dimes are among the finest of their date and variety: a 1797 LM-1 in MS64+ PCGS with CAC endorsement is the former Eliasberg coin, while a Gem LM-10 example graded MS65 PCGS with CAC represents the 1795 date.

A fine, multi-coin consignment of upper-end Saint-Gaudens double eagles includes several mintmarked pieces in Gem or finer condition that will appeal to gold enthusiasts. For error collectors, a remarkable San Francisco Mint double strike half dollar is pictured on the cover of this catalog – almost never seen on a Walking Liberty half, especially with the second strike 75% off-center, precisely at 6 o'clock and graded MS64 NGC. Even though the date is obscured, the mintmark style suggests this spectacular coin was struck during World War II when the Mint struggled with its production quality. In many ways, it is an ultimate "strike rarity" of the series.

If you plan to attend Summer FUN in person, we hope you will accept our open invitation to stop by the Heritage booth on the bourse, view the lots on-site, and stay to bid at the auction. If you are not able to attend in person, please remember that we accept bids through HA.com, e-mail, U.S. mail, and fax. Real-time options for remote bidding include telephone bidding and online bids with HERITAGE Live!® – our proprietary, award-winning online platform.

We look forward to the mid-year auction in Orlando, where the event always lives up to our idea of true summer FUN. Good luck and much success with your bids!

Sincerely,

Greg Rohan  
President

Todd Imhof  
Executive Vice-President

# SESSION ONE

## COLONIALS

- 3001** 1652 Oak Tree Shilling, IN at Bottom, Fine 15 PCGS. Noe-5, W-470, Salmon 3-D, R.2. 66.97 gm. A minutely granular silver-gray example. A bit underweight, but the reverse legends are complete. The lower obverse legends are partial, as always for Noe-5 due to a misaligned obverse die. The upper portion of the tree is worn, but the lowest branches are clear. A late die state of Noe-5 with the N in NEW and the field below XII severely crumbled. Listed on page 41 of the 2017 *Guide Book*. NGC ID# 2ARL, PCGS# 45362 Base PCGS# 20

1652 Pine Tree Sixpence, VF30  
Noe-33, Well-Centered Reverse

- 3002** 1652 Pine Tree Sixpence, Pellets at Trunk, VF30 PCGS. CAC. Crosby 1-A, Noe-33, W-670, R.3. A cream-gray piece that has glimpses of darker toning within crevices of the designs. The obverse is misaligned toward 11 o'clock, diagnostic for Noe-33. Later dies with a vertical break between the 16 in the date. Moderately wavy from striking with rocker dies, but wear is even aside from the obverse at 9 o'clock. Listed on page 41 of the 2017 *Guide Book*. Ex: *Central States Signature* (Heritage, 5/2007), lot 9; *FUN Signature* (Heritage, 1/2012), lot 3943. NGC ID# BYVT, PCGS# 45367 Base PCGS# 22

- 3003** 1739-V Sou Marque MS64 PCGS. CAC. Vlack-193, R.2. Eagle and tree differents. The present lot is the Vlack Plate Coin, photographed on page 75 of his 2004 standard reference to the French-American billon series. It is a pristine cream-gray representative with minor incompleteness of strike along the right-side margin. The type is listed on page 55 of the 2017 *Guide Book*. NGC ID# 2AWF, PCGS# 158688

- 3004** 1773 Virginia Halfpenny, Period MS64+ Brown PCGS. CAC. N. 24-K, W-1570, R.1. Dusky ruby-red dominates, although apple-green visits the margins. This boldly struck and semiprooflike near-Gem is virtually free from contact but displays minor strike-throughs near the English quadrant of the coat of arms. Struck at the Tower Mint in London. Listed on page 47 of the 2017 *Guide Book*. NGC ID# 2ATK, PCGS# 240

- 3005** 1787 Vermont Copper, Bust Right, AU50 NGC. RR-14, Bressett 10-K, W-2105, R.3. The dotted obverse legend, dot at the bridge of the nose, and placement of the shield confirm the variety. Slight central weakness is typical, but the coin is sharply detailed elsewhere. Brown and tan surfaces are pleasing and attractive with a hint of roughness and a few laminations. Ex: *Central States Convention Sale* (Raroca, 4/1972), lot 387; *Donald Groves Partrick* (Heritage, 1/2015), lot 5772. NGC ID# 2B5B, PCGS# 560

- 3006** 1785 Nova Constellatio Copper, Pointed Rays, Large Date — Struck 5% Off Center — AU53 PCGS. Crosby 3-B, W-1895, R.2. Off center several degrees toward 12 o'clock, with portions of the upper legends off the flan. NOVA CONSTELLATIO exhibits strike doubling. An unabraded and impressive chocolate-brown example. A middle die state with moderate crumbling on the lower obverse. Listed on page 56 of the 2017 *Guide Book*.

- 3007** 1795 Talbot, Allum, & Lee Cent MS65 Red and Brown PCGS. Fuld-1, W-8620, R.1. A splendid Gem. Forest-green fields cede to orange-gold borders. Well struck and mark-free with only a couple of small reverse spots. A desirable example of this early New York storecard. Listed on page 78 of the 2017 *Guide Book*. NGC ID# 2B64, PCGS# 641

- 3008** WASHINGTON Washington Liberty & Security Penny AU58 PCGS. CAC. Baker-30, W-11050, R.2. Plain Rims. The fields are lavender-blue, the margins are plum-red, and the high points are olive-green. A well struck near-Mint example with minimally marked surfaces aside from a slender diagonal planchet line (as made) on the upper obverse. Listed on page 86 of the 2017 *Guide Book*. Ex: *FUN Signature* (Heritage, 1/2007), lot 269; *Dallas ANA Signature* (Heritage, 10/2012), lot 3054, which realized \$1,410. NGC ID# 2B7V, PCGS# 767

## HALF CENTS

- 3009** 1797 1 Above 1, C-1, B-1, R.2, VF20 PCGS. Manley Die State 5.0. This is the latest die state recorded in the Manley reference with a shattered obverse die. The obverse die is bulged at the upper left, and in the right field, weakening TY and Liberty's nose, and obliterating ICA on the reverse. This lovely olive-brown half cent has smooth surfaces with a lone green corrosion spot above the second 7 in the date. Close examination reveals what may be traces of undertype from a TAL token, although specific design elements are unrecognizable. Our EAC grade Fine 12. NGC ID# 2228, PCGS# 35101 Base PCGS# 1042

- 3010** 1800 C-1, B-1, R.1, AU55 PCGS. Manley Die State 3.0, "very scarce." A bold medium brown type coin. Substantial satin luster swirls about the legends and devices. Carbon is confined to a spot on the top of the hair. Noticeable marks are limited to three field lines near the nose, the L in LIBERTY, and the F in HALF. Our EAC grade XF40. NGC ID# 222B, PCGS# 35119 Base PCGS# 1051

- 3011** 1802/0 Reverse of 1802, C-2, B-2, R.3, VG8 PCGS. Manley Die State 2. This is a well-circulated example, but one that shows smooth, chocolate-brown surfaces and boldly outlined devices with complete rims. There is some light chatter in the upper-left obverse field and an unobtrusive rim bump at 4 o'clock on the same side. The overdate feature is plain. Our EAC grade Good 5. NGC ID# 222D, PCGS# 35125 Base PCGS# 1057

- 3012** 1802/0 Reverse of 1802, C-2, B-2, R.3 — On a Cut-Down Large Cent — VG8 NGC. Manley Die State 2.0. From the cent undertype, the D in UNITED and two leaves are prominent near 9 o'clock on the half cent obverse. This better date half cent offers bold legends and minimally marked gunmetal-gray surfaces. Our EAC grade Good 4. NGC ID# 222D, PCGS# 35125 Base PCGS# 1057

1804 Half Cent, MS63 Brown  
C-10, Crosslet 4, Stems

- 3013** 1804 Crosslet 4, Stems, C-10, B-9, R.1, MS63 Brown NGC. Manley Die State 3.0. A coruscating chocolate-brown Draped Bust type coin. Well struck given the late die state. Marks are negligible aside from an inconspicuous rim knock at 2 o'clock on the reverse and a thin line on Liberty's neck. Our EAC grade AU50. Ex: *New York Signature* (Heritage, 7/2004), lot 5037, which realized \$1,897.50. NGC ID# 222F, PCGS# 35158 Base PCGS# 1069

**3014 1805 Small 5, Stems, C-3, B-3, R.4, Good 6 PCGS.** Manley Die State 2.0. A lovely chocolate-brown example with pleasing surfaces. A small edge flaw, as coined, is noted at 8:30. Weakness on the left half of HALF CENT is usual for the conditionally rare C-3. Otherwise, the legends are bold save for softness on the ED in UNITED. Our EAC grade Good 5. NGC ID# 222H, PCGS# 35185 Base PCGS# 1087

**3015 1832 C-1, B-1, R.2, MS64 Brown PCGS. CAC.** Only one die state is recorded with a faint die crack through the A in STATES, barely visible on this Choice Mint State piece. The golden-brown surfaces exhibit frosty cartwheel luster. Our EAC grade MS60. NGC ID# 222Y, PCGS# 35273 Base PCGS# 1159

### 1835 C-1, B-1 Half Cent, MS65 Red and Brown The Usual Early Die State

**3016 1835 C-1, B-1, R.1, MS65 Red and Brown PCGS.** Manley Die State 1.0 with obverse and reverse clash marks. This is the usual state seen for the 1835 C-1 half cent, although both die states are considered common. This attractive example has considerable original orange mint luster with delicate blue overtones on its light brown surfaces. Our EAC grade MS63. For all varieties, Population: 27 in 65 Red and Brown (2 in 65+), 0 finer (5/16). NGC ID# 2233, PCGS# 35289 Base PCGS# 1169

**3017 1857 C-1, B-1, R.2, MS64 Red and Brown PCGS. CAC.** This final-year half cent displays brick-red about the stars and letters. The sea-green fields are satiny. Refreshingly free from abrasions and carbon. The strike shows moderate softness on LIBERTY and the obverse dentils. Our EAC grade MS60. NGC ID# 2623, PCGS# 35340 Base PCGS# 1240

## LARGE CENTS

**3018 1793 Wreath, Vine and Bars Edge, S-8, B-13, R.3 — Environmental Damage — PCGS Genuine. Fine Details.** A well-detailed 1793 Wreath cent with medium brown color and even wear. The fields are granular, as the holder describes, but the worn points of the devices show smooth brown patina. The portrait is well-defined for the Fine level. Our EAC grade Good 5. NGC ID# 223H, PCGS# 35456 Base PCGS# 1347

**3019 1794 Head of 1794, S-22, B-6, R.1 — Tooled — NGC Details. AU.** Breen Die State VIII with a prominent crack through the 4 to Liberty's ear. Heavy mounds are visible on the reverse and give this variety its "Mounds" nickname. While sharply detailed, the surfaces have been extensively tooled, including the edge. Our EAC grade VG8. NGC ID# 223P, PCGS# 35531 Base PCGS# 901374

### 1794 S-51 Cent, AU Details Among the Sharpest Known

**3020 1794 Head of 1794, S-51, B-42, Low R.5 — Environmental Damage — NGC Details. AU.** This early die state piece has a trace of the obverse crack between the 1 and 7, but no other signs of die wear. The greenish-ebony surfaces exhibit primarily microscopic raised corrosion spots that explain the NGC designation. Despite those imperfections, this important 1794 cent has excellent detail for the variety, equal to the sharpest pieces known, and ranking among the top dozen of the variety. Our EAC grade VF20. NGC ID# 223P, PCGS# 35615 Base PCGS# 901374

**3021 1794 Head of 1794, S-65, B-51, R.1, VF20 PCGS.** The "Shielded Hair" variety. This piece displays consistent chocolate-brown color, with only a few select areas of moderate granularity. The central devices and legends are sharp, but the border dentils are weak from 12 to 4 o'clock on the obverse and around 5 o'clock on the reverse. A pleasing Liberty Cap type coin. Our EAC grade VG10. NGC ID# 223P, PCGS# 35654 Base PCGS# 901374

**3022 1798 Second Hair Style, S-170, B-29, R.3, VF35 PCGS.** An early die state with no evidence of the obverse die crack found in later states. This piece has pleasing steel-brown, olive, and tan surfaces, exhibiting trivial handling marks. Our EAC grade VF20. NGC ID# 2244, PCGS# 36080 Base PCGS# 1434

### 1799 Cent, VG Sharpness S-189, Draped Bust Key Date

**3023 1799 S-189, B-3, R.2 — Environmental Damage — NGC Details. VG.** The die chip between the E in ONE and the T in CENT confirms the Sheldon variety. A medium brown example of the famous key date. Most legends are bold, although STATES OF and the lower half of the date are worn. The surfaces are evenly granular, and display aqua verdigris on the MER in AMERICA. Small marks are noted on the EN in CENT and the top of the portrait. Our EAC grade AG3.

**3024 1801 1/000, S-223, B-17, R.1 — Burnished — NGC Details. AU.** Breen Die State III, an intermediate die state with a rim break joining RT of LIBERTY, and a narrow rim break over IB. This is a difficult coin to describe, although we disagree with the NGC description of burnished. It may have been coated with a substance in the past, or perhaps buried. The sharpness is very nearly Mint State, and both sides exhibit moderate roughness. The lower reverse is bluntly struck. Our EAC grade VF20. NGC ID# 224D, PCGS# 36278 Base PCGS# 1464

**1802 S-231 Cent, MS61 Brown  
Smooth, Glossy Surfaces**

**3025** 1802 No Stems, S-231, B-9, R.1, MS61 Brown NGC. Breen Die State IX, heavily cracked and clashed. The surfaces display glossy, burgundy-brown color without evidence of environmental damage. There is a small mark within the reverse bow and there are a few others in the left obverse field. Otherwise, there is not much to limit the grade other than slightly muted luster. The strike is bold, even, and well-centered. Fading dentils around portions of the rims is due to die failure in this latest-known state. Our EAC grade AU50. NGC ID# 224E, PCGS# 36344 Base PCGS# 1476

**3026** 1803 Small Date, Small Fraction, S-254, B-13, R.1, XF45 NGC. Breen Die State II with no evidence of the crack from the rim to the drapery. This piece has traces of later orange color clinging to the devices. The chestnut-brown surfaces exhibit microscopic roughness. Our EAC grade VF25. NGC ID# 224G, PCGS# 36377 Base PCGS# 1482

**3027** 1803 Small Date, Large Fraction, S-258, B-17, R.1 — Cleaning — PCGS Genuine. Unc Details. This unworn S-258 cent is sharply detailed with faintly granular patina that shows blended copper-red, olive-green, and brown coloration. There are no mentionable marks or blemishes beyond the light cleaning. Our EAC grade VF25. NGC ID# 224G, PCGS# 36398 Base PCGS# 1485

**3028** 1804 S-266c, B-1, R.2 — Environmental Damage — PCGS Genuine. Fine Details. Breen Die State IV with a sizeable cud on each side. STATES is somewhat faint but all other legends are sharp. No marks are consequential, but the deep walnut-brown surfaces are evenly microgranular. Our EAC grade Good 5. NGC ID# 224H, PCGS# 36422 Base PCGS# 1504

**3029** 1819 Small Date, N-8, R.1, MS63 Red and Brown PCGS. The crooked I in UNITED is the pick-up point for Newcomb-8. Orange-gold fills the legends and outlines the stars. The open fields and high points are Brown. A minimally abraded Randall Hoard representative. A spot is noted on the ED in UNITED. Our EAC grade MS60. PCGS# 36650 Base PCGS# 1607

**3030** 1831 Large Letters, N-7, R.1, MS65 Brown PCGS. CAC. Beautiful chocolate-brown toning endows this lustrous and boldly struck Gem. Abrasions are effectively absent, and carbon is incidental aside from subtle spots near the N in CENT in the E in UNITED. Our EAC grade MS62. NGC ID# 225M, PCGS# 36976 Base PCGS# 1678

**3031** 1835 Head of 1836, N-15, R.2, MS63 Red and Brown PCGS. Slide marks on Liberty's cheek keep this piece from a higher grade, but the fields are clean. Well-balanced copper-red and burgundy-brown hues blend over each side, complementing the luminous cartwheel effect. The peripheral stars show typical weakness, but the central devices are well-defined. Housed in an old green label holder. Our EAC grade MS62. PCGS# 37066 Base PCGS# 1714

**1837 Cent, MS65 Red and Brown  
N-3, Plain Cords, Medium Letters**

**3032** 1837 Plain Cords, Medium Letters, N-3, R.1, MS65 Red and Brown PCGS. Die scratches near the L in LIBERTY and the line below CENT identify Newcomb-3. The orange-gold color approaches full Red, although blushes of lavender visit the high points and open fields. A nicely struck and lustrous Gem. Delicate field contact near the chin determines the grade. Our EAC grade MS63. PCGS# 37154 Base PCGS# 1736

**3033** 1838 N-4, R.2, MS64 Brown PCGS. CAC. Lustrous surfaces yield hints of steel-blue amid burgundy-brown toning on each side of this Choice Brown N-4 example. The border dentils and stars are weakly defined as usual, but the central devices are bold. Eye appeal is pleasing. Housed in a green label holder. Our EAC grade AU55. PCGS# 37192 Base PCGS# 1741

**1839 'Silly Head' Cent, N-4, MS65 Brown  
Remarkable Luster and Appeal**

**3034** 1839 Silly Head, N-4, R.1, MS65 Brown PCGS. A true Gem N-4 example, showing vibrant mint bloom beneath burgundy-brown toning. A loupe fails to reveal a single notable flaw. The centers are sharp, but the peripheries show dentil weakness and there are flowlines in the fields (from the late die state). An outstanding coin, housed in an old green label holder. Our EAC grade MS60. Population (all Silly Head varieties): 11 in 65 Brown, 5 finer (5/16). NGC ID# 225Y, PCGS# 37231 Base PCGS# 1748

**3035** 1851 N-4, R.1, MS66 Brown NGC. CAC. Grellman Die State a. A distinctive variety due to errant repunchings of the base of a 1 near both 1s. The chocolate-brown surfaces are remarkably free from abrasions or spots. The sole imperfections are mint-made strike-throughs above the ribbon and a hair-thin vertical line above the 8 in the date. Our EAC grade MS60. PCGS# 403949 Base PCGS# 1892

**3036** 1851 N-11, N-12, R.1, MS66 Brown NGC. CAC. Tinges of copper-red luster remain tucked close around the devices on this Premium Gem Brown 1851 large cent. The remainder of each side displays luminous burgundy-brown toning. Weak on the upper obverse stars but otherwise well-struck. Our EAC grade MS63. Census (all varieties included): 42 in 66 (1 in 66★) Brown, 8 finer. CAC: 19 in 66, 2 finer (5/16). PCGS# 406680 Base PCGS# 1892

**3037 1852 N-1, N-2, R.1, MS66 Brown NGC. CAC.** Die State c. Metal flowlines in the fields denote the late die state, but the extensive array of die cracks is still visible. This piece is sharp in the centers with weak border dentils. The coin is mostly olive-brown, but tinges of copper-red can still be seen around the obverse relief elements. Our EAC grade MS62. Census (all varieties included): 63 in 66 (3 in 66+, 4 in 66 ★) Brown, 4 finer. CAC: 18 in 66, 2 finer (5/16). NGC ID# 226J, PCGS# 147232 Base PCGS# 1898

**3038 1856 Slanted 5, N-14, R.1, MS65 Red and Brown NGC. CAC.** Die State b, as usual for Mint State examples of this marriage. The present coin shows the diagnostic weakness along the upper obverse and lower reverse borders with sharp interior devices. Substantial copper-red luster shines through reddish-brown toning, while the surfaces are nearly devoid of carbon spotting. Our EAC grade MS63. CAC (all varieties included): 8 in 65, 3 finer (5/16). NGC ID# 226N, PCGS# 406211 Base PCGS# 1923

## FLYING EAGLE CENTS

**3039 1857 MS64 PCGS.** A well-struck, satiny Flying Eagle cent type coin, showing near-Gem surface quality and a pleasant cartwheel effect. The 1857 is plentiful in this grade but becomes increasingly scarce at finer levels of preservation. NGC ID# 2276, PCGS# 2016

### 1857 Indian Cent, MS65 Excellent Type Coin

**3040 1857 MS65 PCGS.** The 1857 Flying Eagle cent is an available issue and a popular choice of type collectors, but it becomes quite rare in grades above MS65. This attractive Gem exhibits well-detailed design elements and well-preserved, lustrous red surfaces that have mellowed to light brown and crimson in a few areas. PCGS has graded 17 numerically finer examples (5/16). NGC ID# 2276, PCGS# 2016

### 1857 Flying Eagle Cent, MS65 Sharp, Lustrous Type Coin

**3041 1857 MS65 PCGS. CAC.** A boldly struck Gem type coin, this 1857 Flying Eagle cent displays satiny bronze-gold luster and beautifully preserved surfaces. The obverse shows a couple of spindly die cracks, one from the rim to the eagle's head and another along the top of the date and then up toward the eagle's talons from the 7. A few die lines are present in the forward wing feathers. PCGS lists 17 finer examples (6/16). NGC ID# 2276, PCGS# 2016

### 1857 Flying Eagle Cent, MS65 Snow-2, Obverse of 1856

**3042 1857 Obverse of 1856, Snow-2, FS-401b, MS65 PCGS.** An elusive Gem 1857 Flying Eagle cent struck from a head die that was hubbed with the 1856 obverse. It is believed that at least five 1857 dies were produced with the 1856 hub. These would have been hubbed in 1856 without the date, which would have been added in 1857. Thus, the creation of an 1857 head die with the 1856 hub type. A wide O in OF is among the most obvious diagnostics of the 1856 obverse. This Gem displays remarkably well-preserved, satiny mint luster with rich tan-gold color. The strike is sharp, and the eye appeal is outstanding. This piece is among the finest Snow-2 coins attributed by the services. Population: 4 in 65, 0 finer (5/16). PCGS# 410434

**3043 1858 Small Letters MS64 PCGS.** Low Leaves, Close E. A lustrous peach-gold Choice cent. The obverse center displays a blush of lavender patina. The strike is good except across portions of the right-side margins. The reverse is smooth and the obverse field displays incidental contact. NGC ID# 2279, PCGS# 2020

### 1858 Flying Eagle Cent, MS65 Small Letters Variety

**3044 1858 Small Letters MS65 NGC.** High Leaves, Closed E in ONE. A splendid Gem with gorgeous golden-tan toning and satiny luster. The strike is nearly full, with weakness only on the top edge of the left wing, the tip of the right wing, and the top tail feather. Additional weakness is evident on portions of the wreath, but all of these deficiencies are extremely slight. Magnification will reveal a number of tiny pepper spots that are unapparent to the naked eye. Census: 71 in 65, 16 finer (6/16). Ex: Dallas Signature (Heritage, 10/2008), lot 95. NGC ID# 2279, PCGS# 2020

## INDIAN CENTS

**3045 1859 MS64 NGC. CAC.** A boldly struck Choice example of this one-year Laurel Wreath type, showing satiny copper-gold luster and carbon-free surfaces. A few faint grazes on Liberty's cheek are all that preclude a Gem designation. NGC ID# 227E, PCGS# 2052

**3046 1859 MS64 PCGS. CAC.** Tan-gold luster rolls over near-Gem surfaces on this satiny 1859 Indian cent. This one-year Laurel Wreath Reverse type is in high demand in Mint State grades. The present coin offers an ideal balance of quality and affordability. NGC ID# 227E, PCGS# 2052

**1859 Cent, Gorgeous High-End Gem  
First and Single-Year Type Coin**

- 3047 1859 MS65+ PCGS. CAC.** The 1859 holds an important place in American numismatics as both a first and single-year type. The Indian Head design would be used for 50 years, but the Laurel Wreath was replaced with an Oak Wreath in 1860. As such, it is always in demand among collectors, especially in high grades. This gorgeous Gem, duly recognized by PCGS and CAC for its excellent quality, features light copper-gold surfaces and swirling luster over fully struck devices. A loupe reveals a few inconsequential ticks. PCGS shows 29 finer examples (5/16). NGC ID# 227E, PCGS# 2052

**1861 Indian Cent, MS66+  
Challenging Date in the Copper-Nickel Series**

- 3048 1861 MS66+ PCGS. CAC.** The 1861 Indian cent is conditionally scarce in MS66, but CAC-endorsed examples in this grade are decidedly rare; CAC currently lists 18 MS66 CAC coins and three finer (6/16). The present example is razor-sharp with glossy bright, bronze-gold luster and outstanding eye appeal. Population: 81 in 66 (3 in 66+), 13 finer. NGC ID# 227G, PCGS# 2061
- 3049 1863 MS65 PCGS. CAC.** A popular type-coin issue, here offered in brilliant Gem condition with a distinctive "white" look. Hints of more golden color appear around the borders. This 1863 copper-nickel cent is well-struck with some metal flowlines in the fields from die wear. Finer coins are elusive. NGC ID# 229D, PCGS# 2067
- 3050 1863 MS66 PCGS.** The copper-nickel composition provided a host of planchet variations in color and receptiveness to toning, for which there is no more obvious example than an 1863 "white cent," which appears more nickel than copper in coloration. This is such a coin, doubly scarce in Premium Gem for its high numeric grade as well as its silvery patina. Sharply struck with lustrous, satin-smooth surfaces, this Mint-fresh cent shows iridescent wisps of golden hues on the obverse and ivory tones with orange-gold highlights on the reverse. No 1863 cent is graded numerically finer at PCGS. Population: 55 in 66 (5 in 66+), 0 finer (5/16). NGC ID# 229D, PCGS# 2067

**1864 Copper-Nickel Cent, MS66  
Among the Finest at NGC**

- 3051 1864 Copper-Nickel MS66 NGC.** The 1864 is the last issue in the short set of copper-nickel Indian Head cents first released in 1860. The date has the second-lowest mintage among them (13.7 million pieces) and is correspondingly elusive in Gem condition or better. This pumpkin and amber-gold Premium Gem is remarkable because of its unsurpassed technical quality, but also its fantastic eye appeal. Vibrant luster rolls across each side. Four diamonds are apparent on the ribbon. Census: 19 in 66 (1 in 66 ★), 0 finer (5/16). NGC ID# 227K, PCGS# 2070

**1864 Indian Cent, MS66  
Popular Copper-Nickel Issue**

- 3052 1864 Copper-Nickel MS66 PCGS.** The original red surfaces of this delightful Premium Gem have mellowed to light brown in a few areas, but no mentionable signs of contact are evident. The design elements are sharply detailed throughout and a short die crack shows from the right edge of the shield to the reverse rim. Ample mint luster adds to the outstanding eye appeal. Population: 28 in 66 (2 in 66+), 1 finer (5/16). NGC ID# 227K, PCGS# 2070
- 3053 1864 Bronze No L MS66 Red PCGS. CAC.** Glowing copper-orange luster gives this Premium Gem bronze No L cent excellent eye appeal. The design elements are well-defined, despite moderate die erosion that gives the fields a heavily flowlined appearance. Clash marks are seen on the reverse. Population: 36 in 66 Red, 1 finer. CAC: 12 in 66, 0 finer (5/16). NGC ID# 227L, PCGS# 2078
- 3054 1864 L on Ribbon, Snow-5b, FS-2304, MS65 Red and Brown PCGS. CAC.** The 18 in the date is repunched north. The reverse has a radial die crack at 7:30 and a rim cud at 3:30. The die variety is unrecorded on the PCGS holder. The variegated apricot-gold and gunmetal surfaces are satiny and unblemished. L on Ribbon 1864 cents are very scarce in the present grade. NGC ID# 227M, PCGS# 37403 Base PCGS# 2080
- 3055 1873 Open 3 MS65 Red and Brown PCGS.** A few faint blushes of lavender toning account for the Brown aspect of this coin's grade, even though most of the frosty surfaces are vibrant copper-orange and red. This Open 3 1873 Indian cent is well-struck and conditionally scarce. Population: 72 in 65 Red and Brown, 6 finer (5/16). NGC ID# 227Y, PCGS# 2107

- 3056 1877 — Cleaning — PCGS Genuine. AU Details.** Shallow N in ONE. The deep aquamarine surfaces are glossy, and the shoulder curl shows only light wear. Abrasions are relatively minor, and include a thin diagonal line on the neck. The key regular issue of the Indian cent series.

**1877 Cent, MS61 Brown  
Pleasing Key Date**

- 3057 1877 MS61 Brown NGC.** The 1877 cent is well-known to virtually all collectors of American coinage, as it is the key to the Indian Head series with a low mintage of 852,500 coins. Pleasing chocolate-brown surfaces are accented by shades of olive and gunmetal-blue, while the reverse is noticeably lighter in hue. The devices are well-impressed with a hint of merging on the feathertips and the headdress ribbon. NGC ID# 2284, PCGS# 2127

- 3058 1880 MS66 Red and Brown PCGS.** Light brown and coppery-gold hues color the eye-appealing surfaces of this impeccably preserved Red and Brown Premium Gem cent. The motifs are sharply defined throughout, and cartwheel luster rolls over each side. Population: 4 in 66 Red and Brown, 0 finer (5/16). NGC ID# 2287, PCGS# 2137

- 3059 1882 MS66 Red NGC.** A conditionally rare Premium Gem Red example, among the finest at NGC. This Registry-grade 1882 Indian cent displays a sharp strike and glowing coppery-orange luster with attractive violet overtones on the obverse. No obvious carbon spotting is seen. Census: 5 in 66 Red, 0 finer (5/16). NGC ID# 2289, PCGS# 2144

- 3060 1882 MS66 Red PCGS.** The 1882 Indian Head cent becomes conditionally rare at the Premium Gem level with Red surfaces despite a substantial mintage of 38.5 million coins. This cent features light amber-gold color and vibrant luster that swirls over clean surfaces. Well-stuck with a trace of incompleteness over the feather tips and ribbon. Population: 23 in 66 (1 in 66+) Red, 2 finer (6/16). NGC ID# 2289, PCGS# 2144

- 3061 1884 MS66 Red and Brown PCGS. CAC.** This Premium Gem 1884 cent is among the finest in Red and Brown at PCGS, although it rivals the amount of original mint luster seen on many coins that are designated Red. Coppery-orange surfaces show faint violet overtones in the central regions that add character to the satiny luster. The strike is sharp, and there is no obvious carbon spotting. Population: 6 in 66 Red and Brown, 0 finer. CAC: 6 in 66, 0 finer (5/16). NGC ID# 228B, PCGS# 2149

- 3062 1893 MS66 Red NGC.** An impressively well-preserved and attractive Premium Gem Red 1893 cent, showing sharp, frosty design elements and untouched fields. A hint of reflectivity adds to the eye appeal. Extremely rare any finer. Census: 27 in 66 (1 in 66+) Red, 2 finer (5/16). NGC ID# 228M, PCGS# 2186

- 3063 1893 MS66 Red PCGS. CAC.** A splendid Premium Gem with fiery surfaces, this brilliant orange Indian cent exhibits frosty mint luster and strong design definition. Population: 32 in 66 (4 in 66+) Red, 1 finer. CAC: 6 in 66, 0 finer (5/16). NGC ID# 228M, PCGS# 2186

- 3064 1894 MS66 Red and Brown PCGS. CAC.** Frosty, luminous copper-red surfaces are just oozing with originality, and eye appeal is proportionately high. Only the faintest traces of burgundy toning preclude a full Red designation from PCGS. This CAC-endorsed coin is beautifully preserved and free of any significant carbon spotting. Tied with two others as the finest in Red and Brown at PCGS (6/16). NGC ID# 228N, PCGS# 2188

- 3065 1894 MS65 Red PCGS.** Frosty orange-gold luster gives this Gem Red 1894 Indian cent outstanding eye appeal. The strike is bold, and only a few tiny specks are seen with a loupe. Light clash marks appear on the obverse. Finer Red examples are rarely encountered. Population: 80 in 65 (5 in 65+) Red, 33 finer (5/16). NGC ID# 228N, PCGS# 2189

**1895 Cent, Luminous MS66+ Red  
Seldom Encountered Finer**

- 3066 1895 MS66+ Red PCGS. CAC.** Glowing copper-orange luster illuminates each side of this high-end Premium Gem Red 1895 Indian cent. The strike is sharp, and no bothersome carbon is observed. This issue is an available date through MS65 but becomes scarce in this grade. Finer coins are rarely seen. Population: 55 in 66 (6 in 66+) Red, 4 finer. CAC: 14 in 66, 1 finer (5/16). NGC ID# 228P, PCGS# 2192

- 3067 1897 MS65+ Red PCGS. CAC.** 30th Anniversary Green Label Holder. A lovely fire-red Gem. Dynamic luster and a bold strike contribute further to its charms. A few pinpoint obverse flecks cannot deny the eye appeal. Population: 60 in 65 (3 in 65+) Red, 21 finer. CAC: 7 in 65, 5 finer (5/16). NGC ID# 342W, PCGS# 2198

**1902 Indian Cent, MS66+ Red  
Glowing Red Surfaces**

- 3068 1902 MS66+ Red PCGS. CAC.** This impressive Premium Gem displays original red surfaces with a few hints of crimson and no mentionable distractions. The design elements are sharply rendered and frosty mint luster adds to the considerable eye appeal. Population: 59 in 66 (6 in 66+) Red, 12 finer. CAC: 9 in 66, 1 finer (5/16). NGC ID# 228X, PCGS# 2213

- 3069 1903 MS66 Red PCGS.** This Premium Gem Red 1903 Indian cent type coin has a distinctly golden appearance, with vibrant luster and unabraded surfaces. The strike is sharp, and there is only a single carbon speck — locate in left corner of the shield. Population: 84 in 66 (5 in 66+) Red, 8 finer (5/16). NGC ID# 228Y, PCGS# 2216

- 3070 1906 MS66 Red PCGS.** 30th Anniversary Green Label Holder. This lustrous high-grade type coin has exemplary orange color. Marks are absent and carbon is inconsequential. The strike is sharp except on the peripheries of Liberty. Population: 34 in 66 (1 in 66+) Red, 2 finer (5/16). NGC ID# 2293, PCGS# 2225

- 3071 1908 MS66 Red PCGS.** A delightful Premium Gem, with sharply detailed design elements and well-preserved original red surfaces that radiate vibrant mint luster on both sides. Eye appeal is outstanding. Population: 77 in 66 (10 in 66+) Red, 2 finer (5/16). NGC ID# 2295, PCGS# 2231

- 3072 1908 MS66 Red PCGS.** An untoned copper-gold Premium Gem example of this usually plentiful 20th century Indian cent. The present coin is sharply struck and conditionally scarce. A single speck is seen between the N and E in ONE. Population: 77 in 66 (10 in 66+) Red, 2 finer (5/16). NGC ID# 2295, PCGS# 2231
- 3073 1909-S MS64 Red and Brown PCGS. CAC.** Faint, woodgrain mahogany toning accents the coppery-gold luster of this Choice 1909-S Indian cent, denoting the Red and Brown designation. Slight weakness on the top three headdress feathers is normal for the issue, and there are no mentionable abrasions. NGC ID# 2298, PCGS# 2239
- 3074 1909-S MS64 Red PCGS.** A well-preserved example of this key San Francisco issue with distinctively golden surfaces and frosty luster. A few scattered specks are not overly noticeable. This piece shows strike weakness on the top three headdress feathers, as is almost always seen on this issue. NGC ID# 2298, PCGS# 2240

**1909-S Indian Cent, MS65 Red  
Final Year of the Design**

- 3075 1909-S MS65 Red NGC.** The 1909-S Indian cent claims a low mintage of 309,000 pieces, struck during the last year of the design. This delightful Gem exhibits well-preserved original red surfaces with a few highlights of magenta and strong, but subtle, mint luster on both sides. The design elements are well-detailed and eye appeal is quite strong. NGC has graded seven numerically finer examples (5/16). NGC ID# 2298, PCGS# 2240

**PROOF INDIAN CENTS**

- 3076 1860 PR64 PCGS.** 30th Anniversary Green Label Holder. A sharply struck and satiny Choice proof cent. Primarily butter-gold, although the central reverse displays peach and lilac shades. Much scarcer than suggested by the *Guide Book* mintage of 1,000 pieces, since many unsold proof sets were melted. NGC ID# 229A, PCGS# 2253

**1864 Bronze No L Cent, PR65 Red and Brown  
One-Sided Cameo**

- 3077 1864 Bronze No L PR65 Red and Brown PCGS.** The later bronze 1864 proof cent, suitable for date representation. This Gem Red and Brown example displays olive-gold and lavender hues on the obverse with deeper gold and copper-brown reverse toning. A few scattered specks are present. The obverse has modest field-device contrast. Housed in an old green label holder. Population: 41 in 65 Red and Brown, 14 finer (5/16). NGC ID# 229F, PCGS# 2277

- 3078 1865 PR65 Red and Brown PCGS.** Plain 5. Much closer to red than brown, particularly on the honey and peach obverse. The reverse is variegated cherry-red and sun-gold. This Civil War cent has noticeable cameo contrast, although no such designation is present on the PCGS insert. The strike is unimprovable, and a loupe reveals only infrequent obverse flecks.  
*Ex: Rosemont Central States (Heritage, 4/2008), lot 183, which realized \$1,725. NGC ID# 229H, PCGS# 2283*
- 3079 1865 PR64 Red NGC.** An elusive full Red example of this early bronze proof issue, showing sharp details and deeply reflective fields. Each side displays coppery-red and amber coloration. A few scattered specks are not serious. Census: 8 in 64 Red, 6 finer (5/16). NGC ID# 229H, PCGS# 2284
- 3080 1870 PR66 Red and Brown NGC. CAC.** Shallow N in ONE. A well struck and prominently mirrored high-grade proof cent. Primarily peach-gold, but a blush of sea-green toning on the left field precludes Red assessment. NGC ID# 229N, PCGS# 2298
- 3081 1871 PR65 Red and Brown NGC. CAC.** Shallow N in ONE. This lovely Gem has an intricate strike and a carbon-free appearance. Apple-green and ruby-red shades augment predominantly orange-gold surfaces. More attractive than many proofs certified in Red Gem holders. NGC ID# 229P, PCGS# 2301
- 3082 1872 PR65 Red and Brown NGC.** Bold N in ONE. Rich jade-green centers are framed by orange, red, and lilac peripheral shades. Fully struck and unabraded. Carbon is confined to a solitary fleck between the NI in UNITED. As attractive as any Red Gem. NGC ID# 229R, PCGS# 2304
- 3083 1876 PR65 Red and Brown PCGS. CAC.** A pleasingly detailed proof representative from this Centennial-year issue, pumpkin-orange and mushroom-brown with hints of squash-yellow at the margins. A single carbon spot is noted to the left of Liberty's lips.  
*Ex: Houston Signature (Heritage, 11/2007), lot 60089. NGC ID# 229V, PCGS# 2316*
- 3084 1885 PR66 Brown PCGS. CAC.** Eagle Eye Photo Seal, photo card not included. An intricately impressed and undisturbed proof type coin. Apple-green centers are bounded by peripheral bands of lavender-red.  
*Ex: Fort Lauderdale Bullet (Heritage, 1/2005), lot 213; Long Beach Signature (Heritage, 9/2007), lot 446, which realized \$632.50. NGC ID# 22A6, PCGS# 2342*
- 3085 1885 PR66 Red NGC. Snow-PR4.** Mirrored fields and rich orange-red color ensure the eye appeal of this undisturbed Premium Gem. The strike is good save for blending on the top of the shield and the 88 in the date. NGC ID# 22A6, PCGS# 2344
- 3086 1886 Variety 2 PR65 Red and Brown PCGS.** A conditionally elusive Gem Red and Brown example of the Type Two 1886 proof cent. The mirrored fields and sharp devices show vivid copper-orange, crimson, forest-green, yellow-gold hues throughout. Population: 17 in 65 Red and Brown, 4 finer (5/16). NGC ID# 22A8, PCGS# 92346
- 3087 1900 PR65 Red NGC. CAC. Snow-PR2.** Well struck and prominently mirrored with a virtual absence of carbon. The lime-green and apricot-gold surfaces are pristine save for wispy contact below the C in CENT.  
*Ex: Orlando Signature (Heritage, 1/2006), lot 924, which realized \$747.50. NGC ID# 22AN, PCGS# 2389*

**1906 Indian Cent, PR67 Red and Brown  
Tied for Finest at PCGS**

**3088 1906 PR67 Red and Brown PCGS. CAC. Ex: Perfection 2.** This magnificent Superb Gem exhibits razor-sharp definition on all design elements and the impeccably preserved original red surfaces have mellowed to attractive shades of light brown and violet in selected areas. Eye appeal is tremendous. Only two coins have been verified by CAC in PR67 Red and Brown, with none finer. Population: 2 in 67 Red and Brown, 0 finer (6/16). NGC ID# 22AY, PCGS# 2406

**3089 1909 PR66 Red PCGS.** This final-year Premium Gem proof Indian cent displays a needle-sharp strike and deeply mirrored fields with modest cameo contrast. Both sides have a distinctive array of color, beginning in yellow-gold along the left-hand border and gradually transitioning to deep crimson-red along the opposite rim. NGC ID# 22AY, PCGS# 2416

## LINCOLN CENTS

**3090 1909 VDB MS67 Red and Brown PCGS. CAC.** 30th Anniversary Green Label Holder. Exquisite jade-green, rose-red, and pumpkin-gold shades provide remarkable eye appeal. Fully struck and lustrous, typical for this low mintage and well made issue. Carbon is confined to a minute speck or two near the stems of the wheat ears. NGC ID# 22AZ, PCGS# 2424

**1909 VDB Cent, MS67+ Red  
Registry-Grade Rarity**

**3091 1909 VDB MS67+ Red PCGS. CAC.** The 1909 VDB Lincoln cent is usually obtainable in MS67, but finer coins are prohibitively rare. This MS67+ example will appeal to Registry Set collectors. The strike is bold, and the glistening mint-fresh luster is virtually flawless in preservation. Wisps of mint and lilac appear throughout the coppery-gold surfaces, granting exceptional visual appeal. PCGS and NGC have each seen only one finer coin (5/16). NGC ID# 22AZ, PCGS# 2425

**3092 1909-S VDB — Improperly Cleaned — NGC Details. Unc.** Cartwheel luster rolls across this well defined and unabraded first-year key date cent. The sea-green and rose-gold surfaces are recolored but nonetheless attractive. NGC ID# BYKW, PCGS# 2426

**3093 1909-S VDB MS65 Red and Brown NGC.** A Gem Red and Brown example of this key San Francisco issue, showing golden luster beneath a woodgrain pattern of chestnut-brown toning. The strike is sharp, and there are no obvious abrasions. Finer Red and Brown coins are elusive. NGC ID# 22B2, PCGS# 2427

**1909-S VDB Lincoln Cent, MS65 Red and Brown  
Important Series Key**

**3094 1909-S VDB MS65 Red and Brown NGC. CAC.** The original red surfaces of this important key Lincoln cent have mellowed to light brown in some areas, but only insignificant signs of contact are present and satiny mint luster shines through the patina. The design elements are uniformly sharp and the designer's initials are bold. NGC has graded 48 numerically finer examples (5/16). NGC ID# 22B2, PCGS# 2427

**1909-S VDB Cent, Red Gem  
Classic Collector Piece**

**3095 1909-S VDB MS65 Red PCGS. CAC.** Rich reddish-orange coloration with minimal carbon makes for an impressive 1909-S VDB cent, and this well-defined Red Gem with rolling satin luster makes for a magnificent first-year key. A great example of an issue that has been popular since the year it was struck and maintained that popularity for more than a century.  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22B2, PCGS# 2428

**1909-S Lincoln Cent, MS66 Red  
Only Six Finer at PCGS**

**3096 1909-S MS66 Red PCGS.** Many, many times rarer than the 1909-S-VDB cent, the 1909-S was virtually ignored while the S-VDB was hoarded by the thousands. This beautiful coin just screams "eye appeal," with radiant luster on both sides complementing the delicate pinkish-orange and sunset-orange patina. This sharply struck piece shows minuscule flecks only on the reverse, visible with a loupe. One of the nicest this cataloger has ever seen, in many long years of viewing top-grade Lincoln cents. PCGS has only certified six finer examples, while NGC has graded just five finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22B4, PCGS# 2434

**3097 1909-S/S S Over Horizontal S, FS-1502, MS65 Red PCGS.** A well struck and highly lustrous olive-green and fire-red Gem. Devoid of contact, and a lens reveals only a smattering of pinpoint flecks, mostly on the obverse. A popular variety on a first-year and low mintage issue. NGC ID# 22B4, PCGS# 37645

**3098 1909-S/S S Over Horizontal S, FS-1502, MS66 Red PCGS.** The radiant obverse is canary-gold. The slightly dusky reverse is apricot-gold. Fully struck, highly lustrous, and essentially unabraded. A lens reveals scattered minute carbon. NGC ID# 22B4, PCGS# 37645

**1910 Cent, MS67 Red  
Among the Finest Certified**

**3099 1910 MS67 Red PCGS.** An outstanding pumpkin-gold Superb Gem. Lustrous, sharply struck, and devoid of contact. A strong loupe is needed to locate trivial carbon. As nice as can be obtained, and an essential entry for the competitive Registry holding. Population: 32 in 67 (3 in 67+) Red, 0 finer (5/16). NGC ID# 22B5, PCGS# 2437

**3100 1911 MS66 Red PCGS.** A remarkable Premium Gem, with blazing mint luster and original red surfaces that show no mentionable signs of contact. Eye appeal is terrific. PCGS has graded 14 numerically finer examples (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22B7, PCGS# 2443

**1911-D Cent, MS66 Red  
Almost Uncollectible Finer**

**3101 1911-D MS66 Red PCGS.** Registry Set quality appears on each side of this Premium Gem Red 1911-D Lincoln cent, showing luminous coppery-orange luster and a well-executed strike. Die erosion in the fields produces a haziness around the design elements that contributes to the shimmering effect seen when rotated beneath a light. Population: 54 in 66 (5 in 66+) Red, 1 finer (5/16). NGC ID# 22B8, PCGS# 2446

**1911-D Lincoln Cent, MS66 Red  
Prohibitively Rare in Finer Grades**

**3102 1911-D MS66 Red PCGS.** The original red surfaces of this delightful Premium Gem are impeccably preserved, but a few thin planchet fissures are evident on the reverse. The design elements are sharply detailed and vibrant mint luster radiates from both sides. Overall eye appeal is terrific. Population: 54 in 66 (5 in 66+) Red, 1 finer (5/16). NGC ID# 22B8, PCGS# 2446

**1911-D Lincoln Cent, MS66 Red  
One Numerically Finer at PCGS**

**3103 1911-D MS66 Red PCGS.** This spectacular Premium Gem Lincoln cent exhibits sharply detailed design elements throughout, with well-preserved original red surfaces and ample mint luster on both sides. The outstanding eye appeal complements the high technical quality. Population: 54 in 66 (5 in 66+) Red, 1 finer (5/16). NGC ID# 22B8, PCGS# 2446

**3104 1911-S MS65 Red and Brown PCGS. CAC.** The mostly red surfaces of this impressive Gem have mellowed to light brown and crimson in selected areas, but few signs of contact are evident. The design elements are sharply detailed, with satiny mint luster under the patina. Population: 69 in 65 (2 in 65+) Red and Brown, 0 finer. CAC: 8 in 65, 0 finer (5/16). NGC ID# 22B9, PCGS# 2448

**3105 1911-S MS65 Red PCGS.** A splendid peach-red and olive-green Gem. The strike is intricate, and the unabraded surfaces display vibrant cartwheel sheen. Certified in an old green label holder.  
*Ex: FUN Signature (Heritage, 7/2013), lot 3861, which realized \$2,115.*  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22B9, PCGS# 2449

**3106 1912-D MS65 Red PCGS. CAC.** *Ex: LaBute Collection.* A fire-red early branch mint Gem. Lustrous and nicely struck with a mark-free appearance. Tiny flecks near OF determine the grade.  
*Ex: Joe LaBute Collection (Heritage, 2/2002), lot 5183, which realized \$920.*  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BB, PCGS# 2455

**3107 1913 MS66 Red PCGS.** Magnificent pumpkin-gold color along with small splashes of red provides attractive eye appeal for this early Lincoln cent, with the obverse being particularly pleasing. Tiny carbon spots are present on the reverse along with a portion of a faint fingerprint at the stem of the right wheat ear. Population: 77 in 66 (1 in 66+) Red, 9 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BD, PCGS# 2461

**1914 Cent, MS66 Red  
Appealing Original Luster**

- 3108 1914 MS66 Red NGC.** A boldly struck Premium Gem with original copper-red luster that reveals hints of green and crimson around the lower reverse rim. A few tiny specks do not detract, and there are no discernible abrasions. The 1914 is elusive in MS66 Red, and finer representatives are extremely rare. Census: 17 in 66 Red, 1 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BG, PCGS# 2470

- 3109 1914-D AU50 PCGS.** A seldom seen AU example of this key Denver issue, showing attractive medium brown surfaces with problem-free fields and a brush of high-point friction. The strike is bold, and eye appeal surpasses expectations for the grade. NGC ID# 84BX, PCGS# 2471

**1914-D Cent, MS63 Brown  
Silvery-Brown Luster**

- 3110 1914-D MS63 Brown NGC.** Chocolate-brown dominates the right obverse, while the left field is silvery mint-green. The reverse is lighter in color and displays chestnut and lime tints. Lustrous and meticulously struck with pleasing surfaces. A famous low-mintage key date, less saved than its 1909-S VDB predecessor and 1931-S successor.  
*Ex: Dallas Signature (Heritage, 10/2009), lot 153.* NGC ID# 84BX, PCGS# 2471

**1914-D Cent, MS63 Red  
Original Mint Luster**

- 3111 1914-D MS63 Red PCGS.** A lack of major abrasions complements satiny copper-red luster on this Select Red 1914-D Lincoln cent. Scattered carbon specks are seen on the obverse, and a partial print appears on the right-hand portion of the reverse. Overall, a still-pleasing example of this key Denver issue with original copper-red surfaces.  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BH, PCGS# 2473

**1914-S Lincoln Cent, MS64+ Red  
Outstanding Eye Appeal**

- 3112 1914-S MS64+ Red PCGS. CAC.** Gorgeous bright fiery-orange color covers most of the obverse, creating outstanding eye appeal for this near-Gem representative. Although not quite as spectacular, the reverse is pleasing as well with attractive shades of orange and a hint of red. Aside from the top of the O in ONE, this coin exhibits a strong degree of detail. CAC: 5 in 64, 4 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BJ, PCGS# 2476

- 3113 1915 MS66 Red PCGS.** The reverse margin exhibits glimpses of cherry-red, but the remainder of this lustrous cent is apricot-gold. The strike is full and the fields are pristine. One narrow intermittent mark from Lincoln's ear to his forehead. Housed in a green label holder. Population: 91 in 66 (2 in 66+) Red, 13 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BK, PCGS# 2479

- 3114 1915-S MS64 Red and Brown PCGS.** Satiny chestnut-brown luster allows the emergence of golden undertones on this Choice Red and Brown 1915-S Lincoln cent. The strike is pleasing, and a few carbon specks are too small to be distracting. PCGS lists 24 finer Red and Brown representatives (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BM, PCGS# 2484

- 3115 1916 MS67 Red PCGS.** Glistening mint-fresh luster adorns each side of this golden-orange Superb Gem 1916 Lincoln cent. The strike is sharp, and there are no mentionable carbon specks. Eye appeal surpasses expectations for the issue. This piece is among the finest certified. Population: 66 in 67 (8 in 67+) Red, 0 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BN, PCGS# 2488

- 3116 1917 MS66 Red PCGS Secure.** This Premium Gem Red 1917 Lincoln cent displays swirling copper-red and gold hues that adorn the almost carbon-free, mint-fresh surfaces. A few mint-made strike-through marks on the obverse portrait should not be confused with post-striking abrasions. PCGS has seen 20 numerically finer Red examples (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BS, PCGS# 2497

- 3117 1917 MS66 Red PCGS.** Fire-red and olive-gold alternate across this nicely preserved example. The strike is unimprovably sharp, and only moderate carbon is noted near the portrait. NGC ID# 22BS, PCGS# 2497

- 3118 1917-S MS64 Red PCGS.** Satiny copper-orange luster gives this Choice 1917-S cent its Red appearance, while scattered specks and a few small marks preclude a Gem designation. Nonetheless, the 1917-S is a scarce issue in full Red condition, and the present coin will appeal to a range of collectors who find a rare finer coin to be out of reach. Population: 65 in 64 (1 in 64+) Red, 19 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BU, PCGS# 2503

**1918 Cent, MS67 Red  
Seldom Seen So Fine**

- 3119 1918 MS67 Red PCGS.** The end of the Great War which we today call World War I saw an enormous production of more than 288 million Lincoln cents in Philadelphia, plus 82 million more between Denver and San Francisco. Few survive so fine as the present P-mint Superb Gem Red example, showing richly lustrous golden-tan surfaces with a bold strike (save for the PL in PLURIBUS on the reverse rim, a function of die fatigue) and nary a quibble in terms of carbon or contact. Population: 33 in 67 (4 in 67+) Red, 1 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BV, PCGS# 2506

**1918 Cent, MS67 Red  
Registry-Grade Example**

- 3120 1918 MS67 Red PCGS. CAC.** This magnificent Registry coin is among the finer-known examples of the 1918 Lincoln cent and is conditionally rare as such. The surfaces display satiny copper-orange luster that is largely free of carbon spotting and abrasions. Slight die erosion is present in the fields, but the design sharpness is not overly affected. Population: 33 in 67 (4 in 67+) Red, 1 finer. CAC: 11 in 67, 0 finer (5/16). NGC ID# 22BV, PCGS# 2506
- 3121 1918-S MS65 Red and Brown PCGS. CAC.** Steel-blue, burgundy, and coppery-red hues make more or less equal coverage on this Gem Red and Brown 1918-S cent. The strike is sharp, and there are no significant abrasions. Eye appeal is further accentuated by a lack of carbon spotting. Population: 25 in 65 (1 in 65+) Red and Brown, 0 finer. CAC: 6 in 65, 0 finer (5/16). NGC ID# 22BX, PCGS# 2511
- 3122 1919 MS67 Red PCGS.** The surfaces are nearly flawless on this Superb Gem early P-mint, and one will have to look long and hard to find any trace of carbon. The strike is full, with the whiskers on Lincoln completely defined and the top of the O in ONE crisp as well. The finely granular surfaces have bright copper-golden color. Population: 70 in 67 (8 in 67+) Red, 17 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BY, PCGS# 2515
- 3123 1921 MS66 Red PCGS.** 30th Anniversary Green Label Holder. An outstanding Lincoln cent. Orange-gold overall with a hint of lilac on the portrait. Contact and carbon are virtually absent. Only a handful of pieces have been certified finer. Population: 80 in 66 (6 in 66+) Red, 14 finer (5/16). NGC ID# 22C6, PCGS# 2533

- 3124 1921 MS66 Red PCGS.** 30th Anniversary Green Label Holder. A crisply struck butter-gold Premium Gem. The lustrous surfaces appear devoid of marks. A few flecks on the right obverse field are all that limit the grade. NGC ID# 22C6, PCGS# 2533
- 3125 1921 MS66 Red PCGS.** Bright orange-red color is seen over each side and the striking details are fully brought up throughout. Outstanding quality. Population: 80 in 66 (6 in 66+) Red, 14 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22C6, PCGS# 2533
- 3126 1922-D MS66 Brown PCGS. CAC.** Enormously eye-appealing for a Brown example, this Premium Gem 1922-D Lincoln cent boasts shimmering mint luster and sharp design elements. Steel-blue hues glisten atop burgundy toning, while tinges of copper-red peek out of the protected regions of the fields. Population: 2 in 66 Brown, 0 finer. CAC: 1 in 66, 0 finer (5/16). NGC ID# 22C8, PCGS# 2537
- 3127 1922 No D, Strong Reverse, FS-401, XF45 PCGS. CAC.** TRUST and the second 2 in the date are sharper than the rest of the obverse, confirming the rare FS-401 variety. Sharp definition on the wheat ears demonstrates that the coin has only light wear. The olive-brown surfaces are minimally marked and free from spots. NGC ID# 22C9, PCGS# 37676 Base PCGS# 3285
- 3128 1923-S MS65 Red and Brown PCGS. CAC.** Gem 1923-S cents of any color designation are scarce. This CAC-endorsed Red and Brown coin displays well-struck design elements and satiny luster. Coppery-gold luster yields to auburn-brown toning on portions of each side. Population: 21 in 65 Red and Brown, 0 finer. CAC: 5 in 65, 0 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22CB, PCGS# 2547
- 3129 1924-D MS65 Red and Brown NGC. CAC.** The orange-gold obverse is close to full Red. The reverse is dusky peach-red with a blush of forest-green near the left wheat ear. Lustrous and nearly mark-free. The strike is sharp except on the O in ONE. Certified in a prior generation holder. NGC ID# 22CD, PCGS# 2553
- 3130 1924-S MS64 Red PCGS.** Finer Red examples of the 1924-S cent are rare. This collectible near-Gem displays well-struck motifs and satiny copper-gold patina. Some minor die erosion appears in the fields, and a few tiny specks are present.  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22CE, PCGS# 2557
- 3131 1927 MS67 Red PCGS. CAC.** Glowing tangerine-orange luster gives this Superb Gem Red 1927 Lincoln cent excellent eye appeal. The strike is bold, and there are no mentionable carbon specks. This top-grade, CAC-endorsed Registry coin will appeal to numerous collectors for its unsurpassed quality. Population: 46 in 67 (3 in 67+) Red, 0 finer. CAC: 17 in 67, 0 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22CM, PCGS# 2578
- 3132 1927-D MS65 Red PCGS.** Gem Red examples of the 1927-D Lincoln cent are scarce, and finer pieces are rare. This coin is sharply struck with coppery-pink luster and satiny surfaces. A few tiny, scattered specks are not overly distracting. Population: 56 in 65 Red, 2 finer (5/16). NGC ID# 22CN, PCGS# 2581
- 3133 1927-S MS64 Red PCGS.** A well-preserved near-Gem 1927-S cent in full Red condition. This piece is well-struck despite some mild die fatigue, and the surfaces display original luminance. A few semitransparent olive toning spots on the reverse will identify a pedigree. PCGS has seen 19 finer Red examples (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22CP, PCGS# 2584

**1928 Lincoln Cent, MS67+ Red  
Never Found Finer**

- 3134 1928 MS67+ Red PCGS. CAC.** There has never been a finer 1928 Lincoln cent certified at PCGS or NGC. This delightful Superb Gem has frosty and highly lustrous orange mint brilliance with delicate peripheral gold accents. It is sharply struck and highly appealing. Population: 69 in 67 (6 in 67+) Red, 0 finer. CAC: 14 in 67, 0 finer (5/16).

*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22CR, PCGS# 2587

- 3135 1929 MS67 Red PCGS. CAC.** An exquisite peach-gold Superb Gem that has booming luster and a pleasing strike. A few subtle hints of gray visit the upper and lower reverse field. Splendid quality from a year best known for its stock market crash. Population: 63 in 67 (4 in 67+) Red, 0 finer. CAC: 16 in 67, 0 finer (5/16).

*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22CU, PCGS# 2596

**1929-S Lincoln Cent, MS66 Red  
Extremely Rare Any Finer**

- 3136 1929-S MS66 Red PCGS.** A spectacular Premium Gem Lincoln cent, with impeccably preserved original red surfaces that radiate vibrant mint luster and sharply detailed design elements throughout. Overall visual appeal is tremendous. This coin should find a home in the finest collection or Registry Set. Population: 38 in 66 (1 in 66+) Red, 0 finer (5/16). NGC ID# 22CW, PCGS# 2602

**1931-D Lincoln Cent, MS66 Red  
Only One Finer Coin at PCGS**

- 3137 1931-D MS66 Red PCGS.** A spectacular Premium Gem Lincoln cent, with well-preserved original red surfaces that radiate vibrant mint luster and well-detailed design elements throughout. The outstanding eye appeal matches the high technical quality. Housed in a new 30th Anniversary green label holder. Population: 42 in 66 (1 in 66+) Red, 1 finer (5/16). NGC ID# 22D3, PCGS# 2617

**1934 Lincoln Cent, MS68 Red  
Strong Registry Set Contender**

- 3138 1934 MS68 Red PCGS.** The blazing original red surfaces of this impeccably preserved Lincoln cent radiate vibrant mint luster from both sides, with no trace of carbon or mentionable distractions. The design elements are well-detailed and the outstanding eye appeal is a match for the high technical quality. Population: 17 in 68 Red, 0 finer (5/16). NGC ID# 22D9, PCGS# 2635

- 3139 1938-D MS67+ Red PCGS. CAC.** This Plus-graded Superb Gem exhibits sharply detailed design elements and well-preserved original red surfaces, with vibrant mint luster on both sides. PCGS has graded just one numerically finer example (5/16). NGC ID# 22DM, PCGS# 2671

- 3140 1940 MS67+ Red PCGS.** This pristine Superb Gem exhibits gorgeous light orange luster and satin surfaces with delicate gold accents. PCGS has only certified five finer examples of this issue (5/16). NGC ID# 22DT, PCGS# 2686

**1941 Cent, MS66 Red  
Doubled Die Obverse**

- 3141 1941 Doubled Die Obverse, FS-101, MS66 Red PCGS. CAC.** Three different doubled die obverses are known for the 1941 Lincoln cent, FS-101 being one of the most prominent with doubled seen on all obverse lettering. This Premium Gem Red example is among the finest of any 1941 doubled die certified at PCGS. The strike is sharp, and the frosty surfaces display rich golden-orange luster. A few tiny pepper specks on the reverse are not immediately obvious. Population: 34 in 66 (2 in 66+) Red, 0 finer. CAC: 13 in 66, 0 finer (5/16). NGC ID# 22DW, PCGS# 37780 Base PCGS# 92695

- 3142 1941-S MS67+ Red PCGS. CAC.** A frosty, carbon-free Superb Gem 1941-S cent with thick tangerine-orange luster. The strike is bold, and the preservation is outstanding. One of only two dozen Plus-graded MS67 Red coins at PCGS with none finer. CAC: 49 in 67, 0 finer (6/16). NGC ID# 22DY, PCGS# 2701

- 3143 1944-D MS67+ Red PCGS. CAC.** A high-end Superb Gem with sharply detailed design elements and impeccably preserved surfaces that radiate vibrant mint luster. Eye appeal is terrific. PCGS has graded only two numerically finer examples (5/16). NGC ID# 22EC, PCGS# 2725

- 3144 1944-D/S FS-512 MS66 Red PCGS.** A fully struck orange-red example that boasts booming luster and a virtual absence of carbon. The San Francisco mintmark is apparent west, within, and south of the Denver mintmark. The variety is not to be confused with the *Guide Book* FS-511 1944-D/S, which shows an S north of the D. Population: 8 in 66 Red, 0 finer (5/16). NGC ID# 2734, PCGS# 37837

- 3145 1945-D MS67+ Red PCGS. CAC.** This Plus-graded Superb Gem Lincoln cent displays impeccably preserved original red surfaces, with satiny mint luster and sharply detailed design elements throughout. PCGS has graded just one numerically finer example (5/16). NGC ID# 22EH, PCGS# 2737
- 3146 1949 MS67 Red PCGS.** A conditionally scarce Registry-grade Superb Gem with essentially carbon-free surfaces and satiny copper-orange luster. The strike is sharp. None are numerically finer at either service. Population: 32 in 67 Red, 0 finer (5/16). NGC ID# 22EV, PCGS# 2770
- 3147 1949-S MS67+ Red PCGS.** This remarkable 1949-S Lincoln cent is tied with just seven other Plus-graded Superb Gems as the finest at PCGS (6/16). The strike is sharp, and the frosty copper-orange surfaces display nearly flawless preservation. An essential Registry Set acquisition. NGC ID# 22EX, PCGS# 2776
- 3148 1950 MS67 Red PCGS. CAC.** This top-grade Registry coin boasts satiny copper-orange luster without bothersome carbon spotting. The strike is sharp, and the eye appeal is excellent. None are numerically finer at either service. Population: 44 in 67 (3 in 67+) Red, 0 finer. CAC: 8 in 67, 0 finer (5/16). NGC ID# 22LA, PCGS# 2779

**1952 Lincoln Cent, MS67 Red  
Exceptional Registry Set Contender**

- 3149 1952 MS67 Red PCGS. CAC.** The 1952 Lincoln cent is very scarce in MS67 condition, and finer coins are virtually unobtainable. This magnificent Superb Gem offers well-detailed design elements and impeccably preserved original red surfaces that radiate vibrant mint luster from both sides. Population: 20 in 67 (1 in 67+) Red, 0 finer. CAC: 7 in 67, 0 finer (5/16). NGC ID# 22F6, PCGS# 2797
- 3150 1955 Doubled Die Obverse, FS-101, XF45 NGC.** A tan-brown example of the classic 1955 doubled die cent. Lincoln's cheekbone and jaw moderate wear. Impressively unabraded, although we note minor retained laminations on the lower reverse. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825
- 3151 1955 Doubled Die Obverse, FS-101, AU53 NGC.** The tan-brown surfaces are richly detailed and retain ample Mint gloss. A pair of thin marks on the obverse merit passing mention, and the obverse periphery displays a few specks of aqua residue. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825
- 3152 1955 Doubled Die Obverse, FS-101, AU53 NGC.** Lavender-red and sea-green toning accompanies this lightly circulated but unblemished representative. No Lincoln cent variety has more impressive die doubling than the famous 1955 FS-101. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825
- 3153 1955 Doubled Die Obverse, FS-101, AU53 NGC.** Moderate wear on the cheekbone and jaw confirms a short stay in circulation, but luster glimmers from the design elements. As always for this key variety, the obverse legends exhibit dramatic die doubling. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825
- 3154 1955 Doubled Die Obverse, FS-101, AU55 NGC.** A chocolate-brown example with occasional streaks of lighter tan toning. Void of noticeable contact, and the highpoints of the portrait show only slight wear. FS-101 is exceptional for the strength of the initial hubbing, as well as the spread between hubbings. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825

- 3155 1955 Doubled Die Obverse, FS-101, AU55 NGC.** Olive-green and lavender patina encompasses this unmarked and pleasing key-date cent. Protected regions retain glimpses of the initial orange-gold color. The 1955 FS-101 was the first widely publicized doubled die variety. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825
- 3156 1955 Doubled Die Obverse, FS-101, AU58 NGC.** Apple-green, lilac, and chestnut-gold toning embraces this briefly circulated key date cent. A lens reveals moderate field marks and a minor retained lamination near the right wheat ear. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825
- 3157 1955 Doubled Die Obverse, FS-101, AU58 NGC.** A charming golden-brown cent with smooth, satiny surfaces. Slight rub on the cheekbone and forehead denies a Mint State assessment. Discovered shortly after issue, the 1955 doubled die cent promptly became requisite for completion of the Lincoln series. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825
- 3158 1955 Doubled Die Obverse, FS-101 — Cleaned — ANACS. Unc Details, Net AU50.** For the collector seeking to fill the 1955 doubled die obverse hole in their collection without breaking the bank, this example displays bold detail and relatively smooth surfaces. The interiors are bright copper-pink, and the borders display sea-green toning. NGC ID# 4LNH, PCGS# 37910 Base PCGS# 2825
- 3159 1972 Doubled Die Obverse, FS-101, MS66+ Red PCGS.** Luminous copper-orange, crimson, and mint-green hues adorn the softly frosted surfaces of this high-end Premium Gem Red 1972 doubled die cent. The strike is bold, and the fields are free of abrasions. The doubled obverse is plain on the date and legends. NGC ID# 22GU, PCGS# 38013 Base PCGS# 2950
- 3160 1982 Bronze, Large Date, MS67+ PCGS.** The highly lustrous satin surfaces of this Superb Gem exhibit brilliant reddish-orange mint color with splashes of gold and blue toning. Population: 16 in 67 (2 in 67+), 0 finer (5/16). NGC ID# 22HM, PCGS# 146017
- 3161 1982 Zinc, Small Date, MS68 Red PCGS.** A vibrantly lustrous, frosty Registry coin, tied with four others as the finest at PCGS (6/16). This zinc, Small Date coin displays coppery-red luster with some minor die planchet lumps in the fields — not unusual for early zinc issues. The preservation is nearly flawless. NGC ID# 22HU, PCGS# 146030
- 3162 1982-D Zinc, Large Date, MS68 Red PCGS.** Both sides of this Superb Gem exhibit fiery orange mint luster and pristine surfaces. The eye appeal is extraordinary. This is an important piece for the modern Lincoln cent Set Registry collector. Finer pieces are non-existent. Population: 6 in 68 Red, 0 finer (5/16). NGC ID# 22HT, PCGS# 146033 Base PCGS# 3050

## SMS LINCOLN CENT

- 3163 1966 SMS SP67 Red Cameo PCGS.** A conditionally rare Superb Gem Cameo example of the 1966 Special Mint Set Lincoln cent. Prooflike fields and razor-sharp devices give this fire-orange Registry coin superb eye appeal. No carbon spotting is seen. Population: 23 in 67 Cameo, 0 finer (5/16). NGC ID# 22LV, PCGS# 83293

## PROOF LINCOLN CENTS

- 3164 1909 PR66 Brown NGC.** Broad rims, sharp devices, and matte luster characterize this Premium Gem Brown 1909 Lincoln cent proof. This piece was issued later in the year, following the removal of Victor D. Brenner's initials from the lower reverse border. Among Brown coins, this piece is tied for the finest. Census: 4 in 66 (1 in 66+) Brown, 0 finer (6/16). NGC ID# 22KS, PCGS# 3303
- 3165 1909 PR64 Red PCGS.** Subtle fire-red, olive-green, and sun-gold shades illuminate matte surfaces. An intricately struck and contact-free Choice cent. Superior quality despite minor obverse flecks near 2 o'clock and a small spot on the E in CENT. Certified in a first generation holder. NGC ID# 22KS, PCGS# 3305

---

**1910 Cent, PR66 Red and Brown  
Excellent Coloration**

**3166 1910 PR66 Red and Brown PCGS.** Burgundy overtones deepen the copper-red luster of this Premium Gem matte proof Lincoln cent, delivering rich eye appeal and masking a few insignificant grazes. The coin is fully struck and presents well when rotated beneath a light. The 1910 proof is elusive in this grade and exceedingly rare any finer in the Red and Brown category. Population: 29 in 66 (2 in 66+) Red and Brown, 5 finer (5/16). NGC ID# 22KT, PCGS# 3307

**3167 1912 PR65 Red and Brown PCGS.** Tinges of golden luster emerge on each side, but most of the surfaces display chestnut-brown toning. The strike is full, and the matte luster gives the coin a distinctive proof appearance. Population: 54 in 65 Red and Brown, 15 finer (5/16). NGC ID# 22KV, PCGS# 3313

**3168 1914 PR65 Red and Brown PCGS.** A tack-sharp matte proof with blended olive, amber, violet, gold, and russet toning. A few trivial specks are not obvious to the unaided eye. This Gem Red and Brown 1914 proof cent is pleasing for the grade and has few superiors. Population: 59 in 65 Red and Brown, 40 finer (5/16). NGC ID# 22KX, PCGS# 3319

**3169 1936 Type Two — Brilliant Finish PR65 Red PCGS.** The Mint struck a total of 5,569 proof cents in 1936 using two different finishes. Type Two proofs, struck with fully mirrored fields, are more available than their Satin Finish counterparts (Type One). This Type Two Gem has watery fields that show rich Red color and iridescent accents. Well-preserved with only a few scattered contact marks. NGC ID# 22L3, PCGS# 3335

**3170 1938 PR66 Red Cameo PCGS.** A starkly contrasted Cameo with rich copper-orange surfaces and deeply mirrored fields. The strike is full and the surfaces are unblemished and carbon-free. Finer Cameos are extremely rare. Population: 28 in 66 (2 in 66+) Cameo, 3 finer (5/16). NGC ID# 22L5, PCGS# 83341

**3171 1938 PR66 Red Cameo PCGS.** An elusive Red Cameo example in a lofty grade. This gleaming fire-orange proof 1938 Lincoln cent boasts almost carbon-free mirrors with modest field-device contrast. Eye appeal is excellent. Finer coins are rare. Population: 28 in 66 (2 in 66+) Cameo, 3 finer (5/16). NGC ID# 22L5, PCGS# 83341

**3172 1942 PR66 Red PCGS.** The original red surfaces of this spectacular Premium Gem are impeccably preserved, and the design elements are sharply detailed throughout. The deeply reflective fields add to the outstanding eye appeal. PCGS has graded three numerically finer examples (5/16). NGC ID# 22L9, PCGS# 3353

**3173 1952 PR67 Red Cameo PCGS Secure.** This is a magnificent Superb Gem proof with sharply detailed, frosty design elements that contrast boldly against the deeply mirrored fields. Blazing original red surfaces are impeccably preserved and appealing. Population: 25 in 67 (1 in 67+) Red Cameo, 2 finer (6/16). NGC ID# 22LC, PCGS# 83365

---

**TWO CENT PIECES**

**1864 Small Motto Two Cent, MS64 Red  
Key First-Year Variety**

**3174 1864 Small Motto, FS-401, MS64 Red NGC.** The 1864 Small Motto is the only two cent issue that competes to any degree with the 1872 in high-grade scarcity. This Choice Red example displays a bold strike and shimmering luster with hints of burgundy toning on each side. Abrasions are minimal for the grade. Housed in a prior generation holder. Census: 13 in 64 Red, 22 finer (6/16). PCGS# 38234 Base PCGS# 3581

**3175 1864 Large Motto MS66 Red and Brown PCGS. CAC.** A woodgrain pattern of auburn-brown toning accents coppery-orange luster on the obverse of this Premium Gem Large Motto coin. The reverse has similar color, but the brown toning is more of a centrally located blush with lustrous borders. The strike is sharp, and no distracting abrasions are present. Population: 22 in 66 (1 in 66+) Red and Brown, 0 finer. CAC: 21 in 66, 0 finer (5/16). NGC ID# 22N9, PCGS# 3577

---

**1865 Two Cent, MS66 Red  
Only One Coin Finer at PCGS**

**3176 1865 Plain 5 MS66 Red PCGS.** The strike is sharp on this frosty Premium Gem two cent piece, showing luminous coppery-orange luster and unabraded surfaces. A few pepper specks of carbon are not bothersome. This issue is elusive in MS66 Red, and finer coins are major rarities. Population: 48 in 66 (1 in 66+) Red, 1 finer (5/16). PCGS# 38249 Base PCGS# 3584

---

## PROOF TWO CENT PIECES

### 1866 Two Cent, PR65 Red Constant Color Throughout

- 3177 1866 PR65 Red PCGS.** Mirrored fields on this Gem proof 1866 two cent piece glimmer beneath coppery-orange coloration. The strike is sharp, and the surfaces are mostly free of distractions. The 1866 proof is seldom seen this fine in Red condition, and finer pieces are rare. Population: 31 in 65 Red, 6 finer (5/16). NGC ID# 274V, PCGS# 3632

- 3178 1868 PR66 Red and Brown PCGS.** CAC. Peach-orange, violet, magenta, and blue shadings meld over this Red and Brown Premium Gem. Impressively reflective with only a hint of peripheral carbon near 3 o'clock on the obverse. Population: 17 in 66 Red and Brown, 2 finer (6/16).

Ex: Long Beach Signature (Heritage, 6/2013), lot 3090. NGC ID# 274X, PCGS# 3637

- 3179 1870 PR65 Red and Brown PCGS Secure.** Ex: TDP Collection. Attractive blue and gold toning appears on both sides of this lovely Gem proof that retains bright to muted orange mint color. Population: 72 in 65 (1 in 65+) Red and Brown, 23 finer (5/16). NGC ID# 274Z, PCGS# 3643

- 3180 1871 PR66 Brown NGC.** FS-102. TRUST is die doubled counterclockwise, usual for proofs of this date. The borders retain the initial orange-red color, while the centers display ocean-blue toning. Fully struck and flashy with exemplary surfaces. A brief obverse lint mark (as issued) near 3 o'clock. NGC ID# 22NH, PCGS# 3645

- 3181 1871 PR66 ★ Red and Brown NGC.** A delightful Premium Gem from a mintage of 960 pieces, this coin exhibits sharply detailed design elements and hazy reflective fields. The mostly red surfaces show a few hints of magenta at the rims. Census: 22 in 66 (1 in 66★) Red and Brown, 1 finer (5/16). NGC ID# 22NH, PCGS# 3646

- 3182 1872 PR64 Red and Brown PCGS.** Coppery-orange and amber-gold hues dominate on each side of this Choice Red and Brown 1872 proof two cent piece. The strike is sharp, and the surfaces are appealing. Circulation strikes are seldom seen this fine, heightening the appeal of the proofs among budget-conscious collectors. NGC ID# 2752, PCGS# 3649

- 3183 1872 PR66 Red and Brown NGC.** The surfaces of this Premium Gem two cent proof are dramatically toned in shades of ice-blue and cherry-red, generating visual appeal that will undoubtedly appeal to admirers of originality. Expectedly fully struck and virtually devoid of contact. Census: 37 in 66 (1 in 66★) Red and Brown, 6 finer (6/16). NGC ID# 2752, PCGS# 3649

### 1873 Two Cent Piece, PR64 Red Closed 3 Variety

- 3184 1873 Closed 3 PR64 Red PCGS.** CAC. The final-year two cent issue, struck in proof format only. This Closed 3 example is well-preserved and delightfully colorful, showing lavender and coppery-red interiors surrounded by yellow-gold and mint-green peripheries. The strike is boldly executed, and only a few minor specks are present. Population: 24 in 64 Red, 33 finer. CAC: 3 in 64, 5 finer (5/16). NGC ID# 5L57, PCGS# 3653

## THREE CENT SILVER

### 1852 Three Cent Silver, MS67 Registry-Grade Type Coin

- 3185 1852 MS67 PCGS.** CAC. An outstanding type coin with an unusually sharp central strike. This Superb Gem 1852 silver three cent displays frosty mint luster with a blush of iridescent champagne toning. There are no abrasions, and the eye appeal is superb. Population: 21 in 67 (1 in 67+), 2 finer. CAC: 14 in 67, 1 finer (5/16). NGC ID# 22YZ, PCGS# 3666

### 1856 Three Cent Silver, MS65 Rare Any Finer

- 3186 1856 MS65 PCGS.** CAC. This attractive Gem exhibits well-detailed design elements, with some dramatic clash marks from the shield showing on the III on the reverse. The well-preserved surfaces are blanketed in shades of golden-brown toning, with occasional highlights of lavender. Vibrant, satiny mint luster shines through the patina. Population: 30 in 65, 6 finer. CAC: 10 in 65, 7 finer (5/16). NGC ID# 22Z5, PCGS# 3672

- 3187 1858 MS64 PCGS.** Satiny champagne interiors cede to teal-blue border toning on this Choice 1858 silver three cent piece. This is an available Type Two issue, although examples grading finer than the present coin are scarce. This piece shows minor strike weakness on the central shield, as usual. NGC ID# 22Z7, PCGS# 3674

**1862 Three Cent Silver, MS67  
Richly Toned Type Three Issue**

- 3188 1862 MS67 PCGS. CAC.** Orange, violet, and cobalt-blue toning appear over the entire obverse and reverse surfaces of this impressive Superb Gem. Slight central weakness is evident although the strike is above average for this issue. Both sides exhibit light clash marks. Population: 18 in 67, 0 finer. CAC: 14 in 67, 0 finer (5/16). NGC ID# 22ZB, PCGS# 3680

**PROOF THREE CENT SILVER**

**1865 Three Cent Silver, PR66  
Only 500 Pieces Struck**

- 3189 1865 PR66 PCGS.** A delightful Premium Gem specimen from a small proof mintage of 500 pieces, this coin offers well-detailed design elements and deeply mirrored fields throughout. The well-preserved surfaces are free of mentionable distractions, but an interesting die crack is evident to the left of the date. Housed in a new 30th Anniversary green label holder. Population: 20 in 66 (1 in 66+), 0 finer (5/16). NGC ID# 27CB, PCGS# 3715

- 3190 1871 PR64 Cameo PCGS.** A few trivial spots and delicate champagne toning appear on both sides of this lovely silver three cent piece. The fields are deeply mirrored and contrast nicely with the satiny and lustrous silver devices. An outstanding example for a type set or specialized collection. Population: 17 in 64 (1 in 64+) Cameo, 25 finer (5/16). NGC ID# 27CG, PCGS# 83722

**1873 Silver Three Cent, PR65 Cameo  
Final-Year Proof-Only Issue**

- 3191 1873 PR65 Cameo PCGS.** In 1873, the final year of the three cent silver series, only proof coins were struck. From a mintage of 600 pieces, this Gem Cameo is conditionally scarce and quite appealing. The strike is sharp, and the mirrored fields display light amber-gold toning near the borders. Population: 18 in 65 (2 in 65+) Cameo, 11 finer (5/16). NGC ID# 27CJ, PCGS# 83724

**THREE CENT NICKELS**

- 3192 1873 Open 3 MS65 PCGS. CAC.** The Open 3 logotype is plain on this Gem example. Both sides are softly lustrous with satiny, nickel-gray surfaces that show just a hint of champagne toning. The design elements are well-defined and the only grade-limiting factor is faint contact on Liberty's cheek, not obvious to the unaided eye. Population: 85 in 65 (14 in 65+), 4 finer. CAC: 18 in 65, 3 finer (5/16). NGC ID# 22NR, PCGS# 3740

**1873 Open 3 Nickel Three Cent, MS65+  
Seldom Found This Well-Preserved**

- 3193 1873 Open 3 MS65+ PCGS. CAC.** Well-preserved, satiny surfaces yield warm golden-gray toning on each side of this Gem Open 3 example. Several wreath leaves are slightly soft around the outer edges, but the remainder of the relief elements are well-defined. The Open 3 nickel three cent piece had about twice the mintage as did its Closed 3 counterpart (783,000 pieces versus 390,000 pieces), but it is remarkably similar in Mint State rarity. In Gem and finer grades, the Open 3 variant is actually slightly scarcer than the Closed 3, and it is conditionally rare at this level of preservation. Purchased from Pinnacle Rarities (8/2008): Eugene H. Gardner Collection, Part III (Heritage, 5/2015), lot 98116. NGC ID# 22NR, PCGS# 3740

- 3194 1874 MS65 PCGS.** An elusive Gem example with satiny luster and a hint of champagne toning. The strike is slightly weak on the left-hand Roman numeral but sharp elsewhere, and there are no mentionable abrasions. Population: 27 in 65 (2 in 65+), 15 finer (5/16). NGC ID# 2759, PCGS# 3742

**1879 Nickel Three Cent, MS67  
Among the Finest Certified**

- 3195 1879 MS67 NGC.** After a two-year hiatus, circulation-issue three cent nickels were again produced in 1879 to the extent of 38,000 pieces. This issue is rarely seen in Superb Gem condition. The present coin displays a bold strike with satiny, champagne-tinted luster. The reverse fields are semiprooflike. Census: 6 in 67 (1 in 67 ★), 0 finer (6/16). NGC ID# 275Z, PCGS# 3747

- 3196 1880 MS66 PCGS. Flynn-RPD-001.** The second 8 in the date is clearly repunched north, evident in both loops. Flynn and Breen list the variety for proofs, but the obverse die may also have struck a portion of the 21,000-piece business mintage. The present satiny Premium Gem is well struck and unabraded with light to medium steel-gray and chestnut-gold toning. NGC ID# 275C, PCGS# 3748

- 3197 1884 VF30 PCGS.** The 1884 nickel three cent piece is elusive in all grades, coming from a mintage of only 1,700 coins. This mid-level circulated example offers the budget-conscious collector a chance to acquire this date in problem-free condition with smooth surfaces and olive-gray patina. Population: 5 in 30, 54 finer (5/16). NGC ID# 2766, PCGS# 3752
- 3198 1887 MS66 PCGS Secure. CAC.** Ex: TDP Collection. Faint traces of peach-orange and lavender accents are apparent throughout this CAC-approved 1887 three cent nickel. A well-struck Premium Gem despite indistinctness around the upper obverse border. From a mintage of 5,001 coins. Population: 41 in 66, 1 finer (5/16). NGC ID# 22NU, PCGS# 3755
- 3199 1887 MS66 PCGS Secure. CAC.** Ex: TDP Collection. The Mint melted more than \$160,000 in old three cent nickels in 1887 and struck 5,001 new coins for collectors. This MS66 is technically surpassed by a single PCGS example (6/16). Brilliant silver-gray surfaces display bold detail with minor die lapping around the wreath. The fields are remarkably clean. NGC ID# 22NU, PCGS# 3755
- 3200 1888 MS67 NGC.** Fully brought-up with lively luster, mark-free surfaces, and a dusting of golden toning. We last offered this coin in 2001, and there is still only one example certified finer by NGC and PCGS combined. Census: 16 in 67, 0 finer (6/16).  
Ex: *Atlanta Signature* (Heritage, 8/2001), lot 5516. NGC ID# 275H, PCGS# 3757

**1889 Three Cent Nickel, MS67  
A Top-Graded Final-Year Survivor**

- 3201 1889 MS67 PCGS Secure. CAC.** Ex: TDP Collection. The three cent nickel series came to a close in 1889 with a token mintage of 18,125 coins. An excess of minor coinage made the denomination redundant during the post-Civil War period, but the coins became even more objectionable once silver started circulating in the mid-1870s. This Superb Gem is among the finest final-year survivors. Thickly frosted and nearly unmarked surfaces exhibit a full strike. Eye appeal is excellent. Population: 28 in 67, 0 finer (6/16). NGC ID# 275J, PCGS# 3758

**PROOF THREE CENT NICKELS**

- 3202 1866 PR65 Cameo PCGS.** An elusive Gem Cameo example of this early three cent nickel issue, showing a full strike and mirrored fields. A blush of light golden toning accentuates the modest field-device contrast. A threadlike strike-through appears in the upper field between the first two Roman numerals. Population: 33 in 65 Cameo, 25 finer (5/16). NGC ID# 275L, PCGS# 83762
- 3203 1866 PR66 Cameo NGC.** Deep glassy reflectivity and marked field-device contrast shine forcefully through lilac and golden patina. The 1866 three cent nickel proof is difficult to locate so well-preserved and attractive. Census: 21 in 66 Cameo (5 in 66 ★ Cameo), 1 finer (6/16).  
Ex: *Central States Signature* (Heritage, 5/2005), lot 5778. NGC ID# 275L, PCGS# 83762
- 3204 1867 PR66 NGC.** A well struck butter-gold specimen with noticeable contrast between the motifs and fields, but the prior generation holder predates the NGC Cameo designation for the series. This flashy and attractive Premium Gem is exemplary except for a small spot between the IC in AMERICA. NGC ID# 275M, PCGS# 3763

- 3205 1867 PR66 PCGS. CAC.** Reflective fields denote the proof status of this Premium Gem 1867 proof three cent nickel, although minor strike weakness is seen on the left two Roman numerals. Blue-green and lemon-gold toning appears over each side. Population: 5 in 66, 1 finer. CAC: 3 in 66, 1 finer (5/16). NGC ID# 275M, PCGS# 3763
- 3206 1867 PR66 Cameo PCGS.** The early three cent nickel proofs with contrast are elusive. This Premium Gem Cameo proof has exceptional field-to-device contrast. Both sides are boldly defined with brilliant, untuned gray surfaces. Population: 37 in 66 (3 in 66+) Cameo, 3 finer (5/16). NGC ID# 275M, PCGS# 83763
- 3207 1868 PR66 NGC.** A well struck wheat-gold Premium Gem. The mirrored fields appear essentially pristine. Among the scarcest proof issues in the series, limited by a mintage of 600+ pieces. Encapsulated in a former generation holder.  
Ex: *Western Hills Collection* (Heritage, 6/2005), lot 5398, which realized \$2,185. NGC ID# 29NA, PCGS# 3764
- 3208 1869 PR66 Cameo PCGS. CAC.** A well-struck Cameo proof with mirrored fields and frosty design elements. Wisps of light golden toning add warmth to the icy contrast, delivering outstanding eye appeal. Population: 20 in 66 (2 in 66+) Cameo, 5 finer. CAC: 14 in 66, 3 finer (5/16). NGC ID# 275P, PCGS# 83765
- 3209 1870 PR66 NGC.** Proof three cent nickel output reached at least 1,000 pieces in 1870, making this one of the more collectible proof issues in the series. Jet-black fields contrast boldly against the frosted devices, falling just shy of the requirements for a Cameo designation. The surfaces are remarkably preserved. Census: 20 in 66 (1 in 66 ★), 1 finer (5/16). NGC ID# 275R, PCGS# 3766
- 3210 1870 PR66 Cameo NGC.** A spectacular Premium Gem, with sharply detailed frosty design elements that contrast boldly with the deeply mirrored fields. The impeccably preserved surfaces add to the outstanding eye appeal. Census: 26 in 66 Cameo (1 in 66+, 2 in 66★), 4 finer (5/16). NGC ID# 275W, PCGS# 83766
- 3211 1871 PR67 NGC.** Although not certified as a Cameo proof, this Superb Gem has noticeable contrast. Both sides are fully brilliant with light gray color. Deeply mirrored fields serve to frame lightly frosted devices. One of the finest examples at both NGC and PCGS. Census: 8 in 67, 0 finer (6/16).  
Ex: *Long Beach Signature* (Heritage, 6/2006), lot 512. NGC ID# 275S, PCGS# 3767
- 3212 1872 PR66 Cameo NGC.** Proof three cent nickel production in 1872 remained about the same as the previous two years with an estimated 950 specimens struck. Examples of this quality with Cameo contrast are notable rarities. Tan-gold color accents deeply reflective surfaces. Free of over distractions. Census: 26 in 66 Cameo (1 in 66+ Cameo), 3 finer (6/16). NGC ID# 26JT, PCGS# 83768
- 3213 1872 PR66 Cameo NGC.** This Premium Gem proof enjoys deeply mirrored fields with stark Cameo contrast on each side. Trivial softness on the leftmost numeral of the denomination is common to proofs of this date. Census: 26 in 66 Cameo (1 in 66+ Cameo), 3 finer (6/16).  
Ex: *Long Beach Signature* (Heritage, 2/2005), lot 5731. NGC ID# 26JT, PCGS# 83768

**1873 Closed 3 Three Cent Nickel  
Brilliant PR66+ Cameo**

**3214 1873 Closed 3 PR66+ Cameo PCGS. CAC.** The 1873 three cent nickels offers one of the few chances for variation in this otherwise date-only series as both Closed and Open 3 coins are available. This is a completely brilliant example with deeply reflective proof mirrors and significant frosted contrast over the devices. The depth of reflectivity in the fields is confirmed by the partially lapped leaves at the top of the wreath on the reverse. Population: 20 in 66 (4 in 66+) Cameo, 1 finer. CAC: 18 in 66, 1 finer (5/16). NGC ID# 275U, PCGS# 83769

**3215 1875 PR66 PCGS Secure.** Ex: TDP Collection. Frosted motifs appear to float over the glassy mirrors of this Premium Gem proof. Numerous horizontal die polish lines occur on the reverse. Proof three cent nickel output amounted to 700 specimens in 1875. Neither PCGS nor NGC have seen a finer submission. Population: 21 in 66, 0 finer (6/16). NGC ID# 22NV, PCGS# 3771

**3216 1875 PR65 Cameo NGC.** A veil of golden color thinly graces the boldly contrasted surfaces of this Gem Cameo proof. Minor contact marks are apparent under magnification but virtually indistinguishable without the aid of a loupe. The Mint struck an estimated 700 proof three cent nickels in 1875. Census: 5 in 65 Cameo, 7 finer (6/16). NGC ID# 22NV, PCGS# 83771

**3217 1875 PR65 Cameo PCGS Secure.** Ex: TDP Collection. An impressive Cameo proof with sharply defined satin devices and fully mirrored fields under a delicate glaze of champagne toning. Population: 39 in 65 (5 in 65+) Cameo, 8 finer (5/16). NGC ID# 22NV, PCGS# 83771

**3218 1876 PR66 Cameo PCGS Secure.** Ex: TDP Collection. Both sides of this pleasing Premium Gem Cameo proof exhibit light gray color with outstanding field-to-device contrast on the untoned surfaces. The design motifs are bold. Population: 20 in 66 Cameo, 3 finer (5/16). NGC ID# 275W, PCGS# 83772

**3219 1876 PR66 Cameo PCGS. CAC.** Razor-sharp with frosty design elements and reflective fields. Cameo contrast emerges amid pastel gold and blue-gray toning, which gives this Premium Gem 1876 proof pleasant eye appeal. Population: 20 in 66 Cameo, 3 finer. CAC: 10 in 66, 0 finer (5/16). NGC ID# 275W, PCGS# 83772

**3220 1878 PR66 Cameo NGC. CAC.** A razor-sharp Premium Gem proof with reflective fields and frosty design elements. A hint of light golden toning adds warmth to each side. Finer 1878 proof three cent nickels are seldom seen. CAC: 48 in 66, 27 finer (6/16). NGC ID# 275Y, PCGS# 83774

**3221 1882 PR67+ PCGS. CAC.** This high-end Superb Gem proof is razor-sharp with frosty design elements and satiny fields. There is no perceptible cameo contrast, but this coin does not need it to deliver impressive eye appeal. Light champagne toning graces each side. PCGS has seen seven finer representatives. CAC: 40 in 67, 2 finer (5/16). NGC ID# 2764, PCGS# 3778

**3222 1883 PR67 Cameo NGC.** This brilliant Superb Gem proof Cameo displays a sharp strike and modest field-device contrast. The 1883 proof boasts the highest mintage of the series at 6,609 pieces, but high-end Cameo survivors are nonetheless scarce. Census: 22 in 67 Cameo (1 in 67 ★), 6 finer (6/16). NGC ID# 2765, PCGS# 83779

**3223 1886 PR67 PCGS. CAC.** The Philadelphia Mint struck only 4,290 three cent nickels in 1886, all of which were proofs. Few survivors can match this Superb Gem in terms of technical quality. Both sides are fully detailed with moderately glowing fields and a smooth, mostly silver-white sheen. A rare opportunity for the specialist. Population: 66 in 67 (2 in 67+), 3 finer. CAC: 19 in 67, 1 finer (5/16).

Ex: Long Beach Signature (Heritage, 2/2005), lot 5825. NGC ID# 2768, PCGS# 3782

**SHIELD NICKELS**

**3224 1866 Rays MS65 NGC.** Each side is brilliant with softly frosted luster. Well-detailed devices show clear olive veins and only a hint of softness over the lower shield and the right-hand stars on the reverse. The obverse exhibits extensive die cracks. Struck from rotated dies. NGC ID# 22NX, PCGS# 3790

**3225 1866 Rays MS65+ PCGS. CAC.** This first-year Shield nickel is a trifle softly defined due to the inexperience of mint workmen handling the hard copper and nickel alloy. Delicate gold toning appears on fully brilliant and lustrous light gray surfaces on this impressive Gem. CAC: 34 in 65, 7 finer (5/16). NGC ID# 22NX, PCGS# 3790

**3226 1870 MS66 NGC.** A spectacular Premium Gem, with well-preserved surfaces that radiate vibrant mint luster and show a few delicate highlights of pink toning. The design elements are well-detailed and both sides show a number of interesting die cracks. Census: 8 in 66 (1 in 66+), 1 finer (5/16). NGC ID# 22P4, PCGS# 3797

**3227 1872 MS65 PCGS.** Faintly die doubled west at the annulet, unlisted in *Cherrypickers'*. This Gem 1872 Shield nickel displays a bold strike and satiny nickel-gray luster with no obvious abrasions. Population: 48 in 65 (1 in 65+), 33 finer (5/16). NGC ID# 22P6, PCGS# 3799

**3228 1872 MS66 PCGS. CAC.** A boldly struck Premium Gem example of this conditionally elusive Shield nickel issue, showing satiny luster with a blush of light golden toning. Peripheral die cracks are seen around the obverse margins, as is typical of the type. Population: 32 in 66 (4 in 66+), 1 finer. CAC: 10 in 66, 1 finer (5/16). NGC ID# 22P6, PCGS# 3799

**1882 Shield Nickel, MS67  
Tied for Finest, Conditionally Rare**

**3229 1882 MS67 PCGS.** Fewer than a dozen 1882 Shield nickels survive in MS67, including seven at PCGS and four at NGC, with none finer (6/16). This PCGS example is well-struck and beautifully preserved with frosty luster that shows a hint of iridescence as it cartwheels around each side. Numerous, spidery die cracks are seen in the peripheries, not unusual for the type. A popular issue for type representation. NGC ID# 22PC, PCGS# 3812

## PROOF SHIELD NICKELS

### 1866 Rays Shield Nickel, PR65 Sharp First-Year Type Coin

- 3230 1866 Rays PR65 PCGS.** A sharp With Rays proof Shield nickel, showing mirrored fields and a hint of pastel color on each side. This first-year-proof Shield nickel is increasingly elusive in finer grades. This collectible Gem is problem-free and displays excellent eye appeal. By far the more plentiful of the two With Rays proof issues. NGC ID# 276G, PCGS# 3817

### 1870 Shield Nickel, PR66+ Single Finest Non-Cameo

- 3231 1870 PR66+ PCGS.** This Plus-designated Premium Gem is the sole finest non-Cameo proof 1870 Shield nickel. This issue is elusive so well-preserved, with or without a Cameo designation. The present coin displays a full strike with modest contrast on the obverse. A crescent of pastel rainbow colors graces the upper obverse border, but the remainder of each side is light golden. Population: 13 in 66 (1 in 66+), 0 finer (5/16). NGC ID# 276L, PCGS# 3824
- 3232 1871 PR66 Cameo PCGS.** Wispy champagne toning is barely visible on the brilliant light gray surfaces of this Premium Gem Cameo proof. The boldly detailed devices exhibit satin luster on lightly mirrored fields. Population: 24 in 66 (3 in 66+) Cameo, 2 finer (5/16). NGC ID# AMU3, PCGS# 83825
- 3233 1872 PR67 Cameo NGC.** This champagne-tinged Superb Gem Cameo is among the finest 1872 proof nickels certified. The strike is sharp, and the fields are deeply reflective. The obverse is die doubled on this proof marriage, plainly obvious on the annulet. Census: 5 in 67 Cameo (1 in 67+), 0 finer (6/16).  
*From The Black Bay Collection.* NGC ID# AMU4, PCGS# 83826

### 1874 Shield Nickel, Delicately Toned PR67+ Single Finest Non-Cameo Certified

- 3234 1874 PR67+ PCGS.** This is the sole finest non-Cameo certified, and the obverse displays a hint of contrast despite the lack of a designation. Both sides have reflective fields and sharp, frosty design elements. Pastel multicolor toning covers all but is more obvious on the reverse in concentric hues. Population: 11 in 67 (1 in 67+), 0 finer (5/16). NGC ID# 276R, PCGS# 3828

### 1876 Shield Nickel, PR67 ★ Cameo Golden-Toned Contrast

- 3235 1876 PR67 ★ Cameo NGC.** A fully struck Superb Gem Cameo, showing warm golden mirrors and frosty design elements. Eye appeal is exceptional, as the Star designation indicates. This Centennial-year proof is rarely seen in Superb Gem condition, with or without field-device contrast. This Cameo is a delight to behold. Census: 6 in 67 Cameo (1 in 67★), 1 finer (6/16).  
*From The Black Bay Collection.* NGC ID# 276T, PCGS# 83830
- 3236 1878 PR66 PCGS. CAC.** A flashy Premium Gem proof with iridescent pastel toning in the mirrors and sharp detail on the devices. PCGS has seen only 19 numerically finer examples of this popular proof-only issue (5/16). NGC ID# 276V, PCGS# 3832

### 1878 Shield Nickel, PR67 Cameo Top-Grade Registry Coin

- 3237 1878 PR67 Cameo NGC.** A deeply mirrored, modestly contrasted Superb Gem proof Cameo, showing a hint of golden peripheral color around brilliant, unmarked interiors. The 1878 had a mintage of 2,350 pieces, but as a proof-only issue, demand for this date is significantly higher than for most other proof issues in the Shield nickel series. This piece is among the finest Cameos certified. Census: 5 in 67 Cameo, 0 finer (6/16).  
*From The Black Bay Collection.* NGC ID# 276V, PCGS# 83832

**3238 1879 PR67 Cameo NGC.** Just the right combination of proof mirroring and cartwheel luster gives this contrasted Superb Gem proof 1879 Shield nickel outstanding eye appeal. A hint of light golden toning graces each side. Among the finest Cameos certified. Census: 8 in 67 Cameo, 0 finer (6/16).  
*From The Black Bay Collection.* NGC ID# 22PG, PCGS# 83833

**3239 1880 PR67 Cameo NGC. CAC.** Business strikes of the 1880 Shield nickel are unquestionably the rarest of the entire series, placing additional emphasis on proof examples. This Superb Gem proof has untuned nickel-gray surfaces with amazing contrast for an issue that is more often dull than brilliant. Census: 23 in 67 Cameo (4 in 67+, 1 in 67★), 1 finer. CAC: 12 in 67, 0 finer (5/16). NGC ID# 276W, PCGS# 83835

## LIBERTY NICKELS

**3240 1884 MS65 PCGS.** A remarkably well-preserved 1884 Liberty nickel, showing satiny luster with dusky lavender-gold toning on each side. The strike is above-average, and there are no singular abrasions. Finer coins are seldom offered. NGC ID# 22PJ, PCGS# 3845

**3241 1884 MS65 PCGS. CAC.** A few trivial marks on Liberty's cheek and neck prevent a higher grade for this lovely Liberty nickel. The strike is excellent, including detail in the ear of corn left of the ribbon bow. Brilliant light gray surfaces exhibit frosty luster. NGC ID# 22PJ, PCGS# 3845

**3242 1885 XF40 NGC.** Merely 1.4 million nickels were produced in 1885 — the lowest P-mint total in the series and second-lowest after the 1912-S. Consequently, this is the bar-none key date among Liberty nickels. Powder-blue and steel-gray surfaces display light high-point rub and a few scattered marks. NGC ID# 2773, PCGS# 3846

**3243 1885 — Obverse Improperly Cleaned — NGC Details. Unc.** Some faint hairlines on the obverse preclude a numeric grade on this unworn 1885 Liberty nickel, but to the naked eye, the golden-toned surfaces offer satisfactory appeal. The strike is slightly soft on the lower-left portion of the wreath but sharp elsewhere. A suitable key-date coin for the budget-conscious collector. NGC ID# 2773, PCGS# 3846

**3244 1888 MS65 PCGS. CAC.** An attractive Gem specimen of this popular type issue, with well-detailed design elements and well-preserved, lustrous surfaces under delicate shades of lavender and champagne-gold toning. Population: 70 in 65 (4 in 65+), 27 finer. CAC: 16 in 65, 11 finer (5/16). NGC ID# 2774, PCGS# 3849

### 1891 Nickel, Untoned MS66+ Highly Lustrous Surfaces

**3245 1891 MS66+ PCGS. CAC.** The 1891 is a scarcer date in the series, even though more than 16 million pieces were produced. Strike quality varies, but many examples are found with several areas of weakness. This is a highly lustrous coin with strong strike details — the only weak area is seen on the left ear of corn, as found on most dates. Untoned. Population: 36 in 66 (3 in 66+), 2 finer. CAC: 9 in 66, 1 finer (5/16). NGC ID# 2776, PCGS# 3852

**3246 1892 MS66 PCGS.** This champagne-tinted, semiprooflike Premium Gem is free of even minor abrasions. Were the upper stars lower-left wreath better struck, an even finer grade might have been achieved. This MS66 coin is among the finest 1892 nickels certified. Population: 42 in 66 (5 in 66+), 0 finer (5/16). NGC ID# 2777, PCGS# 3853

**3247 1893 MS66 PCGS.** An impressively sharp example, especially for the late state of the dies. Both sides of this Premium Gem 1893 nickel display moderate metal flow lines in the fields, and the reverse shows rim crumbling along the lower-left border. Peripheral die cracks round out the characteristics. This piece exhibits frosty luster and golden-gray toning. Population: 49 in 66 (2 in 66+), 1 finer (5/16). NGC ID# 2778, PCGS# 3854

### 1894 Nickel, Frosty MS66+ Few Known Finer

**3248 1894 MS66+ PCGS. CAC.** Frosty, champagne-tinted mint luster rolls over unabraded surfaces on this high-end Premium Gem 1894 Liberty nickel. Save for stars 1 and 2, the design elements are boldly struck. This issue is elusive so well-preserved, and finer representatives are exceedingly rare. Population: 53 in 66 (8 in 66+), 1 finer. CAC: 11 in 66, 0 finer (5/16). NGC ID# 2779, PCGS# 3855

**3249 1895 MS65 PCGS.** Sharply struck and showing faint amounts of mottled olive-gold patina, this is an impressively preserved Gem with clean surfaces and gleaming, satiny mint luster. Population: 67 in 65 (3 in 65+), 30 finer (5/16). NGC ID# 277A, PCGS# 3856

**3250 1895 MS65 PCGS. CAC.** In MS65, the 1895 Liberty nickel begins to decline in availability. This CAC-endorsed example displays well-struck design elements and frosty mint luster. A hint of iridescence appears through the champagne-tinted surfaces. Population: 67 in 65 (3 in 65+), 30 finer. CAC: 25 in 65, 11 finer (5/16). NGC ID# 277A, PCGS# 3856

### 1900 Liberty Nickel, MS66+ Very Rare in Finer Grades

**3251 1900 MS66+ PCGS. CAC.** Despite a substantial mintage of more than 27 million pieces, the 1900 Liberty nickel is very scarce in MS66 condition, and finer coins are very rare. This Plus-graded Premium Gem exhibits sharply detailed design elements and well-preserved surfaces that radiate vibrant mint luster, under shades of greenish-gold and lavender-gray toning. Population: 62 in 66 (8 in 66+), 9 finer. CAC: 25 in 66, 3 finer (5/16). NGC ID# 22PS, PCGS# 3861

**3252 1911 MS66+ PCGS. CAC.** Blended multicolor hues cover both sides of this satiny 1911 Liberty nickel. The strike is above average, and there are no mentionable abrasions. This issue is conditionally scarce at the Premium Gem level and exceedingly rare any finer. Population: 54 in 66 (3 in 66+), 4 finer. CAC: 9 in 66, 2 finer (5/16). NGC ID# 277M, PCGS# 3872

**1912-S Nickel, MS65**  
Few Seen Finer

- 3253 1912-S MS65 NGC.** A satiny Gem example of this popular branch mint semikey. Due to the rarity of finer examples, Gem-quality 1912-S Liberty nickels are typically the finest seen in collectors' cabinets. This piece is free of major abrasions and displays soft olive-gold toning that deepens slightly toward the borders. The corn ear to the left of the wreath bow and the hair curls around Liberty's face show expected weakness. NGC has seen 12 higher-grade representatives (6/16). NGC ID# 277R, PCGS# 3875

**PROOF LIBERTY NICKELS**

- 3254 1883 No Cents PR66+ Cameo PCGS. CAC.** The famous No CENTS variant of this first-year type coin, with sharply detailed design elements and deeply mirrored fields that contrast boldly with the frosty devices. The impeccably preserved surfaces show a few highlights of pale gold toning at selected angles. PCGS has graded 20 numerically finer examples (5/16). NGC ID# 22PU, PCGS# 83878
- 3255 1885 PR65 PCGS. Gold CAC.** A razor-sharp Gem with lustrous butter-gold and pearl-gray surfaces. Free from contact or carbon, and outstanding for the assigned third-party grade. Encapsulated in a first-generation holder. NGC ID# 277T, PCGS# 3883

**1886 Liberty Nickel, PR67**  
Circulation-Strike Alternative

- 3256 1886 PR67 PCGS.** The scarcity of high-grade circulation strikes places tremendous date pressure on the 4,290 Liberty nickel proofs struck in 1886. This Superb Gem proof is brilliant with marked field reflectivity and partial contrast. Blushes of pale blue, green, and gold accents add color to each side, heightening the appeal of this remarkable representative. Population: 27 in 67 (1 in 67+), 0 finer (6/16). NGC ID# 277U, PCGS# 3884

**1890 Liberty Nickel, PR66+ Cameo**  
One Finer Example at PCGS

- 3257 1890 PR66+ Cameo PCGS.** This spectacular Plus-graded Premium Gem exhibits razor-sharp, richly frosted design elements that stand out boldly against the deeply mirrored fields to produce a dramatic cameo effect. The impeccably preserved surfaces are visited by attractive shades of pale gold toning. Population: 21 in 66 (3 in 66+) Cameo, 1 finer (5/16). NGC ID# 277Y, PCGS# 83888
- 3258 1909 PR67 Cameo PCGS.** Thick, frosty luster sets the devices off from the glasslike mirroring of the fields on this Superb Gem Cameo proof 1909 Liberty nickel. A hint of light champagne toning adds to the eye appeal and accentuates the contrast. Eye appeal is nearly high enough to warrant a Deep Cameo designation. Population: 29 in 67 (3 in 67+) Cameo, 1 finer (5/16). NGC ID# 278K, PCGS# 83907

**1910 Nickel, PR67+**  
Multicolor Target Toning

- 3259 1910 PR67+ PCGS.** Both sides exhibit identical spectacular concentric toning. Peach-gold centers are framed by bands of rose-red, powder-blue, and lemon-gold. Devoid of contact, though the margins exhibit a few flecks. Die polish lines beneath Liberty's ear are as issued. Encapsulated in a green label holder. Population: 34 in 67 (2 in 67+), 3 finer (5/16). NGC ID# 278L, PCGS# 3908

**BUFFALO NICKELS**

- 3260 1913-S Type Two MS64 PCGS.** This Choice Mint State example of the second type exhibits satiny luster and bold design definition. Faint champagne toning appears on the light gray surfaces.  
*From The Eagle One Collection, Part II.* NGC ID# 22R3, PCGS# 3923
- 3261 1914/3 FS-101 AU58 NGC.** The raised "bar" near the top of the 4 in the date indicates the *Guide Book* overdate. The coruscating apricot-gold, lilac-red, and lime-green surfaces appear unabraded. The strike is good despite blending on the curve of the tail and the hair above the braid.  
*From The Eagle One Collection, Part II.* NGC ID# 22R4, PCGS# 147844 Base PCGS# 93924
- 3262 1915-S MS64 NGC.** This boldly detailed Choice Mint State Buffalo nickel exhibits satiny gray luster with pale blue toning on the obverse and light gold toning on the reverse. A delightful S-Mint nickel with excellent eye appeal.  
*From The Eagle One Collection, Part II.* NGC ID# 22R9, PCGS# 3929

**3263 1917-S MS64 PCGS.** Hints of champagne toning appear on both sides of this satiny Choice Mint State 1917-S nickel. Like most examples of this issue, the central obverse is a trifle weak and the bison's head is partially defined.

**From The Eagle One Collection, Part II.** NGC ID# 22RF, PCGS# 3936

**3264 1918/7-D FS-101 VG10 PCGS.** Lower-grade examples of this *Guide Book* variety can be elusive due to date wear, but this pleasing gold-gray piece has all digits remaining bold. Roughly one-third of the bison's horn is visible.

*Ex: FUN Signature (Heritage, 1/2009), lot 810, which realized \$1,725.* NGC ID# 22RJ, PCGS# 38446 Base PCGS# 3939

**3265 1918/7-D FS-101 — Improperly Cleaned — NGC Details. VF.** The notch of the underdigit 7 is apparent. Its broad crossbar and downstroke combines with the 8 in the date. The sea-green surfaces show only trivial marks but are microgranular. A late die state with flow lines (as made) near the profile. NGC ID# 22RJ, PCGS# 38446 Base PCGS# 3939

**3266 1918/7-D FS-101 — Corroded, Cleaned — ANACS. XF40 Details.** This *Guide Book* variety is one of the keys to the Buffalo nickel series. The present coin will fill the hole for a budget-restricted collector and still show bold relief elements. Each side is heavily granular with muted battleship-gray color. NGC ID# 22RJ, PCGS# 38446 Base PCGS# 3939

**3267 1918-D MS64 PCGS. CAC.** This CAC-approved near-Gem displays only a few trivial ticks, and were it not for a deficient central strike, a full Gem grade might have been achieved. The satiny surfaces show a blush of champagne toning and offer pleasing eye appeal. NGC ID# 22RH, PCGS# 3938

#### 1918-S Buffalo Nickel, MS64 Lovely, Subtle Toning

**3268 1918-S MS64 PCGS.** This satiny near-Gem piece is sharply struck for an early branch mint issue, and neither side shows any consequential marks. Vivid lilac and golden-rose patina covers each side. E PLURIBUS UNUM is clashed beneath the Indian's chin, as often seen on this widely collected type. PCGS has encapsulated only 39 pieces finer (5/16).

*Ex: Dallas Signature (Heritage, 4/2007), lot 426; Sacramento Signature (Heritage, 3/2011), lot 3243.*

**From The Eagle One Collection, Part II.** NGC ID# 22RK, PCGS# 3940

**3269 1919-D MS64+ PCGS Secure.** Although somewhat indistinct as usual for the 1919-D nickel, this near-Gem has brilliant and frosty mint luster beneath lovely gold toning on both sides. PCGS has certified 78 finer examples (5/16). An excellent choice for the Set Registry collector.

**From The Eagle One Collection, Part II.** NGC ID# 22RM, PCGS# 3942

**3270 1919-S MS64 PCGS.** Light champagne and gold toning appears on the satiny gray surfaces of this lovely Choice Mint State 1919-S Buffalo nickel. The strike is well above average.

**From The Eagle One Collection, Part II.** NGC ID# 22RN, PCGS# 3943

**3271 1920-D MS64 PCGS.** A lustrous Choice nickel with consistent straw-gold toning and an absence of abrasion. The legends and tail are well struck, though the bison's head is incompletely brought up. A conditionally challenging branch issue. Certified in an old green label holder.

**From The Eagle One Collection, Part II.** NGC ID# 22RR, PCGS# 3945

**3272 1920-S MS64 PCGS.** This satiny Choice Mint State nickel exhibits brilliant luster with distinctive reddish-gold toning on both sides. Although slightly weak, the design definition is sharper than usual for the issue.

**From The Eagle One Collection, Part II.** NGC ID# 22RS, PCGS# 3946

#### 1921-S Nickel, MS64 Lightly Toned, Well-Detailed

**3273 1921-S MS64 PCGS.** Pleasing detail for this San Francisco issue save for a touch of softness at the shoulder, as expected. Light green-gold tints encircle the margins, and the lustrous centers shine beneath tan-accented nickel-blue shadings. Strongly appealing for the grade. PCGS has certified 80 finer examples (5/16).

*Ex: Long Beach Signature (Heritage, 2/2009), lot 754.*

**From The Eagle One Collection, Part II.** NGC ID# 22RU, PCGS# 3948

#### 1924-S Nickel, MS64 Scarce Strike Rarity

**3274 1924-S MS64 NGC.** Thick peach-orange patina covers luminous surfaces on this Roaring Twenties S-mint. While the strike shows typical softness at the braid and the bison's shoulder, the peripheral detail is better than often seen, and the mintmark is clear. NGC has graded only 24 numerically finer examples (5/16).

*Ex: Sacramento Signature (Heritage, 3/2011), lot 3258.*

**From The Eagle One Collection, Part II.** NGC ID# 22RZ, PCGS# 3953

**3275 1925-S MS64 PCGS.** The strike is typically weak on this 1925-S nickel, although the highly lustrous gray surfaces are pristine with lovely orange, gold, and blue toning on each side. PCGS has only certified 28 numerically finer examples (5/16).

**From The Eagle One Collection, Part II.** NGC ID# 22S4, PCGS# 3956

**1927-S Nickel, Near-Gem  
Elusive Branch Issue**

**3276 1927-S MS64 NGC.** A collectible Choice example of this San Francisco issue, showing subtle satin luster with deep olive-gray toning. Hints of iridescence appear in the fields upon close examination. This piece is well-struck for the issue, showing moderate sharpness on the central high points. NGC has seen 28 finer submissions (6/16). NGC ID# 22SA, PCGS# 3962

**3277 1927-S MS64 PCGS.** The fully lustrous gray surfaces of this Choice Mint State 1927-S nickel exhibit pastel gold and iridescent toning. This grade provides an excellent combination of quality and price. PCGS has only certified 37 numerically finer examples (5/16). *From The Eagle One Collection, Part II.* NGC ID# 22SA, PCGS# 3962

**3278 1930 Doubled Die Reverse, FS-801, MS66 PCGS. CAC.** Die doubling is visible on the bison's appendage, the motto E PLURIBUS UNUM, and "notching" on the tops of ST(ATES) especially, diagnostic of this interesting Doubled Die Reverse Buffalo nickel in top grade. The rose-gray surfaces are highly lustrous and appealing. PCGS has certified five examples of the FS-801 in MS66 and none finer (6/16). NGC ID# 36PS, PCGS# 38462

**3279 1930-S MS66+ PCGS. CAC.** One of only eight Plus-graded Premium Gems at PCGS, also boasting the CAC green label; only six coins are finer at both services combined (5/16). This 1930-S nickel displays impeccable preservation with ice-blue interiors that cede to olive-gold and rose hues around the peripheries. Some minor strike weakness appears on the central high points, as usual. NGC ID# 22SJ, PCGS# 3970

**1937-D Three-Legged Nickel, MS62  
Richly Toned**

**3280 1937-D Three-Legged, FS-901, MS62 PCGS. CAC.** In theory, most Three-Legged nickels were distributed in the West prior to discovery of the Mint error, a logical scenario because the coins were minted in Denver. The variety was first reported in Montana, when C.L. "Cowboy" Franzen advertised the nickels as early as 1937 and 1938 in the *Numismatic Scrapbook*. Veteran coin dealer Aubrey Bebee also found examples of the Three-Legged nickels in Montana, accumulating coins from collectors and searching original bank rolls. Some of the early examples were Uncirculated. Today, hundreds of Mint State coins are known to exist, yet eager collectors far outnumber the supply of Three-Legged nickels in all conditions. This is an exceptionally attractive Mint State example that exhibits rich olive and pale rose patina over each side with strong underlying mint luster. A few small marks are present and account for the grade, but the patina does a good job of subduing them. NGC ID# 22SX, PCGS# 38475 Base PCGS# 3982

**1937-D Nickel, MS63  
Three-Legged Buffalo**

**3281 1937-D Three-Legged, FS-901, MS63 NGC.** A well-preserved three-legged Buffalo with satiny luster and champagne-gold toning that gives a warm blush to each side. The strike is well-executed, despite extensive die erosion that is diagnostic of this variety. Grade-limiting abrasions are minor. An iconic *Guide Book* variety for this series.

*From The Eagle One Collection, Part II.* NGC ID# 22SX, PCGS# 38475 Base PCGS# 3982

**3282 1938-D MS67+ PCGS. CAC.** Vivid shades of greenish-gold and ice-blue toning blanket the impeccably preserved surfaces of this Plus-graded Superb Gem, with vibrant mint luster and sharply detailed design elements underneath. PCGS has graded 17 numerically finer examples (5/16). NGC ID# 22T2, PCGS# 3984

**PROOF BUFFALO NICKEL**

**3283 1913 Type Two PR65 PCGS.** Streaks of tan-gold toning visit a majority of this intricately struck and contact-free Gem. Only minuscule carbon determines the grade. Matte proof nickels were only produced for four years. Encapsulated in a green label holder. NGC ID# 278S, PCGS# 3990

**JEFFERSON NICKELS**

**3284 1938 MS67 Full Steps PCGS.** 30th Anniversary Green Label Holder. Blended sea-green and lavender toning accompanies lustrous, smooth, and boldly struck surfaces. A magnificent Superb Gem of the initial Jefferson issue. Population: 25 in 67 (1 in 67+) Full Steps, 0 finer (5/16). NGC ID# 22T4, PCGS# 84000

**1938-S Jefferson Nickel, MS67 Full Steps  
Among the Finest Certified Examples**

**3285 1938-S MS67 Full Steps PCGS.** A delightful Superb Gem example of this first-year key, with sharply detailed design elements, including Full Steps definition on Monticello. The impeccably preserved, mostly brilliant surfaces show highlights of greenish-gold and lavender-gray toning, with vibrant mint luster underneath. Housed in a new 30th Anniversary green label holder. Population: 11 in 67 Full Steps, 0 finer (5/16). NGC ID# 22T6, PCGS# 84002

**3286 1939 Reverse of 1940 MS67+ Full Steps PCGS.** A hint of iridescence graces the Superb Gem-quality surfaces of this satiny 1939 Jefferson nickel. The straight steps Reverse of 1940 is scarce in this lofty level of preservation and is almost unknown finer. This piece is sharp and attractive. Population: 49 in 67 (5 in 67+) Full Steps, 1 finer (5/16). NGC ID# 22T8, PCGS# 894003

- 3287 1939 Doubled Monticello, FS-801, MS65 PCGS. CAC.** Reverse of 1940. Strong die doubling on MONTICELLO and FIVE CENTS confirms the popular and dramatic FS-801 *Guide Book* variety. A lustrous and well preserved pearl-gray Gem. A few pinpoint flecks emerge beneath a loupe. NGC ID# 22T8, PCGS# 38481 Base PCGS# 4004
- 3288 1940-S MS67 Full Steps PCGS.** The San Francisco Mint manufactured nearly 40 million Jefferson nickels in 1940. An infinitesimally small fraction of those coins survive in MS67 with Full Steps. This Superb Gem offers untuned, frosty surfaces and pinpoint design detail, including six clear steps. Population: 18 in 67 (1 in 67+) Full Steps, 0 finer (6/16). NGC ID# 22TF, PCGS# 84009
- 3289 1942-S MS67 Full Steps PCGS.** Struck from ground dies that show numerous parallel striations in the fields and on the portrait. This delivers bright, satiny luster, which is here seen beautifully preserved. This untuned Superb Gem 1942-S wartime nickel displays a bold strike and excellent eye appeal. Among the finest in Full Steps at either service. Population: 31 in 67 (1 in 67+) Full Steps, 0 finer (5/16). NGC ID# 22TN, PCGS# 84017
- 3290 1943-S MS67+ PCGS.** 30th Anniversary Green Label Holder. Ocean-blue, straw-gold, and cherry-red visit this lustrous and unblemished Superb Gem. The strike is crisp except on the bottom of the steps. A colorful high-grade souvenir of the wartime silver alloy subtype. NGC ID# 22TT, PCGS# 4021
- 3291 1944-P MS67 Full Steps PCGS.** 30th Anniversary Green Label Holder. Light olive-gold toning embraces this lustrous, unmarked, and carbon-free Superb Gem. The strike is sharp on the steps, though Jefferson's jaw shows slight incompleteness. NGC ID# 22TU, PCGS# 84022
- 3292 1944-S MS67 Full Steps PCGS.** Powder-blue, lilac-red, and caramel-gold shades endow lustrous, well struck, and virtually mark-free surfaces. Carbon is only incidental. A delicate vertical die crack through the center of the mintmark signifies status as a "dollar sign variety." NGC ID# 22TW, PCGS# 84024
- 3293 1944-S MS67 Full Steps PCGS.** According to the Whitman *Guide Book* for the Jefferson nickel series, only 1 in 100 1944-S nickels has five full steps. The present sea-green and wheat-gold Superb Gem is pristine and lustrous. The reverse is bisected by a bold vertical crack that passes through the center of the San Francisco Mint to create a "dollar sign" variety, ideal for Show and Tell at a coin club meeting. NGC ID# 22TW, PCGS# 84024
- 3294 1944-S MS67 Full Steps PCGS.** Delicate champagne toning appears on the brilliant and highly lustrous surfaces of this sharply defined Wartime Jefferson nickel. Population: 43 in 67 (5 in 67+) Full Steps, 1 finer (5/16). NGC ID# 22TW, PCGS# 84024
- 3295 1945-S MS67 Full Steps PCGS.** An almost flawlessly preserved Full Steps example of the final silver alloy San Francisco nickel. This Superb Gem is conditionally rare and ranks among the finest certified. A blush of light golden toning only adds to the eye appeal. Population: 16 in 67 (3 in 67+) Full Steps, 0 finer (5/16). NGC ID# 22TZ, PCGS# 84027
- 3296 1946 MS66 Full Steps PCGS.** Pastel shades of champagne, lavender, and ice-blue adorn the softly frosted surfaces of this Premium Gem Full Steps 1946 nickel. This issue is rarely seen so fine and none are known finer. An essential Registry Set acquisition. Population: 26 in 66 Full Steps, 0 finer (5/16). NGC ID# 22U2, PCGS# 84028

- 3297 1946-D MS67 Full Steps PCGS.** Pastel gold, green, and lavender hues grace satiny luster on each side of this boldly struck, exceptionally well-preserved Superb Gem. PCGS has certified only 14 Full Steps pieces in MS67 (three in MS67+), with none finer (5/16), making this an important opportunity for the Registry Set collector. NGC ID# 22U3, PCGS# 84029

**1946-D Jefferson Nickel, MS67+ Full Steps  
Tied For Finest at PCGS**

- 3298 1946-D MS67+ Full Steps PCGS.** Iridescent shades of ice-blue, lavender, and greenish-gold toning visit the impeccably preserved surfaces of this Plus-graded Superb Gem, with vibrant mint luster underneath. The obverse is sharply detailed and Full Steps definition is evident on Monticello, but there is some localized softness on the rest of the building. Population: 14 in 67 (3 in 67+) Full Steps, 0 finer (5/16). NGC ID# 22U3, PCGS# 84029
- 3299 1949-S MS66 Full Steps PCGS.** 30th Anniversary Green Label Holder. Straw-gold patina accompanies this lustrous and exceptionally undisturbed Premium Gem. Both sides exhibit several vertical field die lines, as issued. A scarce issue with five full steps. Population: 29 in 66 (4 in 66+) Full Steps, 3 finer (5/16). NGC ID# 22UD, PCGS# 84040
- 3300 1955-D/S MS66 PCGS. OMM-004.** Light straw-gold toning visits lustrous and mark-free surfaces. Diagonal die polish lines through and below the P in PLURIBUS identify this particular overmintmark die variety, as documented on John Wexler's website [doubledie.com](http://doubledie.com). At least 23 different D over S dies are known, since the San Francisco Mint closed in 1955, and leftover dies were sent to Denver as an economy measure. NGC ID# 22UX, PCGS# 4058
- 3301 1955-D/S MS66 PCGS. OMM-3.** Honey-gold toning dominates save for a glimpse of powder-blue on AMERICA. Lustrous and nearly pristine with a typical strike. John Wexler's [DoubledDie.com](http://DoubledDie.com) website depicts the diagnostics for this, and other, 1955-D/S die varieties. NGC ID# 22UX, PCGS# 4058
- 3302 1963 MS66 Full Steps PCGS.** This Full Steps Registry coin displays satiny luster and warm golden toning. Few finer Full Steps examples are known at either leading service. This piece is sharply struck and devoid of mentionable abrasions. Population: 15 in 66 Full Steps, 1 finer (5/16). NGC ID# 22VE, PCGS# 84073
- 3303 1998-P MS67 Full Steps PCGS.** A must-have Registry coin, tied with four others as the finest at PCGS in Full Steps (5/16). This Superb Gem 1998-P nickel displays vibrant champagne-tinged luster. Metal flowlines in the fields do not affect the strike sharpness. **From The Corso Collection.** NGC ID# 22XK, PCGS# 84142

## SMS JEFFERSON NICKELS

1965 SMS Nickel, MS67 Deep Cameo  
Few Known This Fine

- 3304** 1965 SMS MS67 Deep Cameo PCGS. Deep Cameo examples of the 1965 Special Mint Set nickel are scarce and are rarely seen in Superb Gem condition. This top-grade example boasts sharp design elements and stark field-device contrast. A hint of light golden toning can be seen on the reverse. Population: 11 in 67 Deep Cameo, 0 finer (5/16).  
*From The Corso Collection.* NGC ID# 27AD, PCGS# 94197

1966 SMS Nickel, SP68 Deep Cameo  
The Single Finest at PCGS

- 3305** 1966 SMS SP68 Deep Cameo PCGS Secure. This is the sole finest 1966 SMS Jefferson nickel at PCGS (5/16), a remarkable Deep Cameo that simply must be acquired for a high-ranking Registry Set. The strike and preservation leave almost nothing to be desired, and a hint of light golden toning adds just the right amount of warmth to each side. A coin that just begs to be studied in person.  
*From The Corso Collection.* NGC ID# 27AE, PCGS# 94198

## PROOF JEFFERSON NICKELS

1938 Jefferson Nickel, PR68  
Among the Finest Certified

- 3306** 1938 PR68 PCGS. CAC. With only two Cameos certified in total, this CAC-endorsed PR68 1938 Jefferson nickel represents essentially the finest quality in which this proof issue is available. And it is rare this fine. The present piece displays fully struck design elements and glimmering reflectivity in the fields. Most of each side is ice-blue, but hints of gold and mint-green are also seen. Population: 13 in 68, 0 finer. CAC: 8 in 68, 0 finer (5/16).  
*From The Corso Collection.* NGC ID# 279X, PCGS# 4175

1939 Nickel, PR67  
Reverse of 1940

- 3307** 1939 Reverse of 1940 PR67 PCGS. CAC. A fully struck Reverse of 1940 proof with ice-blue toning that shows wisps of gold and lavender when tilted beneath a light. The reverse is modestly contrasted. This issue is elusive in PR67 and almost unknown finer. Cameos are prohibitively rare for most collectors. Population: 79 in 67 (9 in 67+), 1 finer. CAC: 13 in 67, 1 finer (5/16).  
*From The Corso Collection.* NGC ID# 279Z, PCGS# 94176

1950 Nickel, PR67 Deep Cameo  
Top-Grade PCGS Coin

- 3308** 1950 PR67 Deep Cameo PCGS. After World War II, proof nickel coinage did not resume until 1950. This Superb Gem Deep Cameo example of the "come-back" issue shows iridescent champagne toning and gleaming mirrors. The 1950 proof Jefferson is rare this well preserved and almost unknown finer. Population: 11 in 67 (1 in 67+) Deep Cameo, 0 finer (5/16).  
*From The Corso Collection.* NGC ID# 27A5, PCGS# 94182

1951 Nickel, PR67 Deep Cameo  
Stark Contrast, Golden Toning

- 3309** 1951 PR67 Deep Cameo PCGS. Deep Cameo examples of the 1951 proof nickel are rare regardless of grade. This Superb Gem Registry coin is a standout beauty with black mirroring in the fields and sharp, frosty design elements that showcase warm golden toning. Eye appeal could not be improved, and the technical quality is arguably comparable. Population: 13 in 67 (1 in 67+) Deep Cameo, 2 finer (5/16).  
*From The Corso Collection.* NGC ID# BBUZ, PCGS# 94183

**1951 Nickel, PR68 Deep Cameo  
Tied for Finest at PCGS**

- 3310 1951 PR68 Deep Cameo PCGS.** This remarkable proof 1951 Jefferson nickel is tied with just one other as the finest at PCGS (5/16), a standout coin and a must-have Registry Set item. The strike is flawless, and the preservation is virtually so. This piece is almost untuned, showing only a hint of light golden color over stark white-on-black cameo contrast.

*From The Corso Collection.* NGC ID# BBUZ, PCGS# 94183

**1952 Nickel, PR67  
Rare Deep Cameo Example**

- 3311 1952 PR67 Deep Cameo PCGS.** This Jefferson nickel proof issue is readily obtainable in all grades in non-Cameo and Cameo format. However, all Deep Cameo coins are very rare. There are merely 20 Deep / Ultra Cameo grading events at PCGS and NGC combined despite a generous mintage of nearly 82,000 proofs. Bold contrast and razor-sharp definition typify this Superb Gem proof. Pale golden patina appears over each side. Housed in a green label holder. Population: 11 in 67 (2 in 67+) Deep Cameo, 4 finer (5/16). NGC ID# 27A6, PCGS# 94184

**1952 Jefferson Nickel, PR67 Deep Cameo  
Remarkable Contrast**

- 3312 1952 PR67 Deep Cameo PCGS.** Only 81,980 proof Jefferson nickels were minted in 1952, and examples with cameo contrast are definitely in the minority. The present coin features razor-sharp design elements and mirrored fields with an incredible depth of reflectivity. The field-device contrast is dramatic, and eye appeal is outstanding. Population: 11 in 67 (2 in 67+) Deep Cameo, 4 finer (5/16). *From The Alex and Nan Proof Jefferson Nickel Collection/ FUN Signature (Heritage, 1/2011), lot 4518.* *From The Corso Collection.* NGC ID# 27A6, PCGS# 94184

- 3313 1953 PR69 Cameo PCGS.** A truly rare coin for two reasons: contrast and condition. Although most proof 1953 Jefferson nickels show little contrast, they can be found on occasion with moderate cameo contrast, as on the present example. In terms of condition, precious few Jefferson nickels have survived more than 50 years in the seemingly completely pristine state of this piece. Extensive perusal under a glass reveals only some metal flowlines below N G of the motto, as struck, with no post-strike evidence of any kind. Population: 2 in 69 Cameo, 0 finer (5/16). *Ex: ANA Signature (Heritage, 8/2007), lot 461.* *From The Corso Collection.* NGC ID# 22YE, PCGS# 84185

**1954 Jefferson Nickel, PR68 Deep Cameo  
Among the Finest**

- 3314 1954 PR68 Deep Cameo PCGS.** A magnificent PR68 Jefferson nickel, this piece possesses profound cameo contrast, unusual in proofs of the mid-1950s. The devices display pinpoint definition throughout, and the fields are virtually pristine. Housed in a green label holder. Population: 10 in 68 (1 in 68+) Deep Cameo, 0 finer (5/16). *From The Alex and Nan Proof Jefferson Nickel Collection / FUN Signature (Heritage, 1/2011), lot 4519.* *From The Corso Collection.* NGC ID# 27A7, PCGS# 94186

**1956 Nickel, PR68 Deep Cameo  
None Finer at PCGS**

- 3315 1956 PR68 Deep Cameo PCGS.** *Ex: Wollforth.* Wisps of lavender intrude upon warm golden mirrors on this high-end Superb Gem Deep Cameo proof. The strike is full, and the field-device contrast is stark. The 1956 proof is seldom seen in any Deep Cameo grade, and this PR68 coin is at the top of the ladder at PCGS. Population: 11 in 68 (1 in 68+) Deep Cameo, 0 finer (5/16). *From The Corso Collection.* NGC ID# 22YG, PCGS# 94188

**1957 Nickel, PR67 Deep Cameo  
Only Three Deep Cameos at PCGS**

- 3316 1957 PR67 Deep Cameo PCGS.** PCGS has seen only three Deep Cameo examples of the 1957 proof Jefferson, including one PR66 and to PR67s (5/16). The present coin has the added appeal of a green label holder. The strike is bold, and the starkly contrasted surfaces display lovely golden toning. There are no mentionable imperfections.

*From The Corso Collection.* NGC ID# 22YH, PCGS# 94189

- 3317 1959 PR68 Deep Cameo PCGS.** Ex: Wohlforth. A blush of champagne toning warms this starkly contrasted and virtually perfect Deep Cameo proof. A condition rarity, this high-end 1959 Jefferson nickel is very nearly the finest possible quality known for the proof variety. Population: 21 in 68 Deep Cameo, 1 finer (5/16).

*From The Corso Collection.* NGC ID# 27A9, PCGS# 94191

**1960 Nickel, PR69 Deep Cameo  
Unsurpassed Quality**

- 3318 1960 PR69 Deep Cameo PCGS.** Fully mirrored fields contrast starkly with the sharp, frosty design elements, all cast in a warm golden glow on each side. This top-grade proof 1960 Jefferson is one of only seven Deep Cameos known this fine at PCGS (5/16). The conditional rarity and magnificent eye appeal command immediate attention.

*From The Corso Collection.* NGC ID# 22YJ, PCGS# 94192

- 3319 1961 PR69 Deep Cameo PCGS.** Ex: Wohlforth. A glimmering, golden-toned Deep Cameo, among the finest certified and conditionally rare as such. This 1961 proof Jefferson nickel displays stark contrast and virtually flawless preservation. Population: 13 in 69 Deep Cameo, 0 finer (5/16).

*From The Corso Collection.* NGC ID# 22YK, PCGS# 94193

- 3320 1971 No S, FS-501, PR67 Cameo NGC.** This important variety was created from a single obverse die that was sent to San Francisco without the S mintmark. Similar errors occurred in 1968, 1970, 1975, and 1990. Delicate champagne toning appears on both sides of this Superb Gem Cameo proof. Census: 12 in 67 Cameo (1 in 67★), 40 finer (5/16).

*From The Eagle One Collection, Part II.* PCGS# 569931 Base PCGS# 84204

**1971 No S Nickel, PR69 Deep Cameo  
Scarce and Highly Collectible**

- 3321 1971 No S, FS-501, PR69 Deep Cameo PCGS.** Approximately 1,655 of these error coins were produced at the San Francisco Mint, without the appropriate mintmark. The current offering is fully struck with glassy, deeply-mirrored surfaces and crystal-clear design details throughout. Even after close inspection with a magnifier, not even the tiniest handling mark or planchet defect could be detected. To date, only 33 examples of this type have been certified with Deep Cameo contrast by PCGS, and none of those are at a higher grade level than this seemingly impeccable Superb Gem. Population: 8 in 69 Deep Cameo, 0 finer (5/16).

*Ex: Portland ANA Signature (Heritage, 3/2004), lot 5459.*

*From The Corso Collection.* PCGS# 569932 Base PCGS# 94204

- 3322 1981-S Type Two PR70 Deep Cameo PCGS.** Absolute contrast with only the slightest hint of color. A technically flawless example of this more elusive type. Population: 31 in 70 Deep Cameo (5/16).

*Ex: Long Beach Signature (Heritage, 2/2010), lot 7445; The Alex and Nan Proof Jefferson Nickel Collection / FUN Signature (Heritage, 1/2011), lot 4526.*

*From The Corso Collection.* NGC ID# 27KM, PCGS# 94216

**EARLY HALF DIME**

**1796 Half Dime, XF Details  
V-1, LM-1, LIKERTY Variant**

- 3323 1796 LIKERTY, V-1, LM-1, R.3 — Plugged — PCGS Genuine. XF Details.** Areas of tooling along the obverse border include a larger area at ER of LIBERTY where the suspected plug exists. Otherwise, this silver-gray example shows nice definition on the central devices and a faint hint of mint luster in the recesses. The B in LIBERTY is open at top and bottom to confirm the LM-1 variety.

**BUST HALF DIMES**

- 3324 1831 V-1, LM-6, R.1, MS64 NGC.** Deep golden-brown toning dominates, although the margins offer ocean-blue. Satiny and boldly struck with attractive preservation. The second S in STATES has die breaks within both loops.

*Ex: Pittsburgh Signature (Heritage, 10/2011), lot 3441, which realized \$977.50.* NGC ID# 232D, PCGS# 38661 Base PCGS# 4278

- 3325 1832 V-1, LM-3, R.1, MS65 NGC.** Sea-green and cherry-red centers are framed by deep russet-brown patina. Well struck and coruscating with unblemished surfaces. Star 12 is repunched and the M in AMERICA is defective, key characteristics of LM-3. Housed in a former generation holder. NGC ID# 232E, PCGS# 38665 Base PCGS# 4279

**1832 V-12, LM-4 Half Dime, MS66  
Possibly Finest Known**

- 3326 1832 V-12, LM-4, R.4, MS66 NGC.** An early stage of the scarce V-12 die marriage, with a crack through the cap, struck before the area above the crack forms a retained cud. This Premium Gem is possibly one of the finest known examples of the die marriage. Both sides have frosty luster and iridescent toning, mostly gold on the obverse and blue on the reverse. Census: 65 in 66, 22 finer (5/16) for all 1832 varieties. NGC ID# 232E, PCGS# 38666 Base PCGS# 4279

- 3327 1832 V-9, LM-7, R.2, MS65 NGC.** A short, curved die line extends upward from the top leaf above the branch, diagnostic for the variety. This lovely Gem has brilliant silver luster with full mint frost and bold design motifs on each side. A hint of champagne toning appears on the reverse.  
*Ex: Schaumburg Central States Signature (Heritage, 4/2012), lot 3712, which realized \$2,185. NGC ID# 232J, PCGS# 38669 Base PCGS# 4279*

- 3328 1833 V-7, LM-1, R.3, MS64 NGC.** This Choice 1833 Capped Bust half dime showcases a needle-sharp strike and satiny luster with deep teal-gray toning on each side. There are no significant abrasions. A pleasing type coin candidate. NGC ID# 232F, PCGS# 38686 Base PCGS# 4280

- 3329 1834 V-1, LM-2, R.1, MS64 NGC.** A lightly toned and well struck Choice half dime. The lustrous surfaces are smooth save for minor contact on the obverse rim. The F in OF is repunched south and star 8 nearly touches the cap, identifiers for the available LM-2 variety. NGC ID# 232G, PCGS# 38702 Base PCGS# 4281

- 3330 1835 Large Date, Large 5C, V-4, LM-7, R.3, MS64 PCGS.** Golden-brown and blue-green toning encompass the borders of this lustrous and precisely struck half dime. Refreshingly free from noticeable marks. Among the nicest survivors of the moderately scarce die marriage. PCGS# 38711 Base PCGS# 4282

- 3331 1836 Small 5C, V-2, LM-4, R.2, MS65 NGC.** Forest-green and gunmetal toning blanket the borders of this sharply struck and lustrous Gem. Undisturbed aside from delicate contact on the portrait near the profile. Several stars and the O in OF are repunched, characteristic of LM-4. NGC ID# 232J, PCGS# 38727 Base PCGS# 4288

## SEATED HALF DIMES

- 3332 1837 No Stars, Large Date (Curl Top 1) MS65 NGC. V-1.** The noticeable, widespread repunching on the bottom of all date digits attributes this as the V-1 die pairing. The rose-gray surfaces show splashes of blue and gold amid good preservation. A couple of die cracks run through the wreath on the reverse.  
*Ex: Long Beach Signature (Heritage, 9/2015), lot 3361, which realized \$1,528. NGC ID# 232M, PCGS# 4311*

- 3333 1839 No Drapery MS65 PCGS. CAC.** Chestnut and powder-blue colors embrace this meticulously struck and satiny Gem. A luster graze is found to the right of Liberty's raised elbow, precluding an even finer grade. CAC-approved in an older green label holder. Population: 25 in 65, 32 finer. CAC: 7 in 65, 16 finer (5/16).  
*Ex: Central States Signature (Heritage, 4/2006), lot 1881, which realized \$1,610. NGC ID# 232S, PCGS# 4319*

**1839 No Drapery Half Dime, MS66  
Fully Struck and Highly Lustrous**

- 3334 1839 No Drapery MS66 PCGS.** This represents the second year of issue in the Seated Liberty series. All 1839 half dimes lack drapery under Liberty's elbow. The surfaces of this Premium Gem exhibit rich patina composed of violet, rose, peach-orange, and blue-green tones. The devices are fully struck, and original mint luster glimmers over each seemingly unmarked side. Population: 26 in 66 (2 in 66+), 6 finer (5/16). NGC ID# 232S, PCGS# 4319

- 3335 1853 Arrows MS65 PCGS. CAC.** Well-struck from boldly clashed dies, this Gem Arrows type coin displays satiny luster shining through dusky golden toning. Eye appeal is pleasing. Plenty of quality for the budget-conscious collector. NGC ID# 233Y, PCGS# 4356

- 3336 1853 Arrows MS66 PCGS.** This Premium Gem 1853 Arrows half dime is sharply struck from clashed dies with rich satin luster. Each side shows mottled gold and olive-green toning without obvious abrasions. Finer coins are rare. Housed in a green label holder. Population: 52 in 66 (4 in 66+), 9 finer (5/16). NGC ID# 233Y, PCGS# 4356

- 3337 1854 Arrows MS66 NGC.** Seldom seen this fine and rare in a higher grade. This Premium Gem 1854 Arrows half dime displays meticulously preserved surfaces with olive-gold and amber toning over satiny luster. The strike is sharp, and clash marks appear in the fields on each side. Census: 19 in 66, 4 finer (5/16). NGC ID# 2342, PCGS# 4358

- 3338 1855 Arrows MS65 PCGS.** The 1855 is the scarcest of the With Arrows Philadelphia issues from this early period, and it is particularly elusive in Gem or finer grades. This example is well-preserved and shows splashes of amber, gold, and aqua-blue toning over much of each side. Lightly struck on the border dentils and the high points of the motifs, with faint parallel roller marks (mint-made) still in evidence. Population: 27 in 65, 17 finer (5/16). NGC ID# 2344, PCGS# 4360

- 3339 1856 MS66 NGC.** Boldly struck, if a trifle weak on the head, and on the obverse peripheral stars. Deep variegated patina blankets both sides, mostly in attractive earth tones, over well-preserved, seemingly mark-free surfaces. Census: 38 in 66, 6 finer (5/16).  
*Ex: Central States Signature (Heritage, 5/2004), lot 6488. NGC ID# 233P, PCGS# 4363*

- 3340 1857 MS67 NGC.** Attractive multicolor margins surround grayish interiors on this Superb Gem 1857 half dime. The obverse portrait is well-defined, but the upper wreath is weak, as are the borders on both sides. Only a single coin is numerically finer. Census: 20 in 67 (7 in 67+), 1 finer (5/16). NGC ID# 233S, PCGS# 4365

- 3341 1857 MS67 NGC.** The 1857 half dime is an available date, suitable for type purposes, but this Superb Gem example is conditionally rare. The strike is slightly soft on the lower obverse and upper reverse, but the satiny surfaces are free of other imperfections. Ocean-blue and violet toning paints the margins, leaving the interiors with a warm golden hue. Census: 21 in 67 (6 in 67+), 1 finer (6/16). NGC ID# 233S, PCGS# 4365
- 3342 1862 MS67 PCGS. CAC.** Virtually brilliant surfaces with radiant mint frost showcase glints of champagne and rose toning around the obverse border and over the central reverse. Bold clash marks appear on each side. Sharply struck. Population: 84 in 67 (8 in 67+), 4 finer. CAC: 30 in 67, 3 finer (5/16). NGC ID# 234B, PCGS# 4381
- 3343 1863 MS66 PCGS.** This semiprooflike Premium Gem is cast in warm golden toning and shows modest cameo contrast on each side. The upper-left portion of the wreath is ill-defined, but the strike is otherwise pleasing. Save for a few stray lines in the fields, this 1863 half dime is seemingly flawless. Population: 15 in 66, 19 finer (5/16). NGC ID# 234C, PCGS# 4382
- 3344 1867-S MS64 PCGS. CAC.** The 1867-S is a slightly better date in Uncirculated condition and is rarely seen above MS64. This near-Gem displays well-struck design elements amid satiny, champagne-tinged luster. Population: 12 in 64 (1 in 64+), 6 finer. CAC: 2 in 64, 5 finer (5/16). NGC ID# 234M, PCGS# 4391
- 3345 1872-S Mintmark Below Bow MS66 PCGS. CAC.** Housed in an old green-label PCGS holder, this Premium Gem has exquisite surfaces exhibiting fully brilliant and frosty silver luster and lovely peripheral gold toning. Population: 55 in 66 (5 in 66+), 9 finer. CAC: 21 in 66, 5 finer (5/16). NGC ID# 2352, PCGS# 4401

## PROOF SEATED HALF DIMES

- 3346 1859 PR65 PCGS. CAC. Flynn-RPD-001.** The 1 and 9 in the date are repunched south. Likely of greater interest to collectors is the Paquet obverse subtype, with hollow stars and a different rendition of Liberty. This was used only on the 1859 regular issue and the 1859 and 1860 transitional patterns. Well struck and flashy with rose-red and sea-green toning. NGC ID# 235P, PCGS# 4438

### 1859 Half Dime, PR66 Sharp and Reflective

- 3347 1859 PR66 PCGS. CAC. V-1, V-4, Flynn-RPD-001.** The date is recut at its base on this Premium Gem proof 1859 half dime. The strike is sharp, and the fields are deeply reflective. Mottled amber-gold and olive-green toning blankets each side. This issue is seldom seen so fine and rarely finer. Population: 11 in 66, 5 finer. CAC: 4 in 66, 5 finer (5/16). NGC ID# 235P, PCGS# 4438

### 1860 Half Dime, PR66 ★ Cameo Wholly Brilliant, Reflective

- 3348 1860 PR66 ★ Cameo NGC. CAC.** The Mint struck 1,000 half dime proofs with the new Legend Obverse design, but low sales and mass-melting resulted in a net mintage of around 535 specimens. Few examples survive so fine as this Premium Gem Cameo piece with the added Star designation and CAC endorsement. Each side is wholly brilliant and dramatically contrasted with frosty motifs against deeply reflective mirrors. Census: 2 in 66 Cameo (1 in 66+ Cameo, 1 in 66 ★ Cameo), 2 finer (5/16). NGC ID# 235V, PCGS# 84443

### 1866 Half Dime, PR67 One-Sided Cameo

- 3349 1866 PR67 PCGS.** A razor-sharp Superb Gem proof with stark white-on-black contrast on the reverse. The obverse displays dusky lavender-gray toning, precluding a Cameo designation. This 1866 proof half dime is beautifully preserved and possesses exceptional eye appeal. Tied with one other as the finest non-Cameo at PCGS (6/16). NGC ID# 2363, PCGS# 4449

- 3350 1867 PR66 Cameo PCGS. CAC.** Richly toned on both sides, this Premium Gem Cameo proof displays shades of gold, copper, orange, red, and sea-green on the obverse, while the reverse includes hues of copper, teal, and violet. A vertical toning streak appears on the reverse. A sharp strike adds to the appeal. A tiny mark and edge nick are present near 6 o'clock on the obverse. Population: 10 in 66 (2 in 66+) Cameo, 1 finer. CAC: 7 in 66, 1 finer (5/16). NGC ID# 2364, PCGS# 84450

## EARLY DIME

- 3351 1798 Small 8, JR-3, R.5 — Environmental Damage — NGC Details. VF.** A well-detailed, evenly worn example of this rare die combination. The surfaces are finely granular beneath deep gunmetal-gray toning, but there are no other distractions. Suitable for the budget-restricted collector seeking an 18th century type coin. NGC ID# 236E, PCGS# 38752 Base PCGS# 4467

## BUST DIME

- 3352 1821 Large Date, JR-7, R.2, MS62 PCGS.** A satiny Mint State example with light grayish toning and minimal surface chatter. Stars 6 and 7 and Liberty's temple show minor weakness, but the strike is otherwise well-executed. Population (all Large Date varieties): 16 in 62, 43 finer (5/16). NGC ID# 236Y, PCGS# 38797 Base PCGS# 4496

## SEATED DIMES

**3353** 1839-O No Drapery, Large O, F-106a, R.4, MS64 NGC. A Top 100 Fortin Variety. F-106a is the popular "Cobweb Reverse" variety, showing an extensive array of bold die cracks around the reverse margins. This Choice example is high-end for the die pairing. The reverse cracks are not quite as advanced as those of the Fortin plate coin, although the "cobweb" pattern is plain. The design elements are boldly defined. Satiny luster illuminates mottled olive-gold and russet toning over each side. Census (all varieties included): 9 in 64, 13 finer (6/16). NGC ID# 237Y, PCGS# 537690 Base PCGS# 4572

**3354** 1841-O Closed Bud, Large O, F-101, FS-902, R.6, Fine 15 PCGS. The Open Bud subtype was introduced in 1841, replacing its Closed Bud predecessor. Two leftover dies from 1840 were put into service in New Orleans, one with a Small O mintmark (FS-901), the other with a Large O (FS-902). Both varieties are rare and command enormous premiums. This FS-902 example offers unmarked and original charcoal-gray surfaces. NGC ID# 2385, PCGS# 145487 Base PCGS# 4580

### 1864 Dime, MS65+ Prooflike Finest of Two Prooflike Coins at NGC

**3355** 1864 F-102a, R.5, MS65+ Prooflike NGC. From a mintage of 11,000 coins, this high-end Prooflike Gem 1864 Seated dime is conditionally rare. The strike is bold, and the untuned surfaces show subtle field-device contrast with deep mirrors. NGC has designated only two examples as Prooflike, including one MS64 and this MS65+ (5/16). Even non-Prooflike Gems are rare. PCGS# 538202 Base PCGS# 4639

**3356** 1872-CC F-101, Low R.4 — Environmental Damage — NGC Details. AU. A sharply detailed example of this semikey Seated dime issue, showing areas of golden toning. Moderate corrosion around the reverse periphery and scattered abrasions on each side contribute to the lack of a numeric grade. PCGS# 538286 Base PCGS# 4657

### 1873 Arrows Dime, MS65 Lustrous, Near-Brilliant Surfaces Ex: Gardner

**3357** 1873 Arrows, F-112, R.4, MS65 PCGS. The left and right arrows flanking the date signify an insignificant weight increase intended to make the specifications conform to the metric system. Fortin-112 is rated R.4, scarcer than most other varieties for the date, and should command a premium between 50% and 100%. Light apricot toning drapes the borders of this lustrous, mostly brilliant type coin. The otherwise crisp strike shows trivial softness on Liberty's head and the upper left wheat sheaf. Lovely eye appeal despite a few minor field marks. Population: 15 in 65 (2 in 65+), 5 finer (5/16). Ex: *FUN Signature* (Heritage, 1/2007), lot 2584; *Eugene H. Gardner Collection, Part IV* (Heritage, 10/2015), lot 98280. PCGS# 538313 Base PCGS# 4665

**3358** 1876 Type Two Reverse, F-101a, R.4, MS66 PCGS. CAC. Type Two Reverse. Numerous die cracks, especially on the reverse, allow prompt attribution. Beautifully toned in fire-red, apple-green, and butter-gold at the margins while the centers are pearl-gray. Carefully preserved and coruscating. Population: 32 in 66 (3 in 66+), 3 finer. CAC: 20 in 66, 1 finer (5/16). Ex: *Houston Signature* (Heritage, 12/2013), lot 4538, which realized \$940. PCGS# 538467 Base PCGS# 4679

**3359** 1882 MS67 NGC. This attractive, richly toned Superb Gem displays shades of violet, yellow, cobalt-blue, and sea-green patina. Wispy die cracks appear on both sides, particularly the obverse. Boldly struck and conditionally rare despite a production in excess of 3.9 million coins. Census: 26 in 67, 2 finer (5/16). NGC ID# 23AV, PCGS# 4690

**3360** 1888-S Misplaced Date, F-107a, R.5, MS64 PCGS. Gerry Fortin states "the misplaced top loop of [an] 8 is above the final 8 in the date." Among the scarcer Fortin varieties for the issue. Satiny, unabraded, and nicely struck. The obverse is white, while the reverse exhibits deep lavender, tobacco-brown, and aquamarine toning. PCGS# 538789 Base PCGS# 4701

## PROOF SEATED DIMES

**3361** 1863 F-101, R.4, PR66 PCGS. CAC. A boldly struck, deeply mirrored Premium Gem proof, showcasing vivid multicolor toning with rose-gold, sun-yellow, and olive peripheral toning around blue-green and lavender interiors. The obverse is starkly contrasted, but the reverse is more muted by the patina. Population: 15 in 66 (2 in 66+), 0 finer. CAC: 8 in 66, 0 finer (5/16). NGC ID# 23BS, PCGS# 539011 Base PCGS# 4756

**1880 Dime, PR67**  
Excellent Visual and Technical Quality

- 3362 1880 F-101, R.3, PR67 PCGS. CAC.** The date placement and a die defect on the M in DIME distinguish Fortin-101 from the other 1880 proof die pair (Fortin-102). CAC has rightfully acknowledged the eye appeal and quality within the grade of this Superb Gem proof. Orange and lavender tones paint the obverse, while the reverse displays predominantly steel-blue and green hues. Devoid of all but a few microscopic flecks. In this lofty grade, circulation strikes and proofs are roughly equally available. However, collector demand for high-grade examples from the low-mintage business-strike issue of only 36,000 pieces, places pressure on carefully preserved proofs such as this Superb Gem.  
Ex: ANA Sale of the Millennium (Bowers and Merena, 8/2000), lot 1116; Eugene H. Gardner Collection, Part IV (Heritage, 10/2015), lot 98341. NGC ID# 23D5, PCGS# 539047 Base PCGS# 4777

**1881 Dime, PR67**  
Spectacularly Toned

- 3363 1881 F-101, R.3, PR67 PCGS. CAC.** Only 24,000 circulation-strike dimes were minted in 1881, plus 975 proofs for numismatic purposes. The latter often serve as high-grade alternatives for the former, which prove extremely rare in Superb Gem condition. This PR67 example boasts an even layer of sea-green and cobalt-blue patina over deeply reflective fields. Contrast is subdued but the eye appeal is spectacular, accounting for the CAC endorsement. Population: 10 in 67 (2 in 67+), 0 finer (6/16). PCGS# 539049 Base PCGS# 4778
- 3364 1886 PR66 Cameo NGC. Fortin-Unlisted.** This Premium Gem Cameo proof 1886 dime shows the date further left than on the two previously known proof die pairings. This coin is mostly brilliant with a hint of gold around the edges. The top of Liberty's head shows the only notable strike weakness. Census: 14 in 66 Cameo (2 in 66 ★), 16 finer (6/16). NGC ID# 23DB, PCGS# 84783

**BARBER DIMES**

**1897 Barber Dime, MS67**  
Conditionally Rare, Ex: Duckor

- 3365 1897 MS67 PCGS.** This Superb Gem has frosty luster with exceptional toning. The surfaces are mostly olive-gold, rose, and pale violet with brilliant untuned areas on both sides. The 1897 Barber dime is somewhat more elusive in high grades than its mintage in excess of 10 million coins would suggest. The leading grading services have certified only a handful of coins at the MS67 numerical level, these being the finest known of the issue and of unparalleled importance to the Registry Set competitor. Population: 5 in 67 (2 in 67+), 0 finer (5/16).  
Ex: Duckor Collection / FUN Signature (Heritage, 1/2006), lot 984; Lily Nicole Collection (Heritage, 1/2016), lot 3790. NGC ID# 23E3, PCGS# 4812

**1898 Barber Dime, MS67**  
Wonderful Patina, Ex: Simpson

- 3366 1898 MS67 PCGS Secure. CAC.** Ex: Simpson. A wonderfully patinated and quite sharply struck Superb Gem example of this high-mintage early Philadelphia date, one no doubt underrated in the highest Mint State grades due to its impressively large coinage of 16.3 million pieces. Exemplary in every way. Population: 5 in 67, 0 finer. CAC: 5 in 67, 0 finer (5/16). NGC ID# 23E6, PCGS# 4815
- 3367 1899-O MS64 NGC.** Not a lick of toning is present on this Choice 1899-O Barber dime. Each side is completely brilliant and highly lustrous with razor-sharp detail, including full kernel definition on the right ear of corn. Clean for the near-Gem grade. Census: 13 in 64, 19 finer (6/16). NGC ID# 23EA, PCGS# 4819
- 3368 1902-O MS64 PCGS.** Well-struck for a New Orleans product, this Choice 1902-O Barber dime displays satiny luster with dusky toning. The obverse has lavender-gray, olive, and light golden hues, while the reverse exhibits pale champagne color. The 1902-O is occasionally seen in MS63 or MS64, but finer coins are rare. Population: 36 in 64 (2 in 64+), 9 finer (5/16). NGC ID# 23EK, PCGS# 4828
- 3369 1903-S MS64+ PCGS. CAC.** Ex: Eliasberg. A Plus-graded Choice specimen of this low-mintage issue, with sharply detailed design elements and vibrant mint luster, under delicate shades of champagne-gold and lavender toning. Population: 17 in 64 (1 in 64+), 19 finer. CAC: 2 in 64, 6 finer (5/16). NGC ID# 23EP, PCGS# 4832

**1905-S Dime, Attractively Toned MS66+  
Few Pieces Certified Finer**

- 3370 1905-S MS66+ PCGS. CAC.** Well-struck with satiny, original mint luster and unabraded surfaces. This high-end Premium Gem 1905-S dime is conditionally rare, and finer examples of the date are prohibitively so. This piece displays champagne, lavender, and olive-green toning that imparts exceptional eye appeal. Population: 26 in 66 (1 in 66+), 3 finer. CAC: 4 in 66, 3 finer (5/16). NGC ID# 23EW, PCGS# 4837

- 3371 1907-D MS65 NGC.** A boldly struck example of this conditionally challenging Denver issue. Lavender-gold and pale russet toning blankets each side, while a few minute ticks on Liberty's cheek render the grade. Census: 12 in 65, 9 finer (6/16). NGC ID# 23F4, PCGS# 4843

**1911 Dime, MS67  
Seemingly Flawless**

- 3372 1911 MS67 PCGS.** According to Bowers, 1911 saw the Treasury Department purchase silver in bulk for the first time since 1909 in order to strike enough coins to satisfy the great demand for dimes in the East and Midwest. Lightly toned surfaces exhibit daubs of russet and crimson patina as frosty luster rolls over each seemingly flawless side. The portrait and wreath elements are well-impressed. Population: 30 in 67 (4 in 67+), 2 finer (6/16). NGC ID# 23FJ, PCGS# 4857

**1915-S Dime, Lightly Toned MS66+  
One Piece Finer at PCGS**

- 3373 1915-S MS66+ PCGS. CAC.** With a mintage of 960,000 coins, the 1915-S Barber dime is a slightly scarcer date in Mint State and is rarely seen finer than MS65. This Premium Gem example displays thick, satiny luster beneath mottled champagne, olive, and russet toning. The surfaces are devoid of distracting abrasions and the strike is boldly executed. Population: 10 in 66 (1 in 66+), 1 finer. CAC: 6 in 66, 3 finer (5/16). NGC ID# BLAS, PCGS# 4869

**PROOF BARBER DIMES**

- 3374 1893 PR66 Cameo PCGS.** Tack-sharp motifs rise above fully mirrored fields on this Premium Gem proof Cameo. The centers are brilliant, while the margins display ocean-blue, mint-gold, and violet hues. The patina heightens the cameo contrast on the obverse. Population: 22 in 66 (1 in 66+) Cameo, 10 finer (5/16). NGC ID# 23G4, PCGS# 84877

- 3375 1894 PR66 NGC.** Wisps of lavender and gold penetrate deep ocean-blue toning on each side of this Premium Gem proof 1894 Barber dime. The strike is full, and any grade-limiting hairlines are well-hidden beneath the rich patina. Census: 45 in 66 (1 in 66+), 35 finer (5/16). NGC ID# 23G6, PCGS# 4878

- 3376 1898 PR64 Deep Cameo PCGS.** An immensely appealing Barber dime proof, of which 735 pieces were struck. Despite being one of the more available issues in the series, this brilliant example features stunning Deep Cameo contrast between the frosted devices and highly reflective fields. Population: 2 in 64 Deep Cameo, 14 finer (5/16). NGC ID# 23GB, PCGS# 94882

- 3377 1905 PR65 PCGS. CAC.** Daubs of blue, violet, and gold surround the obverse border, leaving the interior and the entire reverse essentially brilliant. The obverse has a touch of cameo contrast that accentuates the eye appeal. Population: 42 in 65, 54 finer. CAC: 6 in 65, 23 finer (5/16). NGC ID# 23GJ, PCGS# 4889

**MERCURY DIMES**

- 3378 1918 MS66 Full Bands PCGS.** A frosty Premium Gem Full Bands example of this conditionally elusive Philadelphia issue, showing a mostly brilliant reverse with russet and olive toning over half of the obverse. There are no abrasions, and eye appeal is outstanding. Population: 54 in 66 Full Bands, 4 finer (5/16). NGC ID# 23H5, PCGS# 4917

**1921 Mercury Dime, MS63 Full Bands  
Sought-After Better Date**

- 3379 1921 MS63 Full Bands PCGS.** Low-intensity shades of greenish-gold and lavender toning blanket the lightly marked surfaces of this attractive Select example, with satiny mint luster underneath. The design elements are well-detailed, with fully split and rounded bands on the fasces and overall eye appeal is quite strong. The 1921 Mercury dime is a decidedly better date, from a mintage of 1.2 million pieces. NGC ID# 23HE, PCGS# 4935

- 3380 1929 MS67 Full Bands PCGS.** The bands on the fasces are fully separated and rounded, and the other design elements are sharply detailed throughout. The lustrous, brilliant surfaces are impeccably preserved and eye appeal is terrific. Population: 84 in 67 (6 in 67+) Full Bands, 1 finer (5/16). NGC ID# 23J2, PCGS# 4973

**1930-S Dime, MS66+ Full Bands  
High-End for the Grade**

- 3381 1930-S MS66+ Full Bands PCGS. CAC.** A total of 1.8 million Mercury dimes were struck in San Francisco in 1930. David W. Lange says, "it seems likely that this issue was not released in quantity before 1934-35. By then, alert collectors and speculators were waiting eagerly to receive them." Hence, Premium Gems can still be found with a little searching. This is one such coin with fully rounded and split bands on the reverse. Brilliant, frosted surfaces show specks of mottled russet toning on each side. High-end for the grade with excellent eye appeal. PCGS reports 18 Full Bands submissions finer (5/16). NGC ID# 84NT, PCGS# 4981

**1930-S Dime, MS67 Full Bands  
Colorful Shades of Gold**

- 3382 1930-S MS67 Full Bands PCGS. CAC.** Exemplary surface quality and bold detail are the hallmarks of this Superb Gem 1930-S Mercury dime, although vivid rose-gold, amber, and champagne toning further heightens the visual appeal. This issue is seldom seen so fine, with or without Full Bands. The present coin is among the finest certified. Population: 18 in 67 (3 in 67+) Full Bands, 0 finer. CAC: 5 in 67, 0 finer (5/16). NGC ID# 84NT, PCGS# 4981
- 3383 1942 MS67+ Full Bands PCGS.** This highly lustrous Superb Gem has rich peripheral iridescence on the frosty obverse, with iridescent splashes on the otherwise brilliant and satiny reverse. NGC ID# 23K3, PCGS# 5035
- 3384 1943-S MS67+ Full Bands PCGS.** Brilliant, satiny surfaces yield almost untouched silver luster and sharp design elements. PCGS has seen only 19 finer examples of the 1943-S dime (5/16), making this Plus-graded MS67 piece highly appealing to the budget-conscious enthusiast. NGC ID# 23KA, PCGS# 5049
- 3385 1944 MS67 Full Bands PCGS. CAC.** This magnificent Superb Gem exhibits sharply detailed design elements, with Full Bands definition on the fasces, and impeccably preserved brilliant surfaces that radiate vibrant mint luster. PCGS has graded four numerically finer examples (5/16). NGC ID# 23KB, PCGS# 5051

**PROOF MERCURY DIMES**

- 3386 1936 PR66 NGC.** The bands on the fasces are fully split and rounded and all other design elements of this impressive Premium Gem are sharply detailed, as well. The fields are deeply reflective and the well-preserved surfaces show a few hints of sea-green and lavender toning at the rims. NGC ID# 27DG, PCGS# 5071
- 3387 1936 PR66 PCGS. CAC.** Razor-sharp definition is evident on all design elements, including the bands on the fasces. The surfaces are impeccably preserved, with hazy reflectivity in the fields and accents of greenish-gold toning. PCGS has graded 74 numerically finer examples (5/16). NGC ID# 27DG, PCGS# 5071

**1936 Mercury Dime, PR67  
Only Two Finer at Each Service**

- 3388 1936 PR67 PCGS.** A beautiful Superb Gem example of the debut proof issue in the Mercury dime series. The strike is fully rendered and the fields gleam when tilted beneath a light. A hint of pale champagne toning overall is accentuated by splashes of olive and russet along the right obverse and lower-right reverse borders. Population: 72 in 67 (3 in 67+), 2 finer (5/16). NGC ID# 27DG, PCGS# 5071

**TWENTY CENT PIECE**

- 3389 1875-CC AU58 PCGS.** Just a touch of actual wear shows on the design elements of this popular branch mint issue, which was lightly struck in the centers, like many examples seen. The lightly abraded surfaces retain traces of original mint luster. NGC ID# 23R6, PCGS# 5297

**PROOF TWENTY CENT PIECE**

- 3390 1876 PR62 PCGS.** Here is a well-struck proof with a touch of cameo contrast on each side. The surfaces are hairlined, as the grade suggests, but nonetheless show pleasing gold toning. NGC ID# 27H3, PCGS# 5304

**EARLY QUARTERS**

- 3391 1796 B-2, R.3 — Holed or Plugged — PCGS Genuine.** A type collection of U.S. quarter dollars has only one true stopper: the 1796. The present example is an affordable filler for the budget-conscious collector with Fair details. PCGS notes a plugged hole, located at 4 o'clock with regards to the obverse. The date is bold, and Liberty's portrait is mostly outlined. Star 1-4 are visible for variety attribution. The reverse is almost entirely smooth save for some wreath leaves visible near the plug. The coin has steel-gray color and smooth surfaces. NGC ID# 23RA, PCGS# 38920 Base PCGS# 5310

1796 B-2 Quarter, AG Details  
Bold Obverse Detail

- 3392 1796 B-2, R.3 — Improperly Cleaned — NGC Details. AG.** Tompkins Die State 1/1. Faint hairlines can be seen on each side of this pewter-gray 1796 B-2 quarter, but the overall appeal of the piece is plenty adequate for the budget-conscious type collector. The obverse has complete rims and strong Good 6 detail in the portrait. The reverse displays a boldly outlined eagle, and mostly readable legends, but weak rims prevent a finer grade level. This lightly cleaned but still pleasing Small Eagle type coin will satisfy many enthusiasts. NGC ID# 23RA, PCGS# 38920 Base PCGS# 5310

1804 B-1 Quarter, Good 4  
Original Problem-Free Example

- 3393 1804 B-1, R.3, Good 4 PCGS. CAC.** Tompkins Die State 1/1. A die scratch next to star 9 confirms the Browning-1 attribution. The year 1804 represented the second year of coinage for the quarter dollar denomination, and 6,738 pieces were reportedly struck. All survivors are in high demand, and this wonderfully problem-free example is sure to generate considerable interest. Each side displays even steel-gray patina over the well-worn relief elements. The obverse motifs and legends are clear, though the reverse is incomplete near the lower border. NGC ID# 379C, PCGS# 38921 Base PCGS# 5312

1805 B-3 Quarter, AU Sharpness  
Very Scarce So Well-Defined

- 3394 1805 B-3, R.1 — Questionable Color — PCGS Genuine. AU Details.** Tompkins Die State 4/2. The obverse shows cracks near the 5 in the date and star 4, while a die crack joins STAT(ES). Variety B-3 is the most frequently seen die pair for the 1805 Draped Bust quarter, although coins with AU sharpness are very scarce. The motifs on each side are pinpoint-sharp, save for the reverse stars — a typical attribute among B-3 quarters. A uniform layer of gunmetal patina covers the surfaces in their entirety, suggesting they may have been retoned at one point. Whether that is the case or not, this is an attractive representative that will fit nicely into any early quarter set. NGC ID# 23RC, PCGS# 38925 Base PCGS# 5313

BUST QUARTERS

1815 'E' Counterstamped Quarter, AU58  
Of Possible Economite Origin

- 3395 1815 "E" Counterstamp, B-1, R.1 AU58 NGC.** The mystery of the enigmatic E and L counterstamps was solved to many collector's satisfaction in a 2004 article in *The Gobrecht Journal* by Ted McAuley. The theory he set forth suggests these pieces were used for voting or accounting purposes by the Economite Society of Economite, Pennsylvania. The choice in the "Great Schism" was between George Rapp, founder and spiritual leader of the community (E) and a dissenter, Count Leon (L). All the survivors are in higher grades, XF to lower Uncirculated. This is an attractive, problem-free example with original medium gray patina and deep accents surrounding the devices. NGC ID# 23RG, PCGS# 38942 Base PCGS# 5321

- 3396 1828 25 Over 50C, B-3, R.5, Good 6 PCGS.** Deep lavender-gray throughout aside from lighter cream toning on the reverse high points. All legends are bold except for E PLURIBUS UNUM, which is nonetheless partly readable. A challenging *Guide Book* blundered denomination variety.  
*Ex: Schaumburg Central States Signature (Heritage, 4/2012), lot 3934, which realized \$1,006.25.* NGC ID# 23RV, PCGS# 38979 Base PCGS# 5343

- 3397 1831 Large Letters, B-5, FS-301, R.3, AU58 PCGS. CAC.** The 1s in the date are repunched over small 1s. A nearly brilliant representative with lustrous borders and no mentionable abrasions. The strike is good aside from softness on the lowest stars. NGC ID# 23RW, PCGS# 38984 Base PCGS# 5349

- 3398 1834 O Over F in OF, B-1, R.1, MS62 PCGS.** Tompkins Die State 5/5. The late die state with a lapped reverse and a double set of "bar" clash marks near the ear. The same die marriage as FS-901, but the lapping has mostly effaced evidence of repunching on OF A. Deep blue-green borders encompass steel-gray fields and golden-brown centers. Satiny, well struck, and lightly abraded. NGC ID# 23RZ, PCGS# 38992 Base PCGS# 5353

- 3399 1836 B-5, High R.6, AG3 ANACS.** A problem-free, originally toned AG example of this rare die pairing. The date, denomination, and peripheral legends and stars are mostly visible. Liberty's portrait and the eagle are outlined. The obverse die cracks at 5 and 8 o'clock are bold. This piece displays smooth tan-gray surfaces and has excellent appeal for the grade. NGC ID# 23S3, PCGS# 39009 Base PCGS# 5355

## SEATED QUARTERS

### 1839 No Drapery Quarter, MS63 Lightly Toned and Lustrous

**3400 1839 No Drapery MS63 PCGS. Briggs 1-A.** Open Claws Reverse. A bisecting die crack stretches from the T in UNITED to the R in AMERICA. This Select No Drapery type coin is well-struck save for the upper edge of the eagle's right (facing) wing, and grade-limiting abrasions are minimal. The satiny surfaces yield medium olive-gold toning. Population: 14 in 63, 15 finer (5/16). NGC ID# 23SF, PCGS# 5392

**3401 1853 Arrows and Rays MS62 PCGS.** The single year subtype of the Seated Liberty series is extremely popular with type collectors, and demand remains strong for all Mint State grades. Strike weakness is evident at the centers. This piece has frosty silver luster with inconsequential grade-consistent marks. NGC ID# 23U4, PCGS# 5426

**3402 1857 MS65 PCGS.** An oddly-shaped planchet defect appears as a pendant on the top of Liberty's gown on this richly toned Gem Seated Liberty quarter. Both sides exhibit bold detail and satin luster. Population: 48 in 65, 49 finer (5/16). NGC ID# 23TE, PCGS# 5442

**3403 1857-O MS62 NGC.** Vivid shades of golden-brown and magenta toning blanket the surfaces of this lightly marked MS62 example, with well-detailed design elements that show a touch of softness on some of the stars. Census: 5 in 62, 6 finer (5/16). NGC ID# 23TF, PCGS# 5443

**3404 1857-O MS63 PCGS. Briggs 3-B.** The 1857-O is easily located in well-circulated grades, but Uncirculated examples are undeniably rare. This unworn example has pearl-gray surfaces that show only incidental contact. A tiny mahogany spot, on the drapery above the I in LIBERTY, provides an identifier. Population: 7 in 63, 8 finer (5/16). NGC ID# 23TF, PCGS# 5443

### 1864 Quarter, Mostly Untoned MS64

**3405 1864 MS64 PCGS. Briggs 1-B.** Characterized by two die lumps on the left thigh of Liberty and recutting on all the vertical lines on the reverse shield. An uncommonly high mintage, for a Civil War year, of 93,600 pieces was achieved in the Philadelphia Mint. This is a sharply detailed example that displays generally untoned surfaces and no mentionable abrasions. Population: 18 in 64 (2 in 64+), 19 finer (5/16). NGC ID# 23TY, PCGS# 5459

### 1867 Quarter, Untoned MS63 Underrated Low-Mintage Date Ex: Gardner

**3406 1867 MS63 PCGS. CAC. Briggs 1-A.** This important, if somewhat neglected issue was struck to the meager extent of 20,000 business strikes, hardly enough to ensure a supply of Mint State coins today. This frost-white coin shows extensive die lapping and subsequent die clashing on portions of Liberty's gown, her stomach area, BER, and the area right of the shield on the obverse, and the ribbon left of IN on the reverse. The obverse die also shows extensive signs of clashing, both on the devices (which are lowered due to the lapping) and in the left obverse field before Liberty's face. Patches of abrasions appear to the left of the date and to the right of Liberty on the obverse; the reverse shows a few ticks but is better-preserved overall. Population: 5 in 63 (1 in 63+), 3 finer. CAC: 3 in 63, 1 finer (5/16).

Ex: *Stamford Coinfest Signature* (10/2010), lot 3588; *Eugene H. Gardner Collection, Part IV* (Heritage, 10/2015), lot 98456. NGC ID# 23UD, PCGS# 5470

**3407 1877-CC MS65 PCGS.** Large CC. Orange-gold and stone-gray embrace this sharply struck and lustrous Carson City Gem. No marks are apparent. An outstanding representative of the legendary Old West facility. Population: 40 in 65 (1 in 65+), 28 finer (5/16). NGC ID# 23V6, PCGS# 5505

**3408 1881 MS64 PCGS. CAC. Briggs 1-A.** As nice as can be obtained for the MS64 level. Light wheat-gold toning accompanies lustrous and unmarked surfaces. Stars 4 to 8 are softly brought up. The business issue was limited to 12,000 pieces, likely due to the large-scale silver dollar production of the era. NGC ID# 23VD, PCGS# 5513

**3409 1883 MS64 PCGS. Briggs 2-A.** Sharply detailed throughout, this attractive Choice specimen displays vibrant mint luster and peripheral wheat-gold patina. Outstanding visual appeal. Housed in an old green label holder. Population: 19 in 64 (1 in 64+), 35 finer (5/16).

Ex: *Pittsburgh Signature* (Heritage, 10/2011), lot 3602, which realized \$2,530. NGC ID# 23VF, PCGS# 5515

**3410 1886 MS65 PCGS. Briggs 1-A.** The 1886 boasts the lowest mintage among a decade's worth of low-mintage issues. Output totaled just 5,000 coins, and only the 1873-CC No Arrows, of which six examples are known, has a smaller mintage in the entire Seated quarter series. Many Uncirculated pieces were squirreled away speculatively by contemporary collectors, explaining the relatively high survival rate in Mint State. The typically prooflike surfaces are partly subdued by the dramatic ice-blue and violet toning that shrouds each side of this Gem example. It is well-struck and carefully preserved with grade-defining marks mostly hidden beneath the rich patina. Population: 10 in 65, 20 finer (5/16).

Ex: *Lucien M. LaRiviere Collection, Part III* (Bowers and Merena, 5/2001), lot 1480; *Eugene H. Gardner Collection, Part IV* (Heritage, 10/2015), lot 98487. NGC ID# 23VJ, PCGS# 5518

**3411 1888-S MS65 NGC.** The 1888-S quarter was the sole respite from a decade-long run of tiny quarter mintages that stretched from 1879 to 1889. More than 1.2 million pieces were struck and, apparently, they were sorely needed in commerce because few high-grade coins survive. This semiprooflike representative displays areas of cerulean-blue and peach-gold toning and a sharp strike on the raised elements. LIBERTY is bold, unlike some examples of the issue. Census: 13 in 65, 6 finer (5/16). NGC ID# 23VN, PCGS# 5521

## PROOF SEATED QUARTERS

- 3412 1860 PR64 PCGS. CAC.** Type Two Obverse. Type One Reverse. The strike is crisp except on the left-side stars. The reflective and unblemished surfaces display rich peach-gold and powder-blue toning. Although 1,000 proofs were struck, a majority did not sell and were eventually melted by the Mint. Population: 45 in 64, 24 finer. CAC: 4 in 64, 8 finer (5/16). NGC ID# 23WM, PCGS# 5556

### 1867 Quarter, PR66 ★ Cameo Stark White-on-Black Contrast

- 3413 1867 PR66 ★ Cameo NGC. Briggs 2-B.** Quicksilver fields give this Premium Gem Cameo 1867 proof quarter outstanding eye appeal, contrasting boldly with the frost-white devices. Hints of golden peripheral color frame a sharp strike and accentuate the visual impact. Conditionally rare this well-preserved. Census: 7 in 66 Cameo (1 in 66★), 3 finer (6/16). NGC ID# 23WY, PCGS# 85566

### 1869 Quarter, Toned PR66 Attractive and Conditionally Rare

- 3414 1869 PR66 PCGS. CAC. Briggs 2-B.** The appeal of the proof 1869 Seated quarter is drawn substantially from the rarity of Mint State circulation strikes, but it is itself scarce in high grade. The proof issue had a mintage of 600 pieces, and this Premium Gem is tied for the finest non-Cameo survivor at PCGS (6/16). The design elements are boldly brought up amid glasslike mirroring in the fields. Both sides display vivid multicolor toning, and the eye appeal is exceptional. The obverse is lightly die doubled, as always on the proof issue. Population: 6 in 66 (1 in 66+), 0 finer. CAC: 11 in 66, 1 finer (5/16). NGC ID# 29SH, PCGS# 5568

- 3415 1873 No Arrows PR64 Cameo PCGS. CAC. Briggs 1-A.** Ice-white motifs rise in full detail above glassy, brilliant fields. The borders exhibit golden-brown toning. A splendid Choice Cameo representative. 1873 proof mintages included 600 Closed 3, No Arrows quarters and 500 Open 3, Arrows quarters. NGC ID# 23X6, PCGS# 85572

- 3416 1874 Arrows PR64 PCGS.** This Choice proof exhibits gorgeous gold and iridescent toning with noticeable field-to-device contrast, although without a deserved Cameo designation. Careful examination reveals faint hairlines that prevent a higher grade. NGC ID# 23XS, PCGS# 5575

### 1878 Quarter, PR66+ Reflective, Near-Flawless Surfaces

- 3417 1878 PR66+ NGC. Briggs 4-D.** A faint die crack between stars 3 and 4, and a die lump at the left base of Liberty's staff identify the obverse. The reverse die, one of two employed in 1878, shows a prominent die lump between horizontal lines 3 and 4 on the shield. A high circulation-strike mintage of over 2.2 million coins makes the 800 proofs far more elusive in relative terms. Survivorship of the 1878 is comparable to that of other contemporary proof issues, and Premium Gems such as this are very rarely encountered. Census: 10 in 66 (1 in 66+), 4 finer (6/16). Ex: Melrose Bay Collection / ANA Signature (Heritage, 7/2005), lot 6040; Eugene H. Gardner Collection, Part IV (Heritage, 10/2015), lot 98535. NGC ID# 23XA, PCGS# 5579

### 1880 Quarter, Toned PR66 One-Sided Contrast

- 3418 1880 PR66 PCGS. Briggs 2-B.** Type Two Reverse. A sharp, glittering Premium Gem proof with mirrored fields and modest cameo contrast on the obverse. Splashes of olive-green and gold toning appear on each side, attesting to the originality of the surfaces and adding to the eye appeal. Finer examples of the 1880 proof quarter are rarely seen. Population: 36 in 66 (1 in 66+), 11 finer (5/16). NGC ID# 23XC, PCGS# 5581

### 1884 Quarter, Gem Proof Appealing Coloration

- 3419 1884 PR65 PCGS. Briggs 2-B.** This reflective proof displays razor-sharp, frosty design elements with champagne-gray toning over the reverse and olive-green and gold obverse coloration that accentuates modest cameo contrast. This Gem 1884 proof is eye-appealing and well-preserved. Population: 37 in 65 (1 in 65+), 38 finer (5/16). NGC ID# 3TWH, PCGS# 5585

**1889 Quarter, Toned PR64  
Modestly Contrasted**

- 3420** 1889 PR64 PCGS. Briggs 2-B. A sharp Choice proof 1889 Seated quarter, showing lovely champagne-rose and mint-green toning over each side. A touch of cameo contrast is seen on both faces, but it is not quite prominent enough to warrant a Cameo designation from PCGS. Population: 47 in 64, 37 finer (5/16). NGC ID# 44CX, PCGS# 5590

**BARBER QUARTERS**

**1896-O Quarter, Sharp MS64  
Underrated New Orleans Issue**

- 3421** 1896-O MS64 PCGS. This New Orleans issue ranks among the six most challenging emissions in the series after the 1901-S but is overshadowed by its famous S-mint brother. The Louisiana branch mint struck 1.4 million quarters in 1896, and CoinFacts estimates about 80 pieces survive across all Mint State grade levels. This near-Gem offers a thin layer of lavender patina over softly frosted surfaces. Perhaps most importantly for the specialist, the stars, hair strands, and the eagle's right shield / wing juncture are fully defined. Population: 9 in 64 (1 in 64+), 12 finer (6/16). NGC ID# 23Y8, PCGS# 5614
- 3422** 1900 MS65 PCGS. CAC. An attractive Gem specimen of this popular turn-of-the-century date, with well-detailed design elements and intense satiny mint luster, under shades of gray, magenta, and golden-brown toning. Population: 39 in 65, 18 finer. CAC: 10 in 65, 8 finer (5/16). NGC ID# 23YK, PCGS# 5625
- 3423** 1901-S AG3 PCGS. This key-date Barber quarter grades full Good on the obverse with an outlined portrait but has weak reverse peripheries. The surfaces smooth and problem-free with tan-gray color. The mintmark is clear. NGC ID# 23YR, PCGS# 5630

**1901-S Quarter, AG3  
Sought-After Key Issue**

- 3424** 1901-S AG3 PCGS. Light, medium gray color covers both sides of this worn but eminently acceptable, scarce Barber quarter — the series key date in all conditions. As usual, the obverse is more defined than the reverse, with strong rims, legend, date, eye, and ear for the grade. The reverse shows blending of the legend into the border and a small rim bump above OF, yet the mintmark is bold and marks are minimal on either side. NGC ID# 23YR, PCGS# 5630
- 3425** 1902 MS66 PCGS. Shimmering mint luster rolls around unabraded surfaces on this Premium Gem 1902 quarter, illuminating a hint of pale champagne toning. The eagle's talons, fletchings, and several obverse stars are weakly struck, as usual. Population: 36 in 66 (3 in 66+), 3 finer (5/16). NGC ID# 23YS, PCGS# 5631
- 3426** 1907 MS66 PCGS. CAC. A well-struck Premium Gem example of this conditionally elusive type-coin issue, showing frosty mint luster and unabraded surfaces. The centers are mostly untuned, while the borders display amber, violet, blue, and olive-gold concentric hues. Population: 17 in 66 (1 in 66+), 4 finer. CAC: 9 in 66, 1 finer (5/16). NGC ID# 23Z8, PCGS# 5645
- 3427** 1909-S MS65 PCGS. CAC. Frosty, original mint luster glows on each side of this Gem 1909-S Barber quarter, illuminating sun-orange and champagne-gold toning. The strike is impressively sharp on the stars and eagle, and only a few faint grazes on the obverse preclude an even finer grade. Population: 25 in 65, 18 finer. CAC: 4 in 65, 6 finer (5/16). NGC ID# 23ZK, PCGS# 5656
- 3428** 1913-S Good 6 PCGS. The low-mintage key date 1913-S Barber quarter is popular in all grades, and it is usually found at the lowest grade levels. Virtually full rims are present with two letters in LIBERTY. This light gray representative has deeper gray toning in the fields. NGC ID# 23ZW, PCGS# 5666
- 3429** 1913-S Good 6 PCGS. Bold rims and fully outlined devices confirm the grade on this collectible 1913-S Barber quarter, while battleship-gray devices and deep gunmetal-gray fields deliver the desirable circulation cameo appearance. The surfaces are smooth and problem-free. NGC ID# 23ZW, PCGS# 5666
- 3430** 1913-S — Damage — PCGS Genuine. Fine Details. This key Barber quarter has been cleaned and exhibits heavy scrapes and scratches that are obvious on the obverse, and less noticeable on the reverse. The obverse is light gray and the reverse exhibits golden tendencies. NGC ID# 23ZW, PCGS# 5666
- 3431** 1914 MS66+ PCGS. CAC. Olive-gold border toning surrounds mostly silver-gray interiors on this high-end Premium Gem 1914 Barber quarter. A single small tick below Liberty's eye precludes a full Superb Gem grade. The 1914 is conditionally rare this well preserved. Population: 24 in 66 (1 in 66+), 2 finer. CAC: 12 in 66, 1 finer (5/16). NGC ID# 23ZX, PCGS# 5667

**1914-D Quarter, Exceptional MS67  
The Sole Superb Gem Certified at NGC**

- 3432 1914-D MS67 NGC.** Ex: "Col." E.H.R. Green / Eric P. Newman Collection. This is an uncommon coin in several ways. While the 1914-D is considered a common date among the later Barber issues, it barely exists in Superb Gem condition. This is a magnificently lustrous example that displays even gray-golden toning over each side. The strike is strong overall and, of course, no abrasions can be seen. The sole finest at NGC (6/16).  
Ex: "Colonel" E.H.R. Green; *Eric P. Newman Numismatic Education Society; Eric P. Newman Collection, Part II* (Heritage, 11/2013), lot 33219. NGC ID# 23ZY, PCGS# 5668

- 3433 1915 MS66 PCGS.** Barber half dollar output took a backseat to quarter dollar production at Philadelphia in 1915 (3.5 million quarters struck). This attractive Premium Gem offers flashes of brilliance amid variegated steel-blue, russet, and olive toning. Crisply detailed and expectedly clean. Population: 23 in 66 (1 in 66+), 0 finer (5/16). NGC ID# 2422, PCGS# 5670

- 3434 1916 Barber MS66 PCGS.** Rich amber-gold toning combines with sea-green and blue shades to produce the lovely patination on this lustrous, final-year Barber quarter. A sharp strike on all of the elements gives this coin high marks both on the technical side and for eye appeal. Few coins are graded at this Premium Gem level, and finer examples are nearly unavailable. Population: 33 in 66 (1 in 66+), 5 finer (5/16). NGC ID# 2425, PCGS# 5673

- 3435 1916-D MS67 NGC.** Medium intensity lavender, gold-tan, and electric-blue patination bathes the obverse of this D-mint Barber quarter while the reverse is nearly untuned. The design elements are sharply impressed, including the upper-right corner of the shield and the eagle's talons. Both sides are impeccably preserved. Census: 13 in 67 (2 in 67+, 1 in 67★), 2 finer (5/16). NGC ID# 2426, PCGS# 5674

**PROOF BARBER QUARTERS**

- 3436 1894 PR66 Cameo PCGS. CAC.** The design elements of this spectacular Premium Gem exhibit razor-sharp definition in all areas and the deeply reflective fields contrast boldly with the frosty devices to create a pleasing cameo effect. No mentionable distractions are evident and eye appeal is terrific. Population: 19 in 66 (1 in 66+) Cameo, 5 finer. CAC: 11 in 66, 6 finer (5/16). NGC ID# 2429, PCGS# 85680

- 3437 1896 PR66 PCGS.** A fully struck Premium Gem proof with deeply mirrored fields and outstanding preservation. Coloration ranges from deep navy-blue to sea-green, violet, amber, and champagne. Eye appeal is exquisite. Population: 24 in 66 (1 in 66+), 21 finer (5/16). NGC ID# 23Y7, PCGS# 5682

- 3438 1906 PR66 Cameo PCGS.** Just 675 proof Barber quarters were struck in 1906, few of which display significant contrast between the reflective fields and the motifs. The current Premium Gem proof is an exception, earning the Cameo designation for a layer of thick mint frost on the raised elements, visible throughout both sides of the coin. Bronze-gold toning visits the deep-mirrored fields, with hints of blue and violet at the borders. Sharply struck, this gleaming proof is tied for the finest-known Cameo at either service. Population: 3 in 66 Cameo, 0 finer (5/16). NGC ID# 242M, PCGS# 85692

- 3439 1908 PR66 PCGS.** A higher-end non-Cameo example of this proof issue, showing champagne toning and mirrored fields. The strike is sharp, and modest field-device contrast is seen on each side. Population: 20 in 66, 22 finer (5/16). NGC ID# 242P, PCGS# 5694

**STANDING LIBERTY QUARTERS**

**1916 Standing Liberty Quarter, Good 6  
Collector Coin, Circulation Cameo**

- 3440 1916 Good 6 NGC.** A well-worn but essentially problem-free example of this debut key Standing Liberty quarter issue. The figure and eagle are boldly outlined with a strong circulation-cameo appearance. Both sides display tan-tinted gunmetal-gray patina, but the fields and recesses are significantly deeper in hue than the motifs. The date is nearly worn away, but the lower edges of the final three numerals are discernible. NGC ID# 43XR, PCGS# 5704

**1917 Type One Quarter, MS67 Full Head  
None Finer at Either Service**

- 3441 1917 Type One MS67 Full Head PCGS.** A boldly impressed and exquisitely preserved representative of this ever-popular type issue, frosty with a hint of satin on the obverse. The reverse fields exhibit a degree of orange-peel effect beneath whispers of ice-blue and amber patina. Neither NGC nor PCGS has graded a numerically finer example (6/16).  
Ex: *Dallas Signature* (Heritage, 11/2005), lot 1369; *Long Beach Signature* (Heritage, 5-6/2007), lot 961. NGC ID# 242Z, PCGS# 5707

- 3442 1917-S Type One MS65 Full Head PCGS.** Even for a Gem, this Full Head 1917-S Type One quarter is clean. Only a few faint slide marks on the high points of Liberty's forward leg preclude an assessment at least a grade point finer. Eye appeal is superb. This sharp Type One San Francisco coin displays glistening mint luster with a blush of golden toning. NGC ID# 2433, PCGS# 5711

- 3443 1918 MS65 Full Head PCGS.** This Gem Standing Liberty quarter is all-brilliant and thickly frosted. Besides mushy lower-left obverse margins, each side is well-defined with Full Head detail, clear rivets, and strong shield lines. A great pedestal date type coin. NGC ID# 2437, PCGS# 5721

**1918 Quarter, MS66 Full Head  
Sharp Throughout**

**3444 1918 MS66 Full Head PCGS.** Although one of the more frequently seen pre-1925 Type Two issues with a Full Head, the 1918 Standing Liberty quarter is nonetheless scarce in high grade with such a designation. This Premium Gem Full Head example displays satiny champagne-gray luster with occasional small olive overtones. Light clash marks in the obverse recesses and slight blurring of the reverse stars denote a late die state, but this coin is nonetheless fully struck through the border regions and interior high points. Population: 51 in 66 (3 in 66+) Full Head, 14 finer (5/16). NGC ID# 2437, PCGS# 5721

**3445 1918-D MS64 Full Head PCGS. CAC.** Collectors looking for an eye-appealing 1918-D quarter in Full Head without paying the price of a Gem-quality example need look no further. This CAC-endorsed near-Gem is an outstanding coin with a sharp head, sharp date, and above-average central definition. Iridescent champagne toning warms softly frosted, original luster on each side, and the only grade-limiting flaws are some faint slide marks on the high points of Liberty's knee. NGC ID# 3TWU, PCGS# 5723

**1918/7-S Quarter, Fine 15  
Cornerstone Issue**

**3446 1918/7-S FS-101 Fine 15 PCGS.** Few would argue that the 1918/7-S Standing Liberty quarter is one of the two most important and well-recognized issues in the series along with the 1916. The variety was created when a 1917-dated die was rehubbbed in 1918 with the new date. This circulated example displays light gray surfaces with occasional tan elements. The overdate and major motifs are clear. Housed in a green label holder. NGC ID# 243A, PCGS# 395949 Base PCGS# 5726

**3447 1919 MS66 Full Head NGC.** Lovely, softly frosted mint luster glows on each side of this Premium Gem Full Head 1919 quarter. The date, shield, head, and stars are sharp, as well as the eagle, supporting this issue's reputation as being one of the few dates in the series that can be located in a true fully struck state. Neither side shows mentionable toning, and the only grade-limiting flaws are a few tiny ticks on Liberty's forward leg. Census: 48 in 66 Full Head, 17 finer (5/16). NGC ID# 243B, PCGS# 5729

**3448 1919 MS66 Full Head PCGS.** This outstanding Full Head 1919 quarter showcases virtually untouched, satiny surfaces with lemon-gold toning that shows hints of russet near the borders. In addition to Liberty's head, the shield, date, stars, and eagle all exhibit sharp definition. The eye appeal and originality are undeniable. Finer Full Head coins are elusive. NGC ID# 243B, PCGS# 5729

**3449 1919 MS66 Full Head PCGS.** A sharp head and shield are the hallmarks of this Premium Gem 1919 quarter, while the date is predictably flat but clear. Satiny luster illuminates minimally marked champagne surfaces with areas of deep russet toning in the recesses. Finer Full Head coins are elusive. NGC ID# 243B, PCGS# 5729

**3450 1919-D AU58 PCGS.** An accurately graded near-Mint 1919-D quarter with a brush of high-point friction that is only obvious with a loupe. This satiny coin is well-struck for the issue but shows weakness on Liberty's head. The date is sharp. Dusky greenish-gold toning blankets each side. NGC ID# 243C, PCGS# 5730

**3451 1919-D MS62 PCGS.** This is an unusually well-struck 1919-D quarter. There are no major abrasions, but deeply mottled golden-brown toning slightly subdues the luster and likely has an effect on the grade. Liberty's head is a trifle weak at the temple, as usual, and the inner two shield rivets are not brought up. The date is flat but clear. A die crack extends into the eagle's wing from the reverse rim at 2 o'clock. NGC ID# 243C, PCGS# 5730

**3452 1919-D MS63 PCGS.** Although this Select Mint State quarter is somewhat indistinct at the centers, it boasts brilliant silver mint luster with dappled gold and iridescent toning on both sides. The 1919-D is an important issue from a modest 1.9 million coin mintage. NGC ID# 243C, PCGS# 5730

**3453 1920 MS65 Full Head PCGS. CAC.** Four bold date numerals are the hallmark of this Gem Full Head 1920, complementing a full shield and just-qualifying Full Head detail. Satiny luster displays light champagne toning, and abrasions are at a minimum. Finer Full Head coins are elusive. NGC ID# 243E, PCGS# 5735

**3454 1923 MS64 Full Head PCGS. CAC.** Frosty, champagne-tinted luster gives this Choice Full Head 1923 quarter pleasing eye appeal. A couple of shield rivets are ill-defined, but the strike is otherwise bold. There are no significant abrasions. NGC ID# 243J, PCGS# 5743

**3455 1923-S AU58 PCGS.** A well-struck, mostly lustrous near-Mint example with satiny ice-blue surfaces and trivial high-point friction. Liberty's head is weak only at the ear hole, and the date is bold. The shield shows above-average definition. NGC ID# 243K, PCGS# 5744

**3456 1924 MS66 Full Head PCGS.** This Premium Gem 1924 quarter is impressively well-struck on the eagle, date, and stars. The shield and head are similarly well-defined. Frosty luster illuminates a blush of light golden toning on each side, and the only noticeable abrasion is a small tick on Liberty's knee. Finer Full Head examples are rare. Population: 62 in 66 (6 in 66+) Full Head, 14 finer (5/16). NGC ID# 243L, PCGS# 5747

**3457 1924-D MS67 PCGS. CAC.** This MS67-graded 1924-D quarter ranks among the finest non-Full Head coins at PCGS. NGC has seen a number of pieces in this grade, but PCGS Registry Set collectors have only nine so-graded coins from which to choose (6/16). This CAC-endorsed example displays bold central detail but slight weakness on the head and date, as usual. Frosty luster has a hint of champagne toning. NGC ID# 243M, PCGS# 5748

**1926 Quarter, MS66 Full Head  
Better Date in High Grade**

- 3458 1926 MS66 Full Head PCGS.** The 1926 is a conditionally elusive issue in high-grade Full Head, and examples are rarely seen finer than the present Premium Gem. This piece displays bold design elements amid softly frosted champagne luster. Bits of russet and deep violet toning are seen in the obverse recesses and along the lower reverse border. The shield rivets remain incomplete, despite the desired head detail. Population: 44 in 66 (6 in 66+) Full Head, 3 finer (5/16). NGC ID# 243R, PCGS# 5755

- 3459 1926-S MS64 PCGS. CAC.** The 1926-S is a slightly better date in Mint State. This Choice CAC-endorsed example displays satiny luster with lemon-gold toning. Die polishing lines and erosion-induced metal flowlines in the obverse fields and recesses accompany slightly incomplete head and shield detail, as usual. NGC ID# 4462, PCGS# 5758

**1928 Quarter, MS66 Full Head  
Attractively Lustrous, Conditionally Scarce**

- 3460 1928 MS66 Full Head PCGS. CAC.** This delightful Premium Gem exhibits a better-than-average strike, with a little softness on the shield rivets but full definition on Liberty's head. The nearly pristine surfaces radiate vibrant mint luster and show a few hints of lavender and amber toning. The 1928 is scarcer in high-grade Full Head than might be expected given the issue's availability in the general sense. Population: 75 in 66 (8 in 66+) Full Head, 8 finer. CAC: 13 in 66, 6 finer (5/16). NGC ID# 243X, PCGS# 5767

- 3461 1928-D MS65+ Full Head NGC.** Many of the late-date Standing Liberty quarters are among the glories of this series: well-produced, extremely attractive, and yet available in high grades for reasonable amounts. This silver-white MS65+ Full Head 1928-D is a splendid demonstration, showing satiny surfaces with no distractions and great eye appeal. Census: 22 in 65 (1 in 65+) Full Head, 12 finer (6/16). NGC ID# 243Y, PCGS# 5769

**1929-S Quarter, MS67 Full Head  
Tied for Finest at PCGS**

- 3462 1929-S MS67 Full Head PCGS.** The 1929-S is a plentiful issue overall, but few Full Head examples are certified in Superb Gem condition. This luminous representative boasts thick, frosty mint luster and immaculate surfaces. As is characteristic of the issue, some strike softness is seen on the eagle's breast and wing as well as Liberty's central gown folds and the shield rivets, but the head is sharp. A suggestion of light golden toning graces otherwise brilliant surfaces, and the eye appeal is exceptional. Population: 16 in 67 Full Head, 0 finer (5/16). NGC ID# 2444, PCGS# 5777

**WASHINGTON QUARTERS**

- 3463 1934-D Medium Motto MS66+ PCGS. CAC.** A high-end Premium Gem, with sharply detailed design elements and well-preserved lustrous surfaces that display shades of lavender-gray and amber toning. PCGS has graded seven numerically finer examples (5/16). NGC ID# 244C, PCGS# 5796

- 3464 1935-S MS67 PCGS. CAC.** The impeccably preserved surfaces of this impressive Superb Gem show hints of pale gold and amber toning, with well-detailed design elements and frosty mint luster throughout. Population: 94 in 67 (2 in 67+), 0 finer. CAC: 14 in 67, 0 finer (5/16). NGC ID# 244F, PCGS# 5799

- 3465 1936-D MS66+ PCGS.** A well-struck, high-end Premium Gem with frosty luster and unabraded surfaces. Champagne and sun-gold toning encompasses much of each side, but areas of ice-blue and lavender appear around the reverse periphery. PCGS has seen 20 numerically finer representatives (5/16). NGC ID# 244H, PCGS# 5801

- 3466 1936-D MS66+ PCGS.** A glistening, frosty Premium Gem with outstanding eye appeal. A single light graze on Washington's neck appears to be all that precludes a full Superb Gem designation. This piece is mostly frost-white but with bits of russet toning along the obverse rims. NGC ID# 244H, PCGS# 5801

- 3467 1936-D MS66 PCGS. CAC.** An attractively toned Premium Gem with shades of pine-green, orange, violet, and champagne spread over each side in a mottled pattern. The strike is sharp, and the preservation is excellent. PCGS has seen only 20 Superb Gems finer (5/16). NGC ID# 244H, PCGS# 5801

- 3468 1936-S MS67 PCGS. CAC.** Like many dates in the early Washington quarter series, the 1936-S is conditionally scarce in Superb Gem condition. This CAC coin displays softly frosted luster with a hint of golden toning. None are numerically finer at either service. Population: 54 in 67 (3 in 67+), 0 finer. CAC: 17 in 67, 0 finer (5/16). NGC ID# 244J, PCGS# 5802

- 3469 1937-D MS67 PCGS. CAC.** Beautifully preserved with thick, frosty luster. Bits of olive and amber toning on the obverse accent otherwise brilliant surfaces. The 1937-D is seldom seen this well-preserved and never finer. Population: 68 in 67 (1 in 67+), 0 finer. CAC: 18 in 67, 0 finer (5/16). NGC ID# 244L, PCGS# 5804

- 3470 1943-S Doubled Die Obverse, FS-101, MS65 PCGS. CAC.** Mottled amber-brown toning is heaviest on the reverse of this Gem 1943-S doubled die quarter, although both sides are equally lustrous. The strike is bold, and there are no significant abrasions. Bold die doubling is seen on all obverse lettering. Population: 21 in 65 (1 in 65+), 11 finer. CAC: 3 in 65, 6 finer (5/16). NGC ID# 2457, PCGS# 145154 Base PCGS# 5823

**3471 1948 MS67+ PCGS.** Nearly all of the reverse, and all but the left obverse, display exquisite bands of tobacco-brown, lime-green, and rose-red toning. This lustrous and crisply struck Superb Gem is essentially void of contact. Population: 122 in 67 (14 in 67+), 2 finer (5/16). NGC ID# 245L, PCGS# 5836

**3472 1948-S MS67+ NGC.** The eye appeal of this piece is undeniable, and the technical quality is excellent. Radiant, satiny luster illuminates light golden centers which cede to concentric rainbow hues in the margins. This piece is the only Plus-graded MS67 coin at NGC, and just a single finer piece is certified by that service (5/16). NGC ID# 245N, PCGS# 5838

#### 1950-S/D Washington Quarter, MS66 Popular Guide Book Variety, FS-601

**3473 1950-S/D FS-601 MS66 PCGS.** Light almond-gold toning graces this lustrous and well-struck overmintmarked quarter. The well-preserved surfaces show a solitary field graze near the profile. This spectacular Premium Gem is among the better certified examples of this popular *Guide Book* variety. Population: 51 in 66 (13 in 66+), 6 finer (5/16). NGC ID# 245V, PCGS# 145639 Base PCGS# 5845

**3474 1953-S MS67+ PCGS. CAC.** 30th Anniversary Green Label Holder. The obverse margin exhibits freckled sun-gold, ruby-red, forest-green, and russet toning. Well struck and lustrous with smooth fields and incidental contact on Washington's neck. NGC ID# 2466, PCGS# 5854

**3475 1954-S MS67+ PCGS. CAC.** Washington's cheek is particularly clean on this high-end Superb Gem example, and the remainder of each showcases untouched, frosty luster. Russet-olive, forest-green, crimson, and yellow-gold toning blankets much of each side, but radiant luster nonetheless shines through. NGC ID# 22FU, PCGS# 5857

#### 1955-D Washington Quarter, MS66+ Spectacular Multicolor Toning

**3476 1955-D MS66+ PCGS.** Intense shades of burnt-orange, greenish-gold, and magenta toning visit the well-preserved surfaces of this spectacular Plus-graded Premium Gem, with most of the color on the obverse. Vibrant mint luster shines through the patina and eye appeal is terrific. PCGS has graded three numerically finer examples (5/16). NGC ID# 246A, PCGS# 5859

**3477 1959 MS67 PCGS.** This Superb Gem 1959 Washington quarter comes with sharp devices and a hint of champagne toning. The 1959 is rarely seen in Superb Gem PCGS holders, and this piece is among the finest known of the date. Population: 19 in 67 (1 in 67+), 0 finer (5/16). NGC ID# 246H, PCGS# 5866

**3478 1959 MS67 PCGS.** Satiny luster is borderline reflective in the fields on this Superb Gem 1959 quarter — among the finest certified of the issue. Much of the reverse is brilliant, while the obverse displays vivid navy-blue and amber hues in the margins. Boldly struck and exceptionally well-preserved. Population: 19 in 67 (1 in 67+), 0 finer (5/16). NGC ID# 246H, PCGS# 5866

#### 1964-D Quarter, MS67+ Unsurpassed Quality

**3479 1964-D MS67+ PCGS. CAC.** More than 704.1 million Washington quarters were minted at Denver in 1964, by far the largest production to that point. One could easily underestimate the challenge of locating an example in MS67, but Superb Gems are very scarce. Melded shades of violet, green, blue, yellow, and orange cover the obverse. The reverse shows light color around the borders with largely brilliant centers. Well-struck Registry coin. Population: 66 in 67 (8 in 67+), 0 finer (5/16). NGC ID# 246V, PCGS# 5877

**3480 1968-D MS68 NGC.** This magnificent Washington quarter offers well-detailed design elements and impeccably preserved surfaces with vibrant mint luster on both sides. A few highlights of gold and lavender toning add to the terrific eye appeal. Census: 10 in 68, 0 finer (5/16). NGC ID# 2472, PCGS# 5882

### PROOF WASHINGTON QUARTERS

**3481 1936 PR66+ PCGS. CAC.** Yellowish-green toning covers both sides of this high-end Premium Gem proof 1936 Washington quarter, while the strike is sharp and the fields are deeply reflective. PCGS has seen only 11 finer submissions (5/16). NGC ID# 27HN, PCGS# 5975

**3482 1937 PR67 PCGS.** No 1937 proof Washington quarters have received Cameo grades, making high-end Superb Gems the finest obtainable. This PR67 PCGS coin has only three superiors in PR68 at that service (6/16). The strike is bold and the mirroring deep. Traces of light golden toning grace each side. NGC ID# 27HP, PCGS# 5976

**3483 1937 PR67 PCGS. CAC.** A spectacular Superb Gem proof from a mintage of 5,542 pieces, with sharply detailed design elements and flawless reflective surfaces under shades of greenish-gold toning. PCGS has graded three numerically finer examples (5/16). NGC ID# 27HP, PCGS# 5976

**3484 1954 PR68 Deep Cameo PCGS.** Among the finest Deep Cameos at PCGS, this high-end Superb Gem proof 1954 Washington quarter displays untuned brilliance with white-on-black cameo contrast. The mirroring in the fields is deep and watery, and there are no perceptible flaws. Population: 22 in 68 (1 in 68+) Deep Cameo, 0 finer (5/16). NGC ID# 27HY, PCGS# 95986

**3485 1957 PR68+ Ultra Cameo NGC.** Liquidlike mirroring in the fields gives this Plus-designated Ultra Cameo outstanding contrast and eye appeal. The coin is untuned, and the white-on-black appearance is eye-catching from every angle. Few finer coins are known. Census: 26 in 68 Ultra Cameo (1 in 68+), 11 finer (6/16). NGC ID# 4C6M, PCGS# 95989

## EARLY HALF DOLLARS

### 1795 O-105 Half Dollar, Fine 15 Early Die State

- 3486** 1795 2 Leaves, O-105, T-25, High R.3, Fine 15 PCGS. CAC. The usual early die state with no evidence of a die crack through the B to the top of Liberty's head. This example is nicely defined for the grade, showing considerable detail in Liberty's flowing locks, although the upper head detail is flat. The eagle retains partial wing detail. Both sides have light silver-gray devices and pewter-gray fields with delicate blue overtones. NGC ID# 24E7, PCGS# 39220 Base PCGS# 6052

### 1795 Flowing Hair Half, XF Details Two Leaves, O-105a

- 3487** 1795 Two Leaves, O-105a, T-25, R.4 — Plugged — NGC Details. XF. The late die state variant of O-105, cracked from the rim to the B in LIBERTY. This coin shows a bold, even strike and sharp XF detail with deep gunmetal-blue and golden-gray toning over slightly granular surfaces. A crudely plugged hole mostly effaces star 1 on the obverse and the TE in STATES on the reverse, but the coin is otherwise pleasing to the eye. NGC ID# 24E7, PCGS# 39221 Base PCGS# 6052
- 3488** 1795 2 Leaves, O-109, T-16, R.4, VG8 PCGS. Tompkins Die State 1/1. An evenly worn, pleasingly toned VG example of the Overton-109 variety. The variety is very rare in high grades, but relatively available at this level. Golden tan toning deepens to bluish-brown at the borders with sharp definition on both sides save for slight weakness at the upper left obverse. Abrasions are few and softened by wear, and the criss-crossing adjustment marks on the portrait are also diminished by circulation. NGC ID# 24E7, PCGS# 39227 Base PCGS# 6052
- 3489** 1795 2 Leaves, Y Over Star, O-121a, T-2, R.6, VG8 NGC. Golden-brown and ocean-blue toning alternates across this impressive Flowing Hair half dollar. The rare late die state with a bold vertical die crack between the 95 in the date. Relatively unabraded, although the right obverse border displays unobtrusive laminations. NGC ID# 24E7, PCGS# 39257 Base PCGS# 6052

### 1802 Draped Bust Half Dollar, VF20 O-101, T-1, Only Dies for the Date

- 3490** 1802 O-101, T-1, R.3, VF20 PCGS. A small mintage of 29,890 Draped Bust half dollars was accomplished in 1802, with a single die marriage known for the date. The 1802 is a sought-after issue among series specialists and high-grade specimens are very rare. This pleasing VF20 example shows slight wear on the left side of the drapery and much of the interior detail on the hair remains intact. Shades of lavender-gray and golden-brown toning blanket the lightly abraded surfaces. NGC ID# 24EE, PCGS# 39269 Base PCGS# 6065

### 1803 Half Dollar, AU50 O-101, Large 3, Small Reverse Stars

- 3491** 1803 Large 3, Small Reverse Stars, O-101, T-1, R.3, AU50 NGC. Gold toning accompanies subtle iridescence across the partially lustrous surfaces of this Large 3 Draped Bust half. The small size of the field stars above the eagle differentiate the O-101 variety from the similar O-103, which has larger field stars but shares the same obverse die. This example shows high-point wear plus minor abrasions expected for the grade. Softness at the upper-right shield corner is typical for the variety. Census (all 1803 varieties): 16 in 50, 55 finer (6/16). NGC ID# 24EF, PCGS# 39270 Base PCGS# 6066

**1803 Large 3 Half, Scarce AU50  
O-103, Large Reverse Stars**

- 3492** 1803 Large 3, Large Reverse Stars, O-103, T-3, R.3, AU50 PCGS. Tompkins Die State 1/1. Readily identifiable by the reverse, which has a protruding arrowhead directly over the right upright of the N in UNITED and large field stars. Strong die clashing shows on the obverse and reverse, especially at the ear, where shield lines run across the area. This gold-kissed, silver-gray piece is well struck with light rub on the uppermost design elements. Faintly abraded overall, yet attractive. Considerable mint luster remains throughout both sides. Population (all Large 3 varieties): 21 in 50, 35 finer (5/16). Ex: *Dallas Signature (Heritage, 10/2008)*, lot 830.  
**From The Eagle One Collection, Part II.** NGC ID# 24EF, PCGS# 39273 Base PCGS# 6066

- 3493** 1803 Small 3, Large Reverse Stars, O-104, T-4, R.3, XF40 PCGS. Splendid golden-brown toning dominates the fields. The high points are dove-gray, and the borders display plum-mauve and cobalt-blue shades. A charming representative of the sole Small 3 1803 die pairing.  
**From The Eagle One Collection, Part II.** NGC ID# 24EF, PCGS# 39274 Base PCGS# 6067

- 3494** 1805/4 O-101, T-4, R.3, VF35 PCGS. Tompkins Die State 1/2-3. A bold die crack extends across the tops of MERI to the dentils over the C. The die state is earlier than the very rare O-101a, which shows a cud over the AM in AMERICA. Gunmetal-gray, walnut-brown, plum-red, and cobalt-blue toning encompasses this Choice VF representative.  
**From The Eagle One Collection, Part II.** NGC ID# 24EH, PCGS# 39290 Base PCGS# 6070

**1805/4 O-102 Half Dollar, XF40  
Some Luster Remains**

- 3495** 1805/4 O-102, T-5, R.3, XF40 NGC. Tompkins Die State 1/3. The O-101 and O-102 die marriages are the two so-called "common" 1805/4 overdate varieties, although neither is truly common. The overdate is an important *Guide Book* variety, and this O-102 example displays warm-gray surfaces with hints of pale blue and champagne toning. The strike is slightly weak at the centers, but both sides show only small, grade-consistent surface marks and a touch of mint luster remains. Census (all 1805/4 varieties): 17 in 40, 32 finer (5/16). Ex: *Summer FUN Signature (Heritage, 7/2013)*, lot 4957.  
**From The Eagle One Collection, Part II.** NGC ID# 24EH, PCGS# 39292 Base PCGS# 6070

- 3496** 1806/5 O-103, T-8, R.2, XF45 NGC. A dusky gunmetal-gray and wheat-gold representative. A hair-thin line on the right obverse field is the only consequential mark. The strike shows incompleteness near OF and the right shield tip.  
**From The Eagle One Collection, Part II.** NGC ID# 24EK, PCGS# 39299 Base PCGS# 6077

- 3497** 1806 Knob 6, Small Stars, O-107a, T-3, High R.4, VF30 NGC. Tompkins Die State 1/3. The late die state with a lengthy rim die break on the lower reverse. A pleasing midgrade pearl-gray example with light tan toning across the borders. Luster emerges from the curls and reverse legends. The strike is soft on the right-side reverse stars. NGC ID# 37BX, PCGS# 39308 Base PCGS# 6075

- 3498** 1806 Pointed 6, No Stem, O-109, T-15, R.1, XF45 PCGS. The sole Pointed 6, No Stem die marriage. A partially lustrous and lightly abraded example with moderate golden-brown and steel-gray toning. Both sides exhibit multiple sets of clash marks. Ex: *FUN Signature (Heritage, 1/2012)*, lot 3447, which realized \$2,760.  
**From The Eagle One Collection, Part II.** NGC ID# 24EJ, PCGS# 39310 Base PCGS# 6073

**1806 Draped Bust Half, AU50  
Pointed 6, No Stem, O-109, T-15**

- 3499** 1806 Pointed 6, No Stem, O-109, T-15, R.1, AU50 PCGS. CAC. The Pointed 6 in the date coupled with the No Stem reverse identifies the popular O-109 variety. This attractive AU specimen shows just a trace of high-point wear, with an interesting die crack below the date, another connecting stars 3, 4, and 5, and some dramatic clash marks below the bust and at Liberty's throat. The lightly abraded surfaces retain much of their original mint luster, with highlights of champagne-gold and lavender toning. NGC ID# 24EJ, PCGS# 39310 Base PCGS# 6073

**1806 Half Dollar, XF40  
O-111a, 6 Over Inverted 6**

- 3500** 1806 6 Over Inverted 6, O-111a, T-11, R.4, XF40 PCGS. Tompkins Die State 4/5. An inverted 6 was entered into the die not once, but twice, with clear remnants of two underdigits beneath the corrected right-side-up 6. The obverse die is in its latest state, with a bisecting die crack rim-to-rim through the 8 in the date, the length of Liberty's portrait, and through the E in LIBERTY. The reverse die shows a middle die state, with a full cud above TED of UNITED, and a strong die crack UN that becomes a second cud in later states. Lightly toned in silver-gray shades with a touch of golden-tan on the high points, this XF coin has light abrasions and lines but no heavy marks or distractions. Some mint luster remains. Population (all 6 over Inverted 6 varieties): 12 in 40, 20 finer (5/16).  
**From The Eagle One Collection, Part II.** NGC ID# 24EL, PCGS# 39337 Base PCGS# 6078

**3501** 1806 Pointed 6, Stem, O-114, T-16, R.5, VF35 PCGS. The T in LIBERTY is blatantly repunched and the rightmost reverse arrow is faintly entered. A fairly early die state but a crack is apparent near the left (facing) wingtip. Dusky forest-green, lavender, and rose-gold toning embraces lightly marked and nicely defined surfaces.  
*From The Eagle One Collection, Part II.* NGC ID# 24EJ, PCGS# 39315 Base PCGS# 6071

**3502** 1807 Draped Bust, O-105, T-4, R.1, XF40 PCGS. CAC. Tompkins Die State 2/2. Gunmetal-blue toning at the margins surrounds golden-gray centers that retain sharp definition on the devices and hints of luster in the fields. Slight remnants of glue or lacquer remain on the reverse in sheltered areas, visible with a glass but not in-hand. Otherwise, the fields are smooth and few marks disturb the attractive surfaces. The O-105 is an available variety and ideal for type or date collectors. CAC endorsed. NGC ID# 24EM, PCGS# 39343 Base PCGS# 6079

**3503** 1807 Draped Bust, O-105, T-4, R.1, XF45 PCGS. Tompkins Die State 2/1. A Choice silver-gray example sharply struck from an early state of the dies. Areas of cloudy-gray and gunmetal-blue toning visit the minimally marked surfaces, with only a few wayward abrasions noted on each side. Traces of mint luster remain. An available variety, perfect for type. NGC ID# 24EM, PCGS# 39343 Base PCGS# 6079

**3504** 1807 Draped Bust, O-105, T-4, R.1 — Obverse Spot Removed — NGC Details. AU. Tompkins Die State 3/3. An attempt to remove an area of deeper toning or struck-in grease beneath stars 4 and 5 met with little success, and minor granularity exists there as a result. The strike is a bit soft at the centers — a characteristic of the O-105 die pair — yet the remaining devices are well-defined. Mint luster remains beneath light-gold and lilac toning.

1807 Draped Bust Half, AU53, O-110a  
Deep, Variegated Toning; Late Die State

**3505** 1807 Draped Bust, O-110a, T-3, R.2, AU53 PCGS. Tompkins Die State 3/4. Deep powder-blue, autumn-brown, and plum-mauve toning envelops this lightly abraded, late die state half. The centers show slight wear, but luster glistens from the legends and devices. Both sides display several peripheral spindly die cracks, and the reverse is noticeably clashed at the top. The coin is prooflike at the margins.  
*Ex: Long Beach Signature (Heritage, 9/2004), lot 6582; Summer FUN Signature (Heritage, 6/2008), lot 971; Long Beach Signature (Heritage, 2/2009), lot 1260; ANA Signature (Heritage, 8/2010), lot 4830; FUN Signature (Heritage, 1/2011), lot 3571.*

## BUST HALF DOLLARS

1807 'Bearded Goddess' Half Dollar, Fine 15  
O-111b, Attractive Bluish-Gray Patina

**3506** 1807 Capped Bust, Bearded Goddess, O-111b, R.5, Fine 15 PCGS. The crack from the chin to the upper part of the bust is clearly visible at both ends where lumps have formed, but less prominent at the center where the break is visible but muted by wear. This lovely example displays natural grayish surfaces with wisps of faint bluish toning — an excellent collector coin and a “demand rarity” in the series, always on the want lists of Bust half collectors. Several shallow abrasions are noted near the date.  
*Ex: Summer FUN Signature (Heritage, 7/2010), lot 3664.*  
*From The Eagle One Collection, Part II.* NGC ID# 24EN, PCGS# 39358 Base PCGS# 39357

1807 O-112 Capped Bust Half Dollar  
Two-Year Type, Choice AU

**3507** 1807 Capped Bust, Large Stars, 50 Over 20, O-112, R.1, AU55 NGC. The middle arrowhead is recut, and the 2 below the 5 is bold. The Mint switched over to John Reich's Capped Bust design in 1807, leaving it untouched through 1808 before it was remodeled in 1809. Deep lavender patina resides over surfaces that show extensive silvery luster and a couple of trivial abrasions above the eagle. The stars are needle sharp. Struck from clashed dies.  
*Ex: Santa Clara Signature (Heritage, 11/2002), lot 7217.* NGC ID# 24EN, PCGS# 39356 Base PCGS# 6086

**3508** 1808/7 O-101, R.1, AU50 PCGS. Autumn-brown and sea-green peripheries frame stone-gray centers. An unmarked and attractive overdated Bust half dollar. The portrait and plumage show minor wear, but luster illuminates the stars and legends. NGC ID# 24EP, PCGS# 39378 Base PCGS# 6091

**1808/7 O-101 Capped Bust Half  
Borderline Mint State**

- 3509** 1808/7 O-101, R.1, AU58 PCGS. The strike is razor-sharp and mint luster radiates from this borderline Mint State overdate half. Pale-gold toning deepens at the margins and adds to the eye appeal. As the sole overdate in the two-year original John Reich design, variety collectors seek the O-101 as a preferred die marriage. Both the 1807 and 1808 “first style” Capped Bust halves are in demand by type collectors as well. Population: 18 in 58 (1 in 58+), 20 finer (5/16). *From The Eagle One Collection, Part II.* NGC ID# 24EP, PCGS# 39378 Base PCGS# 6091

- 3510** 1808 O-102a, R.2, AU53 PCGS. CAC. A compass mark (as made) atop the eagle's left (facing) shoulder attributes O-102a, along with a radial crack through the left border of the 0 in the date. Peach-gold and cobalt-blue margins encircle lightly toned fields and motifs. The surfaces are exemplary for the third-party grade. NGC ID# 24EP, PCGS# 39363 Base PCGS# 6090

**1808 O-106a Half, AU58  
Smooth and Lustrous, Advanced Die State**

- 3511** 1808 O-106a, R.2, AU58 PCGS. CAC. Both sides of this charming piece show the late state die cracks described for O-106a. A bold dot at the left (facing) wing/shield junction and a recut E in AMERICA help confirm the variety. Early states and late states are of equal rarity, although the late die state has a higher condition census. This near-Mint example is fully lustrous with a trace of wear on the high points. Both sides display frosty luster with delicate gold toning. CAC endorsed. *Ex: FUN Signature (Heritage, 1/2011), lot 3590.* *From The Eagle One Collection, Part II.* PCGS# 39369 Base PCGS# 6090

- 3512** 1809 XXX Edge, O-102, R.1, XF45 PCGS. Deep, olive-brown surfaces are sharply struck with only a few light, scattered marks on this Choice XF half with the experimental XXX Edge. The U of UNITED is broadly recut at the base. The usually seen toothlike segments that appear beneath PLURIBUS in the field below the scroll are faint but visible on the coin. NGC ID# 24ES, PCGS# 39380 Base PCGS# 6093

**1809 Capped Bust Half, AU58  
III Edge, O-107a**

- 3513** 1809 III Edge, O-107a, R.4, AU58 PCGS. Just a trace of wear shows on Liberty's curls, but the pleasing surfaces are free of large or distracting abrasions. An extensive network of die cracks identifies the late die state O-107a. Attractive shades of lavender-gray and golden-brown toning blanket the lustrous surfaces. Close to full Mint State. Population (III Edge Varieties): 11 in 58, 9 finer (5/16). *From The Eagle One Collection, Part II.* NGC ID# 24ES, PCGS# 39384 Base PCGS# 6094

**1810 O-102 Bust Half, MS62  
Intermediate Die State**

- 3514** 1810 O-102, R.1, MS62 PCGS. A sharp and attractive Mint State example, closer to the late die state than otherwise, but lacking extension of the die crack above the legend beyond STATES. The chin and left wing show weakness of strike, one of the main characteristics of O-102a. In either die state, the O-102 is scarce in Mint State. This example exudes silver luster beneath a translucent veil of reddish-gold toning that gathers intensity at the borders. The surfaces are virtually mark-free. Population (All 1810 varieties): 25 in 62, 34 finer (5/16). *From The Eagle One Collection, Part II.* NGC ID# 24ET, PCGS# 39407 Base PCGS# 6095

**1811/10 O-101 Half, AU55  
Border Toning, Few Marks**

- 3515** 1811/10 O-101, R.1, AU55 PCGS. A “Spiked Cap” and “Dotted Date” Overton marriage, also remembered for the curve of a 0 to the east of the final date digit. Deep golden-brown, cobalt-blue, and cherry-red toning adorn the borders, while the centers display smooth gunmetal and cream shades. A minimally abraded and partly lustrous example of a popular *Guide Book* variety. Similar to the O-102, but the shield crossbars on the reverse do not extend into the right wing. Population (Both 1811/10 varieties): 26 in 55, 37 finer (5/16). NGC ID# 24EV, PCGS# 39421 Base PCGS# 6099

**3516 1811 Large 8, O-104a, R.1, AU55 PCGS.** Ex: Meyer Collection. An arc of golden-brown toning is present near the right-side stars, but this attractive Choice AU half dollar is otherwise brilliant. Smooth save for thin field marks below the chin and the N in UNUM.  
Ex: *Allgood Collection (Heritage, 1/2011)*, lot 10644, which realized \$1,610.

**From The Eagle One Collection, Part II.** NGC ID# 24EU, PCGS# 39426 Base PCGS# 6096

**3517 1811 Small 8, O-106, R.3, AU58 ANACS.** The borders display rich apricot-gold, ruby-red, powder-blue, and jade-green toning. This lustrous representative is minimally abraded and provides superior eye appeal. Overton-106 is known for its parallel die lines above the eagle's left (facing) shoulder.

Ex: *New York Signature (Heritage, 2/2014)*, lot 3795, which realized \$2,232.50.

**From The Eagle One Collection, Part II.** NGC ID# 24EU, PCGS# 39429 Base PCGS# 6097

**3518 1811 Small 8, O-108a, R.2, MS62 PCGS.** Hints of autumn-gold toning overlies cream-gray surfaces. Lustrous and well struck. A late die state with absent dentils, multiple sets of clash marks, a crack across UNITED, and peripheral elements drawn toward the rim. Smooth aside from a thin, brief mark on the lower obverse field.

Ex: *Donald R. Frederick Collection (Heritage, 4/2010)*, lot 2926, which realized \$2,070. NGC ID# 8Z63, PCGS# 39432 Base PCGS# 6097

**3519 1811 Small 8, O-110, R.1, AU55 PCGS. CAC.** Orange-gold toning outlines the stone-gray centers. The high points show minor wear but ample luster brightens the borders and motifs. There are no relevant marks, and the eye appeal is superior for the Choice AU level.

Ex: *New York Signature (Heritage, 2/2014)*, lot 3794, which realized \$1,880.

**From The Eagle One Collection, Part II.** NGC ID# 24EU, PCGS# 39434

**3520 1811 Small 8, O-110, R.1, AU58 PCGS.** Rich forest-green borders encompass gunmetal centers. Coruscating and minimally marked. The high points show only a trace of wear. Dr. Petersen's "Slanting Date" obverse, distinguished from O-113 by a joined AM in AMERICA.

Ex: *FUN Signature (Heritage, 1/2014)*, lot 4381, which realized \$2,820.

**From The Eagle One Collection, Part II.** NGC ID# 24EU, PCGS# 39434

#### 1812/1 O-102a Half, AU58 Small 8, Sharp and Lustrous

**3521 1812/1 Small 8, O-102a, R.2, AU58 PCGS. CAC.** The late die state of this marriage shows a fine crack through the date. The Small 8 Overdate half dollar is a popular variety, and the present piece is an attractive example with only a trace of wear. The surfaces are frosty and lustrous with wispy gold toning on the obverse. The reverse is brilliant — essentially untuned, with nearly full luster. A CAC-endorsed example of the Small 8 overdate. Population: 20 in 58 (1 in 58+), 22 finer. CAC: 3 in 58, 4 finer (5/16).

Ex: *FUN Signature (Heritage, 1/2011)*, lot 3619.

**From The Eagle One Collection, Part II.** NGC ID# 24EY, PCGS# 39444 Base PCGS# 6101

**3522 1812 Large 8, O-104'b', R.3, AU58 PCGS.** Housed in a vintage doily label holder. A die crack from the top of the 1 through the drapery to star 1 corresponds to Herrman's late die state. The present coin is sharply detailed in most areas, with minor softness evident on the upper stars. The surfaces are brilliant and lustrous, and a few minor contact marks on Liberty's cheek are the only marks of note.

Ex: *Long Beach Signature (Heritage, 2/2011)*, lot 3675, which realized \$2,760.

**From The Eagle One Collection, Part II.** NGC ID# 24EW, PCGS# 39448 Base PCGS# 6100

#### 1814/3 Half Dollar, AU55 O-101a, Important Guide Book Overdate

**3523 1814/3 O-101a, R.2, AU55 PCGS.** Ex: Frederick Collection. Light champagne-gold toning visits the margins, yet both sides display mostly brilliant-silver surfaces with nearly full mint luster. The centers are a trifle weak as normally seen, while this Choice coin displays prominent die cracks and multiple heavy clash marks that are typical of the late die state. Here is a great coin for the advanced specialist, or for the *Guide Book* collector needing the sole overdate variety for the 1814 halves. Population: 34 in 55, 25 finer (5/16).

Ex: *New England (7/1978)*, lot 854; *Central States Signature (4/2010)*, lot 2960.

**From The Eagle One Collection, Part II.** NGC ID# 24F4, PCGS# 39488 Base PCGS# 6106

**3524 1814 O-102a, R.3, AU55 PCGS.** The late die state Overton-102a shows loss of detail at the lower left of the eagle's left (facing) wing from a sinking die, as well as profound die clashing at the shield's right border, where a crisp, raised mirror image of ERTY is unmistakable. Additional die clashing is visible within the shield recesses. Olive-gold and tan toning blankets both sides of this Choice About Uncirculated half. Soft luster accompanies strong definition on the devices despite the advanced die state. NGC ID# 24F3, PCGS# 39476 Base PCGS# 6105

**3525 1814 O-103, R.1, AU58 PCGS. CAC.** The broad vertical die line from scroll to wing immediately attributes the distinctive Overton-103. A partly lustrous silver-gray Borderline Uncirculated example. Both sides display prominent double clash marks, but abrasions are inconsequential.

From *The Allgood Collection*.

**From The Eagle One Collection, Part II.** NGC ID# 24F3, PCGS# 39477 Base PCGS# 6105

**3526 1817 O-103'b', R.6, AU55 PCGS. CAC.** A hint of gold toning graces the margins of this generally lustrous and unmarked half dollar. An Overton-unlisted late die state of the Rarity-3 O-103a, with a new smaller dot between the 17 in the date. Struck from rusted dies, and the left reverse border exhibits advanced flow lines, as made.

Ex: *FUN Signature (Heritage, 1/2011)*, lot 10697, which realized \$2,070. NGC ID# 24F6, PCGS# 39493 Base PCGS# 6109

**1817 O-106a Half Dollar, AU53**  
**The 'Comet' Obverse, Single-Leaf Reverse**

- 3527 1817 Single Leaf Below Wing, O-106a, R.4, AU53 PCGS.** The Single Leaf variety. The reverse die was lapped, attenuating the upper leaf pair to create this *Guide Book* variety. The obverse is noteworthy for a bold "comet" die line behind the cap. Also, a die crack crosses the tip of the left (right facing) wing through UNITED to the top of the D. Medium grayish surfaces are remarkably clean and exhibit well-struck design elements.  
*Ex: FUN Signature (Heritage, 1/2014), lot 4408.*  
**From The Eagle One Collection, Part II.** NGC ID# 24F6, PCGS# 39516 Base PCGS# 6109

- 3528 1817 O-110, R.2, MS61 PCGS.** A triple dentil under star 13 is diagnostic. The peripheral autumn-brown toning deepens near OF. Well struck and impressively free from abrasions. Housed in a green label holder.  
*Ex: Allgood Collection (Heritage, 1/2011), lot 3643, which realized \$2,530.*  
**From The Eagle One Collection, Part II.** NGC ID# 24F6, PCGS# 39502 Base PCGS# 6109

- 3529 1817 O-111a, R.1, AU53 PCGS.** A die line below the ribbon end is the best pick-up point for Overton-111. The later die state, O-111a, is identified by a crack across the lower reverse periphery. This lightly circulated half dollar displays rich blue-green, dove-gray, and tan-brown toning. PCGS# 39505 Base PCGS# 6109

- 3530 1818/7 Large 8, O-101, R.1, AU58 PCGS.** A lightly toned and overdated Borderline Uncirculated half dollar. The crossbar of a 7 is obvious above the second 8 in the date. The curls display slight high point wear, but luster dominates all but the open fields, and both sides show only incidental abrasions. NGC ID# 24FA, PCGS# 39540 Base PCGS# 6115

- 3531 1818/7 Small 8, O-102, R.2, AU55 PCGS.** *Ex: Witham.* Golden-brown toning enriches a majority of this unblemished and overdated half dollar. A streak of deeper toning is noted below the shoulder curl. Luster illuminates all but the open fields.  
*Ex: Witham Collection (Heritage, 8/2010), lot 4869, which realized \$1,725.*  
**From The Eagle One Collection, Part II.** NGC ID# 24FA, PCGS# 39536 Base PCGS# 6114

- 3532 1818 O-109a, R.1, AU55 PCGS. CAC.** Bright silver luster radiates from the nearly brilliant surfaces of this O-109a example, with soft-gray toning on the high points where only faint rub is visible. A sharp strike remains despite the late state of the dies. Both sides show peripheral die cracks and ample evidence of die clashing. Marks are limited to a horizontal scrape near the eagle's beak and a few light field ticks. The eye appeal of this Choice AU Bust half is considerable, as confirmed by the CAC endorsement. NGC ID# 24F9, PCGS# 39526 Base PCGS# 6113

- 3533 1818 O-112, R.1, AU58 PCGS.** The lengthy crack across the lower left reverse is an even better pick-up point than the tilted A in STATES. Brilliant and well struck with ample luster and a few thin marks on Liberty's chest and the field near the chin.  
*Ex: Allgood Collection (Heritage, 1/2011), lot 10716, which realized \$2,070.*  
**From The Eagle One Collection, Part II.** NGC ID# 24F9, PCGS# 39529 Base PCGS# 6113

- 3534 1819/8 Large 9, O-102, R.2, AU55 PCGS.** Plum-red and apple-green toning encompasses the peripheries of this partly lustrous Choice AU half dollar. A loupe reveals only minor marks. The claws and a few stars are incomplete, but the overall strike is good. NGC ID# 24FC, PCGS# 39556 Base PCGS# 6119

- 3535 1819/8 Large 9, O-104, R.1, AU58 PCGS.** The crudely repunched star 2 is even more distinctive than the overdate. Light to medium butter-gold toning graces this unmarked and pleasing half dollar. The strike is crisp except for softness on a few stars and the A in STATES.

*Ex: Allgood Collection (Heritage, 1/2011), lot 3647, which realized \$2,760.*

**From The Eagle One Collection, Part II.** NGC ID# 24FC, PCGS# 39559 Base PCGS# 6119

- 3536 1819 O-113, R.1, AU58 PCGS. CAC.** Golden-brown and blue-green toning graces the obverse border of this lustrous and well struck example. The reverse is unabraded, while the central obverse exhibits moderate marks.

*Ex: Allgood Collection (Heritage, 1/2011), lot 3651, which realized \$2,530.*

**From The Eagle One Collection, Part II.** NGC ID# 24FB, PCGS# 39552 Base PCGS# 6117

- 3537 1820/19 Square Base 2, O-101, R.2, AU53 PCGS.** Rose-red and orange-gold toning embraces the lustrous borders. A charming representative of the Square Base 2 overdate variety. The strike is sharp except on the first S in STATES. A lens reveals occasional unimportant marks. NGC ID# 24FE, PCGS# 39572 Base PCGS# 6125

- 3538 1820/19 Square Base 2, O-101, R.2, AU55 PCGS.** Only a trace of tan toning visits this well-defined example. Luster dominates the borders, curls, and plumage. Marks are chiefly confined to Liberty's neck and the field near the eagle's head.

**From The Eagle One Collection, Part II.** NGC ID# 24FE, PCGS# 39572 Base PCGS# 6125

**1820/19 Curl Base 2 Half Dollar, O-102, AU58**  
**Two-Digit Overdate, Outstanding Eye Appeal**

- 3539 1820/19 Curl Base 2, O-102, R.1, AU58 PCGS.** The sole use of the 1820/19 obverse with Curl Base 2 in the date. Broad and generous luster remains in the fields and on parts of the devices. Light wear is restricted largely to the high points, with crisp definition overall. Amber and blue outer toning yields to light gray at the interiors. Refreshingly unmarked and attractively toned, this is an exceptional near-Mint example of the variety. Population: 17 in 58, 17 finer (5/16).

*Ex: FUN Signature (Heritage, 1/2014), lot 4422.*

**From The Eagle One Collection, Part II.** NGC ID# 24FE, PCGS# 39574 Base PCGS# 6126

- 3540 1820 Curl Base 2, Small Date, O-103a, R.2, AU55 PCGS.** Cherry-red, apple-green, and apricot-gold toning ensures the eye appeal. Readily attributed by the ascending die crack from the 1 in the date to star 11. The only die marriage for its *Guide Book* entry.  
*Ex: Houston Signature (Heritage, 12/2008), lot 626, which realized \$1,840.*

**From The Eagle One Collection, Part II.** NGC ID# 24FD, PCGS# 39564 Base PCGS# 6121

**3541 1820 Curl Base 2, Small Date, O-103a, R.2, AU55 PCGS.** The rising die crack above the date is the key diagnostic for Overton-103a. Dusky lavender toning embraces this lightly circulated and minimally abraded Capped Bust half. The strike is bold, and the curls and drapery show only slight indications of wear.  
**From The Eagle One Collection, Part II.** NGC ID# 24FD, PCGS# 39564 Base PCGS# 6121

**3542 1820 Square Base 2, Large Date, Knob, O-105, R.1, AU55 PCGS.** Autumn-brown and aquamarine toning invigorate the borders of this partly lustrous half dollar. O-105 is the usually encountered Knob 2 variety, distinguished by a trio of merged dentils near the left (facing) wingtip. Smooth aside from a slender field line below Liberty's chin. NGC ID# 24FD, PCGS# 39567 Base PCGS# 6122

**3543 1820 Square Base 2, Large Date, No Knob, O-106, R.1, AU50 PCGS. CAC.** Golden-tan fields encompass steel-blue motifs. Traces of luster beckon from protected regions. A lovely and problem-free Bust half that displays only moderate wear on the high points of the portrait.  
*Ex: Long Beach Signature (Heritage, 2/2011), lot 3679, which realized \$1,092.50.*

**From The Eagle One Collection, Part II.** NGC ID# 24FD, PCGS# 39569 Base PCGS# 6123

**3544 1820 Square Base 2, Large Date, No Knob, O-108, R.2, AU55 PCGS.** This prominently toned half dollar has cobalt-blue fields and straw-gold borders. Luster illuminates the stars and legends. The briefly circulated surfaces exhibit occasional unimportant abrasions.

**From The Eagle One Collection, Part II.** NGC ID# 24FD, PCGS# 39570 Base PCGS# 6123

**3545 1821 O-107, R.3, AU58 PCGS.** This minimally marked near-Mint example belongs to the scarce O-107 die marriage, the rarest of the date. A blanket of forest-green and lavender toning embraces partly lustrous surfaces.

*Ex: Houston Signature (Heritage, 12/2010), lot 3637, which realized \$2,127.50.*

**From The Eagle One Collection, Part II.** NGC ID# 24FF, PCGS# 39586 Base PCGS# 6128

#### 1822/1 O-101 Bust Half, MS61 Nice Cartwheel Luster

**3546 1822/1 O-101, R.1, MS61 PCGS.** The I in PLURIBUS is positioned far left on the O-101 variety — beneath the right serif of A in STATES — a valuable pick-up point to confirm the variety. The overdate itself is not clear and has been questioned by some researchers, although the final 2 in the date is much heavier than the first 2 and the sliver of an artifact at the lower right curl of the 2 is visible with a glass. Scarce in Mint State grades, this example displays full cartwheel luster on both sides beneath light golden-gray patina. The devices are sharply struck throughout. Population (both overdate varieties): 2 in 61, 25 finer (5/16).

**From The Eagle One Collection, Part II.** NGC ID# 24FH, PCGS# 39604 Base PCGS# 6130

**3547 1822 O-106, R.3, MS61 ANACS.** A brightly lustrous example of this scarcer die pair. Peach and gold border toning gives way to shining silver at the centers. Wonderfully detailed with few overt marks for the grade. The O-106 reverse shows a pair of vertical shield lines extending upward into the azure (horizontal lines) of the upper shield. The 18 in the date is much higher than the 22. Housed in an early generation ANACS holder.

*Ex: Long Beach Signature (Heritage, 9/2010), lot 4098. NGC ID# 24FG, PCGS# 39591 Base PCGS# 6129*

**3548 1822 O-107, R.2, AU58 PCGS. CAC.** The “Button” variety, named for the circular ornament within Liberty's upper cap. Vibrant autumn-brown toning is relegated to the margins. A small spot near star 8 is accompanied by wispy field marks.

*Ex: Allgood Collection (Heritage, 1/2011), lot 3669, which realized \$1,495.*

**From The Eagle One Collection, Part II.** NGC ID# 24FG, PCGS# 39593 Base PCGS# 6129

#### 1823 Half Dollar, Sharp AU58 O-101a, Patched 3

**3549 1823 Patched 3, O-101a, R.1, AU58 PCGS. CAC.** The Patched 3 variety appears first as a late die state of the O-101 Broken 3. It is then paired with a different reverse to become the scarcer O-102 variety. This example is the more frequently seen O-101a with a right-leaning 3 and the two halves of the 3 joined by a rudimentary punch fashioned by the Mint. Faint reddish-gray toning at the borders attends the sharply struck silver centers, with plentiful mint luster on both sides. CAC endorsed. Population: 13 in 58, 22 finer (5/16).

**From The Eagle One Collection, Part II.** NGC ID# 24FJ, PCGS# 39621 Base PCGS# 6133

#### 1823 Bust Half Dollar, Choice AU O-110a, The ‘Ugly’ 3

**3550 1823 Ugly 3, O-110a, R.3, AU55 PCGS.** A numismatic equivalent to “the Good, the Bad, and the Ugly,” the 1823 Broken 3, Patched 3, and Ugly 3 provide a trio of misshapen and often-confused digits. The Ugly 3 variety started as a Perfect 3 as seen in O-110. The Parsley reference blames a die crack for the later-state deformity on the 3, while others believe it to be an engraver's crude attempt to repair the digit. This is a silver-white, lightly circulated example of the collector favorite, with the 3 in the date apparently reworked by the Mint in crude fashion. Light die cracks travel from the milling to the 3 and upward to Liberty's lower hair curls. The coin is bright and mostly untuned with some pleasing golden-gray overtones. The O-110a variety is rated R.3. Population: 11 in 55, 87 finer (5/16).

*Ex: FUN Signature (Heritage, 1/2014), lot 4436.*

**From The Eagle One Collection, Part II.** NGC ID# 46YD, PCGS# 39623 Base PCGS# 6134

**1823 Bust Half, MS63**  
**O-111a, Attractive Light Toning**

- 3551** 1823 O-111a, R.2, MS63 PCGS. A lustrous and smooth Select Uncirculated coin, this late die state example is razor-sharp with great eye appeal. Gold-to-orange peripheral toning is more intense on the reverse with attractive blue accents at the rims. Struck from the more available later die state with a die crack through first four stars. Only small, scattered marks are visible with a lens. A die dot in the top of T in LIBERTY confirms the variety.  
*Ex: FUN Signature (Heritage, 1/2011), lot 3683. NGC ID# 24FJ, PCGS# 39617 Base PCGS# 6131*

- 3552** 1823 O-112, R.1, MS62 PCGS. Silver-gray toning embraces this unblemished and coruscating representative. An early die state without clash marks from the wing near the profile. Liberty's profile is strike doubled.  
*Ex: Allgood Collection (Heritage, 1/2011), lot 3681, which realized \$1,610.*  
**From The Eagle One Collection, Part II.** NGC ID# 24FJ, PCGS# 39618 Base PCGS# 6131

**1824/1 Half Dollar, MS62**  
**O-101a, Vibrant Luster, Full Strike**

- 3553** 1824/1 O-101a, R.2, MS62 PCGS. Reddish-gold iridescence over silver-gray surfaces complements the bountiful luster on this sharply struck bust half. A popular *Guide Book* entry, the O-101 variety is prized for the clear, overcut 1 beneath a large 4, with the underdigit showing on both sides of the 4's stand. There are hardly any distractions on this radiant half. A few tiny abrasions and luster grazes are all that keep it from an even higher grade. The eye appeal is remarkable. Population: 10 in 62, 24 finer (5/16).  
*Ex: FUN Signature (Heritage, 1/2014), lot 4442.*  
**From The Eagle One Collection, Part II.** NGC ID# 24FK, PCGS# 39641 Base PCGS# 6139

- 3554** 1824 Over Various Dates, O-103, R.1, AU55 PCGS. The *Guide Book* variety described by Overton as a "jumble of recuttings." The margins exhibit a glimpse of peach-gold patina. This half dollar displays more vibrant luster than is customary for the AU55 level. No marks are remotely consequential, and the cheek shows only a trace of wear.  
**From The Eagle One Collection, Part II.** NGC ID# 24FK, PCGS# 39646 Base PCGS# 6138

- 3555** 1824 Over Various Dates, O-103, R.1, AU58 NGC. Overton's "jumble of recuttings" variety with multiple underdigits beneath the 4 in the date. This is a wonderful slider with noticeable cartwheel luster and original medium tan-gold and cream-gray toning. Nicely struck and unmarked, although most of the stars lack their central detail. Very close to full Mint State. NGC ID# 24FK, PCGS# 39646 Base PCGS# 6138

- 3556** 1824 O-105, R.2, AU58 PCGS. CAC. Luster fills the borders and motifs of this briefly circulated but pleasing representative. Medium chestnut-gold and slate-gray toning visits both sides. The margins show incompleteness of strike, but the centers are well impressed.  
**From The Eagle One Collection, Part II.** NGC ID# 24FK, PCGS# 39625 Base PCGS# 6137

- 3557** 1824/4 O-110, R.2, AU58 PCGS. A cream-gray and caramel-gold near-Mint Bust half dollar. Cartwheel luster is apparent and there are no remotely relevant abrasions. The stars are lightly brought up. Liberty's profile is strike doubled.  
**From The Eagle One Collection, Part II.** NGC ID# 47PA, PCGS# 39644 Base PCGS# 6140

- 3558** 1826 O-118a, R.1, MS63 PCGS. Die cracks atop UNITED STATES OF AMERICA confirm the late die state. Lightly toned, highly lustrous, and boldly struck, with few marks and exceptional eye appeal.  
*Ex: Boston ANA Signature (Heritage, 8/2010), lot 4896, which realized \$3,220. NGC ID# 24FM, PCGS# 39692 Base PCGS# 6143*

**1827 O-106 Half Dollar, MS63**  
**Square Base 2, Original Toning**

- 3559** 1827 Square Base 2, O-106, R.2, MS63 PCGS. Richly toned with peach and gold-gray hues through the centers and more blue-violet elements at the margins. Generally well-defined with sparkling luster. This is an excellent Select coin for the type collector. Collecting the 1827 Bust halves by Overton number is a daunting challenge only a few specialists attempt. The present coin is tied for fourth in Steve Herrman's Spring, 2016 census.  
*Ex: Summer FUN Signature (Heritage, 7/2011), lot 3609. NGC ID# 24FN, PCGS# 39698 Base PCGS# 6144*

- 3560** 1828 Curl Base 2, No Knob, O-101, R.1, AU58 PCGS. CAC. The partly filled F in OF attributes this near-Mint Capped Bust half dollar. Luster illuminates the borders, though the curls near the ear display wear. Vibrant sea-green, autumn-gold, and dove-gray toning embraces both sides. NGC ID# 6E93, PCGS# 39754 Base PCGS# 6148

- 3561** 1829/7 O-102, R.2, AU53 PCGS. CAC. A problem-free overdated half dollar with tan-gold fields and apple-green peripheries. Luster illuminates the margins and motifs. No marks are remotely worthy of comment.  
*Ex: Atlanta ANA Signature (Heritage, 2/2014), lot 7649, which realized \$1,645. NGC ID# 24FT, PCGS# 39809 Base PCGS# 6155*

- 3562** 1830 Small O, O-118, R.3, MS63 NGC. The fields are reflective and nearly prooflike on both sides, with exception of a raised, frosted bulge in front of Liberty's chin and neck. The O-118 variety displays a Small O in the date and is noted for line 2 of shield stripe 5 that extends past the border far into the eagle's feathers. Splashes of reddish-gold toning at the margins reach across Liberty's cap to accent the lustrous silver surfaces. The strike is sharp on this Select Uncirculated example, although several of the stars are drawn to the rim. A few minor lines and abrasions determine the assigned grade. NGC ID# 24FU, PCGS# 39829 Base PCGS# 6156

- 3563** 1832 Small Letters, O-103, R.1, MS64 NGC. The recut 5 in the denomination identifies the plentiful O-103 die marriage. This rose-gray example shows lighter silver areas outlining the devices and stars, and there few abrasions of any size. Generous luster creates a great deal of eye appeal. This Choice Uncirculated half dollar would make an excellent pickup for a type set, as well as a worthy representative of the Small Letters type. NGC ID# 24FW, PCGS# 39860 Base PCGS# 6160

**3564** 1832 Small Letters, O-122, R.1, MS62 PCGS. Light to medium golden-brown patina endows this lustrous and lovely Capped Bust type coin. No marks are apparent, and the eye appeal is superior. Liberty's profile is lightly strike doubled. An early die state with a die line left of the 1 in the date, and a tine from the base of the first T in STATES.

Ex: FUN Signature (Heritage, 1/2011), lot 3758, which realized \$1,725. NGC ID# 24FW, PCGS# 39883 Base PCGS# 6160

**3565** 1834 Small Date, Small Letters, O-111, R.1, MS63 NGC. Repunched points on stars 6 and 7, and a high A in STATES, are the diagnostics for Overton-111. A lustrous and unmarked example with delicate almond-gold and ice-blue toning. The strike shows occasional softness, but the eye appeal is considerable. NGC ID# 24FY, PCGS# 39915 Base PCGS# 6166

**3566** 1834 Small Date, Small Letters, O-114, R.1, MS63 PCGS. Stars 3 and 4 are repunched, the best method of distinguishing O-114 from the fiendishly similar O-113. This lustrous and unmarked Select example displays medium dappled tan-brown toning. The stars and the LUR in PLURIBUS are lightly brought up. NGC ID# 24FY, PCGS# 39918 Base PCGS# 6166

### 1834 Half Dollar, MS64 O-121, Small Date

**3567** 1834 Small Date, Small Letters, O-121, R.3, MS64 PCGS. This Choice 1834 half dollar exhibits deep original toning in shades of olive-gray, lavender, and pale gold. The strike is even and sharp in the centers but slightly weak on some of the peripheral stars. There are no mentionable abrasions. This Small Date variety is plentiful overall, but high-grade Mint State pieces are conditionally elusive. NGC ID# 4EK5, PCGS# 39926 Base PCGS# 6166

## REEDED EDGE HALF DOLLARS

### 1836 GR-1 Reeded Edge Half Dollar, XF40 Lovely Album-Toned Surfaces

**3568** 1836 Reeded Edge, GR-1, R.2, XF40 PCGS. Here is a wonderfully original collector-grade 1836 Reeded Edge half with multicolor album toning on both sides — among the first half dollars struck on the Thonnelier steam press. The small reported mintage of 1,200 pieces seems understated according to grading events, and some researchers believe the actual mintage is higher. Among Bust half collectors, the exact mintage is less important than finding a high quality example. This rainbow-toned beauty certainly qualifies as an exceptional coin for the grade. Moderate wear and small marks are grade-appropriate, and the eye appeal is terrific. NGC ID# 2U28, PCGS# 531046 Base PCGS# 6175

### 1837 Reeded Edge Half Dollar, MS63 GR-18, Collectible 50 CENTS Reverse Type

**3569** 1837 GR-18, R.1, MS63 PCGS. Extensive die cracks around each side and a die chip on the shield confirm the variety. This is the second and only collectible issue in the two-year Reeded Edge half dollar subtype with 50 CENTS reverse. This brilliant Condition Census example is boldly struck with bright, frosty luster. Merging is apparent around the reverse denticles, and grade-limiting abrasions are inconsequential. NGC ID# 24G4, PCGS# 531065 Base PCGS# 6176

## SEATED HALF DOLLARS

### 1840 WB-102 Small Letters Half, MS64 Repunched Date, Outstanding Eye Appeal

**3570** 1840 Small Letters Reverse of 1839, Repunched Date, FS-301, WB-102, MS64 PCGS. Repunching is clearly visible on the 40 of the date, with the secondary digits south and southeast of the primary numerals. This popular *Cherrypickers'* variety is scarce in near-Gem condition (as is any variety of the 1840 halves). The multiple date repunching is strong on this early die state coin, which lacks the die crack through the legend on the Small Letters reverse that signifies a later state of the dies. Shades of pale-blue and champagne-gold cover both sides of this satiny and lustrous Choice example. Aside from weakness on the left-side stars, the strike is sharp and abrasions are minor. Population (all Small Letters varieties): 16 in 64, 12 finer (6/16). NGC ID# 24GM, PCGS# 392647 Base PCGS# 6234

**1843 Half Dollar, Lustrous MS64  
Pleasing Natural Patina**

**3571 1843 WB-101 MS64 PCGS Secure. CAC.** Translucent shades of golden-gray and lilac glow with abundant mint luster that emboldens the attractive, natural patina. Most 1843 halves are struck from cracked dies and this example shows numerous die cracks on both sides. Nevertheless, the strike is strong and the few small surface marks do not inhibit the plentiful eye appeal. A condition rarity of the series, the coin is CAC-endorsed for quality. Population (all varieties): 8 in 64 (1 in 64+), 4 finer. CAC: 4 in 64, 3 finer (6/16). PCGS# 572018 Base PCGS# 6243

**3572 1847/6 WB-102, FS-301, Good 4 PCGS.** Remnants of an undertype 1 46 are visible in the field, southwest of the primary date on this rare and popular variety. The central design elements are complete in outline, but the rims and some of the stars are worn flat in many places. Population: 1 in 4, 21 finer (5/16). PCGS# 147889 Base PCGS# 6258

**1852 Seated Half, MS62  
Scarce in All Grades**

**3573 1852 WB-101 MS62 PCGS.** The mintage of 77,130 pieces did not circulate in normal circumstances. The ratio of silver to gold was knocked askew by the outpouring of gold from California. Silver coins were melted, others hoarded, and order was not restored until the weight of silver in coinage was reduced in 1853. Meanwhile, half dollars from 1851 and 1852 disappeared. This lustrous and attractive 1852 half displays golden accents at the borders and satin-smooth silver centers. Sharply struck, a few light lines in the right obverse field dictate the assigned grade. Population: 11 in 62, 28 finer (6/16). NGC ID# 24HL, PCGS# 572083 Base PCGS# 6268

**3574 1854-O Arrows, WB-101, Die Pair 25, R.2, MS63 PCGS.** Die deterioration on the reverse earns this variety the Crumbled Reverse Die moniker, with crusty metal build-up at the margins and around the interior devices, plus other signs of die stress. A strong "halo effect" on the obverse resembles die doubling on the date and other motifs. The Select Uncirculated surfaces display pleasing blue and reddish-gold toning plus an unexpectedly sharp strike, with a toned over planchet flake between stars 9 and 10. NGC ID# 24JM, PCGS# 572088 Base PCGS# 6280

**3575 1857-S Medium S, WB-102, Die Pair 4, R.4, XF45 PCGS.** Scarce in all grades, just 158,000 pieces were struck and most coins circulated extensively on the West Coast. This bronze-gold example shows extensive blue overtones on the obverse with silver-gray and ocean-blue shades on the reverse. Few marks are seen on this well-struck, Choice XF example. Population (all varieties): 18 in 45, 23 finer (6/16). NGC ID# 64YS, PCGS# 572106 Base PCGS# 6292

**1861 Half Dollar, MS65  
High Mintage, Few High-Grade Survivors**

**3576 1861 WB-101 MS65 PCGS.** With a mintage approaching 3 million pieces, the number of Gem or finer survivors of the 1861 is notably low. The onset of the Civil War drove all coinage from circulation and into hoards and assorted hiding places. Few coins were numismatically preserved. This frosty example shows only a few small marks. Light golden-gray toning blankets the obverse — deepening at the margins — while rose-red and blue accents enhance the reverse. Mint luster beams through the attractive toning. Population: 22 in 65 (1 in 65+), 18 finer (6/16). NGC ID# 24J7, PCGS# 572144 Base PCGS# 6302

**3577 1865 WB-101 MS63 NGC.** The mintage of 511,400 pieces did little to ease the hoarding of silver that marked the Civil War years, and today few Uncirculated examples of the 1865 halves exist. PCGS and NGC combined report fewer than 100 grading events at all Mint State levels combined. This Select Uncirculated survivor displays pale-gold toning with reddish highlights. The strike is sharp on both sides from dies that show raised polish lines throughout the fields and recesses. Census: 9 in 63, 20 finer (5/16). NGC ID# 24JF, PCGS# 572164 Base PCGS# 6313

**3578 1870 WB-101 MS63 PCGS.** An attractive Select specimen of this popular better date, with sharply detailed design elements and lightly marked surfaces that radiate satiny mint luster. A few hints of cerulean-blue and greenish-gold toning visit the peripheries. Population: 8 in 63, 25 finer (5/16). NGC ID# 24JZ, PCGS# 572188 Base PCGS# 6327

**3579 1871-CC WB-101, Die Pair 5, R.5, VF25 PCGS.** The Large CC mintmark is closely spaced and level. Remarkably, mint luster remains at the margins on both sides of this moderately worn half. Pleasing orange-gold and tan-brown toning blanket both sides of the coin. Although not the scarcest Carson City date, the issue is always in demand by both Seated half specialists and Carson City collectors. Population: 5 in 25, 82 finer (5/16). NGC ID# 646D, PCGS# 572196 Base PCGS# 6331

**3580 1873-CC Arrows, Large CC, WB-Unlisted, Die Pair 7, R.4, AU50 ANACS.** Three Large CC varieties exist for the 1873 Arrows halves, joining three other Arrows varieties with the Small CC mintmark. All of the Large CC varieties share the same reverse, with subtle differences in date position, repunching, and misplaced digits to identify the correct obverse. This example shows the date far right with minor repunching on the base of the 1. Pale iridescence visits the sharply struck silver surfaces on both sides where lilac and gold hues are the prominent colors. A few scattered, minor marks and slight rub determine the AU50 grade. Housed in an early generation ANACS holder. NGC ID# 24L8, PCGS# 572216 Base PCGS# 6344

**1875-S Seated Half, MS65**  
**'Spiked 5' Variety**

- 3581 1875-S Very Small S, WB-101, Die Pair 17, R.3, MS65 PCGS.** A tiny tine or die line from the left upright of the 5 earns the "Spiked 5" nickname for this variety, best viewed with a good lens and with the coin tilted down and right. The Very Small S mintmark shows slight repunching while a cigar-shaped die lump at the bottom of T in TRUST confirms the reverse. A mintage of more than 3.2 million pieces makes the 1875-S one of the more-available mintmarked issues for type. This lustrous example shows patches of deep toning at the borders with frosty silver centers and sharp devices. Population (all varieties): 59 in 65 (3 in 65+), 27 finer (6/16). NGC ID# 24KE, PCGS# 572229 Base PCGS# 6351

**1879 Half Dollar, MS65**  
**Only 4,800 Coins Struck**

- 3582 1879 Closed Bud, WB-102, MS65 PCGS.** The iridescent surfaces of this pleasing Gem half dollar are imbued with splashes of bluish-green and golden-tan color and rainbow-toned margins, especially on the reverse. The motifs are sharply struck, and both sides are well-preserved with prooflike tendencies. The 1879 circulation strike has a mintage of just 4,800 pieces. NGC ID# 24KS, PCGS# 572260 Base PCGS# 6361

- 3583 1884 Repunched Date, WB-102, MS61 PCGS.** This brilliant, semiprooflike Mint State piece is boldly struck with good luster and excellent eye appeal. A mere mintage of 4,400 business strikes all display a recut 4 at the base, a simple way to distinguish the circulation strikes from proofs since many prooflike coins exist. Abrasions are limited to an unobtrusive curled mark near the upper arrowhead and a few faint field lines. Encased in a first-generation holder.  
*Ex: Houston Signature (Heritage, 11/2007), lot 60663; Long Beach Signature (Heritage, 9/2011), lot 4035. NGC ID# 24KX, PCGS# 572269 Base PCGS# 6366*

**1891 Half, Peripherally Toned MS65**  
**Ex: Benson**

- 3584 1891 MS65 PCGS. CAC. Ex: Benson.** Aquamarine and chestnut-tan toning drapes this satiny Gem. Sharply struck aside from the stars near Liberty's head. A few minute ticks on the right obverse, but exceptional overall. Production for 1891 was higher than the immediately preceding years, but the number of high-grade survivors from the mintage of 200,000 pieces is nonetheless low. Population: 25 in 65 (1 in 65+), 16 finer. CAC: 10 in 65, 12 finer (5/16).  
*Ex: Los Angeles Signature (Heritage, 8/2009), lot 1640. NGC ID# 24L6, PCGS# 6373 Base PCGS# 6373*

**PROOF SEATED HALF DOLLARS**

**1857 Seated Half Dollar, PR63**  
**Only 30 to 40 Proofs Known**

- 3585 1857 PR63 PCGS.** Proofs were struck on-demand in 1857, and the number of specimens coined went unrecorded. Breen wrote of this Seated half dollar issue in his 1989 *Proof Encyclopedia*: "Except for the small cent, probably the most difficult denomination of the year." He estimated that 20 to 25 proofs were known, while PCGS now proposes that 30 to 40 proofs survive. This Select proof features a layer of teal-gray toning with elements of rose and violet. Each side is remarkably smooth for the grade with few signs of contact. A collectible example from an exceedingly elusive proof emission. Population: 16 in 63, 18 finer (5/16). NGC ID# 27TG, *Ex: Pre-Long Beach (Superior, 10/2000), lot 4382. PCGS# 6411*

- 3586 1861 PR63 NGC.** The mirrored surfaces are vibrantly reflective and attractively toned in steel-blue and grayish-lavender shades. The strike is needle-sharp, since the Mint took extra care with its proofs in 1861 — the second year of offering proofs at a premium cost to dealers and the general public. Many examples went unsold and were melted at year's end. This example shows a few delicate lines that account for the grade but they do not diminish the substantial eye appeal. Census: 24 in 63, 51 finer (5/16). NGC ID# 27TL, PCGS# 6415

**1877 Half Dollar, PR64+ Cameo  
Only 510 Proofs Struck**

**3587 1877 PR64+ Cameo PCGS.** There was a massively disproportionate number of proofs struck in 1877 compared to business strikes — only 510 proofs vs. 8.3 million circulation strikes. This is a deeply mirrored proof with strongly contrasting mint frost present over the devices. Most of each side is brilliant with a light accent of golden-brown peripheral color that surrounds the margins on each side. Population: 11 in 64 (3 in 64+) Cameo, 7 finer (5/16). NGC ID# 27UC, PCGS# 86438

**3588 1878 PR64 PCGS.** A generous mintage of 800 pieces makes the 1878 an available date in proof format. This near-Gem example is deeply mirrored on both sides and originally toned in a progression of blue, russet-red, and peach-gold shades on the obverse, while the reverse is more subtly toned in pale-gold and reddish-tan hues. A few cloudy areas on the obverse confirm the natural patina of this sharp and attractive proof. Population: 50 in 64, 31 finer (5/16). NGC ID# 27UD, PCGS# 6439

**3589 1879 PR64 PCGS.** A scarce and desirable year with a low business strike production. Some dusky blue-gray toning covers each side of this lightly hairlined example. The near-Gem elements are flattered by the surrounding mirrored fields and show a bold strike everywhere but the eagle's left talon. NGC ID# 27UE, PCGS# 6440

**1880 Half Dollar, Contrasted Proof  
High-End Cameo Gem**

**3590 1880 PR65+ Cameo PCGS. CAC.** A prominent die lump in the left (facing) wing suggests this deep-mirrored Gem proof was struck from dies also used for business strikes, with the reverse die featuring a closed bud. This is a sharply struck, contrasted proof with sharp eye appeal. The proof striking is fully detailed except for below the eagle's left leg, which shows a flat spot at the claw. Scarce this nice, where it is the sole Plus-graded Cameo proof at the Gem level. Population: 28 in 65 (2 in 65+) Cameo, 12 finer. CAC: 9 in 65, 10 finer (5/16). NGC ID# 27UF, PCGS# 86441

**1884 Half Dollar, Gem Cameo Proof**

**3591 1884 PR65 Cameo NGC.** A boldly struck Cameo with gleaming mirrored fields and satiny design elements. Golden peripheral toning adds to the eye appeal. The 1884 proof is seldom seen in high Cameo grades. The date as a whole is in high demand due to the low mintage of circulation-strike issue (4,400 coins). This proof is from a mintage of 875 pieces. Census: 6 in 65 Cameo, 11 finer (6/16). NGC ID# 27UK, PCGS# 86445

**BARBER HALF DOLLARS**

**1893 Half Dollar, MS66  
Attractively Toned, Scarce So Fine**

**3592 1893 MS66 PCGS.** Beautiful antique-copper toning envelops both sides with blue and gold shades on the reverse. Sharply detailed surfaces are thickly frosted and blemish-free. This second-year issue was not saved as extensively as the 1892 and thus is much more challenging to locate, especially in high grades. Population: 13 in 66 (2 in 66+), 1 finer (5/16).

*Ex: Long Beach Signature (Heritage, 10/2000), lot 6268; Central States Signature (Heritage, 4/2012), lot 4570, as a PCGS MS65.* NGC ID# 24LK, PCGS# 6465

**3593 1893-S AU55 PCGS.** Just a touch of wear is evident on the well-detailed design elements of this attractive Choice AU specimen, and the brightly lustrous surfaces show a few minor, scattered abrasions on close inspection. Population: 15 in 55, 74 finer (5/16). NGC ID# 24LM, PCGS# 6467

**1896 Half Dollar, MS65  
Few Seen Finer**

**3594 1896 MS65 PCGS.** Despite being among the more plentiful Barber half dollars of the 1890s, the 1896 is still conditionally rare in Gem or finer condition. This MS65 coin displays a sharp strike and satiny, original mint luster. Each side exhibits various degrees of olive-gray toning, attesting to the originality of the surfaces. Population: 14 in 65, 6 finer (5/16). NGC ID# 39RH, PCGS# 6474

**1896 Barber Half Dollar, MS65**  
Rarely Seen Finer

**3595 1896 MS65 PCGS.** The 1896 Barber half dollar is not as elusive in circulated grades as its mintage of 950,000 pieces would suggest, but examples in MS65 condition are rare, and finer coins are very rare. This delightful Gem displays sharply detailed design elements and well-preserved, lustrous surfaces. The brilliant centers yield to attractive shades of greenish-gold and magenta at the peripheries. Population: 14 in 65, 6 finer (5/16). NGC ID# 39RH, PCGS# 6474

**3596 1896-O XF45 PCGS. CAC.** A sharply detailed 1896-O Barber half with deep olive-brown and golden-gray toning that just blares originality. The 1896-O is a better date, seldom seen in the upper circulated or Mint State grades. Population: 14 in 45, 47 finer. CAC: 1 in 45, 10 finer (5/16). NGC ID# 24LW, PCGS# 6475

**1896-O Half Dollar, Toned AU55**

**3597 1896-O AU55 PCGS.** Despite a mintage of nearly 1 million coins, the 1896-O Barber half dollar is scarce in Mint State. This budget-friendly Choice AU example displays blotted lavender-gray and olive-green toning over each side. In typical 1890s-era New Orleans issue fashion, considerable strike weakness is seen on the central eagle and lower obverse stars. Population: 11 in 55, 24 finer (5/16). NGC ID# 24LW, PCGS# 6475

**1899-O Barber Half, MS65**  
Conditionally Rare, Original Toning

**3598 1899-O MS65 PCGS.** The 1899-O is elusive in Mint State and rare in Gem condition. This MS65 PCGS coin displays satiny luster with large interior areas of sun-gold toning. The border regions have deeper olive-green and amber-brown color. The obverse is sharp, but the reverse shows typical New Orleans weakness on the right-hand side of the eagle's body and talons. Population: 9 in 65, 8 finer (5/16). NGC ID# 24M7, PCGS# 6484

**3599 1901 MS65 PCGS. CAC.** The 1901 is one of the surprises in the Barber half series. With a mintage of 4.2 million pieces it should be common in all grades, but the issue is a condition rarity at the Gem level. This is a sharply struck example that is toned in medium density shadings of gray, lilac, and rose. There are no reportable abrasions on either side. Population: 30 in 65 (10 in 65+), 7 finer. CAC: 4 in 65, 4 finer (5/16). NGC ID# 24MC, PCGS# 6489

**3600 1901-S XF45 PCGS.** This low-mintage better date is luminous gold-gray overall, with deeper outlines of the peripheral and central devices. A few small marks and wispy abrasions are entirely grade-consistent. Population: 25 in 45, 73 finer (5/16). NGC ID# 5EPB, PCGS# 6491

**3601 1902-O AU58 PCGS.** Dappled shades of sea-green and lavender toning visit the lightly marked surfaces of this near-Mint Barber half, with just a trace of wear on the design elements and much original mint luster under the toning. Population: 17 in 58, 45 finer (5/16). NGC ID# 24MG, PCGS# 6493

**1906-D Barber Half Dollar, MS65**  
Satiny Luster, Low-Intensity Toning

**3602 1906-D MS65 PCGS. CAC.** This attractive Gem is sharply detailed in most areas, but a touch of the usual softness shows on the shield point and the adjacent area of the eagle's wing. Vibrant, satiny mint luster radiates from both sides, with highlights of lavender and greenish-gold toning. Population: 16 in 65, 10 finer. CAC: 5 in 65, 6 finer (5/16). NGC ID# 24MV, PCGS# 6505

**1907 Half Dollar, MS66**  
One Coin Graded Finer, Ex: Gardner

**3603 1907 MS66 PCGS. CAC.** Despite a mintage approaching 2.6 million examples, there are few survivors of the 1907 Barber half issue at the upper grade ranges. This is one of two MS66 representatives pedigreed to the Gardner Collection. The other coin realized \$7,637.50 during the sale of Part I of the Gardner Collection (Heritage, 6/2014), lot 30563. This Premium Gem displays scattered areas of toning, primarily at the outer edges, in hues including tan, plum-gray, and teal. Aside from the mottled patina, each side is mostly brilliant with swirling mint frost. Portions of the eagle exhibit minor incompleteness of strike, while the obverse is pinpoint-sharp throughout. Population: 5 in 66 (1 in 66+), 1 finer. CAC: 4 in 66, 2 finer (5/16).  
Ex: U.S. Coins Auction (Heritage, 11/2013), lot 3631; Eugene H. Gardner Collection, Part IV (Heritage, 10/2015), lot 98756. NGC ID# 24MY, PCGS# 6508

**1907-D Half Dollar, Sharp MS66  
Glimmering Satin Luster, Ex: Gardner**

- 3604 1907-D MS66 PCGS.** More than 3.8 million half dollars were struck in Colorado during the Denver Mint's second year of operation. Hundreds of Mint State pieces have reached the certification services, yet the population dwindles rapidly at this lofty grade level. Golden-lilac patina prevails over each side of this Premium Gem example, complemented by iridescent powder-blue and peach-orange accents. Glimmering satin luster emanates from underneath the toning, illuminating strongly detailed devices. Notably, the shield lines are fully delineated, and the fletchings are nearly complete. Minute ticks on Liberty's cap prohibit an even higher grade. Population: 13 in 66 (2 in 66+), 3 finer (5/16).  
*Ex: Central States Signature (Heritage, 5/2005), lot 7268; purchased from David Hall (5/2006); Eugene H. Gardner Collection, Part IV (Heritage, 10/2015), lot 98757. NGC ID# 24MZ, PCGS# 6509*

- 3605 1909 MS65 PCGS.** This delightful Gem exhibits well-detailed design elements, with just a trace of softness on the eagle's claw and arrow fletching. The well-preserved surfaces radiate vibrant mint luster and eye appeal is terrific. Population: 61 in 65, 15 finer (5/16). NGC ID# 24N8, PCGS# 6516
- 3606 1911 MS64 PCGS.** A collectible Choice Mint State 1911 Barber half dollar, showing a bold strike and champagne-tinted, frosty mint luster. A few trivial marks on the cheek limit the grade but pose little distraction. Finer examples are elusive. NGC ID# 24ND, PCGS# 6521
- 3607 1911 MS64 PCGS.** A well-detailed Choice specimen of this popular issue, with well-preserved lustrous surfaces under shades of lavender-gray and golden-tan toning. PCGS has graded 58 numerically finer examples (5/16). NGC ID# 24ND, PCGS# 6521
- 3608 1912-D MS65 PCGS.** Shades of lavender-gray and amber toning visit the well-preserved surfaces of this impressive Gem, with sharply detailed design elements and satiny mint luster underneath. Population: 65 in 65, 17 finer (5/16). NGC ID# 24NH, PCGS# 6525

**1912-D Half Dollar, MS66  
Among the Finest Certified, Ex: Gardner**

- 3609 1912-D MS66 PCGS. CAC.** The 1912-D (2.3 million coins struck) is known as a common issue in lesser grades. However, examples are rarely found at this lofty level. This lustrous high-grade Barber type coin in Premium Gem grade displays vibrant luster and dappled orange-gold, forest-green, and stone-gray toning. The cheekbone shows a few light russet freckles, and the surfaces are pristine, aside for a single wispy graze on Liberty's neck. Population: 16 in 66 (2 in 66+), 1 finer. CAC: 12 in 66, 0 finer (5/16).  
*Ex: FUN Signature (Heritage, 1/2005), lot 30226; FUN Signature (Heritage, 1/2012), lot 3691; purchased from David Lawrence Rare Coins (1/2012); Eugene H. Gardner Collection, Part IV (Heritage, 10/2015), lot 98761. NGC ID# 24NH, PCGS# 6525*

**1913-D Half Dollar, MS65  
Sharply Defined, Highly Lustrous**

- 3610 1913-D MS65 PCGS.** The 1913-D should be more available in high grades than it is with a mintage of 534,000 pieces. However, few Gems are known. This is a bright, lustrous example with each side covered with a light dusting of reddish-aqua patina. Sharply struck overall and remarkably free from abrasions. Population: 12 in 65 (1 in 65+), 4 finer (5/16). NGC ID# 24NL, PCGS# 6528
- 3611 1914-S MS64 PCGS.** A surprisingly well-preserved 1914-S Barber half dollar for the grade, showing softly frosted luster and deep olive-gold toning. A few trivial marks that limit the grade are well-hidden beneath the patina. Population: 39 in 64, 26 finer (5/16). NGC ID# 24NP, PCGS# 6531
- 3612 1915-S MS65 PCGS. CAC.** Originality is the key to understanding the CAC sticker on this coin. It would be possible to find a brighter coin for certain. Perhaps even a better struck one. But it isn't possible to modify the word "original." You can't find a "more original" 1915-S. Each side is draped in dusky gray patina. A couple of small marks can be found with earnest searching and the strike is predictably soft on the eagle's wing. Seldom seen as such and worth the effort to view and bid a little extra for. Population: 52 in 65 (2 in 65+), 12 finer. CAC: 14 in 65, 5 finer (5/16).  
*Ex: Central States Signature (Heritage, 4/2012), lot 4644. NGC ID# 24NT, PCGS# 6534*

**PROOF BARBER HALF DOLLARS**

- 3613 1893 PR65 PCGS.** This well-detailed Gem shows just a touch of the usual softness on the shield point and adjacent eagle's wing, with well-preserved surfaces under shades of pale gold and lavender toning. Reflective fields shine through the patina. Population: 21 in 65, 30 finer (5/16). NGC ID# 24NV, PCGS# 6540

**3614 1903 PR64 PCGS.** Lavender-blue, rose-gold, and olive-gray hues blanket both sides of this Choice 1903 proof half dollar, masking any minor hairlines that limit the grade. The strike is sharp, and the eye appeal is excellent for a sub-Gem coin. NGC ID# 24P7, PCGS# 6550

**3615 1905 PR64 PCGS.** Well-mirrored, if low-contrast, with pale green-gold outer toning and a circle of translucent rose at the left separating dot on the reverse. Intricately detailed but with faint slide marks on the cheek.

*Ex: Long Beach Signature (Heritage, 2/2012), lot 3731. NGC ID# 24P9, PCGS# 6552*

**3616 1915 PR64 PCGS.** A delightful Choice example from a minuscule mintage of 450 pieces, this coin exhibits razor-sharp definition on all design elements and deeply mirrored fields. The brilliant surfaces are well-preserved and eye appeal is terrific. Population: 46 in 64, 44 finer (5/16). NGC ID# 24PK, PCGS# 6562

## WALKING LIBERTY HALF DOLLARS

**3617 1916-D MS65 PCGS.** Satiny mint luster illuminates a blush of light golden toning on each side of this well-struck Gem 1916-D Walking Liberty half dollar. There are no abrasions observed, and the eye appeal is pleasing. Finer representatives command premiums much higher than the average collector can afford. NGC ID# 24PM, PCGS# 6567 Base PCGS# 6567

**3618 1917-S Reverse MS62 PCGS.** This Mint State 1917-S Reverse Mintmark half dollar displays glistening silver luster and surprisingly few abrasions for the grade. A loupe reveals slide marks on the high points of Liberty's figure that likely determine the grade. Some mild strike weakness is seen on the central eagle and Liberty's branch hand, as usual. NGC ID# 24PU, PCGS# 6573

**3619 1917-S Reverse MS63 NGC.** A well-struck Select example of the later Reverse Mintmark variety, showing golden toning over satiny mint luster. Minor slide marks over the high points of the devices are the chief grade-limiting factor. This issue becomes elusive in high grade, making the present coin ideal for the budget-restricted collector. NGC ID# 24PU, PCGS# 6573

**3620 1917-S Reverse MS63 PCGS. CAC.** This Reverse Mintmark 1917-S Walker is surprisingly well-preserved for an MS63 coin, showing also warm golden toning that deepens slightly toward the borders. Liberty's branch hand and the eagle's trailing leg show minor strike softness, although this is hardly a focus point of the coin. NGC ID# 24PU, PCGS# 6573

### 1918 Walking Liberty Half Dollar, MS65 Sharply Detailed Example

**3621 1918 MS65 PCGS.** This sharply detailed Gem exhibits clear separation between Liberty's thumb and fingers on the wreath hand and the feathers on the eagle's leg are intricately defined. The well-preserved surfaces show a few hints of pale gold toning, with vibrant mint luster and outstanding eye appeal. PCGS has graded nine numerically finer examples (5/16). NGC ID# 24PV, PCGS# 6574

### 1920 Half Dollar, MS65 Elusive in Gem Condition

**3622 1920 MS65 PCGS.** The bulk of the Uncirculated 1920 Walkers known grade in the MS62 to MS64 range. This Gem is conditionally scarce, and any finer pieces are genuine rarities. The strike is characteristic of the issue, showing slight weakness along the high points of Liberty's figure and the eagle's central feathers. Satiny surfaces display warm champagne toning, and there are no bothersome abrasions. NGC ID# 24R3, PCGS# 6580

### 1920-S Half Dollar, MS64 Lightly Patinated

**3623 1920-S MS64 PCGS. CAC.** Frosty S-mint luster issues from beneath a veil of champagne-gold patina on each side of this Choice Walking Liberty half dollar. Moderately incomplete centers yield to strong definition peripherally. Marks are well-hidden for the most part and are mainly only visible upon close inspection. The 1920-S claims a mintage of 4.6 million coins. NGC ID# 24R5, PCGS# 6582

**3624 1921-D — Repaired — PCGS Genuine. AU Details.** A well-detailed example of this key-date issue, showing glossy gray patina. The coin is cleaned and shows fairly well-done tooling in portions of the fields. A good coin for the budget-conscious collector looking to fill this hole in their collection with a sharply detailed example. NGC ID# 24R7, PCGS# 6584

### 1929-D Walking Liberty Half Dollar, MS65

**3625 1929-D MS65 PCGS. CAC.** The 1929-D Walking Liberty half dollar is more available than its smallish mintage of just over 1 million pieces would suggest, but the issue is very scarce in grades above MS65. This attractive Gem offers a better-than-average strike, with just a touch of softness on the eagle's leg. The well-preserved surfaces radiate vibrant mint luster, with a few hints of golden-tan toning. PCGS has graded 67 numerically finer examples (5/16). NGC ID# 24RC, PCGS# 6589

**1929-D Half Dollar, MS66  
One Coin Finer at Both Services**

**3626 1929-D MS66 PCGS.** Mottled, translucent toning in shades of crimson, blue, green, and orange delicately tints the peripheries of this Premium Gem half dollar with satiny brilliance evident beneath the patina and in the centers. The thumb is clearly separated, though the upper gown lines are indistinct. This was the final half dollar issue from the Denver Mint until 1934, as the Great Depression reduced demand for circulating silver coinage. Population: 66 in 66 (2 in 66+), 1 finer (5/16). NGC ID# 24RC, PCGS# 6589

**3627 1929-S MS65 PCGS.** An impressive Gem, this 1929-S Walking Liberty half dollar exhibits brilliant and frosty silver luster with an untoned obverse and faint champagne toning on the reverse. PCGS has only certified 51 numerically finer examples (5/16). NGC ID# 24RD, PCGS# 6590

**3628 1934 MS67 PCGS.** This spectacular Superb Gem is sharply detailed in most areas, with just a trace of the usual softness on Liberty's wreath hand and the eagle's leg. The impeccably preserved surfaces radiate vibrant mint luster, with highlights of champagne-gold toning. PCGS has graded eight numerically finer examples (5/16). NGC ID# 24RE, PCGS# 6592

**1934-S Half Dollar, Sharp MS66  
Light Multicolor Toning**

**3629 1934-S MS66 PCGS.** Violet and blue tones lightly color the frosted surfaces of this Premium Gem Walker. Splashes of multihued iridescence near the peripheries enhance the eye appeal. A crisp impression shows full branch hand detail, bold gown lines, and strong leg feathers. The 1934-S is very scarce in this high level of preservation, and PCGS reports merely eight finer submissions (5/16). NGC ID# 24RH, PCGS# 6594

**3630 1936 MS67 PCGS.** A spectacular Superb Gem, with sharply detailed design elements and vibrant mint luster throughout. The impeccably preserved surfaces are enhanced by shades of champagne-gold toning and eye appeal is outstanding. PCGS has graded two numerically finer examples (5/16). NGC ID# 24RM, PCGS# 6598 Base PCGS# 6598

**3631 1936 MS67 PCGS. CAC.** It is easy to see why CAC endorsed this frosty Superb Gem half dollar. Smooth surfaces are mostly brilliant with strongly defined motifs, including the branch hand and eagle feathers. A small mark between the fifth and sixth rays precludes an even higher grade. PCGS reports two finer submissions (5/16). NGC ID# 24RM, PCGS# 6598 Base PCGS# 6598

**1936-D Half Dollar, Satiny MS67  
Excellent Preservation**

**3632 1936-D MS67 PCGS.** Brilliant, satiny surfaces show excellent preservation with scattered hints of gold and pink-champagne patina. Liberty's head and lower gown details are well-struck, and there is at least a trace of a split thumb. Trivial ticks are confined to the lower gown area. Among the finest certified at both services. Population: 38 in 67 (2 in 67+), 0 finer (5/16). NGC ID# 24RN, PCGS# 6599 Base PCGS# 6599

**3633 1936-S MS66+ PCGS. CAC.** The strike on this high-end Premium Gem is impressively sharp, and the golden-toned surfaces are devoid of mentionable abrasions. The 1936-S is available in MS66 but rare finer. PCGS has seen only 11 submissions in finer condition (5/16). NGC ID# 24RP, PCGS# 6600

**3634 1936-S MS66+ PCGS. CAC.** This high-end Premium Gem 1936-S Walker displays satiny luster and impressively sharp design elements. Gold and violet toning appears around portions of the peripheries, framing essentially brilliant interiors. PCGS has seen only 11 Superb Gems finer (6/16). NGC ID# 24RP, PCGS# 6600

**1937-D Half Dollar, MS67  
Colorful and Conditionally Rare**

**3635 1937-D MS67 PCGS. CAC.** Rich iridescent toning deepens at the rims of this highly original, beautifully patinated half dollar. A reasonably bold strike at the centers provides feather detail on the eagle's trailing leg and at Liberty's head. Just one piece is certified in a numerically finer grade by both services combined. Population: 57 in 67 (1 in 67+), 0 finer. CAC: 29 in 67, 0 finer (5/16). NGC ID# 24RS, PCGS# 6602

**3636 1938 MS67 PCGS.** 30th Anniversary Green Label Holder. Lavender, rose-red, and sea-green shades envelop this coruscating and well struck silver type coin. Essentially mark-free surfaces confirm the lofty third-party grade. Virtually unobtainable any finer. NGC ID# 24RU, PCGS# 6604

**3637 1938-D MS66 PCGS. CAC.** An impressively well-preserved example of this semikey Denver issue, showing frosty original luster and champagne-gold toning with vivid iridescence near the rims. Liberty's branch hand shows a touch of the usual strike weakness. Finer coins are elusive. NGC ID# 24RV, PCGS# 6605

**3638 1938-D MS66 PCGS. CAC.** A Premium Gem specimen, this 1938-D Walker displays strong luster and small, scattered areas of toning on both sides. The hues include gold, peach, and pale amber. Minor marks are present, including one on Liberty's neck. PCGS has awarded higher numeric grades to only 44 examples (6/16). NGC ID# 24RV, PCGS# 6605

**3639 1941-S MS66 PCGS. CAC.** Shimmering lustrous surfaces are among the attributes this attractive Premium Gem possesses. Scattered toning is present, primarily at the outer portions of the obverse, in shades of forest-green and golden-brown. Only 9 examples have achieved higher numeric grades from PCGS (5/16). NGC ID# 24S5, PCGS# 6613 Base PCGS# 6613

**3640 1942-S MS66+ PCGS.** A well-preserved, largely untuned example of this late-series San Francisco issue, showing the usual minor strike weakness on Liberty's branch hand. This Plus-graded Premium Gem has only nine finer examples at PCGS (5/16). NGC ID# 24S8, PCGS# 6617

**3641 1943-D MS67+ PCGS. CAC. FS-101, Doubled Die Obverse.** A rare Plus-graded Superb Gem example of this otherwise plentiful late-series Denver issue. This CAC-endorsed 1943-D Walker displays minute die doubling on the motto, date, and Liberty's profile, although this *Cherry-pickers'* variety is not widely collected. Daubs of amber-red and golden-brown toning appear around portions of the borders, leaving the interiors with a light golden hue. The coin is well-struck with few imperfections. PCGS lists only two MS68 coins finer (5/16). NGC ID# 24SA, PCGS# 6619

**3642 1943-S MS66+ PCGS.** Large S. A lustrous silver-gray Walker. The strike is fairly sharp on the skirt lines for an S-mint World War II Walker. Even a powerful loupe locates only two small marks, on the flag and the front wing. NGC ID# 24SB, PCGS# 6620

**3643 1943-S MS66+ PCGS.** Large S. Light almond-gold toning graces the upper obverse of this lustrous and uncommonly preserved half dollar. San Francisco issues from World War II are known for soft strikes, but on the present coin, Liberty's head is well struck, though her upper skirt lines are incompletely impressed. NGC ID# 24SB, PCGS# 6620

**3644 1944-S MS66+ PCGS.** The Plus designation adds considerably to the appeal of this Premium Gem 1944-S Walker, as only eight finer coins are certified at PCGS (5/16). This piece is largely untuned and exceptionally well-preserved, although the typical strike weakness on the central high points is present. NGC ID# 24SE, PCGS# 6623 Base PCGS# 6623

**3645 1944-S MS66+ PCGS.** Light wheat-gold toning graces the borders of this lustrous and essentially immaculate example. The strike is above average for a San Francisco wartime Walker, though Liberty's cheek and the branch hand show softness. NGC ID# 24SE, PCGS# 6623 Base PCGS# 6623

**3646 1944-S MS66+ PCGS. CAC.** Large S. An outstanding wartime West Coast Walker. Autumn-brown peripheries frame lustrous and brilliant fields and devices. A loupe reveals only trivial contact. Liberty's cheek and skirt lines are nicely struck, while the branch hand shows blending customary for the issue. NGC ID# 24SE, PCGS# 6623 Base PCGS# 6623

#### 1945 Walking Liberty Half, MS67+ Phenomenal Type Representative

**3647 1945 MS67+ PCGS.** Booming mint luster shines through softly iridescent patina over each side of this boldly struck and seemingly pristine Superb Gem. The 1945 is one of the more frequently seen issues from the 1940s, but coins of this quality and with the strength of strike seen here, are seldom encountered. None are certified numerically higher by either PCGS or NGC (6/16). NGC ID# BYKU, PCGS# 6624 Base PCGS# 6624

**3648 1945-S MS67 NGC.** An almost flawlessly preserved, frosty example of this late-series San Francisco issue, showing champagne interiors with deeper russet toning along the left obverse border. Liberty's branch hand is not fully defined, but the overall eye appeal is hardly affected. Among the finest certified. Census: 32 in 67 (1 in 67 ★), 0 finer (5/16). NGC ID# 24SH, PCGS# 6626

**3649 1947 MS67 PCGS.** 30th Anniversary Green Label Holder. Attractive lemon-gold toning visits both sides of this high grade half dollar. A minor retained lamination bookends Liberty's head. 1947 was the lowest mintage Philadelphia issue since 1921. Population: 65 in 67 (4 in 67+), 0 finer (5/16). NGC ID# 24SM, PCGS# 6630

#### 1947-D Half Dollar, MS67 Unseen in Higher Grades at PCGS

**3650 1947-D MS67 PCGS.** This is the final Denver issue in the Walking Liberty half dollar series. Examples are readily available through MS66, but Superb Gems like this piece are seldom seen. This coin shows unabraded, satiny surfaces with dusky pastel toning. Well-struck and completely original. Population: 36 in 67 (3 in 67+), 0 finer (5/16). NGC ID# 5ESK, PCGS# 6631

#### PROOF WALKING LIBERTY HALF DOLLARS

##### 1936 Half Dollar, PR65 First Brilliant Proof Walker

**3651 1936 PR65 PCGS.** Whispers of low intensity sky-blue, violet, and champagne-gold patina reside on the luminous surfaces of this Gem proof, and an exacting strike delivers full delineation to the design features. Both sides are impeccably preserved. In summary, this piece generates great overall eye appeal. NGC ID# 27V4, PCGS# 6636

**3652 1938 PR67+ PCGS. CAC.** Small daubs of russet toning appear on each side of this otherwise brilliant 1938 proof Walker. The strike is full, and the shallow design elements are not weakened by excessive die polishing. Only 17 finer examples are reported at PCGS (6/16). NGC ID# 27V6, PCGS# 6638

**3653 1941 PR67+ PCGS. CAC.** No AW. A fully struck, well-preserved 1941 proof Walker with iridescent golden toning blanketing both sides. The Plus designation/CAC green label combination ranks this piece very close to the next highest grade, where PCGS has certified only 22 coins (5/16). NGC ID# 24SP, PCGS# 6641

**3654 1942 PR67+ PCGS. CAC.** Gleaming mirrors offer a slight contrast with the delicately textured devices. Magnificently preserved with the faintest hint of blue on the surfaces. NGC ID# 282G, PCGS# 6642

## FRANKLIN HALF DOLLARS

- 3655 1948-D MS66+ Full Bell Lines PCGS. CAC.** Rich plum-mauve, autumn-brown, and jade-green encompass the majority of this lustrous and crisply struck first-year Franklin half. Remarkably devoid of contact, and practically unobtainable any finer. PCGS lists just five finer Full Bell Lines examples (5/16). NGC ID# 2549, PCGS# 86652
- 3656 1948-D MS66+ Full Bell Lines PCGS. CAC.** Traces of light champagne toning appear over each side of this frosty high-end Premium Gem. In Full Bell Lines, only five Superb Gems at PCGS are finer (6/16). This piece displays a sharp strike and is free of noticeable abrasions. NGC ID# 2549, PCGS# 86652
- 3657 1949-D MS66 Full Bell Lines PCGS.** 30th Anniversary Green Label Holder. Powder-blue toning dominates the fields and motifs. The borders are autumn-brown. Lustrous and carefully preserved with a nice strike and impressive eye appeal. Population: 77 in 66 (6 in 66+) Full Bell Lines, 0 finer (5/16). NGC ID# 5HWE, PCGS# 86654
- 3658 1951-S MS66+ Full Bell Lines PCGS. CAC.** Glowing, frosty luster glistens over the refreshingly original, champagne-tinted surfaces of this beautifully preserved 1951-S Franklin half. The Plus designation and CAC green label only add to already impeccable appeal. PCGS lists five finer examples (5/16). NGC ID# 24T2, PCGS# 86660 Base PCGS# 86660
- 3659 1953-S MS67 PCGS.** Very few 1953-S halves are certified with Full Bell Lines, and none such grade finer than MS66. This Superb Gem non-Full Bell Lines example is conditionally rare, displaying frosty golden luster and impeccable preservation. Some weakness on the lower bell prevents the coveted FBL designation. Population: 28 in 67, 0 finer (6/16). NGC ID# 24T8, PCGS# 6666
- 3660 1955 MS66+ Full Bell Lines PCGS.** Dappled olive and amber-gold toning blankets both sides of this boldly struck Premium Gem. PCGS has awarded the Plus designation to just 14 MS66 examples, and a higher numeric grade to only four (5/16). NGC ID# 24TC, PCGS# 86670

### 1957-D Half Dollar, MS67 Full Bell Lines Vivid Border Toning

- 3661 1957-D MS67 Full Bell Lines PCGS.** A conditional rarity, tied for the finest at either service in Full Bell Lines. This Superb Gem 1957-D Franklin half dollar displays a bold strike and frosty, luminous mint luster. Much of each side shows ice-blue and champagne color, although vivid crescents of multicolor toning appear around most of the peripheries. Population: 18 in 67 Full Bell Lines, 0 finer (5/16). NGC ID# 24TE, PCGS# 86673

### 1958 Half Dollar, MS67 Full Bell Lines Strike Rarity, None Certified Finer

- 3662 1958 MS67 Full Bell Lines PCGS.** Type One, with four flattened feathers left of the eagle's perch. The 1958 Franklin half dollar is the most challenging Philadelphia issue from 1948 to 1960 to find with Full Bell Lines. This conditionally rare Superb Gem is lightly toned and thickly frosted with blushes of russet patina. A couple of minute ticks do nothing to affect the appeal. Population: 19 in 67 (1 in 67+) Full Bell Lines, 0 finer (6/16). NGC ID# 24TH, PCGS# 86674
- 3663 1958-D MS67 Full Bell Lines PCGS.** 30th Anniversary Green Label Holder. Rich peach-gold, rose-red, and steel-blue toning embrace the obverse. The reverse border displays jade-green and cherry patina. Lustrous and nicely struck. Delicate obverse field contact denies a finer grade. Population: 62 in 67 (1 in 67+) Full Bell Lines, 0 finer (5/16). NGC ID# 5HNM, PCGS# 86675

## PROOF FRANKLIN HALF DOLLARS

- 3664 1950 PR67 PCGS. CAC.** Some iridescence around the rims accentuates the warmth of the light champagne interior toning on this Superb Gem 1950 proof. The debut proof issue in the Franklin half dollar series is seldom seen this fine in a PCGS holder, with or without a Cameo designation. The present example is fully struck with gleaming fields. Population: 63 in 67 (2 in 67+), 1 finer. CAC: 30 in 67, 1 finer (5/16). NGC ID# 27VA, PCGS# 6691
- 3665 1950 PR65 Cameo PCGS.** The 1950 is the first proof issue in the Franklin half dollar series. Cameo examples are elusive in high grade. This Gem Cameo is brilliant, showing pleasant white-on-black contrast and deep mirrors. Grade-limiting imperfections are not immediately obvious. NGC ID# 27VA, PCGS# 86691
- 3666 1954 PR67 Ultra Cameo NGC.** This lovely Superb Gem Ultra Cameo proof Franklin half dollar has satiny, lustrous devices over fully mirrored fields with brilliant and untuned silver surfaces. Census: 23 in 67 Ultra Cameo, 11 finer (5/16). NGC ID# 27VE, PCGS# 96695
- 3667 1956 Type One PR68 Cameo PCGS. CAC.** The Type One Reverse proof is far scarcer than its Type Two counterpart. This high-end Superb Gem is tied for the finest Cameo certified at PCGS. The strike is full, and the untuned surfaces display frosty motifs and fully mirrored fields. Population: 54 in 68 Cameo, 0 finer. CAC: 25 in 68 Cameo, 0 finer (5/16). NGC ID# 24TV, PCGS# 86686
- 3668 1956 Type One PR68 Cameo PCGS. CAC.** Shallow relief on the small reverse eagle identifies this scarcer Type One Reverse issue. In PR68 Cameo, this CAC-endorsed coin is among the finest at PCGS and is conditionally scarce as such. The strike is full, and the field-device contrast is superb. Neither side exhibits toning or marks. Population: 53 in 68 Cameo, 0 finer. CAC: 25 in 68 Cameo, 0 finer (5/16). NGC ID# 24TV, PCGS# 86686

**1956 Franklin Half Dollar, PR68 Cameo  
Scarcer Type One Reverse**

- 3669 1956 Type One PR68 Cameo PCGS. CAC.** The Type One reverse shows some lack of detail on the small eagle. Walter Breen estimated only 5% of 1956 proofs employ this reverse. The present coin is a stunning PR68 specimen that exhibits intense cameo contrast between the sharply detailed frosty design elements and the impeccably preserved, deeply mirrored fields. Population: 55 in 68 Cameo, 0 finer. CAC: 27 in 68, 0 finer (5/16). NGC ID# 24TV, PCGS# 86686

**KENNEDY HALF DOLLARS**

- 3670 1964 MS67 PCGS.** A splendid Superb Gem with brilliant silver luster shining through the variegated toning on both sides of this important first-year Kennedy half dollar. Population: 50 in 67 (2 in 67+), 0 finer (5/16). NGC ID# 27WH, PCGS# 6706
- 3671 1964 MS67 PCGS.** 30th Anniversary Green Label Holder. Type Two Reverse. Vivid arcs of cherry-red and apple-green toning alternate across the lower obverse. The upper obverse is sun-gold, as is the reverse periphery. Well struck and lustrous with pleasing surfaces. NGC ID# 27WH, PCGS# 6706
- 3672 1964-D MS67+ PCGS.** Offered here is the only PCGS Plus designated MS67 1964-D Kennedy half dollar, with just one finer example at PCGS and none finer at NGC. This impressive Superb Gem Kennedy half dollar represents the debut of the design from the Denver Mint. Both sides are brilliant and highly lustrous with variegated toning on the obverse, and rich peripheral gold on the reverse. Population: 47 in 67 (1 in 67+), 1 finer (5/16). NGC ID# 24U3, PCGS# 6707
- 3673 1964-D/D FS-501 MS66 PCGS.** 30th Anniversary Green Label Holder. Type Two Reverse. The mintmark is obviously repunched. Light honey-gold patina visits this thoroughly lustrous and well struck representative. A few delicate obverse grazes correspond to the grade. FS-501 Population: 3 in 66, 0 finer (5/16). NGC ID# 24U3, PCGS# 146076 Base PCGS# 6707

**1967 Kennedy Half, MS67  
Brilliant Obverse, Toned Reverse  
Tied for Finest Certified**

- 3674 1967 MS67 PCGS.** Radiant mint luster leaves the obverse of this Superb Gem 1967 Kennedy half dollar mostly brilliant, while the reverse displays vivid crimson-red, tangerine-orange, and pistachio-green toning. The strike is sharp, and the eye appeal is exceptional. A conditional rarity, among the finest regular-issue coins certified. Population: 18 in 67, 0 finer (5/16). NGC ID# 24WJ, PCGS# 6710

- 3675 1990-D MS67 PCGS.** 30th Anniversary Green Label Holder. Much of the central obverse is powder-blue, while the remainder of this Superb Gem is caramel-gold. Lustrous, pristine, and crisply struck. Ideal for the competitive Registry holding. Population: 13 in 67, 0 finer (5/16). NGC ID# 24VH, PCGS# 6758

**PROOF KENNEDY HALF DOLLAR**

- 3676 1964 PR69 Ultra Cameo NGC.** A conditionally scarce Ultra Cameo proof 1964 Kennedy half, among the finest certified of this one-year 90% silver type (5/16). This coin is fully struck and virtually flawless, with untuned surfaces that showcase stark white-on-black contrast. NGC ID# 24WF, PCGS# 96800

**EARLY DOLLARS**

**1795 Flowing Hair Dollar, VG10  
Two Leaves, B-1, BB-21**

- 3677 1795 Flowing Hair, Two Leaves, B-1, BB-21, R.2, VG10 NGC.** Bowers-Borckardt Die State I. The high placement of the bust, with five prominent curls and a thin additional curl, and the two leaves reverse identify the available BB-21 variety. This well-worn example retains all major design elements intact and the letters and date are bold. Some vertical planchet adjustment marks are evident on the obverse, but the pleasing lavender-gray surfaces show only minor abrasions. NGC ID# 24WZ, PCGS# 39986 Base PCGS# 6853
- 3678 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1, Fair 2 NGC. CAC.** The high points are cream-gray while the open fields have deep lilac toning. The date is clear and the stars and LIBERTY are mostly well outlined. TES OF is generally clear though the remainder of the reverse legend is worn smooth. The date is clear but soft at the bottom of the digits. A remarkably appealing early dollar given the assigned grade and extensive wear. A few light pinscratches rim nicks are minor given the condition. CAC endorsed. NGC ID# 24WZ, PCGS# 39977 Base PCGS# 6852
- 3679 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1 — Repaired — NGC Details. VF.** Bowers Die State Tooling is evident at the centers of both the obverse and reverse, as well as other handwork at 12 o'clock near the reverse rim. The areas of repair notwithstanding, the coin retains sharp definition a fair measure of eye appeal. Traces of luster remain at the margins with golden-gray toning and blue accents across both sides. A few light marks and a minor rim bump at 10 o'clock on the reverse are of little note. NGC ID# 24WZ, PCGS# 39977 Base PCGS# 6852

- 3680 1795 Draped Bust, Off-Center, B-14, BB-51, R.2 — Scratches — NGC Details. Fine.** Bowers Die State I. A small cluster of thin marks near 12:30 on the reverse explain the NGC designation. The peach-gold and aquamarine surfaces are moderately glossy and show no other mentionable marks. The first Draped Bust issue. NGC ID# 24X2, PCGS# 39996 Base PCGS# 96858

- 3681 1795 Draped Bust, Off-Center, B-14, BB-51, R.2 — Harshly Cleaned — NGC Details. Fine.** Bowers Die State I. A glossy pearl-white silver dollar with vertical hairlines throughout both sides and wispy slide marks on the portrait. Without any other consequential abrasions. A collectible example of the initial Draped Bust issue. NGC ID# 24X2, PCGS# 39996 Base PCGS# 96858

**1796 Draped Bust Dollar, Fine 15  
B-5, BB-65, Large Date, Small Letters**

- 3682 1796 Large Date, Small Letters, B-5, BB-65, R.2, Fine 15 PCGS.** Bowers Die State II. A starkly contrasted Choice Fine example of the sole Large Date, Small Letters 1796 variety. Deep ebony-gray fields provide a dramatic backdrop for the lightly toned silver-gray raised elements, creating a profound “circulation cameo” effect. Liberty’s hair definition and the eagle wing detail suggest an even finer grade. A lens reveals the fields and devices are free of all but the inevitable microscopic ticks and tiny marks. The BB-65 variety is confirmed by a leaf under the A in STATES and the ubiquitous, lumplike die flaw between I and C of AMERICA. NGC ID# 24X3, PCGS# 40002 Base PCGS# 6861

**1796, Draped Bust Dollar, VF30  
Large Date, Small Letters, B-5, BB-65**

- 3683 1796 Large Date, Small Letters, B-5, BB-65, R.2, VF30 PCGS.** Bowers-Borckardt Die State II. The dramatic die lump at the top right of I in AMERICA identifies the popular BB-65 variety. The extra metal needed to fill the die lump on the reverse caused stars 2 and 3 to be lightly impressed on the obverse. This attractive VF30 specimen shows considerable wear on the left side of the drapery, but the design elements retain much interior detail in other areas. The lightly abraded slate-gray surfaces show no trace of planchet adjustment marks. Housed in a green label holder. NGC ID# 24X3, PCGS# 40002 Base PCGS# 6861

- 3684 1798 Small Eagle, 15 Stars, B-2, BB-81, R.3, Good 6 PCGS.** Bowers Die State II. An essential for early-dollar type, not only for the Small Eagle reverse, but also as the only 1798 dollar with 15 obverse stars. The obverse design elements are clearly outlined, as is most of the wreath. The lower half of the eagle is indistinct. As a rule, the reverse is weaker than the obverse for the variety, prompting David Bowers to suggest that the issue should be graded by the obverse only. Deep steel-gray fields provide pleasing contrast with the lighter silver-gray devices. The central reverse displays wispy marks, none of which are significant at the assigned grade. *Ex: Summer FUN Signature (Heritage, 7/2007), lot 1155.* NGC ID# 24X5, PCGS# 40007 Base PCGS# 6868

- 3685 1798 Large Eagle, Pointed 9, Wide Date, B-23, BB-105, R.3 — Improperly Cleaned — NGC Details. VF.** Bowers Die State III. This straw-gold and stone-gray silver dollar shows glimmers of luster in protected areas. A slight obverse rim ding at 5:30 is the sole mentionable mark. The central obverse is microgranular, but no hairlines are readily apparent. NGC ID# 24X6, PCGS# 40022 Base PCGS# 6877

- 3686 1798 Large Eagle, Pointed 9, 10 Arrows, B-21, BB-107, R.5, Fine 12 PCGS.** Bowers Die State II. Star 13 is much further from the bust than star 7 is from the L. This is a splendid, problem-free example of the scarce BB-107 variety. Both sides exhibit light battleship-gray patina, and although the motifs are well-circulated, considerable detail remains. Four tiny rim nicks occur above ST. A rim flaw near obverse star 13 is as made. NGC ID# 24X6, PCGS# 40024 Base PCGS# 6876

- 3687 1798 Large Eagle, Pointed 9, 10 Arrows, B-21, BB-107, R.5 — Struck-Thru Obverse — VF25 PCGS.** A thin, line-like depression in the right obverse field was the result of foreign material that adhered to the die when this dollar was struck. Both sides exhibit pleasing pewter and slate-gray toning. NGC ID# 24X6, PCGS# 40024 Base PCGS# 6876

- 3688 1799 8x5 Stars, B-23, BB-159, R.3, VF25 PCGS.** Bowers Die State II. The market value of BB-159 in all conditions is driven by the 8x5 obverse star arrangement, the only 1799 dollar with the configuration and thus in strong demand by type collectors. This example is sharp for the grade with pleasing old-time toning that displays golden-gray centers surrounded by deep, bluish-gray margins. Abrasions consist of a few light lines hidden in the patina with generally smooth fields and no adjustment marks. An attractive early dollar in a popular collector grade, housed in an old green label holder. Population: 8 in 25, 59 finer (5/16). NGC ID# 24X7, PCGS# 40063 Base PCGS# 6881

- 3689 1799 7x6 Stars, B-6, BB-162, R.4, VF30 PCGS.** The first star appears small and thin, A in STATES touches clouds, and the first A in AMERICA touches third and fourth feathers. Obverse die state II, crack through the last four stars; reverse die state III, crack from rim to cloud 7. The attractive, silver-gray surfaces are sharply defined and quite clean despite 30 points of wear. NGC ID# 24X7, PCGS# 40053 Base PCGS# 6878

- 3690 1799 7x6 Stars, B-17, BB-164, R.2, Fine 15 PCGS.** Bowers Die State II. Deep gunmetal-gray fields contrast with pearl-white high points. This Heraldic Eagle dollar has substantial hair and wing plumage definition. Both centers display a number of tiny ticks and the field near the chin is abraded. *Ex: Long Beach Signature (Heritage, 6/2013), lot 3582, which realized \$1,527.50.* NGC ID# 24X7, PCGS# 40055 Base PCGS# 6878

- 3691 1799 7x6 Stars, B-9, BB-166, R.1, Fine 12 PCGS.** Die State V. A blatantly original circulation cameo, this mid-grade 1799 dollar displays deep olive-gray and iridescent hues in the fields, with lighter tan-gray color over the relief elements. Evenly worn and problem-free. This is an outstanding coin for the grade, ideal for the collector who appreciates old-time patina. NGC ID# 24X7, PCGS# 40057 Base PCGS# 6878

- 3692 1799 7x6 Stars, B-9, BB-166, R.1 — Improperly Cleaned — NGC Details. XF.** Bowers Die State V. A monogramous die pair was used to strike BB-166 — the sole use of both the obverse and reverse dies. Several obverse die cracks confirm the late state of the dies, while the reverse is the “Apostrophe” variety, with a die break adjacent to the second S in STATES. The obverse shows little sign of cleaning with blue, violet, and tan toning. The reverse exhibits harsh hairlines where it was brushed and cleaned across the upper eagle and among the field stars. NGC ID# 24X7, PCGS# 40057 Base PCGS# 6878

- 3693 1799 7x6 Stars, B-22, BB-168, R.4, Fine 12 ANACS.** Bowers Die State III. The reverse die is broken rim-to-rim from the edge to the right of E in UNITED, across the eagle’s body and wings, to the edge at the left of M in AMERICA. Several blobs of metal appear at the margins where cracked, the upper reverse sinking. A faint network of die cracks forms on the obverse around the stars. Golden-brown and blue toning is deepest at the borders on both sides. A scarce variety, unknown in Mint State and especially appealing in this late die state. A few light marks are noted with a J-shaped pinscratch in the hair. Housed in an ANA cache holder. NGC ID# 24X7, PCGS# 40059 Base PCGS# 6878

- 3694** 1799 7x6 Stars, B-22, BB-168, R.4, VF30 NGC. Bowers Die State II. A scarce and conditionally rare die marriage, immediately recognized by its horizontal bisecting die crack across the reverse. This inoffensively abraded stone-gray midgrade example displays straw-gold and ice-blue undertones. NGC ID# 24X7, PCGS# 40059 Base PCGS# 6878

**1799 Draped Bust Dollar, VF35  
7x6 Stars, B-21, BB-169 Variety**

- 3695** 1799 7x6 Stars, B-21, BB-169, R.3, VF35 NGC. Bowers-Borckardt Die State IV. Some slight die roughness below star 1 and the position of the right side of A in STATES above a cloud junction identifies the BB-169 variety. From a late state of the dies, this Choice VF specimen shows prominent die cracks through the date and above OF AME on the reverse. Some parts of the drapery are worn smooth on the left side, but much interior detail remains intact in Liberty's hair. The lightly abraded surfaces are blanketed in attractive shades of lavender-gray and golden-brown toning. NGC ID# 24X7, PCGS# 40060 Base PCGS# 6878

**1799 Draped Bust Dollar, XF40  
7x6 Stars, B-21, BB-169**

- 3696** 1799 7x6 Stars, B-21, BB-169, R.3, XF40 PCGS. Bowers-Borckardt Die State III. Obverse star 8 is close to Y in LIBERTY and the right edge of A in STATES is over a cloud junction, identifying the scarce BB-169 variety. Only light wear shows on the hair and drapery and the lavender-gray surfaces are lightly abraded, with no planchet adjustment marks. Some characteristic softness is evident on the central reverse stars. NGC ID# 24X7, PCGS# 40060 Base PCGS# 6878

- 3697** 1800 Wide Date, Low 8, B-10, BB-190, R.3, VF25 PCGS. Bowers Die State VI. Several cracks occupy the legend on the reverse and wind their way toward the eagle. The obverse is free of cracks but lapped. Despite the dodgy state of the reverse die, sharp definition remains on the central motifs and the margins are strong at the assigned grade. Pleasing golden tan toning yields to bluish-brown accents with traces of remaining mint luster. Marks are limited to a few small digs and lines. An excellent collector coin, housed in a green label holder. NGC ID# 24X9, PCGS# 40076 Base PCGS# 6888

**1800 B-14, BB-194 Dollar, VF20  
Dotted Date Variety**

- 3698** 1800 Dotted Date, B-14, BB-194, R.3, VF20 NGC. Prominent die rust that surrounds the first 0 in the date is the namesake of this variety. Both sides are light gray with faint hairlines from an old cleaning that is not a concern for the early dollar enthusiast. Virtually every early dollar shows some evidence of cleaning. This is an important mid-grade example with prominent obverse and reverse die cracks. NGC ID# 24X9, PCGS# 40078 Base PCGS# 6889

- 3699** 1802/1 Narrow Date, B-1, BB-231, R.4 — Improperly Cleaned — NGC Details. VF. Bowers Die State II, with an “Adam’s Apple” clash mark below the chin and a star clashed behind the shoulder curl, both usual for the scarce B-1. This well defined example has been dipped but nonetheless displays noticeable luster, and mentionable marks are confined to a few trivial lines above the eagle’s head. PCGS# 40091 Base PCGS# 6898

- 3700** 1802/1 Wide Date, B-9, BB-235, R.5, VF30 ANACS. Bowers Die State I. The Bowers’ reference notes that the BB-235 is the scarcest overdate of the year and the most challenging of all the 1802 varieties. The list of Notable Specimens ranks from AU58 to VF25. The date is wide but evenly spaced and the overdate is crystal clear. This example is toned a pleasing olive-gray with gold undertones. A number of small marks and digs are noted on the obverse, yet the devices are sharply defined for the grade on both sides. Housed in an early generation ANACS holder. NGC ID# 24XB, PCGS# 40095 Base PCGS# 6899

**1802 Dollar, B-6, BB-241, VF35  
Bold Detail, Even Strike**

- 3701** 1802 Narrow Date, B-6, BB-241, R.1, VF35 PCGS. Bowers Die State III, lapped. This Choice VF BB-241 dollar displays an even strike and strong detail on the devices. The surfaces are smooth and exhibit milky-gray patina. BB-241 is a plentiful variety, suitable for type or date purposes. This piece is free of the often seen adjustment marks. NGC ID# 24XB, PCGS# 40088 Base PCGS# 6895

- 3702** 1803 Small 3, B-5, BB-252, R.3 — Improperly Cleaned — NGC Details. VF. Sun-gold and powder-blue shades alternate across this Heraldic Eagle dollar. There are no distracting marks but the surfaces are somewhat glossy. Liberty’s cheek and shoulder confirm service in Early American commerce. B-5 is scarce, certainly much more so than the Large 3 B-6. NGC ID# 24XD, PCGS# 40097 Base PCGS# 6900

**1803 Draped Bust Dollar, AU50  
Small 3, B-5, BB-252**

- 3703 1803 Small 3, B-5, BB-252, R.3, AU50 NGC.** Bowers Die State I. The BB-252 variety is recognized by the small, thin-top 3 in the date and a spur on the outside curvature of D in UNITED. Caramel-gold and pearl-gray toning embraces this partly lustrous and lightly circulated example. Tiny marks are distributed, but none singularly distract. Struck a couple of degrees off-center toward 2:30, with a wider rim present on the left than on the right. The Small 3 variety is listed on page 222 of the 2017 Guide Book. NGC ID# 24XD, PCGS# 40097 Base PCGS# 6900

**1803 Dollar, B-6, BB-255, VF25**

- 3704 1803 Large 3, B-6, BB-255, R.2, VF25 PCGS.** Bowers Die State III. This piece shows an even strike, although there is some flatness on Liberty's head and in the stars above the eagle's head that is not solely due to wear. This midgrade example displays even wear and mottled olive-green and amber-gold patina. The surfaces are smooth and problem-free, and there are no obvious adjustment marks. NGC ID# 24XD, PCGS# 40101 Base PCGS# 6901

**1803 Dollar, Choice VF  
B-6, BB-255, Large 3**

- 3705 1803 Large 3, B-6, BB-255, R.2, VF35 PCGS.** Bowers Die State III, cracked through the right-hand obverse stars. This Choice VF 1803 dollar is evenly struck and lightly worn with pewter-gray patina that deepens in the fields. Scattered marks and tiny scratches are seen with a loupe, but no adjustment marks appear on either side. Detail is sharp for the VF level. NGC ID# 24XD, PCGS# 40101 Base PCGS# 6901

**SEATED DOLLARS**

**1842 Dollar, Brilliant MS62  
No Motto Type Representative**

- 3706 1842 MS62 PCGS.** The 1842 Seated dollar was struck to the extent of 184,618 coins. Examples are scarcely seen in mint condition, but they are obtainable with a little patience through MS63. This brilliant MS62 dollar is well-struck with good detail on the stars and head. The eagle's wingtips and left (facing) leg feathers are incomplete. Brightly frosted with minor scattered marks. A nice Uncirculated No Motto type coin. NGC ID# 24YC, PCGS# 6928

- 3707 1844 AU50 PCGS. OC-1, R.2.** A pleasing AU specimen from a small mintage of 20,000 pieces, this coin shows just a touch of wear and the fields show traces of prooflike reflectivity under attractive shades of lavender and golden-brown toning. NGC ID# 24YE, PCGS# 6930

- 3708 1845 AU50 PCGS. OC-1, R.2.** A lightly worn and lightly abraded AU example of this low-mintage issue, which is seldom encountered in Mint State. This coin retains a few traces of satiny mint luster, under low-intensity shades of greenish-gold and lavender-gray toning. Population: 48 in 50, 90 finer (5/16). NGC ID# 24YE, PCGS# 6931

**1847 Seated Dollar, Toned MS63**

- 3709 1847 MS63 NGC.** Deep violet, rose, and blue patina appears on both sides of this Select 1847 Seated dollar, a well-struck survivor of the moderate issue exceeding 140,000 coins. A scrape on Liberty's rock above the 7 in the date is among the few mentionable signs of contact, along with some smaller marks on Liberty's left (facing) arm. A far finer survivor of this issue than usually seen. Census: 22 in 63, 10 finer (5/16). NGC ID# 24YJ, PCGS# 6934

**1850 Seated Dollar, AU55  
Low-Mintage No Motto Issue**

**3710 1850 AU55 PCGS. OC-1.** The 1850 Seated dollar has an enticingly low mintage of 7,500 coins and is one of the more elusive No Motto issues in circulated grades. This Choice AU representative is bright and brilliant with prooflike fields and bold detail. A brush of high-point friction and a hint of peripheral golden toning accompany the grade. Population: 40 in 55, 58 finer (5/16). NGC ID# 24YM, PCGS# 6937

**3711 1850-O — Damage — PCGS Genuine. AU Details. OC-1, R.2.** It appears that some graffiti has been effaced in the left obverse field and a cluster of minor digs shows on the right. Otherwise, this coin is lightly abraded and lightly worn, with pleasing shades of lavender-gray, golden-tan, and cerulean-blue toning. NGC ID# 24YN, PCGS# 6938

**3712 1855 Fine 12 PCGS.** A better No Motto issue with a mintage of 26,000 coins. This evenly circulated 1855 Seated dollar displays steel-gray interiors with colorful border toning that gives it outstanding eye appeal for the grade. A small rim nick at 10:30 on the obverse is the only mentionable flaw. NGC ID# 24YU, PCGS# 6943

**3713 1857 — Cleaning — PCGS Genuine. XF Details. OC-2.** This lightly worn and lightly abraded specimen shows a few signs of cleaning long ago, especially on the reverse, but the obverse surfaces have retuned in vivid shades of golden-brown and cerulean-blue. The 1857 Seated Liberty dollar is more elusive than its mintage of 94,000 pieces would suggest. NGC ID# 24YW, PCGS# 6945

**3714 1861 VF30 PCGS.** The 1861 Seated dollar is a better date, despite a fair mintage of 77,500 coins. This sharp VF example displays even wear with steel-gray interiors and multicolor toning around the peripheries. Eye appeal surpasses expectations for the grade. NGC ID# 24Z4, PCGS# 6951

**3715 1864 XF45 NGC. OC-1, R.2.** Osburn-Cushing Die State a/c. A single set of dies produced the entire 30,700 circulation strikes, yet four die pairs were required to strike the 470 proofs for the year. The shows a high, level date while the reverse exhibits a few shield line extensions into the azure. Struck from a late state of the reverse die with clashing in the shield recesses and a faint die crack above ERI of AMERICA. Two-toned patina displays slate-gray fields with silver-gray high points on the raised elements. Tiny abrasions and slight wear define the Choice XF grade. A slight rim knock at 10 o'clock on the reverse is minor and shows no visible indentation. Census: 11 in 45, 49 finer (5/16). NGC ID# 24Z7, PCGS# 6954

**3716 1869 Repunched Date, FS-302, OC-3, AU55 NGC.** A mostly untuned Choice AU example with partially reflective fields and a brush of high-point wear. The serif of an errant 1 is seen in the field between the 1 and 8 in the date, and the reverse is faintly die doubled. The 1869 Seated dollar is a slightly better date in high grade and experiences proportionately strong demand. Census: 16 in 55, 58 finer (6/16). PCGS# 416932 Base PCGS# 6962

**3717 1871 MS61 PCGS. OC-2.** An attractive Mint State example of this popular type issue, with well-detailed design elements and lustrous surfaces that show the expected number of minor contact marks for the grade. A few hints of greenish-gold toning add to the visual appeal. NGC ID# 5DNV, PCGS# 6966

**3718 1872-CC — Tooled, Repaired — NGC Details. VG.** Tool marks and scattered nicks and scratches are smoothed out in the fields by brush marks. The devices are outlined and all legends are clear, including the CC mintmark. This piece is bright and mostly steel-gray but with a patch of coppery color in the right obverse field. Still, an affordable example of the date.

**3719 1872-CC — Improperly Cleaned — NGC Details. Fine.** With a mintage of just 3,150 coins, many of which have been lost through attrition, it is little wonder the 1872-CC is one of the most highly coveted dates in the Seated dollar series. This well-worn example shows signs of an old cleaning, but the smooth surfaces are retuned in pleasing battleship-gray patina. NGC ID# 24ZK, PCGS# 6969

**3720 1872-CC — Damaged, Improperly Cleaned — NGC Details. XF.** The surfaces of this important Carson City dollar exhibits scattered handling marks, scratches, scrapes, and cleaning lines. Both sides display gold and steel-blue toning. From a mintage of only 3,150 coins, this is an elusive issue in the Seated dollar series, and enjoys considerable demand in all grades. NGC ID# 24ZK, PCGS# 6969

## TRADE DOLLARS

**1874 Trade Dollar, MS64  
Scarcer Issue in Mint State**

**3721 1874 MS64 NGC. CAC.** A large mintage of 987,100 Trade dollars was achieved in 1874, but most of this mintage was shipped to China to fulfill its intended role in foreign trade. Examples in Choice Mint State condition are rare in today's market. The present coin is a delightful Choice specimen, with sharply detailed devices and vibrant mint luster. Census: 27 in 64 (3 in 64+), 7 finer (6/16). Ex: Long Beach Signature (Heritage, 2/2011), lot 4275. NGC ID# 252Z, PCGS# 7034

**3722 1874-CC AU55 NGC.** Tall CC. This Choice AU 1874-CC Trade dollar retains remnants of luster in the protected portions of the fields, with golden undertones beneath overall olive-gray patina. The coin is well-struck and problem-free, with little high-point wear. NGC ID# 2532, PCGS# 7035

**3723 1874-CC AU58 PCGS.** Tall CC. Period after FINE. A partially lustrous stone-white Carson City Trade dollar. The strike is good, and field marks are moderate. More available than its '73-CC predecessor, but nonetheless scarce in nice AU grades. NGC ID# 2532, PCGS# 7035

**3724 1874-S MS63 PCGS. CAC. Breen-5785.** Large S. Period after FINE. Attractive caramel-gold toning graces this highly lustrous and well struck representative. A lens shows only unimportant contact. A splendid Select Uncirculated Trade dollar. NGC ID# 2533, PCGS# 7036

**3725 1875-S Type One Reverse MS63 NGC.** Large S. A frosty, original coin, suitable for type purposes. This Select 1875-S Trade dollar shows a few scattered abrasions that determine the grade, along with some mild strike weakness on Liberty's head and foot, and the eagle's right (facing) talons and left (facing) wing. A hint of champagne color is seen on each side. NGC ID# 2536, PCGS# 510101 Base PCGS# 7039

**1875-S Trade Dollar, MS64**  
**Lustrous Type Representative**

- 3726 1875-S Type One Reverse MS64 PCGS.** Berry under claw, Large S. By the end of 1875, the San Francisco Mint had struck more than 4.4 million Trade dollars, the majority of which were sent across the Pacific to East Asia. Many were also released into domestic circulation. Survivors are scarce in Choice condition and border on rare in MS65. The surfaces of this near-Gem dollar feature considerable brilliance intermixed with splashes of golden and gunmetal-blue patina. Frosty luster abounds over each side. The strike definition is bold, aside from incompleteness on Liberty's head and a few stars. NGC ID# 2536, PCGS# 510101 Base PCGS# 7039
- 3727 1876 Type One Obverse, Type One Reverse, MS63 PCGS.** This is a well-struck example with satiny luster and a hint of champagne toning. Neither side exhibits significant abrasions, giving this coin pleasing eye appeal. Suitable for type purposes. NGC ID# 2539, PCGS# 40110 Base PCGS# 7041
- 3728 1876-S Type One Obverse, Type One Reverse, MS63+ PCGS.** A well-struck, high-end Select 1876-S Trade dollar, suitable for type purposes. Each side displays dusky golden-gray toning with a few grade-limiting hairlines hidden beneath the patina. Eye appeal is excellent for the grade. NGC ID# 4EMM, PCGS# 40114 Base PCGS# 7043
- 3729 1877 MS63+ PCGS. CAC.** A lustrous, softly frosted Trade dollar type coin, this high-end Select 1877 displays surprisingly clean surfaces with pleasing olive-gold toning that shows hints of blue around the peripheries. The peripheral stars are not fully struck, but the central devices are sharp. NGC ID# 253C, PCGS# 7044
- 3730 1877-CC XF40 NGC.** Tall CC. An outstanding coin for the budget-conscious collector assembling a Carson City Trade dollar set. This XF 1877-CC boasts astoundingly original olive-gray patina that lightens toward the centers, with smooth, problem-free surfaces and trivial high-point wear. The design elements retain most of their finer details. NGC ID# 253D, PCGS# 7045
- 3731 1878-CC VF35 NGC.** With a mintage of only 97,000 pieces, the 1878-CC is the final Carson City issue in the Trade dollar series. This Choice VF example is ideal for the casual collector. Wear is light and even, and the problem-free surfaces yield warm golden-gray patina. NGC ID# 253M, PCGS# 7047

**PROOF TRADE DOLLARS**

**1873 Trade Dollar, PR62 Cameo**  
**First-Year Proof Type Coin**

- 3732 1873 PR62 Cameo PCGS.** A sharp first-year Trade dollar proof with modest cameo contrast and a sharp strike. Each side displays warm golden toning with light, scattered hairlines that define the grade. Proof silver dollar coinage was transitional in 1873, with 600 pieces each of the Seated and Trade dollar types struck. Cameo survivors of either variety are elusive. Population: 14 in 62 Cameo, 47 finer (5/16). NGC ID# 27YJ, PCGS# 87053
- 3733 1875 PR62 PCGS.** Type Two Reverse, slightly more prevalent on proofs of this date than its Type One (berry under claw) alternative. A sharply struck and nicely mirrored specimen. Light wheat-gold toning emerges when the inoffensively hairlined coin is rotated beneath a light. NGC ID# 27YL, PCGS# 7055

**1875 Trade Dollar, PR63 Deep Cameo**  
**Starkly Contrasted**

- 3734 1875 PR63 Deep Cameo PCGS. CAC.** Type One Reverse. The 1875 Trade dollar is scarce as a business strike, increasing demand for proofs. This Select Deep Cameo proof has brilliant silver surfaces with scattered, grade-consistent marks. The design motifs are crisp and the contrast is outstanding. Population: 2 in 63 Deep Cameo, 8 finer. CAC: 1 in 63, 3 finer (5/16). NGC ID# 56RH, PCGS# 97055
- 3735 1883 PR62 PCGS.** A pleasing lower-end proof Trade dollar from the final year of the official series. This PR62 example displays a full strike and reflective fields. Deep purple-gray and olive-brown toning blankets each side, masking any grade-limiting marks. NGC ID# 27Z7, PCGS# 7318

*End of Session One*

3737

## SESSION TWO

### COLONIALS

Undated American Plantation Token  
Newman 4-E, MS63

- 3736** (1688) American Plantations 1/24 Part Real MS63 PCGS. CAC. Newman 4-E, W-1155, R.5. Originals and restrikes are thought to exist for the Newman 4-E die pair, and Q. David Bowers notes that Originals are tin while Restrikes are pewter. This exceptional example exhibits full luster on its light gray surfaces with splashes of darker gray toning on the high points. The surfaces are smooth and pleasing with little evidence of the tin pest normally associated with these pieces. Listed on page 41 of the 2016 *Guide Book*. NGC ID# AUB2, PCGS# 49

1795 Talbot, Allum & Lee Cent  
PR65 Red and Brown, Fuld-1

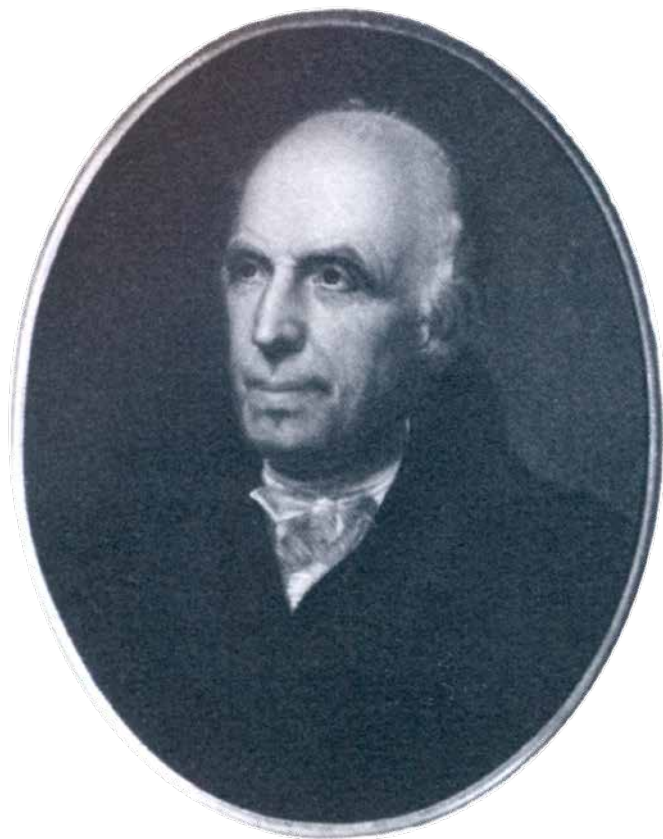

- 3737** 1795 Talbot, Allum & Lee Cent PR65 Red and Brown PCGS. Fuld-1, W-8620, R.1. Talbot, Allum, and Lee were New York merchants, heavily engaged in trade with India in the 1790s. The 1794 and 1795-dated coppers bearing their names were actually produced in England, and British numismatists collect them as Conder tokens. Proof specimens, like the present coin, are much more elusive than business-strike examples. This delightful Gem offers virtually pristine original red surfaces that have mellowed to light brown in selected areas. The design elements are sharply detailed and the fields are deeply reflective, under the patina. Listed on page 78 of the 2017 *Guide Book*. Population: 4 in 65 Red and Brown, 2 finer (5/16). NGC ID# 2B65, PCGS# 90641

### HALF CENT

1806 C-4, B-4 Half Cent, MS64 Brown  
Large 6, Stems

- 3738** 1806 Large 6, Stems, C-4, B-4, R.1, MS64 Brown PCGS. Manley Die State 2.0, the usual die state with strike weakness at the drapery and among the upper leaves in the wreath. The obverse of this pleasing half cent exhibits olive-brown luster with considerable faded mint red blended with bluish-brown on the reverse. Our EAC grade MS60. NGC ID# 222J, PCGS# 35200 Base PCGS# 1099

Mint Director  
Robert Patterson (1806-1824)

## LARGE CENTS

**1793 Wreath Cent, VF30**  
S-9, B-12, Vine and Bars Edge

**3739 1793 Wreath, Vine and Bars Edge, S-9, B-12, R.2, VF30 PCGS.** The Sheldon-9 Wreath cent is the most plentiful variety of the design, representing about one-third of all surviving examples. The original mintage was likely in the same proportion, or about 20,000 coins. In his Large Cent Encyclopedia, Walter Breen suggested that this variety was coined during the week of April 13-18, although there are no contemporary records to prove his speculation.

This example was struck early in the production run and exhibits perfect dies that show no clash marks or die cracks. Minor handling marks and trivial scratches at the upper reverse are the grade-limiting characteristics of this steel, golden-brown, and tan Wreath cent. Our EAC grade Fine 12. NGC ID# 223H, PCGS# 35459 Base PCGS# 1347

**1794 Liberty Cap Cent, AU58**  
Head of 1795, S-71

**3740 1794 Head of 1795, S-71, B-63, R.2, AU58 PCGS. CAC.** Breen Die State III. Clash marks near the chin, and three parallel cracks near Liberty's eye, attribute this chocolate-brown Liberty Cap cent. Hints of orange-gold color linger in the protected areas. Marks are minimal, and the strike is consistent save for softness on the reverse dentils near 10 o'clock. Moderate pitting on the cap and nearby field merits passing mention. Our EAC grade VF30. NGC ID# 223R, PCGS# 35696 Base PCGS# 1365

**1814 Cent, MS62 Brown**  
S-294, Crosslet 4  
Important Classic Type Coin

**3741 1814 Crosslet 4, S-294, B-1, R.1, MS62 Brown NGC.** Breen Die State II, double clashed. Classic Head cents can always be obtained for a price, but are typically encountered well circulated and darkly toned. However, the present final-year example has semiprooflike surfaces, and the fields display iridescent olive-brown and lilac undertones. Well struck, unmarked, and desirable. Our EAC grade AU50. NGC ID# 224Y, PCGS# 36520 Base PCGS# 1573

**1818 N-10 Cent, MS63+ Red**  
Famous Randall Hoard Issue

**3742 1818 N-10, R.1, MS63+ Red PCGS. CAC.** The Randall Hoard consisted of thousands of Mint State 1816 to 1820 large cents with varying degrees of original mint color. The 1818 N-10 and the 1820 N-13 are the two varieties most often encountered from that hoard. Since they were reportedly stored for several decades in the original mint kegs, and subject to varying atmospheric conditions, the majority of these hoard coins exhibit scattered carbon flecks, such as those seen on this example. The obverse exhibits about 75% of its original mint red with delicate bluish-brown overtones, and the reverse retains virtually full orange mint color. Our EAC grade MS62. Population: 3 in 63 (1 in 63+) Red, 1 finer (5/16). NGC ID# 2253, PCGS# 36630 Base PCGS# 1602

## FLYING EAGLE CENT

1858 Large Letters Cent, MS66  
Attractive Peach Color

- 3743 1858 Large Letters MS66 PCGS.** High Leaves, Closed E in ONE. A predominantly peach-gold Premium Gem despite a hint of rose-red below the eagle's beak. Lustrous and unabraded with minimal carbon. The eagle has a full strike, and the wreath shows only minor blending on the left-side high points. Given that the 1856 issue is a pattern, the type was struck for commerce only two years. Population: 31 in 66 (1 in 66+), 2 finer (5/16). NGC ID# 2277, PCGS# 2019

## PROOF FLYING EAGLE CENT

Proof 1856 Flying Eagle Cent, AU Details  
Snow-3 Die Pairing

- 3744 1856 Snow-3 — Rim Damage — NGC Details. Proof, AU.** The 5 in the date is recut on the upright, and a diagonal die line is seen below the 1. The reverse die line that partially differentiates Snow-3 from Snow-1 and -10 is faint. This is a sharp proof with a little bit of high-point friction and medium olive-brown coloration. A number of rim bumps around each side precludes a numeric grade from NGC. NGC ID# 227A, PCGS# 47058 Base PCGS# 2037

## INDIAN CENTS

1877 Indian Cent, MS63 Brown  
Important Series Key

- 3745 1877 MS63 Brown PCGS. CAC.** The 1877 Indian cent is the low-mintage key to the series and collectors prize examples in all grades and conditions. This impressive Select example displays sharply detailed design elements and pleasing mahogany brown surfaces that show only scattered, minor contact marks on both sides. Population: 58 in 63 Brown, 51 finer. CAC: 13 in 63, 10 finer (5/16). NGC ID# 2284, PCGS# 2127

1904 Cent, MS67 Red  
Conditionally Rare Registry Coin

- 3746 1904 MS67 Red PCGS.** Despite being common in an absolute sense, all 20th century Indian cent issues become condition rarities in MS67 Red. The 1904 exists in this grade with just seven coins at PCGS and one at NGC with none finer (5/16). Even MS66 Red examples are elusive. The few top-grade 1904s are in ever strong demand from Registry Set collectors, most of whom still lack a coin in this condition — eight finest-known coins is hardly sufficient for the demands of 155 (current number) Basic Set Registry assemblers. The present MS67 Red piece displays a bold strike and glowing, frosty mint luster in rich copper-orange and tangerine-red hues. The cartwheel effect is mesmerizing. Only a couple of tiny ticks on Liberty's cheek keep this coin away from virtual perfection. NGC ID# 228Z, PCGS# 2219

**1908-S Indian Cent, MS66 Red  
Scarce Semikey Issue**

**3747 1908-S MS66 Red PCGS.** First of only two branch mint issues in the Indian cent series. Circulated examples can be located of the 1908-S, but high grade pieces with full mint red are rarely encountered. This is a remarkably strong strike for the issue with only the slightest softness apparent on the tips of the feathers in the headdress. The surfaces are lovely with bright orange and red mint luster. Population: 49 in 66 (1 in 66+) Red, 1 finer (5/16). NGC ID# 2296, PCGS# 2234

**LINCOLN CENTS**

**1912-D Cent, MS66 Red  
Top-Grade Registry Coin**

**3748 1912-D MS66 Red PCGS.** In Premium Gem Red condition, the 1912-D Lincoln cent is a rarity, and none are known finer. This Registry-grade PCGS coin displays a sharp strike and mattelike luster with rich coppery-orange and tangerine hues. The first A in AMERICA is struck through die grease, and a few tiny specks are seen on the reverse. The eye appeal is outstanding for the issue. Population: 24 in 66 (2 in 66+) Red, 0 finer (5/16). NGC ID# 22BB, PCGS# 2455

**1912-D Lincoln Cent, MS66 Red  
Registry Set Candidate**

**3749 1912-D MS66 Red PCGS. CAC.** A spectacular Premium Gem from the early years of the series, this coin possesses incredible eye appeal to complement its high technical grade. The design elements are sharply detailed throughout and the original red surfaces are impeccably preserved. Population: 24 in 66 (2 in 66+) Red, 0 finer. CAC: 7 in 66, 0 finer (5/16). NGC ID# 22BB, PCGS# 2455

**1914-D Cent, MS65 Red  
Series Key in High Grades**

**3750 1914-D MS65 Red PCGS.** The 1914-D has the third-lowest mintage in the Lincoln cent series behind the 1909-S VDB and the 1931-S, but it has a well-deserved reputation as the most difficult of the three issues to locate in Gem condition with original Red surfaces. The two lowest-mintage emissions were saved to a significant extent, while little attention was paid to this Denver product. To that point, PCGS shows about one-tenth the number of 1914-D cents in MS65 Red compared to either of the two other issues.

This conditionally rare Gem cent features attractive copper-orange color and shimmering satin luster. The strike is strong with clear detail on the portrait and the letters of the reverse legends, save for E PLU. A few stray ticks appear on the obverse and a single mark occurs on the C in CENT. Population: 70 in 65 (7 in 65+) Red, 6 finer (5/16). NGC ID# 22BH, PCGS# 2473

**1915-D Cent, MS66 Red  
Only One Coin Certified Finer**

**3751 1915-D MS66 Red PCGS.** 30th Anniversary Green Label Holder. A conditionally scarce full Red Premium Gem example of the 1915-S Lincoln cent, showing satiny copper-red luster and average design definition. Significant die erosion is seen in the fields, and a few tiny specks are seen on the obverse. Population: 38 in 66 (2 in 66+) Red, 1 finer (5/16). NGC ID# 22BL, PCGS# 2482

**1918-D Cent, MS65+ Red  
Deep Original Color**

- 3752** 1918-D MS65+ Red PCGS. CAC. The 1918-D Lincoln cent is challenging in full Red grades, and is rarely seen at the Gem level of that category. This Plus-designated example displays glowing satin surfaces with deep-orange color and only a few minute ticks. Carbon is not immediately obvious. Well-struck with minimal evidence of die erosion. Population: 32 in 65 (1 in 65+) Red, 8 finer. CAC: 2 in 65, 0 finer (5/16).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22BW, PCGS# 2509

**1924 Cent, MS67 Red  
Tied for Finest Certified**

- 3753** 1924 MS67 Red PCGS. A beautifully preserved, Registry-quality Superb Gem, this radiant bronze-red 1924 Lincoln cent displays vibrant mint luster and is remarkably free of bothersome carbon spotting. A loupe reveals faint flow lines in the fields, the product of a worn die, though the devices are nonetheless well-defined, with notable definition seen around the O in ONE. Full Red survivors of this issue can be found through the MS66 grade level with little searching, but this coin is one of only 10 specimens to receive an MS67 Red grade (eight at PCGS and one at NGC).  
*From The SLADGrubb Family Lincoln Collection.* NGC ID# 22CC, PCGS# 2551

**1932-D Lincoln Cent, MS67 Red  
Strong Registry Set Contender**

- 3754** 1932-D MS67 Red PCGS. The original red surfaces of this spectacular Superb Gem radiate blazing mint luster on both sides, with no mentionable flaws. The design elements are sharply detailed throughout and overall eye appeal is terrific. This coin should find a home in the finest collection or Registry Set. Population: 15 in 67 Red, 0 finer (5/16). NGC ID# 22D6, PCGS# 2626

**PROOF LINCOLN CENTS**

**1942 Cent, PR67 Red Cameo  
None Graded Finer**

- 3755** 1942 PR67 Red Cameo NGC. Seven consecutive years of proof production came to an end after 1942 as resources like copper were directed toward the war effort. The Mint struck 32,600 proofs in that final year. Cameo representatives are very scarce across all grade levels and are extremely rare in PR67 Red Cameo. Light pumpkin-gold surfaces display marked contrast on each side with smooth, reflective fields. A pristine example that ranks among the finest certified at both services. Census: 2 in 67 Cameo, 0 finer (6/16). NGC ID# 22L9, PCGS# 83353

**1942 Lincoln Cent, PR66 Ultra Cameo  
Single Finest at NGC**

- 3756** 1942 PR66 Ultra Cameo NGC. The sharply detailed design elements of this magnificent Premium Gem have an unusually thick coat of mint frost, creating intense cameo contrast with the deeply mirrored fields. The original red surfaces are impeccably preserved and overall eye appeal is tremendous. Census: 1 in 66 Ultra Cameo, 0 finer (6/16). NGC ID# 22L9, PCGS# 93353

## PROOF TWO CENT PIECES

### 1868 Two Cent, PR66 Red Deeply Reflective Mirrors

- 3757 1868 PR66 Red PCGS.** Fiery-orange and amber surfaces offer noticeable field-design contrast despite the absence of a formal Cameo designation from PCGS. The mirrors are reflective and virtually free of contact. Breen's *Proof Encyclopedia* cites three varieties for the date, including this one with an incomplete ornament below the left half of the W in WE. One of about 600 proofs minted in 1868. Population: 9 in 66 Red, 2 finer (5/16). NGC ID# 274X, PCGS# 3638

### 1871 Two Cent, PR66 Red Spectacular Visual Appeal

- 3758 1871 PR66 Red PCGS. FS-102.** The *Guide Book* reports a mintage of 960 two cent proofs in 1871, but the exact number of specimens struck was never officially recorded by Mint officials. The spectacular surfaces of the Premium Gem proof maintain their mint Red coloration and show considerable mirroring in the fields, generating partial cameo contrast that is undesignated on the holder. A few contact marks are unworthy of individual attention. Population: 16 in 66 (1 in 66+) Red, 0 finer (5/16). NGC ID# 22NH, PCGS# 3647

### 1873 Closed 3 Two Cent Piece PR66 Red and Brown

- 3759 1873 Closed 3 PR66 Red and Brown PCGS Secure.** Ex: TDP Collection. Immediately recognizable as a Closed 3 (without looking at the 3) by the uniformly strong strike on the horizontal stripes of the shield. Significant mint red is still apparent on each side with slight mellowed brown apparent in the centers. The proof finish is moderate, only diminished by the presence of the light brown patina. Population: 28 in 66 Red and Brown, 0 finer (5/16). NGC ID# 2753, PCGS# 3652

## THREE CENT SILVER

### 1858 Three Cent Silver, Bold MS66+ Type Two Strike Rarity

- 3760 1858 MS66+ PCGS.** Completely brilliant surfaces and nearly full strike definition are the two hallmarks of this fantastic MS66+ Type Two three cent silver piece. Aside from a trace of flatness on the horizontal shield stripes, the legends, olive leaves, fletchings, and stars are strongly rendered. Wispy die polish lines are apparent on the obverse. Sharply defined Type Two examples are seldom seen, and this Premium Gem should command the attention of knowledgeable specialists. Population: 40 in 66 (1 in 66+), 12 finer (5/16). NGC ID# 22Z7, PCGS# 3674

## THREE CENT NICKELS

### 1875 FS-301 Nickel Three Cent, MS67 Tied for the Finest Certified

- 3761 1875 Misplaced Date, FS-301, MS67 PCGS.** An elusive issue in the nickel three cent series, the 1875 had a circulation strike mintage of 228,000, lower than any previous issue in the series. This Superb Gem exhibits frosty and highly lustrous light gray surfaces with bold design motifs. The variety enthusiast will be interested in the serif of the misplaced 1 that protrudes from Liberty's lower neck. Population: 4 in 67, 0 finer (5/16). NGC ID# 22NS, PCGS# 410345

### 1875 Three Cent Nickel, MS67 Misplaced Date, FS-301

- 3762 1875 Misplaced Date, FS-301, MS67 NGC.** The serif of a 1 is misplaced along the left border of Liberty's neck, similar to the better known Indian Cent varieties 1890 FS-301 and 1897 FS-401. A satiny and sharply struck Superb Gem, beautifully preserved and nearly untoned. Both proof and business strikes of this variety are known. As of (6/16), the present lot is the only example certified as MS67; also the case 11 years ago.  
Ex: Western Hills Collection (*Heritage*, 6/2005), lot 5375, which realized \$4,542.50. NGC ID# 22NS, PCGS# 410345

**1879 Three Cent Nickel, MS67**  
Scarce as a Circulation Strike

- 3763** 1879 MS67 PCGS Secure. Ex: TDP Collection. The mintage for proofs was low with only 38,000 pieces struck, and high-grade survivors are predictably rare. This is a highly attractive business strike that displays moderate semiprooflikeness in the fields, but certainly not enough reflectivity to be confused with a proof coin. Light, even golden patina covers each side. Sharply defined throughout. Population: 10 in 67, 0 finer (5/16). NGC ID# 275Z, PCGS# 3747

**1885 Three Cent Nickel, Brilliant Gem**  
Cornerstone Date in the Series  
Only 1,000 Coins Struck

- 3764** 1885 MS65 PCGS Secure. Ex: TDP Collection. There was little, if any commercial demand for three cent nickels in the United States in 1885. Neil Carothers describes the circulation of minor coins after the passage of the Specie Redemption Act in *Fractional Money*:

"The 3 cent copper-nickel piece was still coined, but very few were in circulation. Given a choice through unrestricted redemption the public chose the silver dime, the copper-nickel 5 cent piece, and the bronze 1 cent piece as the only coins required in transactions involving less than 25 cents."

Only 1,000 three cent nickels were struck in 1885, making this the lowest-mintage circulation strike in the series. Few examples survive so well-preserved. This Gem is fully struck, lightly toned, and semiprooflike, but not easily mistaken for a proof. Each side shows the absolute minimum number of marks for the technical assessment. Population: 16 in 65 (1 in 65+), 15 finer (5/16). NGC ID# 275G, PCGS# 3753

**PROOF THREE CENT NICKEL**

**1872 Three Cent Nickel, PR66 Deep Cameo**  
Only One Other So Graded

- 3765** 1872 PR66 Deep Cameo PCGS. While proof 1872 three cent nickels are relatively easy to locate, it is virtually impossible to find Deep Cameo pieces in high grade. This example is untoned and shows stark white-on-black contrast on each side. The strike details are predictably strong in all areas of the design, and there are no obvious contact marks. Population: 2 in 66 Deep Cameo, 0 finer (5/16). NGC ID# 275T, PCGS# 93768

**PROOF SHIELD NICKELS**

**1866 Rays Shield Nickel, PR67 Cameo**

- 3766** 1866 Rays PR67 Cameo NGC. Amazingly well preserved with razor sharp definition and solid reflective qualities under an even layer of delicate rose-gray patina. Unlike the vast majority of these early nickel proofs, this Superb specimen boasts an almost perfect planchet and the field/device contrast is immediately noticeable. The proof mintage of this first year Shield nickel has been underestimated for over a century, the figure often listed of 200+ pieces is more likely double the actual number. Certainly, at this outstanding grade level the supply is extremely limited. Census: 10 in 67 Cameo (2 in 67★), 0 finer (6/16).

*From The Black Bay Collection.* NGC ID# 276G, PCGS# 83817

**1867 Shield Nickel, PR62  
Sought-After Rays Variant**

**3767 1867 Rays PR62 NGC. Dannreuther-3.** A small mintage of approximately 25 proof shield nickels with Rays on the reverse was struck in the early part of 1867, before the Rays were eliminated from the design later in the year. The elusive nature of this issue became obvious to numismatists at an early date and a few restrikes were produced to satisfy collector demand, but the 1867 Rays nickel remains the sought-after key to the proof series today.

The present coin is an impressive PR62 example with sharply detailed design elements and reflective fields under shades of greenish-gold, lavender, and blue toning. The surfaces are lightly marked and eye appeal is outstanding. Census: 1 in 62, 16 finer (6/16).  
*From The Black Bay Collection.* NGC ID# 276H, PCGS# 3818

**1869 Shield Nickel, PR67 Cameo  
Nicely Contrasted, Rare Thus**

**3768 1869 PR67 Cameo NGC.** With a proof mintage estimated between 850 and 1,100 pieces, finding an 1869 proof nickel is not much of a problem. It is a BIG problem to locate one in Superb Gem condition and with cameo contrast. Combining the certification from both of the major services, only three pieces have been so graded (1 at PCGS, 2 at NGC). This seemingly brilliant proof shows just the faintest trace of golden color when closely examined. Fully struck, contact-free surfaces.

*From The Black Bay Collection.* NGC ID# AMTZ, PCGS# 83823

**1871 Shield Nickel, PR67 ★ Cameo  
Unfathomable Deep Mirrors**

**3769 1871 PR67 ★ Cameo NGC.** Date pressure from the lack of business strikes (mintage: 561,000) makes the 1871 proof a popular choice for collectors. This is a definite, no-doubt proof striking, though; not a shallowly mirrored piece that could be substituted in a set of circulation strikes. The fields are bottomless mirrors that establish a "black" background for the thick mint frost that covers the design elements. At first glance it appears this is an all-white, untuned proof, but closer examination shows the surfaces have just a hint of pale golden color. Fully struck and devoid of any noticeable contact marks. Census: 7 in 67 Cameo (1 in 67★), 0 finer (6/16).  
*From The Black Bay Collection.* NGC ID# AMU3, PCGS# 83825

**1875 Shield Nickel, PR68 Cameo  
The Finest Known**

**3770 1875 PR68 Cameo NGC.** The mintage for proofs is not known exactly, but estimated between 1,000 and 1,250 pieces. The finish on proofs of this year is variable, some are shallowly mirrored, some deeply so. This is one of the latter. The fields show exceptionally deep mirroring with starkly contrasting frosted devices. Very subtle iridescence can be seen when closely examined. The surfaces are essentially perfect. Census: 1 in 68 Cameo, 0 finer (6/16).  
*From The Black Bay Collection.* NGC ID# 276S, PCGS# 83829

**LIBERTY NICKELS**

**1888 Liberty Nickel, MS66+  
Tied for Second-Finest Certified**

**3771 1888 MS66+ PCGS. CAC.** This frosty Premium Gem has brilliant light gray luster under delicate champagne toning. The strike is exceptional, showing full hair and star details on the obverse, and nearly every kernel of corn in both branches of the wreath. While a single finer example resides in a PCGS holder, this piece is tied for the second finest certified and will hold a place of honor in a Set Registry collection. Population: 26 in 66 (3 in 66+), 1 finer. CAC: 11 in 66, 0 finer (5/16). NGC ID# 2774, PCGS# 3849

**1912-S Nickel, MS66**  
None Certified Any Finer

- 3772 1912-S MS66 PCGS.** Premium Gem is as fine as it gets for the 1912-S nickels, an issue that is notorious for poor strikes and assorted planchet and striking issues traced to the hard nickel alloy. This example is above average in that regard, with sharp definition and attractive, rose-gold highlights across the nickel-blue, satin-smooth surfaces. Nevertheless, scattered small marks appear on the high points where the design is not fully brought up. On the reverse, the bowknot and left ear of coin show typical lack of detail. Neither PCGS nor NGC have certified a numerically finer example. Population: 38 in 66 (1 in 66+), 0 finer (5/16). NGC ID# 277R, PCGS# 3875

**BUFFALO NICKELS**

**1914-S Nickel, MS66**  
Exceptional Strike

- 3773 1914-S MS66 PCGS.** Although the early S-Mint Buffalo nickels are routinely sharper than those of the 1920s, this example is even finer than the typical 1914-S nickel. The Indian's braid is bold and the bison has exceptional detail. Both sides of this lovely Premium Gem exhibit brilliant satin luster with delicate champagne toning and hints of peripheral iridescence. Population: 35 in 66 (6 in 66+), 2 finer (5/16). NGC ID# 22R6, PCGS# 3926

**1918/7-D Nickel, Choice VF**  
Pewter-Gray Patina

- 3774 1918/7-D FS-101 VF35 PCGS.** The year 1918 produced a bumper crop of varieties in America's minor coinage. San Francisco issued an overdated quarter for this year, and Denver did likewise with the nickel. Subdued lavender-gold patina covers much of this moderately worn example of the latter. The strike is soft and uneven; the bison's outer tail, as well as LIBERTY and the horn, show significant weakness. Light marks are present on the devices, although the coin has a pleasing appearance and would make a great addition to a date set with varieties.  
Ex: Long Beach Signature (Heritage, 9/2006), lot 1019; Dallas Signature (Heritage, 11/2006), lot 373. NGC ID# 22RJ, PCGS# 38446 Base PCGS# 3939

**1923-S Buffalo Nickel, Lightly Toned MS65**  
Strike and Condition Rarity

- 3775 1923-S MS65 PCGS.** The 1923-S Buffalo nickel is a well-known key and conditional rarity within the series, seldom seen finer than the Gem grade of the present piece and often exhibiting a miserable strike. PCGS reports only three examples at the Premium Gem level and none finer, underlining the importance of this Gem example. The strike on this piece is actually fairly sharp, a bit stronger on the obverse than on the reverse. Light patina and good luster complement a paucity of ticks, the sole mentionable one a small hit on the Indian's jawline. Population: 52 in 65 (2 in 65+), 3 finer (5/16). NGC ID# 22RW, PCGS# 3950

**1925 Buffalo Nickel, MS67**  
None Finer at PCGS

- 3776 1925 MS67 PCGS.** A large mintage of more than 35 million Buffalo nickels was accomplished in 1925, but the dies were overused, resulting in many striking problems. This Superb Gem Buffalo nickel is sharply detailed in most areas, but a touch of the typical softness shows on the hair above the braid. The well-preserved surfaces radiate vibrant mint luster, with a few hints of golden-tan toning. Population: 18 in 67, 0 finer (5/16). NGC ID# 22S2, PCGS# 3954

**1925-S Buffalo Nickel, MS64+**  
Seldom Seen Any Finer

- 3777 1925-S MS64+ PCGS.** The 1925-S Buffalo nickel is usually seen with a weak strike and the issue is rare in grades above MS64. This Plus-graded Choice example displays just a touch of the usual softness on the Bison's fur and the hair above the braid. The lustrous surfaces are well-preserved, with a few hints of golden-tan toning. PCGS has graded 28 numerically finer examples (5/16). NGC ID# 22S4, PCGS# 3956

**1927-S Buffalo Nickel, MS65**  
Attractively Toned Key

- 3778 1927-S MS65 PCGS.** The 1927-S Buffalo nickel is a popular key issue and examples in MS65 condition are quite elusive. This attractive Gem exhibits sharply detailed design elements and vibrant mint luster, under shades of ice-blue and greenish-gold toning. Housed in a new 30th Anniversary green label holder. Population: 36 in 65 (3 in 65+), 1 finer (5/16). NGC ID# 22SA, PCGS# 3962

**1935 Nickel, MS67+**  
One Coin Finer at PCGS

- 3779 1935 MS67+ PCGS.** This late-date P-mint issue lays claim to one of the highest mintages in the Buffalo nickel series (58.2 million coins). That total does not speak to the rarity of MS67+ representatives, though. A ring of champagne-gold toning surrounds brilliant interiors that show powder-blue accents. This Superb Gem nickel is fully struck, and magnification yields only a couple of microscopic specks that are well-concealed. PCGS has seen a single coin finer (6/16). NGC ID# 22SN, PCGS# 3974

**PROOF BUFFALO NICKELS**

**1936 Nickel, Satin Finish PR68**  
Only One Coin Finer

- 3780 1936 Type One — Satin Finish PR68 PCGS. CAC.** The 1936 satin finish proof was the first Buffalo nickel struck in proof format since 1916. This remarkable, CAC-endorsed Superb Gem is beautifully preserved with primarily ice-blue and lavender toning, although brighter lemon-yellow appears around the peripheries. Eye appeal is outstanding. Population: 40 in 68, 1 finer. CAC: 14 in 68, 0 finer (5/16). NGC ID# 278X, PCGS# 3994

**1937 Buffalo Nickel, PR68**  
Only One Finer Coin at PCGS

- 3781 1937 PR68 PCGS.** The fact that a solitary 1937 proof Buffalo nickel is certified in a finer grade makes one wonder what that coin must be like, given the seemingly unsurpassable quality of the present example. A whisper of high-point gold warms the icy silver radiance, and the fields display smooth reflectivity to counterbalance the deeply impressed motifs that are fully detailed to virtually the last hair strand. Population: 30 in 68, 1 finer (5/16). NGC ID# 278Z, PCGS# 3996

**JEFFERSON NICKELS**

**1942 Copper-Nickel Jefferson, MS67**  
Registry-Grade Full Steps Example

- 3782 1942 Type One MS67 Full Steps PCGS.** 30th Anniversary Green Label Holder. The year 1942 was transitional for the Jefferson nickel, as the Mint stopped striking the denomination in the traditional copper-nickel alloy and began producing planchets with silver in them to conserve copper and nickel for the war effort. In Superb Gem Full Steps, the earlier copper-nickel 1942 issue is far scarcer than its silver war alloy counterpart. This boldly struck example ranks among the finest certified at PCGS and is a full grade point finer than the best Full Steps example at NGC (6/16). The strike is bold, and the unabraded surfaces yield iridescent luster. Eye appeal is outstanding. Population: 6 in 67 Full Steps, 0 finer (5/16). NGC ID# 22TK, PCGS# 84013

1942-D Over Horizontal D Nickel, FS-501  
MS63 Full Steps

- 3783** 1942-D D Over Horizontal D, FS-501, MS63 Full Steps PCGS. The D Mintmark was initially rotated a quarter turn, with the upright of the letter facing the top of the reverse. The mistake was immediately recognized, and the D was entered on top of the first punch with its correct orientation. This is one of many die errors in virtually every series that are collectively known as “blundered dies.” Microscopic surface chatter prevents a higher grade to this lovely piece. The strike is sharp with brilliant gray luster beneath light gold toning. Population: 4 in 63 Full Steps, 10 finer (5/16). NGC ID# 22TL, PCGS# 38496 Base PCGS# 84015

1952-S Jefferson Nickel, MS66  
Rare Full Steps Example

- 3784** 1952-S MS66 Full Steps PCGS. A delightful Premium Gem Jefferson nickel, with sharply detailed design elements, including Full Steps definition on Monticello. The impeccably preserved surfaces radiate vibrant mint luster, with highlights of pale gold and lavender-gray toning. Population: 11 in 66 (2 in 66+) Full Steps, 0 finer (5/16). NGC ID# 22UM, PCGS# 84048

PROOF JEFFERSON NICKELS

1939 Jefferson Nickel, PR68  
Reverse of 1938, None Finer at PCGS

- 3785** 1939 Reverse of 1938 PR68 PCGS. CAC. From a proof mintage of 12,535 pieces, the “wavy” steps on Monticello identify the Reverse of 1938. This delightful PR68 example displays razor-sharp definition on the design elements and the fields are brightly reflective, with just the faintest hint of pale gold toning. Impeccably preserved, with incredible eye appeal, this coin is a prime candidate for the finest Registry Set. Population: 10 in 68, 0 finer. CAC: 2 in 68, 0 finer (5/16). *From The Corso Collection.* NGC ID# 279X, PCGS# 4176

1939 Jefferson Nickel, PR68  
Scarce Reverse of 1940

- 3786** 1939 Reverse of 1940, FS-901, PR68 PCGS. CAC. Only a slender percentage of proof 1939 nickels exhibit the “Straight Steps” reverse that was employed for most subsequent dates in the series. PCGS lists four Cameo examples, the finest of which are graded PR67. But Superb Gems, Cameo or not, are highly sought-after.

The present essentially immaculate, CAC-approved representative is the sole finest certified, the only coin in PR68 at either leading service (5/16). Beautifully patinated lime-green, ruby-red, and lemon-gold surfaces yield deep reflectivity in the fields and rich, satiny luster over the fully rendered relief elements. For the Jefferson nickel Registry Set collector, this is a key-date issue.

*From The Corso Collection.* NGC ID# 2TR4, PCGS# 38534 Base PCGS# 94176

**1940 Jefferson Nickel, PR68**  
**Long-Established Condition Rarity**

**3787 1940 PR68 PCGS.** Ex: Tom Mershon Collection. Though the Reverse of 1938 pieces command most of the attention for this early proof Jefferson nickel issue, the Reverse of 1940 proofs present their own challenges, particularly in the Superb Gem grades; for non-Cameo coins, NGC has graded five pieces above PR67 and PCGS has certified just three, one of which is the present coin (5/16). This is not many more top-grade coins than were known a decade ago.

The virtually flawless fields of this piece offer impressive reflectivity, and the devices exhibit razor-sharp detail, particularly on the crisp, straight steps. Generally nickel-white centers show golden overtones at the obverse margins along with more subtle iridescent hues, while the reverse displays a more rainbow pattern with the addition of yellow and cyan. An important specimen for the Registry enthusiast.

Ex: Long Beach Signature (Heritage, 9/2008), lot 863.

From The Corso Collection. NGC ID# 279Z, PCGS# 4177

**1942 Type One Jefferson Nickel, PR68**  
**None Finer at PCGS**

**3788 1942 Type One PR68 PCGS.** CAC. Dusky golden-brown and rose hues invigorate the margins, while the centers are bathed in powder-blue and mauve iridescence. The strike is needle-sharp aside from the center of the lowest step of Monticello. A seemingly pristine example, struck in the regular nickel composition. Population: 18 in 68, 0 finer. CAC: 11 in 68, 0 finer (5/16).  
 Ex: Long Beach Signature (Heritage, 9/2003), lot 6298.

From The Corso Collection. NGC ID# 27A3, PCGS# 4179

**1942-P Type Two Jefferson Nickel, PR68**  
**Only One Finer Coin at PCGS**

**3789 1942-P Type Two PR68 PCGS.** A magnificent PR68 Jefferson nickel, struck in the wartime silver composition, with the large P mintmark above Monticello. This delightful specimen is sharply detailed throughout, with reflective fields and impeccably preserved surfaces. A few hints of champagne-gold toning add to the incredible eye appeal. Population: 13 in 68, 1 finer (5/16).  
 Ex: Baltimore Signature (Heritage, 7/2003), lot 6395.

From The Corso Collection. NGC ID# 27A4, PCGS# 4180

**EARLY HALF DIMES**

**1795 V-4, LM-10 Half Dime, MS61**  
**Early Die State**

**3790 1795 V-4, LM-10, R.3, MS61 NGC.** This early die state lacks the late state cud over RTY of LIBERTY. A pleasing Mint State piece, the surfaces exhibit satin mint luster beneath rich blue, violet, and gold toning. Both sides exhibit scattered marks and insignificant adjustment marks appear along the reverse border. NGC ID# 22ZV, PCGS# 38594 Base PCGS# 4251

---

1795 V-4, LM-10 Half Dime, MS65  
Lustrous, Late Die State Example

**3791** 1795 V-4, LM-10, R.3, MS65 PCGS. CAC. Late obverse die state, showing a considerable retained cud at the rim above TY and star 9 to the right. On the LM-10 variety, star 1 is joined to a tip of curl 2 on the obverse, and star 15 solidly connects with the front of the bust. The digit 1 touches curl 1, and the flag of the 5 connects to the underside of the bust. T and Y are close at the top. Stars 1 and 2 in particular, but most of the other left-side stars as well, show evidence of die lapping — the dies clashed early on this marriage and were subsequently lapped — and are markedly weaker than the right-side stars. The single outside berry between UN in UNITED is sufficient to attribute the reverse. The reverse die is rotated clockwise about 90 degrees with respect to the obverse die.

Splendid luster and surfaces that are problem-free are the calling cards of this Gem Flowing Hair half dime, one of the more available die marriages from the two-year type (along with 1794) but quite a conditional rarity in so fine a grade. Glints of gold, aqua, and jade are more prominent at the rims on each side, with coin-gray centers and a bold strike throughout. Bold clash marks are more prominent on the reverse, along with a couple of large die cracks on the left side of the wreath.

The relative availability of the LM-10 die marriage will make this piece a logical, key acquisition for type collectors. For the 1795 date, PCGS reports 11 examples in MS65, one in MS65+, and 14 submissions (but likely fewer separate coins) finer (5/16). This piece is one of only five in MS65 with the CAC green approval sticker. The aesthetics as well as the technicals should make the bidder cards fly high when this lot is called. NGC ID# 22ZV, PCGS# 38594 Base PCGS# 4251

---

1797 15 Stars Half Dime, V-2, LM-1, MS64+  
The Eliasberg / Gardner Example  
Choice, High-End Quality

**3792 1797 15 Stars, V-2, LM-1, R.3, MS64+ PCGS. CAC.** The 1797 15 Stars obverse die was prepared for 1797's coinage before Tennessee joined the Union as the 16th state on June 1, 1796. The half dimes of this year are classed as 13 Stars, 15 Stars, and 16 Stars. Although this piece, formerly in the Eliasberg Collection, is probably fifth in the Condition Census, with a pedigree well over a century long and incredible eye appeal, it is a coin that certainly carries its own credentials.

This Choice piece with the PCGS Plus designation is a coin of amazing quality. The Logan-McCloskey reference mentions the coin as a notable specimen coming out of the Eliasberg sale, where it was graded MS65. The Eliasberg catalog devoted two-thirds of a page to the coin, describing it as:

"Incredible Gem 1797 15 Stars. Finest Seen. The obverse and reverse are weak at the centers with strong peripheral detail. Intense frosty light silver luster with mottled pink and green iridescence. A few very minor abrasions are noted with the aid of magnification. To summarize: Wow!"

Even though the 1797 15 Stars half dimes are the most available variety of the year, they are rare and arguably undervalued. PCGS shows five coins (including this piece) in MS64 with two finer, one each in MS66 and MS67.

The present piece is the sole Plus-graded MS64 example at PCGS. The finest pieces at NGC are two submissions in MS66. Population: 1 in 64+, 2 finer (5/16).

Ex: Richard B. Winsor Collection; Chapman Brothers (12/1895); J.M. Clapp; Clapp Estate; Louis E. Eliasberg, Sr.; Eliasberg Collection (Bowers and Merena, 5/1996), lot 897; The Eugene H. Gardner Collection, Part I (Heritage, 6/2014 as MS64 PCGS CAC, without the Plus assignment); lot 30177. NGC ID# 22ZZ, PCGS# 38597 Base PCGS# 4258

**1800, Draped Bust Half Dime, VF35  
Popular V-1, LM-1 Variety**

- 3793** 1800 V-1, LM-1, R.3, VF35 PCGS. CAC. The 1800 Draped Bust half dime claims a mintage of 40,000 pieces, with four die varieties known for the date. This attractive Choice VF specimen represents the V-1, LM-1 variety, with the large 8 in the date configured from two small "o" punches. The left side of the drapery shows some wear, but much interior detail remains intact in the hair. The lightly abraded surfaces are blanketed in pleasing shades of bluish-gray toning. NGC ID# 2326, PCGS# 38601 Base PCGS# 4264

**BUST HALF DIME**

**1835 Half Dime, Unsurpassed MS66+  
V-4, LM-7, Large Date, Large 5C**

- 3794** 1835 Large Date, Large 5C, V-4, LM-7, R.3, MS66+ PCGS. CAC. The 5 in the flag of the date has a stubby little top, while the 5 in 5C on the reverse has a long, slightly curved flag and that numeral is only slightly under the fletchings. This piece is close to a full strike, save for the top of the left (facing) wing just left of the shield and the highest hair points on Liberty's tresses. Glorious aqua and pink patina and absence of relevant contact put this piece in the top drawer for eye appeal and quality. The sole Plus-graded coin by PCGS at the Premium Gem level, with none finer. Population: 25 in 66 (1 in 66+), 0 finer. CAC: 8 in 66, 1 finer (5/16). PCGS# 38711 Base PCGS# 4282

**SEATED HALF DIMES**

**1840-O Drapery Half Dime, MS61  
Small O, Open Buds**

- 3795** 1840-O Drapery MS61 PCGS. Small O. An early New Orleans Uncirculated dime. The pearl-gray surfaces are satiny and free from any mentionable marks. The dentils are lightly brought up but the devices are well detailed. The field is deeply clashed near HALF DIME, and a radial crack passes through the M in AMERICA. Rare in the present quality. Population: 1 in 61, 3 finer (5/16). NGC ID# 232X, PCGS# 4327

**1853-O With Arrows Half Dime, MS66  
Only Two Examples Finer**

- 3796** 1853-O Arrows MS66 PCGS. CAC. V-3. Adding arrows at the date presented a struggle for the Mint, and the placement and size variations employed from 1853 to 1855 reflect the challenge. The arrowheads are high on this variety, with the left arrow running into the base. A panoply of speckled toning bathes the obverse of this richly toned Premium Gem. Tan, brown, and navy grace both the fields and devices. The upper portion of the reverse is brilliant, with occasional shades of olive, while the remainder exhibits hues of indigo and charcoal. The reverse exhibits a few clash marks within DIME, but this Condition Census example is largely free of die defects often seen in the Seated half dime series. The CAC approval confirms the aesthetic appeal. Population: 4 in 66, 2 finer. CAC: 4 in 66, 2 finer (5/16). NGC ID# 233Z, PCGS# 4357

**1854-O Arrows Half Dime, MS66+  
Conditionally Rare, Attractively Toned**

- 3797** 1854-O Arrows MS66+ NGC. In stark contrast to its Philadelphia counterpart, the 1854-O Arrows half dime is scarce in Mint State and rare above the Gem level. This Plus-graded Premium Gem boasts frosty luster and sharp interiors with mild weakness around the border dentils. Each side shows lavender-gray, gold, sea-green, and amber toning, with the deeper colors most prominently exhibited on the reverse. Census: 4 in 66 (1 in 66+), 3 finer (5/16). NGC ID# 2343, PCGS# 4359

**1860 'Transitional' Half Dime, MS66  
Judd-267, Remarkably Toned**

- 3798** 1860 Transitional MS66 PCGS. CAC. Judd-267, Pollock-315, R.4. This is the well-known "coin without a country" half dime, also known as a "transitional" variety, although it was a rarity created for the coin trade by Mint Director Snowden. On the regular issue 1860, the legend UNITED STATES OF AMERICA was moved from the reverse to the obverse. Judd-267 pairs the former obverse and new reverse, omitting the country name. The fields display heavy die striations and, of course, the diagnostic die scratch is present from the back of the rock to the nearby dentils. Weakly defined, as usually seen, each side shows attractive light pastel iridescence. NGC ID# 2346, PCGS# 4373

## EARLY DIME

### 1796 JR-6 Dime, XF Details First Year of Denomination

- 3799** 1796 JR-6, R.3 — Repaired — PCGS Genuine. XF Details. The reverse field is smoothed near the eagle, and the eagle's plumage is re-engraved. Otherwise, a well defined silver-gray example from the first year of the dime denomination. A relatively late die state with several prominent obverse die cracks. The central obverse retains traces of adjustment marks, as made.

## BUST DIME

### 1825 JR-1 Dime, MS64+ Smooth, Lustrous, Lightly Toned

- 3800** 1825 JR-1, R.4, MS64+ PCGS. CAC. Star 2 is repunched, as is the A in STATES. Light chestnut-gold toning adorns this lustrous and splendidly preserved near-Gem. The field is multiply clashed near the profile, but marks are negligible. A few stars and the eagle's neck are incompletely brought up, but a majority of the design is bold. NGC ID# 2374, PCGS# 38807 Base PCGS# 4503

## SEATED DIMES

### 1846 Seated Dime, AU53 Rare This Sharp

- 3801** 1846 F-101, R.4, AU53 PCGS. With a small 31,300-coin mintage, the 1846 stands out as a key issue among 1840s Seated dimes. This issue experienced heavy circulation, and most survivors are located in VF or lower grades. This AU representative is conditionally rare, and only three low-end Mint State pieces are certified. This representative is well-detailed with steel-gray patina that shows occasional olive overtones; an evenly struck example with little wear. Population: 4 in 53, 8 finer (5/16). PCGS# 537837 Base PCGS# 4588

### 1869-S Dime, MS66+ Extremely Rare Finer

- 3802** 1869-S F-101, R.3, MS66+ NGC. Fortin-101, with a partial first S in STATES and a Small Thin S mintmark. Medium tan-gold and chestnut toning graces this satiny and sharply struck Gem. Beautifully preserved despite minor contact between AM in AMERICA. Difficult to find in such exemplary condition. A generous mintage of 450,000 coins accounts for frequent descriptions of the 1869-S as being "easy" to locate. However, proclamations of the sort can be misleading, as even Gene Gardner had trouble procuring an example that met his strict criteria. The issue is rated R.5 in Mint State.

At the time of the Gardner IV Auction last year, Gene commented: "The first S is STATES is awkwardly connected with its upper tip, confirming the variety. This issue is supposedly the easiest to locate of the San Francisco dates from the 1860s, yet finding a coin in top-notch Gem condition certainly proved challenging."

Ex: FUN Signature (Heritage, 1/2007), lot 2580; Eugene H. Gardner, Part IV (Heritage, 10/2015), lot 98271. NGC ID# 239Z, PCGS# 538246 Base PCGS# 4650

### 1872-CC Dime, Choice VF Elusive in All Grades

- 3803** 1872-CC F-101, Low R.4, VF35 PCGS. The 1872-CC is an importance key date in the Seated dime series, coming from a mintage of 35,480 pieces. Examples are scarce in all grades and only a single Mint State coin is known. Circulated pieces are concentrated in VF and lower grades and are rarely seen finer. This Choice VF example boasts well-defined motifs and deep olive-gray and russet toning. An outstanding example of this scarce Carson City issue. Population: 13 in 35, 21 finer (5/16). PCGS# 538286 Base PCGS# 4657

**1872-S Dime, Smooth MS65**  
**One of Three Finest Certified**  
**Rare in All Grades, Ex: Eliasberg, Gardner**

- 3804 1872-S F-101, R.3, MS65 PCGS. CAC.** Ex: Eliasberg. This is a rare issue in Mint State. It is likely that most of the 190,000 pieces produced saw extensive circulation on the frontier, although some examples may have been melted in the aftermath of the Mint Act of February 12, 1873. The Eliasberg coin is, in the words of its former owner Gene Gardner, "A real numismatic treasure." In the Eliasberg catalog it was believed to be the finest known, although it is now tied at the top of the Condition Census with the Simpson coin and another piece at NGC (5/16), all of which have been approved by CAC. Nicely frosted throughout, the surfaces are dusted in lilac-gray iridescence. The slight unevenness of strike over the reverse wreath is characteristic of many 1872-S dimes. The surfaces are uncommonly smooth for the issue and the designated grade. Housed in a green label holder.  
 Ex: Louis E. Eliasberg, Sr. Collection (*Bowers and Merena*, 5/1996), lot 1196; Long Beach Signature (*Heritage*, 10/2001), lot 5986; Eugene H. Gardner Collection, Part III (*Heritage*, 5/2015), lot 98246. PCGS# 538287 Base PCGS# 4658

**1873-CC Arrows Dime, Fine 15**  
**Scarce, Low-Mintage Carson City Issue**

- 3805 1873-CC Arrows Fine 15 PCGS.** Among the rarest Seated dime issues, few if any among the 18,791 pieces struck were set aside by contemporary numismatists. Moreover, many surviving examples appear to have been cleaned, scratched, corroded, or repaired. This specimen is richly toned in smoky-gray patina. A few spots are distributed over the reverse. A highly desirable example. Population: 11 in 15, 30 finer (5/16).  
 Ex: Denver Signature (*Heritage*, 8/2006), lot 879. NGC ID# 23BH, PCGS# 4666

**1885-S Dime, Toned AU55**  
**Low-Mintage Issue**

- 3806 1885-S F-101, R.3, AU55 PCGS.** With a mintage of only 43,690 pieces, the 1885-S is a standout key date in the Seated Liberty dime series. Uncirculated survivors are rare in any grade. This Choice AU coin is a more affordable option for the budget-conscious collector. Each side boasts virtually complete detail with amber-gold and gray toning. A few trivial marks accompany the grade. Population: 6 in 55, 14 finer (5/16). PCGS# 538701 Base PCGS# 4695

**1887 Dime, MS68 ★**  
**Tied for Finest Certified**

- 3807 1887 MS68 ★ NGC.** The 1887 Seated Liberty dime is an available date in most grades, with a reported mintage of more than 11 million coins. Of course, examples in MS68 with the Star designation are extremely rare. The present coin is delightfully toned in shades of gold and violet, with most of the color on the obverse. All the design details are sharply impressed. Census: 2 in 68 (2 in 68★), 0 finer (5/16).  
 Ex: Long Beach Signature (*Heritage*, 9/2008), lot 1680; Central States Signature (*Heritage*, 4-5/2009), lot 155; Long Beach Signature (*Heritage*, 9/2010), lot 3711. NGC ID# 23B5, PCGS# 4698

## PROOF SEATED DIMES

### 1873 Open 3, Arrows Dime, Toned PR66

- 3808** 1873 Arrows, F-102, R.4, PR66 NGC. Tiny die lumps on Liberty's leg, east of the shield corner, attribute the Fortin-102 die pair. The marriage coined both proofs and circulation strikes. This well struck specimen reveals exquisite rose-red, sea-green, and straw-gold toning when it is rotated beneath a light. The reverse patina is particularly attractive. Census: 0 in 66, 0 finer (6/16). NGC ID# 23DH, PCGS# 539033 Base PCGS# 4769

### 1873 Arrows Dime, PR67 ★ Unparalleled Eye Appeal

- 3809** 1873 Arrows, F-102, R.4, PR67 ★ NGC. The Mint struck 500 proof dimes with the Arrows design in 1873, which was implemented to reflect a minuscule increase in silver weight. Collectors would be hard-pressed to locate an example of this two-year type with more eye appeal. A band of multicolor rainbow toning hugs the obverse borders and the lower reverse, while the remaining surfaces retain their brilliance. The strike is good and contact marks are nonexistent. Census: 4 in 67 (1 in 67+, 2 in 67 ★), 0 finer (3/16). Ex: Jason Carter to Gene Gardner (5/2012); Eugene H. Gardner Collection, Part III (Heritage, 5/2015), lot 98279. NGC ID# 23DH, PCGS# 539033 Base PCGS# 4769

## BARBER DIMES

### 1904-S Dime, Condition Census MS66+

- 3810** 1904-S MS66+ PCGS Secure. CAC. Ex: Simpson. Few collectors sought out the San Francisco dimes at the time this coin was issued, and surviving examples today are seldom encountered. The 1904-S is considered one of the key issues of the series. There were 13 Barber dime issues with mintages less than 1 million coins, not including the 1894-S. The 1904-S is one of those with a production of only 800,000 pieces. This issue ranks sixth out of those 13 for the lowest Mint State PCGS population. This impressive Premium Gem exhibits a bold strike and satin luster beneath gorgeous gold and iridescent luster. Population: 8 in 66 (2 in 66+), 1 finer. CAC: 4 in 66, 1 finer (5/16). NGC ID# 23ES, PCGS# 4834

### 1906-S Barber Dime, MS67 Tied for Finest at PCGS

- 3811** 1906-S MS67 PCGS. While most 1906-S dimes entered the channels of commerce shortly after striking, the issue is one of the more available of San Francisco coins in Mint condition, at least through near-Gem. The 1906-S is an important condition rarity in MS67, however. PCGS and NGC report only five specimens in this grade and none finer.

Whispers of russet patina visit the highly lustrous surfaces of the present coin, accented with hints of soft bluish-gray. The design elements are sharply impressed and both sides have been nicely preserved. These attributes combine to yield pleasing overall eye appeal. Population: 3 in 67, 0 finer (5/16).

Ex: Lily Nicole Collection (Heritage, 1/2016), lot 3803. NGC ID# 23F2, PCGS# 4841

## MERCURY DIMES

### 1916-D Mercury Dime, AU53 Partial Golden Toning

- 3812 1916-D AU53 PCGS.** Silver-gray surfaces reveal olive and gold accents over generous portions of mint luster. Plenty of sharp strike definition also exists, an exception being flatness in Liberty's hair and the lower left wing of the cap. A moderate abrasion occurs on the cheek, and a less noticeable mark is to be found on the upper part of the fasces. An AU example of one of the most coveted of all 20th century silver issues, and the undisputed key to the Mercury dime series.

Ex: *New York Signature* (Heritage, 7/2004), lot 5848. NGC ID# 23GY, PCGS# 4906

### 1924-S Dime, MS65 Full Bands S-Mint Strike Rarity

- 3813 1924-S MS65 Full Bands NGC.** The 1924-S provides the greatest challenge in Gem condition among dimes struck at the three mints. Additionally, the issue about 10 times rarer with Full Bands than without. A soft champagne hue lightly tints this otherwise brilliant Gem Mercury dime. The devices show a bold impression, including fully rounded central bands, and the fields are clearly well-preserved. Destined for a high-end Mercury dime set. Census: 5 in 65 Full Bands, 1 finer (5/16). NGC ID# 23HL, PCGS# 4947

### 1925-D Dime, MS66 Full Bands Extremely Rare in Higher Grades

- 3814 1925-D MS66 Full Bands PCGS.** The central obverse and peripheral reverse typically show poor detail, but this satiny 1925-D dime is well-defined throughout with Full Bands. Each side is primarily untuned with daubs of crimson patina around the margins. A sizeable die cracks runs across the bust truncation. Struck from slightly rotated dies. Population: 27 in 66 (1 in 66+) Full Bands, 4 finer (5/16). NGC ID# 23HN, PCGS# 4951

## EARLY QUARTERS

### 1804 B-1 Quarter, Fine 12 Collectible Problem-Free Example

- 3815 1804 B-1, R.3, Fine 12 NGC. CAC.** Tompkins Die State 1/1. The desirability of and sustained demand for the 1804 owes much to the legendary dollars bearing that date. However, only 6,738 quarters were struck in that year. Most coins entered into circulation and survive to a lesser extent than the first-year 1796 pieces. This well-worn example has steel-gray patina with lighter-toned areas over the high points and occasional glimpses of gold and lavender hues. The overall impression still shows good detail. NGC ID# 379C, PCGS# 38921 Base PCGS# 5312

---

1805 Draped Bust Quarter, MS64+  
Popular B-2 Variety, Ex: Gardner  
Only One Finer Coin at PCGS

**3816 1805 B-2, R.2, MS64+ PCGS. CAC.** According to Mint records, 121,394 Draped Bust quarters were struck in 1805, with five die varieties known for the date. On this coin, the 5 in the date touches the bust and the topmost curl is under E in LIBERTY, while the reverse shows a gap in the dentils above E2 and a die line joins the stem to C2, identifying the popular B-2 variety. Heavy die clashing shows on the reverse, as always seen in this die pairing, and the right side of the R in LIBERTY is weak. Splendid cobalt-blue and mint-green rim patina encircles interiors tinged in heather and rose. The strike is fairly soft through the centers of each side, particularly on the reverse where some of the shield lines are incompletely struck up. There are no mentionable planchet adjustment marks or singular abrasions on either side. Eye appeal is simply terrific.

The B-2 variety was recognized by Captain John W. Haseltine when he compiled the Haseltine Type Table, the first attempt to systematically list the die varieties of early quarters, half dollars, and silver dollars, in October of 1881 (it seems that numismatist John Colvin Randall did much of the research on this project). The B-2 designation corresponds to Haseltine's H-1, but recent analysis of die evidence indicates that the B-2 was actually the second variety in the emission sequence. The appeal of the B-2 variety goes far beyond series specialists, as the B-2 and B-3 die pairings of 1805 quarters are among the most available of the Draped Bust, Heraldic Eagle motif, struck only from 1804 through 1807. The B-1, B-2, B-3, and B-9 of 1806 are similarly available, making those combinations the most desirable for legions of type collectors. This coin should find a home in the finest collection or Registry Set. Population (for all varieties): 2 in 64+, 1 finer (5/16).

Ex: Museum of Connecticut History (*Stack's*, 3/1998), lot 413, Eugene Gardner; Gardner Collection, Part III (*Heritage*, 5/2015), lot 98318, realized \$70,500.. NGC ID# 23RC, PCGS# 38924 Base PCGS# 5313

## BUST QUARTERS

### 1819 B-2 Quarter Dollar, MS64 Browning Plate Coin Tied for Second-Finest Known

- 3817** 1819 Large 9, B-2, R.3, MS64 NGC. Ex: "Col." E.H.R. Green. Coinage production at the Mint in 1819 consisted of cents, quarters, half dollars, and half eagles. Cents and half dollars were the "workhorse" denominations, while quarters and half eagles were minted in much smaller quantities. The mintage of 1819 quarters was less than half that of 1818, and fewer than half the number of die varieties are known for 1819. However, the average number of coins produced per die marriage was nearly identical: 36,117 in 1818, and 36,000 in 1819.

The Eric P. Newman specimen was struck from a late die state with numerous obverse die cracks. This example is plated in the Browning reference and it is tied for the second finest known B-2 quarter. Variegated toning includes medium silver-gray, blue, and gold on the obverse with light gray-gold toning and splashes of peripheral blue on the reverse. Census for this variety: 1 in 64, 0 finer (5/16).

Ex: "Colonel" E.H.R. Green; Green Estate; Partnership of Eric P. Newman / B.G. Johnson d.b.a. St. Louis Stamp & Coin Co.; Eric P. Newman @ \$10.00; Eric P. Newman Numismatic Education Society; Eric P. Newman Signature Part II (Heritage, 11/2013), lot 33337. NGC ID# 23RK, PCGS# 38957 Base PCGS# 5326

### 1832 B-2 Quarter, MS64 Richly Toned

- 3818** 1832 B-2, R.2, MS64 NGC. Intermingled rose, silver, gold, blue, and medium-gray show on both sides of this highly lustrous near-Gem, the blue predominating more on the reverse. Each side is sharply struck and nicely preserved. Minor strike weakness occurs on the lower reverse, on the branch and eagle's claws. A beautiful coin with rich luster and powerful eye appeal. Even though this is a supposedly "available" variety, collectors will have a difficult time finding a higher-grade example than this exceptional piece — or a nicer-looking one, for that matter. NGC ID# 23RX, PCGS# 38988 Base PCGS# 5351

## SEATED QUARTERS

### 1843 Quarter, Elusive MS65 One Certified Finer, Ex: Gardner

- 3819** 1843 MS65 PCGS. Briggs 1-B. The 1843 Seated quarter, struck to the extent of 645,000 coins, is available in lower grades but seldom seen in Mint State and extremely elusive in Gem condition. Certified in an old green-label holder, this Gem PCGS example shows mostly rose and bluish patina with glints of iridescent color near the rims on each side. Frosty luster complements a paucity of mentionable marks. One of two graded at this level by PCGS with none finer; NGC shows three MS65 with one MS66 finer (5/16). Ex: Doug Noblet Collection (Bowers and Merena, 8/2001), lot 131; Eugene H. Gardner Collection, Part III (Heritage, 5/2015), lot 98333. NGC ID# 4B6W, PCGS# 5404

**1844 Quarter, Sharp MS64+  
Conditionally Rare**

- 3820 1844 MS64+ PCGS. CAC. Briggs 1-A.** Although the 1844 is among the more plentiful pre-Arrows and Rays Seated quarter issues in high grade, it is still rare in Choice or finer condition. This Plus-designated piece displays a razor-sharp strike and satiny luster. Both sides have a dusting of lavender-blue and champagne color, with the obverse showing additional, mottled olive patina. Eye appeal is quite pleasing. Population: 9 in 64 (2 in 64+), 2 finer. CAC: 4 in 64, 2 finer (5/16). NGC ID# 23ST, PCGS# 5406

**1857-O Quarter, Rarely Seen MS64  
Errant Top of 8 in Denticles**

- 3821 1857-O Mispunched Date, FS-301, FS-006.2 MS64 PCGS.** The Briggs 3-B variety can be determined by the placement of the mintmark and the presence of a faint die crack at the bases of the 1 and 8 in the date. Attrition all but eliminated the 1857-O quarter, leaving very few for collectors today. As usual, the strike is irregularly brought up. The surfaces are bright and satiny with irregular patches of reddish and blue patina around the margins. A bright untuned streak is distinctive and seen at 2 o'clock from the rim inward. Population for all 1857-O quarters: 7 in 64, 1 finer (5/16). PCGS# 395936 Base PCGS# 5443

**1872-S Quarter, Fine 15  
Scarce San Francisco Issue**

- 3822 1872-S Fine 15 PCGS. CAC. Briggs 1-A.** A scarce issue in all grades, boasting a mintage of only 83,000 coins. Uncirculated examples of the 1872-S quarter are exceedingly rare. This mid-level circulated coin displays original olive-gray patina that deepens toward the borders, leaving the devices with grade-consistent detail. The surfaces are generally smooth, with a few trivial scratches along the lower-left border being the only mentionable flaws. Population: 5 in 15, 26 finer. CAC: 3 in 15, 3 finer (5/16). NGC ID# 23UT, PCGS# 5483

**1881 Quarter, MS67  
Magnificent Low-Mintage Example**

- 3823 1881 MS67 NGC. CAC. Briggs 1-A.** This Superb Gem is richly toned over thickly frosted surfaces. Antique-copper color gives way to golden-olive undertones on the obverse, while the reverse exhibits electric-blue and lilac peripheral shadings around a swath of central apricot-tan patina. Both sides are typically struck and devoid of any noticeable impairments. Two key factors account for the 1881 being one of the lowest-mintage dates in the series with a production of only 12,000 coins. At the time, resources (i.e. silver bullion and manpower) were directed toward the production of Morgan dollars. Moreover, the face value of quarters exceeded the coins' intrinsic value as the price of silver fell, making it profitable for foreign banks and holders of U.S. silver coins to turn them in to the Treasury Department. As Treasury holdings ballooned, demand (and therefore mintages) declined. Census: 11 in 67 (2 in 67★), 1 finer. CAC: 4 in 67, 1 finer (5/16). Ex: Long Beach Signature (Heritage, 9/2002), lot 6504. NGC ID# 23VD, PCGS# 5513

**PROOF SEATED QUARTERS**

**1862 Quarter, PR66  
Tied for Finest, Ex: Gardner**

- 3824 1862 PR66 PCGS.** Breen (1988) writes that 550 proofs were struck for sets. Somewhat more than 430 pieces were sold, and the rest melted. A medley of cobalt-blue, lavender, violet, and gold-brown patination adorns the obverse of this Premium Gem proof, while soft sky-blue fields accent violet hues over the central reverse. Razor-sharp design detail and impeccable preservation round out the delightful eye appeal. Certified in a green-label holder. Population: 6 in 66, 0 finer (6/16). Ex: Larry Whitlow to Gene Gardner (5/2008); Eugene H. Gardner Collection, Part III (Heritage, 5/2015), lot 98382. NGC ID# 23WP, PCGS# 5558

1863 Quarter, PR66  
Only Two Examples Rated Finer at PCGS

- 3825** 1863 PR66 PCGS. CAC. Briggs 4-D. The date is high and slopes upward, while the verticals and QUAR. are lightly doubled on the reverse. Only 460 pieces were struck, and this Premium Gem is among the finest surviving 1863 proofs. The surfaces display rich violet toning with blue, sea-green, and lavender accents on both sides. The marvelous coloration provides this sharp, deeply mirrored Premium Gem proof wonderful visual appeal to match its outstanding technical quality. Population: 11 in 66 (2 in 66+), 0 finer. CAC: 4 in 66, 0 finer (6/16).  
Ex: *Pinnacle Rarities* (9/2000); *Eugene H. Gardner Collection, Part IV* (*Heritage*, 10/2015), lot 98511. NGC ID# 23WR, PCGS# 5559

1886 Quarter, PR67 Deep Cameo  
Outstanding Contrast, Nearly Flawless Surfaces

- 3826** 1886 PR67 Deep Cameo PCGS. The 1886 is one of the scarcest of the low-mintage series of quarters from the 1880s. Only 5,000 circulation strikes were minted, along with 886 proofs. The scarcity of top-drawer business strikes puts considerable date pressure on the few remaining high-grade proof specimens. The frosty devices of this deeply mirrored Superb Gem seem suspended over the watery fields, yielding maximum contrast. Impeccably preserved surfaces accompany sharply struck design elements for seemingly unimprovable surfaces. Population: 7 in 67 Deep Cameo, 1 finer (6/16). NGC ID# 23XJ, PCGS# 95587

## BARBER QUARTERS

1894-S Quarter, Toned MS66

- 3827** 1894-S MS66 PCGS. Splashes of purple-amber, gold, and teal appear on each side of this Premium Gem 1894-S Barber quarter, although much more prominently on the obverse. Most of the reverse displays lighter champagne luster. This piece is fully struck and beautifully preserved. The 1894-S is elusive in Gem condition and rarely seen finer. Population: 4 in 66, 2 finer (5/16). NGC ID# 23Y3, PCGS# 5609

1896-S Barber Quarter, MS64  
Important Key Issue  
First of the Big Three Barber Quarters

- 3828** 1896-S MS64 PCGS. Three Barber quarter issues stand out among all the others for their low mintage and key-date status. The three are the 1896-S with a mintage of 188,039, the 1901-S with a production of 72,664, and the 1913-S with a coinage of 40,000 pieces. All three are typically found in low grades, VG or lower, or in Mint State grades. In the latter category is this Choice Mint State 1896-S quarter with brilliant silver surfaces and satin mint luster. Virtually untoned, this piece is boldly defined with faintly reflective fields. Population: 12 in 64, 12 finer (5/16). NGC ID# 23Y9, PCGS# 5615

**1898-S Barber Quarter, MS65  
Rare Issue in High Grade**

**3829 1898-S MS65 PCGS.** The 1898-S Barber quarter claims a nominal mintage of slightly more than 1 million pieces but few examples were saved by contemporary collectors. In fact, many coins were shipped overseas, to the Philippines and other destinations after the Spanish-American War. This delightful Gem displays sharply detailed design elements and vibrant mint luster under shades of lavender-gray and golden-brown toning. Population: 8 in 65 (1 in 65+), 2 finer (5/16). NGC ID# 23YF, PCGS# 5621

**1900 Quarter, Condition Census MS67+  
Distinctive Toning**

**3830 1900 MS67+ NGC.** The 1900 Barber quarter is available through MS65, but finer pieces are disproportionately rare. This Superb Gem is the second-finest at NGC. Distinctive toning blankets the right obverse and left reverse sides in gold, crimson, and ocean-blue colors, leaving the remainder of the coin warm champagne. The eagle's right (facing) wing junction boasts sharp definition, although the talons are slightly soft. No bothersome abrasions appear beneath the patina. Census: 4 in 67 (1 in 67+), 1 finer (5/16). NGC ID# 23YK, PCGS# 5625

**1901-S Barber Quarter, Good 6  
In-Demand, Low-Mintage Key**

**3831 1901-S Good 6 PCGS. CAC.** The 1901-S Barber quarter is a low-mintage key to the series and collectors prize examples in all grades and conditions. This well-worn example retains all major design elements in outline and the date, mintmark, and legends are bold. Only a few letters in the motto are legible, however. The pleasing gray surfaces are free of large or distracting abrasions. NGC ID# 23YR, PCGS# 5630

**1901-S Quarter, Fine 12  
Attractive Two-Toned Patina**

**3832 1901-S Fine 12 PCGS.** The 1901-S is the most difficult of the three major Barber quarter keys to acquire in all grades. Typically, examples will grade no higher than VG, or will have some sort of cleaning or other damage. Mid-level circulated pieces that are gradable produce a steep challenge for collectors to locate. The present representative shows excellent olive and cream-gray color with the relief elements somewhat lighter than the fields. LIBERTY is largely clear, denoting the grade. Several hair-thin scratches on the obverse are virtually unnoticed by the naked eye. Overall, this is a pleasing example of a challenging San Francisco key. NGC ID# 23YR, PCGS# 5630

**PROOF BARBER QUARTERS**

**1896 Quarter, Stunning PR68 Cameo**

**3833 1896 PR68 Cameo NGC.** Frosty, boldly struck motifs appear to float over the mirrored, watery fields, yielding stunning cameo contrast. Immaculate preservation further contributes to the coin's outstanding eye appeal. While 1896 proof quarters are fairly common (NGC and PCGS combined report 617 examples in all three finishes, from a mintage of 762 pieces) relatively few can match the technical quality and aesthetic appeal of the present PR68 Cameo offering. Census: 8 in 68 Cameo (2 in 68★), 2 finer (5/16). NGC ID# 59JB, PCGS# 85682

**1898 Quarter, Gleaming PR67 Cameo  
Early Series Example, 735 Pieces Struck**

- 3834 1898 PR67 Cameo PCGS. CAC.** The obverse displays brilliant-silver surfaces with strong Cameo contrast, while the reverse is lightly toned in pale rose-gold, azure-blue, and iridescent shades. This dramatic, Superb Gem is razor-sharp and impressively preserved with no problems and bold eye appeal. The CAC endorsement is a necessity at this high grade. Population: 15 in 67 (3 in 67+) Cameo, 4 finer. CAC: 11 in 67, 1 finer (5/16). NGC ID# 242D, PCGS# 85684

**1913 Quarter, PR67+  
Among the Finest Certified**

- 3835 1913 PR67+ PCGS. CAC.** Certainly one of the finest proof 1913 quarters known — not an example we are familiar with, although we have sold some outstanding 1913 proofs in the past. Original toning ranges from pale-gold to gunbarrel-blue shades with reddish-gold color mixed in. Deeply mirrored fields surround fully struck, lightly frosted central motifs. Just 613 proofs were struck, but only a handful of survivors can match this high-end Superb Gem. Population: 12 in 67 (3 in 67+), 3 finer. CAC: 10 in 67, 2 finer (5/16). NGC ID# 242V, PCGS# 5699

**STANDING LIBERTY QUARTERS**

**1916 Standing Liberty Quarter, Fine Details  
Affordable Key-Date Coin**

- 3836 1916 — Improperly Cleaned — NGC Details. Fine.** A circulated 1916 Standing Liberty quarter with bright steel-gray surfaces and the expected array of trivial marks and ticks. The date is weak at the top, as usual, but plain. This low-mintage key is a favorite date in all grades, and pieces with unobtrusive problems such as this lightly cleaned coin have demand among budget-conscious collectors seeking to fill the hole in their sets. NGC ID# 43XR, PCGS# 5704

**1918/7-S Quarter, AU Details Collectible Overdate**

- 3837 1918/7-S FS-101 — Harshly Cleaned — NGC Details. AU.** Tan-white surfaces exhibit muted luster, denoting a vigorous cleaning on this AU-level 1918/7-S quarter, but to the naked eye, the appeal is acceptable. Liberty's head and the shield show typical weakness, but the date is sharp. Although the overdate is not a deliberate issue in the series, most collectors consider it an essential part of the date and mintmark set.

**1918/7-S Quarter, Champagne-Toned MS63  
Above-Average Quality in All Respects**

- 3838 1918/7-S FS-101 MS63 NGC.** The 1918/7-S Standing Liberty quarter is the only issue in the series besides the famous 1916 that is a "stopper" in low circulated grades. About Uncirculated examples are infrequently seen, and Mint State pieces are exceedingly scarce. In Full Head, the 1918/7-S is far out of reach for most collectors.

The mintage for the overdate is unknown, although it was undoubtedly low — J.H. Cline estimates as little as "2,500? pieces." A single Type Two 1917-S head die was rehubbbed with the 1918 date, producing the overdate. All known examples display some degree of clashing with heavy die striations in the fields, suggesting that the overdated die was either damaged shortly after its creation or was even worn prior to being rehubbbed. Whatever the case, the 1918/7-S is almost unobtainable with a well-defined strike. This Select Mint State example is high-end to the perception of most collectors. Liberty's head is slightly sharper than average but still shy of full, and the eagle and shield exhibit predictable incompleteness. The overdate feature is bold. This appealing, satiny example displays a blush of light golden toning without any major abrasions. Census: 8 in 63, 21 finer (5/16). NGC ID# 243A, PCGS# 395949 Base PCGS# 5726

**1919 Quarter, MS67 Full Head**  
**Stellar Strike and Eye Appeal**

- 3839 1919 MS67 Full Head PCGS.** The 1919 Standing Liberty quarter is heavily sought in Superb Gem Full Head, not only for its rarity in this grade but also for the remarkable strike and eye appeal that such coins possess. This piece is sharply rendered throughout the shield, eagle, and central gown folds and boasts immaculately preserved surfaces. Both sides exhibit a blend of lavender and champagne hues, while the obverse also displays olive-russet toning around much of the periphery. Population: 29 in 67 (1 in 67+) Full Head, 2 finer (5/16). NGC ID# 243B, PCGS# 5729

**1920-S Quarter, Near-Full Head MS66**  
**Few Available This Fine**

- 3840 1920-S MS66 PCGS.** The 1920-S quarter does not need a Full Head designation to be rare in MS66, and finer coins are exceedingly so. This brilliant, satiny Premium Gem displays unmarked surfaces and nearly Full Head detail. The shield rivets are slightly soft, as is typical for this San Francisco issue. A dash of light golden toning appears along the lower reverse border. Population: 15 in 66 (1 in 66+), 5 finer (5/16). NGC ID# 243G, PCGS# 5738

**1927-D Quarter, MS66 Full Head**  
**Rare in this High Grade**

- 3841 1927-D MS66 Full Head PCGS.** The 1927-D is underrated in high-grade Full Head. This Premium Gem example is conditionally rare and among the finest-certified at PCGS. The surfaces display satiny luster with irregular splashes of olive, gold, russet, and amber toning. Struck from worn dies but with adequate head detail on the figure of Liberty. The shield and toes are not fully defined. Population: 18 in 66 Full Head, 0 finer (5/16). NGC ID# 243V, PCGS# 5763

**WASHINGTON QUARTERS**

**1932-D Quarter, Gem Uncirculated**  
**Only Two Coins Finer at PCGS**

- 3842 1932-D MS65 PCGS.** An outstanding Gem example of this key Denver issue, showing sharp detail and satiny luster. Greenish-gold toning encompasses much of each side, although tinges of other colors are seen around the peripheries. Finer coins are extremely rare and far out of reach for most collectors. Population: 82 in 65 (3 in 65+), 2 finer (5/16). NGC ID# 2448, PCGS# 5791

**1948-D Washington Quarter, MS67+**  
**Tied for Finest at PCGS**

- 3843 1948-D MS67+ PCGS. CAC.** From a mintage of 16.7 million pieces, the 1948-D Washington quarter is not difficult to locate in grades through the Gem level, but the issue is very scarce in MS67 condition. This Plus-graded Superb Gem is tied with three other coins for finest certified honors at PCGS (5/16). The design elements are sharply detailed and the impeccably preserved lustrous surfaces are blanketed in shades of sea-green and magenta toning. Eye appeal is terrific. NGC ID# 245M, PCGS# 5837

**1950-D/S Quarter, FS-601, MS66**  
**Registry-Grade Example**

- 3844 1950-D/S FS-601 MS66 PCGS.** The upper serif of the previously entered S is visible atop the primary D on this popular *Guide Book* variety. The mintmark is strike doubled, as is characteristic of the variety. This Premium Gem example displays satiny champagne-tinted luster with a few tiny ticks that determine the grade. Conditionally rare this fine. Population: 15 in 66 (1 in 66+), 2 finer (6/16). NGC ID# 245T, PCGS# 145638 Base PCGS# 5843

## EARLY HALF DOLLAR

1794 Half Dollar, VF Details  
Overton-105a, Scarcer Late Die State

- 3845** 1794 O-105a, T-3, R.5 — Repaired — NGC Details. VF. Tompkins Die State 1/3. This coin is actually quite pleasing to the naked eye. The obverse shows a bold rim and strong hair detail on the central portrait. The reverse is boldly defined around the borders, but shows considerable weakness over the upper interior due to die failure — characteristic of a sinking die in the late die state. A loupe reveals tooling in the obverse fields — apparently, to remove marks or graffiti — but the evidence is well-hidden by medium olive and golden-gray toning. NGC ID# 24E6, PCGS# 39207 Base PCGS# 6051

## BUST HALF DOLLARS

1812 Half Dollar, O-107, MS65  
Old-Time Toning

- 3846** 1812 Large 8, O-107, R.1, MS65 NGC. An available Large 8 variety, but rarely encountered at the Gem grade level. This representative is in an early die state, without the later-appearing lump in the reverse field adjacent to the eagle's left (facing) wing. A small tine off the upper-right corner of the shield confirms the attribution of the die, while the obverse shows a distinct date placement: the 1 high, with all four numerals leaning noticeably left. Visual attributes of this piece include rich, satiny luster with warm amber-gold toning that deepens to show small violet and blue tinges near the borders. Several right-hand stars are soft, but the strike is otherwise sharp. Census of all Large 8 varieties: 13 in 65, 15 finer (5/16). NGC ID# 24EW, PCGS# 39452 Base PCGS# 6100

1819/8 O-106 Half Dollar, MS64  
Large 9, Smooth, Lustrous Surfaces

- 3847** 1819/8 Large 9, O-106, R.4, MS64 PCGS. A scarce die marriage representing the Large 9 overdates, with flat-top 1s and an "L-shaped" closure to the 9 in the date from the remnant of an underdigit 8. A small die lump above the second 1 resembles an accent mark. A blending of olive-gray and peach-gold shades cover the lustrous, minimally marked surfaces. The strike is pleasingly bold on the drapery folds, hair curls, and stars. A non-important streak of struck-in grease at the denomination is the only mark to mention. Steve Herrman's Spring, 2016 Condition Census lists a single MS65+ coin (Ex: Eric P. Newman Collection) as the finest O-106, with three MS63 coins vying for next-finest. This near-Gem example ranks in a tie for second place in the census for the variety. Population (all Large 9 overdates): 9 in 64, 7 finer (5/16). NGC ID# 24FC, PCGS# 39562 Base PCGS# 6119

1819 O-109 Half Dollar, MS64+  
Second on the Condition Census

- 3848** 1819 O-109, R.2, MS64+ PCGS. Overton-109 shows TE in STATES joined, and the upper serif of the C in the denomination is recut. It is plentiful through most grades, but like all 1819 half dollars becomes an important rarity in Choice condition, especially with a Plus designation. In fact, this MS64+ example ranks second on the Condition Census for the variety. Each side is frosty with deep amber-gold toning at the margins and gunmetal-blue rims on the reverse. The centers display radiant mint luster from silvery, sharply struck motifs. Minor marks barely prevent a full Gem assessment. Population (all varieties): 22 in 64 (4 in 64+), 5 finer (5/16). NGC ID# 4FLG, PCGS# 39545 Base PCGS# 6117

**1825 Half Dollar, MS64+  
Very Scarce O-104  
Condition Census Quality**

- 3849** 1825 O-104, High R.4, MS64+ PCGS. CAC. The very scarce O-104 is often attributed by the die lump in the field below the left scroll end. The present near-Gem displays light and lovely ice-blue, olive-green, and almond-gold toning. The surfaces are unabraded aside from a singular depression on the cheek. A late die state example with peripheral elements drawn toward the rims, and clash marks apparent near the chin and beak. Liberty's chest is strike doubled. Among the nicest examples of the Overton variety. NGC ID# 24FL, PCGS# 39650 Base PCGS# 6142

**1825 Half Dollar, O-115, Toned Gem  
Rare in High Mint State**

- 3850** 1825 O-115, R.3, MS65 NGC. Ex: Highland Collection. Attribution pick-up points for the O-115 variety include an extension of the hair below the R in LIBERTY and five extra lines off the center of gule 6. The third line of the fourth shield stripe extends to the second crossbar. Violet toning combines with gold and ice-blue color at the margins. The strike shows minor incompleteness around the peripheries, but the central relief elements are boldly rendered. Attractive patina well conceals the tiny grade-limiting marks found on each side. Tied for the top of both the Stephen Herrman and Donald Parsley census listings for the O-115 variety (6/16). NGC ID# 24FL, PCGS# 39662 Base PCGS# 6142

**1826 Half Dollar, O-104a, MS66  
Fresh, Lightly Toned Surfaces  
Condition Census**

- 3851** 1826 O-104a, R.3, MS66 PCGS. Despite a mintage in excess of 4 million coins, the 1826 half dollar seldom appears in Gem condition, and finer pieces are rare. This Premium Gem coin is a stellar type coin in all respects. It is the late die state variant of O-104, with light die cracks along the base of ERICA and below 50 C. and the arrowheads, but was misattributed as O-107 in the 1997 Stack's catalog. The surfaces showcase a degree of luster that is only seen on fresh, original coins. Intense mint frost underlies soft shades of lavender, ice-blue, and olive-gold toning, while the central design elements are incredibly bold and the border regions are equally well brought up. A couple of truly faint ticks on Liberty's neck appear to be the only disturbances in the intricate preservation of each side. Population (all varieties included): 7 in 66, 2 finer (5/16).  
Ex: Auction '84 (RARCOA, 7/1984), lot 1661; Public Auction Sale (Stack's, 12/1997), lot 2227; Eugene H. Gardner Collection, Part IV (Heritage, 10/2015), lot 98633 (as MS65+ PCGS. CAC). NGC ID# 24FM, PCGS# 39671 Base PCGS# 6143

**1827 Bust Half, Brilliant MS64+  
O-114, Die Defect in Y of LIBERTY**

- 3852** 1827 Square Base 2, O-114, R.3, MS64+ PCGS. With 49 different die pairs for the issue, a single pick-up point such as the die defect in Y of LIBERTY makes the die pair identification much easier. The O-114 variety confirms with multiple crossbars and shield stripes that extend beyond the shield border. The final A in AMERICA touches the top arrowhead. On the obverse, the 7 is noticeably recut at the stand and at the top-right serif. This attractive example is brilliant and untuned with frosty silver luster over both sides. A high-end near-Gem, it ranks at the lower end of the Condition Census for the variety. NGC ID# 24FN, PCGS# 39709 Base PCGS# 6144

**1833 Half Dollar, O-102', MS64+  
Early Die State Example**

- 3853** 1833 O-102', R.1, MS64+ PCGS. This early die state coin shows the diagnostic die line from the 0 in 50C. to the rim. This die line is no longer present on later stages of this die pair's usage. Visible recutting on star 1 confirms the early state of the dies. Both sides of this piece show intense luster shining through deep lavender-gray, olive, and gold toning. No distracting abrasions are present. The horizontal shield lines lack full definition, but the remainder of the devices are well-struck. Well-deserving of the PCGS Plus designation, this borderline Gem piece ranks in the Condition Census for the O-102' variety based on the listed examples in Steve Herrman's Spring, 2016 census. NGC ID# 24FX, PCGS# 39888 Base PCGS# 6163

**REEDED EDGE HALF DOLLAR**

**1838 Reeded Edge Half, GR-6, MS64  
High-End Collector Coin**

- 3854** 1838 Reeded Edge, GR-6, R.3, MS64 PCGS. Above MS64, the 1838 Reeded Edge half dollar is a rarity. This near-Gem remains within the grasp of the average collector but boasts eye appeal that is nearly worthy of a finer grade. The central devices are sharp, although portions of the borders show characteristic weakness. Most of each side displays pale champagne toning over satiny luster, but the borders exhibit deeper golden-orange coloration. Population: 59 in 64 (3 in 64+), 9 finer (5/16). PCGS# 531087 Base PCGS# 6177

**SEATED HALF DOLLARS**

**1841 Half Dollar, MS64  
Impressive Quality, Multicolor Toning**

- 3855** 1841 WB-101 MS64 PCGS. CAC. Semiprooflike reflectivity resides beneath richly iridescent rings of multicolor toning throughout the Choice surfaces of this impressive Seated half. All early dates in the series are rare in near-Gem or finer condition, and the 1841 is no exception. While many 1841s are weakly struck — sometimes dramatically so on the eagle's neck and head — this example is quite sharp in those areas. PCGS reports just one finer coin. Population: 6 in 64, 1 finer. CAC: 1 in 64, 1 finer (6/16). PCGS# 572007 Base PCGS# 6236

**1844-O Seated Half, MS65**  
**Extreme Condition Rarity, Tied for Finest Known**

**3856 1844-O WB-101, Die Pair 12, R.3, MS65 PCGS.** The “fat 1” in the date (so-named by Dick Osburn) helps identify the obverse at first look, although the reverse shows an assortment of die cracks, die lines, and die clashing that makes the die pair a challenge for attribution. The mintage of more than 2 million pieces required 22 known die pairs — others may still come to light. This example shows the date far left, with faint repunching of the crossbar on the first 4.

Brightly lustrous with frosty, original surfaces and a sharp O-Mint strike, the present coin ranks among the finest known. Die varieties notwithstanding, few 1844-O halves of any variety attain the Gem grade. PCGS reports just one example (this coin) with none finer, while NGC lists three MS65 coins and none finer. This is an important New Orleans issue destined for the finest Seated half set. Population: 1 in 65, 0 finer (6/16). PCGS# 572030 Base PCGS# 6246

**1845-O Half Dollar, Attractive MS64**  
**No Drapery Variety, WB-101**

**3857 1845-O WB-101 No Drapery MS64 PCGS.** Struck from the third and final usage of the obverse die, each die use shows progressively less drapery beneath the elbow from die polishing until reaching the current stage deemed No Drapery by PCGS. While the 1839 No Drapery Seated half is the only issue struck without drapery as a separate Gobrecht design feature, the 1845-O No Drapery is collected as well despite being merely a function of die state. The grading services recognize it as a variety and the 1845-O No Drapery has a separate *Guide Book* listing.

This example is frosty and lustrous. Shades of lilac-gray, blue, and pale-gold form a natural light patina over both sides with exceptional eye appeal. A few light field lines are visible with a glass and the reverse displays the vertical die striations known for the issue. The coin is sharply struck as are most representatives of this popular New Orleans date. Only five 1845-O pieces are certified by PCGS in Mint State as No Drapery examples, with this coin tied with one other as finest certified. Population: 2 in 64, 0 finer (6/16). PCGS# 572036 Base PCGS# 6249

1847-O/O Half Dollar, MS64+  
WB-102, Repunched Mintmark

- 3858** 1847-O/O WB-102, Die Pair 8, R.3, MS64+ PCGS. CAC. This richly toned near-Gem is well-detailed save for a minor depression in the obverse shield stripes and localized softness on a few of the obverse stars and on the eagle's left (facing) talon. Variegated shades of pearl-gray, sunset-golden, and blue intermingle over each side in varying degrees. The 1847-O does not stand out among early New Orleans Mint half dollars, and its mintage of nearly 2.6 million pieces is comparatively high. However, those factors downplay its true rarity in Choice and better grades. This Plus-graded and CAC-endorsed coin is a seldom-offered Registry Set candidate that ranks high in the Condition Census not only for the Repunched Mintmark variety, but for all varieties of the issue.  
Ex: *Denver Signature* (Heritage, 8/2006), lot 3324 via *Premium Numismatics* (11/2006); *Eugene H. Gardner Collection, Part IV* (Heritage, 10/2015 as MS64 PCGS CAC), lot 98661. PCGS# 572058 Base PCGS# 6259

1848 Half Dollar, Top-Grade MS65  
WB-102, Repunched Date

- 3859** 1848 Repunched Date, WB-102, MS65 PCGS. CAC. The 4 in the date is clearly recut below the diagonal and the crossbar on this conditionally rare variety. Wiley-Bugert believe this variety to be an 1848/47 overdate, although remnants of a 7 are not discernible on this piece. As a date, the 1848 Seated half is rare in Mint State, and none are known finer than the MS65 grade level. Rich forest-green, lilac-gray, and tan colors swirl about this satiny and carefully preserved Gem. The eagle's left (facing) leg is not fully struck, but this is of little importance. No Motto Seated half dollars of any date are rarely encountered with such lofty preservation. Population: 5 in 65, 0 finer. CAC: 4 in 65, 0 finer (5/16).  
Ex: *Portland Signature* (Heritage, 3/2004), lot 5821. PCGS# 572063 Base PCGS# 6260

**1850-O Half Dollar, MS65  
Important Condition Rarity**

**3860** 1850-O WB-101, Die Pair 3, R.3, MS65 PCGS. CAC. The 1850-O is a difficult acquisition in Mint State, where Randy Wiley and Bill Bugert (1993) assign the date a low R.5. PCGS has certified fewer than 60 Mint State examples, mainly through near-Gem. Gems are very rare and finer examples are nearly unobtainable.

The grayish-purple surfaces of this MS65 coin are blushed with cobalt-blue patination overlying strong luster. An exacting strike imparts bold definition to the design elements, and close inspection of the well-preserved surfaces reveals no significant marks. Die rust is visible on parts of Liberty's portrait, not unusual for a New Orleans issue. Excellent overall eye appeal. Population: 4 in 65, 2 finer. CAC: 3 in 65, 2 finer (5/16).

Ex: FUN Signature (Heritage, 1/2012), lot 3237. NGC ID# 24HH, PCGS# 572076 Base PCGS# 6265

**1855-O Arrows Half Dollar Type Coin  
Gem Uncirculated**

**3861** 1855-O Arrows, WB-101, Die Pair 11, R.3, MS65 PCGS. As a date, the 1855-O Seated half dollar is fairly plentiful, but Gem examples are conditionally elusive and anything finer is rare. This MS65 type coin displays razor-sharp design elements and vibrant, satiny mint luster. Only a few faint field grazes, seen with a loupe, prevent an even finer grade. This piece shows a dusting of olive-gold toning that adds to the appeal. Population: 23 in 65 (1 in 65+), 8 finer (5/16). NGC ID# 24JP, PCGS# 572090 Base PCGS# 6283

**1856-O Half Dollar, Elusive MS65  
WB-103, Repunched Date**

**3862** 1856-O Repunched Date, WB-103, Die Pair 15, R.3, MS65 PCGS. CAC. The 56 in the date is noticeably repunched on this popular variety. The strike is intricate aside from slight blending on the dentils. Medium caramel-gold and jade-green toning is illuminated by vibrant luster. The obverse is essentially pristine, and the reverse has only a couple of minor marks. The 1856-O is seldom seen this fine and rarely finer. Population: 20 in 65, 3 finer. CAC: 9 in 65, 2 finer (5/16).

Ex: Dallas Signature (Heritage, 10/2008), lot 902; Long Beach Signature (Heritage, 2/2009), lot 1333; Central States Signature (Heritage, 4-5/2009), lot 754. PCGS# 572096 Base PCGS# 6288

**1857-O Seated Liberty Half, MS64  
Among the Finest at PCGS**

**3863** 1857-O WB-101, Die Pair 1, R.3, MS64 PCGS. From a large mintage of 818,000 pieces, the 1857-O Seated Liberty half was widely circulated at the time of issue. The 1857-O is very rare in Mint State today. This example is well struck, with variegated aqua, gray, orange, and violet patination. Lustrous surfaces are nearly devoid of significant marks. Population (all varieties included): 9 in 64, 0 finer (5/16).

Ex: Pittsburgh Signature (Heritage, 8/2004), lot 6228; Long Beach Signature (Heritage, 2/2011), lot 3701. NGC ID# 24HT, PCGS# 572102 Base PCGS# 6291

1860-O Half Dollar, MS65  
Type Two Reverse, WB-103

- 3864** 1860-O Type Two Reverse, WB-103, Die Pair 5, R.3, MS65 PCGS. CAC. Reverse Hub Variety Two. There is a sizeable amount of space between the tops of the LF in HALF, this feature confirming the attribution of the hub variety. As an issue, the 1860-O (1.2 million pieces produced) is not particularly rare in Mint State. (Wiley and Bugert, 1993, assign the date a Low R.4 rating in all MS grades.) In Gem, however, the 1860-O is conditionally rare. This is an originally toned survivor whose otherwise antique-copper overtones yield to rose-gray tinting throughout much of the reverse field. Both sides are appreciably sharp in strike, although we do note a little softness of detail over some of the obverse star centers. Solidly graded with only a few scattered abrasions that are well concealed by the toning. Population for all 1860-O halves: 16 in 65, 8 finer. CAC: 6 in 65, 3 finer (5/16).  
Ex: *Central States Signature* (Heritage, 5/2003), lot 6757; *Portland Signature* (Heritage, 4/2004), lot 5829; *Long Beach Signature* (Heritage, 9/2005), lot 3229. NGC ID# 2XWU, PCGS# 572139 Base PCGS# 6300

1863 Half Dollar, Brilliant MS66+  
Scarce War Issue, Few Are Finer

- 3865** 1863 WB-101 MS66+ PCGS. A scarce Civil War date, underrated in all circulated conditions and a confirmed rarity in Mint State despite a mintage of 503,200 pieces. Silver coinage was hoarded during the war, and most half dollars from the early 1860s soon disappeared from circulation. Many pieces eventually were melted. Others returned to circulation when silver no longer commanded a premium, and were later lost to attrition.  
This high-end Premium Gem must have received careful preservation from the moment it left the Mint. The frosty silver surfaces show one or two random marks, but they are tiny and require a glass for viewing. Essentially untoned, a faint wisp of reddish-gray toning above the arrowheads and some glints of gold on the rims are the sole signs of color. Bright mint luster coruscates across the sharply struck surfaces, where Liberty's hair strands are fully brought up and the star centers are sharp. A likely Condition Census representative for the issue. Population: 4 in 66 (2 in 66+), 1 finer (5/16). PCGS# 572155 Base PCGS# 6309

**1866-S Seated Half, Attractive MS63  
WB-101, Final No-Motto Issue**

**3866 1866-S No Motto, Small Thin S, WB-101, Die Pair 1, R.4, MS63 PCGS. CAC.** Although the mandate to add the motto IN GOD WE TRUST was in place, the proper dies were not. Eager to issue half dollars into commerce, the San Francisco Mint struck 60,000 No Motto halves. A single die pair accomplished the entire mintage. Even in those days, collectors and dealers recognized the significance the missing motto. As a result, more examples of the issue were saved than would otherwise be expected. Still, the 1866-S No Motto is scarce-to-rare in Uncirculated grades and carefully preserved pieces command a premium.

This example shows few distractions. The frosty surfaces are above average for the grade with only scattered light marks that require magnification to view. Mint luster glows beneath olive-gold and tan toning. The strike is not quite full but sharp on the star centers and central motifs. Only Liberty's hair strands and the eagle's left talon show blending of detail. We expect persistent competition among bidders when this CAC-endorsed No Motto comes up for bid. Population: 6 in 63, 7 finer. CAC: 3 in 63, 2 finer (5/16). NGC ID# 5V4T, PCGS# 572170 Base PCGS# 6315

**1870 Seated Half Dollar, Conditionally Rare MS65  
Smooth and Lustrous, Among the Finest Known**

**3867 1870 WB-101 MS65 PCGS. CAC.** The 1870 half dollar can be located in circulated condition but it is rare in all Mint State grades. This gorgeous MS65 piece displays lustrous surfaces that are nearly untuned except for whispers of golden-gray toning most visible on the reverse margin. Sharply struck, the coin reveals no marks of consequence anywhere on the satin-smooth surfaces. A hands-down Gem, deserving of the CAC endorsement with only one piece finer at PCGS. Population: 5 in 65, 1 finer. CAC: 2 in 65, 0 finer (5/16). NGC ID# 24JZ, PCGS# 572188 Base PCGS# 6327

**1870-CC WB-101 Half Dollar, Fine 12  
Elusive Key Carson City Issue**

**3868 1870-CC WB-101, Die Pair 2, R.5, Fine 12 PCGS.** The first-year Carson City half dollar mintage of 54,617 pieces was promptly placed into circulation and few pieces remain from the rugged use in Old West commerce. Perhaps 200 pieces survive in all grades. This Fine example offers generally smooth, silver-gray surfaces with a few small scrapes and light lines but no heavy marks. Parts or all of the letters LITY of LIBERTY are visible, and the motto within the scroll is readable. Substantial wing definition remains for the assigned grade. Population: 11 in 12, 84 finer (5/16). NGC ID# 6466, PCGS# 572190 Base PCGS# 6328

1872-S Half Dollar, MS65  
From the Eliasberg Collection

- 3869** 1872-S Medium Small S, WB-102, Die Pair 3, R.3, MS65 PCGS. CAC. Ex: Eliasberg. Medium-Small Mintmark. The 1872-S ranks among the most elusive San Francisco Mint Seated half dollars, as indicated by perusal of PCGS/NGC population data. Soft violet, gray, orange, blue, and beige patina is slightly deeper on the obverse of this lovely Gem, and the strike is strong throughout. The planchet shows striations on both obverse and reverse, but are more obvious on the reverse, and the partially prooflike fields offset the motifs at various angles. Exquisitely preserved throughout. A handsome coin with a great pedigree. Population for all 1872-S halves: 3 in 65, 1 finer. CAC: 2 in 65, 2 finer (5/16).  
Ex: Albert S. Elwell Collection (Lyman H. Low, 7/1903), lot 1020; J.M. Clapp; John H. Clapp; Louis E. Eliasberg, Sr. Collection (Bowers and Merena, 4/1997), lot 2020; FUN Signature (Heritage, 1/2010), lot 2551, which realized \$19,550. NGC ID# CGRS, PCGS# 572205 Base PCGS# 6335

1874-S Arrows Half Dollar, MS66  
Tied for the Finest at PCGS, Ex: Pryor

- 3870** 1874-S Arrows, Small Wide S, WB-101, Die Pair 1, R.3, MS66 PCGS. Ex: Pryor Collection. The 1874-S Arrows half dollar is a scarce issue in any Mint State grade and is downright rare in Gem or finer condition. This Premium Gem example is tied with one other as the finest at PCGS; NGC lists one coin in this grade and one finer (6/16). Even a step down in MS65, the 1874-S is an extremely rare coin with only five pieces so-graded at the two services combined. The present example — the Pryor coin — is sharply struck save for the centers of stars 7 and 8, and the satiny surfaces are devoid of bothersome abrasions. Areas of sea-green and russet-gold toning appear over top of light champagne luster on each side. Eye appeal is excellent.  
Ex: Pryor Collection (Bowers and Merena, 1/1996). PCGS# 572223 Base PCGS# 6348

**1878-S Seated Half Dollar, AU Details  
Storied Series Rarity**

**3871 1878-S WB-101, Die Pair 1, R.5 — Reverse Scratched — NGC Details. AU.** There is no clearer evidence of the power of the silver lobby and the clout of western mining interests than the enactment of the Bland-Allison Act of 1878. Massive silver discoveries led by the Comstock Lode in the late 1850s infused a mountain (literally) of silver into the economy with the inevitable downtrend in silver prices as reckoned in gold. The quickest and easiest solution was to mint more silver dollars in preference over smaller denomination silver coins — far more dollars than were wanted or needed in commerce. Mintages of quarters and half dollars diminished to only token amounts. Just 12,000 halves were struck in San Francisco in 1878, and they were hard-used in circulation. The 2009 Bill Bugert reference suggests only about 60 pieces survive in all grades. Far fewer have been offered in public sales.

This surviving example avoided excessive wear from circulation, but shows a trio of scratches on the reverse — most notably, a deep scratch from the eagle's head across the scroll to between S and O of the legend. A smaller scrape runs through the U of TRUST. Less-noticeable pinscratches zig-zag across U of UNITED to the nearest leaf tip. Numerous small marks are scattered across the silver-gray surfaces that deepen in color slightly at the margins. Sharp definition remains, with glimpses of the original prooflike surfaces in the recesses.

**1879 Half Dollar, Semiprooflike MS66  
Colorful Toning**

**3872 1879 Closed Bud, WB-102, MS66 PCGS. CAC.** The 1879 was the first low-mintage Philadelphia issue as a result of the Bland-Allison Act, which demanded the coinage of millions of silver dollars and nearly stopped half dollar and quarter production during the 1880s. The 1879 half dollar's mintage of 4,800 pieces is small, but enough high-grade examples survive that the date is collectible in many grades today. This CAC-endorsed Premium Gem displays a bold strike and modestly reflective fields. Sun-orange, lavender, ocean-blue, and mint-green hues adorn each side. Population: 49 in 66 (2 in 66+), 19 finer. CAC: 10 in 66, 14 finer (5/16). NGC ID# 24KS, PCGS# 572260 Base PCGS# 6361

**1881 Half Dollar, Richly Toned MS66  
Only 10,000 Pieces Struck**

**3873 1881 Closed Bud, WB-102, MS66 PCGS.** A paltry 10,000 business strike half dollars were struck in 1881, and even though there are numerous Uncirculated pieces that have survived, this is a highly collectible year and decade. Deep amber and blue toning covers each side with slight reflectivity in the fields that shines through the toning. Seldom located finer. Population: 15 in 66 (2 in 66+), 4 finer (5/16). NGC ID# 24KU, PCGS# 572264 Base PCGS# 6363

1884 Half Dollar, CAC-Approved MS67  
WB-102, Repunched Date

- 3874** 1884 Repunched Date, WB-102, MS67 PCGS. CAC. The 4 in the date is recut at its base. A popular issue with a small 4,400-coin mintage, the 1884 Seated half dollar is nonetheless usually available for a price. Contemporary collectors and dealers set aside Uncirculated examples of all low-mintage dates from the 1880s, with the result that even Gems are pursuable today. However, the present Superb Gem is conditionally rare, and only a couple of MS68 coins are numerically finer. This piece is boldly struck and boasts prooflike fields and unabraded surfaces. Each side shows characteristic olive-gold, lavender-gray and blue-green toning. Population: 7 in 67 (1 in 67+), 1 finer. CAC: 8 in 67, 2 finer (5/16). NGC ID# 24KX, PCGS# 572269 Base PCGS# 6366

1885 Half Dollar, MS66  
White-on-Black Cameo Contrast

- 3875** 1885 WB-101 MS66 PCGS. CAC. A Premium Gem circulation strike, struck from fresh dies with fully prooflike mirroring in the fields. The design elements are bold, and there are no bothersome abrasions. Neither side shows mentionable toning. The 1885 Seated half dollar boasts a small mintage of 5,200 pieces. Half dollar coinage during this period was in token quantities only, as most of the Mint's silver bullion and other resources were being absorbed by Morgan dollar production under the dictates of the Bland-Allison Act of 1878. Nonetheless, half dollars struck in 1885 did not circulate to a meaningful extent, as many pieces were retained by collectors and dealers because of the issue's low mintage. This cameo-contrasted Premium Gem has been carefully preserved for more than a century. Population: 5 in 66, 3 finer. CAC: 2 in 66, 1 finer (5/16). NGC ID# 24KY, PCGS# 572270 Base PCGS# 6367

**1887 Half Dollar, MS66**  
**Attractive Original Toning**

**3876 1887 WB-101 MS66 PCGS.** The availability of the 1887 Seated half in Mint State drops off suddenly above MS65. This Premium Gem representative displays warm golden interiors with lavender, blue, and mint-green around the peripheries. Liberty's head and star 8 are a trifle soft, but the strike is otherwise sharp. The semiprooflike fields are free of distractions. Population: 13 in 66, 5 finer (5/16). NGC ID# 24L2, PCGS# 572272 Base PCGS# 6369

**1890 Seated Half, MS66**  
**Splendid Strike and Toning**

**3877 1890 WB-101 MS66 PCGS.** The fields display prooflike tendencies beneath splendid aquamarine and peach-gold shades on the obverse. Lavender and lemon-gold toning joins the palette on the reverse. Just 12,000 pieces were struck during the penultimate year of the Seated half series. This sharply struck Premium Gem ranks near the top in both surface quality and eye appeal. Population: 10 in 66 (2 in 66+), 6 finer (5/16). NGC ID# 24L5, PCGS# 572275 Base PCGS# 6372

**PROOF SEATED HALF DOLLARS**

**1860 Seated Half, PR66**  
**Colorfully Toned and Razor-Sharp**

**3878 1860 PR66 PCGS.** Type Two Reverse. Apricot-orange, purple-pink, and a ring of electric-blue color visit each side of this attractive Premium Gem proof. The strike is razor-sharp, and the fields are deeply mirrored beneath the toning. The *Guide Book* reports a mintage of 1,000 proofs in 1860, but a substantial quantity of unsold coins were later melted. Survivors are rarely seen this fine. Population: 12 in 66 (2 in 66+), 1 finer (6/16). NGC ID# 27TK, PCGS# 6414

**1862 Seated Half, PR65**  
**Brilliant With Traces of Tan Patina**

**3879 1862 PR65 NGC.** Proof output dropped by nearly 50% between 1861 and 1862 from 1,000 pieces to 550 coins. Demand for proofs began to cool in the early 1860s after a small proofing fee was introduced. This well-preserved Gem proof is mostly brilliant with daubs of tan patina around the edges and occasionally in the fields. The central motifs are frosted and untuned, giving each side a partial cameo effect. Fully struck relief elements, though expected, are nonetheless appealing. Census: 23 in 65, 7 finer (6/16). NGC ID# 27TN, PCGS# 6416

**1890 Seated Half, PR67**  
**High-End for the Issue**

**3880 1890 PR67 PCGS. CAC.** A conditionally rare example of this late-series proof, tied for the finest non-Cameo at PCGS. The strike is sharply rendered over gleaming mirrors in the fields, and the preservation is exceptional. Creamy-gold interiors cede to sea-green, rose, and yellow-gold peripheral hues. Eye appeal is outstanding, and modest cameo contrast appears on the reverse. Population: 8 in 67, 0 finer. CAC: 4 in 67, 0 finer (5/16). NGC ID# 27US, PCGS# 6451

**BARBER HALF DOLLARS**

**1894 Barber Half Dollar, MS66**  
**Attractive Multicolor Toning**

**3881 1894 MS66 PCGS.** The silver-gray centers are surrounded by deep reddish-russet and cobalt-blue toning at the rims. Fully struck and a superb coin with a look of unquestioned originality. Even though 1.14 million pieces were struck of the 1894-P, it is a most uncommon "common" date. Population: 12 in 66 (2 in 66+), 2 finer (5/16). NGC ID# 24LN, PCGS# 6468

**1899-S Half Dollar, Evenly Toned MS65  
Scarce S-Mint Issue**

- 3882 1899-S MS65 PCGS.** The 1899-S half dollar is much scarcer than its mintage of 1.6 million pieces might indicate. Many half dollars were shipped from San Francisco Mint to the Philippines after the United States took possession of the islands after the Spanish-American War the previous year. This is a remarkably smooth example that exhibits even steel-gray and light blue toning across each side and bright underlying mint luster. Population: 16 in 65 (1 in 65+), 8 finer (5/16). NGC ID# 24M8, PCGS# 6485

**1902 Barber Half Dollar, MS66  
Iridescent Multicolor Toning**

- 3883 1902 MS66 PCGS. CAC.** The impeccably preserved surfaces of this delightful Premium Gem are blanketed in iridescent shades of lavender, pale gold, and gray toning, with sharply detailed design elements and vibrant mint luster underneath. Overall eye appeal is outstanding. Population: 5 in 66 (1 in 66+), 1 finer. CAC: 3 in 66, 0 finer (5/16). NGC ID# 24MF, PCGS# 6492

**1903 Barber Half Dollar, MS65  
Very Rare in Finer Grades**

- 3884 1903 MS65 PCGS. CAC.** Attractive shades of golden-brown, cerulean-blue, and lavender toning visit the well-preserved surfaces of this impressive Gem. The design elements are sharply detailed and satiny mint luster shines through the patina. Eye appeal is outstanding. Population: 8 in 65 (1 in 65+), 5 finer. CAC: 5 in 65, 2 finer (5/16). NGC ID# 24MJ, PCGS# 6495

**1903-O Barber Half, MS66  
Only One Certified Finer**

- 3885 1903-O MS66 PCGS. CAC.** The Norweb-Duckor Superb Gem 1903-O Barber half dollar is the only certified MS67, and next in line are a small number of MS66 pieces, including four at PCGS and five at NGC (5/16). One of those is the present Premium Gem, one of only two MS66 coins that are the finest at CAC. This piece has frosty silver luster with intensely brilliant white surfaces that are entirely untuned. The surfaces are pristine and the strike is bold in most areas, especially for a New Orleans issue, although the 1903-O is typically found better struck than most others from this mint. Only a few slight die cracks are noted on this example. Undeniably eye-appealing.  
Ex: Rosemont Signature (Heritage, 8/2013), lot 5655. NGC ID# 24MK, PCGS# 6496

---

### 1904-S Barber Half, Pleasing AU55

**3886 1904-S AU55 PCGS. CAC.** The Barber half series is one of the most challenging (yet possible) collections in high-grade circulated condition to assemble. There are no real "stoppers," although a handful of issues require patience and diligence. The 1904-S is one of them. This Choice About Uncirculated example offers delightful originality and surface quality. CAC endorsed, the lightly toned fields and devices are slightly iridescent with rich shades of orange-gold and blue on the obverse. There are no serious marks to distract from the sharply defined devices. Population: 12 in 55, 42 finer. CAC: 1 in 55, 9 finer (6/16). NGC ID# 24MP, PCGS# 6500

---

### 1906-S Barber Half, MS66 Rare This Nice

**3887 1906-S MS66 PCGS.** The 1906-S Barber half is marginally available in grades through MS64, but it becomes rare in MS65, and finer pieces are exceedingly so. This Premium Gem representative displays vibrant, largely untuned luster and nearly unabraded surfaces. The eagle's right (facing) shoulder shows the typically seen weakness, but the remainder of the design elements are crisply defined. Population: 4 in 66, 5 finer (5/16). NGC ID# 24MX, PCGS# 6507

---

### 1908-D Half Dollar, MS66+ Vibrant Multicolor Toning

**3888 1908-D MS66+ PCGS. CAC.** Exquisite cherry-red, olive-green, and butter-gold toning embraces this lustrous and attractive half dollar. The portrait is remarkably free from contact, and a lens reveals only negligible contact elsewhere. The strike shows minor blending on the fletchings and a couple of obverse stars. Population: 12 in 66 (3 in 66+), 4 finer. CAC: 10 in 66, 3 finer (5/16). NGC ID# 24N5, PCGS# 6513

---

### 1908-O Half Dollar, MS67 Notable Condition Rarity

**3889 1908-O MS67 NGC.** The penultimate New Orleans half dollar issue was struck in quantity (more than 5 million pieces) but is a clear condition rarity in Superb Gem. This MS67 example is well-defined for the issue and has generous luster lighting up predominantly blue-toned surfaces with hints of violet and olive. Census: 4 in 67, 1 finer (5/16). NGC ID# 24N6, PCGS# 6514

---

### 1915 Barber Half Dollar, MS65+ Only Five Finer Coins at PCGS

**3890 1915 MS65+ PCGS.** The 1915 Barber half dollar claims a small mintage of 138,000 pieces, making the date rare in high grade. This high-end Gem is sharply detailed except for the right tip of the shield, which is typical. The well-preserved surfaces display vibrant mint luster under shades of lavender-gray, ice-blue, and greenish-gold patina. Population: 15 in 65 (1 in 65+), 5 finer (5/16). NGC ID# 24NR, PCGS# 6532

---

## PROOF BARBER HALF DOLLARS

---

### 1897 Barber Half, PR67 Cameo Tremendous Eye Appeal

**3891 1897 PR67 Cameo PCGS.** Both sides of this Superb Gem proof display a pleasing degree of cameo contrast. The coin exhibits a sharp strike and well-defined design elements. Light almond-gold color adds to the visual appeal. A thin, as-made line from the planchet appears on Liberty. Population: 8 in 67 Cameo, 3 finer (5/16). NGC ID# 24NZ, PCGS# 86544

**1904 Half Dollar, PR67 Cameo  
Brilliant Condition Rarity**

- 3892** 1904 PR67 Cameo NGC. Modest field-device contrast appears on each side of this brilliant Superb Gem proof. The 1904 is seldom seen in any Cameo grade, and PR67 Cameos are rare. This piece showcases fully rendered design elements and untouched, liquidlike mirroring in the fields. Eye appeal is outstanding on this Registry-worthy Barber proof. Census: 9 in 67 (2 in 67 ★) Cameo, 1 finer (5/16). NGC ID# 24P8, PCGS# 86551

**1909 Half Dollar, PR66 Cameo  
Sharply Contrasted, Brilliant**

- 3893** 1909 PR66 Cameo PCGS. CAC. Aside from a small amber-gold toning spot between A and R of DOLLAR on the reverse and a hint of pale-gold at the margins, this gleaming proof is untuned and starkly brilliant. The raised devices display mint frost that contrast with glassy fields for the designated Cameo contrast. Fully struck and appealing, this 1909 half measures up to the other Premium Gems we have handled in the past, a statement confirmed by the CAC endorsement label. Population: 19 in 66 Cameo, 12 finer. CAC: 5 in 66, 7 finer (5/16). NGC ID# 24PD, PCGS# 86556

**1910 Half Dollar, Toned PR67 Cameo**

- 3894** 1910 PR67 Cameo PCGS. Variegated shades of green, rose, and gold appear over both sides of this beautiful later proof Barber half dollar. The mildly frosted central devices and watery fields are in pleasing contrast, a seldom-seen state for this post-1902 issue of the brilliant era. Razor-sharp design details and impeccable surface preservation round out this Cameo Superb Gem specimen, one of the finest-known survivors from a low mintage of 551 proofs. Population: 4 in 67 (1 in 67+) Cameo, 0 finer (5/16). Ex: Long Beach Signature (Heritage, 5/2008), lot 797. NGC ID# 24PE, PCGS# 86557

**1914 Half Dollar, PR67  
Flawless, Colorfully Toned Surfaces**

- 3895** 1914 PR67 NGC. CAC. The obverse of this incredible Superb Gem proof is awash in iridescent rose, magenta, and purple toning with glints of sea-green, ice-blue, and gold. The reverse displays similar blue and green hues over the motifs, while purple and rose complement the deeply reflective fields. No mentionable marks appear, even after close study. The 1914 lays claim to the smallest proof mintage among all Barber half dollars with a meager production of just 380 specimens. Remarkably, that total is 70 pieces lower than the second-lowest mintage accomplished one year later, in 1915. The issue ranks third-rarest in the series in PR65 or better condition. Census: 14 in 67 (1 in 67+), 2 finer. CAC: 9 in 67, 0 finer (5/16). Ex: Gene Gardner Collection, Part IV (Heritage, 10/2015), lot 98872; Purchased from Larry Shepherd (8/2006). NGC ID# 24PJ, PCGS# 6561

**WALKING LIBERTY HALF DOLLARS**

**1916 Walking Liberty Half Dollar, MS66  
Ideal First-Year Type Representative**

- 3896** 1916 MS66 PCGS. CAC. Adolph A. Weinman's Walking Liberty design was introduced in 1916. The Mint struck what would stand as one of the smallest mintage in the series — only 608,000 half dollars. This Premium Gem is typically well-struck; Softness on the gown lines was caused by a lack of engraving rather than a weak impression. Smooth, brilliant surfaces radiate softly frosted mint luster and show faint accents of pale gold peripherally. There are only five higher-graded submissions at PCGS (6/16). NGC ID# 24PL, PCGS# 6566

**1916-D Half Dollar, MS66+  
Outstanding Color and Luster**

- 3897** 1916-D MS66+ NGC. The 1916-D Walker is scarce in Premium Gem condition and rare any finer. This Plus-designated piece displays a bold strike and luminous surfaces with mottled olive, gold, amber, and sea-green toning. There are no distracting abrasions, and the eye appeal is outstanding. Census: 40 in 66 (3 in 66+, 1 in 66 ★, 1 in 66+★), 9 finer (5/16). NGC ID# 24PM, PCGS# 6567 Base PCGS# 6567

**1916-D Walking Liberty Half, MS67  
Top-Grade Condition Rarity**

**3898 1916-D MS67 NGC.** Adolph Weinman's artistry was clearly favored by Mint Director Robert Woolley and Treasury Secretary William McAdoo, who selected winning coin designs in the 1916 competition for the dime, quarter, and half dollar. Designs for the dime, half dollar, and reverse of the quarter were initially awarded to Weinman, while Hermon MacNeil was selected for the obverse of the quarter, and Albin Polasek's work was rejected. Later, the reverse of quarter was also given to MacNeil, but the dime and half dollar remained with Weinman.

Unlike the quarter dollar, Weinman's Walking Liberty half dollar was coined at all three operating mints during its first year of production. The 1916-D had the highest mintage of the three (just more than 1 million coins), but all are rarities in Superb Gem condition. This piece is among the finest certified. The strike is sharp, and the glistening luster is devoid of bothersome abrasions. Champagne interiors cede to lovely amber, sea-green, and olive-gold toning in the margins, giving this top-grade 1916-D Walker tremendous eye appeal. Census: 10 in 67 (1 in 67★), 0 finer (5/16). NGC ID# 24PM, PCGS# 6567 Base PCGS# 6567

**ERROR**

**Walking Liberty Half Dollar, MS64  
Double Struck, Second Strike 75% Off Center  
Undated, San Francisco Mint**

**3899 Undated S-Mint Walking Liberty Half Dollar — Double Struck, Second Strike 75% Off Center — MS64 NGC.** A remarkable mint error on a classic, obsolete type. The first strike was normal, but the coin was struck a second time; widely off center toward 6 o'clock, at 6 o'clock relative to the first strike. The second strike effaces the date and STATES OF from the initial strike. The large S mintmark makes it likely that the coin was struck during World War II. The brilliant and lustrous surfaces show only incidental marks. A search of the Heritage online archives indicate only two prior appearances of a double struck Walking Liberty half: lots 3791 and 3797 in our November 2013 Signature, which respectively realized \$24,675 and \$41,125.

## WALKING LIBERTY HALF DOLLARS

1918-S Half Dollar, MS65  
Lustrous and Lightly Toned

**3900 1918-S MS65 PCGS.** Despite a mintage approaching 11 million pieces, the 1918-S half dollar is scarce in Gem Mint State, and anything in higher grade is all but unobtainable. The issue also comes weakly struck, as Bruce Fox writes in his series reference: "Liberty's hand, leg and the branches she holds tend to blend together as one entity."

This Gem, nonetheless, displays an above-average strike. The area to which Fox refers is not quite fully struck on this example, but it does exhibit sharp delineation, and there is distinction between the thumb, hand, branch, and gown. Both sides exhibit strong mint luster and are lightly toned in pastel shades of sky-blue and gold-tan. A few unobtrusive obverse marks are consistent with the grade. Housed in an old green label holder. Population: 33 in 65 (1 in 65+), 3 finer (5/16).

Ex: *Long Beach Signature* (Heritage, 9/2007), lot 1695. NGC ID# 24PX, PCGS# 6576

1921 Walking Liberty Half Dollar, MS64+  
Elusive, Low-Mintage Issue

**3901 1921 MS64+ PCGS. CAC.** The 1921 Walking Liberty half dollar claims the second-lowest mintage of the series at 246,000 pieces, making the issue relatively scarce in today's market, especially in high grade. This Plus-graded Choice specimen exhibits well-detailed design elements, with a touch of softness on Liberty's head and the eagle's leg, but definite separation between the thumb and fingers on the wreath hand. The well-preserved surfaces radiate vibrant mint luster throughout, with a few subtle hints of lavender and pale gold toning. Overall eye appeal is outstanding. PCGS has graded 60 numerically finer examples (5/16). NGC ID# 24R6, PCGS# 6583

**1927-S Walking Liberty Half, MS65  
Condition Rarity in Finer Grades**

- 3902 1927-S MS65 PCGS. CAC.** Ex: Charles Schultz. Strike is a frequent problem with Walking Liberty half dollars, and early issues, particularly those from the San Francisco Mint, display weakly defined design elements. Liberty's head, hand, and the lines of her dress are commonly seen with soft details. While the present coin is not fully struck — perhaps none of this issue are fully struck — it does exhibit above-average sharpness with the only noteworthy weakness seen on Liberty's hand. Hints of violet and golden toning visit the periphery. An eye-catching Gem with no observable marks. PCGS has graded eight numerically finer examples (5/16). NGC ID# 24RA, PCGS# 6587

**1944 Walking Liberty Half Dollar, MS67+  
Spectacular Obverse Toning**

- 3903 1944 MS67+ PCGS. CAC.** This Plus-graded Superb Gem displays vivid shades of burnt-orange and magenta toning on the obverse, while the reverse remains essentially brilliant. The design elements are well-detailed and the impeccably preserved surfaces radiate vibrant mint luster throughout. PCGS has graded a single coin in finer numeric grade (5/16). NGC ID# 24SC, PCGS# 6621

**1946 Half Dollar, MS67+  
A Top-Graded Coin at PCGS**

- 3904 1946 MS67+ PCGS. CAC.** This is an available P-mint Walking Liberty half dollar issue that can be acquired with ease through MS66, but it becomes difficult to find in MS67. The added Plus designation from PCGS and approval sticker from CAC make this a prime candidate for a top Registry Set. Pumpkin-gold, violet, and blue iridescence paint each side with vibrant luster that radiates from the underlying surfaces. Essentially pristine and nearly full struck. Population: 63 in 67 (5 in 67+), 0 finer (5/16). NGC ID# 24SJ, PCGS# 6627 Base PCGS# 6627

**FRANKLIN HALF DOLLAR**

**1962 Franklin Half Dollar, MS66 Full Bell Lines  
None Finer at PCGS**

- 3905 1962 MS66 Full Bell Lines PCGS.** A delightful Premium Gem Franklin half dollar, with sharply detailed design elements that show full definition on the bell lines and virtually pristine surfaces that radiate vibrant mint luster on both sides. Hints of golden-tan, magenta, and burnt-orange toning add to the outstanding eye appeal. Population: 13 in 66 Full Bell Lines, 0 finer (5/16). NGC ID# 24TR, PCGS# 86682

**PROOF FRANKLIN HALF DOLLAR**

**1961 Doubled Die Reverse Franklin Half, PR67**

- 3906 1961 Doubled Die Reverse, FS-801, PR67 PCGS. CAC.** The reverse is dramatically die doubled on this popular *Guide Book* variety. The present piece is a conditional rarity at the top of PCGS population. The obverse displays pleasing cameo contrast, but the reverse is less pronounced and does not warrant the Cameo designation from PCGS. Both sides are brilliant and virtually flawless. Population: 16 in 67, 0 finer. CAC: 5 in 67, 0 finer (5/16). NGC ID# 24TZ, PCGS# 145292 Base PCGS# 6689

**KENNEDY HALF DOLLAR**

**1966 Kennedy Half, MS67+  
Important Registry Set Contender**

- 3907 1966 MS67+ PCGS.** The Kennedy half dollars struck in 1966 are usually found no higher than MS64 or MS65 with scattered bagmarks from indiscriminate handling. Premium Gems are scarcely encountered, and Superb Gems are major condition rarities in high demand from Registry Set collectors. Impressively clean surfaces show a mix of powder-blue and lilac patina with iridescent accents near the right obverse border. Population: 10 in 67 (1 in 67+), 1 finer (5/16). NGC ID# 24WH, PCGS# 6709

## SMS KENNEDY HALF DOLLAR

1964 SMS Kennedy Half, MS68  
One of 12 Coins Certified at PCGS

**3908 1964 SMS MS68 PCGS.** In the words of PCGS CoinFacts: "...the 1964 Special Strike Kennedy Half's [sic] are not supposed to exist. However, there are about a dozen or so examples which have surfaced in the past 15 years. Therefore, it is the scarcest non error or variety Kennedy Half Dollar in existence."

PCGS has certified only 12 examples of the 1964 SMS Kennedy half, including one MS64, six MS67, four MS68, and a single MS69 — and the total number of pieces reported has not changed in at least seven years (6/16). The present example displays the diagnostic needle-sharp strike, swirling die polish lines, and broad, squared rims of the SMS issue. A hint of light champagne toning appears on each side. This issue was first publicly recognized in 1993, when examples that originated with coin dealer Lester Merkin were offered at auction. It has been generally believed for a long time that Merkin acquired the coins from Eva Adams, Mint Director during the time when they were struck. This is a rare opportunity to acquire a truly rare Kennedy half dollar issue. NGC ID# 27WH, PCGS# 6844

## EARLY DOLLARS

1795 Flowing Hair Dollar, VF25  
B-5, BB-27, Ideal 3 Leaves Type

**3909 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1, VF25 NGC.** Bowers Die State III. A smoothly worn and richly toned BB-27 example, with deep-blue shades surrounding bronzelike central motifs. Aside from a few tiny ticks on Liberty's neck, the obverse surfaces show only faint lines and marks while the reverse is virtually mark-free across the fields and devices. A few tiny rim nicks at the lower left edge are noted, as is a small bump at 9 o'clock. There are no adjustment marks. NGC ID# 24WZ, PCGS# 39977 Base PCGS# 6852

1796 Dollar, B-5, BB-65, Choice XF  
Beautifully Centered, Trace Luster Remains

**3910 1796 Large Date, Small Letters, B-5, BB-65, R.2, XF45 NGC.** Bowers Die State IV. The die lump between I and C of AMERICA extends downward, touching the curve of C. This attractive, Choice XF example is boldly struck and free of adjustment marks. Light wear appears on Liberty's head and shoulder, as well as on the eagle's breast, but the devices remain crisp. A small planchet flaw (as struck) exists at 3 o'clock adjacent to the reverse rim. Each side shows pleasing lavender-gray patina. Hints of mint luster remain — especially on the reverse. The NGC Coin Explorer plate coin for the variety. Census: 11 in 45, 8 finer (5/16). NGC ID# 24X3, PCGS# 40002 Base PCGS# 6861

**1797 Silver Dollar, Noteworthy Choice XF  
Attractive 10x6 Stars, B-3, BB-71 Variety**

- 3911 1797 10x6 Stars, Large Letters, B-3, BB-71, R.2, XF45 PCGS.** Bowers Die State II with lapped borders to the right-side palm leaves. Steel-gray and golden-brown at the centers join gunmetal-blue shades at the borders. The eagle's breast feathers exhibit moderate wear, but the wing plumage retains much of its initial detail and Liberty's curls are sharply defined. Both sides are refreshingly unabraded save for a small nick on the reverse rim at 4:30. The scarce 1797 dollars are divided into three different die varieties, which differ sufficiently that each receives a separate *Guide Book* listing. Population: 33 in 45, 38 finer (5/16).  
*Ex:* Fort Worth ANA Signature (Heritage, 3/2010), lot 1175. NGC ID# 24X4, PCGS# 40004 Base PCGS# 6865

**1797 Dollar, Choice XF  
9x7 Stars, Small Letters, B-2, BB-72**

- 3912 1797 9x7 Stars, Small Letters, B-2, BB-72, R.4, XF45 PCGS. CAC.** A 9x7 Stars obverse paired with a Small Letters reverse that is diagnostic. Q. David Bowers writes of the variety in his *Silver Dollars and Trade Dollars of the United States*: "Of all 1797 varieties, the BB-72 is at once the rarest, best known, and most sought after. ... Indeed, it may well be the most famous variety after 1794 and before 1804."

This Choice XF survivor is well-preserved and attractive relative to most of its peers. Glimmers of luster appear at the margins, and dappled olive-gray, deep violet, and steel shadings cover the rest of the coin. Minimally marked and attractive, an entirely pleasing coin for the grade.

*Ex:* Central States Signature (Heritage, 4-5, 2009), lot 2545; FUN Signature (Heritage, 1/2012), lot 3289. NGC ID# CAUT, PCGS# 40005 Base PCGS# 6866

**1797 B-1, BB-73 Silver Dollar, XF45**  
**Exceptional Large Letters Type**

- 3913** 1797 9x7 Stars, Large Letters, B-1, BB-73, R.3, XF45 PCGS. The Draped Bust obverse was introduced in 1795 with a 15 stars obverse design. The same star count appeared on 1796 silver dollars, then increased to 16 stars for the 1797 silver dollars to reflect the statehood of Tennessee. Two different obverse dies were used — one with nine stars to the left and seven to the right, and the other with 10 stars to the left and six to the right. Each is considered a separate subtype of the Draped Bust, Small Eagle design, along with both Large and Small Letters reverses for the 9x7 configuration. This Choice XF Large Letters specimen is mostly light silver at the centers with splashes of heather in the fields and steel-blue toning at the borders. The surfaces are smooth and attractive with traces of remaining silver luster and only minor abrasions. Population: 33 in 45, 45 finer (5/16).

Ex: Sacramento ANA Signature (Heritage, 3/2011), lot 4469. NGC ID# 24X4, PCGS# 40003 Base PCGS# 6863

**1798 Large Eagle Dollar, Choice XF**  
**Scarce B-21, BB-107 10 Arrows Variety**

- 3914** 1798 Large Eagle, Pointed 9, 10 Arrows, B-21, BB-107, R.5, XF45 PCGS. Bowers Die State II. A tadpole-shaped die lump above the 79 in the date distinguishes this better BB-107 variety. Deep lavender, sea-green, and walnut-brown dominates the partly lustrous and evenly struck surfaces. A small depression at the reverse center is from a strike-through, as made, and the reverse also displays minor adjustment marks at the borders and on the eagle's neck, although they are for the most part diminished by the strong strike. The sole mentionable mark is pinscratch above the 8 in the date. Population: 16 in 45, 8 finer (5/16).

Ex: FUN Signature (Heritage, 1/2011), lot 3947. NGC ID# 24X6, PCGS# 40024 Base PCGS# 6876

**1798 Heraldic Eagle Dollar, XF45**  
**Pointed 9, Wide Date, B-12, BB-120**

- 3915** 1798 Large Eagle, Pointed 9, Wide Date, B-12, BB-120, R.4, XF45 PCGS. Bowers-Borckardt Die State IV. The Wide Date with a Pointed 9 and the line star pattern on the reverse identify the scarce BB-120 variety. The BB-120 is seldom encountered in grades above XF. This Choice XF specimen retains much interior detail in the hair a drapery, with traces of original mint luster on both sides. The rose-gray surfaces show a scattering of minor abrasions and an extensive network of die cracks, but no planchet adjustment marks. Population: 2 in 45 (1 in 45+), 3 finer (5/16). NGC ID# 24X6, PCGS# 40037 Base PCGS# 6877

**1800 AMERICA! Dollar, XF40**  
**Scarce B-11, BB-191, Wide Date, Low 8**

- 3916** 1800 AMERICA!, B-11, BB-191, R.4, XF40 PCGS. Bowers Die State II. This is by far the scarcer of the two AMERICA! varieties, with a stray engraver's mark to the right of the final A in AMERICA, loosely resembling an "I." The BB-191 shares the Wide Date, Low 8 obverse with the BB-190 variety. Rich purple-gray patina in the fields contrasts sharply against the light, silver-gray color on the devices for a pronounced "circulation cameo" effect. A few small, deep areas of toning visit each side of this crisply struck early dollar, most noticeably on Liberty's cheek and in the reverse stars. Faint lines and a peppering of tiny marks are noted on the obverse and above eagle's head and neck. BB-191 is one of the more challenging issues for the year. Population (both AMERICA! varieties): 11 in 40, 37 finer (5/16). NGC ID# 24X9, PCGS# 40081 Base PCGS# 6892

1800 B-13, BB-193 Dollar, Choice AU  
Smooth, Appealing Surfaces

- 3917** 1800 B-13, BB-193, R.3, AU55 ANACS. Bowers die State II. A relatively early die state of this plentiful variety, with die clashing at the clouds and at OF on the reverse legend. Both the obverse and reverse are unique to the BB-193. Later states of the die show extensive die cracks on both sides (thus the sole use of the dies), although no cracks appear on this coin. Bold rims and dentils surround attractive olive-gray surfaces that flash golden luster at the margins. The strike is sharp throughout. The fields are abrasion-free, with a few small marks visible on the neck and cheek consistent with the Choice About Uncirculated grade. NGC ID# 24X9, PCGS# 40077 Base PCGS# 6887

1802 Narrow Date Dollar, AU50  
B-6, BB-241, Lightly Toned Example

- 3918** 1802 Narrow Date, B-6, BB-241, R.1, AU50 NGC. Bowers Die State III. B-6 receives a separate *Guide Book* listing as the sole "Narrow Normal Date" variety. Almond-gold and sky-gray tones emerge from this lightly toned and briefly circulated early dollar. Plentiful pockets of luster fill design crevices, and no abrasions are worthy of individual mention. Adjustment marks are faint and localized to 4:30 on the obverse.  
Ex: *Beau Clerc Collection (Heritage, 9/2007)*, lot 1895. NGC ID# 24XB, PCGS# 40088 Base PCGS# 6895

1802 Narrow Date Dollar, AU53  
B-6, BB-241, Lightly Toned

- 3919** 1802 Narrow Date, B-6, BB-241, R.1, AU53 PCGS. Bowers Die State III, called by Bowers the "close perfect date." A wide space between the 8 and 0 of the date confirms the variety. Faint traces of olive-gold color and ivory-gold shades enrich the obverse. Chestnut and ice-blue accents briefly visit the reverse. A hint of friction is noted on the cheek and drapery, but this lovely piece provides substantial mint luster and nearly all of its original detail. Light adjustment marks, as made, are localized to 2 o'clock on the reverse yet appear to a lesser extent in other areas near the rims, and a few light pinscratches are noted on both sides. A minor retained lamination, as struck, reaches the Y in LIBERTY. 1802 Draped Bust Dollars of the present quality are infrequently offered, and are insufficient to satisfy the growing number of early dollar collectors. NGC ID# 24XB, PCGS# 40088 Base PCGS# 6895

1803 B-6, BB-255 Dollar, AU50  
Large 3, Originally Toned

- 3920** 1803 Large 3, B-6, BB-255, R.2, AU50 NGC. Bowers Die State III with a hairline die crack through the right-side obverse stars. A mauve-gray early silver type coin that displays glimpses of lime-green and steel-blue. Abrasions of any relevance are refreshingly absent, and luster beckons from the eagle and reverse legends. Struck from moderately rotated dies.  
Ex: *Dr. Hesselgesser Collection (Ira & Larry Goldberg, 2/2007)*, lot 1609; *Long Beach Signature (Heritage, 2/2010)*, lot 1293. NGC ID# 24XD, PCGS# 40101 Base PCGS# 6901

## GOBRECHT DOLLAR

### 1836 Gobrecht Dollar, PR50 Judd-60, Die Alignment I

- 3921** 1836 Name on Base, Judd-60 Original, Pollock-65, R.1, PR50 PCGS. CAC. Silver. Plain Edge. Die Alignment I (center of Liberty's head is opposite the D in DOLLAR). No diagonal die clash mark is seen above the eagle's wing. All Judd-60 Originals were struck in the final week of December 1836, according to the Mint's account books. It seems odd to see a CAC sticker on a coin with 10 points of wear — until you see this coin. It is truly special and even more so when it is compared to the often-seen heavily toned and / or hairlined dollars usually encountered in circulated grades. Of course, a magnifier will reveal a number of small contact marks. There is also a very shallow X-shaped scratch below the eagle's claw. But the color is pleasing gray-blue and easy to see through. Light wear is apparent over the high points. NGC ID# BLWV, PCGS# 11225

## SEATED DOLLARS

### 1842 Silver Dollar, MS64 Tied for the Finest Certified

- 3922** 1842 MS64 PCGS. The Philadelphia Mint produced 184,618 silver dollars in 1842, and the typical surviving specimen grades XF or AU. True Mint State examples are exceedingly scarce, and Choice Mint State pieces are rare. PCGS and NGC have each certified 18 examples, and neither service has certified a finer piece (5/16). This impressive example has excellent design definition, with weakness only on a few stars and on the eagle's neck and leg, and even those areas retain partial feather detail. The satiny silver surfaces are brilliant and untuned, showing only trivial marks. NGC ID# 24YC, PCGS# 6928

### 1846 Dollar, MS64 Very Scarce in This Grade

- 3923** 1846 MS64 NGC. Repunched 1, OC-1. Osburn-Cushing Die State g/f. Mottled golden-olive and russet patina embraces each side of this attractive near-Gem example. Trivial softness occurs on stars 4 and 5 and on a few of the eagle's neck feathers, while the other design elements are crisply rendered. Marks are virtually unseen without magnification. An array of die cracks traverse the top of the reverse legend, with a heavy crack across the rim to STA of STATES with the beginnings of a retained cud between D and ST. Such advanced die cracks are seldom seen on Seated dollars, which normally have lesser mintages. On the obverse, faint die cracks remain among the right-hand stars despite die polishing. The 1 in the date is repunched at the top, barely visible on this Choice, late die state coin. Census: 22 in 64 (1 in 64+), 3 finer (5/16). Ex: American Numismatic Rarities (10/2008), lot 417; Eugene H. Gardner Collection, Part IV (Heritage, 10/2015 as MS64 NGC), lot 98777. NGC ID# 24YH, PCGS# 6932

### 1846 Silver Dollar, MS64 Sharp and Thoroughly Original

- 3924** 1846 MS64 PCGS. CAC. Reflective surfaces are muted by the thick, medium-gray toning that glows with orange and blue highlights fueled by substantial mint luster. The strike is bold but not full, with slight blending of Liberty's hair strands, the eagle's leg feathers, and the talon details. No repunching is visible on the date, unlike many of the issue. An attractive near-Gem example, challenging in this Choice grade and rare thereafter. CAC endorsed, just two pieces are numerically finer at PCGS. Population: 25 in 64 (2 in 64+), 2 finer. CAC: 5 in 64, 3 finer (5/16). NGC ID# 24YH, PCGS# 6932

### 1850 Seated Dollar, MS61 Prooflike Fields

- 3925** 1850 MS61 NGC. OC-1. The 0 in the date is recut on its lower-left edge, and a heavy die line slants down left to right in the right horizontal shield stripes. This Mint State 1850 Seated dollar is sharply struck and deeply prooflike with a hint of cameo contrast. Save for traces of light golden toning around the borders, the coin is brilliant. Light, scattered marks in the fields define the grade but are surprisingly unobtrusive. Census: 12 in 61, 21 finer (6/16). NGC ID# 24YM, PCGS# 6937

**1864 Seated Liberty Dollar, MS62+  
Pleasing Surfaces**

**3926 1864 MS62+ PCGS. CAC.** From a mintage of 31,170 pieces, the 1864 Seated Liberty dollar is always in demand because of its status as a low-mintage Civil War era issue. This Plus-graded MS62 example offers well-detailed design elements and pleasing lavender-gray surfaces that show the minimum number of minor contact marks for the grade. Population: 6 in 62 (1 in 62+), 24 finer. CAC: 1 in 62, 13 finer (5/16). NGC ID# 2427, PCGS# 6954

**1870-CC Silver Dollar, AU55  
First-Year Carson City Scarcity**

**3927 1870-CC AU55 PCGS. OC-1, R.4.** Osburn-Cushing Die State a/a. The date sits slightly high in the obverse exergue, and the Large CC mintmark is widely spaced compared to the other reverses. Nine die pairs were used to strike just 12,462 1870-CC dollars. A series of tiny die lines on the portrait (including an upcurved one in the unfinished area beneath Liberty's chin) confirm the OC-1 obverse. A spike from the dentil beneath L in DOL. identifies the reverse. This example is semiprooflike throughout both sides with some delicate lines throughout the fields. Mottled gold and lilac toning joins soft mint luster throughout both sides. The obverse strike is a bit subdued as usually seen on this first-year dollar, the most readily available date among the four CC issues in the series. Still, a Choice, scarce coin in unceasingly strong demand among Seated dollar specialists. Population: 36 in 55, 32 finer (5/16). NGC ID# 24ZE, PCGS# 6964

**1872-CC Dollar, AU Details  
Low-Mintage Issue, Seldom Seen This Sharp**

**3928 1872-CC — Artificial Toning, Cleaning — NGC Details. AU. OC-1, High R.3.** Osburn-Cushing Die State a/a. A boldly detailed example of this semikey Carson City issue — one of only four from this mint in the Seated dollar series. Moderately reflective fields are evident beneath the deep, mottled toning that blankets each side in lavender-gray, gold, and russet-olive hues. Some reddish residue remains among the devices from a past cleaning. The 1872-CC had a small mintage of 3,150 coins, reflecting limited commercial demand for silver dollars in the Nevada territory in the early 1870s.

## PROOF SEATED DOLLARS

### 1846 Seated Dollar, PR65 Boldly Repunched Date Second-Finest Proof Known

**3929 1846 PR65 PCGS Secure. CAC.** Identified as the Breen-5436 variety, with a noticeably double-punched date and remnants of the secondary digits below the primary numerals, far below their correct position. Although few proof dollars were issued by the Mint dated 1846, David Bowers reports that perhaps as many as 40 to 60 proofs were struck. Robert Julian suspected some well-heeled customer simply purchased several, or extras were struck for future sales in upcoming years.

The Mint was pointedly quiet about the number of proofs struck for each pre-1858 date. All early proof Seated dollars are undoubtedly rare, and most are restrikes made later than their stated date. Many share a “common reverse” with a defect at the final A of AMERICA above the right edge of the crossbar and on the adjacent right upright. Duncan Lee in a notable *CDN Newsletter* considered all such coins with the shared reverse to be restrikes. He mentions the dramatically recut date and rates the 1846 issue as the ninth scarcest of all Seated dollar proofs.

Somehow, the estimated mintage has not translated to the grading services, with PCGS and NGC combined reporting just 25 grading events. PCGS estimates only 20 to 30 proofs survive for the date. Among those that do exist, PR64 seems to be the highest somewhat-attainable grade, with just two coins certified finer than the present piece by either service.

This PR65 coin is one of the two rare, finest-known examples and it is apparently the second-finest proof 1846 dollar known. The coin is splendid, with watery-deep mirrors and vivid iridescent patina on both sides. Wide, square rims surround the fully struck surfaces. Shades of orange, blue, lavender, and gold cover the glittering fields and lightly frosted devices. A few light lines are visible with a glass beneath the toning near star 13, but they do not detract in the least from the overall visual impact. NGC ID# 24ZW, PCGS# 6987

**1858 Seated Dollar, PR55  
Popular Proof-Only Date**

- 3930 1858 PR55 PCGS. OC-P1.** Osburn-Cushing Die State a/a. There are no reliable Mint records for the number of proofs struck in 1858, other than the fact that it is a proof-only year and that no business strikes exist. Most estimates suggest around 300 proofs were made from two die marriages. A die lump on the L of DOL. confirms the reverse die employed on this example was used to strike proofs in 1856 and 1857, as well as a few of the rare Restrike proofs dated 1851 and 1852. The PR55 grade suggests the coin either circulated briefly or was mishandled. Although the pale-gold surfaces are busy with light abrasions, there no heavy marks. A full strike remains in evidence with glimpses of the original mirrored proof fields. Population: 5 in 55, 92 finer (5/16). NGC ID# 252C, PCGS# 7001

**1863 Seated Liberty Dollar, PR64 Cameo  
Only 460 Pieces Struck**

- 3931 1863 PR64 Cameo PCGS. CAC. OC-P1.** The richly frosted design elements of this impressive Choice example contrast dramatically with the deeply reflective fields to produce a startling Cameo effect. The devices are sharply rendered and the fields show a few traces of champagne-gold toning. Population: 14 in 64 (1 in 64+) Cameo, 4 finer. CAC: 11 in 64, 3 finer (5/16). NGC ID# 252H, PCGS# 87006

**1867 Seated Dollar, PR64 Cameo  
Nearly Untoned With Bold Contrast**

- 3932 1867 PR64 Cameo NGC. OC-P1.** Osburn-Cushing Die State a/a. A brilliant proof, untuned except for a faint glint of pale-gold in the right obverse field and within the recesses of the reverse shield stripes. The devices display smooth-white mint frost that earns the Cameo designation. Given the scarcity of high-grade business strikes for the 1867 issue, proofs are in demand by date collectors and series specialists. The strike is razor-sharp on both sides, with only a few delicate lines and small obverse planchet pits visible with a loupe, but few flaws are visible to the unaided eye. Census: 19 in 64 Cameo (2 in 64+, 1 in 64★), 22 finer (6/16). NGC ID# 252N, PCGS# 87015

**1870 Seated Dollar, PR65  
Doubled Die Reverse**

- 3933 1870 PR65 ANACS. OC-P1.** Osburn-Cushing Die State a/a. Reddish-gold toning is deepest at the borders, while glassy-mirrored fields surround nicely frosted central devices. An attractive and well-produced proof, with fully struck motifs and mark-free surfaces save for one or two tiny lintmarks. Die doubling is visible on the scroll borders and at IN GOD. This is a full-fledged, gleaming Gem with substantial field/device contrast, housed in an early generation ANACS holder. NGC ID# 252S, PCGS# 7018

**1870 Seated Liberty Dollar, PR64 Cameo  
Frosted Motifs, Reflective Fields**

- 3934 1870 PR64 Cameo NGC. OC-P1.** Osburn-Cushing Die State a/a. The 1870 proof Seated Liberty dollar is more difficult to locate than its generous mintage of 1,000 pieces suggests. This attractive Choice specimen displays sharply detailed design elements in most areas, with a touch of softness on the eagle's leg. The deeply reflective fields show a few minor hairlines and contact marks and wisps of pale gold toning add to the considerable eye appeal, including an arc of plum-red mint frost across Liberty's midsection. The smoothly rendered motifs offer bold contrast to the glassy fields. Census: 11 in 64 Cameo, 15 finer (6/16). NGC ID# 252S, PCGS# 87018

**TRADE DOLLARS**

**1877-S Dollar, Original MS65 Seldom Offered So Fine**

- 3935 1877-S MS65 NGC.** Minute S, rare. The generous mintage of nearly 10 million pieces for the 1877-S Trade dollar issue and more than 4 million for the 1878-S can be viewed in hindsight as the last great gasps of this interesting silver dollar series. Comparable Gem 1877-S dollars appear far less often than expected, since many were melted after legal tender status was lost. This cream-gray and cobalt-blue example boasts a bold strike and surfaces unimpaired by any marks worthy of mention. Ideal for type purposes. Census: 27 in 65, 6 finer (6/16). NGC ID# 253E, PCGS# 7046

1878-S Trade Dollar, MS66  
Top-Notch Type Coin

**3936 1878-S MS66 PCGS. CAC.** There is minor die doubling on most of the reverse lettering, most noticeable on 420 GRAINS and on TRADE, but the doubled reverse appears to match neither of the *Cherrypickers'* varieties in that reference.

This marvelous Premium Gem 1878-S Trade dollar is fully struck and intensely lustrous, both sides displaying a pleasing mix of sea-green, gold, and rose coloration. The surfaces are well-preserved, with two or three minor marks on the obverse and a nearly blemish-free reverse. The 1878-S Trade dollar is known as a common date, even in Mint State grades, but this is a relative term as far as the series is concerned, since most business strikes were still being exported to China. Thus, there are hundreds of Uncirculated survivors, but that is from an original mintage exceeding 4.1 million pieces. This example offers inherent and aesthetic advantages that make it a top-notch type coin.

Ex: FUN Signature (Heritage, 1/2008), lot 2966; Eugene H. Gardner Collection, Part III (Heritage, 5/2015), lot 98591. NGC ID# 253G, PCGS# 7048

PROOF TRADE DOLLARS

1873 Trade Dollar, Near-Gem Cameo  
First-Year Proof Beauty

**3937 1873 PR64 Cameo PCGS. CAC.** A transitional year for silver dollars, marking the end of the Seated Liberty series and the beginning of the Trade dollar series. Both designs were coined in business strike and proof format during the year. This splendid Cameo proof Trade dollar has few superiors at either service in the Cameo category. Both sides are sharp and attractive, with lustrous devices and deeply mirrored fields. Subtle gold toning adds to the eye appeal. Population: 27 in 64 (4 in 64+) Cameo, 2 finer. CAC: 9 in 64, 1 finer (5/16).

Ex: Central States Signature (Heritage, 4/2011), lot 3893; Chicago Signature (Heritage, 8/2011), lot 4381; Philadelphia Signature (Heritage, 8/2012), lot 3554. NGC ID# 27YJ, PCGS# 87053

1875 Trade Dollar, PR67  
Delightful Original Toning, Ex: Gardner

**3938 1875 Type Two Reverse PR67 NGC.** The 1875 Trade dollar had a low business strike mintage of only 218,200 coins, the lowest P-mint production total and third-lowest of all 17 issues. Only the 1873-CC and 1878-CC had lower mintages. Given the issue's rarity in Mint State, many collectors choose a proof to represent this date. The present remarkable piece ranks among the finest non-Cameos certified. This Superb Gem proof 1875 Trade dollar boasts fully reflective surfaces showing pristine preservation amid wonderful light lilac and sky-blue toning that deepens closer to the border. The top of Liberty's head is a trifle soft, as is typical of proofs struck from this die pair, but the design elements are otherwise crisp. A highly desirable example. Census: 5 in 67, 0 finer (5/16).  
Ex: Long Beach Signature (Heritage, 2/2009), lot 1642; Eugene H. Gardner Collection, Part III (Heritage, 5/2015), lot 98592 (as PR66 PCGS. CAC). NGC ID# 27YL, PCGS# 7055

1881 Trade Dollar, PR65 Popular Proof-Only Issue

**3939 1881 PR65 NGC.** Once Morgan dollar production began in 1878, Trade dollar coinage at Philadelphia was limited to a small run of proof strikes each year through 1883, or 1885 if the major rarities are included. The 1881 had the second lowest production of those issues when 960 proofs were coined. This impressive piece has bold design definition beneath rich steel-blue, lavender, and sea-green toning. Census: 39 in 65, 26 finer (5/16). NGC ID# 27YT, PCGS# 7061

MORGAN DOLLARS

1878 8TF Morgan, MS66  
VAM-14.1, 'Alligator Eye'

**3940 1878 8TF Alligator Eye, VAM-14.1, MS66 PCGS.** Light die doubling on Liberty's eye gives this variety its moniker. The reverse is also lightly die doubled on most elements. The present coin displays a sharp strike and outstanding preservation. A blush of light golden toning warms the softly frosted luster. Finer eight tailfeathers 1878 Morgans are exceedingly rare. Population (all 8TF varieties included): 52 in 66 (4 in 66+), 2 finer (5/16). PCGS# 133796 Base PCGS# 7072

1878-CC Morgan Dollar, MS66+  
Frosty and Attractive

**3941 1878-CC MS66+ PCGS. CAC. VAM-9.** Mintmark tilted right, broken right-hand star. This CAC-endorsed Premium Gem 1878-CC Morgan dollar displays brilliant, frosty luster with razor-sharp relief detail. The only mentionable abrasion is a thin pinscratch hidden within the eagle's tailfeathers that blends well with the distinct die line in the fields of that region. Eye appeal is superb. This first-year Carson City Morgan is rarely seen finer, with PCGS having graded only six such coins (6/16). NGC ID# 253M, PCGS# 7080

## GSA DOLLAR

1879-CC GSA Dollar, MS63  
VAM-3, Capped Die, Top 100

- 3942** 1879-CC Capped Die, VAM-3, GSA, MS63 NGC. A Top 100 Variety. Rich golden-brown, mauve, and navy-blue toning endows the upper reverse. The obverse shows similar shades near the date. Lustrous and nicely struck with smooth fields and moderate marks on Liberty's face and neck. The dramatic VAM with myriad die chips in the vicinity of the mintmark. NGC ID# 253U, PCGS# 533225 Base PCGS# 518848

## MORGAN DOLLARS

1879-S Morgan Dollar, MS68  
Beautiful Two-Sided Toning

- 3943** 1879-S MS68 PCGS. For collectors seeking a stellar type coin, an MS68 Morgan dollar is difficult to surpass, and this 1879-S is a standout coin even within that grade. Lovely ice-blue, yellow-gold, crimson-orange, and violet hues color the left side of the obverse and encompass the reverse. The strike is bold, and the preservation is remarkable. A hint of flash in the fields only adds to the impressive visual display. None are numerically finer (5/16). NGC ID# 253X, PCGS# 7092

1881 Morgan Dollar, Brilliant MS66+  
Exceptional Eye Appeal

- 3944** 1881 MS66+ PCGS. CAC. The PCGS Plus designation with CAC endorsement sets this high-end Premium Gem apart from an exclusive group of MS66 coins, and a step closer to the coveted Superb category where the service has certified just five examples. Blazing white with strong silver luster, this sharply struck Philadelphia example shows only a few tiny ticks that are easily overshadowed by the outstanding eye appeal. Population: 14 in 66+, 5 finer. CAC: 23 in 66, 0 finer (5/16). NGC ID# 2546, PCGS# 7124

1882 Silver Dollar, MS67  
Condition Census Rarity

- 3945** 1882 MS67 NGC. Unlike that of the San Francisco issue of this year, the 1882 Philadelphia Morgan dollar's availability begins to peter out rather quickly on the topside of MS65. Superb Gems are genuinely rare and none are known in Prooflike or Deep Mirror Prooflike strikes. NGC and PCGS combined list only 19 pieces in MS67 and none finer (although each service reports the existence of an MS67+ coin) (5/16). Further substantiating its rarity in this grade, our Auction Archives show only four previous appearances of an 1882 dollar in MS67, all occurring in a 10-year period from 2004 to 2014.

This magnificent example deserves the utmost attention. The strike is razor-sharp, and the unabraded surfaces yield vibrant, cartwheeling luster with a thick, frosty texture. The interiors show a faint glimpse of champagne color, surrounded by a halo of deeper gold at the rims. Undeniably a rare and important opportunity for the Morgan dollar collector. NGC ID# 254A, PCGS# 7132

**1884-CC Silver Dollar, MS67+  
Excellent Obverse Color  
Few Pieces Known Finer**

- 3946 1884-CC MS67+ PCGS. VAM-4A.** 30th Anniversary Green Label Holder. This 1884-CC will appeal to the specialist not only for its color and die characteristics, but also for its Superb Gem surface quality and sharp strike. Sky-blue, sun-gold, and copper-orange toning with ruby red and violet accents adorn the obverse. The reverse is brilliant — silver-white and untoned. The VAM-4A designation signifies a repunched stand on the 1 in the date, with the “pinned wing” die gouge on the reverse. A die crack above AMERICA branches at the top serif of E, where a raised lump approaches VAM-4B. PCGS has seen only three finer representatives (6/16). NGC ID# 8BBF, PCGS# 7152

**1887-O Morgan Dollar, MS65+  
Seldom Seen Finer**

- 3947 1887-O MS65+ PCGS.** The 1887-O was not a well-produced issue, as the demands of striking more than 11.5 million silver dollars strained the dies and machinery to the limit. This Plus-graded Gem exhibits a better-than-average strike, with just a touch of softness on the hair above the ear, and the well-preserved surfaces radiate vibrant mint luster. Eye appeal is terrific, something that can rarely be said about an 1887-O. PCGS has graded 10 numerically finer examples (5/16). NGC ID# 2547, PCGS# 7176

**1890-S Dollar, MS66+  
Lively Luster, Great Eye Appeal**

- 3948 1890-S MS66+ PCGS. CAC.** Bags of 1890-S dollars were paid out from the San Francisco Mint in the 1940s and 1950s, so although millions of coins were probably melted under the terms of the Pittman Act (1918), examples are available through MS66. The issue tends to come sharply struck with lively luster, and this Premium Gem does not disappoint. Each side is mainly brilliant with blushes of coppery-gold patina that confirm this coin's originality. PCGS counts seven higher grading events (5/16). NGC ID# 255F, PCGS# 7202

**1892-CC Dollar, Frosty MS65  
Attractively Toned**

- 3949 1892-CC MS65 PCGS.** Although not a common date, the 1892-CC Morgan silver dollar is also not one of the rarities in the series. Nonetheless, Gem examples are truly difficult to locate, especially with the eye appeal of this specimen. Both sides have pleasing golden-brown color with sea-green and iridescent toning, all over frosty mint luster. Just 32 finer non-prooflike examples of this date have been certified by PCGS (5/16).  
*Ex: Long Beach Signature (Heritage, 9/2006), lot 5380. NGC ID# 255M, PCGS# 7214*

**1893-CC Silver Dollar, MS63**

- 3950 1893-CC MS63 PCGS.** This Select 1893-CC Morgan showcases remarkably radiant cartwheel luster that dazzles the eye. The devices are boldly rendered, and light, scattered ticks are all that limit the grade. This piece shows hints of lavender and pale champagne toning on each side, and the visual appeal far surpasses expectations for the grade. NGC ID# 255S, PCGS# 7222

**1893-S Dollar, VF25  
Light Gray, Problem-Free Surfaces**

- 3951 1893-S VF25 PCGS.** This VF '93-S would be perfect for a circulated set of Morgans. Each side is light gray with slightly darker accents surrounding the devices. There are no marks present that are inconsistent with the grade and the handling the coin received from years in the channels of commerce. With the acquisition of this dollar, the circulated Morgan collector's next big challenge is to locate a similarly graded 1885-CC. NGC ID# 255U, PCGS# 7226

**1893-S Silver Dollar, XF45  
Collector-Grade Example**

- 3952 1893-S XF45 PCGS.** A deeply toned 1893-S dollar with olive-gray patina over lighter golden undertones. The coin is well-detailed and pleasing for the Choice XF grade. This San Francisco key is seldom seen in the upper circulated grades. The present piece will appeal to a range of Morgan dollar enthusiasts. NGC ID# 255U, PCGS# 7226

**1893-S Silver Dollar, Choice XF  
Border Toning**

- 3953 1893-S XF45 PCGS.** Steel-gray with deeper olive and russet toning around the borders, this Choice XF 1893-S dollar offers better-than-average eye appeal for the grade. Wear is light, but a couple of mentionable abrasions are present: a scrape on the left edge of the eagle's breast and a thin scratch in front of Liberty's eye. The coin is otherwise problem-free and appealing. NGC ID# 255U, PCGS# 7226

**1895-S Dollar, MS63  
Scarce, Low-Mintage Issue**

- 3954 1895-S MS63 PCGS.** PCGS 30th Anniversary Holder. Always a popular collector coin, there were only 400,000 dollars struck in San Francisco in 1895. The obverse on this piece is a bit choppy, but the reverse is remarkably clean. The bright mint frost shows light golden-brown toning scattered over each side. Sharply defined throughout. NGC ID# 255Z, PCGS# 7238

**1901 Dollar, Key MS63  
Rarely Found Finer**

- 3955 1901 MS63 NGC.** The Morgan dollar series has been and continues to be one of the most popular series in American coinage. Collectors can assemble a variety of sets, and most issues are widely available in Mint State, if only lower grades. P-mint Morgans tend to be among the most collectible issues in the series, but that general rule fails to apply to the 1901, a well-known condition rarity. The popularity of the series places added pressure on the limited number of high-grade 1901 representatives. Select examples are very scarce, and the rarity of near-Gems prevents most specialists from even considering adding an example to their collections.

The obverse of this MS63 dollar is gray-gold, while the reverse is mostly brilliant. Well-struck for the date with the usually seen central incompleteness. Scattered marks are in line with the grade, and a tiny rim nick occurs between RI in PLURIBUS. NGC has certified only 23 finer examples (6/16). NGC ID# 256J, PCGS# 7272

**1901 Silver Dollar, MS63+  
Uncommon Quality for the Issue**

**3956 1901 MS63+ NGC.** The 1901 is the condition key of the 20th century portion of the Morgan dollar series. Most of the nearly 7 million coins minted were either paid out shortly after production or were melted in 1918 under the terms of the Pittman Act. No bag quantities of Mint State examples are known, and most of the Uncirculated pieces around today turned up randomly in mixed bags or dealer stocks. Today, Uncirculated coins are in short supply and primarily grade in the MS60 to MS62 range.

This Plus-designated Select example is a delight for the advanced collector, and finer examples are rare. The eagle's breast is a trifle soft, as usual, but the surfaces are surprisingly clean for the grade. A loupe reveals a few trivial marks on Liberty's cheek that prevent a finer designation. Other than a halo of amber-gold peripheral toning, this high-end 1901 Morgan dollar is brilliant. NGC has seen only 23 finer submissions (6/16). NGC ID# 256J, PCGS# 7272

**1904 Dollar, Colorful MS66  
A Great Registry Offering**

**3957 1904 MS66 PCGS.** Little attention was paid to the 1904 until recent decades, as its status as a condition rarity became solidified. Most examples are poorly struck with dull surfaces and numerous bagmarks. This Premium Gem dollar is a pleasing exception that features beautiful multicolor patina in shades of sea-green, ice-blue, violet, and gold. Luster percolates through the toning. The strike is far above-average despite a hint of softness on the breast feathers. This is a great chance for the advanced collector to acquire one of the finest certified examples of this late-date emission. Population: 26 in 66 (2 in 66+), 0 finer (6/16). NGC ID# 256U, PCGS# 7290

**PROOF MORGAN DOLLARS**

**1879 Morgan Dollar, Brilliant PR64 Cameo**

**3958 1879 PR64 Cameo PCGS. CAC.** The 1879 is of obvious interest because of the earliness of the date, but it is also a scarce date that is not seen in high grade or with cameo contrast. This is an all-brilliant proof that shows deeply reflective mirrors on each side. The mint frost establishes noticeable contrast. There are very few contact marks present, certainly none that merit individual mention. Population: 23 in 64 (4 in 64+) Cameo, 39 finer. CAC: 9 in 64, 9 finer (5/16).

*From The Pellegrini Collection, Part III.* NGC ID# 2722, PCGS# 87314

**Choice Proof 1881 Morgan Dollar  
Intensely Contrasted Cameo Example**

**3959 1881 PR64 Cameo PCGS. CAC.** The 1881 proof Morgan dollar claims a mintage of 984 pieces, but it is likely that some examples were melted at the end of the year. This rare Choice Cameo example displays deeply mirrored fields and sharply detailed frosty devices that provide intense cameo contrast. Population: 30 in 64 (2 in 64+) Cameo, 25 finer. CAC: 8 in 64, 9 finer (5/16).

*From The Pellegrini Collection, Part III.* NGC ID# 2725, PCGS# 87316

1884 Morgan Dollar, PR66+ Cameo  
Delightful Original Toning  
Rarely Seen This Fine

**3960 1884 PR66+ Cameo PCGS. CAC.** Trade dollar proof coinage officially ceased in 1883, making the Morgan dollar the only issue available to collectors in 1884. This issue is not unusually scarce in the absolute sense, but Cameo examples are. Typically, contrasted 1884 proofs grade below the Gem level, and high-end coins such as the present piece are rarities.

A loupe showcases clean fields and razor-sharp, frosty devices. Much of each side is cast in warm champagne-gold toning in a woodgrain patterns, but tinges of sky-blue, lavender, and mint-green appear around the peripheries. Strong field-motif contrast emerges from beneath the patina on each side. Population: 10 in 66 (3 in 66+) Cameo, 3 finer. CAC: 6 in 66, 1 finer (5/16). NGC ID# 27ZB, PCGS# 87319

1887 Morgan Dollar, PR67  
Only One Finer Specimen at PCGS

**3961 1887 PR67 PCGS. CAC.** Only 710 proof Morgan dollars were struck in 1887, a significantly smaller production total than those of previous years. Few survivors show strong field/device contrast, suggesting that the proof dies must have been polished more extensively than usual, reducing the mint frost on the design elements.

The coin offered here is a stunning Superb Gem, with razor-sharp definition on all design elements and deeply mirrored fields that show no mentionable flaws. Traces of attractive champagne-gold toning grace the surfaces of both sides, adding to the extraordinary eye appeal. Population: 3 in 67, 1 finer. CAC: 2 in 67, 1 finer (5/16). Ex: ANA Signature (Heritage, 10/2012), lot 5046. NGC ID# 27ZG, PCGS# 7322

1888 Silver Dollar, PR65 Cameo  
Rarely Finer

**3962 1888 PR65 Cameo PCGS.** Ex: JFS Collection. Breen-5600, described by him as "very rare." It was circa 1888 that the quality of proof coins reached a low level, leading Harlan P. Smith to make a formal complaint about this quality. As a rule, proof coins from this period are not nearly as nice as those of earlier years, but the blazing eye appeal of this specimen marks it as an outstanding exception. Consider this to be an excellent opportunity as it may be a long wait before a similar example appears on the market.

This Gem displays rich gold toning toward the borders and lighter champagne at the centers. The design features are quite sharp, especially at the centers, although a few hair strands over the ear are merged together. Bold contrast completes this Cameo coin. Population: 8 in 65 Cameo, 5 finer (5/16).

Ex: *Heritage* (1/2005), lot 11966; *JFS Collection* (*Heritage*, 1/2006), lot 7047.

**From The Pellegrini Collection, Part III.** NGC ID# 27ZH, PCGS# 87323

1891 Dollar, PR66+ Cameo  
CAC-Endorsed High-Grade Rarity

**3963 1891 PR66+ Cameo PCGS. CAC.** Any 1891 proof Morgan is a rarity in Premium Gem condition, but given the inherently limited availability of Cameos in general, contrasted PR66 coins are major rarities. This CAC-endorsed example is the only Plus-designated Premium Gem Cameo at PCGS (5/16), with finer coins seldom seen. Stark field-device contrast is immediately apparent on each side, showing nearly Deep Cameo eye appeal. Warm golden toning accentuates the surfaces, and small hints of blue-green appear occasionally around the outer peripheries. Population: 11 in 66 (1 in 66+) Cameo, 3 finer. CAC: 4 in 66, 2 finer (5/16). NGC ID# 27ZL, PCGS# 87326

---

1893 Morgan Dollar, Untoned PR64 Cameo

- 3964** 1893 PR64 Cameo NGC. CAC. Widely spaced dies on the 1893 — both circulation strikes and proofs — result in lack of definition over Liberty's ear, yet this untoned Choice proof is otherwise well-struck. Pleasing mint frost covers Liberty's undisturbed cheek and the other raised motifs, combining with glassy-mirrored fields to earn the Cameo designation. Some scattered, delicate lines define the near-Gem grade, although eye appeal exceeds expectations as confirmed by the CAC endorsement. Census: 8 in 64 Cameo, 28 finer. CAC: 4 in 64, 10 finer (5/16).  
*From The Pellegrini Collection, Part III.* NGC ID# 27ZN, PCGS# 87328

---

High Grade 1894 Silver Dollar  
PR66 Cameo

- 3965** 1894 PR66 Cameo NGC. This fully struck Premium Gem appears completely brilliant at first glance, but careful rotation beneath a light reveals light pastel gold toning. The mirrored fields are undisturbed by contact or hairlines, and the eye appeal is exemplary. Only 972 proofs were issued. Census: 15 in 66 Cameo, 31 finer (5/16).  
*Ex: Orlando FUN (Heritage, 1/2008), lot 5725, which realized \$9,200.*  
*From The Pellegrini Collection, Part III.* NGC ID# 2577, PCGS# 87329

---

1898 Dollar, PR63 Deep Cameo  
Pleasing Eye Appeal

- 3966** 1898 PR63 Deep Cameo PCGS. CAC. Exquisitely struck satiny design features appear to float over the deep mirrored fields of this Select Morgan dollar proof. Close inspection with a loupe reveals no mentionable contact marks, just some wispy hairlines in the fields that preclude a finer grade. This coin exudes pleasing eye appeal for the designated numerical grade. Population: 6 in 63 (1 in 63+) Deep Cameo, 50 finer. CAC: 3 in 63, 19 finer (5/16).  
*From The Pellegrini Collection, Part III.* NGC ID# 27ZW, PCGS# 97333

---

1901 Morgan Dollar, PR66  
In-Demand Proof Issue

- 3967** 1901 PR66 PCGS. Despite a substantial mintage of nearly 7 million pieces, the business-strike 1901 Morgan dollar is one of the rarest dates of the series in high grade. Demand for proof specimens has always been accordingly high to fill date runs, and only 813 proofs were coined. The present coin is a delightful Premium Gem, with sharply-detailed devices and brightly reflective fields. Some elements of contrast are evident, but the cameo effect is not strong. A few hints of lavender and gold toning are present, and visual appeal is outstanding. Population: 16 in 66 (1 in 66+), 5 finer (5/16).  
*From The Pellegrini Collection, Part III.* NGC ID# 27ZZ, PCGS# 7336

---

1903 Dollar, PR64 Cameo  
Rarely Seen With Designated Contrast

- 3968** 1903 PR64 Cameo PCGS. Starting in 1902, all-brilliant proofs were the desired format at the Mint and few proofs with field/device contrast were struck. This deeply mirrored example is an exception, displaying noticeable cameo effect from frost-white elements set off against reflective fields. A speckling of blue and reddish-gold toning enhances the contrast. The strike is pinpoint sharp throughout — a near-Gem proof with exceptional eye appeal. Population: 3 in 64 Cameo, 2 finer (5/16).  
*From The Pellegrini Collection, Part III.* NGC ID# 2823, PCGS# 87338

## PEACE DOLLARS

### 1928 Peace Dollar, MS65+ Classic Key-Date Peace Dollar

**3969 1928 MS65+ PCGS Secure. CAC.** Measured by strike, surface quality, and numeric grade, this key Philadelphia issue excels in all areas, with pale-ivory toning over lustrous silver fields and crisp devices. Aside from a few tiny pinpricks, there are no individual detractors to mention on either side of the coin and the eye appeal is exceptional. Both services seldom assign the Plus designation at the Gem level, witnessed by the few coins that have qualified. This Plus-graded piece is CAC endorsed, housed in a Secure holder. Population: 17 in 65+, 18 finer. CAC: 61 in 65, 4 finer (5/16). NGC ID# 257V, PCGS# 7373

*Teresa de Francisci,  
Model for the Peace Dollar*

### 1928-S Peace Dollar, MS65 Extremely Rare in Finer Grades

**3970 1928-S MS65 PCGS.** The 1928-S Peace dollar claims a mintage of more than 1.6 million pieces, but the issue was not well-made and most examples exhibit weak strikes and excessive surface marks. Many coins were released into circulation at the time of issue and relatively few were saved by contemporary collectors. As a result, the 1928-S can be located without much trouble in lower grades, but it is the most challenging issue of the series in MS65 condition, and finer coins are virtually unobtainable.

This impressive Gem shows a touch of the usual softness on Liberty's hair and the eagle's wing, but the strike is certainly better-than-average. Dusky shades of golden-brown, amber, and violet toning enhance the well-preserved surfaces and vibrant mint luster shines through the patina. Population: 59 in 65 (1 in 65+), 1 finer (5/16). NGC ID# 257W, PCGS# 7374

**1934 Peace Dollar, MS66+  
Only Three Finer Coins at PCGS**

- 3971 1934 MS66+ PCGS. CAC.** The 1934 Peace dollar is a better date in the series, from a mintage of 954,057 pieces. This impressive Plus-graded Premium Gem exhibits sharply detailed design elements and well-preserved, lustrous surfaces with vibrant cartwheel mint luster. PCGS has graded three numerically finer examples (5/16). NGC ID# 257Y, PCGS# 7375

**1934-S Peace Dollar, Clean-Cheeked MS65+  
VAM-3, 'Doubled Tiara'**

- 3972 1934-S Doubled Tiara, VAM-3, MS65+ PCGS.** A Top 50 Variety. Doubling and tripling on the tiara rays and the upper locks of hair is an interesting bonus, yet the surface quality and strike of this high-end 1934-S Gem are the real selling points. Liberty's cheek is satin-smooth and unblemished. Likewise, the obverse fields are free of all but the tiniest ticks. A few splashes of tan-gold and bluish-gray toning are just enough to confirm the originality of the high-luster surfaces. A beautifully preserved example of this San Francisco key date in the series. Population (all varieties): 22 in 65+, 30 finer (5/16). NGC ID# 257Z, PCGS# 133782 Base PCGS# 7377

**EISENHOWER DOLLAR**

**1971-D Eisenhower Dollar, MS67  
Top-Notch Quality and Eye Appeal**

- 3973 1971-D MS67 PCGS.** Type One Reverse. Eisenhower dollars were first issued in 1971, when the Denver Mint struck more than 68.5 million examples. The rarity of the 1971-D in the finest levels of preservation has recently come to be appreciated by Registry collectors. This top-certified dollar is richly toned in shades of violet and cobalt-blue with vibrant luster shining through. Tiny ticks on the portrait appear under close inspection but are imperceptible without a loupe. Population: 27 in 67, 0 finer (6/16). NGC ID# 2585, PCGS# 7407

**GOLD DOLLARS**

**1851-D Gold Dollar, MS62  
Mint State Dahlonge Type Coin**

- 3974 1851-D MS62 NGC. Variety 3-E.** The late die state variant with a heavy die crack extending from the rim at I in AMERICA through the second 1 in the date. The 1851-D is among the more plentiful gold dollar issues from the Dahlonge Mint, but Mint State examples are nonetheless elusive. This MS62 piece displays lightly abraded yellow-gold surfaces with clash marks in the fields and slight strike weakness in the centers. The look is very typical of D-mint gold from this period. Census: 22 in 62, 10 finer (5/16). NGC ID# 25BM, PCGS# 7515

**1852 Gold Dollar, MS65+  
High-End Type One Representative**

- 3975 1852 MS65+ PCGS. CAC.** An available Type One gold dollar issue, popular among type collectors. However, Gem examples are seldom seen, and finer pieces are rare. This Plus-designated CAC Gem displays a sharp strike and frosty green-gold luster. A couple of mint-made reflective areas appear in the left obverse field. Population: 52 in 65 (2 in 65+), 22 finer. CAC: 23 in 65, 5 finer (5/16). NGC ID# 25BP, PCGS# 7517

**1859-D Gold Dollar, AU58  
Popular Branch Mint Type Three Issue**

- 3976 1859-D AU58 PCGS. Variety 11-N.** Only 4,952 gold dollars were struck at the Dahlonge Mint in 1859 but the issue is still the most available Type Three D-mint gold dollar. This attractive near-Mint example displays well-detailed design elements with just a trace of high-point wear and some dramatic clash marks on the reverse. The pleasing greenish-gold surfaces are lightly abraded and lustrous. Population: 27 in 58, 27 finer (5/16). NGC ID# 25CN, PCGS# 7553

## EARLY QUARTER EAGLE

1805 BD-1 Quarter Eagle, MS61  
Pleasing, Original Surfaces

**3977** 1805 BD-1, R.4, MS61 PCGS. Bass-Dannreuther Die State c/b with a delicate die crack through the final three date digits. The obverse is caramel-gold throughout. The reverse is primarily rose-red, though peripheral portions of that side are lemon-gold. The strike shows softness on the dentils near the 18 in the date, and opposite near the ST in STATES, likely due to an attenuated flan. The centers are also incomplete, usual for the type. The satiny surfaces are refreshingly free from marks. An opportunity to acquire this challenging early gold type in a Mint State grade. Population: 2 in 61, 5 finer (5/16). NGC ID# BFVV, PCGS# 45511 Base PCGS# 7653

## CLASSIC QUARTER EAGLE

1834 Classic Head Quarter Eagle, MS64 ★  
Attractive High-Grade Type Coin

**3978** 1834 Small Head MS64 ★ NGC. Breen-6138, Variety 1, R.1. The William Kneass Classic Head design replaced John Reich's Capped Bust portrait during the 1834 mintage year, although the new design incorporated elements of a previous Reich design used on the Classic Head large cents of 1808 - 1814. A reduction in the gold composition and a slightly smaller diameter for the issue allowed the new design to circulate effectively based on the June 28, 1834 Act providing lower weights for gold coins, aided by a mintage of 112,234 pieces that was extremely large by quarter eagle standards. The motto E PLURIBUS UNUM was omitted with the redesign of the reverse.

This example displays mostly prooflike fields and sharply struck motifs. The large arrowheads crowd CA of AMERICA to confirm the variety. Attractive medium-gold surfaces flash a greenish glint across the lustrous, minimally marked surfaces. The star centers and eagle's plumage are well-defined, with fully struck horizontal and vertical shield lines on the reverse — a pleasing example of the type for suitable for any high-grade set. Census (all varieties): 45 in 64 (7 in 64★), 17 finer (5/16). NGC ID# 25FS, PCGS# 7692

## LIBERTY QUARTER EAGLES

### 1846-D Quarter Eagle, AU58 Scarce Die Pair, Sharp Dahlonega Gold

- 3979 **1846-D AU58 NGC. Variety 7-I.** Variety 7-I. A scarce variety, with the mintmark beneath the branch and the arrow fletching showing through. Bright and lustrous, with excellent canary-yellow surfaces and ample eye appeal. Liberty's cheek is clean and free of significant marks. Well struck by the dies with full stars and curls on the obverse, and even the eagle's claws are well formed, although blending is visible on the eagle's leg and neck feathers. Scarce this nice and very difficult to find in full Mint State. Census: 42 in 58, 16 finer (6/16).  
Ex: ANA Signature (Heritage, 7/2005), lot 7342. NGC ID# 25H3, PCGS# 7742

### 1848 Liberty Quarter Eagle, MS60 Overlooked Elusive Issue

- 3980 **1848 MS60 NGC.** Although its elusive nature is not widely recognized outside of series specialists, the regular-issue 1848 Liberty quarter eagle is much more difficult to locate in high grade than its more famous CAL designated counterpart. This pleasing Mint State example offers well-detailed design elements, with the often-seen touch of softness on the eagle's leg, and lustrous orange-gold surfaces that show the expected number of minor contact marks for the grade. Census: 1 in 60, 15 finer (6/16). NGC ID# 25H9, PCGS# 7748

### 1850-C Liberty Quarter Eagle, Rare MS61

- 3981 **1850-C MS61 NGC.** The 1850-C Liberty quarter eagle is not as difficult to locate as its paltry mintage of 9,148 pieces would suggest, but examples in Mint State condition are rare. This attractive MS61 example offers well-detailed design elements, with the always seen touch of softness on the eagle's legs and claws. The lustrous surfaces show the expected number of minor contact marks for the grade and a couple of tiny lint marks in the right obverse field. Census: 11 in 61, 4 finer (6/16). NGC ID# 25HH, PCGS# 7756

### 1854-C Two and a Half, AU58+ Challenging Charlotte Issue

- 3982 **1854-C AU58+ PCGS. Variety 1.** A lemon-gold Borderline Uncirculated Charlotte quarter eagle. The strike shows moderate merging at the centers, but peripheral elements are sharp. A hair-thin horizontal line through the ear is the sole mentionable mark. The obverse exhibits a prominent wire rim between 8 and 4 o'clock. Just 7,295 pieces were issued. Population: 7 in 58 (1 in 58+), 6 finer (5/16). NGC ID# 7J2P, PCGS# 7770

### 1859-D Two and a Half, AU58 Attractively Toned, Low Mintage

- 3983 **1859-D AU58 NGC. Variety 22-N.** Just 2,244 pieces were struck for this quarter eagle, the final issue of the denomination from the Dahlonega Mint. Light orange and lime toning visits this example, which has smooth fields and a thin dash of gray patina on the cheek. The eagle's left (facing) leg is soft, but the wings and stars are crisp. Census: 34 in 58, 14 finer (6/16).  
Ex: Long Beach Signature (Heritage, 2/2007), lot 4334, which realized \$6,900. NGC ID# 25JM, PCGS# 7789

### 1875 Quarter Eagle, AU50 Only 400 Pieces Struck

- 3984 **1875 AU50 PCGS.** The 1875 quarter eagle had a famously low mintage of 400 coins, and only 40 to 50 pieces are believed extant in all grades. This AU coin shows sharp detail and partially reflective fields. Most of each side is lightly abraded with honey-gold patina, although hints of reddish color appear in the fields. Housed in a green label holder. Population: 5 in 50, 30 finer (5/16). NGC ID# 7JS5, PCGS# 7822

## PROOF LIBERTY QUARTER EAGLES

1905 Quarter Eagle, PR67 Cameo  
None Finer at PCGS

- 3985** 1905 PR67 Cameo PCGS. CAC. The Mint favored an all-brilliant finish on proof coins after 1902. Only a small percentage of the 144 proof Liberty quarter eagles struck in 1905 have enough mint frost to produce noticeable cameo contrast, but this magnificent Superb Gem exhibits startling black-on-gold flash when tilted in the light. Razor-sharp definition is present on all the design elements and the deeply mirrored fields show no mentionable defects, even on close inspection. Tremendous eye appeal complements the high technical grade. Population: 3 in 67 (1 in 67+) Cameo, 0 finer. CAC: 1 in 67, 0 finer (5/16). NGC ID# 288V, PCGS# 87931

1907 Liberty Quarter Eagle, PR64 Cameo  
Only 154 Examples Struck

- 3986** 1907 PR64 Cameo NGC. CAC. A delightful Choice example from the last year of the Liberty design, this coin offers sharply detailed design elements and deeply mirrored fields that contrast boldly with the frosty devices to produce a dramatic cameo effect. The well-preserved Lemon-yellow surfaces show only minor signs of contact. From a proof mintage of 154 pieces. Census: 13 in 64 Cameo (1 in 64+), 47 finer. CAC: 2 in 64, 20 finer (5/16). NGC ID# 288X, PCGS# 87933

## INDIAN QUARTER EAGLES

1908 Indian Quarter Eagle, MS66  
Exemplary First-Year Type Coin

- 3987** 1908 MS66 PCGS. Ex: The Shrike Set. Not the example offered in our September 2011 auction containing *The Shrike Set of \$2 1/2 Indians*, but from the same source and clearly a coin chosen with the same care as that collection's first-year Premium Gem. The 1908 was saved in quantity for its novelty value, though few coins have survived so well as this MS66 piece. Gold-orange interiors have a peach overtone that fades out toward the lighter centers. Each side is well-detailed, and only a few tiny luster grazes and other small disturbances preclude an even finer technical designation. PCGS has certified only two Superb Gems finer (5/16). Ex: *Pittsburgh Signature* (Heritage, 10/2011), lot 4772. NGC ID# 288Y, PCGS# 7939

1911-D Indian Quarter Eagle, AU58  
Sought-After Key Issue

- 3988** 1911-D AU58 NGC. The 1911-D Indian quarter eagle is the acknowledged low-mintage key to the series. This impressive near-Mint specimen shows just a trace of wear on the high points of the well-detailed design elements, and the lightly abraded orange-gold surfaces retain most of their original mint luster. The overall presentation is most attractive. NGC ID# 7KR7, PCGS# 7943

**1911-D Quarter Eagle, MS61  
Uncirculated Key-Date Coin**

- 3989 1911-D MS61 NGC.** A pleasing lower-end Mint State example of this key Denver issue, showing sharp detail and bright, satiny luster. The mintmark is bold, and the diagnostic wire rim around the right obverse periphery is well-defined. There are no individually bothersome abrasions, although scattered lines in the fields preclude a finer grade. NGC ID# 7KR7, PCGS# 7943

**1911-D Two and a Half, MS64  
Eye-Appealing and Sharp**

- 3990 1911-D MS64 NGC.** Strong D. The 1911-D is the most in-demand issue in the Indian quarter eagle series. Choice Mint State examples are particularly scarce, and Gems are among the rarest in the series. This Denver key boasts a scant mintage of 55,680 coins, which is by far the lowest in the series. This was the first issue of the series struck at a branch mint, and many pieces were distributed into circulation without collector notice, producing the rather plentiful supply of AU-level coins known today and the scarcity of near-Gems. This piece displays a bold strike and characteristically satiny luster. There are no singular abrasions, only light lines in the fields that limit the grade. Eye appeal surpasses expectations for the issue. NGC has seen fewer than 100 finer examples, including resubmissions (5/16). NGC ID# 7KR7, PCGS# 7943

**1925-D Quarter Eagle, MS66  
Bright, Vibrant, Lustrous Surfaces**

- 3991 1925-D MS66 PCGS.** Only three Denver mint Indian quarter eagles were struck and the 1925-D was the final one. This is a remarkably well-produced coin with bright, vibrant mint luster that races around each side, more suggestive of S-mint or CC-mint gold than the usual, more-subdued satiny finish of a Denver product. Part of the reason for the vibrancy seen on this piece are light die striations in the fields, an unusual trait itself. In fact, we cannot remember the last time we have seen such a finish on an Indian quarter eagle. The strike is a bit soft over the headdress, but there are no detracting abrasions present. This is definitely a coin for the collector to circle, underline, and place a star beside in their catalog. Population: 35 in 66 (1 in 66+), 0 finer (5/16). NGC ID# 7KRD, PCGS# 7949

**1928 Quarter Eagle, MS66  
None Certified Finer**

- 3992 1928 MS66 PCGS.** There are a few Indian Head quarter eagle issues that are more accessible than the 1928 like the 1926 and 1927, but not many. That said, examples are important condition rarities in MS66, and neither PCGS nor NGC have seen a single finer example. This Premium Gem has light rose-gold surfaces that glisten with radiant luster. Each side is strongly detailed centrally and around the peripheries without any marks of note. Population: 12 in 66, 0 finer (5/16). NGC ID# 289E, PCGS# 7952

## THREE DOLLAR GOLD PIECES

### 1857 Gold Three Dollar, MS62 Appealing for the Grade

- 3993 1857 MS62 PCGS.** One of the more elusive Philadelphia dates from the 1850s, but still collectible in the present grade. This 1857 three dollar gold piece displays a sharp strike throughout the obverse and is predictably weak on the wreath bowknot. The satiny surfaces display warm honey-gold luster with minor field chatter that contributes to the grade. Population: 34 in 62, 56 finer (5/16). NGC ID# 7K5G, PCGS# 7976

### 1861 Three Dollar Gold, MS60 Scarce in Mint State

- 3994 1861 MS60 NGC.** The fields are lightly abraded but mint luster is strong and the motifs show a sharp strike. Bowers notes Mint State examples show striations from the planchet preparation, a characteristic of this yellow-gold coin as well. Just 5,959 pieces were struck, and Uncirculated survivors of the 1861 likely number fewer than 100 pieces in all grades. NGC ID# 7K5N, PCGS# 7982

### 1862 Three Dollar Gold, MS61 Elusive, Low-Mintage Issue

- 3995 1862 MS61 PCGS.** The 1862 three dollar gold piece claims a mintage of just 5,750 pieces, making the issue scarce-to-rare in all grades today. This pleasing Mint State example exhibits well-detailed design elements and lustrous surfaces with the expected number of minor contact marks for the grade. A long, thin scrape in the left obverse field is the only individually significant flaw. Faint vertical planchet striations show in the fields on both sides and some faint clash marks are evident on the reverse. Population: 7 in 61, 38 finer (5/16). NGC ID# 7K5P, PCGS# 7983

### 1878 Three Dollar Gold, MS64 Outstanding Type-Coin Quality

- 3996 1878 MS64 PCGS. CAC.** Fresh, shimmering mint luster allows each side of this near-Gem 1878 three dollar gold piece to glow at any angle. The strike is bold — most notably so on the wreath bowknot — and the fields are free of all but the most trivial grazes. This CAC-endorsed three dollar gold type coin boasts unsurpassed eye appeal for the grade. NGC ID# 25MZ, PCGS# 8000

## PROOF THREE DOLLAR GOLD PIECE

### 1864 Three Dollar, PR53 Just 50 Proofs Struck

- 3997 1864 PR53 NGC.** The rarity of business strikes (just 2,630 pieces struck) contributes to demand for the few proofs that exist — even though only 50 proofs were made and far fewer than that number survive. This pleasing, yellow-gold proof apparently had a stint in commerce and likely was confused with a business strike at one time. Proof strikes are confirmed by the date positioned slightly left without the repunching shown on those coins struck for circulation. The fields are cloudy with small marks and mirrored only in protected areas as witness to the brief circulation. Census: 2 in 53, 16 finer (6/16). NGC ID# 28A4, PCGS# 8027

## EARLY HALF EAGLES

1806 BD-1 Five Dollar, AU55+  
8x5 Stars, Pointed 6

**3998** 1806 Pointed 6, 8x5 Stars, BD-1, R.4, AU55+ NGC. Bass-Dannreuther Die State c/e. A green-gold Choice AU example with intermittent rose-red toning across the obverse border. The strike is fairly sharp despite minor blending on Liberty's curls and the left (facing) wing near the shield. Relatively unabraded, with the sole mentionable mark concealed within the neck curls. The 1806 is among the more available Heraldic Eagle dates, but most survivors are BD-6, the Knob 6, 7x6 Stars variety. BD-1 is scarce in problem-free condition. The die variety is distinctive: the first two obverse stars touch, and the Ts in the reverse legend lack a right foot. NGC ID# 25P7, PCGS# 45621 Base PCGS# 8090

1806 Capped Bust Right Five, BD-1, MS63  
Only Three Finer Coins at PCGS

**3999** 1806 Pointed 6, 8x5 Stars, BD-1, R.4, MS63 PCGS. Bass-Dannreuther Die State c/f. The Philadelphia Mint struck 64,093 Capped Bust Left half eagles in 1806, with six known die varieties for the date. This coin represents the BD-1 variety, with stars 1 and 2 nearly touching and broken T's in the reverse legend. Die cracks connect most of the obverse stars and a cud has formed on the reverse rim above the last S in STATES, indicating the late die state. The BD-1 has a surviving population of 100-150 examples in all grades.

This impressive Select specimen exhibits well-detailed design elements and pleasing orange-gold surfaces with some scattered minor contact marks on both sides. A few faint planchet adjustment marks can be detected on the bust with magnification. Hints of original satiny mint luster add to the considerable eye appeal. Population: 13 in 63, 3 finer (5/16). NGC ID# 25P7, PCGS# 45621 Base PCGS# 8090

1806 Half Eagle, AU50  
BD-6, Knob 6, 7x6 Stars

- 4000 1806 Knob 6, 7x6 Stars, BD-6, R.2, AU50 PCGS. CAC. 30th Anniversary Green Label Holder. Bass-Dannreuther Die State d/e, with cracks and clash marks. This CAC-endorsed AU BD-6 half eagle is an ideal type coin candidate. The strike is even and bold, and only minor high-point friction is seen over each side. Medium green-gold patina allows hints of luster to emerge from the protected regions of the fields. There are no mentionable abrasions. Eye appeal is excellent. NGC ID# BFXJ, PCGS# 45620 Base PCGS# 8089

1813 Capped Bust Half Eagle, AU53  
Popular BD-1 Variety

- 4001 1813 BD-1, R.2, AU53 PCGS. Bass-Dannreuther Die State b/b. A substantial mintage of 95,428 Capped Bust half eagles was accomplished in 1813, with only two die varieties for the date. This coin represents the more available BD-1 variety, with the first S in STATES over the right side of the E on the ribbon. Only light wear shows on the well-detailed design elements and the lightly abraded antique-gold surfaces retain a few traces of original mint luster. NGC ID# 25PM, PCGS# 519907 Base PCGS# 8116

CLASSIC HALF EAGLE

1838-C Half Eagle, VF35  
Scarce One-Year Charlotte Type

- 4002 1838-C VF35 NGC. The 1838 Charlotte half eagle is not only the sole Classic Head half eagle struck at the North Carolina Mint, it is also the lowest-mintage five dollar of any date or Mint from the short-lived Classic Head series (where it trails only the 1834 Crosslet 4 in scarcity). This Choice VF example shows the expected nicks and abrasions on its naturally toned surfaces but they are softened by wear. A short mark on Liberty's jawline is the only abrasion to note, and it is minor in context of the assigned grade. The reverse legend is slightly weak but the central motifs retain strong definition. Census: 4 in 35, 84 finer (5/16). NGC ID# 25S5, PCGS# 8177

LIBERTY HALF EAGLES

1842-C Half Eagle, AU55  
Large Date

- 4003 1842-C Large Date AU55 PCGS. Variety 1. The more frequently seen Large Date variant of the 1842-C half eagle. This Choice AU coin displays bright yellow-gold surfaces with hints of luster in the protected regions of the fields. The eagle's neck is softly struck, but the remainder of the design is well-defined. Light surface chatter is consistent with the grade. Finer pieces are rare. Population: 10 in 55, 12 finer (5/16). NGC ID# 25SW, PCGS# 8209

**1854-D Large D Half Eagle  
Borderline Uncirculated**

- 4004 1854-D Large D AU58 NGC. Variety 37-BB.** Four die marriages are confirmed from the mintage of 56,413 pieces. The present radiant sun-gold near-Mint No Motto five lacks mentionable marks and displays many pockets of luster, which are especially extensive on the reverse. The strike is inconsistent, sharp in some areas and soft in others, customary for the remote Dahlonega facility. Census: 58 in 58 (1 in 58+, 1 in 58★), 48 finer (6/16). Ex: *Dallas Signature* (Heritage, 10/2006), lot 2770. NGC ID# 25UK, PCGS# 8258

**1869-S Half Eagle, AU58  
Conditionally Scarce, Rare Any Finer**

- 4005 1869-S AU58 NGC.** Extremely rare in Mint State, the 1869-S five dollar seldom survives in About Uncirculated or finer condition. This near-Mint example retains substantial mint luster and exudes eye appeal. The strike is weak at the eagle's head and shield horizontals, but relatively sharp elsewhere for the issue. Abrasions are few and a scattering of ticklike marks does not diminish the visual impact. NGC reports just four Mint State coins, the finest MS62. Census: 11 in 58, 4 finer (6/16). NGC ID# 25W8, PCGS# 8318

**1870 Half Eagle, Rare AU58  
Underrated Philadelphia Issue**

- 4006 1870 AU58 NGC.** The scant mintage of just 4,000 coins was largely ignored by collectors of the day, who sought proofs in preference to business strikes. PCGS estimates survivorship of a mere 55 coins, a stunningly small number even when the low mintage is considered. Grading events tell the same story, with PCGS reporting just two Mint State coins while NGC lists no Uncirculated pieces. This near-Mint example is as close to Uncirculated as can be expected, with a sharp strike and partially lustrous, deep-gold color. Numerous small marks and abrasions dot the surfaces but no major contacts disrupt the appeal. Census: 9 in 58, 0 finer (6/16). NGC ID# 25W9, PCGS# 8319

**1879 Half Eagle, Scintillating MS66  
One of Two Finest-Certified Examples**

- 4007 1879 MS66 PCGS.** In 1875, Congress mandated that specie payments resume on January 1, 1879. The Mint anticipated high demand for gold coinage come that day and began increasing half eagle production in 1878, when mintages jumped from 1,132 coins to 131,720 pieces. Output increased again in 1879 to 301,920 five dollar gold coins. Mint Director Horatio C. Burchard noted in the *Annual Report of 1880* that the jump in half eagle coinage was meant to stimulate their circulation for small-scale business transactions, as opposed to double eagles, which were too unwieldy for everyday use. Burchard's objective was clearly realized, as the 1879 is readily available in circulated grades. It becomes scarce in MS63, and Choice and Gem examples are rare. This Premium Gem is tied for finest certified with one other PCGS representative. The finest coins at NGC are five MS65 submissions (5/16).

This unsurpassed five dollar gold piece radiates scintillating mint luster over peach-gold surfaces. The stars are completely brought-up, Liberty's hair curls are crisply delineated, and the eagle is razor-sharp throughout. Trivial ticks fail to hinder the appeal or importance of this Registry-quality offering. NGC ID# 25X7, PCGS# 8348

---

1882-CC Liberty Half Eagle, AU58  
Outstanding Branch Mint Type Coin

- 4008 1882-CC AU58 NGC. CAC. Variety 1-A. From a mintage of 82,817 pieces, the 1882-CC Liberty half eagle is one of the more available Carson City issues and a favorite choice of branch mint type collectors. This attractive near-Mint specimen exhibits well-detailed design elements with just a trace of wear on the high points. The lightly abraded orange-gold surfaces retain traces of original mint luster. NGC has graded 31 numerically finer examples (5/16). NGC ID# 25XH, PCGS# 8359

---

PROOF LIBERTY HALF EAGLES

1903 Five Dollar, PR66  
Only One Proof Finer at PCGS

- 4009 1903 PR66 PCGS. From a relatively large mintage of 154 pieces, the 1903 proof Liberty half eagle is one of the more available issues of the series. Granted, the term “available” does not really apply to any proof gold issue from the late 19th or early 20th centuries, as all those issues are rare in absolute terms. Probably about half of the reported mintage has survived in all grades, with some specimens in impaired condition and several coins impounded in institutional collections.

Like most 1903 proof half eagles, this attractive Premium Gem exhibits an all-brilliant finish with little cameo contrast. The date is positioned left of center and some minuscule die lumps are evident near the earlobe. The design elements are razor-sharp throughout and the fields are deeply reflective. Well-preserved yellow-gold surfaces show a few highlights of green, with wonderful eye appeal. Population: 2 in 66, 1 finer (5/16).

Ex: Ed Trompeter Collection; Heritage Auctions, circa 1998; private collection. NGC ID# 28D9, PCGS# 8498

*Christian Gobrecht Ink Sketch*

---

1905 Half Eagle, PR65 Ultra Cameo  
Sole Ultra Cameo Certified  
Outstanding Eye Appeal

**4010 1905 PR65 Ultra Cameo NGC.** The 1905 might be viewed as one of the more plentiful proof Liberty half eagles and a suitable type candidate. For type purposes, there are few better options, but that does not mean the 1905 proof is common. Only 108 pieces were struck, and many have not survived. PCGS estimates 75 to 100 pieces are extant, but the combined NGC and PCGS population figures count only 81 coins, including likely resubmissions. Cameo examples are scarce regardless of grade. In Ultra/Deep Cameo, only a single coin is known: the present Gem (6/16).

This glimmering, starkly contrasted beauty showcases liquidlike mirroring in the fields and satiny yellow-gold design elements. There are surprisingly no obvious hairlines at first glance, and only when rotated beneath a light do a few faint vertical lines appear in the left obverse field — the only grade-limiting factor on this beautiful Gem proof. NGC ID# 28DB, PCGS# 98500

---

---

INDIAN HALF EAGLES

1911-S Half Eagle, MS64  
Stellar Quality for the Grade

**4011 1911-S MS64 PCGS.** The 1911-S had a mintage of more than 1.4 million coins, but Uncirculated pieces are disproportionately scarce in pleasing condition. Finer than MS63, this issue is rare. Here is a lovely near-Gem that boasts a sharp strike and luminous fields that have rose, mint, and tangerine-gold coloration. There are surprisingly no obvious abrasions, but a loupe shows faint lines in the reverse fields that preclude a Gem designation from PCGS. The 1911-S is rare a sought-after in this grade, and finer pieces are far out of reach for casual collector. This coin will blend in well with a mostly Gem-grade collection. Population: 25 in 64 (1 in 64+), 8 finer (5/16). NGC ID# 25ZM, PCGS# 8522

---

**1913-S Five Dollar, MS64**  
Rarely Seen So Well-Preserved  
Only Two Coins Finer at PCGS

- 4012 1913-S MS64 PCGS.** Here is a semikey Indian half eagle that is available in circulated condition but scarce in Mint State. In fact, it is among the rarest dates in the series in Gem condition. Most Uncirculated examples are clustered in the MS61-MS63 grade range. The present Choice representative is conditionally rare, and finer pieces are prohibitively so. This coin is well-struck and has original tangerine-gold patina with accents of olive and lavender that deliver impeccable eye appeal. A few light marks are scattered here and there, but none are singularly bothersome. An important opportunity to acquire a high-end example of this Indian half eagle condition rarity. Housed in a green label holder. Population: 16 in 64, 2 finer (5/16). NGC ID# 25ZP, PCGS# 8526

**1914-D Half Eagle, MS64**  
Attractive Luster, Few Known Finer

- 4013 1914-D MS64 NGC.** A conditional semikey to the series, the 1914-D Indian half eagle is a rarity in Gem condition. This near-Gem balances quality and affordability — a combination that is ideal for collecting purposes. The strike is well-executed, and the frosty surfaces display original honey and rose-gold hues. A few stray ticks limit the grade. NGC has seen only 15 numerically finer representatives (5/16). NGC ID# 28DV, PCGS# 8528

**1914-S Half Eagle, MS63**  
20th Century Condition Rarity

- 4014 1914-S MS63 NGC.** The Pratt Indian Head half eagle collector will encounter a challenge in trying to locate a pleasing MS63 example of the 1914-S. A total of 263,000 coins were struck compared to 247,000 pieces at Philadelphia and Denver, but the San Francisco coins are far more elusive in high grades. The relief elements are characteristically sharp, and softly frosted mint luster delicately glistens over each side. This peach-gold half eagle is minimally abraded with elegant eye appeal. Census: 18 in 63, 7 finer (5/16). NGC ID# 28DW, PCGS# 8529

**LIBERTY EAGLES**

**1844-O Ten Dollar, AU58**  
Elusive At This Level or Finer

- 4015 1844-O AU58 PCGS. Recut Mintmark, Variety 5.** Mint luster radiates on both sides of this yellow-gold, lightly abraded eagle, while a sharp strike remains on both sides. The large mintage of 118,700 pieces translates to availability only through VF and XF grades. In About Uncirculated condition, the issue is notably elusive and it is rare in Mint State. Five die pairs are known for the issue. The present variety shows recutting on the inner left curve of the mintmark and faint die cracks that are visible above stars 3 through 7. Population: 10 in 58, 4 finer (5/16). NGC ID# 554G, PCGS# 8591

**1848-O Ten, AU53**  
Collectible Eagle from the 1840s

- 4016 1848-O AU53 PCGS. Variety 1.** Although not especially common, the 1848-O is more available than many New Orleans eagles from the 1840s. This appealing example retains a fair amount of mint luster, while the surfaces show fewer abrasions than expected. The strike is characteristically soft at the centers, as if struck from widely spaced dies — a weakness of strike shared with the 1849-O. Attractive rich-gold color is consistent on both sides. The reverse die shows the unusual and popular “shield ring” atop the second vertical stripe. Population: 15 in 53, 36 finer (5/16). NGC ID# 2634, PCGS# 8600

**1860-O Eagle, AU58  
Scarce O-Mint, Series Sleeper**

- 4017 1860-O AU58 NGC. Variety 2.** Rare in Uncirculated condition, this near-Mint State example is one of the few survivors of the final New Orleans eagle before handover of the Mint to non-U.S. authority — first to the State of Louisiana, and ultimately to the Confederacy. No more eagles were struck in New Orleans until 1879. The mintage of 11,100 pieces circulated in the South, where most were lost to attrition. This example is lightly abraded with pleasing sun-gold color and suitable remaining mint luster. The coin retains sharp appeal as an underrated issue in a most-challenging series. Census: 24 in 58, 6 finer (5/16). NGC ID# 2645, PCGS# 98631

**1860-O Ten Dollar, MS62 Condition Census Rarity**

- 4018 1860-O MS62 NGC. Variety 2.** Here is a sought-after branch mint issue. The 1860-O ten dollar gold piece was the final issue of this denomination from the New Orleans Mint prior to the outbreak of the Civil War, which quickly shut down operations at the Louisiana facility. Continuing a trend of low-mintage gold issues throughout the late 1850s, the 1860-O eagle had a production of only 11,100 pieces, most of which experienced wide circulation. Mint State examples are extremely rare and almost all are heavily abraded. This MS62 coin, with its semiprooflike fields, sharp design elements, and rich yellow-gold luster is undeniably high in the Condition Census. Only light handling marks on the cheek and in the nearby field determine the grade. In all Mint State grades, NGC has seen only seven submissions, including two in MS62 and one MS63 coin finer; PCGS has seen four Uncirculated submissions, with a single MS62 coin as finest (6/16). NGC ID# 2645, PCGS# 98631

**1862-S Ten Dollar, AU50 Conditionally Rare**

- 4019 1862-S AU50 NGC.** A scarce Civil War-period San Francisco eagle with a small mintage of 12,500 coins. Only 60 to 80 pieces are believed to survive with just one in Mint State. This About Uncirculated coin displays typically abraded, olive-gold surfaces with pleasing detail on the devices. A rim nick on the reverse above the U in UNITED is the only singular damage. Census: 7 in 50, 16 finer (5/16). NGC ID# 55H4, PCGS# 8636

**1867-S Ten Dollar, AU55  
Condition Census Quality**

- 4020 1867-S AU55 NGC.** With a mintage of only 9,000 coins, the 1867-S Liberty eagle is understandably rare. No Mint State examples are known, and circulated coins survive to the extent of 35 pieces at NGC and 34 at PCGS, including possible resubmissions. As few as 50 examples may actually exist in all grades. This issue continued a trend of low-mintage dates for the denomination that began prior to the Civil War and would continue until 1879. The present coin is among an elite few that show any amount of original mint luster — seen here in the protected regions of the peripheral fields. Each side is lightly abraded with original olive-gold patina. The strike is bold, and little wear is present. Finer coins are prohibitively rare. Census: 3 in 55, 3 finer (5/16). NGC ID# 264M, PCGS# 8652

**1870-S Ten Dollar, AU50**  
**Fewer Than 100 Pieces Believed Known**

- 4021 1870-S AU50 PCGS.** From a small 8,000-coin mintage, fewer than 100 1870-S gold eagles survive, and only a single piece is known in Mint State. This AU coin displays excellent detail and rich orange-gold surfaces that retain hints of luster in the fields. The coin is fairly smooth with minimal chatter and no singular distractions. Population: 8 in 50, 12 finer (5/16). NGC ID# 53FU, PCGS# 8659

**1871 Liberty Ten, AU55**  
**Low-Mintage Gold Rarity**

- 4022 1871 AU55 NGC.** A rare, low-mintage issue, the 1871 Liberty Ten Dollar had an original production total of only 1,790 business strikes. Condition is naturally a problem with this date and most survivors are VF or XF at best. AU examples are rare. The fields of this coin still show a slightly reflective quality as the coin is turned under a light—most likely the result of virtually all the mintage being “first strikes.” The striking details are complete in all areas. There are numerous small and medium sized abrasions peppered across each side. A rare opportunity for the advanced gold collector. Census: 15 in 55, 10 finer (6/16). NGC ID# 264W, PCGS# 8660

**1890-CC Ten Dollar, MS62**  
**Lustrous and Lightly Abraded**

- 4023 1890-CC MS62 NGC. CAC. Variety 1-A.** Luster rolls across lightly marked and pleasing surfaces. A fully struck apricot-gold example of this low mintage Carson City issue. The 1890-CC is more elusive than its 1891-CC successor, especially in Uncirculated grades. Census: 36 in 62 (1 in 62★), 7 finer. CAC: 14 in 62, 3 finer (6/16). NGC ID# 266S, PCGS# 8718

**1893-CC Ten Dollar, Near-Mint**  
**Only 14,000 Pieces Produced**

- 4024 1893-CC AU58 NGC. CAC. Variety 1-A.** The final Carson City ten dollar issue has a scant mintage of 14,000 pieces. Uncirculated examples are rare, and near-Mint pieces are very scarce. This well-struck caramel-gold representative displays relatively few marks and displays bright luster across the borders and devices. Census: 43 in 58, 14 finer. CAC: 6 in 58, 3 finer (6/16). NGC ID# 2672, PCGS# 8726

**1906-O Liberty Head Eagle, MS63**  
**Final O-Mint Ten**

- 4025 1906-O MS63 PCGS.** Compared with other New Orleans issues from the decade, the 1906-O is decidedly scarcer and more challenging than the 1903-O and 1904-O, and about on a par with the 1901-O in terms of availability in Select Uncirculated or finer grades. This example displays frosty, lustrous surfaces with a few scattered bagmarks. The strike is sharp and the eye appeal is strong. Population: 43 in 63, 19 finer (5/16). NGC ID# 53FB, PCGS# 8761

**1907 Liberty Eagle, MS65**  
**Final-Year Type Coin**

- 4026 1907 MS65 PCGS.** 30th Anniversary Green Label Holder. The 1907 Liberty ten is a common date in all grades through MS64, but Gems are scarce. This piece is among the finest at PCGS. The strike is sharp, and the surfaces display radiantly frosted yellow-gold luster. Only a few trivial grazes are apparent in the fields. Population: 29 in 65, 0 finer (5/16). NGC ID# 2688, PCGS# 8763

**1907-D Liberty Ten, MS64+  
One of Two Finest at PCGS**

- 4027 1907-D MS64+ PCGS. CAC.** The second and final Denver issue of the Liberty series, the 1907-D has a higher mintage than its Colorado predecessor but is nonetheless much scarcer in Choice condition. In fact, the present piece is tied with one other for the honor of finest PCGS-certified. Although that coin is unavailable for direct comparison, it is unlikely it matches the quality of this lustrous, boldly struck, and minimally marked honey-gold near-Gem. NGC ID# 268A, PCGS# 8764

**INDIAN EAGLES**

**1907 Indian Eagle, MS66  
Lovely No Motto Type Coin**

- 4028 1907 No Motto MS66 NGC.** After the pattern Wire Rim strikings and the failed Rolled Edge tens of 1907, Saint-Gaudens' design was modified a third time this year and more than a quarter million regular production No Periods tens were struck. The overall quality of these coins is quite high, most likely a combination of both careful production and the fact that quite a few pieces were set aside as novelties. This piece has rich orange-gold color overall and thick, frosted mint luster. Sharply struck, there are no singularly mentionable abrasions on either side. NGC has seen 31 numerically finer representatives (5/16).  
Ex: Long Beach Signature (Heritage, 6/2004), lot 6340. NGC ID# 28GF, PCGS# 8852

**1908-D Eagle, MS63  
Motto on Reverse**

- 4029 1908-D Motto MS63 PCGS.** The Denver Mint struck 210,000 Indian eagles early in the year, and an additional 836,500 pieces after the motto IN GOD WE TRUST was added to the reverse. This Select Mint State With Motto issue features deep green patina on its frosty light yellow surfaces with faint rose overtones. PCGS has certified just 45 finer examples (5/16). NGC ID# 28GK, PCGS# 8860

**1911-D Indian Eagle, AU58  
Low-Mintage Better Date**

- 4030 1911-D AU58 NGC. CAC.** The 1911-D Indian eagle claims a low mintage of just 30,100 pieces, and relatively few examples were saved by contemporary collectors, making it the leading condition rarity of the series. This impressive near-Mint specimen shows just a trace of high-point wear, and the lustrous orange-gold surfaces are free of large or distracting abrasions. NGC ID# 28GU, PCGS# 8869

**1913 Indian Eagle, MS66  
Incredible Eye Appeal, Just One Finer**

- 4031 1913 MS66 PCGS.** With a mintage of 442,000 pieces the 1913 eagle is easily located in almost all grades. As with most Indian Head tens, however, Gems become quite challenging and require not only patience but also deep pockets. MS66 coins are undeniable rarities. In more than two decades Heritage has previously auctioned only about a dozen examples graded this fine, and never without intense bidder interest. This is not an opportunity to be missed.

The present coin boasts exceptional eye appeal, a standout piece even among other MS66 eagles. Rich orange-gold patina flows across both sides with occasional hints of lilac. Like other Indian Head tens, the surfaces are mattelike with frosted mint luster. A remarkably clean Premium Gem that will undoubtedly be the subject of intense bidding. Population: 15 in 66 (1 in 66+), 1 finer (5/16). NGC ID# 28GY, PCGS# 8873

1914-S Indian Eagle, MS64  
Challenging Any Finer

- 4032 1914-S MS64 PCGS. Choice yellow-gold surfaces of this 1914-S show the slightly stippled surfaces that seem to repel marks yet capture light and return it in bold cartwheel luster. The strike is extra-sharp, while marks are microscopic and entirely non-distracting. The fact that the 1914-S eagle is the scarcest of all ten-dollar Indians is witnessed by the grading events, where PCGS shows just 13 finer pieces. Population: 66 in 64 (3 in 64+), 13 finer (5/16). NGC ID# 28H4, PCGS# 8877

LIBERTY DOUBLE EAGLES

1851-O Double Eagle, XF45  
Well-Detailed O-Mint Twenty

- 4033 1851-O XF45 PCGS. A bright yellow-gold example of this collectible New Orleans double eagle, showing strong detail for the grade, despite die lapping on the obverse that weakens the stars. The reverse shows a few scattered marks consistent with an XF-graded gold piece, the obverse is pleasantly smooth save for a couple of minor ticks on Liberty's neck. NGC ID# 268J, PCGS# 8905

1851-O Double Eagle, Choice XF  
Popular New Orleans Issue

- 4034 1851-O XF45 NGC. Variety 1. Five different facilities struck Liberty twenties, and the New Orleans mintmark is most elusive within that quintet. Despite its early date, the 1851-O is encountered more often than other O-mint issues, and is often selected for type purposes. This yellow-gold double eagle displays a quantity of small abrasions consistent with the designated grade. Luster outlines the stars and fills the legends. NGC ID# 268J, PCGS# 8905

1857 Double Eagle, MS61  
Very Scarce in Full Mint State

- 4035 1857 MS61 PCGS. There were no large discoveries of 1857 P-Mint double eagles among the famous shipwrecks, unlike the 1857-S, which was recovered by the thousands. As a result, Mint State examples of the Philadelphia issue rank among the premier rarities of Type One twenties. Only a few light abrasions mark the surfaces of this MS61 example, with frosty and lustrous rich-gold color and sharply defined raised devices, save for minor weakness at a couple of high point hair curls. Population: 22 in 61, 33 finer (5/16). NGC ID# 2693, PCGS# 8920

1858-S Double Eagle, AU58  
Lustrous and High-End

- 4036 1858-S AU58 PCGS. This near-Mint 1858-S twenty is about the finest that most collectors will be able to acquire, as Uncirculated pieces are rare and costly. This yellow-gold double eagle displays substantial luster in the fields with light chatter as expected for the grade. Eye appeal is pleasing. Population: 50 in 58, 19 finer (5/16). NGC ID# 2699, PCGS# 8925

---

**1859-O Double Eagle, AU50 Rare in All Grades**

- 4037 1859-O AU50 NGC. Variety 2.** The 1859-O is a rare New Orleans double eagle with a small 9,100-coin mintage. Fewer than 100 pieces are known in all grades, primarily distributed throughout the various XF and AU levels. Only two Mint State pieces are documented, both heavily bagmarked. The 1859-O shares its rarity with most other O-Mint twenties leading up to the outbreak of the Civil War. After the San Francisco Mint became operational in 1854, gold deposits in New Orleans declined significantly, and large denomination gold coinage plummeted. Between 1854 and the 1909, when the New Orleans Mint ceased coin production for the final time, fewer than 115,000 double eagles were struck at that facility. Few gold coin sets are as difficult to assemble as the O-mint double eagles.

This AU 1859-O twenty displays satiny green-gold surfaces with relatively minimal chatter and abrasions. The strike is bold, and only trivial friction is seen over the devices. An outstanding example of this Type One branch mint rarity. Census: 9 in 50, 29 finer (5/16). NGC ID# 269B, PCGS# 8927

---

---

**1859-S Twenty, AU58 Appealing Originality**

- 4038 1859-S AU58 PCGS.** A near-Mint example surviving from a mintage of 636,455 coins, this 1859-S has frosty lemon-yellow luster with considerable pale green and steel-blue patina on both sides, with additional light rose accents. Considerable eye appeal remains despite the typically abraded surfaces. Population: 37 in 58 (1 in 58+), 40 finer (5/16).

Ex: Dallas Signature (Heritage, 10/2008), lot 3028. NGC ID# 269C, PCGS# 8928

---

**1867 Liberty Double Eagle, MS61  
Nice Luster and Color**

- 4039 1867 MS61 PCGS. CAC.** The 1867 Liberty double eagle claims a mintage of 251,015 pieces and, like most Type Two twenties, the issue can be easily located in circulated grades, but Mint State examples are very scarce. This attractive MS61 example exhibits well-detailed design elements and vivid orange-gold surfaces with especially vibrant mint luster and the expected number of minor contact marks for the grade. Population: 98 in 61, 52 finer. CAC: 5 in 61, 8 finer (5/16). NGC ID# 269Z, PCGS# 8951
-

**1867 Double Eagle, MS62**  
Semiprooflike Fields, Extremely Rare Finer

- 4040 1867 MS62 PCGS.** In circulated grades, the 1867 double eagle is not particularly elusive, but attractive Mint State coins are. A group of Uncirculated pieces resides in MS60 and MS61, leaving MS62 coins in a minority. In MS63, the 1867 twenty is extremely rare. This collectible, yet high-end, MS62 representative showcases staggeringly strong eye appeal for the grade, made possible by semiprooflike fields, sharp, frosty design elements, and a dazzling cartwheel effect. Small, scattered abrasions define the grade but pose minimal impact on the eye appeal. A single coppery alloy spot above the B in LIBERTY is suitable for pedigree purposes. Population: 50 in 62 (3 in 62+), 2 finer (5/16). NGC ID# 269Z, PCGS# 8951

**1871-S Twenty Dollar, MS60**  
Reddish and Green-Gold Color

- 4041 1871-S MS60 PCGS.** Micro S. Reddish and green-gold hues dominate this Uncirculated Type Two twenty, one of 928,000 double eagles struck at San Francisco in 1871. The stars show full centers, and the eagle's feathers are well-detailed. Frosty luster appears on each side, though it is seemingly more vibrant on the reverse. An interesting die break is noted above MER in AMERICA. Myriad abrasions limit the grade. NGC ID# 26ND, PCGS# 8962

**1872-S Double Eagle, MS60**  
Scarce in Mint State

- 4042 1872-S MS60 NGC.** Small squat S. Type Two twenties are known for their scarcity in Mint State, and the 1872-S is better issue, nearly unknown in grades above MS62. Presumably, it was struck before the wide-scale export of gold coin to foreign banks. This coruscating honey-gold example has a crisp strike and a typical quantity of abrasions. NGC ID# 26AF, PCGS# 8965

**1872-S Double Eagle, MS61**  
Elusive Type Two Twenty

- 4043 1872-S MS61 PCGS.** Micro S. Of the three 1872 double eagle issues, S-mint coins slightly edge out the Philadelphia products in terms of mint condition availability. That is somewhat misleading, however, as 1872-S double eagles are still very scarce in MS60 and MS61, and they are downright rare in higher grades. Khaki and orange-gold hues color this Uncirculated Type Two twenty dollar gold piece. Bagmarks are peppered over each side, but the only abrasion worth mentioning occurs below the bust tip left of the 1. Well-struck and highly lustrous. Population: 44 in 61, 8 finer (5/16). NGC ID# 26AF, PCGS# 8965

**1874-CC Double Eagle, AU55**

- 4044 1874-CC AU55 NGC.** Variety 2-A. Luster accompanies design elements of this popular Type Two Carson City issue. Abrasions are distributed but none are offensive. A few specks of struck-in grease, as coined, are noted near the 7 in the date. The strike is good although portions of the shield lack a full strike. NGC ID# 26AP, PCGS# 8971

**1876-CC Twenty Dollar, AU58  
CAC-Endorsed and Appealing**

- 4045** 1876-CC AU58 NGC. CAC. Variety 3-A. One of many die varieties for this collectible Type Two Carson City double eagle. This near-Mint 1876-CC displays partially lustrous fields with wheat-gold patina and minor surface chatter. Eye appeal is pleasing for the grade. Mint State coins are occasionally seen but often come with unsightly abrasions. NGC ID# 26AW, PCGS# 8977

**1877-S Liberty Twenty, MS62  
Seldom Seen Finer**

- 4046** 1877-S MS62 NGC. The 1877-S is the debut Type Three double eagle from San Francisco. This is a better-than-average Uncirculated coin and it resides just a single grade point shy of being conditionally rare. Rose-gold and yellow-gold hues blend over each side, illuminating sharp design elements and light, scattered abrasions. NGC has seen nine numerically finer submissions (5/16). NGC ID# 254B, PCGS# 8984

**1877-S Twenty Dollar, Strong MS62  
First-Year Issue**

- 4047** 1877-S MS62 PCGS. The Type Three design was introduced at Philadelphia, Carson City, and San Francisco in 1877, and this West Coast emission is the most available among them. That is not to say, however, that examples are plentiful in all grades. Rather, MS62 coins are scarce and Select representatives are downright rare. This rose and medium orange-gold double eagle features unusually strong detail throughout, including the stars and lower curls. Frosty luster rolls over each side. Field chatter is unsurprising given the grade. PCGS reports 35 finer submissions (5/16). NGC ID# 254B, PCGS# 8984

**1877-S Liberty Twenty, MS62+  
Lustrous Type Three Example**

- 4048** 1877-S MS62+ PCGS. A dramatic drop in grading service populations occurs at the Select Uncirculated level for the 1877-S twenty. The addition of the PCGS Plus designation moves the present coin significantly closer to the rare MS63 grade. Light abrasions are scattered across the portrait, yet the surfaces are otherwise smooth and attractive on this frosty, sun-gold example. A sharp strike adds to the appeal. PCGS lists 35 finer representatives (5/16). NGC ID# 254B, PCGS# 8984

**1878-S Double Eagle, Semiprooflike MS62  
Conditionally Rare San Francisco Issue**

- 4049** 1878-S MS62 NGC. Despite a mintage of 1.7 million coins, the 1878-S is challenging in Mint State. A number of MS61 and MS62 coins have been repatriated from overseas holdings in the past three decades, but anything finer is extremely rare. Each side features a degree of semiprooflikeness, indicative of an early impression from the dies. The hair curls are sharp, as are the upper stars and the central reverse. A marvelous Uncirculated example with rich yellow-gold color and luminous luster. Census: 91 in 62 (1 in 62+), 7 finer (5/16). NGC ID# 338K, PCGS# 8987

**1883-CC Double Eagle, Choice AU  
Pleasing Color and Surfaces**

- 4050** 1883-CC AU55 NGC. Variety 2-A. The 1883-CC is surprisingly available for a Carson City double eagle from the 1880s. The mintage of 59,962 pieces suggests many pieces left the country for foreign hoards and later returned into collector hands. This Choice About Uncirculated example retains much mint luster while the surfaces are far less bagmarked and abraded than usually seen at the grade level. Attractive sun-gold color adds to the appeal. NGC ID# 26BH, PCGS# 8999

**1883-CC Double Eagle, MS62  
Exceptional Branch Mint Type Coin**

**4051 1883-CC MS62 PCGS. CAC. Variety 2-A.** The 1883-CC Liberty double eagle claims a mintage of 59,962 pieces and the issue is actually more available than that modest production total would suggest. It seems likely that many of the coins were used in overseas commerce, rather than the regional economy, and later repatriated to this country. The 1883-CC is a favorite choice of branch mint type collectors.

This attractive MS62 example exhibits well-detailed design elements and lustrous orange-gold surfaces that show remarkably few signs of contact for such a large gold coin. The overall presentation is most attractive and this coin will be a welcome addition to a fine collection or Registry Set. Population: 17 in 62, 4 finer (5/16). NGC ID# 26BH, PCGS# 8999

**1890-CC Liberty Twenty, AU58  
Popular Branch Mint Type Coin**

**4052 1890-CC AU58 NGC. Variety 1-A.** The 1890-CC double eagle claims a mintage of 91,209 pieces, making it one of the more available issues from the famous Western mint, and a popular choice of branch mint type collectors. Just the slightest trace of actual wear is evident on the well-detailed design elements of this attractive near-Mint specimen, but the lustrous orange-gold surfaces show many tiny abrasions on both sides. NGC ID# 26BY, PCGS# 9014

**1905-S Double Eagle, MS64  
Frosty Peach-Gold Surfaces**

**4053 1905-S MS64 PCGS.** In the second edition of his popular *Type Three Double Eagles* reference, Mike Fuljenz comments: "It seems likely that a significant number of 1905-S double eagles were melted, as this date is scarcer than its reasonably high mintage would suggest." Clean, peach-gold surfaces radiate thickly frosted luster and show full design definition. Eye appeal is terrific. It is estimated that only 20 coins are finer than the one offered here. PCGS reports 12 higher grading events (5/16). NGC ID# 26D3, PCGS# 9048

**1905-S Double Eagle, MS64  
Rarely Encountered Finer**

**4054 1905-S MS64 PCGS.** Mint State examples of the 1905-S twenty are scattered throughout the MS60 to MS64 grades, with Gem-quality coins being very rare. This satiny near-Gem displays excellent eye appeal and sharp design elements. Some light handling marks on Liberty's cheek and a few select ticks here and there are all that limit the grade. PCGS has seen 12 numerically finer submissions (6/16). NGC ID# 26D3, PCGS# 9048

**1906-D Liberty Twenty, MS64+  
First Denver Mint Issue**

**4055 1906-D MS64+ PCGS. CAC.** From a mintage of 620,250 pieces, the 1906-D Liberty double eagle can be located in MS64 condition without too much trouble, but finer examples are rare. This Plus-Graded Choice specimen displays sharply detailed design elements and lightly marked orange-gold surfaces, with vibrant mint luster and ample eye appeal. PCGS has graded 13 numerically finer examples (5/16). NGC ID# 26D5, PCGS# 9050

## PROOF LIBERTY DOUBLE EAGLE

1884 Double Eagle, PR64 Cameo  
Seldom Seen in Any Grade  
Lowest-Mintage Proof-Only Issue  
of the 1880s

**4056 1884 PR64 Cameo PCGS Secure.** The second in sequence and the lowest-mintage of three proof-only double eagle issues from the decade of the 1880s, the 1884 saw a proof emission of only 71 pieces. The low-mintage double eagle issues of the 1880s — including the proof-only dates, 1883, 1884, and 1887, as well as the low-mintage issues where circulation strikes were made, such as the 571 pieces for 1882 (along with 59 proofs) and the 751 pieces for 1885 (along with 77 proofs) — were the result of intentionally low double eagle productions on the part of U.S. Treasury officials.

The move was intended to increase the circulation of smaller-denomination gold coins, the eagle and half eagle, among the American populace, and perhaps to try to encourage future gold depositors to order those smaller denominations in preference to the double eagles.

The production numbers, in any case, are highly misleading. Jeff Garrett and Ron Guth, in the second edition of their *Gold Encyclopedia*, estimate that only 15 to 20 pieces survive today of the proof-only 1884, or somewhere between 20% to 30% of the original production. This makes the 1884, unsurprisingly, the lowest-survival issue of the three proof-only issues.

This near-Gem Cameo proof offers prevailing deep orange-red color that contrasts against lighter yellow-orange and scattered areas of dark brownish-orange patina near the rims; overall a piece that possesses excellent eye appeal. Any visible contact marks are infrequent and inconsequential.

As expected, offerings of this date in high grade are seldom seen, but we did handle an example in the same grade and service in our FUN Signature (Heritage, 1/2014), lot 5567, which realized \$164,500. NGC ID# 26E5, PCGS# 89100

## HIGH RELIEF DOUBLE EAGLE

### 1907 High Relief Twenty, VG10 Flat Rim Variant

- 4057 1907 High Relief, Flat Rim, VG10 PCGS.** Heavy, even wear is seen across each side; yet the outline of the central design elements are still abundantly clear because of the high relief these coins were struck in. Obviously carried as a pocket piece for many years, the surfaces show the brightness associated with such a coin, also there are very few signs of coin-to-coin contact. Each side displays light reddish patina. NGC ID# 26F2, PCGS# 9136

## SAINT-GAUDENS DOUBLE EAGLES

### 1907 Arabic Numerals Twenty, MS66 Lustrous and Eye-Appealing

- 4058 1907 Arabic Numerals MS66 PCGS.** 30th Anniversary Green Label Holder. Charles Barber's argument that Saint-Gaudens' double eagle design was in too high of relief to efficiently mass produce ultimately won out with Mint officials, when in late 1907, the low relief of the present coin was used for the bulk of that year's coinage. This Premium Gem Arabic Numerals 1907 Saint displays a bold strike and shimmering honey-gold luster. There are few marks of any sort, and eye appeal overflows. PCGS lists 18 Superb Gems finer (6/16). NGC ID# 26F5, PCGS# 9141

### 1908-D No Motto Double Eagle, MS65 Original Green-Gold Toning

- 4059 1908-D No Motto MS65 PCGS.** Long Rays Obverse. The peach-gold fields and devices are framed by a narrow band of apple-green patina. The strike is sharp and the lustrous surfaces display only trivial imperfections. An interesting die line, shaped like a fish hook, rises from the eagle's beak through the UNI in UNITED. Ex: Long Beach Signature (Heritage, 9/2011), lot 4533. NGC ID# 26F7, PCGS# 9143

### 1908-S Double Eagle, AU55 Low-Mintage Issue

- 4060 1908-S AU55 NGC.** The 1908-S Saint-Gaudens double eagle is a favorite date for its low 22,000-coin mintage. Luckily for the average enthusiast, lightly circulated pieces can be acquired with little difficulty. This Choice AU coin resides near the upper end of that category. The strike is well-defined, and the partially lustrous rose-gold surfaces display deeper orange hues over the briefly worn high points of the devices. NGC ID# 26FA, PCGS# 9149

### 1909-S Double Eagle, MS65+ Condition Rarity in Finer Grades

- 4061 1909-S MS65+ PCGS.** The 1909-S Saint-Gaudens double Eagle can be located in MS65 condition without much difficulty, but finer specimens are elusive. This Plus-graded Gem offers sharply detailed design elements and well-preserved orange-gold surfaces, with vibrant mint luster throughout. Eye appeal is terrific. PCGS has graded 15 numerically finer examples (5/16). NGC ID# 26FE, PCGS# 9153

### 1910 Saint-Gaudens Double Eagle Frosty, Lustrous Gem — Rare Any Finer

- 4062 1910 MS65 PCGS.** Frosty, honey-gold surfaces display a sharp strike on both sides and just a few tiny ticks anywhere on the attractive surfaces. Cartwheel luster abounds. PCGS has confirmed a scant four coins in a higher numeric grade, underscoring the condition rarity of Gem and finer examples of the 1910 Philadelphia twenty (5/16). NGC ID# 26FF, PCGS# 9154

**1910-S Double Eagle, MS65  
Bold Cartwheel Luster**

**4063 1910-S MS65 PCGS.** Boldly struck design elements stand out on this attractive Gem double eagle, as does coruscating luster. Just a few minuscule marks are of little consequence on the rich, orange-gold surfaces. The 1910-S is scarce in MS65 and notably rare any finer. Just nine examples have received a numerically finer grade at PCGS (5/16). NGC ID# 26FH, PCGS# 9156

**1914 Double Eagle, MS64+  
Elusive Condition Scarcity**

**4064 1914 MS64+ PCGS.** This frosty near-Gem is an elusive condition scarcity in the Saint-Gaudens double eagle series, from a mintage of 95,200 coins. Set Registry specialists in the double eagle coinage should be quite pleased to have this opportunity. Although PCGS has graded 41 of these in MS64+ and 43 others in higher numerical grades (5/16), that supply is hardly sufficient to meet the demand for such high grade examples. This piece has frosty and highly lustrous lemon-yellow surfaces and bold design definition. NGC ID# 26FS, PCGS# 9164

**1916-S Twenty Dollar, MS66  
None Finer at PCGS**

**4065 1916-S MS66 PCGS.** The 1916-S is the only double eagle issue produced that year, making an example essential for a complete date set. This Premium Gem representative is among the finest at PCGS (5/16) and resides in a green label holder. The strike is bold, and impressive honey-gold luster illuminates each side. NGC ID# 34NJ, PCGS# 9169

**1922-S Saint-Gaudens Twenty, MS64  
Heavily Melted Issue**

**4066 1922-S MS64 PCGS.** This issue's mintage of more than 2.6 million coins is meaningless, as significant quantities were melted in the mid-1930s. The rarity of Gem examples makes MS64 coins such as this popular for many collectors. This piece displays lustrous straw-gold surfaces with minimal abrasions. The design elements are well-defined. PCGS and NGC report 20 and 18 finer representatives (5/16), which routinely garner more than \$40,000 when offered at auction. NGC ID# 26G4, PCGS# 9174

**1923-D Saint-Gaudens Double Eagle, MS67  
None Finer at PCGS**

**4067 1923-D MS67 PCGS.** From a mintage in excess of 1.7 million pieces, the 1923-D Saint-Gaudens double eagle is an available date in high grade and a popular choice of branch mint type collectors. Even in the exalted grade of MS67, the 1923-D can only be called scarce, but finer examples are virtually unobtainable. PCGS has graded no coins in higher numeric grades, while NGC has certified a single specimen in MS67+, one in MS67 ★, and one finer coin in MS68 (5/16). The coin offered here is a spectacular Superb Gem, with well-detailed design elements and vibrant mint luster on both sides. The impeccably preserved orange-gold surfaces are free of mentionable distractions and eye appeal is tremendous. This coin represents an important opportunity for Registry Set enthusiasts. NGC ID# 26G6, PCGS# 9176

---

**1924 Saint-Gaudens Double Eagle, MS67**  
**Just One Finer Example at PCGS**

- 4068 1924 MS67 PCGS.** The surfaces of this Superb Gem twenty are nearly entirely free of marks or abrasions, while the smooth, satiny fields display glowing reddish-orange highlights surrounding the central motifs. Cartwheel mint luster flows across the sharply struck yellow-gold surfaces. Abundantly available in lesser grades, the 1924 double eagle is an unexpected condition rarity in the series at the MS67 level, with fewer than 100 coins so-graded and just one piece numerically finer. Population: 96 in 67 (2 in 67+), 1 finer (5/16). NGC ID# 26G7, PCGS# 9177

---

**1924 Saint-Gaudens Twenty, MS67**  
**Exceptional Type Coin**

- 4069 1924 MS67 PCGS Secure.** The 1924 double eagle is, along with its 1928 cousin, the most widely available of the P-mint Saint-Gaudens issues in high Mint State grades. That is a trait that should actually make this Superb Gem more appealing to a wider audience rather than less, as it is the textbook definition of a classic type coin. Glorious luster radiates from each side of this piece, and the surfaces are every bit as unabraded as the grade promises. Areas of yellow-gold and orange-gold compete for viewer attention with small accents of deeper lilac color. Population: 96 in 67 (2 in 67+), 1 finer (5/16). NGC ID# 26G7, PCGS# 9177

---

**1924 Saint-Gaudens Double Eagle, MS67**  
**Only One Numerically Finer at PCGS**

- 4070 1924 MS67 PCGS.** From a mintage of more than 4 million pieces, the 1924 Saint-Gaudens double eagle is an available date, and perhaps the most popular type coin of the series. This magnificent Superb Gem exhibits sharply detailed design elements throughout and the virtually pristine orange-gold surfaces radiate vibrant mint luster. Population: 96 in 67 (2 in 67+), 1 finer (5/16). NGC ID# 26G7, PCGS# 9177

---

**1924-D Twenty Dollar, MS62**  
**Vibrant Mint Luster**

- 4071 1924-D MS62 NGC.** Not to be confused with its available Philadelphia counterpart, the 1924-D double eagle is a scarce issue in Mint State. This collectible MS62 example displays a mostly sharp strike save for along the lower obverse border, and the frosty orange-gold luster is far more vibrant and eye appealing than is expected for the grade. NGC ID# 34VE, PCGS# 9178

---

**1924-S Saint-Gaudens Double Eagle, MS62**  
**Lustrous Surfaces**

- 4072 1924-S MS62 NGC.** Despite the large mintage of 2.9 million pieces, the 1924-S Saint-Gaudens double eagle was once considered a great rarity. Fortunately, a number of coins were discovered in European holdings over the years, making the issue more available today. This impressive MS62 example offers well-detailed design elements and lustrous yellow and orange-gold surfaces with a scattering of minor contact marks on both sides. NGC ID# 26G9, PCGS# 9179

---

**1925-D Double Eagle, MS62**  
**Scarce Issue in High Grade**

- 4073 1925-D MS62 PCGS.** The 1925-D Saint-Gaudens double eagle claims a substantial mintage of 2.9 million pieces, but most of those coins were melted after the Gold Recall of 1933. Some examples have surfaced in European holdings over the years, but the 1925-D is still a scarce issue, especially in high grade. This impressive MS62 example is well-detailed and lustrous, with the expected number of minor contact marks for the grade. NGC ID# 26GB, PCGS# 9181

---

**1926-S Saint-Gaudens Twenty, MS63**  
**Nice Luster and Color**

- 4074 1926-S MS63 PCGS.** Like most branch mint issues from the 1920s, the 1926-S Saint-Gaudens double eagle was once considered a great rarity, but enough coins have surfaced in foreign holdings to augment the available supply considerably since the 1950s. This attractive Select specimen exhibits well-detailed design elements and lightly marked orange-gold surfaces with vibrant mint luster on both sides. NGC ID# 26GF, PCGS# 9185

---

**1926-S Twenty Dollar, MS64+**  
**Intensely Radiant Luster**

- 4075 1926-S MS64+ PCGS.** Perhaps as many as a few thousand pieces escaped the melting pot of the ill-fated San Francisco issue by way of European hoards, but the vast majority of the 2 million pieces struck never saw circulation and were melted. This borderline Gem survivor exceeds most repatriated examples in both surface quality and eye appeal, with piercing sun-gold luster and only a few minor bagmarks. The sharp strike and vivid coloration suggest an even finer grade. PCGS reports just 39 numerically finer examples. Population: 52 in 64+, 39 finer (5/16). NGC ID# 26GF, PCGS# 9185

---

**1928 Saint-Gaudens Double Eagle, MS67**  
**Impressive, High-Grade Example**

- 4076 1928 MS67 PCGS.** Many high-grade examples exist from this well-produced issue, although perhaps not as many as the massive mintage of 8.8 million coins might suggest. At the current Superb Gem level, however, even this common date becomes scarce, and to date none have been rated any higher than MS67 by either of the major services.

This exceptional example combines splendid technical merit with outstanding visual appeal to leave no doubt that it is, indeed, a Superb specimen. A bold strike provides full details on each side, and sumptuous mint luster illuminates clean, well-preserved surfaces adorned by a beautiful mixture of mint-green and peach coloration. As implied by the grade, surface marks or flaws of any kind are absolutely minimal. Population: 85 in 67 (3 in 67+), 0 finer (5/16). NGC ID# 34VK, PCGS# 9189

---

**1928 Saint-Gaudens Twenty, MS67  
Strong Registry Set Contender**

**4077 1928 MS67 PCGS.** The 1928 Saint-Gaudens double eagle claims a series-record mintage of more than 8.8 million pieces. Historically, high-mintage issues are seldom well-made, as speed and volume of delivery usually trumps quality control. However, this is not the case with the 1928 double eagle. Most examples seen are sharply struck, with vibrant mint luster and minimal surface flaws. Easily located in high grade, the 1928 is a particular favorite with type collectors.

Although the 1928 is one of the most consistently attractive issues of the series, the present coin really stands out from the crowd. The design elements exhibit razor-sharp definition throughout and the impeccably preserved orange-gold surfaces radiate vibrant mint luster, with reddish-gold highlights. Overall visual appeal is terrific. Population: 85 in 67 (3 in 67+), 0 finer (5/16). NGC ID# 34VK, PCGS# 9189

**COMMEMORATIVE SILVER**

**1893 Isabella Quarter, MS67  
Ideal Silver Commemorative Type Coin**

**4078 1893 Isabella Quarter MS67 PCGS.** With a distribution of 24,214 pieces, the 1893 Isabella quarter is the only issue of that denomination in the classic silver commemorative series. This spectacular Superb Gem offers well-detailed design elements and lustrous, pristine surfaces under shades of greenish-gold and lavender-gray toning. Population: 49 in 67 (6 in 67+), 6 finer (5/16). NGC ID# BYJ9, PCGS# 9220

**1900 Lafayette Dollar, MS65  
Lightly Toned Type Coin**

**4079 1900 Lafayette Dollar MS65 PCGS. DuVall 1-B.** A plentiful DuVall variety, suitable for type purposes. The Lafayette dollar was the first and only silver dollar included in the classic commemorative series, with a distribution of 36,026 coins (including assay pieces). This Gem example is sharply struck and shows no bothersome abrasions. Each side has champagne luster, with russet overtones along the upper obverse border and lavender hues over much of the reverse. NGC ID# BYKW, PCGS# 9222

**1900 Lafayette Dollar, MS66  
First Commemorative Silver Dollar**

**4080 1900 Lafayette Dollar MS66 PCGS. DuVall 1-B.** The A in DOLLAR leans left and is lower than the adjacent L. As many as 50,000 Lafayette dollars were authorized for production, to be sold for \$2 each. Only 36,026 coins made it into the hands of the public and the remainder melted. This delightful Premium Gem is awash in frosty luster that emanates from beneath lilac-gray, crimson, and ice-blue patina. Well-rendered devices exhibit a hint of incompleteness over Lafayette's leg and the saddle. A pedigree mark appears on Washington's forehead. There are merely five finer submissions at PCGS (5/16). NGC ID# BYKW, PCGS# 9222

**1936 Gettysburg Half Dollar, MS67+  
Colorful Tab Toning, Few Are Finer**

- 4081** 1936 Gettysburg MS67+ PCGS. CAC. The tab-toned obverse has rich lavender and golden-bronze shades where the coin remained undisturbed within the cardboard holder for many years. Exposed areas of the obverse display are green-gold and pearl-white. The reverse offers vibrant olive-gold and lilac patina. Doubly recognized for its Superb Gem quality with the PCGS Plus designation and CAC endorsement. Population: 12 in 67+, 3 finer. CAC: 36 in 67, 0 finer (5/16). NGC ID# BYGM, PCGS# 9305

**1935 Hudson Half Dollar, MS67  
Subtle, Multicolor Toning**

- 4082** 1935 Hudson MS67 NGC. From a small distribution of 10,008 pieces, the 1935 Hudson half dollar is seldom encountered in MS67 condition. This delightful Superb Gem offers well-detailed design elements and virtually flawless, lustrous surfaces, under shades of greenish-gold and lavender toning. Census: 32 in 67 (4 in 67★), 0 finer (5/16). NGC ID# BYGS, PCGS# 9312

**1951-D Washington-Carver Half, MS67  
One Finer at NGC**

- 4083** 1951-D Washington-Carver MS67 NGC. The 1951-D is rarer than the 1951-S, but slightly more available than its Philadelphia counterpart at this remarkable grade level. Satiny surfaces are virtually all-brilliant, save for golden-russet patina that adheres to much of the obverse periphery. Light marks on the cheek are evident with a glass. Census: 7 in 67, 1 finer (5/16). NGC ID# BYKZ, PCGS# 9431

**COMMEMORATIVE GOLD**

**1915-S Panama-Pacific Quarter Eagle  
Satiny MS65**

- 4084** 1915-S Panama-Pacific Quarter Eagle MS65 NGC. The triumph of medicine over yellow fever during the construction of the Panama Canal is one of the themes that this satiny Gem quarter eagle conveys. Attractive, medium-gold color glows with rich mint luster over the sharply struck surfaces. While 10,017 pieces were struck, nearly a third of the mintage went unsold and was melted for a net distribution of just 6,749 pieces. NGC ID# BYLP, PCGS# 7450

---

1915-S Round Pan-Pac Fifty, MS64  
Time-Tested Key to the Classic Commemoratives

**4085 1915-S Round MS64 NGC.** Robert Aitken's designs for the renowned Pan-Pac fifty dollar gold commemoratives were not his only contribution to the San Francisco-based Panama-Pacific International Exposition, but they are the most remembered by numismatists. Aitken was also one of many notable artists of the period who were commissioned to design non-numismatic sculptures for display throughout the exposition grounds. Hermon MacNeil, Adolph Weinman, and John Flanagan — all future fellow coin designers — were among the participating sculptors.

Aitken's sculptural work in particular was highly symbolic and powerful. One of his sculptures, *The Elements: Earth, Air, Fire, and Water*, was on display at the top of the main staircase in the Court of the Universe. Stella G.S. Perry, in *The Sculpture and Murals of the Panama-Pacific International Exposition Official Handbook*, writes of this work: "These titantic [sic], symbolic figures of the Elements show the sweep, precision and realism that this sculptor can so well combine with poetic imagery."

Aitken's use of "poetic imagery" is also fully displayed on the round and octagonal fifty dollar gold pieces that were issued as souvenirs for the exposition. The obverse features Minerva, mythological goddess of wisdom and commerce, while the reverse shows an owl, Minerva's ever-present companion and symbol of wisdom, upon a branch of Western pine — all classically rendered with a Roman numeral date. The corners on each side of the octagonal version depict dolphins, symbolic of the international waterway created by completion of the Panama Canal, while the round variant has the central motifs pushing the peripheral legends all the way to the rims.

Each variety of the coin was given a mintage of 1,500 pieces, but most of these were later melted as unsold. The Pan-Pac fifties could be purchased in sets with other denomination commemoratives, but unfortunately for sales, even individual purchase of one of these "slugs" cost \$100 — no small sum in 1915. By the end of the distribution period, only 645 octagonal and 483 round coins were sold. The round variant is understandably the scarcer of the two today. This example is well-preserved and eye-appealing. As with the Pan-Pac quarter eagle, the Pan-Pac fifties were struck with very faint, parallel and swirling die lines in the fields, which give this near-Gem its satiny golden luster. A loupe reveals a few minor lines on Minerva's cheek that define the grade. NGC ID# BYHP, PCGS# 7451

## 1915-S Panama-Pacific Octagonal Fifty, MS62 King of the Classic Commemorative Series

**4086 1915-S Octagonal MS62 NGC.** Although the 1915-S Panama-Pacific round fifty dollar coins ended up with a smaller net distribution than their octagonal counterparts — more were melted of the round pieces, because less were sold — today, as apparently at their release, many numismatists and collectors prefer the unique octagonal design. The two are virtually identical, save for a slight size difference and the extra 16 dolphins in the eight corners around each side of the octagonals.

The obverse portrays the Roman goddess Minerva (Greek: Athena), who (according to the original publications associated with the Panama-Pacific Exposition) is “The Goddess of Wisdom, Skill, Contemplation, Spinning, Weaving and of Agriculture and Horticulture.” Carrying forward the “wisdom” theme, the reverse depicts an owl, “sacred to Minerva, the accepted symbol of wisdom, perched upon a branch of western pine.” The dolphins suggested “as they encircle the central field, the uninterrupted water route made possible by the Panama Canal.”

The original design of sculptor Robert I. Aitken also included a spider web, a feature to which Treasury Secretary William Gibbs McAdoo, among others, objected. Fortunately, Aitken was able to make a few design tweaks, including the removal of the spider web, mollifying McAdoo and clearing the way for production of the coins.

Approval of the designs for the fifty dollar coins was widespread, even if few collectors could afford the outlay to actually buy an example. The August 1915 issue of *The Numismatist* comments in this regard:

“Numismatics has received a new impetus by the government’s issue of the Panama-Pacific coins. Unfortunately these are put out at double face, a handicap which is quite serious in the case of the \$50 pieces, and there are two of these, one round the other octagonal in memory of the slugs of the early settlers.”

This 1915-S fifty dollar is a pleasing, bright example with lovely mint luster. The only mark of note is located on Minerva’s helmet, with a couple of lesser edge marks noted on the obverse. Faint slide marks on the cheek and in the field — common on these hefty commemoratives — define the grade.

Coin Ex: *The Emil Ross Collection* (Heritage, 7/2011), lot 4429; *FUN Signature* (Heritage, 1/2013), lot 5984. NGC ID# BYHP, PCGS# 7452

## MODERN BULLION COIN

1989 Silver Eagle, MS70  
Mercanti Signature Holder

- 4087** 1989 Silver Eagle, Mercanti Signature MS70 PCGS. Demand for Silver Eagles was rising in 1989, resulting in an increased business-strike distribution of 5,203,327 pieces. The present coin is a technically perfect example, with fully struck design elements and impeccably preserved surfaces that radiate vibrant, satiny mint luster from both sides. A few subtle hints of golden-tan toning add to the incredible eye appeal. Although NGC has certified a number of pieces in the ultimate grade of MS70, PCGS has graded very few. A limited number of coins, including the specimen offered here, were housed in special PCGS holders signed by Chief Engraver John M. Mercanti. Population: 3 in 70 (5/16). PCGS# 522938 Base PCGS# 9826

## TERRITORIAL GOLD

1852 Wass Molitor Ten, AU55  
Large Head, Wide Date, K-4 Variant

- 4088** 1852 Wass Molitor Ten Dollar, Large Head, Wide Date, K-4, R.5. AU55 PCGS. The U.S. Assay Office was contractually prohibited from striking any coins smaller than their fifty dollar slugs in early 1852, and all earlier private coinage firms in the region had recently been closed, resulting in a shortage of small denomination coinage in the California Territory. The San Francisco firm of Wass, Molitor & Co., which was primarily an assay firm, was petitioned by local businessmen to produce coins in five and ten dollar denominations on an emergency basis in 1852, to alleviate this shortage. The coins were struck in large numbers and were generally well-received because of Wass, Molitor's reputation for integrity and reliability. Most of the coins were later turned in and melted for recoinage, after the San Francisco Mint opened in 1854.

An extensive network of die cracks on the obverse and the wide, uneven date of this coin identify the very scarce K-4 variety. Little actual wear is evident on this well-detailed Choice AU specimen, but a number of minor abrasions show on both sides. The orange-gold surfaces retain much original mint luster. Listed on page 400 of the 2017 *Guide Book*. Population: 6 in 55, 6 finer (5/16). NGC ID# 33ZM, PCGS# 10348

## CALIFORNIA FRACTIONAL GOLD

1874 Indian Round Half Dollar, MS66  
Single-Finest Certified BG-1053

**4089** 1874 Indian Round 50 Cents, BG-1053, High R.5, MS66 PCGS. The fields of this spectacular Premium Gem display intense prooflike reflectivity on both sides and the design elements are sharply detailed throughout. The pleasing yellow and orange-gold surfaces are virtually pristine, with an interesting die crack from 8 o'clock on the obverse rim into the field. Population: 1 in 66, 0 finer (5/16). NGC ID# 2C24, PCGS# 10882

## PATTERNS

1879 Morgan Dollar, PR65 Red and Brown  
Judd-1616, Copper, Full Strike

**4090** 1879 Morgan Dollar, Judd-1616, Pollock-1812, High R.6, PR65 Red and Brown PCGS. CAC. The obverse depicts the regular dies design for the Morgan dollar, while the reverse features an eagle with spread wings holding an olive branch in its right talon and three long arrows in his left. Above is the legend UNITED STATES OF AMERICA and the motto E PLURIBUS UNUM. ONE DOLLAR is below. E PLURIBUS UNUM appears on both sides. Struck in copper with a reeded edge. This fully struck specimen is bathed in peach-gold, lavender-red, and lime-green patina. The mirrors are flashy and no detractors are apparent. NGC ID# 2AH7, PCGS# 71994

1882 Liberty Nickel, Struck in Nickel  
Judd-1680, PR66 Cameo

**4091** 1882 Liberty Nickel, Judd-1680, Pollock-1882, Low R.6, PR66 Cameo PCGS. CAC. The portrait of Liberty is identical to the adopted design of 1883, but here it is surrounded by UNITED STATES OF AMERICA instead of stars, and shows the date (1882) below. The border denticles are quite wide. The reverse features a wreath of corn and cotton encircling a large Roman numeral V — a numerator but no denominator. The motto E PLURIBUS UNUM is above. Struck in nickel with a plain edge. The surfaces are brilliant with sharply contrasting frosted devices on each side. Remarkably clean surfaces. NGC ID# 2AK4, PCGS# 414437 Base PCGS# 62085

*End of Session Two*

# SESSION THREE

## GSA DOLLARS

- 4092 1878-CC Lines in Wing, VAM-11, GSA, MS64 NGC. CAC.** A Top 100 Variety. A popular VAM noteworthy for its many straight die lines within the eagle's wings. A well struck, lustrous, and brilliant near-Gem. The obverse field is smooth, and the cheek displays light marks. Reverse contact is minor aside from a tick on the G in GOD. The box and certificate are included. NGC ID# 253M, PCGS# 518845 Base PCGS# 407080
- 4093 1880/79-CC Reverse of 1878, VAM-4, GSA, MS64 ★ NGC. CAC.** A Top 100 Variety. Magnificent bands of cherry-red, lemon-gold, powder-blue, and jade-green traverse the left obverse. The reverse and right obverse are brilliant. Lustrous and nicely struck with a clean reverse and moderate facial marks. NGC ID# AP7P, PCGS# 518922 Base PCGS# 407108
- 4094 1881-CC GSA MS65 NGC.** A bold strike and sweeping luster ensure the eye appeal of this Carson City silver dollar. The fields are smooth and the portrait shows delicate marks. Both sides are close to brilliant, though the reverse displays a smattering of tiny gray freckles. A box and GSA certificate come with the lot.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 2547, PCGS# 518863 Base PCGS# 407126
- 4095 1881-CC GSA MS65 NGC.** A highly lustrous representative of this low mintage Carson City issue. Each side displays only a wisp of almond-gold patina. Well preserved despite minor field marks near the arrowheads. The GSA box and certificate are included.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 2547, PCGS# 518863 Base PCGS# 407126
- 4096 1881-CC GSA MS65 NGC. VAM-2.** Rich lemon, orange, and lilac toning endows the reverse of this lustrous Gem. The obverse is close to brilliant. The strike is full and the fields are splendidly smooth. Wispy facial marks are of little import. The GSA certificate and box are included.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 2547, PCGS# 518863 Base PCGS# 407126
- 4097 1881-CC GSA MS65 NGC. VAM-2.** A lustrous Gem that possesses potent luster and an intricate strike. Hints of tan toning visit otherwise brilliant surfaces. A well-preserved example of the second-lowest mintage Carson City silver dollar. The box and certificate of GSA issue accompany the lot.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 2547, PCGS# 518863 Base PCGS# 407126
- 4098 1881-CC GSA MS66 PCGS. VAM-2.** A wisp of tan toning accompanies lustrous and precisely struck surfaces. Both sides show only incidental contact. A low mintage Carson City issue. Included with the lot is a GSA box and a GSA certificate for an 1883-CC dollar. NGC ID# 2547, PCGS# 518863 Base PCGS# 407126

### 1881-CC GSA Dollar, MS66+ White, Smooth, and Lustrous

- 4099 1881-CC GSA MS66+ PCGS.** A brilliant beauty that boasts blazing luster and a bold strike. Marks are trivial save for a thin line on the cheekbone. Among Carson City Morgan issues, only the 1885-CC has a lower production. No box or certificate is included. GSA Population: 23 in 66 (8 in 66+), 1 finer (5/16). NGC ID# 2547, PCGS# 518863 Base PCGS# 407126

### 1882-CC GSA Morgan, MS66 Prooflike Sole Finest GSA Prooflike at PCGS

- 4100 1882-CC GSA MS66 Prooflike PCGS. CAC.** This Premium Gem 1882-CC Morgan is the sole finest Prooflike GSA coin at PCGS (5/16), and the CAC endorsement only adds to the appeal. The strike is well-executed, and the coin is essentially untuned. The mirrored fields provide a hint of cameo contrast. A few small grazes on the cheek preclude an even finer grade. NGC ID# 254B, PCGS# 518867 Base PCGS# 407135
- 4101 1883-CC GSA MS66 NGC.** Arcs of sea-green and golden-brown toning endow the lower reverse periphery. This lustrous and well preserved Carson City type coin is otherwise brilliant, save for a glimpse of tan patina above Liberty's cap. NGC ID# 254H, PCGS# 518869 Base PCGS# 407144
- 4102 1883-CC GSA MS66 PCGS. VAM-5B.** A hint of silver-gray toning precludes full brilliance, but this lustrous and well struck Carson City type coin has exemplary preservation. The fields and cheek are especially smooth. NGC ID# 254H, PCGS# 518869 Base PCGS# 407144
- 4103 1883-CC GSA MS65+ Prooflike NGC.** Glimpses of lemon-gold patina visit the right obverse margin. The remainder of this flashy Carson City Gem is white aside from scattered pinpoint flecks. Sharply struck, lustrous, and exemplary for the designated grade. NGC ID# 254H, PCGS# 518870 Base PCGS# 407145
- 4104 1884-CC GSA MS66 NGC. VAM-3A.** A lightly toned Premium Gem that boasts booming luster, a sharp strike, and pleasing preservation. VAM-3A shows a counterclash on the back of Liberty's cap. A box and four certificates accompany the lot. NGC ID# 254L, PCGS# 518872 Base PCGS# 407152
- 4105 1884-CC GSA MS66 NGC. VAM-2.** The 1 in the date is clearly repunched. Peach patina visits the left obverse border, but the remainder of this lustrous high-grade Carson City dollar remains brilliant. The strike is full and the reverse is nearly pristine. NGC ID# 254L, PCGS# 518872 Base PCGS# 407152
- 4106 1884-CC GSA MS65 Deep Mirror Prooflike NGC. VAM-2.** The date is repunched, most apparent above the flag of the 1. A brilliant and boldly struck Gem. The mirrored surfaces are smooth save for minor contact on the left obverse field. Liberty's lower cheek displays faint parallel roller marks, as made. NGC ID# 254M, PCGS# 518874 Base PCGS# 497153
- 4107 1885-CC GSA MS65 NGC. CAC. VAM-3.** Crisply struck, lustrous, and essentially brilliant. The fields are smooth and the portrait displays minor contact. A charming Gem of this popular and low mintage Carson City issue. NGC ID# 254M, PCGS# 518875 Base PCGS# 7160

1890-CC Morgan Dollar, MS62  
GSA Holder With Certificate and Box

- 4108** 1890-CC GSA MS62 NGC. A better date Carson City dollar whose lustrous surfaces are brilliant save for a small spot above Liberty's eye. Marks are fewer than anticipated for the MS62 level. The 1890-CC mintage was more than double that of the 1884-CC, but unlike the latter issue, most pieces were disbursed into Old West commerce. The box and certificate of GSA issue are included.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255D, PCGS# 518878 Base PCGS# 407198

1890-CC GSA Dollar, MS62  
Certificate and Box Included

- 4109** 1890-CC GSA MS62 NGC. CAC. Light silver-gray and caramel-gold toning visit this lustrous and nicely struck scarcer date Carson City Morgan. The fields are unexpectedly smooth, and the cheek shows only wispy abrasions. Many 1890-CC dollars were broken out of GSA holders for third party grading during the 1980s and 1990s. A box and certificate accompany the lot.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255D, PCGS# 518878 Base PCGS# 407198

1890-CC GSA Silver Dollar, MS62  
Challenging GSA Issue

- 4110** 1890-CC GSA MS62 NGC. CAC. Peach-gold patina visits the left obverse margin. A few gray freckles near the ME in AMERICA are toning from long-term proximity to the sealed canvas bag. Lustrous and well struck with a smooth reverse and the customary number of marks on the left obverse. A box and certificate of GSA issue are included.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255D, PCGS# 518878 Base PCGS# 407198

1890-CC GSA Dollar, MS62  
Well-Preserved Reverse

- 4111** 1890-CC GSA MS62 NGC. VAM-7. A repunched mintmark variety perhaps more easily identified by the die line within the D in DOLLAR. Mottled silver-gray toning visits this lustrous and moderately abraded representative. The 1890-CC is the highest-mintage Carson City dollar issue, but is nonetheless a better date in a GSA holder, since fewer pieces were saved in vaults. A GSA certificate and box are included.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255D, PCGS# 518878 Base PCGS# 407198

1890-CC Silver Dollar, MS62  
VAM-7, Repunched Mintmark

- 4112** 1890-CC GSA MS62 NGC. VAM-7. The mintmark is repunched, with the "first C doubled strongly on lower left inside of loop," per VAMworld.com. Lightly toned and lustrous with generally smooth fields and moderate marks on Liberty's face. The strike is bold. The box and certificate of GSA issue accompany the lot.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255D, PCGS# 518878 Base PCGS# 407198

- 4113** 1891-CC GSA MS61 NGC. CAC. VAM-3. A Top 100 Variety. The "Spitting Eagle" variety with a die lump below the eagle's beak. The mintmark is lightly repunched. Brilliant, lustrous, and nicely struck. The left obverse displays marks consistent with the MS61 grade. Included with the lot is a GSA box. A GSA certificate is also present but lacks the upper serial number.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255H, PCGS# 518881 Base PCGS# 407206

- 4114** 1891-CC GSA MS61 NGC. CAC. VAM-3. A Top 100 Variety. The mintmark is repunched north, perhaps of greater numismatic significance than the die lump responsible for the "Spitting Eagle" nickname. Brilliant and lustrous with a good strike and a well-preserved reverse. The GSA box and certificate are present, though the latter lacks a stamped serial number.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255H, PCGS# 518881 Base PCGS# 407206

- 4115** 1891-CC GSA MS61 NGC. CAC. VAM-3. A Top 100 Variety. The Near Date "Spitting Eagle" variety. The obverse exhibits consistent butter-gold toning. The reverse is close to brilliant. Lustrous and pleasing with fewer facial marks than anticipated. A GSA box and certificate are present, although the latter lacks the stamped serial number.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255H, PCGS# 518881 Base PCGS# 407206

**4116 1891-CC GSA MS61 NGC. CAC. VAM-3.** A Top 100 Variety. Wheat-gold toning graces a majority of the obverse and portions of the reverse. Faint field fingerprint fragments are near the profile and eagle's head. VAM-3 is well-known as the "Spitting Eagle" variety, due to the die dot below the eagle's beak. The lot has a GSA box and certificate, which lacks a serial number.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255H, PCGS# 518881 Base PCGS# 407206

**4117 1891-CC GSA MS61 NGC. CAC. VAM-3.** A Top 100 Variety. Delicate almond-gold patina denies full brilliance. The reverse is uncommonly unabraded, but the cheek displays wispy abrasions. The "Spitting Eagle" VAM is fairly prevalent among '91-CC GSA examples. The box and certificate of GSA issue accompany the lot, though the certificate lacks a serial number.  
*From The Lenny Reiner Collection, Part V.* NGC ID# 255H, PCGS# 518881 Base PCGS# 407206

### 1891-CC GSA Dollar, MS62 Untoned and Lightly Marked

**4118 1891-CC GSA MS62 NGC.** A lightly toned and lustrous representative. The centers are incompletely impressed, but the remainder of the strike is good. Pleasing for the grade despite minor facial grazes. A popular and scarcer Carson City issue. A GSA box accompanies the lot.  
*Ex: FUN Signature (Heritage, 1/2014), lot 6304, which realized \$2,467.50.* NGC ID# 255H, PCGS# 518881 Base PCGS# 407206

## MORGAN DOLLARS

**4119 1878 8TF Pierced Eyelid, VAM-6, MS65 PCGS. CAC.** The first Morgan dollar struck at Philadelphia in 1878 had eight tailfeathers, but due to a public outcry, the engravers prepared new hubs with seven tailfeathers, since eagles "never had an even number of tailfeathers." This lovely Gem exhibits fully brilliant and untuned silver surfaces with reflective fields and lustrous devices. NGC ID# 76LZ, PCGS# 133789 Base PCGS# 7072

### 1878 8TF Morgan Dollar, Near-Mint Very Rare 'Wild Eye' VAM-14.11

**4120 1878 8TF Wild Eye, VAM-14.11, AU58 PCGS.** A Top 100 Variety. VAMworld.com states, "VAM-14.11 is an ultra rarity with perhaps a dozen known." PCGS has certified 16 examples, and NGC has graded seven coins. We suggest a total of 30 survivors. The pick-up point is the front of Liberty's eye, which displays two distinctive mint-made die lines. This cream-gray and almond-gold representative exhibits partial cartwheel luster and is free from any noticeable marks. The hair above the ear shows a trace of wear. NGC ID# 224X, PCGS# 133806 Base PCGS# 7072

**4121 1878 7TF Reverse of 1878 MS65 PCGS.** A well-struck Gem with lovely crescents of rainbow toning surrounding the left obverse and lower-left reverse borders. The remainder of each side is light golden. Frosty luster rolls over each side, delivering outstanding eye appeal. Finer examples are seldom encountered. NGC ID# 2TY3, PCGS# 7074

**4122 1878 7TF Reverse of 1878 MS65+ PCGS. VAM-196.** Arcs of cherry-red, sun-gold, and apple-green endow the upper left portion of this lustrous and well struck Gem. A well preserved and beautiful first-year Morgan dollar. On VAM-196, LIBERTY and the R in PLURIBUS are die doubled. Reverse characteristics include missing (lapped) feathers within the wings. NGC ID# 2TY3, PCGS# 7074

**4123 1878 7TF Reverse of 1878 MS65 PCGS. CAC.** A highly lustrous and frosty Gem, this first-year Morgan dollar exhibits brilliant silver surfaces with a thin ring of peripheral iridescence on each side. NGC ID# 2TY3, PCGS# 7074

**4124 1878 7TF Reverse of 1878, VAM-81, Polished Ear MS65 PCGS.** The doubled P and R in PLURIBUS are easy pickup points for this variety, while the parallel arrow feathers identify the Reverse of 1878. This attractive Gem is sharply detailed throughout, with well-preserved, lustrous surfaces and highlights of champagne-gold toning. NGC ID# 253K, PCGS# 134041 Base PCGS# 7074

### 1878-CC Morgan Dollar, MS65 Rainbow-Toned Obverse, Brilliant Reverse

**4125 1878-CC MS65 PCGS.** The obverse of this beautiful first-year Gem has a melange of rainbow colors that includes blue, rose-violet, turquoise, yellow, and orange. The reverse is entirely brilliant. Sharply struck motifs and swirling luster are common to both sides. Morgan dollar production commenced in 1878 after the passage of the Bland-Allison Act. The inaugural Carson City mintage totaled 2.2 million coins. NGC ID# 253M, PCGS# 7080

**4126 1878-CC MS65 PCGS.** A few tiny specks of gold toning appear on the otherwise brilliant surfaces of this Gem Carson City Morgan representing the debut of the design. The reverse has prominent die lines around the CC mintmark that is canted to the right. NGC ID# 253M, PCGS# 7080

**4127 1878-CC MS65 NGC.** The CC mintmark is closely spaced with both letters closed on this lovely Gem first-year Morgan dollar. Both sides of this untuned example display brilliant and frosty silver luster with a bold strike and reflective fields. NGC ID# 253M, PCGS# 7080

**4128 1878-CC MS65 PCGS.** A boldly struck Gem with untuned, frosty luster and a hint of reflectivity in the fields. Trivial grazes on the obverse limit the grade but pose little distraction. An eye-appealing first-year Carson City Morgan. NGC ID# 253M, PCGS# 7080

**4129 1878-CC MS65+ PCGS.** A plus-graded Gem from the first year of the design, this coin exhibits sharply detailed design elements and vibrant mint luster throughout, and the well-preserved surfaces show a few subtle hints of golden-tan toning. Eye appeal is outstanding. NGC ID# 253M, PCGS# 7080

**4130 1878-CC MS64 Prooflike PCGS. CAC.** A sharp, frosty Carson City first-year Morgan, showing reflective fields and full mint brilliance. The untuned design elements offer modest cameo contrast, and grade-limiting abrasions are minor. Finer Prooflike coins are infrequently seen. NGC ID# 253M, PCGS# 7081

**4131 1879 MS66 PCGS.** Medium-intensity shades of lavender-gray and greenish-gold toning visit the well-preserved surfaces of this impressive Premium Gem, with vibrant mint luster and sharply detailed design elements underneath. PCGS has graded only four numerically finer examples (5/16). NGC ID# 253S, PCGS# 7084

**4132 1879-CC Capped Die, VAM-3, Top 100, XF45 PCGS.** A Top 100 Variety. This Choice XF example displays original golden-gray patina with small hints of luster remaining in the protected portions of the fields. Detail is sharp, and the surfaces are problem-free. The "Capped Die" mintmark feature is plain. NGC ID# 253U, PCGS# 133869 Base PCGS# 7088

**4133 1879-CC Capped Die, VAM-3, Top 100, AU50 NGC.** A Top 100 Variety. Some original luster remains in the fields beneath light golden toning. The strike is bold, and little high-point friction is seen. Light chatter on Liberty's cheek is consistent with the grade. Die lumps around the mintmark on the reverse identify the VAM-3 variety. NGC ID# 253U, PCGS# 133869 Base PCGS# 7088

**4134 1879-O MS65 PCGS.** The 1879-O is a conditionally elusive date at the Gem level, and PCGS has seen only 25 finer representatives (5/16). This golden-toned Gem displays a bold strike and excellent preservation — only a few tiny ticks on the cheek prevent an even finer grade. NGC ID# 253X, PCGS# 7090

**4135 1879-S Reverse of 1878 MS64 PCGS.** A sharp strike and slightly reflective fields complement radiant cartwheel luster on this champagne-toned Choice 1879-S Morgan. A few trivial grazes on Liberty's cheek are all that limit the grade. Finer Reverse of 1878 coins are elusive. NGC ID# 253W, PCGS# 7094

#### 1879-S Morgan Dollar, MS65 Reverse of 1878

**4136 1879-S Reverse of 1878 MS65 PCGS.** 30th Anniversary Green Label Holder. As a date, the 1879-S Morgan is plentiful, but the Reverse of 1878 variety is elusive in Gem condition. This piece is sharply struck and displays vibrant luster. The obverse has amber, gold, and teal-gray peripheral toning around a light lavender-gray interior, while the reverse displays amber and sea-green peripheries with a brilliant center. Population: 55 in 65, 1 finer (5/16). NGC ID# 253W, PCGS# 7094

**4137 1879-S Reverse of 1878, VAM-9, MS64 PCGS. CAC.** A Top 100 Variety. Only a trace of golden patina visits this lustrous and well struck silver dollar. Marks are minimal, and the eye appeal is exceptional for the MS64 level. The Second Reverse VAM-9 has a pair of die lines within the serif of the L in LIBERTY and distinctive die scratches within the ribbon loop. NGC ID# 253W, PCGS# 133858 Base PCGS# 7094

**4138 1879-S MS67+ PCGS. CAC. VAM-15.** The upper serif of the mintmark is repunched, and per VAMworld.com, the 18 is lightly doubled. A brilliant and flashy Superb Gem. The strike is full, and mentionable marks are limited to the field above TRUST. A popular silver type issue. NGC ID# 253X, PCGS# 7092

**4139 1880 MS65+ PCGS.** An exquisite Gem with pristine surfaces, this example is brilliant and untuned with frosty silver luster and excellent design definition. An impressive example of a conditionally-scarce issue in high grades. NGC ID# 253Y, PCGS# 7096

**4140 1880-CC 8 Over High 7, VAM-5, MS65 PCGS. CAC.** A Top 100 Variety. A hint of golden patina visits this thoroughly lustrous, well preserved, and fully struck Gem. A conservatively graded example of the popular overdated Carson City VAM. CAC: 24 in 65, 27 finer (5/16).

Ex: Sacramento ANA Signature (Heritage, 3/2011), lot 3860. NGC ID# 2542, PCGS# 133877 Base PCGS# 7102

#### 1880-CC Morgan Dollar, MS66 VAM-5, 8 Over High 7

**4141 1880-CC 8 Over High 7, VAM-5, MS66 PCGS.** A Top 100 Variety, showing the second 8 in the date clearly punched over a previous 7. A small die gouge on the reverse, connecting the olive branch to the fletchings, confirms the variety. This Premium Gem example is brilliant, with frosty devices and modestly reflective fields. The strike is bold, and there are no bothersome abrasions. NGC ID# 2542, PCGS# 133877 Base PCGS# 7102

**4142 1880-CC MS66 NGC.** This impressive Premium Gem exhibits frosty silver luster with brilliant, untuned surfaces. An exceptional example for the connoisseur. NGC has only certified 22 numerically finer examples (5/16). NGC ID# 2542, PCGS# 7100

**4143 1880-CC MS66 PCGS. CAC. VAM-3A.** Lightly toned and thoroughly lustrous with uncommonly smooth surfaces. The hair above the ear is lightly brought up, but most of the design is well struck. VAM-3A has die rust near the mintmark and a boldly clashed reverse. NGC ID# 2542, PCGS# 7100

**4144 1880-O MS64 NGC.** Due to the rarity of finer examples, this attractively toned Choice 1880-O Morgan dollar will appeal to many budget-conscious collectors. The coin is well-struck and radiantly lustrous. The reverse is mostly untuned, the obverse has vivid blue, violet, and gold coloration. NGC has seen 28 numerically finer submissions (5/16). NGC ID# 2543, PCGS# 7114

#### 1880-O Dollar, Toned MS64+ Seldom Available Finer

**4145 1880-O MS64+ PCGS. CAC.** A well-struck example of this conditionally elusive New Orleans issue. The 1880-O is available through MS64, but Gems are rarely seen. This Plus-designated near-Gem offers frosty luster with a hint of reflectivity in the fields. The obverse displays dusky champagne toning, while the reverse has deeper forest-green, ruby-red, and olive-green in the margins around a sun-yellow center. PCGS lists 39 finer submissions (6/16). NGC ID# 2543, PCGS# 7114

**4146 1880-S MS67+ PCGS.** Large S. A fully struck Superb Gem. The nearly pristine surfaces exude booming luster and a trace of golden patina. An outstanding representative of the perennially popular crown-sized silver type. NGC ID# 2544, PCGS# 7118

- 4147 1880-S MS67+ PCGS. CAC.** 30th Anniversary Green Label Holder. Large S. Practically pristine aside from a slender field graze near AMERICA. Crisply struck and highly lustrous, customary for the issue. An outstanding type representative. NGC ID# 2544, PCGS# 7118
- 4148 1880-S MS67 Prooflike PCGS.** Medium S. A spectacular Superb Gem. Flashy and well struck with merely a hint of golden toning. The cheek is pristine and the obverse field is nearly immaculate. Outstanding quality, even by the exceptionally high standards of the well-made and bag-saved '80-S. NGC ID# 2544, PCGS# 7119
- 4149 1881 MS66 PCGS.** Both sides of this beautiful Premium Gem exhibit frosty silver luster that shines through the thick gold and iridescent toning. This issue is rarely found in higher grades, with only five numerically finer examples certified by PCGS (5/16). NGC ID# 2546, PCGS# 7124
- 4150 1881 MS66 PCGS.** This spectacular Premium Gem displays well-detailed design elements, with just a touch of the usual softness in the hair above the ear, and vibrant mint luster throughout. A minor mark in the reverse field, near TRUST, is the only mentionable flaw. PCGS has graded only five numerically finer examples (5/16). NGC ID# 2546, PCGS# 7124
- 4151 1881-CC MS66 PCGS.** An untuned, razor-sharp Premium Gem example of this popular Carson City issue, showing an ideal combination of semiprooflike mirroring and dazzling cartwheel luster in the fields with frost-white central devices. Eye appeal is outstanding. NGC ID# 2549, PCGS# 7126
- 4152 1881-CC MS66 NGC. VAM-2.** An essentially brilliant Premium Gem that boasts booming luster and an intricate strike. The fields are nearly immaculate, and the portrait displays only delicate contact. A better Carson City issue despite its participation in the GSA auctions. NGC ID# 2549, PCGS# 7126
- 4153 1881-CC MS66+ PCGS. VAM-2.** Light wheat-gold toning graces this lustrous and fully struck Carson City Morgan. The fields are essentially devoid of marks, and the cheek and neck show only unimportant contact, along with faint fingerprint fragments. NGC ID# 2549, PCGS# 7126
- 4154 1881-CC MS66+ PCGS. CAC. VAM-2.** The rolling, frost-white luster of this high-end Premium Gem 1881-CC Morgan dollar captivates the eye as it cartwheels around untuned, unabraded surfaces. The strike is razor-sharp, and the eye appeal is superb. VAM-2 shows doubling inside the upper loops of the 8s in the date and a sharp die line on the reverse between the olive branch and the fletchings. NGC ID# 2549, PCGS# 7126
- 4155 1881-CC MS66+ PCGS. CAC. VAM-2.** A sharp die line between the reverse olive branch and fletchings, and small "knobs" inside the upper loops of the 88 in the date identify the plentiful VAM-2 die pairing. This high-end Premium Gem 1881-CC dollar displays a sharp strike and dazzling frost-white luster. Eye appeal is outstanding. NGC ID# 2549, PCGS# 7126
- 4156 1881-CC MS66+ NGC. CAC.** Intense, dazzling luster radiates from the frost-white devices and partially reflective fields of this high-end Premium Gem 1881-CC dollar. The strike is sharp, and the lack of major abrasions adds to the impressive eye appeal. A hint of light golden toning appears around the peripheries. NGC ID# 2549, PCGS# 7126
- 4157 1881-CC MS66+ PCGS. CAC.** This spectacular Premium Gem Carson City Morgan dollar has frosty silver surfaces and bold details with exceptional eye appeal. Both sides have brilliant and untuned luster. NGC ID# 2549, PCGS# 7126
- 4158 1881-CC MS64 Deep Mirror Prooflike PCGS.** This spectacular Carson City dollar exhibits deeply mirrored fields that surround the frosty and fully lustrous devices. Both sides are brilliant and untuned. NGC ID# 2547, PCGS# 97127
- 4159 1881-O MS65 PCGS.** The reflective obverse of this Gem Morgan dollar is untuned with brilliant silver luster, while the lustrous reverse is fully toned in lovely gold, violet, and blue. PCGS has only certified 31 numerically finer examples (5/16). NGC ID# 2548, PCGS# 7128

## 1881-O Dollar, MS65 Prooflike Rare, Tied for Finest at PCGS

- 4160 1881-O MS65 Prooflike PCGS.** This cameo-contrasted Gem 1881-O Morgan dollar is tied with just five others as the finest Prooflike example at PCGS (5/16). The strike is impressively sharp, and a hint of light golden toning adds warmth to the frosty design elements and peripheries. Noticeable abrasions are fewer than expected for a Morgan with mirrored fields. NGC ID# 2548, PCGS# 7129
- 4161 1881-S MS66 PCGS. CAC.** Vivid shades of magenta, cobalt-blue, and greenish-gold toning visit the obverse of this spectacular Premium Gem, while the reverse remains mostly brilliant. The design elements are sharply detailed and vibrant mint luster shines through the patina. NGC ID# 2549, PCGS# 7130
- 4162 1881-S MS67+ PCGS. CAC.** High grade examples of the early San Francisco Mint Morgan dollars are as lovely as any issue in the series. This Superb Gem is brilliant and untuned with highly lustrous silver surfaces. The fields are reflective and contrast nicely with the frosty devices. NGC ID# 2549, PCGS# 7130
- 4163 1882 MS66+ PCGS. CAC.** This Plus-graded Premium Gem offers sharply detailed design elements and vibrant, frosty mint luster on both sides, and the well-preserved surfaces show no mentionable distractions. A few subtle hints of golden-tan toning enhance the terrific eye appeal. PCGS has graded 10 numerically finer examples (5/16). NGC ID# 254A, PCGS# 7132
- 4164 1882 MS64 Deep Mirror Prooflike PCGS.** The sharply detailed design elements of this attractive Choice example have a rich coat of mint frost that contrasts boldly with the deeply reflective prooflike surfaces. A few minor hairlines and contact marks are evident, none worthy of individual mention. PCGS has graded 28 numerically finer examples (5/16). NGC ID# 254A, PCGS# 97133
- 4165 1882-CC MS66 PCGS Secure.** A beautiful array of multicolor toning paints the obverse of this Premium Gem 1882-CC Morgan dollar, leaving the reverse mostly brilliant. The strike is bold, and a few minor ticks are hidden by the patina. Finer examples of this popular Carson City issue can be elusive. NGC ID# 254S, PCGS# 7134
- 4166 1882-CC MS66 PCGS. CAC.** Vibrant, frosty luster and a sharp strike give this Premium Gem 1882-CC Morgan dollar outstanding eye appeal. A ribbon of rainbow toning stretches horizontally across the center of the obverse, with the area below untuned and the area above displaying deep ebony color. The reverse is untuned. NGC ID# 254S, PCGS# 7134
- 4167 1882-CC MS66 Prooflike PCGS.** A brilliant and flashy Carson City type coin. The strike shows minor blending on the eagle's breast and the hair above the ear, but the cheek is smooth and the fields exhibit only incidental contact. NGC ID# 254B, PCGS# 7135
- 4168 1882-S MS67+ PCGS. CAC.** 30th Anniversary Green Label Holder. Lightly toned and thoroughly lustrous. The strike is sharp, and the surfaces are close to pristine. A wonderful silver type coin. Struck from a lightly rusted obverse die. NGC ID# 254F, PCGS# 7140
- 4169 1882-S MS67+ PCGS. CAC.** 30th Anniversary Green Label Holder. A wisp of straw-gold toning denies full brilliance. Lustrous, well struck, and remarkable close to immaculate. A plentiful issue, but desirable in the present extraordinary quality. NGC ID# 254F, PCGS# 7140

**1883-CC Morgan Dollar, MS67  
Strong Visual Appeal**

**4170 1883-CC MS67 PCGS.** Deep frosty luster and virtually untuned surfaces are among the attributes this Superb Gem example possesses. The strike is sharp aside from the extreme centers. The 1883-CC is among the most available Carson City dollars in Mint State, though only 5 examples have achieved higher numeric grades from PCGS (5/16). NGC ID# 254J, PCGS# 7144

**4171 1883-CC MS65 Deep Mirror Prooflike PCGS. VAM-5B.** Dazzling field reflectivity, a bold strike, brilliant surfaces, and a smooth reverse proclaim the quality of this Carson City type coin. Minor marks on the left obverse determine the grade. VAM-5B is a middle die state in the eventful life of the productive VAM-5 die marriage. NGC ID# 254H, PCGS# 97145

**4172 1883-CC MS65 Deep Mirror Prooflike PCGS. VAM-5B.** A stone-white Gem that boasts prominently mirrored fields and a sharp strike. Essentially pristine except for a small reed impression on the field near the right (facing) wing. A desirable Carson City type coin. NGC ID# 254H, PCGS# 97145

**1883-CC Dollar, MS66 Deep Mirror Prooflike  
A Brilliant Cameo**

**4173 1883-CC MS66 Deep Mirror Prooflike PCGS.** Although plentiful overall, the 1883-CC Morgan becomes elusive in the upper levels of the Deep Mirror Prooflike category. This Premium Gem example is beautifully preserved with untuned white-on-black contrast and a bold strike. A few light grazes on the cheek are all that limit the grade. PCGS has seen only two Superb Gems finer in Deep Mirror Prooflike (6/16). NGC ID# 254H, PCGS# 97145

**4174 1883-S MS63 PCGS.** Mottled olive-gold toning blankets the obverse, while the reverse displays a similar pattern of gunmetal-blue. This Select 1883-S Silver dollar is well-struck and exhibits few significant abrasions. NGC ID# 254K, PCGS# 7148

**4175 1884 MS66+ PCGS. CAC.** Save for a blush of golden toning along upper obverse and lower reverse borders, this high-end Premium Gem 1884 Morgan dollar remains originally almost untuned. The strike is sharp, and the frosty luster is radiant. A few light wisps of lavender color can be discerned along Liberty's jaw line. NGC ID# 254L, PCGS# 7150

**4176 1884-CC MS66+ PCGS. CAC.** Frosty and radiant, as are most high-grade Carson City dollars, this 1884-CC Morgan displays well-preserved surfaces and untuned cartwheel luster. Finer examples of this issue are elusive. This high-end Premium Gem is an eye-appealing coin. NGC ID# 8BBF, PCGS# 7152

**4177 1884-CC MS66+ PCGS. CAC.** An impressive Carson City Mint Morgan dollar, this Premium Gem has brilliant and untuned silver surfaces with frosty mint luster. An excellent opportunity for the type collector to add this historic Mint. NGC ID# 8BBF, PCGS# 7152

**4178 1884-CC MS66 Prooflike PCGS.** Light frost appears on the devices of this moderately reflective silver dollar. Liberty's hair has pleasing detail and eye appeal is quite strong. PCGS has only certified one finer prooflike example of the issue (5/16). Ex: *Dallas Signature* (Heritage, 11/2006), lot 1267; *Orlando Signature* (Heritage, 7/2013), lot 4247. NGC ID# 254M, PCGS# 7153

**4179 1884-S AU58 NGC.** The 1884-S Morgan dollar is a famous condition rarity in the series, and Mint State examples are elusive. For that reason, examples graded AU58 enjoy constant demand. This piece has satiny silver luster with untuned obverse and reverse surfaces. NGC ID# 254P, PCGS# 7156

**4180 1884-S AU58 NGC.** An outstanding near-Mint example of the conditionally rare 1884-S Morgan dollar, this one has lovely silver surfaces. Both sides are essentially untuned, save for faint champagne overtones. This is an important opportunity to save substantially from the five-figure price tag of a full Mint State piece. NGC ID# 254P, PCGS# 7156

**4181 1884-S AU58 NGC.** Both sides of this bright silver dollar have slightly reflective fields. Although essentially untuned, a few splashes of delicate gold and iridescent toning are evident. A line of bagmarks are visible in the right obverse field. A trace of rub on the high points prevents a full Mint State grade. NGC ID# 254P, PCGS# 7156

**4182 1884-S AU58 NGC.** Just a trace of wear shows on the high points of this impressive near-Mint Morgan dollar, and the brightly lustrous surfaces show a number of minor nicks and contact marks that preclude a Mint State grade. Highlights of greenish-gold and lavender toning enhance the visual appeal. NGC ID# 254P, PCGS# 7156

**4183 1885 MS66+ Prooflike PCGS.** Although the date is plentiful in the absolute sense, the 1885 Morgan is hard to find in the upper Prooflike grades. This high-end Premium Gem boasts razor-sharp detail and brilliant surfaces that have distinct cameo contrast. No obvious marks interrupt the mirrored fields. Population: 77 in 66 (8 in 66+) Prooflike, 4 finer (5/16). NGC ID# BYWR, PCGS# 7159

**4184 1885 MS66 Deep Mirror Prooflike NGC.** The Deep Mirror Prooflike surfaces of this P-mint Morgan dollar showcase thickly frosted, fully struck relief elements surrounded by glassy, jet-black mirrors. Each side is wholly brilliant and carefully preserved. This Premium Gem would make a great addition to any specialized set. NGC ID# 254R, PCGS# 97159

**4185 1885-CC MS66 PCGS.** Mottled gold, lavender, and blue toning blankets much of the obverse of this Premium Gem 1885-CC Morgan dollar, leaving the reverse with a blush of light golden toning. The strike is sharp, and a touch of reflectivity in the fields only adds to the eye appeal. Finer examples are elusive. NGC ID# 254S, PCGS# 7160

**4186 1885-CC MS66 PCGS. VAM-3.** A splendid Carson City dollar whose booming luster, bold strike, and superior preservation confirm the lofty third-party grade. Wispy contact on the portrait precludes Superb Gem status. NGC ID# 254S, PCGS# 7160

**1885-CC Dollar, MS66+  
Fully Frosted and Brilliant**

- 4187 1885-CC MS66+ PCGS. CAC.** Nearly 150,000 1885-CC Morgan dollars were distributed as part of the GSA release in the 1970s. Most of the coins were in the range of MS63 to MS65, and even Premium Gems were released in sizeable numbers. Few of them have met the requirements for a Plus designation and a CAC approval sticker, though. This strongly defined dollar is fully frosted and brilliant with tremendous visual quality to match its carefully preserved surfaces. NGC ID# 254S, PCGS# 7160

**1885-CC Dollar, MS66+  
Radiant Mint Luster**

- 4188 1885-CC MS66+ PCGS. CAC.** Finer examples of this popular Carson City issue are seldom seen. This high-end, CAC-endorsed Premium Gem displays vibrant cartwheel luster with wisps of light golden toning. A touch of strike softness is seen on the eagle's breast and the hair above Liberty's ear, but this is not distracting. There are no mentionable abrasions. NGC ID# 254S, PCGS# 7160
- 4189 1885-CC MS64 Deep Mirror Prooflike ANACS.** Wisps of pastel violet and gold toning grace the obverse and reverse surfaces of this Choice Mint State dollar with fully mirrored fields that frame the lustrous devices. NGC ID# 254S, PCGS# 97161
- 4190 1885-CC MS64 Deep Mirror Prooflike PCGS. CAC.** An eye-catching Deep Mirror Prooflike example of this popular Carson City dollar, showing stark white-on-black contrast and essentially untoned, near-Gem-quality surfaces. The mirroring in the fields is deep, and the frosty motifs are well-struck. NGC ID# 254S, PCGS# 97161
- 4191 1885-O MS67 PCGS. VAM-2.** 30th Anniversary Green Label Holder. The top of the 5 is nicely repunched. Booming luster and an intricate strike confirm the quality of this exceptional New Orleans type coin. The margins exhibit only a trace of golden patina. The fields are smooth and the cheek shows only delicate contact. NGC ID# 254T, PCGS# 7162
- 4192 1887/6-O VAM-3 MS63 PCGS. CAC.** A Top 100 Variety. Remnants of a 6 are visible below and right of the 7 in the date on this popular overdate variety. This Select Mint State piece has typical strike weakness at the centers. The surfaces are fully brilliant and untuned with frosty mint luster. NGC ID# 2552, PCGS# 133912 Base PCGS# 7178
- 4193 1887-S MS63 Deep Mirror Prooflike ANACS.** Light chestnut-gold and powder-blue toning endows this nicely struck and lightly abraded silver dollar. The 1887-S is very scarce with Prooflike or DMPL surfaces. Certified in a small-sized holder. NGC ID# 2554, PCGS# 97181

**1888-O Morgan Dollar, MS66+  
Among the Finest Certified at PCGS**

- 4194 1888-O MS66+ PCGS.** The 1888-O Morgan dollar claims a substantial mintage of more than 12 million pieces, and the issue is not difficult to locate in grades up to MS66, but finer coins are almost unobtainable. This Plus-graded Premium Gem exhibits sharply detailed design elements and impeccably preserved brilliant surfaces with vibrant mint luster throughout. PCGS has graded no coins in higher numeric grades (5/16). NGC ID# 2556, PCGS# 7184
- 4195 1888-O Hot Lips, Doubled Die Obverse, VAM-4, Top 100, AU55 PCGS. CAC.** A Top 100 and WOW! Variety. VAM-4 shows a dramatically doubled obverse die, seen most readily on the leaves in the cap and on Liberty's portrait. The deformed shape of the mouth gives this VAM its "Hot Lips" moniker. The present coin is typically weak on the high points of the central devices but shows little actual wear. Much luster remains in the fields, and each side has a hint of light champagne toning. Population: 54 in 55, 27 finer. CAC: 11 in 55, 12 finer (5/16). NGC ID# 2556, PCGS# 133919 Base PCGS# 7308
- 4196 1889-CC VF30 PCGS.** This slightly glossy, steel-gray 1889-CC Morgan is well-detailed for the VF level and shows even wear. Each side is lightly abraded, including an thin scratch near the lower-right obverse stars. This key Carson City issue remains in demand in the current collector-friendly grade. NGC ID# 2559, PCGS# 7190
- 4197 1889-CC — Improperly Cleaned — NGC Details. XF.** Despite being cleaned long ago, this important key-date Carson City dollar exhibits delicate champagne toning on its attractive light gray surfaces. Perhaps an opportunity for a Morgan dollar collector to gain a nicely detailed 1889-CC at an affordable price. NGC ID# 2559, PCGS# 7190
- 4198 1889-CC — Improperly Cleaned — NGC Details. XF.** A glass is required to see the microscopic cleaning lines on this attractive 1889-CC Morgan dollar. Both sides are light silver-gray with wisps of champagne toning. Traces of luster remain visible in the protected areas. NGC ID# 2559, PCGS# 7190
- 4199 1889-CC XF40 PCGS.** Excellent detail for the grade and smooth, problem-free surfaces give this XF 1889-CC silver dollar exceptional appeal. Each side displays olive-gray, golden patina that is appreciably original. Suitable for the average collector seeking a quality example of this key Carson City issue. NGC ID# 2559, PCGS# 7190

**1889-CC Dollar, XF45  
Richly Toned Surfaces**

- 4200 1889-CC XF45 PCGS.** Lowest mintage of the Carson City Morgan dollars and the priciest as well. This piece displays gray patina with yellow-golden peripheral accents. The only defects worthy of mention are several clusters of taps with a blunt instrument on the lower portion of the obverse. NGC ID# 2559, PCGS# 7190

**1889-CC Dollar, Choice XF  
Partially Lustrous and Original**

- 4201 1889-CC XF45 PCGS. CAC.** Original golden-gray patina gives each side of this Choice XF 1889-CC Morgan pleasing eye appeal, while allowing hints of luster to emerge from the protected regions of the peripheral fields. Wear is light, and the CAC green label only adds to the desirability. This key-date Carson City issue is a challenge to locate in the upper circulated grades without evidence of cleaning. NGC ID# 2559, PCGS# 7190

**1889-CC Dollar, AU Details  
Significant Remaining Luster**

- 4202 1889-CC — Obverse Scratch — NGC Details. AU.** The only complaint on this barely circulated 1889-CC Morgan is a thin, unobtrusive pinscratch in the lower-right obverse field that nicks the bottom of Liberty's hair curls. Luster remains in the protected regions of the fields, and each side displays light golden toning. NGC ID# 2559, PCGS# 7190

- 4203 1889-CC — Damage — PCGS Genuine. AU Details. VAM-2A.** A double-clashed example of this elusive Carson City issue. The pearl-gray surfaces confirm light wear, but the borders retain significant luster. Myriad tiny abrasions on Liberty's cheek are the cause of the PCGS designation. The remainder of the coin appears problem-free. NGC ID# 2559, PCGS# 7190

- 4204 1889-CC — Improperly Cleaned — NCS. AU Details.** This stone-white key date Carson City dollar is moderately bright and glossy but lacks any singularly consequential abrasions. The eagle's breast displays wear commensurate with the grade.  
*Ex: Long Beach Signature (Heritage, 9/2009), lot 1082, which realized \$1,840. NGC ID# 2559, PCGS# 7190*

**1889-O Silver Dollar, MS65  
High-End for the Grade**

- 4205 1889-O MS65 PCGS.** Brilliant, dazzling silver luster rolls over outstanding Gem-quality surfaces on this high-end 1889-O Morgan dollar. The strike is a trifle soft on the central high points, as usual, but Liberty's cheek is impressively clean. Only a few light grazes in the left obverse field preclude an even finer grade. PCGS has seen 10 numerically finer submissions (6/16). NGC ID# 255A, PCGS# 7192

**1890-CC Dollar, Richly Toned MS65**

- 4206 1890-CC MS65 PCGS.** Areas of brilliance brighten surfaces mostly toned in mingled shades of crimson and violet with splashes of rainbow iridescence. Softly frosted luster issues from beneath the colorful overlay, enhancing the allure of this Gem Carson City Morgan dollar. From a mintage of 2.3 million coins, the 1890-CC is scarce in MS65 and very rare any finer. To that point, there are only 15 higher grading events at PCGS (5/16). NGC ID# 255D, PCGS# 7198

**1890-CC Dollar, MS65  
Rare Any Finer**

- 4207 1890-CC MS65 PCGS.** Gem condition is likely the finest most collectors can hope to obtain of the 1890-CC dollar; PCGS and NGC combined have seen only 19 specimens grading higher (5/16). Silver-gray surfaces display pleasing luster and exhibit well-defined design elements. A few light obverse grazes are consistent with the grade, but they are less frequent than normally seen for the issue and do not diminish the Mint-fresh appeal. NGC ID# 255D, PCGS# 7198

- 4208 1890-O MS65 PCGS.** This Gem Morgan dollar is all-brilliant with a crescent of gold, bluish-green, and maroon patina along the right obverse border. The strike is typical of a New Orleans product, while the surfaces are free of any major blemishes. There are 28 finer submissions at PCGS (6/16). NGC ID# 255E, PCGS# 7200
- 4209 1891 MS64+ PCGS. CAC.** An impressive near-Gem, this 1891 Morgan dollar has brilliant satin luster and above-average design details with accompanying blue, gold, and iridescent toning. NGC ID# 255G, PCGS# 7204
- 4210 1891-CC MS64 PCGS.** This outstanding Carson City Morgan dollar has brilliant silver surfaces and intense frosty mint luster. Both sides are fully white without toning. NGC ID# 255H, PCGS# 7206
- 4211 1891-CC Spitting Eagle, VAM-3, Top 100, MS64 NGC.** Named for the small die defect near the eagle's beak, this variety is plentiful yet popular. This Choice Mint State example has untuned silver surfaces that host intense mint frost. An impressive example. NGC ID# 255H, PCGS# 133937 Base PCGS# 7206
- 4212 1891-S MS65 PCGS.** Splashes of peach-gold and gunmetal patina near the edges surround frosty, brilliant centers on the obverse. The other side is fully patinated in rich violet and gold tones. This well-defined Gem would fit perfectly into a carefully assembled set of MS65 Morgan dollars. NGC ID# 255K, PCGS# 7210
- 4213 1891-S MS65 PCGS.** Firmly within the Gem grade, this vibrantly lustrous, largely unabraded 1891-S silver dollar yields tremendous eye appeal with sharp design elements and blush of light champagne toning. Liberty's cheek is particularly clean, and only a few small marks on the neck appear to preclude a Plus designation. NGC ID# 255K, PCGS# 7210
- 4214 1892-CC MS63 NGC. VAM-4B.** The mintmark is nicely repunched, among other interesting die features. A highly lustrous better date Carson City dollar with light tan-gold and fire-red obverse peripheral toning. NGC ID# 255M, PCGS# 7214
- 4215 1892-CC MS63+ PCGS. VAM-4B.** Multiple sets of bold clash marks and lengthy peripheral die cracks add interest to this lustrous and lightly toned better-date Carson City dollar. The centers show blending, but the strike near the borders is bold. No marks are consequential. NGC ID# 255M, PCGS# 7214

**1892-CC Silver Dollar, MS64  
In an Old Green Label Holder**

- 4216 1892-CC MS64 PCGS.** Dazzling original luster illuminates this Choice 1892-CC Morgan with frosty radiance, while the only observable toning is seen around the outer peripheries in the form of a light golden halo. The strike is slightly soft in the centers, as usual, but the eye appeal is above-average for the grade and grade. Housed in an old green label holder. NGC ID# 255M, PCGS# 7214

**1892-O Dollar, Seldom-Seen MS65  
Outstanding Satiny Surfaces**

- 4217 1892-O MS65 PCGS.** The 1892 New Orleans dollar issue is one for which the Gem grade is reachable but a stretch for many collectors — but higher-graded coins are all but nonexistent. This makes Registry and series specialists pursue Gems such as this coin avidly when they appear. The satiny surfaces of this untuned silver-gray coin are exceptionally clean — note the excellent pristine cheek on Liberty — and show little trace of other color. The roller marks on the cheek and in the hair indicate an incomplete strike but appear on many such coins, as made, and do not affect the technical grade. This is an outstanding example of this conditional rarity. NGC ID# 255N, PCGS# 7216
- 4218 1893 MS64 NGC. VAM-2.** The obverse is brilliant, but the reverse displays medium golden-brown, dove-gray, and ocean-blue toning. Lustrous and well preserved. The strike is good aside from blending on the hair above the ear. A low mintage issue. NGC ID# 255R, PCGS# 7220
- 4219 1893-CC XF45 PCGS.** Pockets of luster outline design elements on this silver-gray rare date Carson City Morgan. The centers display moderate wear. Mentionable marks are limited to a thin line from the 8 in the date to the rim at 4 o'clock. NGC ID# 255S, PCGS# 7222
- 4220 1893-CC XF45 PCGS Secure.** From a modest mintage of 677,000 pieces, the 1893-CC represents the final date of Carson City coinage. This Choice XF specimen shows some light wear on the eagle's breast and wing tips, but the pleasing surfaces are lightly abraded. NGC ID# 255S, PCGS# 7222

**1893-S Silver Dollar, VF Details**

- 4221 1893-S — Improperly Cleaned — NGC Details. VF.** A well-detailed coin with steel-gray surfaces that show some deeper russet toning on the obverse. A small nick in the right reverse field is the only abrasion of note. The 1893-S boasts a small mintage of 100,000 pieces — the lowest in the series from any mint, save for the proof-only 1895. NGC ID# 255U, PCGS# 7226
- 4222 1894 AU58 NGC.** The borders display rich golden-brown toning with occasional glimpses of deep forest-green. The fields and motifs are pearl-white. Lustrous despite a trace of wear at the centers. Marks are limited to a slender vertical line on the eagle's belly. *Ex: Long Beach Signature (Heritage, 9/2009), lot 1152, which realized \$1,840.* NGC ID# 255V, PCGS# 7228
- 4223 1895-O AU55 NGC.** Partially lustrous fields enliven this mostly brilliant Choice AU 1895-O dollar. The strike is well-executed, and little wear is present. Chatter over each side accompanies the grade, and hints of golden toning appear around the extreme outer peripheries. NGC ID# 255Y, PCGS# 7236

**4224 1895-O AU55 NGC.** Faint champagne toning subdues the brilliant satin luster of this Choice AU key-date Morgan dollar. A small bagmark appears on Liberty's cheek. The reverse has faint field reflectivity. NGC ID# 255Y, PCGS# 7236

**4225 1895-O AU55 PCGS.** Both sides of this lovely Choice AU dollar exhibit brilliant silver luster with intense gold toning on the obverse, and delicate iridescence on the reverse. This is an important condition rarity with Mint State examples bringing five- and six-figure prices. NGC ID# 255Y, PCGS# 7236

**4226 1895-S/S VAM-3 AU55 PCGS.** A Hot 50 Variety. The mintmark was initially entered tilted and too far west. Any 1895-S dollar is desirable at the AU55 level, since the issue is conditionally scarce. This brilliant and partly lustrous example has a good strike and the expected number of small abrasions. NGC ID# 4BC2, PCGS# 134020 Base PCGS# 7238

**4227 1896 MS67 NGC.** Quantities of the 1896 were released during the 1950s, and examples are readily collectible through MS66. Specialists will appreciate the scarcity of a Superb Gem like the one offered here. Rainbow hues richly color the obverse, while the reverse exhibits lavender and golden patina. A beautiful, crisply struck dollar. NGC shows four coins finer (6/16). NGC ID# 2562, PCGS# 7240

**4228 1896 MS67 PCGS. VAM-6.** The top of the 6 is repunched. Arcs of blue-green, cherry-red, and butter-gold endow the right obverse border. The remainder of this lustrous and nicely struck silver dollar is brilliant. Uncommonly free from abrasions, and ideal for type purposes. NGC ID# 2562, PCGS# 7240

**4229 1896-O MS61 NGC.** Golden-gray patina lightly colors each side of this scarce New Orleans dollar. The strike is strong for the facility, though the usual areas display typical softness. Scattered grazes fail to detract. The 1896-O circulated heavily, and even Select examples are out of reach for most series specialists. NGC ID# 27ZU, PCGS# 7242

**4230 1897-O MS61 PCGS.** A satiny, lustrous Mint State example of this conditionally elusive New Orleans issue. The strike is above-average for the date although slightly weak on the eagle's breast. Light chatter on Liberty's cheek limits the grade in the absence of severe abrasions. Neither side is noticeably toned. NGC ID# 2565, PCGS# 7248

**4231 1897-O MS61 PCGS.** Uncirculated and lustrous, this 1897-O Morgan dollar displays well-struck motifs and nearly brilliant interiors — golden toning around the borders adds substantially to the eye appeal. Scattered abrasions define the grade. NGC ID# 2565, PCGS# 7248

**4232 1897-O MS61 PCGS.** The 1897-O Morgan dollar is a slightly better date in Mint State condition. This attractive MS61 example exhibits well-detailed design elements and brightly lustrous surfaces that show an assortment of minor contact marks on each side. Overall eye appeal is quite strong for the assigned grade. NGC ID# 2565, PCGS# 7248

**4233 1898-S MS65+ PCGS. VAM-4.** The mintmark is repunched. Light tan freckles adorn this lustrous and suitably struck silver dollar. The sweet spot of the cheek is smooth, and the scattered wispy marks merit only passing mention. NGC ID# 256A, PCGS# 7256

---

### 1899 Dollar, MS66+ Evenly Toned

**4234 1899 MS66+ PCGS.** The reported mintage of 330,000 coins is among the lowest in the series, and examples are sought-after across all grades. This Premium Gem dollar is richly toned in various shades of blue and gold. Strongly struck with characteristic central softness. Exceedingly rare any finer. NGC ID# 256C, PCGS# 7258

**4235 1899-O MS67 PCGS. CAC.** Almond-gold and powder-blue toning visits this thoroughly lustrous and sharply struck Superb Gem. Remarkably void of contact, and a wonder for the collector to behold. CAC: 41 in 67, 0 finer (6/16). NGC ID# 256C, PCGS# 7260

**4236 1899-S MS65 PCGS.** This delightful Gem exhibits delicate champagne toning over its bright silver surfaces with mirrored fields that suggest a Prooflike designation is warranted, although absent on the holder. A few trivial bagmarks prevent a higher grade. NGC ID# 256D, PCGS# 7262

**4237 1900 MS66+ PCGS. CAC.** The fields of this lovely Premium Gem are reflective and contrast nicely with the satiny devices. This sharply defined piece is borderline prooflike and exhibits exceptional eye appeal. PCGS has only certified 45 finer examples (6/16). NGC ID# 256F, PCGS# 7264

**4238 1900-O/CC VAM-12 MS65 PCGS.** 30th Anniversary Green Label Holder. VAM-12 shows more of the Carson City mintmark than any other 1900-O/CC variety. The outlines of both Cs are obvious when studied beneath a glass. The present lustrous Gem displays light chestnut-gold and powder-blue toning. Splendidly smooth save for a mark on the eagle's breast. NGC ID# 256G, PCGS# 133964 Base PCGS# 7268

---

### 1901 Dollar, MS61 Elusive in Mint State

**4239 1901 MS61 PCGS.** A Mint State example of this conditionally elusive 20th century issue, showing satiny luster and a blush of light golden toning. Light surface marks account for the grade but few are obvious to the naked eye. The 1901 Morgan dollar is a better date in Uncirculated condition, although the present coin remains accessible for many collectors. NGC ID# 256J, PCGS# 7272

---

**1901-O Morgan Dollar, MS66+  
Seldom Seen Finer**

**4240 1901-O MS66+ PCGS. CAC.** The 1901-O Morgan dollar claims a large mintage of more than 13 million dollars, and examples in MS66 condition are not too difficult to locate, but finer examples are condition rarities. This Plus-graded Premium Gem representative exhibits sharply detailed design elements and vibrant mint luster throughout and the impeccably preserved surfaces show a few highlights of golden-tan toning. PCGS has graded six numerically finer examples (5/16). NGC ID# 256K, PCGS# 7274

**4241 1901-S MS64 PCGS. CAC.** Semireflective fields complement mottled olive-gold, blue, and lavender-orange toning on each side of this Choice 1901-S Morgan dollar, while the devices exhibit excellent sharpness. A reed mark on the lower end of the eagle's breast is the only noticeable abrasion. NGC ID# 256L, PCGS# 7276

**4242 1902-S MS63 PCGS.** Satiny, champagne-tinted luster illuminates each side of this Select 1902-S Morgan dollar. The strike is soft on the central high points, but not distractingly so. A couple of marks on Liberty's cheek prevent a finer grade. NGC ID# 256P, PCGS# 7282

**4243 1903-O MS65 PCGS. CAC.** A popular Morgan dollar issue that was once considered a major rarity until the Treasury release of half a century ago. Today, the 1903-O still commands a premium price although examples are readily available. However, few have the eye appeal of this lustrous Gem, with lovely gold and iridescent toning. NGC ID# 256S, PCGS# 7286

**1903-S Morgan Dollar, AU58  
Attractive Better Date**

**4244 1903-S AU58 NGC.** With a reported mintage of 1.2 million pieces, the 1903-S Morgan dollar is seldom encountered in high grade. This attractive near-Mint specimen shows the slightest trace of wear on the high points of the sharply detailed design elements and the lustrous surfaces are free of large or distracting abrasions. Pleasing highlights of pale gold toning add to the strong visual appeal. NGC ID# 256T, PCGS# 7288

**4245 1921 MS66+ PCGS. CAC.** A beautifully frosted, radiant Premium Gem that might have garnered a full Superb Gem grade were it not for a single small mark on Liberty's nose. The cheek is very clean, and there are no complaints with regards to the strike — in fact, the devices show above-average definition. A faint blush of light golden toning adds a hint of warmth to each side. PCGS has seen only 11 finer submissions (5/16). NGC ID# 256X, PCGS# 7296

**4246 1921 MS66+ PCGS. CAC.** 30th Anniversary Green Label Holder. Light caramel-gold toning visits lustrous and minimally marked surfaces. The strike shows softness only on the lower right portion of the wreath. A single-year subtype with lower relief on the eagle and portrait. NGC ID# 256X, PCGS# 7296

**4247 1921-D MS66+ PCGS. CAC.** An essentially brilliant high-grade Denver Mint type coin. Lustrous and minimally marked with an area of prooflike surface near the right (facing) wingtip. The peripheries display several interesting die cracks. NGC ID# 256Y, PCGS# 7298

**PROOF MORGAN DOLLARS**

**4248 1879 PR61 PCGS. Ex:** Teich Family Collection. A sharply detailed proof, with deeply reflective brilliant fields that show fewer contact marks than expected for the grade. A few hints of golden-tan toning visit the pleasing surfaces.

**From The Pellegrini Collection, Part III.** NGC ID# 27Z2, PCGS# 7314

**1880 Morgan Dollar, PR63 Cameo  
Outstanding Contrast**

**4249 1880 PR63 Cameo PCGS.** Starkly contrasted with lavender toning in the fields that accentuates the cameo effect. A dash of blue-green color is also seen along the upper-left obverse border. Light, scattered hairlines preclude a finer grade but pose little distraction in and of themselves. Pleasing for the grade.

**From The Pellegrini Collection, Part III.** NGC ID# 27Z4, PCGS# 87315

**1886 Dollar, PR64 Cameo  
High-End Example for the Grade**

**4250 1886 PR64 Cameo PCGS.** This proof shows the usual doubling just below the flag of the 1 in the date. The shimmering, mirrored fields set up strong contrast against the mint frost that covers the devices. One has to look close to discern any flaws (we didn't see any worthy of mention). Both sides are brilliant in the interior with just the slightest golden accent around the rims. Population: 10 in 64 Cameo, 20 finer (5/16).

**Ex:** ANA Signature (Heritage, 10/2012), lot 5044.

**From The Pellegrini Collection, Part III.** NGC ID# 27ZF, PCGS# 87321

**4251 1889 PR62 Cameo PCGS.** A starkly contrasted, affordable proof 1889 Morgan dollar, showing untuned, satiny devices surrounded by golden peripheral color. The fields are deeply mirrored, but hairlines limit the grade. NGC ID# 27ZJ, PCGS# 87324

**1889 Dollar, PR64 Cameo**  
**Elusive in Finer Grades**

- 4252 1889 PR64 Cameo NGC.** A fully struck Choice proof 1889 Morgan dollar with perceptible field-device contrast on each side. A halo of light golden toning around the borders adds warmth to the eye appeal, while light, scattered hairlines in the fields prevent a full Gem designation. Census: 11 in 64 Cameo, 27 finer (5/16).  
**From The Pellegrini Collection, Part III.** NGC ID# 27ZJ, PCGS# 87324

- 4253 1899 PR62 PCGS.** A pleasing lower-end proof with deeply mirrored fields and bold motifs. The interiors are steel-gray, the peripheries show deep gunmetal-blue toning. Subtle contrast is apparent at certain angles. NGC ID# 27ZX, PCGS# 7334

**1899 Morgan Dollar, PR63 Cameo**

- 4254 1899 PR63 Cameo PCGS.** Cameo proof examples of the 1899 Morgan dollar are not rare but they are also far from common, as most examples offer little contrast. This Select proof exhibits perceptible field-device contrast, a bit more intense on the reverse, over gold-tinged, reflective surfaces. A single straight scrape in the left obverse field requires mention but is of little import. Population: 5 in 63 Cameo, 46 finer (5/16).  
**Ex:** Long Beach Signature (Heritage, 9/2011), lot 3814.  
**From The Pellegrini Collection, Part III.** NGC ID# 27ZX, PCGS# 87334

- 4255 1900 PR62 ANACS.** Champagne surfaces exhibit variegated gold and blue peripheral toning. Faint field-to-device contrast is present although insufficient for a Cameo designation.  
**From The Pellegrini Collection, Part III.** NGC ID# 3KYV, PCGS# 7335

**1901 Dollar, PR63 Cameo**  
**Ex: Teich Family**

- 4256 1901 PR63 Cameo PCGS.** Ex: Teich Family Collection. A particularly popular proof issue, being the first Morgan dollar of the 20th century and an ideal type coin. This Select Cameo example displays modest contrast and mostly brilliant surfaces. The strike is sharp, and a few minor hairlines confirm the numeric grade. Population: 7 in 63 Cameo, 33 finer (5/16).  
**From The Pellegrini Collection, Part III.** NGC ID# 27ZZ, PCGS# 87336

**1903 Dollar, Toned PR63**

- 4257 1903 PR63 NGC.** A golden-toned proof with light hairlines that are mostly hidden beneath the dusky patina. This Select 1903 Morgan is sharply struck and possesses modest eye appeal. The 1903 proof had a mintage of 755 pieces, and almost none are known cameo contrast. This piece is an accessible coin for the budget-conscious collector. NGC ID# 2823, PCGS# 7338
- 4258 1904 PR62 PCGS.** The last official proof Morgan dollar issue, offered here as a PR62 with a golden overtone to the obverse and pale gray patina across the reverse. Brilliant finish as usual with a line of reed marks to the right of the right (facing) wingtip as the most obvious post-striking flaw.  
**From The Pellegrini Collection, Part III.** NGC ID# 2824, PCGS# 7339

**PEACE DOLLARS**

- 4259 1921 MS64+ PCGS.** The High Relief Peace dollar of 1921 is seldom seen with as much central strike sharpness as this high-end near-Gem offers. The satiny surfaces are free of major abrasions, and champagne-tinted surfaces are most attractive. NGC ID# 2U4E, PCGS# 7356
- 4260 1921 MS65 NGC.** Luminous, satiny surfaces give this Gem High Relief Peace dollar excellent eye appeal. The centers are fairly well-defined, and the champagne-tinged luster is devoid of major abrasions. An outstanding type coin. NGC ID# 2U4E, PCGS# 7356
- 4261 1921 MS65 PCGS.** Light straw-gold toning adorns this lustrous and well preserved Gem. The hair over the ear shows the merging characteristic of this single-year high relief subtype. One tiny spot is noted on the B in PLURIBUS. NGC ID# 2U4E, PCGS# 7356

**4262 1921 Line Through L, VAM-3, Top 50, MS65 PCGS.** This seldom seen VAM variety is significant because the ray through the first L in DOLLAR has been hand-engraved on the working die, such that the ray passes over rather than under the letter. Although weak at the center as usual, this lovely Gem has frosty silver mint luster and delicate champagne toning. Population: 12 in 65, 0 finer (5/16). *From The Eagle One Collection, Part II.* NGC ID# 2U4E, PCGS# 133734

**4263 1922 Earring, VAM-2A, MS64 PCGS.** A Top 50 Variety. This popular Peace dollar VAM variety has a bold die crack within the hair curls near Liberty's ear, denoting the "Earring" moniker. This Choice example is well-struck and has satiny luster beneath mottled olive-gold toning. There are no major abrasions. NGC ID# 257C, PCGS# 133737 Base PCGS# 7357

**4264 1922-D MS66 PCGS.** Tan-gold and delicate lilac-gray patina blankets the satiny surfaces of this Denver Peace dollar. The relief elements exhibit good detail, and small marks are barely evident. The 1922-D is moderately accessible through MS66 but becomes out of reach for most collectors in MS67, where PCGS reports three coins finer (6/16). NGC ID# 257D, PCGS# 7358

#### 1923-D Peace Dollar, MS66 Only One Coin Numerically Finer

**4265 1923-D MS66 PCGS.** Although slightly more available in high grades than its San Francisco counterpart, overall, the 1923-D Peace dollar is scarcer than the 1923-S, and both branch mint issues are significantly rarer than the common Philadelphia issue of this year. This Premium Gem D-mint example displays well-preserved, frosty mint luster that delivers excellent eye appeal when rotated beneath a light. A faint peppering of pale milky-gold toning specks spans the lower-left obverse and much of the reverse. Population: 99 in 66 (3 in 66+), 1 finer (5/16). NGC ID# 257G, PCGS# 7361

**4266 1924-S MS64 PCGS. CAC. VAM-1C2.** Lustrous, smooth, and nicely struck with light straw-gold toning. The "Die Scratch T" VAM with a die line left of the crossbar of the T in LIBERTY. The clashed die state, but without the interesting diagonal crack to Liberty's chin seen on the VAM-1C1 plate coin. Encased in a green label holder. NGC ID# 257K, PCGS# 7364

#### 1925 Peace Dollar, Brilliant MS67 Seemingly Unimprovable

**4267 1925 MS67 PCGS.** Very scarce at the MS67 level and almost unknown any finer, the 1925 is a condition rarity of the series, albeit at only the highest levels. This brilliant and lustrous example is a bonafide Superb Gem, astoundingly mark-free with hardly a single anomaly to pedigree the piece for future identification. A lone tick on the eagle's leg is the sole marker. The frosty surfaces radiate cartwheel mint luster. Population: 110 in 67 (1 in 67+), 1 finer (5/16). NGC ID# 257L, PCGS# 7365

**4268 1925-S MS64+ PCGS. CAC.** Light to medium blushes of wheat-gold and pearl-gray toning adorn this lustrous and splendidly unabraded better date dollar. The surfaces have a matte appearance, as made. The strike is good and the eye appeal is excellent. NGC ID# 257M, PCGS# 7366

**4269 1926 MS66 PCGS. VAM-3.** Lemon-gold and ice-blue toning bathes this highly lustrous and lower mintage Peace dollar. The strike is sharp except on the Y in LIBERTY. Minor facial grazes limit the grade. Slight die doubling on the tip of the 6 in the date is characteristic of VAM-3. NGC ID# 257N, PCGS# 7367

**4270 1926 MS66 PCGS. VAM-6.** Incorrectly certified as VAM-2 Top 50 by PCGS. VAMworld.com describes VAM-6 as "Slightly doubled middle and lower olive leaves at bottom, back of rear two leg feathers and left side of rays below tail feathers." The lustrous surfaces are well struck and display light golden toning. The obverse is practically pristine, while the lower reverse exhibits a few incidental abrasions. NGC ID# 257N, PCGS# 7367

**4271 1926 MS66 PCGS.** Well-defined through the centers with strong silver luster and minimal patina over most of each side. Only arcs of orange and amber toning along the rims break out of the light gray mode. PCGS has graded no Superb Gems finer (5/16). *Ex: Long Beach Signature (Heritage, 9/2010), lot 4782.* NGC ID# 257N, PCGS# 7367

**4272 1926-D MS66 PCGS.** Strikingly frosted luster under a layer of silver-blue patina with visible gold, lavender, and watermelon-rose elements at the margins. A long die crack trails from Liberty's hair bun. PCGS has graded eight numerically finer examples (5/16). *Ex: Beverly Hills Signature (Heritage, 11/2011), lot 3935.* NGC ID# 257P, PCGS# 7368

**4273 1926-S MS65+ PCGS.** Variegated olive-gray and lavender toning embraces this lustrous and crisply struck branch mint Gem. The portrait and left obverse field display wispy grazes. Infrequently encountered any finer. NGC ID# 257R, PCGS# 7369

**4274 1927-D MS64 PCGS. CAC.** Mottled olive-gold toning appears on each side of this satiny 1927-D Peace dollar, masking a few minor marks that prevent a Gem grade. The strike is bold. Finer examples are far more elusive. NGC ID# 257T, PCGS# 7371

**4275 1927-S MS64+ PCGS. CAC.** This frosty, high-end near-Gem might have garnered a full MS65 grade were it not for a faint graze in the left obverse field. Liberty's cheek is clean, and the eye appeal is excellent. Light golden toning warms the well-struck design elements. NGC ID# 26J6, PCGS# 7372

**4276 1928 MS64 PCGS. CAC.** A well-struck example of this key date with softly frosted cartwheel luster and characteristically yellow-gold toning. The 1928 Peace dollar boasts the lowest mintage of the series at only 360,649 pieces. NGC ID# 257V, PCGS# 7373

**4277 1928-S MS64+ PCGS.** Russet-brown toning adorns the peripheries of this lustrous and well preserved representative. Liberty's cheek and neck are smooth. The centers show moderate inexactness of strike. IN GOD WE TRVST and the designer's monogram are die doubled, as often seen on this conditionally challenging issue. NGC ID# 257W, PCGS# 7374

**1934-D Peace Dollar, MS65+  
Sharply Detailed and Well-Preserved**

- 4278 1934-D MS65+ PCGS Secure.** The 1934-D Peace dollar is not difficult to locate in MS65 condition, but finer coins are very scarce. This Plus-graded Gem displays sharply detailed design elements and well-preserved, lustrous surfaces with highlights of golden-tan toning. Housed in a new 30th Anniversary green label holder. NGC ID# 257Y, PCGS# 7376

**1934-S Dollar, MS63  
'Doubled Tiara,' VAM-3**

- 4279 1934-S Doubled Tiara, VAM-3, MS63 PCGS.** A Top 50 Variety. Die doubling is noticeable on the rays in Liberty's tiara. This lustrous key-date representative is pleasantly free from relevant marks, and is originally toned in delicate ice-blue and almond-gold. A sharply defined example.  
*Ex: National Money Show Signature (Heritage, 3/2008), lot 1269.*  
**From The Eagle One Collection, Part II.** NGC ID# 257Z, PCGS# 133782 Base PCGS# 7377

- 4280 1935 MS66 PCGS.** The final-year issue in the Peace dollar series is scarce in MS66 and practically impossible to obtain in higher grades, as PCGS has seen none finer and NGC reports only five higher grading events (6/16). This brilliant dollar is crisply rendered with thick, cartwheel luster. Grade-limiting marks are confined primarily to the eagle's feathers. NGC ID# 2582, PCGS# 7378

- 4281 1935-S MS65 PCGS. CAC.** Three rays below ONE. Frosty, glistening mint-fresh luster illuminates both sides of this Gem 1835-S Peace dollar, showing well-struck design elements and a few wisps of pale champagne toning. This is the final issue of the series, and higher-grade examples are infrequently encountered. NGC ID# 2583, PCGS# 7379

**1935-S Dollar, MS66  
Only Two Coins Finer at PCGS**

- 4282 1935-S MS66 PCGS.** Four rays below ONE. The 1935-S Peace dollar is difficult to locate in Premium Gem condition and is exceedingly rare any finer. This PCGS coin has only two superiors at that service (5/16). The strike is sharp, and the softly frosted surfaces show only a trace of champagne color. There are no mentionable abrasions. NGC ID# 2583, PCGS# 7379

**1935-S Peace Dollar, MS66  
Rarely Encountered Finer**

- 4283 1935-S MS66 PCGS.** Three rays below ONE. The beautifully preserved, frosty luster of this Premium Gem 1935-S Peace dollar is firmly within the MS66 grade level. The strike is bold, and olive-gold toning adds character to each side. This final-year San Francisco issue is elusive in MS66 and is rarely seen finer, with PCGS having so-graded only two coins (5/16). NGC ID# 2583, PCGS# 7379

- 4284 1935-S Doubled Die Reverse, VAM-4, MS65 PCGS Secure.** A Top 50 Variety. Four rays below ONE. The eagle's branch is lightly die doubled. Light butter-gold toning graces this thoroughly lustrous and carefully preserved better-date silver dollar.  
**From The Eagle One Collection, Part II.** NGC ID# 2Z3P, PCGS# 133783 Base PCGS# 7379

## EISENHOWER DOLLARS

- 4285 1972 Type Three MS66 PCGS.** Variances in the orientation of Cuba to Florida on the small reverse globe define the differences in reverse type for the 1972 Eisenhower dollar. This Premium Gem Type Three coin shows the islands sharply defined and positioned further left than normal. A couple of reed marks on Ike's forehead limit the grade. Each side shows satiny luster and lemon-gold toning. This Premium Gem is tied for the finest certified by either service and is conditionally rare as such. Population: 24 in 66, 0 finer (5/16). NGC ID# 2587, PCGS# 7409

### 1972-D Eisenhower Dollar, Top Grade MS67

**4286 1972-D MS67 PCGS.** 30th Anniversary Green Label Holder. Tied with 13 others as the finest at PCGS (5/16), a distinction that makes this 1972-D Eisenhower dollar a prime pick for a Registry Set. The strike is full, and each side shows satiny, champagne-tinged luster. The obverse has some faint parallel planchet lines, as stuck. NGC ID# 2588, PCGS# 7410

**4287 1974-D MS66+ PCGS.** CAC. Golden-brown and sea-green patina encompasses this impressively preserved Eisenhower dollar. The strike is precise and the eye appeal is imposing. Although fairly prevalent as an MS66, the issue becomes very scarce at the MS66+ level and is rare any finer. NGC ID# 258E, PCGS# 7416

### PROOF EISENHOWER DOLLAR

**4288 1974-S Silver PR70 Deep Cameo PCGS.** A rare Deep Cameo example in the perfect PR70 grade level. None are this fine at NGC. This 1974-S Silver Eisenhower proof dollar displays a full strike and flawless white-on-black surfaces. Population: 62 in 70 Deep Cameo (5/16). NGC ID# 258V, PCGS# 97433 Base PCGS# 999138

### COMMEMORATIVE SILVER

**4289 1900 Lafayette Dollar MS64 PCGS.** DuVall 2-C. On the obverse, the second S in STATES is repunched. This example is boldly struck and coruscating with remarkably few distractions for the grade. Both sides display similar chestnut-gold and aquamarine toning. NGC ID# BYKW, PCGS# 9222

**4290 1936 Albany MS67+ PCGS.** CAC. The Albany, New York commemorative half dollar is plentiful enough to not garner much attention, but in MS67+ it is conditionally rare. This piece displays well-struck design elements and dusky golden-orange toning that lightens toward the centers. PCGS has seen only three finer examples (5/16). NGC ID# 23WZ, PCGS# 9227

**4291 1937 Antietam MS67 PCGS.** Delicate shades of lavender and pale gold toning blanket the impeccably preserved surfaces of this spectacular Superb Gem. The design elements are sharply detailed and vibrant mint luster radiates from both sides. PCGS has graded 20 numerically finer examples (5/16). NGC ID# BYF4, PCGS# 9229

### 1937 Antietam Half Dollar, Richly Toned MS68

**4292 1937 Antietam MS68 NGC.** CAC. Up to 50,000 half dollars commemorating the 75th anniversary of the Battle of Antietam were authorized for production, but only 18,000 pieces were distributed plus 28 coins for assay purposes. Variegated toning covers the entire obverse and the reverse borders, ceding to mainly brilliant centers on that side. The devices are fully defined, and the aesthetic quality is fantastic. Census: 19 in 68 (6 in 68 ★), 2 finer (6/16). NGC ID# BYF4, PCGS# 9229

### 1939-S Arkansas Half Dollar, MS67 Among the Finest Certified

**4293 1939-S Arkansas MS67 PCGS.** CAC. Characteristically soft luster gives this Superb Gem Arkansas Centennial half dollar a subdued, satiny glow beneath champagne toning. The strike is bold, and there are no mentionable surface flaws. The 1939-S is conditionally rare in MS67 and none are known numerically finer. Population: 15 in 67 (1 in 67+), 0 finer. CAC: 7 in 67, 0 finer (5/16). NGC ID# BYFL, PCGS# 9251

**4294 1934 Boone MS67 PCGS.** CAC. Rich ruby-red, navy-blue, and peach-gold patina encompass this lustrous, boldly struck, and well preserved Superb Gem. First year of the Boone type, struck annually through 1938 with numerous varieties to maximize distributor profits. NGC ID# BYFN, PCGS# 9257

**4295 1936 Bridgeport MS67 PCGS.** CAC. The ivory-gray obverse turns to deeper shades of tan-gold on the reverse. Glistening luster flows over each side, showing fully struck devices and an almost complete lack of abrasions. Tied for finest at PCGS. Population: 88 in 67 (5 in 67+), 0 finer (5/16). NGC ID# BYG9, PCGS# 9279

**4296 1925-S California MS67 PCGS.** CAC. Ocean-blue and butter-gold toning grace both sides of this lustrous and virtually pristine Superb Gem. The strike is sharp and the eye appeal is outstanding. Only a handful of pieces are certified finer by PCGS. NGC ID# BYGA, PCGS# 9281

**4297 1936 Cleveland MS67 PCGS.** A blatantly original, frosty Superb Gem example of this conditionally elusive Cleveland Centennial half dollar issue. The obverse displays irregular patterns of amber-red, olive-green, and russet toning over champagne-gray luster, while the reverse has mostly brilliant surfaces but with a crescent of the deeper obverse colors along the upper-left border. Population: 81 in 67 (11 in 67+), 1 finer (5/16). NGC ID# BYGB, PCGS# 9288

**4298 1922 Grant With Star MS64 PCGS.** Pale creamy-gold luster blankets both sides of this Choice With Star Grant Memorial half, while a few areas of deeper amber are noticed over the upper obverse. The fields exhibit numerous die striations — mint-made — and there is a trifle of weakness over the high point of Grant's hair, as is typical. NGC ID# BYPP, PCGS# 9307

**4299 1928 Hawaiian MS64 PCGS.** The streaky burnt-orange toning over satiny silver surfaces is typical of the Hawaiian half dollars that were included in the Bank of Hawaii hoard that appeared 30 years ago. Although plentiful for many years after the hoard was distributed, these coins are difficult to find today. NGC ID# BYGR, PCGS# 9309

**4300 1935 Hudson MS66 PCGS.** The low mintage Hudson half dollar has been a key to the silver commemorative series since its controversial 1935 release. It was an immediate sellout and could only be obtained at high cost in the secondary market, to the benefit of its distributors. This lustrous and nearly pristine Premium Gem displays consistent honey-gold patina. NGC ID# BYGS, PCGS# 9312

**4301 1921 Missouri MS65 NGC.** Dusky walnut-brown and apple-green toning embraces this coruscating and carefully preserved Gem. The strike is good, although the shoulder strap is incomplete, as nearly always. The Missouri Centennial ranks among the scarcer silver commemorative types. NGC ID# BYH2, PCGS# 9330

**4302 1939-D Oregon MS67 PCGS. CAC.** This magnificent Superb Gem represents one of the most popular designs in the silver commemorative series. The design elements are sharply detailed and the lustrous surfaces are impeccably preserved. PCGS has graded 27 numerically finer examples (5/16). NGC ID# BYHM, PCGS# 9353

**4303 1915-S/S Panama-Pacific, FS-501, MS65 PCGS.** The mintmark is repunched east. Cream-gray fields and motifs are bounded by walnut-brown margins. A coruscating and crisply struck Gem. Patience is required to locate the few and far between surface imperfections. NGC ID# BYHP, PCGS# 145748 Base PCGS# 9357

**4304 1937 Texas MS67+ PCGS.** This Plus-designated Superb Gem 1937 Texas Independence Centennial half dollar stands out as a near-Condition Census example. The strike is sharp, and the satiny surfaces display a hint of champagne toning with border areas that contain amber and olive-gold. Population: 17 in 67+, 5 finer (5/16). NGC ID# BYJH, PCGS# 9390

**4305 1925 Vancouver MS67 PCGS.** Autumn-brown, forest-green, and lilac toning graces the borders of this precisely struck and virtually unabraded Superb Gem. About as nice as can be obtained for the Fort Vancouver centennial issue. Population: 61 in 67 (8 in 67+), 1 finer (6/16). NGC ID# BYJP, PCGS# 9399

#### 1947 Booker T. Washington Half, MS67 None Finer at PCGS

**4306 1947 Booker T. Washington MS67 PCGS. CAC.** The 1947 Booker T. Washington half dollar is moderately plentiful in the absolute sense, but its availability plummets considerably at the MS67 numeric level, and none are known finer. This example displays radiant mint luster and sharply rendered design elements. The obverse is attractively mottled with amber-red and forest-green toning, while the reverse displays olive and russet peripheral hues around a pale champagne center. Population: 9 in 67, 0 finer. CAC: 4 in 67, 0 finer (5/16). NGC ID# BYJW, PCGS# 9408

**4307 1950-D Booker T. Washington MS67 PCGS.** Among the finest 1950-D Booker T. Washington halves certified, this champagne-toned Superb Gem displays a bold strike and rich, frosty luster. A dash of russet toning appear near the reverse rim at 1 o'clock. Population: 22 in 67 (1 in 67+), 0 finer (5/16). NGC ID# BYK7, PCGS# 9421

**4308 1952 Washington-Carver MS67 NGC.** Attractive shades of champagne-gold, lime-green, and lavender toning blanket the well-preserved surfaces of this delightful Superb Gem. A lens reveals a few light lines on the portrait, but the design elements are well-detailed and ample mint luster shines through the toning. The eye appeal is exceptional. Census: 36 in 67 (1 in 67+, 10 in 67★, 2 in 67+★), 1 finer (5/16). NGC ID# BYL3, PCGS# 9434

**4309 1952 Washington-Carver MS67 PCGS.** A total of 1.1 million P-mint Washington-Carver halves were distributed in 1952, more than in any other year in the series. Areas of brilliance combine with splashes of vibrant golden-russet patina on each side. Shallow grazes on the central obverse prevent an even higher grade. Population: 24 in 67 (3 in 67+), 1 finer (6/16). NGC ID# BYL3, PCGS# 9434

#### 1952-S Washington-Carver Half, MS67+ Only One Coin Finer

**4310 1952-S Washington-Carver MS67+ NGC.** A conditionally rare Superb Gem example of the final type in the classic commemorative series. This MS67+ Washington-Carver half dollar displays a bold strike and satiny luster. A few peripheral splashes of olive-gold toning on the obverse complement pale champagne coloration elsewhere on both sides. Census: 15 in 67 (2 in 67+, 3 in 67★), 1 finer (5/16). NGC ID# BYL5, PCGS# 9436

#### 1953-S Washington-Carver Half, MS67 Among the Finest Certified

**4311 1953-S Washington-Carver MS67 PCGS.** Although available in lower grades, the 1953-S Washington-Carver half dollar is conditionally rare in MS67. This Registry-grade example displays a bold strike and satiny mint luster. The obverse shows a lavender-gray interior surrounded by sun-orange peripheral toning, while the reverse displays varying degrees of the latter color. Population: 12 in 67 (1 in 67+), 0 finer (5/16). NGC ID# 332B, PCGS# 9440

### COMMEMORATIVE GOLD

**4312 1903 Louisiana Purchase, Jefferson Gold Dollar MS66 PCGS.** A sharp Jefferson Head Louisiana Purchase gold dollar, showing luminous tangerine and yellow-gold surfaces. A razor-thin vertical line on Jefferson's cheek is the only thing preventing this lovely commemorative gold dollar from achieving a Superb Gem designation. NGC ID# BYLD, PCGS# 7443

**4313 1903 Louisiana Purchase, Jefferson Gold Dollar MS66 ★ NGC. CAC.** The obverse is highly prooflike, undoubtedly the reason that this high grade gold commemorative coaxed a Star designation from NGC. The reverse displays satin luster.  
*Ex: Milwaukee Central States Signature (Heritage, 5/2010), lot 1518, which realized \$3,220.* NGC ID# BYLD, PCGS# 7443

**4314 1903 Louisiana Purchase, McKinley Gold Dollar MS65 NGC.** Well struck with rich butter-yellow color. Both sides have considerable luster, though the reverse of this Gem is more flashy. Solid all-around eye appeal.  
*Ex: Milwaukee Central States Signature (Heritage, 5/2010), lot 1520, which realized \$1,265.* NGC ID# BYLE, PCGS# 7444

**4315 1904 Lewis and Clark Gold Dollar MS64 NGC.** The Lewis and Clark Exposition was held in Portland, Oregon, the destination of the intrepid explorers a century earlier. This sharply detailed piece has satiny yellow-gold luster and excellent eye appeal. NGC ID# BYLE, PCGS# 7447

- 4316 1905 Lewis and Clark Gold Dollar MS64 NGC.** Both sides of this important Choice Mint State commemorative gold dollar exhibit brilliant yellow surfaces with reflective fields. The 1905 Lewis and Clark gold dollar is scarcer than its 1904 predecessor. NGC ID# BYLG, PCGS# 7448
- 4317 1915-S Panama-Pacific Gold Dollar MS66+ PCGS. CAC.** A seemingly almost flawless Pan-Pac gold dollar with rich yellow-gold luster that shows deeper rose-gold accents. The strike is sharp, and the eye appeal outstanding. Finer representatives are infrequently encountered. NGC ID# BYLH, PCGS# 7449
- 4318 1916 McKinley Gold Dollar MS66 NGC.** This spectacular gold dollar exhibits satiny orange-gold luster with great eye appeal. The apparent soft strike on the obverse is actually a result of shallow die engraving. NGC has only certified 81 numerically finer examples (5/16). NGC ID# BYLK, PCGS# 7454

**1916 McKinley Gold Dollar, MS67  
Registry Set Contender**

- 4319 1916 McKinley Gold Dollar MS67 PCGS.** McKinley gold dollars were struck in 1916 and 1917 to raise money for a memorial in the slain president's hometown of Niles, Ohio. Reportedly, 15,000 examples were sold in the first year. The surfaces of this Superb Gem radiate frosty luster and showcase attractive coppery-gold color. Well-struck and seemingly pristine. Population: 95 in 67 (2 in 67+), 0 finer (5/16). NGC ID# BYLK, PCGS# 7454
- 4320 1922 Grant Gold Dollar, No Star, MS65 NGC.** This light yellow-gold Gem exhibits satiny luster and bold design definition. These pieces are popular with Civil War collectors due to Grant's association with that event. NGC ID# BYLN, PCGS# 7458
- 4321 1922 Grant Gold Dollar, With Star, MS65 NGC.** Nobody is quite sure why the Mint engraver decided to put a random star in the obverse die of 1922 Grant half dollars and gold dollars, but he created a popular variety for present-day collectors. This piece is sharply defined with satin luster and brilliant light yellow surfaces. NGC ID# BYPS, PCGS# 7459
- 4322 1926 Sesquicentennial Quarter Eagle MS65 PCGS.** This is a sharp Gem Sesquicentennial quarter eagle, boasting frosty wheat-gold luster and a luminous cartwheel effect. A couple of tiny ticks on the reverse appear to be all that limits the grade. Finer coins are infrequently offered. NGC ID# 2FE9, PCGS# 7466
- 4323 1926 Sesquicentennial Quarter Eagle MS65 PCGS.** A well-struck, frosty Gem with yellow-gold luster that reveals only a few tiny ticks here and there. This collectible Sesquicentennial quarter eagle balances quality with affordability at the MS65 level. NGC ID# 2FE9, PCGS# 7466
- 4324 1926 Sesquicentennial Quarter Eagle MS65 NGC.** This is a spectacular example of the now-popular 1926 Sesquicentennial quarter eagle that had a less than stellar reception at the time of issue. This piece has highly lustrous light yellow surfaces and sharp design details. NGC ID# 2FE9, PCGS# 7466
- 4325 1926 Sesquicentennial Quarter Eagle MS65+ PCGS.** Marking the 150th anniversary of American independence, the 1926 Sesquicentennial quarter eagle proved less popular than originally expected. The 46,019 coin distribution was less than one-fourth of the 200,000 coin mintage. This Gem exhibits pristine yellow-gold surfaces with brilliant and frosty mint luster. NGC ID# 2FE9, PCGS# 7466

**MODERN ISSUE**

- 4326 2000-W Library of Congress Bimetallic Ten Dollar, John Mercanti Signature Holder, MS70 PCGS.** A flawlessly preserved example of this bimetallic commemorative, showing fully rendered design elements and mint-fresh satin luster. An ideal coin for the modern commemorative Registry collector. NGC ID# 26U9, PCGS# 9784

**MODERN BULLION COINS**

- 4327 1986 Half-Ounce Gold Eagle MS70 PCGS.** The debut half-ounce Gold Eagle is something of a rarity in PCGS-certified MS70. This fully struck and flawless example is among just 64 pieces at the top of the PCGS population chart (5/16). The Registry Set collector will appreciate the scarcity of this offering. NGC ID# 28Y8, PCGS# 9805
- 4328 1988 Silver Eagle MS70 NGC.** Approaching 30 years of age, this spectacular piece remains in perfect preservation with brilliant silver-white surfaces and reflective fields. A treasure for the connoisseur. NGC ID# 26J8, PCGS# 9816
- 4329 1988 Half-Ounce Gold Eagle MS69 PCGS.** This half-ounce 1988 Gold Eagle is essentially flawless, showing a full strike and luminous mint-fresh luster. Only 35 finer coins are certified at PCGS (6/16), which may be out of reach for casual collector. NGC ID# 26N9, PCGS# 9822
- 4330 1988 Half-Ounce Gold Eagle MS69 PCGS.** A reduced mintage of 45,000 half-ounce Gold Eagles in 1988 stands in contrast to the strong six-figure productions of the previous two issues. This MS69 coin presents as perfect, both in strike and eye appeal. PCGS has seen 35 technically finer coins in MS70 (6/16). NGC ID# 26N9, PCGS# 9822
- 4331 1989 Silver Eagle MS70 NGC.** Perfect MS70 examples of the 1989 Silver Eagle are elusive at NGC and prohibitively rare in a PCGS holder. This NGC coin displays a full strike and glimmering, brilliant luster. There are no imperfections to report. NGC ID# 26JA, PCGS# 9826

**1991 Silver Eagle, MS70  
Perfect Registry Coin**

- 4332 1991 Silver Eagle MS70 NGC.** The American Eagle program celebrated its fifth anniversary in 1991. Silver Eagle sales rose to 7.1 million ounce-ounce coins in that year. NGC has certified more than 95,000 examples, virtually all of them in MS69 condition. Only a minute fraction (about 0.002%) are reported in this top grade. Brilliant surfaces a fully struck and devoid of imperfections. This is a great example for the advanced Registry builder. NGC ID# 26JE, PCGS# 9846

**1991 Half-Ounce Gold Eagle, MS69  
Low-Mintage Modern Issue**

- 4333 1991 Half-Ounce Gold Eagle MS69 PCGS.** In 1986, the first year of the gold eagle program, demand was high and the half-ounce mintage was nearly 600,000 pieces. Interest gradually waned in subsequent years, and mintages of the denomination bottomed out at 24,100 pieces in 1991. Today, an Uncirculated 1991 half-ounce is worth multiples of its one-ounce counterpart. The present butter-gold example is pristine save for an obverse fleck near 9 o'clock. NGC ID# 26NC, PCGS# 9852

**1994 Half-Ounce Gold Eagle, MS70  
Unimprovable Quality**

- 4336 1994 Half-Ounce Gold Eagle MS70 NGC.** The 1994 half-ounce Gold Eagle has an unassuming mintage of 62,500 Uncirculated coins, in line with other production totals in the series. Flawless representatives like the one offered here are very scarce and widely pursued among collectors trying to assemble a set of MS70 coins. Lemon-gold surfaces show devices that are fully struck. Both the technical and visual quality are unimprovable. Census: 82 in 70 (5/16). NGC ID# 26NF, PCGS# 9882

**1993 Quarter-Ounce Gold Eagle, MS70  
Rare So Fine at PCGS**

- 4334 1993 Quarter-Ounce Gold Eagle MS70 PCGS.** The 1993 quarter-ounce Gold Eagle is a scarce date in MS70, particularly in a PCGS holder. This is one of only 14 perfect-graded coins at that service (5/16). The strike is full, and the mint-fresh yellow-gold surfaces are devoid of imperfections. A strong Registry Set candidate. NGC ID# 26M9, PCGS# 9870

**1993 Half-Ounce Gold Eagle, MS70  
Pristine Surfaces**

- 4335 1993 Half-Ounce Gold Eagle MS70 NGC.** The Mint struck 73,324 half-ounce Gold Eagles in 1993. Only 0.002% of all coins minted are reported in this unsurpassed grade at NGC and PCGS combined. The surfaces of this technically pristine representative feature a blend of swirling luster and light yellow-gold color that generates tremendous visual appeal. Each side exhibits complete design definition. NGC ID# 26NE, PCGS# 9872

**1995-W Silver Eagle, PR69 Deep Cameo  
Singular Issue in the Series**

- 4337 1995-W Silver Eagle PR69 Deep Cameo PCGS.** The 1995-W Silver Eagle proof was only available in five-coin 10th Anniversary American Eagle sets, along with its gold counterparts. The high initial cost of \$999 put many collectors off, and only 30,125 sets were sold. That total makes it the lowest in the series by a long shot and the key date among Silver Eagles. This brilliant PR69 Deep Cameo coin has seemingly bottomless fields and complete design definition. NGC ID# CFWX, PCGS# 9887

**1995-W Silver Eagle, PR69 Ultra Cameo  
Famous Low Mintage Issue**

- 4338 1995-W Silver Eagle PR69 Ultra Cameo NGC.** The 1995-W silver eagle was offered by the U.S. Mint solely as part of a proof set including four gold eagle denominations. Silver eagle collectors balked at the high purchase price, and sales were low. Once the set was no longer available from the Mint, collectors pursued the issue in the secondary market, at ever higher prices. The 1995-W promptly became the key to the otherwise affordable proof silver eagle series. This is a wonderful example with frosty motifs and prominently mirrored fields. NGC ID# CFWX, PCGS# 9887

- 4339 1998 Quarter-Ounce Platinum Eagle MS70 PCGS.** One of only 41 MS70-graded quarter-ounce Platinum Eagles at PCGS (6/16), a conditionally rare Registry Set acquisition. This piece is fully struck and flawlessly preserved with appropriately strong eye appeal. NGC ID# 26SS, PCGS# 9766

**1999-W Tenth-Ounce Gold Eagle, MS70  
FS-401, Unfinished Proof Dies**

- 4340 1999-W Tenth-Ounce Gold Eagle, Unfinished Proof Dies, FS-401, MS70 PCGS.** The West Point mintmark was intended only on proof coins in 1999, but gold bullion five dollar coins emerged that year with both a W mintmark and an Uncirculated finish. The exact mintage is unknown, but approximately a few thousand pieces. The issue promptly became a *Guide Book* key to the gold eagle series, along with its ten dollar quarter-ounce counterpart. Fully struck and coruscating with undisturbed surfaces. PCGS# 511606 Base PCGS# 99940
- 4341 1999-W Quarter-Ounce Gold Eagle, Unfinished Proof Dies, FS-401, MS68 PCGS.** Although the West Point mintmark appeared on proof quarter-ounce gold eagles beginning in 1993, no such mintmark was expected on the Uncirculated finish pieces. Nonetheless, select 1999 examples have a W mintmark, perhaps due to higher sales inspired by Y2K publicity. A fully struck and satiny apricot-gold representative. NGC ID# 26MG, PCGS# 511607 Base PCGS# 99942
- 4342 2006-W One-Ounce Gold Eagle, 20th Anniversary, Reverse Proof, PR70 NGC.** The famous Reverse Proof 2006-W one-ounce Gold Eagle, issued for the 20th anniversary of the bullion coin program. The mintage was small: only 9,996 pieces. This example is flawlessly preserved and beautifully struck. NGC ID# 28ZH, PCGS# 89994
- 4343 2008-W Quarter-Ounce Gold Buffalo PR70 Deep Cameo PCGS.** The only quarter-ounce proof issue in the Gold Buffalo bullion series. This piece is perfectly struck and flawlessly preserved with tremendous contrast and eye appeal. NGC ID# 26RH, PCGS# 399934
- 4344 2008-W Quarter-Ounce Gold Buffalo PR70 Deep Cameo PCGS.** The quarter-ounce Gold Buffalo proof was only struck in 2008, at the West Point Mint. This is a perfectly preserved Deep Cameo with full detail and dazzling field-device contrast. NGC ID# 26RH, PCGS# 399934
- 4345 2008-W Half-Ounce Gold Buffalo PR70 Deep Cameo PCGS.** PCGS-certified in flawless PR70 Deep Cameo condition, showing stark field-motif contrast and exceptional design rendering. A popular one-year denomination within the Gold Buffalo bullion coin series. NGC ID# 26RK, PCGS# 399936
- 4346 2008-W Half-Ounce Gold Buffalo, Early Releases, PR70 Ultra Cameo NGC.** Flawlessly preserved and beautifully rendered with stark cameo contrast. Half-ounce Gold Buffalo bullion coins were only struck in 2008, and at the West Point Mint. The proof mintage was small: only 12,169 coins. NGC ID# 26RK, PCGS# 399937
- 4347 2008-W Half-Ounce Platinum Eagle, Burnished, MS70 PCGS.** The West Point Mint struck proof 2008-W half-ounce Platinum Eagles, as well as a small 2,253-coin production of burnished coins. This example of the latter is flawlessly preserved and has outstanding eye appeal. NGC ID# BNKZ, PCGS# 393082

- 4348 2008-W Half-Ounce Platinum Eagle, Burnished, MS70 PCGS.** The burnished specimen striking from the West Point Mint, boasting a recorded mintage of only 2,253 coins. This example is perfectly preserved and fully struck. Rich, softly frosted luster adorns each side. NGC ID# BNKZ, PCGS# 393082

- 4349 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS69 PCGS.** Augustus Saint-Gaudens' double eagle design is fully brought-up on the double-thick planchet of this Ultra High Relief MMIX twenty dollar gold coin. Rich yellow-gold surfaces display satiny mint luster and are essentially flawless. NGC ID# 26S4, PCGS# 407404

- 4350 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS70 PCGS.** The insert is signed by the 38th Director of the Mint, Edward C. Moy. This flawless Ultra High Relief twenty dollar gold piece showcases rich yellow-gold surfaces devoid of even the tiniest imperfection. A fully struck example of this popular modern issue. NGC ID# 26S4, PCGS# 407404

- 4351 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS70 PCGS.** Nearly prooflike and flawlessly preserved with full design rendering. This one-ounce gold Ultra High Relief twenty represents the closest most collectors will get to acquiring Saint-Gaudens' 1907 double eagle design in the ultra high relief for which it was intended. NGC ID# 26S4, PCGS# 407404

- 4352 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS70 PCGS.** Flawless and fully struck, this one-ounce gold Ultra High Relief twenty dollar piece showcases immeasurable eye appeal. The 2009 issue had a distribution just shy of 115,000 pieces and sold out at the Mint quickly at the time of issue. It has been in high demand on the secondary market ever since. NGC ID# 26S4, PCGS# 407404

- 4353 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS70 NGC.** Mint Director Edmund C. Moy was the originator of this popular modern bullion issue. Based on the uncollectible Judd-1917 pattern, a piedfort Saint-Gaudens twenty with ten dollar diameter. The concave fields are pristine and the high relief motifs are struck in exquisite detail. Included with the lot is the Mint-issued blue box, cherry-red presentation case, and certificate of authenticity. NGC ID# 26S4, PCGS# 407404

**2009 Ultra High Relief Twenty Dollar  
MS70 Prooflike**

- 4354 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS70 Prooflike PCGS.** Among the most popular modern bullion issues, the MMIX twenty dollar perhaps should have been issued instead in 2007, the centennial year of the classic Saint-Gaudens design. Nonetheless, collectors clamored for examples, since they emulate the extraordinary high relief of the Saint-Gaudens lettered edge patterns. A pristine and intricately struck specimen with glassy, concave fields. NGC ID# 26S4, PCGS# 506602

2014 Tenth-Ounce Gold Eagle, MS69  
Very Rare Narrow Reeds

- 4355** 2014 Tenth-Ounce Gold Eagle, Narrow Reeds, MS69 NGC. The May 20, 2015 issue of Coin World reported that “one of two known 2014 American Eagle, Narrow Reeds tenth-ounce gold bullion coins sells for \$28,650.” As of (5/16), NGC has certified a total of seven examples, all as MS69. PCGS has certified three pieces, two as MS69 and one as MS70. Obviously, the variety remains very rare, relative to its plentiful Wide Reeds counterpart. It is an unheralded key to the tenth-ounce gold eagle series. This is a pristine and fully struck caramel-gold example. PCGS# 545947 Base PCGS# 521914

COINS OF HAWAII

1883 Hawaii Ten Cents, MS64  
Attractive Natural Toning

- 4356** 1883 Hawaii Ten Cents MS64 PCGS. The 1883 Hawaii dime was designed by Charles Barber and 250,000 business-strike examples were struck at the San Francisco Mint on behalf of the Government of Hawaii. This sharply detailed Choice specimen displays well-preserved, lustrous surfaces under shades of pale gold and lavender-gray toning. Population: 44 in 64 (1 in 64+), 37 finer (5/16). NGC ID# 2C54, PCGS# 10979

1882 Hawaiian Haiku Plantation Token  
One Rial, MS63 Brown, Medcalf TE-15

- 4357** 1882 Haiku Plantation One Rial Token MS63 Brown PCGS. Medcalf TE-15. Per Medcalf, the Haiku Plantation tokens are considered “the most artistic and well struck of the early metal tokens.” The Haiku Sugar Company was located east of Wailuku. The denomination, one rial, was a phonetic derivative of the Spanish real and was equivalent to about a day’s wages for a plantation laborer. A charming chocolate-brown example with an even strike and minimally marked, spot-free surfaces. Listed on page 421 of the 2017 *Guide Book*. Population: 3 in 63 Brown, 3 finer (5/16). NGC ID# 2UBZ, PCGS# 600518

ERRORS

1943 Lincoln Cent, XF40  
Struck on a Silver Dime Planchet

- 4358** 1943 Lincoln Cent — Struck on a Silver Dime Planchet — XF40 PCGS Secure. 1943 was the year that Lincoln cents were struck on zinc-plated steel planchets, to reserve copper for the war effort. Since a 1943 cent struck on a silver dime planchet looked similar upon cursory inspection to a regular issue cent of that year, it is not surprising that this coin remained in circulation for a few years. Eventually, a collector noticed the proximity of WE TRUST and UNUM to the rim, and those legends exhibit the distortion associated with metal flow toward the border. The strike is well-centered but tight to the edge on the right of both the obverse and reverse, a function of the dime-sized planchet that is smaller than a cent by 1.1 mm. Almost certainly the planchet was intended for a Mercury dime. The silver-gray surfaces show moderate wear but are largely unblemished. Only a handful of examples are known of this amazing off-metal error — Mike Byers’ *World’s Greatest Mint Errors* reference suggests approximately 25 examples exist.

1944 Cent, Struck on a Dime Planchet, XF40

- 4359** 1944 Lincoln Cent — Struck on a Silver Dime Planchet — XF40 PCGS. Though an off-metal 1944 cent on a steel planchet is a high dollar purchase, the identical issue on a dime planchet provides better value relative to rarity. This silver-white representative displays minor wear, and a soft strike is noted on Lincoln’s shoulder and the O in ONE. The last date digit is low relief but unmistakable, while the first three digits are sharp. Ex: Geyer Family Collection (*Heritage*, 11/2013), lot 4950.

*End of Session Three*

## SESSION FOUR

### GOLD DOLLARS

- 4360 1849 No L, D-1, Normal Stars, MS62 PCGS.** Several stars are recut on this issue. The present coin displays a sharp strike and bright yellow-gold luster. There are no singular abrasions, although light field chatter prevents a finer grade. PCGS# 521670 Base PCGS# 7501
- 4361 1849 Open Wreath, D-4, Close Stars, MS63 PCGS.** A sharply struck first-year gold dollar with softly frosted green-gold luster and excellent eye appeal. A small graze on Liberty's cheek appears to be all that precludes a finer grade. Suitable for the budget-conscious type collector. PCGS# 521671 Base PCGS# 7502
- 4362 1849 Closed Wreath, D-5, Close Stars, MS64 PCGS. CAC.** Breen's "Heavy Date" variety with a deeply hubbed date. The peach-gold fields are accompanied by lime-green margins. Fully struck and coruscating with minor contact on the portrait and a few wispy field lines near the coronet tip. PCGS# 521672 Base PCGS# 7503

#### 1852 Gold Dollar, MS65 Fully Struck, Wonderfully Preserved

- 4363 1852 MS65 PCGS.** An example of the 1852 gold dollar often stands in as a Type One representative in collectors' sets given its high mintage of 2 million coins and availability through MS64. Gems are very scarce but appear on the market with a degree of frequency. The combination of uninhibited mint frost and glowing rose and orange-gold color produces phenomenal aesthetic appeal. The relief elements are fully struck, and each side is void of any singular flaws. Population: 52 in 65 (2 in 65+), 22 finer (5/16). NGC ID# 25BP, PCGS# 7517

#### 1853 Gold Dollar, MS65 Ideal Type Coin

- 4364 1853 MS65 PCGS.** A Gem Type One gold dollar, showing a sharp strike and softly frosted yellow-gold luster. The 1853 is usually obtainable in MS65, but finer coins are scarcely seen. This piece is the perfect balance of technical quality, eye appeal, and affordability to fit most type collections. NGC ID# 25BU, PCGS# 7521
- 4365 1854 Type One MS64+ NGC.** This transitional year in the gold dollar series saw production of the last Type One coins and the first Type Two pieces. This Type One gold dollar has frosty yellow luster and sharp design motifs. An outstanding near-Gem, elusive in finer grades. NGC ID# 25BY, PCGS# 7525

#### 1854-S Gold Dollar, Smooth MS62 Important First-Year San Francisco Issue

- 4366 1854-S MS62 NGC.** The San Francisco Mint struck 14,632 Type One gold dollars in 1854, representing the first time the denomination was minted in California. Uncirculated representatives are rare, as the 1854-S circulated in the West. This smooth MS62 dollar boasts strong definition on the stars and well-delineated curls. The wreath is similarly detailed. Orange-gold color dominates each side, giving this piece great eye appeal. Census: 21 in 62 (1 in 62+), 14 finer (5/16). NGC ID# 25C2, PCGS# 7527

- 4367 1855-C — Scratches — NGC Details. AU. Variety 2.** An almond-gold representative of the sole Charlotte Type Two issue. Very close to Mint State in terms of wear, but the fields display faint vertical hairlines and a few delicate to moderate pinscratches are noted near the large 1. NGC ID# 25C5, PCGS# 7533

- 4368 1856 Slanted 5 MS64 PCGS. CAC.** An attractive Choice specimen of this always popular type issue, with well-detailed design elements and well-preserved orange-gold surfaces that radiate vibrant satiny mint luster. Population: 85 in 64 (1 in 64+), 33 finer. CAC: 7 in 64, 11 finer (5/16). NGC ID# 25CB, PCGS# 7540

- 4369 1857-S AU58 NGC.** A sharp near-Mint example of this elusive San Francisco issue gold dollar, showing satiny yellow-gold surfaces with light, scattered abrasions. Some luster remains in the protected regions of the fields. Census: 34 in 58, 17 finer (6/16). NGC ID# 25CG, PCGS# 7547

- 4370 1857-S AU58 NGC.** A better date in high grade with a mintage of only 10,000 coins. This near-Mint 1857-S gold dollar displays sharp design elements with remnants of original luster in the protected regions of the fields. A brush of high-point friction on the devices limits the grade. Census: 34 in 58, 17 finer (5/16). NGC ID# 25CG, PCGS# 7547

#### 1859-C Gold Dollar, Choice AU Low Mintage of 5,235 Coins

- 4371 1859-C AU55 NGC. Variety 1.** Orange-tinged luster enriches the design recesses of this minimally circulated gold dollar. The even reddish-gold surfaces are bereft of evident marks. The Charlotte Mint struck just 5,235 pieces for its final issue of the denomination, and survival estimates range from 125 to 300 coins across all grade levels. Ex: Dallas Signature (Heritage, 10/2008), lot 1867. NGC ID# 25CM, PCGS# 7552

**4372 1868 MS61 Prooflike NGC.** This well-struck and flashy gold dollar was presumably one of the first pieces struck from a newly introduced pair of dies. A couple of moderate obverse marks decide the grade. A mere 10,500 pieces were struck. Census: 8 in 61 Prooflike, 9 finer (6/16).  
Ex: *Long Beach Signature* (Heritage, 9/2005), lot 4267. NGC ID# 25D4, PCGS# 77567

**4373 1871 MS64 PCGS.** The 1871 is not especially rare, but its availability in Uncirculated grades makes it a popular choice for type purposes. The lustrous surfaces on this piece show a mix of orange-gold and lime-green patina, and a couple of light grade-defining marks are seen on the reverse. Well struck, except for softness in the 8 of the date. Population: 21 in 64, 24 finer (5/16).  
Ex: *Long Beach Signature* (Heritage, 9/2007), lot 3159. NGC ID# 25D8, PCGS# 7571

**4374 1873 Open 3 MS65 PCGS.** Rich peach patina ensures the eye appeal of this lustrous Gem. Marks are inconsequential aside from a faint field graze near the profile. The strike is sharp except on the C in AMERICA. Housed in a green label holder. Population: 53 in 65 (2 in 65+), 18 finer (5/16). NGC ID# 25DB, PCGS# 7573

**4375 1882 MS65 NGC.** A fully struck honey-gold Gem example of this popular type-coin issue, showing reflective fields that deliver outstanding eye appeal. Close study with a loupe fails to reveal any mentionable flaws. NGC ID# 25DL, PCGS# 7583

**4376 1882 MS65 PCGS.** This sharply struck gold dollar survives from a circulation strike mintage of only 5,000 pieces in 1882. Both sides have bold design elements with satiny yellow-gold luster that creates excellent eye appeal. NGC ID# 25DL, PCGS# 7583

**4377 1887 MS66 NGC.** A sharp Premium Gem type coin with frosty original luster. A few microscopic ticks in the left obverse field are all that preclude an even finer grade. The 1887 gold dollar is elusive any finer. Census: 44 in 66, 21 finer (6/16). NGC ID# 25DS, PCGS# 7588

**4378 1889 MS66 PCGS. CAC.** A predominantly chestnut-gold final-year type coin with occasional blushes of sea-green. Fully struck, lustrous, and practically pristine. As always for 1889 business strikes, the lower reverse is strongly die doubled south. NGC ID# 25DU, PCGS# 7590

## CLASSIC QUARTER EAGLES

### 1834 Classic Quarter Eagle, MS61 Small Head, Variety 1

**4379 1834 Small Head, Breen-6138, Variety 1, R.1, MS61 NGC.** The design and weight of all U.S. gold coins was changed in 1834, with the advent of the Classic Head design. The Philadelphia Mint struck 112,234 quarter eagles with the new design and weight specifications that year, and U.S. gold coins enjoyed widespread circulation for the first time since 1821. This well-detailed Mint State example retains much of its original mint luster and shows a scattering of minor contact marks on both sides. NGC ID# 25FS, PCGS# 7692

**4380 1835 AU55 NGC. Breen-6141, Variety 6, R.2.** A green-gold Choice AU Classic representative. The fields exhibit a number of tiny marks but none can be seen with the unaided eye. The high relief of the curls near the ear causes incompleteness of strike at the centers, customary for Variety 6. NGC ID# 25FT, PCGS# 7693

**4381 1836 Script 8 AU58 PCGS. Breen-6143, Variety 11, R.2.** An impressive peach-gold near-Mint Classic type coin. The original surfaces show only unimportant marks. The strike is generally good, although the centers exhibit incompleteness.  
Ex: *FUN Signature* (Heritage, 1/2010), lot 3811, which realized \$2,300. NGC ID# 25FU, PCGS# 7694

### 1836 Classic Two and a Half Block 8, Mint State

**4382 1836 Block 8 MS61 NGC. Breen-6144, Variety-15, R.2.** Head of 1837. A nicely struck yellow-gold Classic Head quarter eagle that displays ample luster. A wispy pinscratch appears on the upper obverse, but the surfaces are otherwise unmarked. Three dates of Classic Head half eagles (the 1834, 1836, and 1837) come with both Script and Block 8s, but only the 1836 two and a half attains separate *Guide Book* listings.

Ex: *Sarasota Collection* (Heritage, 7/2004), lot 8012; *Long Beach Signature* (Heritage, 5/2009), lot 1508. NGC ID# 25FU, PCGS# 97694

**4383 1837 AU53 PCGS. Breen-6145, Variety 16, R.2.** An orange-gold two and a half with light wear and relatively few abrasions. The centers lack a full strike, customary for the type. The lowest arrowhead touches the final A in AMERICA, characteristic of the usually encountered 1837 die marriage. Only 45,080 pieces were struck, less than one-twelfth the production of the similarly priced 1836. NGC ID# 25FX, PCGS# 7695

## LIBERTY QUARTER EAGLES

**4384 1840 AU55 NGC.** Christian Gobrecht's Liberty Head design made its debut on the quarter eagle in 1840. No large quantity of coins was set aside, and the typical certified example grades between XF45 and AU50. This Choice AU quarter eagle is typically struck. Semireflective olive-gold surfaces show myriad abrasions. Census: 17 in 55, 20 finer (5/16). NGC ID# 25GA, PCGS# 7717

### 1843-D Two and a Half, AU55 Small D Mintmark, Georgia Type Coin

**4385 1843-D Small D AU55 NGC. Variety 4-H.** The Small D mintmark is low, and the late die state shows a crack from S(TATES) to the wing. A total of 36,209 quarter eagles were produced at Dahlonega in 1843, more than the combined mintages of the previous four issues. Examples are usually seen in VF-XF condition, and Choice AU coins are very scarce. Light yellow-gold surfaces show just a touch of complementary shades of coppery-rose and swirling mint frost. The peripheries are crisp, and there is minimal evidence of circulation over the high points. NGC ID# 25GP, PCGS# 7730

**1844-C Two and a Half, VF35  
Scarcer Charlotte Issue**

- 4386 1844-C VF35 PCGS. Variety 1.** The 1844-C quarter eagle is a challenging Charlotte issue, surviving to the extent of only 150 to 175 coins, per Doug Winter. This Choice VF example displays glossy olive-gold patina with hints of reddish color in the recesses. The design elements are weak, showing a combination of strike softness and wear. NGC ID# 25GU, PCGS# 7735

**1844-C Two and a Half, XF45  
Outstanding Original Surfaces**

- 4387 1844-C XF45 PCGS. CAC. Variety 1.** With an estimated survival of only 150 to 175 pieces, the 1844-C quarter eagle is scarce in all grades. This Choice XF representative displays pleasing detail and typical strike definition with a deep original "crust" of olive, amber, violet, and orange-gold colors. A rare example with an old-time look that so many collectors desire. Population: 24 in 45, 57 finer. CAC: 5 in 45, 11 finer (5/16). NGC ID# 25GU, PCGS# 7735

- 4388 1848 AU50 PCGS.** Attractive yellow-gold surfaces exhibit pleasing olive accents on each side. Obverse design definition is strong, while the reverse shows slight merging over the feathers and olive leaves. Marks are trivial in nature. From a small mintage of 6,500 coins, of which about 100 pieces are believed extant. NGC ID# 25H9, PCGS# 7748

- 4389 1848-C XF45 PCGS. Variety 1.** One of two obverses known, despite a stingy production of 16,788 pieces. This is an olive-yellow representative with noticeable remaining luster and the usual moderate inexactness of strike on the lower half of the eagle. A few abrasions emerge upon inspection beneath a glass.  
*Ex: Central States Signature (Heritage, 4/2008), lot 3268, which realized \$2,300. NGC ID# 25HB, PCGS# 7750*

- 4390 1849-D — Mount Removed — PCGS Genuine. AU Details. Variety 11-N.** A microgranular almond-gold Dahlonega example. No mount is readily visible, and abrasions are of little import, but the edge appears irregular near 12 o'clock. One of just 10,945 pieces struck.

- 4391 1850 MS62 PCGS.** An elusive Mint State example of this pre-Civil War Liberty quarter eagle. The strike is slightly weak on the eagle's left (facing) leg, but the obverse is sharp. This lightly abraded piece displays satiny yellow-gold luster with pleasing eye appeal for the grade. Population: 25 in 62, 22 finer (5/16). NGC ID# 25HG, PCGS# 7755

- 4392 1851 MS63 PCGS.** This attractive Select example is sharply detailed on the obverse, but the reverse shows just a touch of softness on the eagle's head. The lightly marked orange-gold surfaces radiate vibrant mint luster. Population: 46 in 63, 51 finer (5/16). NGC ID# 25HL, PCGS# 7759

**1851-O Quarter Eagle, Bold MS61**

- 4393 1851-O MS61 NGC. Variety 2.** The two 1851-O quarter eagle varieties share a common reverse, but this variant has the 8 centered between two denticles. This New Orleans emission has the second-highest mintage among Southern quarter eagles (148,000 coins) but is scarcer than the lower-mintage 1854-O. It is also more elusive in high grades than the 1850-O and 1852-O. This shimmering Uncirculated two and a half displays complete detail on the stars and curls. The central reverse is equally sharp, and the overall appeal is readily appreciable. Notable marks occur in the lower-right obverse field. Census: 20 in 61, 16 finer (5/16). NGC ID# 25HR, PCGS# 7762

- 4394 1857-O AU55 PCGS. Variety 1.** A straw-gold representative with noticeable remaining luster and a few light field marks above the eagle. The stars are generally sharp, although the eagle's neck and legs show incompleteness, as do the curls near Liberty's ear. The final New Orleans quarter eagle issue. NGC ID# 25JE, PCGS# 7784

**1860-C Two and a Half, Final Charlotte Issue, AU53**

- 4395 1860-C AU53 NGC. Variety 1.** The 1860-C was the final quarter eagle struck by the Charlotte Mint, which perhaps accounts for the poor state of the dies, which in turn resulted in invariably weakly struck coins. The present survivor reveals better definition than typically seen on this issue. Only the hair over Liberty's ear and the eagle's leg feathers are soft. The surfaces retain luster in the protected areas, and display minimal abrasions.  
*Ex: Long Beach Signature (Heritage, 2/2006), lot 2658. NGC ID# 25JT, PCGS# 7792*

**1861 Quarter Eagle, MS61, Elusive Old Reverse Type**

- 4396 1861 Old Reverse, Type One, MS61 NGC.** The Mint struck millions of gold coins in 1861 as reserves for Demand Notes issued to finance the Civil War. Quarter eagle production reached 1.2 million pieces, most struck with a New Reverse that featured Small Letters. A small quantity was struck with the Old Reverse, as here, with Large Letters, and they are far scarcer. This Uncirculated quarter eagle has bright yellow-gold surfaces awash in frosty luster. Strongly struck motifs appear throughout, as do small abrasions. Only the eagle's right claw is incomplete. Census: 23 in 61, 21 finer (5/16). NGC ID# 25JX, PCGS# 97794

**4397 1861 New Reverse, Type Two, MS64+ PCGS. CAC.** Razor-sharp and frosty with shimmering yellow-gold luster. Only a few faint grazes on the obverse preclude a full Gem designation. The Type Two Reverse 1861 quarter eagle is seldom seen finer. NGC ID# 25JX, PCGS# 7794

**1861-S Quarter Eagle, AU53  
Only 24,000 Coins Minted**

**4398 1861-S AU53 NGC.** Most of the 24,000 quarter eagles struck in California in 1861 (all with the New Reverse) were put into circulation, where they stayed for many years. About Uncirculated representatives prove very scarce and become rare in Choice AU. It is believed that merely four coins survive in Mint State. This AU53 two and a half dollar gold piece offers bright reddish-gold surfaces with remarkably bold device definition and minimal high-point friction. Wispy marks on the obverse will help identify this coin in future appearances. Census: 10 in 53, 38 finer (5/16). NGC ID# 25JY, PCGS# 7795

**1862 Quarter Eagle, AU58+  
Seldom Seen Finer**

**4399 1862 AU58+ PCGS.** This high-end near-Mint 1862 quarter eagle has eye appeal that rivals many lower-end Uncirculated coins. The strike is bold, and the satiny yellow-gold surfaces show virtually no wear, only light chatter in the fields. The 1862 is among the more plentiful Civil War-era dates in the series, but high-grade pieces are conditionally elusive. Population: 21 in 58 (1 in 58+), 32 finer (5/16). NGC ID# 25JZ, PCGS# 7796

**4400 1867-S AU58 NGC.** A scarce issue in all grades, the 1867-S quarter eagle is rare in Mint State. This near-Mint coin displays satiny yellow-gold surfaces with hints of luster in the protected regions of the fields. The central design elements show minor weakness on their high points, but there is no obvious wear. Census: 22 in 58, 10 finer (6/16). NGC ID# 7JRX, PCGS# 7806

**4401 1870 AU58 NGC.** A scarce Philadelphia issue with a mintage of only 4,520 pieces. Uncirculated survivors are rare in any grade, making this near-Mint example highly appealing. The strike is bold, and the yellow-gold surfaces display substantial prooflike mirroring in the fields. Census: 39 in 58 (2 in 58+), 17 finer (6/16). NGC ID# 25KE, PCGS# 7811

**4402 1870 AU58 PCGS.** This low-mintage issue saw a meager emission of 4,520 strikes for circulation. This near-Mint State example offers much prooflike reflectivity remaining on amber-gold surfaces that show a few scattered ticks, most of them relegated to the reverse field above the eagle. Population: 16 in 58, 9 finer (5/16). NGC ID# 25KE, PCGS# 7811

**4403 1873 Closed 3 MS64 NGC.** Frosty orange-gold luster illuminates this Choice Closed 3 coin without any major abrasions on either side. The eagle's left (facing) leg is a trifle soft, but the obverse is well-defined. Census: 42 in 64 (1 in 64+), 5 finer (5/16). NGC ID# 25KN, PCGS# 7818

**4404 1876 AU55 NGC.** From a small mintage of 4,176 pieces, this Choice AU 1876 quarter eagle displays pleasing orange-gold surfaces with hints of luster in the protected regions of the fields. The center of each side is weakly struck, as usual. Census: 21 in 55, 58 finer (5/16). NGC ID# 7JS6, PCGS# 7824

**1876-S Quarter Eagle, MS61  
Low 5,000-Coin Mintage**

**4405 1876-S MS61 PCGS.** The California branch mint mustered a small production of 5,000 quarter eagles in 1876, making this the lowest-mintage San Francisco issue since the inaugural and extremely rare 1854-S. It is estimated that about 20 examples survive in Mint condition. This lustrous two and half dollar gold piece has lightly marked, semiprooflike surfaces. The peripheries are bold, though the portrait and eagle display the usual high-point incompleteness. Population: 6 in 61, 14 finer (6/16). NGC ID# 7JS6, PCGS# 7825

**4406 1889 MS64 PCGS.** Radiant peach-gold surfaces shimmer with frosty luster when rotated. The strike is short of full but still bold with only trivial softness on the left (facing) leg feathers. A handful of bagmarks and a pedigree identifier on the cheek prevent a Gem grade. Population: 58 in 64 (2 in 64+), 11 finer (5/16). NGC ID# 25LD, PCGS# 7841

**4407 1895 MS63 PCGS.** An appealing coin for the grade, showing light field chatter as the only grade-limiting characteristic. This Select Mint State 1895 quarter eagle displays sharp design elements and satiny yellow-gold surfaces. NGC ID# 25LK, PCGS# 7847

**4408 1897 MS65+ PCGS. CAC.** An extraordinary Gem Liberty quarter eagle, this 1897 displays bold design motifs with exceptional eye appeal. Both sides are satiny and highly lustrous with brilliant yellow surfaces. A small copper spot above the coronet attests to its originality. PCGS has only certified 45 finer examples (5/16). NGC ID# 25LM, PCGS# 7849

**4409 1898 MS65 NGC.** A sharp Gem with shimmering yellow-gold luster and frosty surfaces. There are no singular abrasions, making this 1898 quarter eagle seem high-end even for the MS65 grade level. The type collector should give this piece close consideration. NGC ID# 25LN, PCGS# 7850

**4410 1907 MS66 PCGS.** A Premium Gem example of the final Liberty Head quarter eagle. Original, frosted mint luster adorns both sides, revealing no detracting abrasions. Perfect for type purposes, with a razor-sharp strike and a high degree of eye appeal. NGC ID# 2688, PCGS# 7859

## PROOF LIBERTY QUARTER EAGLE

### 1907 Quarter Eagle, PR62 Subtle Field-Device Contrast

- 4411 1907 PR62 PCGS.** The final proof issue in the Liberty quarter eagle series had a mintage of 154 pieces and is among the most accessible proofs for the budget-conscious collector. The strike on this example is sharp, and each side displays bright yellow-gold patina. Scattered marks in the fields determine the grade, but modest, undesignated cameo contrast balances the eye appeal. Population: 9 in 62, 50 finer (6/16). NGC ID# 7KG7, PCGS# 7933

## INDIAN QUARTER EAGLES

- 4412 1908 MS64+ PCGS.** This first-year Indian Head type coin displays well-struck motifs and satiny yellow-gold luster. A single linear graze behind the eagle's head appears to be all that precludes a finer grade. A loupe reveals faint parallel die polishing lines in the reverse fields, contributing to the muted luster. NGC ID# 288Y, PCGS# 7939
- 4413 1909 MS64+ PCGS. CAC.** This delightful Choice Mint State 1909 Indian quarter eagle features a bold strike and frosty yellow luster. Microscopic copper toning spots attest to its originality. NGC ID# 288Z, PCGS# 7940

### 1909 Indian Quarter Eagle, MS65 Seldom Seen Finer

- 4414 1909 MS65 PCGS.** The 1909 Indian quarter eagle is not too difficult to locate in grades up to the MS65 level, but Gems are slightly scarce and finer coins are conditionally rare. This attractive Gem displays vivid orange-gold surfaces with hints of lilac and vibrant mint luster. The design elements are sharply detailed and eye appeal is terrific. PCGS has graded 19 numerically finer examples (5/16). NGC ID# 288Z, PCGS# 7940

### 1909 Quarter Eagle, MS65 Deep Coloration, Rare Any Finer

- 4415 1909 MS65 PCGS.** A pleasing Indian Head type coin, this conditionally scarce 1909 quarter eagle displays satiny surfaces with rich orange-gold and coppery-red luster. The strike is bold, and there are no bothersome abrasions. Although collectible in MS65, this issue is significantly scarcer than the later dates from the 1920s. PCGS lists only 19 Premium Gems finer than the present coin (6/16). NGC ID# 288Z, PCGS# 7940

- 4416 1910 MS64+ PCGS.** A well-struck, high-end near-Gem example of this available Indian quarter eagle issue, suitable for type purposes. A few minor grazes in the left obverse field limit the grade, but there are no other distractions. NGC ID# 2892, PCGS# 7941

- 4417 1911-D — Improperly Cleaned — NGC Details. AU.** A butter-gold example of the low mintage key. The headdress and the eagle's neck show a trace of wear, but this lightly granular quarter eagle displays only incidental contact. The Denver mintmark is clear. NGC ID# 7KR7, PCGS# 7943

### 1911-D Quarter Eagle, Unc Details Strong D Mintmark, Series Key

- 4418 1911-D Strong D — Cleaning — PCGS Genuine Secure. Unc Details.** The 1911 *Mint Director's Annual Report* noted that the "gold quarter eagle is a coin for which there is no demand for business uses," and recommended its discontinuance. That explains the small production of 55,600 quarter eagles at the Denver Mint in 1911. This Uncirculated coin is fully struck with a Strong D mintmark. Wispy marks over the smooth orange-gold surfaces account for the grade. NGC ID# 7KR7, PCGS# 7943

- 4419 1913 MS64+ PCGS. CAC.** Slightly satiny with an impressive overall appearance. Boldly struck and carefully preserved, remarkably close to Gem quality. Rich honey-gold luster enhances the eye appeal. NGC ID# 7KR9, PCGS# 7945

- 4420 1914 MS62 PCGS.** A collector-grade Mint State example of this better-date Philadelphia issue, the 1914 Indian quarter eagle. Satiny surfaces submit to original olive-gold patina, which partially masks many of the grade-limiting abrasions. Well-struck, with pleasing appeal for the grade. NGC ID# 7KRA, PCGS# 7946

- 4421 1914 MS63 NGC.** Only the 1911-D quarter eagle and its 1911-D 'Weak D' sub-variety are scarcer at the MS63 grade level than the 1914 Philadelphia Mint issue, at NGC. This specimen is clean and appealing, with lovely light coloration and few surface marks. A well-struck and nicely preserved example. NGC ID# 7KRA, PCGS# 7946

**1914 Indian Quarter Eagle, MS64  
Second-Lowest Mintage**

- 4422 1914 MS64 PCGS.** With a production of 240,000 coins, the 1914 quarter eagle had the second lowest production of any coin in the Indian Head series. Although examples are readily located at the present grade level, anything finer approaches impossibility. PCGS has only certified 63 finer examples (6/16). This piece has brilliant yellow-gold surfaces and bold design elements with excellent eye appeal. NGC ID# 7KRA, PCGS# 7946

**1915 Quarter Eagle, MS65  
Rarely Seen Finer**

- 4423 1915 MS65 PCGS. CAC.** A razor-sharp Gem 1915 quarter eagle with faintly textured luster and bright yellow-gold color. There are no bothersome abrasions in the fields, as the CAC endorsement confirms. The 1915 is one of the moderately available Indian quarter eagles in Gem condition, although finer coins are rare. PCGS has seen only five Premium Gem submissions finer (5/16). NGC ID# 7KRC, PCGS# 7948

- 4424 1929 MS64+ PCGS. CAC.** 30th Anniversary Green Label Holder. A nicely struck pumpkin-gold near-Gem. Abrasions are incidental and mostly relegated to the field near the chin. The 1929 quarter eagle has a lower mintage than its rare half eagle counterpart. NGC ID# 289F, PCGS# 7953

**THREE DOLLAR GOLD PIECES**

- 4425 1854 AU58 PCGS.** An original, affordable three dollar gold type coin, this near-Mint 1854 coin displays luminous honey-gold fields and impressively sharp design elements. The surfaces are relatively smooth, and eye appeal far surpasses expectations for the grade. NGC ID# 25M3, PCGS# 7969

- 4426 1854-O — Repaired — PCGS Genuine. AU Details. Variety 2.** The fields are finely granular on this 1854-O three dollar gold piece from old tooling. The design elements are sharp, and to the unaided eye, the coin is satiny and pleasing. From a mintage of only 24,000 coins and the only New Orleans issue in the series. NGC ID# 25M5, PCGS# 7971

**1854-O Three Dollar, AU50  
Only New Orleans Mint Three**

- 4427 1854-O AU50 PCGS. Variety 2.** From a modest mintage of 24,000 pieces, the 1854-O is the only three dollar gold piece from the New Orleans Mint and collectors prize examples in all grades and conditions. This attractive AU example exhibits well-detailed design elements, with just a trace of wear on the high points. The lightly abraded orange-gold surfaces retain traces of original mint luster. NGC ID# 25M5, PCGS# 7971

**1855-S Three Dollar, XF45  
High-Attrition Early S-Mint Issue**

- 4428 1855-S XF45 NGC.** In its second year of operation, the San Francisco branch mint struck 6,000 three dollar gold pieces, many of which have been lost through attrition over the years. The coins circulated extensively in the hard-money West, and the 1855-S is now about as available as the the lower-mintage 1854-D. Perhaps 120 to 160 coins survive. This Choice XF three dollar has reddish-gold surfaces and retains much design detail. Small wispy marks do nothing to diminish the appeal. NGC ID# 7K5D, PCGS# 7973

- 4429 1856-S XF45 NGC.** Hints of luster remain in the protected portions of the peripheries on this Choice XF 1856-S three dollar gold piece, while the design elements show light wear. The surfaces are yellow-gold and have scattered small marks as expected for the grade. NGC ID# 25M9, PCGS# 7975

- 4430 1857 AU55 PCGS.** A bright yellow-gold, Choice AU 1857 three dollar gold piece with remnants of luster in the protected regions of the fields. The wreath bow is weakly struck, but the obverse portrait is sharp, and wear is minimal. NGC ID# 7K5G, PCGS# 7976

**1857-S Three Dollar Gold, AU53  
Elusive Branch Mint Issue**

- 4431 1857-S AU53 NGC.** A conditionally elusive San Francisco issue with a mintage of 14,000 pieces, most of which was released into circulation. This AU survivor displays pale yellow-gold surfaces with some luster in the protected regions of the fields. Scattered light marks are consistent with the grade. Census: 28 in 53, 43 finer (6/16). NGC ID# 7K5H, PCGS# 7977

**4432 1858 XF45 PCGS.** Philadelphia Mint productions of the three dollar "Princess" began auspiciously with the 1854, but mintages fell each year thereafter, until 20,891 were struck in 1857. But even this low amount seems considerable in comparison with the 1858 emission of 2,133 pieces. While later low-mintage dates were set aside by knowledgeable collectors of the day, such was not the case with the 1858, and it is challenging to locate in any grade. This Choice XF example is deep apricot in color with the expected moderate wear on Liberty's curls and the wreath. Traces of luster nonetheless emerge when the piece is gently rotated.  
*Ex: Dallas Signature (Heritage, 12/2005), lot 1273; ANA Signature (Heritage, 4/2006), lot 1782. NGC ID# 7K5J, PCGS# 7978*

**4433 1858 — Damaged — NGC Details. AU.** Only light wear shows on the orange-gold surfaces of this popular three dollar issue, but there is a slight dent, or depression, at the 3 on the reverse. Traces of mint luster cling to protected areas around the devices. NGC ID# 7K5J, PCGS# 7978

#### 1860 Three Dollar Gold, AU58 Original Patina

**4434 1860 AU58 NGC.** A partially lustrous, near-Mint example of this scarcer pre-Civil War issue, coming from a mintage of just 7,036 coins. The strike is bold, and the fields exhibit a hint of reflectivity. The surfaces are relatively smooth and have warm honey-gold patina. Uncirculated examples are seldom found so attractive for a price that the average collector can afford. NGC ID# 25ME, PCGS# 7980

#### 1860 Gold Three Dollar, AU58 Lustrous and Appealing

**4435 1860 AU58 PCGS. CAC.** The 1860 three dollar gold piece is seldom seen in Mint State, but high-end AU coins such as the present example remain accessible by many collectors. This near-Mint coin displays outstanding eye appeal and boasts a CAC green label. The surfaces retain substantial luster in the fields with trivial high-point friction over the design elements. There are no significant abrasions. NGC ID# 25ME, PCGS# 7980

#### 1865 Three Dollar, AU Details Low-Mintage Issue

**4436 1865 — Improperly Cleaned — NGC Details. AU.** Due to its scant mintage of 1,140 pieces, the 1865 gold three dollar piece is a popular date in any condition. This lightly cleaned AU example will appeal to the budget-conscious collector. The surfaces are glossy and slightly granular, but the devices are well-detailed and each side has pleasing olive-gold coloration. NGC ID# 7K5S, PCGS# 7986

**4437 1868 AU58 NGC.** An important, low-mintage issue from a circulation strike production of only 4,850 coins, this example displays nearly full luster on its light yellow surfaces. NGC ID# 25MP, PCGS# 7989

**4438 1868 AU58 NGC.** A sharply detailed near-Mint coin with semireflective fields. The color is mostly yellow-gold, but rose-tinted hues also appear in the peripheral fields. Light surface chatter accompanies the grade. NGC ID# 25MP, PCGS# 7989

**4439 1874 — Struck Through Obverse — MS62 PCGS.** A horn-shaped depression, 4 mm x 0.5 mm, is present near the bust tip, as made. A small cone-shaped object (not included) apparently found its way between the dies. This coruscating sun-gold type coin has smooth fields, and is crisply struck aside from the 18 in the date and the O in DOLLARS.  
*Ex: Dallas Signature (Heritage, 4/2007), lot 980.*

**4440 1874 MS62 PCGS.** A well-struck three dollar gold type coin, this MS62 1874 displays luminous lemon-gold surfaces that are surprisingly free of distracting abrasions — only faint slide marks over the high points of the devices limit the grade. NGC ID# 7KDE, PCGS# 7998

**4441 1878 — Cleaning — PCGS Genuine. Unc Details.** A lightly hairlined but nicely struck sun-gold type coin. None of the scattered small abrasions are consequential. Traces of struck-in grease are unobtrusively apparent near the R in LIBERTY. NGC ID# 25MZ, PCGS# 8000

**4442 1878 MS62 NGC.** Type collectors recognize the 1878 as one of the common dates in the three dollar gold series, and enough survive that examples are within reach of nearly any collector. This piece has rich orange-gold luster with frosty surfaces and minimal marks. NGC ID# 25MZ, PCGS# 8000

**4443 1879 — Scratch — PCGS Genuine. Unc Details.** This piece offers the budget-conscious collector a great opportunity to acquire an eye-catching, cameo-contrasted Mint State type coin for a reasonable price. The strike is bold, and the fields are deeply mirrored. PCGS declined to assign a numeric grade due to a couple of short scratches on the reverse: two at 8 o'clock on the rim, and a less noticeable one in the field left of the 3 — none severe. NGC ID# 25N2, PCGS# 8001

**4444 1881 — Mount Removed — NGC Details. VF.** From a minuscule mintage of 500 pieces, this lightly worn three dollar gold piece shows evidence of use in jewelry on the central obverse, where it was once attached to a mount. The coin retains much interior detail in the reverse devices and the pleasing orange-gold surfaces are lightly abraded. NGC ID# 25N4, PCGS# 8003

**1885 Three Dollar Gold, AU55  
Only 801 Pieces Struck**

**4445 1885 AU55 NGC.** An enticingly low mintage of 801 coins gives the 1885 significant collector appeal despite the fact that a fair number of survivors are known in various grades. This Choice AU representative displays a bold strike and bright yellow-gold surfaces. The protected regions of the fields exhibit prooflike mirroring, while the open areas and the motifs show minor friction that precludes a Mint State designation. NGC ID# 7KDP, PCGS# 8007

**4446 1888 AU58 NGC.** A sharp coin with partially reflective fields that are just slightly muted by a touch of friction. The surfaces are smooth and display pleasing honey-gold color. Despite a mintage of only 5,000 pieces, the 1888 is an available date that is popular with type collectors. NGC ID# 25NB, PCGS# 8010

**EARLY HALF EAGLES**

**1806 Knob 6, 7x6 Stars Half Eagle, Fine 15  
BD-6, Collectible Type Coin**

**4447 1806 Knob 6, 7x6 Stars, BD-6, R.2, Fine 15 PCGS.** Bass-Dannreuther Die State d/e, with a rust lump on the R in LIBERTY. BD-6 is the only die pair with a Knob 6 and the most collectible variety among all Draped Bust Large Eagle five dollar gold coins (estimated 35,000 to 50,000 pieces struck). This well-circulated olive-gold half eagle has strong central detail with clear legends. The highest points of the stars and feathers are predictably flat. A great entry point into the early five dollar gold series. Housed in an old green label holder. NGC ID# BFXJ, PCGS# 45620 Base PCGS# 8089

**1807 Bust Left Half Eagle, BD-8, AU Details**

**4448 1807 Bust Left, BD-8, R.2 — Polished — NGC Details. AU.** Bass-Dannreuther Die State d/b. A boldly struck, sharply detailed example of this first-year Bust Left type-coin issue, showing polished yellow-gold surfaces and bright patina. Scattered abrasions are typical of the issue and grade. BD-8 is a fairly plentiful variety in the context of early gold, with more than 500 pieces believed known in all conditions.

**1812 BD-1 Half Eagle, AU Details  
Still-Pleasing for Type Purposes**

**4449 1812 BD-1, R.3 — Cleaned — ANACS. AU Details, Net XF45.** Bass-Dannreuther Die State a/a, unclashed. This AU-level Draped Bust Left half eagle type coin displays bright yellow-gold surfaces with bits of luster in the protected regions of the fields. Scattered light hairlines denote an old cleaning. This piece shows a depression on Liberty's cheek, likely a mint-made strike-through. Housed in an old white, small size ANACS holder. NGC ID# 25PL, PCGS# 507601 Base PCGS# 8112

**CLASSIC HALF EAGLES**

**4450 1834 Plain 4 AU55 NGC. Breen-6501, McCloskey 1-A, R.3.** A richly detailed apricot-gold example of this first-year Classic type coin. Luster accompanies all design crevices, and wear is chiefly confined to the forehead and curls. The obverse exhibits many minuscule abrasions but none are of individual importance. NGC ID# 25RR, PCGS# 8171

**4451 1836 AU55 NGC. Breen-6509, McCloskey 2-A, R.4.** Second Head, Large Date. Lengthy die cracks through the eagle's neck and the T in LIBERTY confirm this scarcer die pairing. A lightly abraded example with rich golden-brown toning in protected areas. The curls display light wear but the strike is generally sharp. NGC ID# 25RY, PCGS# 8174

**LIBERTY HALF EAGLES**

**4452 1840 Narrow Mill AU55 NGC.** Bright yellow-gold patina characterizes each side, but with portions of the fields showing prooflike reflectivity. The strike is bold, and high-point wear is minimal. Light chatter is seen over each side. NGC ID# 25SA, PCGS# 8194

**4453 1840 Narrow Mill AU55 PCGS.** A well-detailed 1840 half eagle, showing relatively smooth surfaces. Bright lemon-gold undertones emerge through areas of deep olive-green and amber patina. A scarce date in finer condition. Population: 29 in 55, 28 finer (5/16). NGC ID# 25SA, PCGS# 8194

**4454 1845-D VF20 ANACS. Variety 13-H.** The 1845-D is a plentiful Dahlonega half eagle, suitable for the collector seeking a single piece from this mint. The present coin is well-detailed for the grade with deep orange-gold patina and violet accents around the devices. Scattered marks are typical of the issue. Housed in an old white, small size ANACS holder. NGC ID# 25TC, PCGS# 8224

**4455 1846 Large Date MS61 PCGS.** The more often seen Large Date variety, but this Mint State 1846 half eagle is conditionally rare. Eye appeal surpasses expectations for the grade, with semireflective fields and sharp devices. There are no major abrasions, but light field chatter limits the grade. The surfaces have pleasing orange-gold luster. NGC ID# 25TE, PCGS# 8226

**4456 1846 Small Date AU58 NGC.** The Small Date variant, this piece showing bright yellow-gold luster and prooflike fields. Light surface chatter accompanies the high AU grade, and the design elements are sharply detailed. Census: 20 in 58, 15 finer (5/16). NGC ID# 25TE, PCGS# 88226

**4457 1848-D XF40 NGC. CAC. Variety 21-N.** Southern gold specialists in search of original “dirty gold” surfaces need look no further than the present lot. This olive-green and orange-gold Dahlonega example is refreshingly unabraded. The strike shows softness on the eagle’s neck and Liberty’s lovelock. One of the relatively few 1848-D half eagles to possess a green CAC seal. NGC ID# C5XA, PCGS# 8238

**4458 1850-C Fine 12 NGC. Variety 3.** With about 300 pieces believed extant, the 1850-C is a fairly plentiful Charlotte half eagle, and the present Fine 12 example will appeal to budget-conscious collectors seeking a single piece from this mint. Wear is even, and the surfaces how pleasing olive-gold patina. Scattered small marks are not abnormal for Charlotte gold pieces. Housed in a prior generation holder. NGC ID# 25TZ, PCGS# 8244

#### 1850-D Half Eagle, Weak D Variety, AU53

**4459 1850-D AU53 NGC. Variety 27-U.** The scarce “Weak D” variety. The reverse die has been lapped, weakening the mintmark, particularly its lower curve. Peripheral die cracks are present, as always for this die state. The pale green-gold surfaces are free from conspicuous marks.  
Ex: *Dallas Signature* (Heritage, 11/2007), lot 2028. NGC ID# 25U3, PCGS# 8245

#### 1854-C Half Eagle, Near-Mint, Ample Flashy Luster

**4460 1854-C AU58 NGC. Variety 1.** Substantial semiprooflike luster outlines the design elements. An extended inspection beneath a glass fails to locate any consequential marks. The mintmark is sharp, unlike many ‘54-C fives, although the strike is soft on the eagle’s neck and lower body and on the curls near the forehead. Census: 14 in 58, 8 finer (6/16).  
Ex: *FUN Signature* (Heritage, 1/2007), lot 5871, which realized \$4,600. NGC ID# 25UH, PCGS# 8257

#### 1854-D Half Eagle, Well-Detailed AU53

**4461 1854-D Weak D AU53 NGC. Variety 37-DD.** The Weak D variety, showing the mintmark plainly but weakly impressed into the die. With a mintage of 56,413 coins and a survival of 550 to 650 pieces, the 1854-D is among the more plentiful half eagles from the Dahlonega Mint. This piece shows an above-average strike with bright yellow-gold surfaces. Eye appeal is pleasing for the issue. NGC ID# 25UL, PCGS# 98258

#### 1855-D Medium D Five, Scarce Choice XF

**4462 1855-D Medium D XF45 PCGS.** The 1855-D is a scarce date with fewer than 150 coins surviving in all grades. Uncirculated pieces are extremely rare. This Choice XF example displays light wear over the devices with hints of luster in the protected peripheral fields. A few minor surface abrasions are not particularly bothersome. Population: 1 in 45, 8 finer (5/16). NGC ID# 25US, PCGS# 98263

#### 1855-S Half Eagle, Near-Mint Conditionally Rare No Motto Coin

**4463 1855-S AU58 NGC.** The San Francisco Mint opened in 1854 and immediately began striking significant quantities of coins for Western circulation. Although 61,000 1855-S half eagles were struck, only 150 to 200 examples probably survive with the majority in heavily circulated condition. The average grade at NGC and PCGS is a fraction higher than XF45, and anything finer than this near-Mint five dollar gold piece is extremely rare. Partial frosty luster remains within the recesses of boldly struck devices with imperceptible rub. Only the star radials are a touch incomplete, but inconsequentially so. Lightly marked. Census: 16 in 58, 4 finer (5/16). NGC ID# 25UU, PCGS# 8265

**4464 1857-S AU55 NGC.** The 1857-S half eagle’s mintage of 87,000 coins was actually among the higher production totals from the period, but high-end examples of this date are still scarce today. This Choice AU representative displays medium yellow-gold patina with minimal surface chatter. Hints of luster cling to the peripheral fields. Census: 20 in 55, 28 finer (6/16). NGC ID# CBE7, PCGS# 8275

#### 1858-D Five Dollar, AU50

**4465 1858-D AU50 NGC. Variety 43-II.** Winter’s *Gold Coins of the Dahlonega Mint* (2013) notes that the 1858-D is “generally overlooked, but it is actually scarcer than most collectors believe. It is much harder to find than the 1859-D and 1860-D ... .” There are probably only 200 to 250 survivors, about 100 of which are in AU condition. All 1858-D half eagles (15,362 coins struck) show softness at the centers, as is seen here. High-point rub is moderate, and the surfaces show lovely reddish-gold tinges. NGC ID# CBBT, PCGS# 8278

**4466 1861 MS61 PCGS.** A sharp, satiny 1861 half eagle with yellow-gold luster. Eye appeal is pleasing for the grade, despite surface chatter that precludes a finer designation. The 1861 is the most plentiful issue of the period, ideal for type purposes. NGC ID# 25VK, PCGS# 8288

**1868 Five Dollar, AU53  
Fewer Than 100 Pieces Believed Known**

**4467 1868 AU53 NGC.** The 1868 half eagle is somewhat underrated compared to many branch mint issues of the period. From a mintage of only 5,700 pieces, fewer than 100 examples are thought to survive. Mint State representatives are prohibitively rare. This AU coin displays well-detailed design elements with bright yellow-gold patina. Scattered abrasions appear on each side. Census: 9 in 53, 22 finer (6/16). NGC ID# 25W5, PCGS# 8315

**1871 Five Dollar, AU55  
Semiprooflike Fields**

**4468 1871 AU55 NGC.** Business strike production of the half eagle amounted to just 3,200 pieces in 1871 and no particular attention seems to have been paid to the modest mintage, as Mint State pieces are nearly non-existent. This lightly worn example filters through a degree of prooflikeness across moderately abraded surfaces. Well struck with rich golden color overall. Census: 13 in 55, 19 finer (6/16).

Ex: *Palm Beach Signature* (Heritage, 3/2005), lot 6958. NGC ID# 25WC, PCGS# 8322

**4469 1872 — Cleaning — PCGS Genuine. AU Details.** With a mintage of only 1,660 pieces, the 1872 half eagle is scarce in any condition. This AU-level coin shows sharp detail and reflective fields. Hairlines on each side denote an old cleaning and slightly subdue the luster. NGC ID# 25WF, PCGS# 8325

**4470 1874 AU53 PCGS.** Philadelphia issues from the 1870s are somewhat underrated when compared to their more sought-after but also more plentiful branch mint counterparts. The 1874 half eagle had a mintage of only 3,400 pieces, and most survivors grade in the middle to lower circulated tiers. This About Uncirculated example is rare. The strike is well-executed, and the honey-gold surfaces retain hints of semiprooflike mirroring in the protected regions. Light, scattered abrasions accompany the grade. Population: 11 in 53, 21 finer (5/16). NGC ID# 25WN, PCGS# 8333

**4471 1878-S MS62 PCGS.** The 1878-S five is elusive in Mint State and rarely seen finer than MS62. This collectible example displays a bold strike and satiny yellow-gold luster. Light chatter on the cheek and in the field is all that limits the grade. Population: 26 in 62 (2 in 62+), 16 finer (5/16). NGC ID# 25X6, PCGS# 8347

**4472 1880-CC AU53 PCGS. Variety 2-C.** A lightly abraded peach-gold representative with substantial luster across the devices and borders. A rare die marriage identified by lumps and lines below the eye of Liberty, which cause her to appear to be crying. The mintmark is entered low. Most '80-CC fives are Variety 1-A. NGC ID# 25XB, PCGS# 8352

**1881 Five Dollar, MS65  
Glimmering Mint Luster**

**4473 1881 MS65 NGC. CAC.** Philadelphia Mint officials struck 5.7 million half eagles in 1881, more than in any other year from 1795 to 1929, but survivors are rarely seen in Gem condition. Examples are out of reach for most collectors in higher grades. Glimmering medium yellow-gold surfaces exhibit bold detail on the devices and few marks in the fields, although several minute ticks are noted on each side. Good for type. Census: 67 in 65, 14 finer (5/16). NGC ID# 25XD, PCGS# 8354

**4474 1882-CC XF40 NGC. Variety 1-A.** A well-detailed, olive-gold XF example of this Carson City issue, showing relatively smooth surfaces and light wear. Occasionally seen finer, but the present coin represents a high degree of value for the budget-conscious collector. NGC ID# 25XH, PCGS# 8359

**4475 1882-CC AU50 NGC. Variety 1-A.** A minimally abraded Carson City half eagle. Though predominantly olive-gold, two small areas of darker color are noted on the eagle. The 1882-CC is collectible in VF through AU grades, but Uncirculated examples are surprisingly rare. NGC ID# 25XH, PCGS# 8359

**1882-CC Five Dollar, AU55  
Some Luster Remains**

**4476 1882-CC AU55 PCGS. Variety 1-A.** Some luster remains in the protected peripheral fields of this Choice AU 1882-S Liberty half eagle, but slight friction over the high points of the design precludes a Mint State designation. This piece shows smooth wheat-gold surfaces and well-detailed design elements. Eye appeal is pleasing for the grade. NGC ID# 25XH, PCGS# 8359

**1882-CC Five Dollar, AU55**  
**Smooth, Partially Lustrous Surfaces**

- 4477 1882-CC AU55 PCGS. Variety 1-A.** Uncirculated examples of this Carson City half eagle are scarce, making the present Choice AU coin highly appealing to budget-conscious collectors. This piece displays bold detail and partially lustrous yellow-gold fields. Light surface chatter accompanies the grade but poses little visual distraction. NGC ID# 25XH, PCGS# 8359

**1882-S Liberty Five, MS65+**  
**Extremely Rare Any Finer**

- 4478 1882-S MS65+ NGC.** Gem examples of the 1882-S half eagle are scarce, and anything finer is a major rarity. This Plus-designated Gem boasts vibrant wheat-gold luster and sharp motifs. A loupe fails to reveal any significant marks, although some reddish wisps of rose color are detected in the fields. Census: 31 in 65 (2 in 65+), 3 finer (5/16). NGC ID# 25XJ, PCGS# 8360

**1882-S Five Dollar, MS65+**  
**Seldom Available So Fine**

- 4479 1882-S MS65+ NGC.** The 1882-S is a plentiful issue overall, but Gem examples are conditionally scarce. This Plus-graded coin displays a sharp strike and frosty rose-gold luster. The luminous surfaces are devoid of mentionable abrasions, and the eye appeal is outstanding. Census: 31 in 65 (2 in 65+), 3 finer (5/16). NGC ID# 25XJ, PCGS# 8360
- 4480 1883-S MS63 NGC.** A slightly better date in Uncirculated grades and genuinely rare above MS63. This Select 1883-S half eagle displays sharp detail and original, satiny luster in blended yellow and rose-gold hues. Light surface chatter is all that limits the grade. Census: 29 in 63, 1 finer (5/16). NGC ID# 25XM, PCGS# 8363
- 4481 1888 MS63 PCGS.** A frosty Select 1888 half eagle, showing rich honey, lavender, and rose-gold hues on each side. The strike is sharp, and grade-limiting abrasions are minor in nature. The 1888 is scarce in MS63 and rarely seen finer, making it seen undervalued at current levels. Population: 29 in 63, 2 finer (5/16). NGC ID# 25XX, PCGS# 8372

- 4482 1891-CC AU58 NGC. Variety 1-A.** Luster remains in the fields of this near-Mint 1891-CC half eagle, illuminating honey-gold patina and well-struck design elements. Light chatter on the cheek and in the fields largely accounts for the sub-Mint State grade. NGC ID# 25Y5, PCGS# 8378

- 4483 1891-CC AU58 NGC. CAC. Variety 2-A.** The top of the second 1 in the date is lightly repunched. Peach-tinged luster fills the borders and motifs of this sharply struck Carson City type coin. The fields display olive-green toning. No marks are noticeable. NGC ID# 25Y5, PCGS# 8378

- 4484 1892-CC AU55 PCGS. Variety 1-A.** A well-defined caramel-gold and olive-green Carson City representative. Marks are minimal aside from moderate contact on the obverse rim near 1:30. Scarcer than its 1891-CC predecessor, although affordable at the Choice AU level. NGC ID# 25Y7, PCGS# 8380

- 4485 1892-CC AU58+ NGC. CAC. Variety 1-A.** An exceptionally nice "slider" that boasts lustrous borders and smooth peach-gold surfaces. The strike is sharp, and wear is mostly relegated to Liberty's eyebrow and the eagle's central neck feathers. A good candidate for a carefully chosen Carson City type set. NGC ID# 25Y7, PCGS# 8380

- 4486 1892-S MS63 NGC.** The 1892-S is an elusive date in Uncirculated condition, particularly in MS63 and finer. This Select coin displays a sharp strike and frosty wheat-gold luster. A few light marks on each side limit the grade but pose little distraction. Census: 5 in 63, 8 finer (5/16). NGC ID# 25Y9, PCGS# 8382

- 4487 1900 MS65+ NGC.** The 1900 Liberty half eagle is an elusive issue in grades above MS65. This Plus-graded Gem offers sharply detailed design elements and vibrant mint luster, with well-preserved orange-gold surfaces and outstanding eye appeal. NGC has graded 32 numerically finer examples (5/16). NGC ID# 25YU, PCGS# 8400

- 4488 1907-D MS65 PCGS.** Shimmering, softly frosty prairie-gold luster illuminates Gem-quality surfaces on this 1907-D Liberty half eagle. The strike is bold, and the eye appeal is outstanding. Finer examples of this final-year Denver issue are seldom seen, with only 22 such coins reported at PCGS (6/16). NGC ID# 25ZD, PCGS# 8417

## INDIAN HALF EAGLES

- 4489 1908 MS64 PCGS.** The unusual design, once disdained, is now highly popular with collectors. This first-year Indian half eagle exhibits light yellow surfaces and frosty mint luster with a bold strike. NGC ID# 28DE, PCGS# 8510

**1908 Indian Half Eagle, MS64+**  
**Debut Type-Coin Issue**

- 4490 1908 MS64+ PCGS. CAC.** An outstanding first-year Indian Head type coin with satiny yellow-gold luster and a sharp strike. A few small marks in the reverse field prevent a Gem designation and keep this Plus-graded MS64 coin within the financial reach of most collectors. The 1908 is one of the few dates in the series that is usually available for type purposes, even in high grade. NGC ID# 28DE, PCGS# 8510

- 4491 1908-D MS64 NGC. CAC.** Trivial surface marks prevent a higher grade to this lovely half eagle. The strike is typical and the luster is brilliant with eye appealing light yellow-gold surfaces. NGC ID# 93KW, PCGS# 8511

**4492 1908-S AU58 PCGS.** Barely a brush of friction keeps this near-Mint 1908-S Indian Head five out of a Mint State-designated holder. The surfaces display satiny straw-gold color and are free of major abrasions. The 1908-S is a slightly better date, boasting small mintage of 82,000 pieces. NGC ID# 65K3, PCGS# 8512

**4493 1909-D MS64+ NGC.** A virtual Gem, this lovely 1909-D Indian half eagle is an excellent type collection candidate due to the high mintage of more than 3 million pieces and the available supply. This sharply defined example is fully lustrous with pleasing light yellow surfaces. NGC ID# 28DJ, PCGS# 8514

**4494 1909-S MS60 NGC. CAC.** A moderately abraded, yet, CAC-endorsed Mint State example of this conditionally elusive San Francisco issue. The strike is bold, and the satiny surfaces display pleasing olive-gold patina with orange and rose accents. The mintmark is weakened by surface chatter but remains discernible. CAC: 1 in 60, 23 finer (6/16). NGC ID# 25ZL, PCGS# 8516

**4495 1910-D MS63 NGC.** The 1910-D Indian half eagle is an elusive issue in grades above MS63. This sharply detailed Select example displays lustrous orange-gold surfaces with some scattered minor contact marks. NGC has graded 33 numerically finer examples (5/16). NGC ID# 28DL, PCGS# 8518

#### 1911 Five Dollar, MS64+ Pleasing Collector Coin

**4496 1911 MS64+ PCGS.** The 1911 Indian half eagle is available in MS64 but elusive any finer. This high-end near-Gem balances quality and affordability. The strike is bold, and each side displays softly frosted green-gold luster. A small tick on the Indian's cheek and a few minor grazes in the reverse fields preclude a full Gem grade assessment. NGC ID# 28DP, PCGS# 8520

#### 1911-D Half Eagle, AU55 Better Denver Issue

**4497 1911-D AU55 NGC. CAC.** An accurately graded Choice AU 1911-D half eagle, showing bronze-gold surfaces with remnants of luster in the recesses. Scattered abrasions in the fields are consistent with the grade. This well-detailed semikey-date Indian five boasts a CAC green label and will appeal to a range of collectors. The mintmark is plain. NGC ID# 28DR, PCGS# 8521

#### 1911-S Indian Half Eagle, MS62+ Elusive Issue In Higher Grades

**4498 1911-S MS62+ PCGS.** The 1911-S Indian half eagle is surprisingly scarce in high grade, considering its substantial mintage of 1.4 million pieces. This Plus-graded MS62 example displays sharply detailed design elements and lustrous orange-gold surfaces that show a scattering of minor contact marks on both sides. NGC ID# 25ZM, PCGS# 8522

**4499 1913 MS63 PCGS. CAC.** A collectible MS63 example with well-struck design elements and pleasantly smooth fields. Each side shows original honey and lilac-gold hues, delivering outstanding eye appeal. The CAC green label completes the package. NGC ID# 28DT, PCGS# 8525

#### 1913 Indian Five, MS64 Elusive in Finer Grades

**4500 1913 MS64 PCGS. CAC.** Splendid frosty luster illuminates near-Gem surfaces on this CAC-endorsed 1913 half eagle. The strike is sharp, and only a few tiny grazes in the fields limit the numeric designation. The 1913 Indian five is available at the Choice level, but Gems are scarce and climb beyond the financial grasp of the average collector. NGC ID# 28DT, PCGS# 8525

#### 1913 Half Eagle, MS64+ High-End Example, Ideal for Type

**4501 1913 MS64+ PCGS. CAC.** A healthy mintage of 915,900 coins and an equally impressive survival rate contribute to the popularity of the 1913 half eagle as a type coin in the Bela Lyon Pratt series. This blatantly high-end Choice five dollar gold piece offers glistening luster over lovely orange-gold surfaces. Needle-sharp throughout with a couple of unimportant marks. NGC ID# 28DT, PCGS# 8525

**4502 1914-D MS62+ PCGS. CAC.** This Plus-graded MS62 specimen offers sharply detailed design elements and lustrous yellow and orange-gold surfaces with the expected number of minor contact marks for the grade. The 1914-D is not hard to locate in lower Mint State grades, but it is elusive at higher levels. NGC ID# 28DV, PCGS# 8528

## LIBERTY EAGLES

**4503 1842 Small Date XF45 PCGS.** A well defined No Motto example with original orange-gold color and the expected quantity of individually minor abrasions. The Small Date and Large Date varieties are distinct, but similar in rarity. The *Guide Book* prices the Small Date slightly higher in AU grades. Certified in a green label holder. NGC ID# 262M, PCGS# 8585

**4504 1842-O AU50 NGC. Variety 2.** A lightly abraded and richly detailed straw-gold representative. Luster fills the legends, plumage, and curls. The low mintmark variant of the scarce second New Orleans ten dollar issue. From a mintage of just 27,400 pieces. NGC ID# 262N, PCGS# 8587

**4505 1843-O AU53 PCGS. Variety 1.** A moderately circulated caramel-gold New Orleans eagle. Small marks are scattered but none are of singular relevance. The 1843-O is available in XF grades, but problem-free AU examples are surprisingly scarce. Population: 25 in 53, 36 finer (5/16). NGC ID# 262R, PCGS# 8589

**4506 1845-O Repunched Date XF40 PCGS. Variety 3.** This sun-gold New Orleans example displays only minor to moderate field abrasions. Bright luster outlines design elements. The 45 in the date are repunched west. A scarce die marriage; one of six known for the issue. The few hundred survivors from the mintage of 47,500 pieces are concentrated in XF-AU grades. NGC ID# 262V, PCGS# 88593 Base PCGS# 8593

**4507 1846-O XF40 PCGS. FS-301, Variety 3.** The mintmark is repunched northwest. This caramel-gold No Motto New Orleans ten has sharper definition on the wings than is usual for the XF40 grade. The reverse is faintly hairlined but neither side has any mentionable marks. NGC ID# 554J, PCGS# 8595

**4508 1846-O XF45 NGC. Variety 3.** An elusive early New Orleans issue, seldom seen in any grade and prohibitively rare in Mint State. This Choice XF example displays sharp design elements with natural straw-gold patina. Hints of luster are discernible in the protected regions of the fields. Light chatter occurs on each side, as well as a small abrasion in front of Liberty's neck. Census: 41 in 45, 58 finer (5/16). NGC ID# 554J, PCGS# 8595

**4509 1849 AU58+ PCGS. CAC.** As far as detail is concerned, this high-end near-Mint CAC coin is essentially Uncirculated, although slight friction in the fields limits the PCGS designation. The coin is well-struck with luminous yellow-gold patina and minimal surface chatter. Eye appeal surpasses many lower-end Mint State pieces. Population: 23 in 58 (1 in 58+), 38 finer. CAC: 7 in 58, 8 finer (5/16). NGC ID# 2635, PCGS# 8601

**4510 1850-O XF45 NGC. Variety 1.** The wings and curls display moderate wear. The honey-gold surfaces are mildly luminous and lack any mentionable marks. A minor retained lamination is noted above the T in TEN. Scarce relative to its '51-O successor. NGC ID# 2639, PCGS# 8605

**4511 1851 AU58 NGC.** Much scarcer than its mintage of 176,328 pieces might indicate, AU is generally the finest collector grade for the 1851 ten dollar. This is a bright yellow-gold example that is well (but not quite fully) struck with numerous small abrasions peppered across each side. NGC ID# 263A, PCGS# 8606

**4512 1851-O AU50 PCGS. Variety 1.** A lovely and original peach-gold New Orleans No Motto type coin. Well defined and without consequential contact. Luster beckons from the legends, eagle, and curls. As customary for the issue, a shield ring is noted at the obverse center. NGC ID# 557V, PCGS# 8607

**4513 1851-O AU53 PCGS. Variety 2.** A shield ring rests atop the second vertical stripe, as seen on all '51-O tens. The yellow-gold surfaces are minimally marked despite light antebellum circulation. Well defined except for the stars, which are softly impressed on most 1850s issues. NGC ID# 557V, PCGS# 8607

## 1851-O Ten Dollar, AU58 New Orleans Type Coin

**4514 1851-O AU58 NGC. Variety 1.** A luminous sun-gold New Orleans No Motto type coin. Flashy luster accompanies the date and other legends. Field marks are noticeable but no more prevalent than is usual for the grade. Most of the stars are softly brought up, but other design elements are well detailed. Despite Breen's *Encyclopedia* listing to the contrary, all 1851-O tens have a shield ring, atop the second vertical stripe. NGC ID# 557V, PCGS# 8607

## 1852 Ten Dollar, MS60 Rare in Mint State

**4515 1852 MS60 PCGS.** An elusive No Motto issue, rarely seen in any Mint State grade. This Uncirculated example displays scattered surface chatter as the grade suggests, but underlying yellow-gold luster is uninhibited. This 1852 eagle is well-struck and offers excellent eye appeal for the grade and issue. Population: 2 in 60, 16 finer (5/16). NGC ID# 263C, PCGS# 8608

**4516 1853-O XF45 PCGS. Variety 4.** No shield ring. Four die marriages are confirmed despite a mintage of only 51,000 pieces. A butter-gold New Orleans representative without any singularly consequential marks. Well defined for the Choice XF level. The obverse is mildly bright. NGC ID# 263F, PCGS# 8612

**4517 1854 AU55 NGC.** Gold production at the Philadelphia and New Orleans Mints approached record levels at the beginning of the California Gold Rush from 1849 to 1853, but dropped precipitously upon the 1854 opening of the San Francisco Mint. Only 54,250 eagles were coined in Philadelphia in 1854. This Choice AU example has hints of orange toning on its lustrous light yellow surfaces. NGC ID# 263G, PCGS# 8613

**4518 1856-O XF45 PCGS. Variety 1.** A nicely detailed honey-gold Choice XF No Motto ten. Relevant marks are confined to the field between stars 7 and 8. The rare low mintmark variant of this difficult New Orleans issue. From the meager mintage of 14,500 pieces, most survivors are Variety 3, which shows the mintmark entered high, close to the claw. NGC ID# 263R, PCGS# 8620

**4519 1856-S AU50 NGC.** A well-detailed example with olive-gold patina and grade-consistent field chatter. The overall eye appeal is pleasing for the issue. The 1856-S is an elusive date in high grade, coming from a mintage of 68,000 pieces. NGC ID# 263S, PCGS# 8621

1858-O Ten Dollar, AU55  
Low-Mintage New Orleans Issue

**4520 1858-O AU55 NGC. Variety 1.** A pre-Civil War New Orleans issue from the period during which the Southern branch mint struck only limited quantities of high-denomination gold. Only 20,000 pieces were produced, and high-grade survivors are scarce. This Choice AU representative displays pleasing detail with areas of prooflike mirroring in the fields. Light friction in the usual places limits the grade. Census: 46 in 55 (1 in 55+★), 48 finer (5/16). NGC ID# 55GX, PCGS# 8626

**4521 1859 AU53 NGC.** The 1859 is another scarce No Motto ten with a low mintage. In this case only 16,013 pieces were produced. The even orange-gold surfaces show a number of small to medium-sized abrasions, and there is slight softness of strike. Census: 25 in 53, 68 finer (6/16). NGC ID# 263Z, PCGS# 8628

1860-O Ten Dollar, AU53  
Bright Semireflective Fields

**4522 1860-O AU53 NGC.** The 1860-O ten is moderately available in AU grades, even though only 11,100 pieces were struck. But in overall rarity only 115-135 examples are estimated extant in all grades. This piece is typical of many 1860-O tens as it displays bright semiprooflike fields. The lemony-yellow surfaces are lightly abraded and there is no notable softness of details in the centers, just light high point friction. NGC ID# 2645, PCGS# 98631

1868 Ten Dollar, AU55  
Low-Mintage Issue

**4523 1868 AU55 NGC.** The 1868 is among the more plentiful Liberty eagles of the postwar 1860s, but high-grade examples are still scarce. In Mint State, this issue is rare. The present Choice AU coin balances technical quality and affordability. The strike is bold, and there is little high-point wear. The yellow-gold surfaces show remnants of prooflike mirroring in the protected regions of the fields. Census: 23 in 55 (1 in 55+★), 41 finer (6/16). NGC ID# 264N, PCGS# 8653

1870 Liberty Eagle, AU53  
Better Philadelphia Issue

**4524 1870 AU53 NGC.** The 1870 ten is scarce in all grades, coming from a mintage of 3,990 coins, and only a single, heavily abraded example has been designated Mint State. This About Uncirculated coin displays sharp detail and bright yellow-gold surfaces. Light chatter over each side is consistent with the grade. Census: 8 in 53, 21 finer (6/16). NGC ID# 264T, PCGS# 8657

**4525 1874 MS60 NGC.** An elusive Mint State example of the 1874 Liberty eagle, showing bright yellow-gold luster and reflective fields. The strike is sharp. Moderate abrasions in the fields account for the limited grade. Census: 25 in 60, 45 finer (5/16). NGC ID# 2657, PCGS# 8669

1880-CC Liberty Ten, AU53  
Just 11,190 Minted

**4526 1880-CC AU53 PCGS.** An important rarity from a low mintage of just 11,190 eagles, the 1880-CC is rarely seen in any grade. This pleasing AU specimen has satiny light reddish-tinged yellow luster with scattered surface marks. The fields on each side show slight reflectivity. Population: 15 in 53, 36 finer (5/16). Ex: December Signature (Heritage, 12/2011), lot 4663. NGC ID# 265T, PCGS# 8688

1880-CC Ten Dollar, AU55  
Low Survival Rate in Better Grades

**4527 1880-CC AU55 NGC. Variety 1-B.** The fletching points to the second C in the mintmark, and a die line crosses the upper serifs of (T)EN. The 1880-CC has a small mintage of 11,190 coins, and only 175 to 300 pieces are believed extant. The issue becomes very scarce in mid-AU grades and rare in near-Mint or finer. Strongly struck devices, partial luster, and rich khaki and copper-gold surfaces define this pleasing eagle. Shallow abrasions are undistracting. NGC ID# 265T, PCGS# 8688

**1880-O Liberty Eagle, AU53  
Popular Branch Mint Issue**

- 4528 1880-O AU53 PCGS. Variety 1.** From a mintage of 9,200 pieces, the 1880-O Liberty eagle would be considered a rare coin in most series, but it is actually one of the more available New Orleans Mint tens from this time period. The pleasing yellow and orange-gold surfaces show a number of minor abrasions, but each side retains traces of original mint luster. Only light wear is evident on the well-detailed design elements. Population: 23 in 53, 40 finer (5/16). NGC ID# 265U, PCGS# 8689

**1881-O Ten Dollar, Well-Struck AU55  
Desirable in All grades**

- 4529 1881-O AU55 NGC.** The only known variety. With a small production of 8,350 pieces, the 1881-O ten dollar is a desirable issue in all levels of preservation. Mint State coins are very rare, with fewer than 20 examples reported by the two services, none finer than MS63. Apricot-gold color adorns this Choice AU specimen that displays luster in the protected areas. Well-struck design elements and minimal marks round out the coin's pleasing eye appeal. Census: 39 in 55, 56 finer (5/16). NGC ID# 265Y, PCGS# 8693

- 4530 1882-O AU55 NGC. Variety 1.** A briefly circulated better date New Orleans eagle. Peach-gold luster accompanies design elements. Moderate marks are distributed. Just 10,820 pieces were issued, and few were set aside. NGC ID# 55GJ, PCGS# 8697

- 4531 1883 MS63 PCGS.** A conditionally elusive Select Mint State example of this otherwise plentiful Philadelphia issue. The strike is sharp, and the orange-gold surfaces yield radiant cartwheel luster. Finer examples are exceedingly rare. Population: 95 in 63 (2 in 63+), 3 finer (6/16). NGC ID# 2666, PCGS# 8699

- 4532 1883 MS62 Prooflike NGC.** A sharp, honey-gold 1883 ten with deeply reflective fields that offer subtle cameo contrast. A vertical abrasion in the left obverse field contributes to the grade. NGC has certified only 16 Prooflike examples, including five in this grade and one Select representative finer (6/16). NGC ID# 2666, PCGS# 8699

- 4533 1885-S MS63 PCGS.** The moderate production of 228,000 S-Mint eagles in 1885 was sufficient that lower level Mint State pieces are available to collectors. However, Select Mint State pieces such as this one are elusive, and finer coins are nearly extinct. PCGS has only certified five numerically finer examples (6/16). Both sides of this lovely piece exhibit trivial, grade-consistent marks. Orange highlights accent the frosty yellow luster. NGC ID# 554W, PCGS# 8707

- 4534 1888-O MS61 PCGS. Variety 2.** A collectible Mint State example of this New Orleans ten dollar issue, showing a bold strike and vibrant orange-gold luster. Surface chatter limits the grade but there are no individually bothersome abrasions. NGC ID# 266L, PCGS# 8713

- 4535 1892-CC Tripled Die Reverse, FS-801, AU55 NGC. Variety 1-A.** IN GOD WE TRUST and STATES OF are die tripled. The mintage of 40,000 pieces was completed using two obverse dies and one reverse die, thus all examples are FS-801. This briefly circulated honey-gold Carson City eagle is refreshingly unmarked save for a subtle abrasion above the 2 in the date. NGC ID# 266W, PCGS# 511600 Base PCGS# 8722

**1892-CC Eagle, Near-Mint  
Only 40,000 Coins Produced**

- 4536 1892-CC Tripled Die Reverse, FS-801, AU58 NGC. Variety 1-A.** Minor repunching is evident on 89 in the date. IN GOD WE TRUST is die tripled, as always. Carson City Mint officials accomplished a production of 40,000 eagles in 1892, one year before the facility would close its doors for good. This near-Mint ten dollar gold piece showcases still-lustrous surfaces with rich yellow-gold color and well-rendered motifs. Field chatter is expected and not overly distracting. NGC ID# 266W, PCGS# 511600 Base PCGS# 8722

- 4537 1892-O MS62 NGC. Variety 1.** A fully struck apricot-gold New Orleans ten. The obverse field is moderately marked, while the portrait and the reverse show only incidental contact. Just 28,688 pieces were struck, and NGC has certified only one example finer (5/16). NGC ID# 266X, PCGS# 8723

- 4538 1893-O MS61 NGC. Variety 1.** A sun-gold Liberty ten with booming luster and a bold strike. Despite a meager mintage of 17,000 pieces, the 1893-O is collectible in Mint State, although all examples seen display distributed marks. NGC ID# 2673, PCGS# 8727

- 4539 1894 MS64 PCGS.** Thickly frosted, original mint luster gives this Choice 1894 Liberty eagle outstanding appeal. The strike is sharp, and abrasions are minimal. Only a linear mark in the left reverse field is worthy of individual mention. PCGS has seen a single numerically finer representative (5/16). NGC ID# 2675, PCGS# 8729

- 4540 1894 MS64 PCGS.** A lovely and lustrous near-Gem of this high-mintage date, showing flashy and well-struck orange-gold surfaces. A few trivial contact marks are consistent with the grade and largely relegated to the reverse field. An interesting die crack runs around much of the reverse periphery. NGC ID# 2675, PCGS# 8729

- 4541 1894-O MS60 NGC. Variety 4.** A sharply struck caramel-gold eagle. Marks are relatively few, and luster dominates the borders and devices. The 1894-O has a fairly high mintage for a Motto New Orleans issue, yet is rarely encountered in grades above MS62. NGC ID# 2676, PCGS# 8730

- 4542 1898-S MS63 NGC.** A sharp, frosty Select Mint State example of this conditionally elusive San Francisco issue. A mark on the bust truncation and a couple of ticks near star 4 are the only mentionable abrasions. Finer coins are rarely seen. Census: 20 in 63, 3 finer (6/16). NGC ID# 267H, PCGS# 8741

- 4543 1899-O MS62 PCGS. Variety 2.** Like other later-date New Orleans Liberty ten dollar issues, the 1899-O has a fairly low mintage and becomes rare in Select Mint State. This crisply struck and lustrous caramel-gold representative is much less abraded than the typical '99-O despite a tick on the shield. NGC ID# 267K, PCGS# 8743

### 1901 Ten Dollar, MS65

Elusive Any Finer

- 4544** 1901 MS65 PCGS. 30th Anniversary Green Label Holder. A sharp, frosty Gem example of the debut 20th century Liberty eagle, showing green-gold luster and largely unabraded surfaces. Only a couple of small ticks on Liberty's chin and in the adjacent field preclude a finer grade. PCGS lists 39 finer submissions (5/16). NGC ID# 7LHF, PCGS# 8747

### 1901 Ten Dollar, MS66 Few Known in Higher Grades

- 4545** 1901 MS66 NGC. A superb 20th century type coin, showing sharp motifs and frosty yellow-gold luster. This Premium Gem is impressively well-preserved, save for a couple of tiny ticks near star 5 that limit the grade. The 1901 eagle is scarce in this grade and genuinely rare any finer. Census: 52 in 66 (1 in 66+, 1 in 66 ★), 7 finer (5/16). NGC ID# 7LHF, PCGS# 8747

- 4546** 1901-O MS62 PCGS. **Variety 1.** A lustrous caramel-gold New Orleans type coin. The strike is generally crisp, although a few stars are incomplete. The distributed small abrasions correspond with the grade. Variety 1 is best attributed by a cluster of die lines that pass through the R in LIBERTY. NGC ID# 267R, PCGS# 8748

- 4547** 1901-S MS64+ PCGS. 30th Anniversary Green Label Holder. A lemon-gold and lime-green near-Gem. Sharply struck and thoroughly lustrous. Only inconsequential marks are apparent. The 1901-S was saved in quantity, but high grade examples are always in demand as ideal examples of the type. NGC ID# 267S, PCGS# 8749

- 4548** 1904-O MS62 PCGS. **Variety 1.** Motto New Orleans eagles have low mintages and are conditionally challenging. This olive-gold example offers sweeping luster. Only star 13 lacks a bold strike. A mark on Liberty's jaw precludes a higher grade. NGC ID# 7LHK, PCGS# 8756

- 4549** 1907 MS64 NGC. CAC. Although readily accessible in this grade, the 1907 Liberty eagle is scarcely seen finer. The present CAC-endorsed near-Gem displays a sharp strike and frosty tangerine-gold luster. Only a few trivial ticks limit the grade. NGC ID# 2688, PCGS# 8763

## INDIAN EAGLES

- 4550** 1907 No Motto MS61 PCGS. Although trivial marks appear on both sides of this piece, the light yellow gold luster and excellent eye appeal assure the buyer that this piece will be enjoyed for years to come. NGC ID# 28GF, PCGS# 8852

- 4551** 1907 No Motto MS63 PCGS. From the first year of the short-lived No Motto design, this attractive Select ten dollar gold piece exhibits well-detailed design elements with just a touch of softness on the eagle's feathers. The lustrous orange-gold surfaces show the minimum number of minor marks for the grade. NGC ID# 28GF, PCGS# 8852

### 1907 Indian Eagle, MS64 Popular First-Year, No Motto Issue

- 4552** 1907 No Motto MS64 PCGS. From a mintage of 239,400 pieces struck during the first year of the series, the 1907 Indian eagle also represents the first year of the short-lived No Motto design. This attractive Choice specimen exhibits well-detailed design elements and lustrous orange-gold surfaces that show only minor signs of contact. Eye appeal is outstanding. NGC ID# 28GF, PCGS# 8852

- 4553** 1908 Motto MS63 NGC. An attractive Select specimen from the first year of the popular Motto design, this coin offers sharply detailed design elements and vibrant mint luster throughout. The pleasing orange-gold surfaces show a few scattered, minor contact marks. NGC ID# 28GJ, PCGS# 8859

- 4554** 1908 Motto MS63 NGC. The motto IN GOD WE TRUST was added to the reverse in 1908, an important consideration for type purposes. This sharply detailed Select example displays lightly marked orange-gold surfaces with vibrant mint luster throughout. NGC ID# 28GJ, PCGS# 8859

- 4555** 1908 Motto MS63+ PCGS. Lustrous yellow-gold surfaces illuminate sharp design elements on this debut With Motto Philadelphia issue. Light chatter in the fields limits the grade, but the absence of any serious abrasions warrants the PCGS Plus designation. NGC ID# 28GJ, PCGS# 8859

### 1908 Motto Ten, Sharp MS64 Higher-End for the Grade

- 4556** 1908 Motto MS64 NGC. Mint-fresh, satiny luster gives this Choice With Motto 1908 Indian eagle excellent eye appeal, accentuating the well-struck design elements. Unlike most MS64-graded coins, this piece does not show much in the way of slide marks on Liberty's cheek. Instead, only trivial grazes in the left obverse field appear to limit the grade. Finer coins are usually difficult to locate. NGC ID# 28GJ, PCGS# 8859

- 4557** 1908-D Motto MS61 PCGS. Khaki-gold colors this D-mint ten dollar gold piece. IN GOD WE TRUST on the reverse indicates this Uncirculated eagle was struck after July 1, 1908. Satiny luster enlivens lightly marked surfaces. Design definition is good, save for the two lowest headdress feathers and the eagle's shoulder. NGC ID# 28GK, PCGS# 8860

- 4558 1909 MS63 PCGS.** Only some light chatter in the fields limits the grade on this Select 1909 Indian ten, showing vibrant yellow-gold luster and well-defined motifs. Finer examples of this date are elusive. NGC ID# 28GM, PCGS# 8862
- 4559 1909 MS63 PCGS.** Sharply detailed with original, satiny luster and light, scattered abrasions. This Select 1909 Indian eagle displays pleasing eye appeal for the grade with luminous yellow-gold surfaces. Finer representatives will prove elusive and pricey. NGC ID# 28GM, PCGS# 8862
- 4560 1909 MS63 NGC.** The 1909 Indian eagle becomes very scarce in grades above MS63. This sharply detailed Select example displays lustrous orange-gold surfaces with a scattering of minor contact marks on both sides. NGC ID# 28GM, PCGS# 8862
- 4561 1909 MS63 PCGS.** The 1909 Indian eagle is occasionally available in MS63, but finer coins are much more elusive. This collectible Select example displays a bold strike and satiny green-gold luster. Light chatter over much of each side defines the grade. NGC ID# 28GM, PCGS# 8862
- 4562 1909-D MS61 PCGS Secure.** An attractive Mint State specimen of this early series issue, with well-detailed design elements and lustrous orange-gold surfaces that show a scattering of minor contact marks on both sides. The patina is original. NGC ID# 28GN, PCGS# 8863
- 4563 1909-D MS62 PCGS.** While the 1909-D half eagle had far the highest mintage of the Indian half eagle series, the 1909-D eagle garnered the eighth lowest mintage of its series. Examples are elusive with an average certified grade of just MS60. This pleasing example has frosty light yellow luster with grade-consistent marks and deep greenish patina. NGC ID# 28GN, PCGS# 8863
- 4564 1909-S AU58 PCGS. CAC.** Uncirculated 1909-S Indian eagles are elusive. This CAC-endorsed near-Mint coin will appeal to a plethora of collectors. The strike is bold, and the smooth surfaces display satiny yellow-gold luster with faint rose accents around the devices. A touch of high-point friction precludes a Mint State designation. NGC ID# 28GP, PCGS# 8864
- 4565 1909-S MS61 NGC.** This pleasing Mint State example displays orange-gold surfaces with slightly subdued mint luster and a minimum number of minor contact marks for the grade. The design elements are well-detailed. NGC ID# 28GP, PCGS# 8864
- 4566 1909-S MS61 NGC.** An impressive Mint State example of this popular early series issue, with well-detailed design elements and lustrous orange-gold surfaces that are lightly marked for the assigned grade. NGC ID# 28GP, PCGS# 8864
- 4567 1910 MS64 NGC.** The 1910 Indian eagle is not difficult to locate in MS64, but finer examples are elusive. This sharply detailed Choice example offers lustrous orange-gold surfaces with a few minor contact marks, mostly on the reverse. NGC ID# 28GR, PCGS# 8865
- 4568 1910 MS64 PCGS.** This Choice Mint State 1910 Indian eagle displays satiny yellow-gold luster with scattered light ticks that define the grade. Eye appeal is pleasing for the issue. Finer coins are occasionally seen but will be out of reach for many budget-restricted collectors. NGC ID# 28GR, PCGS# 8865
- 4569 1910-D MS64 NGC.** The 1910-D Indian eagle is a popular choice with branch mint type collectors. This attractive Choice example displays sharply detailed design elements and lustrous, lightly marked orange-gold surfaces. NGC ID# 28GS, PCGS# 8866
- 4570 1910-S MS61 NGC.** The 1910-S Indian eagle is more difficult to locate in high grade than its substantial mintage would indicate. This well-detailed MS61 example offers lustrous orange-gold surfaces with the expected number of minor contact marks for the grade. NGC ID# 268D, PCGS# 8867
- 4571 1910-S MS61 PCGS.** The 1910-S is a slightly better date in Uncirculated condition. This collectible MS61 coin displays well-struck design elements and original honey-gold luster. A light scattering of minor abrasions defines the grade, but few marks are individually noticeable. NGC ID# 268D, PCGS# 8867
- 4572 1910-S MS62 PCGS.** This well-struck 1910-S Indian eagle is lightly abraded, although finer coins are scarcely seen. This piece displays original honey-gold luster and has pleasing appeal for the grade. NGC ID# 268D, PCGS# 8867
- 4573 1910-S MS62 PCGS. Breen-7114.** The mintmark is repunched, apparent near its northwest curve. Breen considered the variety extremely rare, but additional examples have emerged in recent decades. The coruscating yellow-gold surfaces are well struck and display the expected number of minor to moderate abrasions. NGC ID# 268D, PCGS# 8867
- 4574 1911 MS64 PCGS.** This attractive Choice example exhibits sharply detailed design elements and pleasing orange-gold surfaces, with vibrant mint luster and only minor signs of contact. The 1911 Indian eagle becomes scarce in grades above MS64. NGC ID# 28GT, PCGS# 8868
- 4575 1911 MS64 NGC.** This well-produced issue of 506,000 coins is common in grades up to and including MS64, but it becomes scarce any finer. The satiny surfaces of this wheat-gold example are lustrous and carefully preserved. Trivial surface marks are limited almost entirely to the fields. NGC ID# 28GT, PCGS# 8868

### 1911-D Indian Eagle, AU55 Better Branch Mint Issue

- 4576 1911-D AU55 NGC.** The 1911-D is a better date, boasting a mintage of only 30,100 pieces. Uncirculated examples are out of reach for many collectors, giving this Choice AU coin a distinct brand of appeal. The design elements are well-struck, and the satiny yellow-gold surfaces display relatively little chatter. Minor high-point wear is not immediately obvious. NGC ID# 28GU, PCGS# 8869
- 4577 1912-S MS61 PCGS.** This impressive Mint State example displays vivid orange-gold surfaces, with a scattering of minor contact marks on both sides and much original mint luster. The design elements are well-detailed and the overall presentation is quite pleasant. NGC ID# 269G, PCGS# 8872
- 4578 1912-S MS61 PCGS.** In Mint State grades, the 1912-S is a slightly better date in the Indian eagle series. This well-detailed MS61 example offers lustrous orange-gold surfaces with the expected number of minor contact marks for the grade. NGC ID# 269G, PCGS# 8872
- 4579 1912-S MS61 NGC.** The brightly lustrous surfaces of this attractive Mint State example show a number of minor contact marks on both sides, but none are individually distracting. The design elements are well-detailed and eye appeal is quite strong for the grade. NGC ID# 269G, PCGS# 8872
- 4580 1912-S MS62 PCGS.** The 1912-S is a better date in Uncirculated condition, particularly elusive above MS62. This collector-grade representative displays well-defined motifs amid luminous wheat-gold luster. Grade-limiting surface chatter is not overly distracting, and there are few singular abrasions. From a mintage of 300,000 pieces. NGC ID# 269G, PCGS# 8872
- 4581 1913 MS64 PCGS.** A handsome green-gold near-Gem. The strike is crisp despite slight blending on the curl below the B in LIBERTY. The lightly marked surfaces team with luster. Housed in a green label holder. NGC ID# 28GY, PCGS# 8873

- 4582 1914-D MS63+ PCGS.** The 1914-D is the only Denver Mint Indian eagle coined from 1912 to the end of the series in 1933. A few insignificant marks on each side prevent a higher grade to this lovely example. The pleasing surfaces display frosty yellow-gold mint luster, and the strike is above average. NGC ID# 28H3, PCGS# 8876

**1914-S Ten Dollar, MS62  
Better Date in High Grade**

- 4583 1914-S MS62 PCGS.** The 1914-S is a better date in Uncirculated condition. This collectible lower-end Mint State coin displays well-struck motifs and vibrant yellow-gold luster. Scattered abrasions contribute to the grade. Finer representatives may be out of reach for most Indian eagle collectors. NGC ID# 28H4, PCGS# 8877

- 4584 1915 MS63 NGC.** An attractive Select specimen of this popular issue, with sharply detailed design elements and vibrant mint luster throughout. The pleasing orange-gold surfaces show some scattered, minor contact marks on both sides. NGC ID# 28H5, PCGS# 8878

- 4585 1916-S AU58 PCGS. CAC.** The 1916-S Indian eagle is a better date in the series, from a mintage of 138,500 pieces. This attractive Near-Mint specimen shows just a trace of wear on the well-detailed devices and the lightly abraded orange-gold surfaces retain much of their original mint luster. NGC ID# 28H7, PCGS# 8880

- 4586 1932 MS64+ NGC. CAC.** So close to Gem quality, this lovely Plus-designated Choice Mint State Indian eagle has frosty yellow-gold luster with the lightest possible pink accents. The strike is bold, and the eye appeal is outstanding.  
Ex: ANA Signature (Heritage, 3/2011), lot 4891. NGC ID# 28HB, PCGS# 8884

**1932 Eagle, MS65  
Delightful Toning Accents**

- 4587 1932 MS65 NGC.** At least moderate eye appeal is incumbent for any coin to achieve a Gem grade, and this example far exceeds the requirement. Satiny surfaces show iridescence amid bright mint luster, with colorful hues of lilac, red, orange, and olive-gold floating over the vibrant surfaces. Few marks are seen anywhere on the coin, and those that exist require a glass to be found. Slight blending of the feathers on the eagle's trailing leg is minor, while the obverse strike is sharp. NGC ID# 28HB, PCGS# 8884

**1932 Ten Dollar, MS65+  
Radiant Luster and Eye Appeal**

- 4588 1932 MS65+ PCGS.** A Plus-graded Gem example of the 1932 Indian eagle, showing all the vibrant luster and eye appeal for which this issue is widely pursued in high grade. The strike is sharp, and the frosty surfaces just glisten with yellow- and honey-gold luster. A few tiny marks on Liberty's profile and another on the eagle's breast are not obvious to the naked eye. NGC ID# 28HB, PCGS# 8884

**LIBERTY DOUBLE EAGLES**

- 4589 1850 — Improperly Cleaned — NGC Details. AU.** Although obviously cleaned with cleaning lines visible to the naked eye, and with a rim bruise at 10 o'clock, this first-year Liberty double eagle retains bold details and good overall eye appeal. Hints of luster remain in the protected areas. NGC ID# 268F, PCGS# 8902

**1850-O Double Eagle, XF Sharpness  
In-Demand First-Year Branch Mint Issue**

- 4590 1850-O — Improperly Cleaned — NGC Details. XF. Variety 2.** This scarce variety shows die chips above the ear and on the upper neck, and the mintmark is clear of the tailfeathers. The 1850-O was the first branch mint double eagle issue. It has proven to be rare in Choice XF and finer, but even lower-grade examples are popular as first-year types. This Louisiana No Motto twenty shows XF sharpness, though its surfaces have been brightened by an old cleaning. Myriad marks are peppered over each side.

**1853 Twenty, Lustrous AU58**

- 4591 1853 AU58 NGC.** This Type One, Gold Rush-era double eagle boasts substantial mint luster in the fields with sharp design elements and bright yellow-gold color. Scattered light marks are consistent with the near-Mint grade and pose little visual distraction. Uncirculated examples of the 1853 twenty are scarce and often come heavily abraded. This piece is a nice compromise for the budget-restricted collector. NGC ID# 268M, PCGS# 8908

- 4592 1854 Small Date — Scratched — ANACS. Unc Details, Net AU55. Breen-7167.** The date was initially entered with an upward slant, then corrected. The repunched date variety is presently unlisted in *Cherry-pickers'*. This generally lustrous canary-gold double eagle displays scuffs on the lower left obverse quadrant, and on the reverse near the U in UNITED. NGC ID# 268R, PCGS# 8911

**1854 Twenty Dollar, AU Details  
Elusive Large Date Variant**

- 4593 1854 Large Date — Improperly Cleaned — NGC Details. AU.** Only about 10% of the original mintage (757,899 double eagles) is estimated to have included Large Date coins. All coins struck with the Large Date punch exhibit a die dot on Liberty's neck above the 8 and diagonal die lines within the space between the lowest curls. This is a bright yellow-gold twenty dollar gold piece with the typical number of abrasions scattered over the surfaces. Strike detail is strong on this Type One double eagle, characteristic of the issue.

**1855-S Twenty Dollar, Partially Lustrous AU53**

- 4594 1855-S AU53 NGC.** In 1855, the recently opened San Francisco Mint was the chief coiner of California gold, producing nearly 900,000 double eagles. This AU representative displays bold design elements and bright yellow-gold surfaces with hints of luster remaining in the fields. Scattered abrasions accompany the grade. NGC ID# 268X, PCGS# 8916

- 4595 1856 — Improperly Cleaned — NGC Details. AU.** To the unaided eye, this AU-level 1856 double eagle is fairly attractive, and only with a loupe are faint hairlines detected in the fields. The strike is sharp, and light chatter appears on Liberty's cheek as usual. A rim nick at 12 o'clock on the obverse is also seen. NGC ID# 268Y, PCGS# 8917

**1856-S Twenty Dollar, AU55  
Partially Lustrous Type One**

- 4596 1856-S AU55 NGC.** This Choice AU Type One double eagle has its share of tiny marks, but none are individually important. Mint luster is seen across much of the reverse, and also outlines each obverse star. This piece might well pre-date the S.S. *Central America* coins since those recovered pieces were Mint State. Ex: *Central States Signature* (Heritage, 4-5/2009), lot 3937. NGC ID# 2692, PCGS# 8919

- 4597 1857 XF45 NGC.** A pumpkin-gold example with original surfaces and lustrous borders. Marks are minor given 15 points of wear, though we note a slight rim ding below the 8 in the date. Relatively few 1857 twenties were recovered from shipwrecks, and most survivors are in XF and AU grades. NGC ID# 2693, PCGS# 8920

- 4598 1857-S AU50 NGC. Variety 20E, the No Serif, Right S reverse die, as documented by Robert Evans in a July 2000 *Numismatist* article.** This means the present coin could have originated in the SS*CA* shipwreck, although not indicated as such on the NGC insert. Luster glows in all the appropriate areas. The cheek is somewhat abraded and there is a reed mark in front of the nose. Ex: *Central States Signature* (Heritage, 4-5/2009), lot 3940. NGC ID# 2696, PCGS# 8922

**1857-S Double Eagle, AU55  
Sharp and Partially Lustrous**

- 4599 1857-S AU55 NGC.** The 1857-S double eagle is an available Type One issue thanks to the discovery of the S.S. *Central America* shipwreck, which yielded a cache of thousands of coins. Yet, the issue's popularity has only increased as a result. This Choice AU representative is not pedigreed to the shipwreck find, but the surfaces are still fairly smooth and retain partial luster. The strike is sharp, and little high-point wear is seen. NGC ID# 2696, PCGS# 8922

- 4600 1858-S AU53 NGC.** A bright About Uncirculated 1858-S double eagle with bold design elements and light chatter over the surfaces. Tinges of luster survive in the protected portions of the peripheral fields, adding to the appeal. NGC ID# 2699, PCGS# 8925

**1860 Liberty Head Twenty, AU58**  
**A More-Available Type One Issue**

- 4601 1860 AU58 PCGS.** The 1860 Liberty Head double eagle is an available date in lower circulated grades, and the supply of high-grade pieces was augmented by the discovery of the S.S. *Republic* treasure. The issue does become scarce at the near-Mint level. The present coin is a pleasing rose-gold example, with well-struck devices and good mint luster. Abrasions are consistent with the grade. Population: 77 in 58 (1 in 58+), 69 finer (5/16).  
*Ex: Long Beach Signature (Heritage, 9/2010), lot 5562. NGC ID# 269D, PCGS# 8929*

- 4602 1860-S AU50 NGC.** Wisps of original luster remain in the fields of this About Uncirculated 1860-S double eagle, illuminating bold design elements that have little wear. Scattered surface chatter is consistent with the grade and issue. The 1860-S is elusive in Mint State, making this more affordable AU coin appealing. NGC ID# 269F, PCGS# 8931

- 4603 1862-S XF40 NGC.** Hints of luster in the fields add considerably to the eye appeal of this lightly circulated 1862-S double eagle. The design elements exhibit bold detail, and each side has pleasing wheat-gold color. A few scattered marks are as expected for the grade. NGC ID# 269N, PCGS# 8938

- 4604 1863-S XF40 NGC.** Large S. The typical survivor grades XF or AU, although a large number of Mint State pieces have been certified from treasure discoveries over the last two decades. This example exhibits scattered, grade-consistent marks on its light yellow surfaces. NGC ID# 269R, PCGS# 8940

- 4605 1865-S XF45 NGC.** Some luster remains in the fields despite light high-point wear. This Choice XF 1865-S double eagle has pleasing olive-gold patina with brighter yellow hues in the protected regions. Light chatter appears over each side, as is expected for the grade. NGC ID# 269V, PCGS# 8944

**1865-S Double Eagle, AU58**  
**Lustrous Fields**

- 4606 1865-S AU58 ANACS.** Shimmering yellow-gold mint luster appears in the protected regions of the fields on this near-Mint 1865-S double eagle, illuminating boldly rendered design elements that show little discernible wear. Light chatter accompanies the grade, as expected. The 1865-S is occasionally seen finer, but such coins are usually beyond the financial reach of potential collectors. NGC ID# 269V, PCGS# 8944

**1866-S Twenty Dollar, AU50**  
**Debut With Motto Issue**

- 4607 1866-S Motto AU50 PCGS.** This is a boldly rendered example with light high-point friction that defines the grade. Remnants of yellow-gold luster are seen in the protected regions of the fields, while the remainder of each side displays grade-consistent chatter. This debut With Motto issue is elusive in Mint State, heightening the appeal of the present AU coin. NGC ID# 26B2, PCGS# 8950

**1867-S Twenty Dollar, AU55**  
**Pleasing Type Two Coin**

- 4608 1867-S AU55 NGC.** A few 1867-S double eagles were discovered in the Saddle Ridge Hoard, but the scarcity of high-end coins was not noticeably affected. This Choice AU representative displays pleasing detail with some luster in the fields. The olive-gold patina exhibits a few scattered marks, but nothing significant. NGC ID# 26A2, PCGS# 8952

**1870 Liberty Double Eagle, AU53**  
**Reflective Fields**

- 4609 1870 AU53 NGC.** Due to the scarcity of Mint State examples, the 1870 double eagle is a sought-after coin in AU grades. This representative displays rich orange-gold surfaces with relatively little wear and surface chatter. Some prooflike reflectivity adheres to the fields, delivering excellent eye appeal. NGC ID# 26A7, PCGS# 8957

- 4610 1872-S AU58 PCGS.** Small squat S, one of three different mintmark sizes known on '72-S twenties. This orange-gold example has ample luster and a moderately marked appearance. Type Two double eagles are scarce at the near-Mint level. NGC ID# 26AF, PCGS# 8965

- 4611 1872-S AU58 NGC.** Micro S. A yellow-gold Borderline Uncirculated example of the intermediate Type Two design, which is more elusive in Mint State than either its predecessor or successor subtypes. A smattering of moderate marks includes a small obverse rim nick at 11 o'clock. NGC ID# 26AF, PCGS# 8965

**4612 1873 Open 3 MS62 PCGS.** A pleasing MS62 example of this popular type-coin issue with well-detailed design elements and lightly marked yellow and rose-gold surfaces. The Open 3 variety is somewhat more available than its Closed 3 counterpart, which was only struck early in the year. NGC ID# 26AL, PCGS# 8967

**4613 1873-S Closed 3 AU58 NGC. CAC.** Small S. The Closed 3 variety is more available than the Open 3 variant, but examples in this condition with original surfaces are decidedly scarce. Mint luster glistens over the rose-gold surfaces of the borderline-Uncirculated Type Two twenty. The reverse is better-defined than the obverse. Field chatter occurs on each side. NGC ID# 26AL, PCGS# 8969

**4614 1874-CC VF20 PCGS. Variety 5-A.** A butter-gold entry-level Carson City type coin. Liberty's hair displays wear commensurate with the grade. A minor scuff above the date is sole reportable abrasion. The usual Wide CC reverse, although a rare Close CC variety is known. NGC ID# 26AP, PCGS# 8971

**4615 1875 MS61 NGC.** A splendid representative of the Type Two Liberty double eagle design, this lustrous Mint State piece has trivial grade-consistent marks. This frequently encountered date is ideal for a gold type collection. NGC ID# 2547, PCGS# 8973

**4616 1875 MS61 NGC.** A vibrantly lustrous, frosty Mint State example of this conditionally elusive Type Two Liberty double eagle. This piece is boldly struck and displays uncommonly strong eye appeal for the grade. Light chatter on each side is all that limits the NGC designation. NGC ID# 2547, PCGS# 8973

#### 1875-CC Double Eagle, Unc Details Attractive Carson City Type

**4617 1875-CC — Improperly Cleaned — NGC Details. Unc. Variety 1-B.** Curved die lines on Liberty's neck and the mintmark placement confirm the variety. This is an accessible and well-made Carson City issue that is frequently the target of type collectors. Lustrous yellow and rose-gold surfaces show thin, parallel marks most notably across the upper obverse, accounting for the Details grade. An attractive and razor-sharp example despite the noted impairment.

#### 1877 Liberty Twenty, MS62 Seldom Seen Finer

**4618 1877 MS62 PCGS.** Although an available Type Three date in the absolute sense, the 1877 double eagle becomes a condition rarity of the MS62 level. This collectible Mint State coin displays a sharp strike and vibrant yellow-gold luster. Light, scattered abrasions define the grade but pose little distraction for the MS62 level. NGC ID# 2547, PCGS# 8982

**4619 1877-S MS61 PCGS.** An attractive Mint State example of this popular branch mint issue, with well-detailed design elements and vibrant mint luster on both sides. The vivid orange-gold surfaces show the expected number of minor contact marks for the grade. NGC ID# 254B, PCGS# 8984

**4620 1878-S MS61 NGC.** Small S Mintmark. This pleasing Type Three double eagle has frosty yellow-gold surfaces and brilliant luster. Both sides exhibit inconsequential marks with a few noticeable marks in the upper left obverse field. NGC ID# 338K, PCGS# 8987

**4621 1882-S MS61 PCGS.** Tall S. This California issue is available through MS62, but virtually uncollectible in Select condition or finer. Frosty surfaces show light green and rose-gold color. Each side is sharply struck with a somewhat baggy appearance, typical for the grade. NGC ID# 26BG, PCGS# 8998

#### 1882-S Double Eagle, MS62 Uncollectible in Better Grades

**4622 1882-S MS62 PCGS.** The stars are well brought-up and Liberty's hair strands are clearly distinguished. The reverse exhibits similarly strong detail, and each side features a mix of frosty luster and light rose-gold coloration. Interestingly, the Saddle Ridge Hoard contained 70 examples of this West Coast issue, including the finest known example in MS64+. PCGS has seen 46 finer representatives (5/16). NGC ID# 26BG, PCGS# 8998

#### 1882-S Twenty Dollar, Frosty MS62

**4623 1882-S MS62 PCGS.** Sun-gold color at the rims yields to lighter shades of rose-gold centrally with frosty luster throughout, giving this MS62 S-mint double eagle wonderfully eye appeal. The strike is strong, aside from minor softness on stars 12 and 13. The 1882-S is a moderately challenging date that is scarcely seen so fine and rarely found finer. PCGS shows 46 examples in better condition (5/16). NGC ID# 26BG, PCGS# 8998

**4624 1883-CC — Improperly Cleaned — NGC Details. AU. Variety 2-A.** A well-detailed, wheat-gold example of this popular Carson City double eagle, showing few noticeable marks. Hairlines on each side from an old cleaning slightly subdue the luster. NGC ID# 26BH, PCGS# 8999

**4625 1883-S MS62 NGC.** Small Squat S. Surface chatter on the obverse limits the grade of this Mint State example. All of the design elements are well-struck, except for the mushy mintmark. Orange and rose-gold color each side.  
Ex: *Central States Signature (Heritage, 5/2007)*, lot 4057. NGC ID# 26BJ, PCGS# 9000

**4626 1884-S MS62 PCGS.** Original orange-gold luster cartwheels around shimmering surfaces on this Mint State 1884-S double eagle. The strike is sharp throughout. Scattered abrasions limit the grade. NGC ID# 26BL, PCGS# 9002

**4627 1884-S MS62 PCGS.** The San Francisco Mint coined 916,000 double eagles in 1884, a significant mintage. However, survivors are scarce, as are those of all issues of the decade. This lovely Mint State piece has frosty orange-gold luster and brilliant surfaces with good eye appeal. NGC ID# 26BL, PCGS# 9002

**1887-S Twenty Dollar, MS61  
Radiant Mint Luster**

**4628 1887-S MS61 PCGS.** Only proof double eagles were struck in Philadelphia in 1887, making the 1887-S the only choice for budget-conscious date collectors. This Mint State example displays a sharp strike and vibrant yellow-gold luster. Scattered abrasions limit the grade, including a reed mark on Liberty's cheek. NGC ID# 26BS, PCGS# 9007

**1889-CC Liberty Double Eagle, XF40  
Popular Branch Mint Type Issue**

**4629 1889-CC XF40 NGC. Variety 1-A.** From a mintage of 30,945 pieces, the 1889-CC Liberty double eagle is one of the more available issues in the Carson City series and a favorite choice of branch mint type collectors. This attractive XF specimen shows some light wear on the coronet, but the letters in LIBERTY are still legible. The orange-gold surfaces are lightly abraded for a large gold coin and show a few specks of amber on the reverse. NGC ID# 26BV, PCGS# 9011

**4630 1889-S MS62 PCGS.** Glowing orange-gold surfaces show faint accents of rose. Mint luster is frosty in texture and swirls over well-detailed design elements on each side. Small marks are peppered throughout but do little to affect the appeal of this collectible S-mint twenty. NGC ID# 26BW, PCGS# 9012

**1890-CC Twenty Dollar, XF40  
Accessible Carson City Double Eagle**

**4631 1890-CC XF40 PCGS. Variety 1-A.** An earlier die state example, before the eagle's tailfeathers become partially effaced by die lapping. This lightly circulated 1890-CC double eagle is well-detailed with hints of luster remaining in the protected regions of the fields. Brassy-gold coloration characterizes each side. NGC ID# 26BY, PCGS# 9014

**4632 1890-S MS62 PCGS. CAC.** A frosted, greenish-gold example of this desirable San Francisco date. Early collectors found the issue challenging in Uncirculated grades, and it remains so in MS63 or finer condition, making attractive MS62 coins like this a wise selection. Strongly struck with sharp mint luster and minimal marks for the grade. NGC ID# 26BZ, PCGS# 9015

**1890-S Twenty Dollar, MS63  
Difficult to Upgrade**

**4633 1890-S MS63 PCGS.** Green and rose hues intermingle over the surfaces of this lustrous yellow-gold double eagle. Liberty's hair strands show crisp delineation, the stars display complete centers, and the eagle's neck, wing, and tailfeathers are strong. Two notable marks occur between stars 11 and 12 and above TY in TWENTY. Finer examples of the 1890-S double eagle are rare. NGC ID# 26BZ, PCGS# 9015

**1892-S Double Eagle, MS63  
Ideal Collectible Grade**

**4634 1892-S MS63 PCGS.** The Saddle Ridge Hoard comprised 178 1892-S double eagles, including three MS65+ coins that rank as the finest known. While they dramatically changed the population of top-graded survivors, select examples remain relatively accessible. It is an ideal collectible grade for specialists on a budget. Captivating mint frost enlivens yellow-gold surfaces that show areas of green and reddish color. Stars 8 and 9 are a trifle soft, but detail is crisp elsewhere. NGC ID# 26C7, PCGS# 9021

**1892-S Twenty Dollar, MS63  
Fully Struck**

**4635 1892-S MS63 NGC.** This is a fully struck S-mint double eagle without any of the strike softness on the radial lines or wing feathers that sometimes plagues coins from this issue. The thickly frosted surfaces exhibit wonderful orange-gold coloration with areas of green-gold that contribute to the excellent visual appeal. Luster disturbances and abrasions in the obverse fields are minor in nature and undistracting. NGC ID# 26C7, PCGS# 9021

**1893-S Liberty Head Twenty, MS63  
Low Population in Finer Grades**

**4636 1893-S MS63 NGC.** Rose-gold surfaces radiate vibrant frost that combines with a strong strike to make this San Francisco twenty dollar gold piece highly appealing. Small reeding marks on Liberty's cheek pose minimal distraction. Small die lines appear near the lower reverse border. The 1893-S has a mintage that approaches 1 million coins, but better-preserved examples are rarely offered. NGC has only seen 22 finer submissions (5/16).  
*Ex: Long Beach Signature (Heritage, 10/2001), lot 8661. NGC ID# 26CA, PCGS# 9024*

**4637 1894-S MS63 PCGS.** Rich orange-gold color captures the attention of the viewer. Swirling, frosty luster furthers the appeal. The central areas on each side and the upper stars are strongly defined, while the lower stars are a touch incomplete. A couple of thin pinscratches occur on the obverse. NGC ID# 26CC, PCGS# 9026

**4638 1895 MS64 NGC.** The 1895 Liberty double eagle is conditionally rare in grades above the MS64 level. This sharply detailed Choice specimen displays lustrous orange-gold surfaces with few signs of contact. NGC has graded 11 numerically finer examples (5/16). NGC ID# 26CD, PCGS# 9027

**4639 1895-S MS63 NGC.** Attractive and lustrous with a full strike and brilliant, sun-gold color and olive-gold highlights. Abrasions are light but numerous on the portrait and over the obverse fields. The reverse appears about a full point finer. Elusive in higher grades. NGC ID# 26CE, PCGS# 9028

**4640 1895-S MS63 NGC.** This attractive Select example displays sharply detailed design elements and lightly marked peach-gold surfaces with vibrant mint luster throughout. Eye appeal is outstanding. NGC ID# 26CE, PCGS# 9028

**4641 1897-S MS63 PCGS.** This Select Mint State 1897-S twenty exhibits frosty orange-gold luster and exceptional surfaces exhibiting trivial marks as expected for the grade. An attractive, sharply struck example for the Liberty double eagle enthusiast. NGC ID# 26CJ, PCGS# 9032

**1899 Liberty Twenty Dollar, MS64  
Vibrant Cartwheel Luster**

**4642 1899 MS64 PCGS. CAC.** This well-produced near-Gem double eagle offers pinpoint design detail on each side. Vibrant luster cartwheels over lovely rose and peach-gold surfaces, explaining the eye appeal and corresponding CAC approval sticker. Scattered abrasions do not detract. The 1899 is collectible through MS64 but proves challenging in higher grades. Only 27 submissions are finer at PCGS (5/16). NGC ID# 26CM, PCGS# 9035

**1899 Liberty Twenty, MS64+  
Scarce This Well-Preserved**

**4643 1899 MS64+ PCGS. CAC.** 30th Anniversary Green Label Holder. The 1899 double eagles are readily available and a favorite for type, with coins at the high end of their grade always in demand. This is a Plus-graded, near-Gem representative that also carries the CAC endorsement for quality. Deeply frosty olive-gold color and reddish-gold accents cover surfaces that show only minor field ticks with terrific eye appeal. PCGS has seen just 27 examples in a numerically finer grade. Population: 31 in 64+, 27 finer. CAC: 105 in 64, 5 finer (5/16). NGC ID# 26CM, PCGS# 9035

**4644 1900 MS64 PCGS.** This Choice 1900 twenty is razor-sharp and shows almost flawless fields. Only a few tiny marks on Liberty's cheek prevent Gem classification. This piece is frosty and radiant with original yellow-gold luster that cedes to peach and honey hues in the centers. NGC ID# 26CP, PCGS# 9037

**4645 1900 MS64 PCGS.** Vibrant, frosty luster shows original rose and greenish-gold hues as it cartwheels around each side of this Choice 1900 double eagle. As the final 19th century issue in the series, this date draws strong demand in high grade. NGC ID# 26CP, PCGS# 9037

**4646 1900 MS64+ NGC.** A lustrous green-gold near-Gem Liberty type coin that has a precise strike and a well preserved reverse. The obverse displays only wispy grazes. A conditionally scarce issue any finer. NGC ID# 26CP, PCGS# 9037

**4647 1900 MS64 PCGS. CAC.** A sharp Choice example with frosty yellow-gold and radiant originality. A few tiny ticks on the cheek of Liberty limit the grade but hardly affect eye appeal. Finer PCGS coins are elusive, particularly with CAC green labels. NGC ID# 26CP, PCGS# 9037

**4648 1902 AU55 NGC.** Just a touch of wear shows on the high points of the well-detailed design elements, and the lightly abraded orange-gold surfaces retain much of their original mint luster. This attractive Liberty double eagle would make an excellent type coin. NGC ID# 26CU, PCGS# 9041

**4649 1904 MS64 NGC.** Prooflike fields and sharp design elements deliver outstanding eye appeal on this Choice 1904 double eagle type coin. A few faint slide marks on Liberty's cheek appear to be all that limit the grade, as there are no singular abrasions. NGC ID# 26CY, PCGS# 9045

**4650 1904 MS64+ PCGS.** The type coin appeal of this high-end near-Gem is immense, much like the radiance of its yellow-gold luster and the outstanding preservation of the fields. The 1904 is a popular issue among type collectors and gold investors alike. NGC ID# 26CY, PCGS# 9045

**4651 1904 MS64+ PCGS.** Were it not for a few minor grazes in the left obverse field, this high-end Choice 1904 double eagle might have garnered a full Gem grade. The strike is sharp, and the frosty surfaces yield vibrant yellow-gold luster. NGC ID# 26CY, PCGS# 9045

**4652 1904 MS64+ PCGS.** A single small mark on Liberty's cheek keeps this high-end Choice 1904 double eagle out of a Gem-designated holder. The strike is sharp, and the satiny yellow-gold surfaces offer excellent eye appeal. NGC ID# 26CY, PCGS# 9045

**4653 1904 MS64+ PCGS.** 30th Anniversary Green Label Holder. Sharp and radiantly lustrous with frosty yellow-gold patina. This available type coin has a few small marks on Liberty's chin that preclude a full Gem designation from PCGS. NGC ID# 26CY, PCGS# 9045

**4654 1904 MS64+ PCGS.** Cartwheeling yellow-gold luster illuminates the frosty surfaces of this high-end near-Gem 1904 double eagle. The strike is sharp, and the type coin appeal is high. NGC ID# 26CY, PCGS# 9045

**4655 1905 MS61 NGC.** The 1905 double eagle appeals to collectors with its low mintage of 58,919 pieces, the second-lowest production total of the 20th century portion of the series and one of only three dates after the close of the Carson City Mint in 1893 with a mintage of less than six figures. This Uncirculated coin has shimmering yellow-gold luster and a sharp strike. Light chatter on the obverse limits the grade. NGC ID# 26D2, PCGS# 9047

**4656 1905 MS61 NGC.** A low-mintage 20th century issue with a production of only 58,919 pieces. This Mint State representative displays vibrant yellow-gold luster and a sharp strike. Scattered surface chatter determines the grade, although the eye appeal is pleasing for the issue. NGC ID# 26D2, PCGS# 9047

#### 1905-S Double Eagle, MS63 Minimally Marked

**4657 1905-S MS63 PCGS.** The Philadelphia Mint coined a small quantity of 58,919 double eagles in 1905, and so the 1905-S looks plentiful by comparison. However, anything finer than MS63 is scarcely seen, and even Select coins are in high demand. Orange-gold color and frosty luster mingle over relatively clean surfaces. A tick on Liberty's nose is the sole mentionable mark. Housed in a green label holder. NGC ID# 26D3, PCGS# 9048

**4658 1906 MS61 PCGS.** The 69,596 coin mintage of the 1906 double eagle was the third lowest mintage of any 20th century Liberty twenty, behind the 31,140 coin mintage at Philadelphia in 1902, and 58,919 in 1905. Those three dates are the keys to a collection of 18 Liberty twenties struck from 1900 to 1907. This example has brilliant luster with frosty orange-gold surfaces. NGC ID# 26D4, PCGS# 9049

#### 1906 Double Eagle, MS62 Only 69,500 Coins Struck

**4659 1906 MS62 PCGS.** This boldly rendered 1906 double eagle showcases lustrous surfaces with a mixture of light green and peach-gold color. Each side is lightly marked, slightly more so on the obverse. The Mint only struck 69,500 twenty dollar gold pieces in 1906, making this low-mintage date popular among collectors. Ex: *Kiawah Collection / Summer FUN Signature (Heritage, 7/2009)*, lot 2230. NGC ID# 26D4, PCGS# 9049

#### 1906 Liberty Double Eagle, MS62 Low-Mintage, Late-Series Issue

**4660 1906 MS62 PCGS.** The 1906 Liberty double eagle claims a low 20th century mintage of 69,596 pieces. This impressive MS62 example displays lustrous orange-gold surfaces with a scattering of minor contact marks on both sides. The design elements are well-detailed and the overall presentation is most attractive. NGC ID# 26D4, PCGS# 9049

**4661 1906-S MS63 PCGS.** This vibrantly lustrous 1906-S double eagle is sharply struck, boasting also original coloration in honey and rose-gold hues. Light, scattered abrasions on the obverse limit the grade, including a fairly prominent mark between stars 4 and 5. NGC ID# 26F6, PCGS# 9051

#### 1907-D Liberty Double Eagle, MS64 Pleasing Eye Appeal

**4662 1907-D MS64 NGC.** The second and final Denver issue of the Liberty Head type. This Choice 1907-D double eagle displays satiny yellow-gold luster and bold design elements. Some faint grazes on the cheek and a light mark in the field below the chin appear to be all that preclude a full Gem designation. NGC ID# 26D8, PCGS# 9053

#### 1907-D Liberty Twenty, MS64+ Final-Year Branch Mint Type Coin

**4663 1907-D MS64+ PCGS.** One of two Denver issues in the Liberty double eagle series, the 1907-D is usually available for type purposes but becomes elusive at the Gem level. This high-end near-Gem will appeal to many collectors as a more affordable substitute. The strike is sharp, and the yellow-gold surfaces display satiny cartwheel luster. A few light grazes on the obverse determine the grade. NGC ID# 26D8, PCGS# 9053

## SAINT-GAUDENS DOUBLE EAGLES

### 1907 Arabic Numerals Saint-Gaudens Twenty Gem Uncirculated

- 4664 1907 Arabic Numerals MS65 PCGS.** Vibrant yellow-gold luster rolls over frosty surfaces on this Gem Arabic Numerals 1907 Saint-Gaudens double eagle. The strike is well-executed for the issue, and grade-limiting abrasions are minor. This debut low-relief Saint is available through MS65, but finer coins become increasingly scarce. NGC ID# 26F5, PCGS# 9141

### 1907 Saint-Gaudens Twenty, MS65 Arabic Numerals

- 4665 1907 Arabic Numerals MS65 PCGS Secure.** Frosty yellow-gold luster envelops the mostly unabraded surfaces of this Gem 1907 Saint-Gaudens double eagle. The Arabic Numerals issue was the final, low-relief version of Saint-Gaudens' design that could be mass produced with only one die impression per coin. The earlier High Relief version required at least three strikes to be fully brought up. This Arabic Numerals Gem is sharply struck and eye-appealing. NGC ID# 26F5, PCGS# 9141

### 1908 No Motto Twenty, MS66+ From The Wells Fargo Hoard

- 4666 1908 No Motto, Wells Fargo Nevada, MS66+ NGC. CAC.** The magnificent Wells Fargo Hoard yielded some of the finest No Motto 1908 double eagles known to collectors, including the present Plus-graded Premium Gem. Both sides exhibit frosty, straw-gold luster and impeccable preservation. Excellent striking sharpness further contributes to the eye appeal. NGC ID# 26F6, PCGS# 99142 Base PCGS# 9142

- 4667 1908-D No Motto MS64+ PCGS.** Although plentiful in this grade, the 1908-D No Motto double eagle is elusive in finer condition. The present high-end Choice coin displays bold details and satiny yellow-gold luster. There are no severe abrasions observed. NGC ID# 26F7, PCGS# 9143

- 4668 1908-S — Cleaned — ANACS. AU50 Details.** The low-mintage 1908-S, with a production halted after just 22,000 coins were minted, is an elusive date in the Saint-Gaudens series that enjoys demand across all grade levels. This piece retains traces of luster on its wheat-gold surfaces. NGC ID# 26FA, PCGS# 9149

- 4669 1909/8 FS-301 AU58 PCGS.** This overdate variety is frequently seen, but no less desirable because of its availability. Its inclusion in the *Cherry-pickers' Guide* enhances its appeal to various collecting interests. Frosty luster radiates throughout honey-gold surfaces that exhibit minimal evidence of friction over well-struck devices. NGC ID# 37XB, PCGS# 145740 Base PCGS# 9151

- 4670 1909/8 FS-301 MS61 NGC.** The 1909 Normal Date and the 1909/8 Overdate Saint-Gaudens double eagles are about equally in rarity, suggesting that about 80,000 of each were minted. Both are elusive in Mint State grades when compared to common dates such as the 1924. This piece has brilliant honey-gold luster with trivial grade-limiting marks. NGC ID# 37XB, PCGS# 145740 Base PCGS# 9151

- 4671 1909/8 FS-301 MS61 NGC.** A pleasing Mint State example of this famous 20th century overdate, the only such variety in the Saint-Gaudens double eagle series, this example displays frosty surfaces and brilliant lemon-yellow luster. NGC ID# 37XB, PCGS# 145740 Base PCGS# 9151

### 1909 Saint-Gaudens Twenty, MS64 Clean Surfaces, Needle-Sharp Devices

- 4672 1909 MS64 PCGS Secure.** Razor-sharp detail is the defining characteristic of this Choice Saint-Gaudens twenty dollar gold piece. Bright mint luster and eye-catching wheat-gold color are additional attributes that enhance its desirability. Each side is clean for the grade, with marks mostly confined to the drapery. The 1909 has a mintage of 161,282 coins and is rarely seen finer than MS64. PCGS shows 27 grading events higher (5/16). NGC ID# 26FC, PCGS# 9150

### 1909-D Twenty, Satiny MS61

- 4673 1909-D MS61 NGC.** The 1909-D is a better date in the Saint-Gaudens double eagle series, coming from a mintage of only 52,500 coins. This Mint State example is sharp and satiny with medium yellow-gold luster. Scattered abrasions define the grade. Finer Uncirculated coins are pricey and usually elusive, but this piece remains within the grasp of the average double eagle collector. NGC ID# 26FD, PCGS# 9152

- 4674 1910 MS64 NGC.** Near-Gems are relatively available in today's marketplace, but the number of certified Gems and the frequency with which they appear at auction falls off dramatically. This Choice P-mint twenty features strong strike characteristics, orange and rose-gold coloration, and vibrant luster over lightly abraded surfaces. NGC ID# 26FF, PCGS# 9154

**4675 1910-D MS65 PCGS.** This bright, yellow-gold Gem 1910-D Saint-Gaudens double eagle will appeal to a range of collectors, as finer coins are scarce. The strike is sharp, and there are no mentionable abrasions. NGC ID# 26FG, PCGS# 9155

**4676 1910-S MS64 PCGS.** A collectible Choice Mint State example of the 1910-S double eagle — a slightly better date in high grade. The strike is sharp, and the satiny orange-gold surfaces display modest cartwheel luster. NGC ID# 26FH, PCGS# 9156

**4677 1910-S MS64 PCGS.** Particularly radiant orange-gold mint luster adorns each side of this Choice 1910-S Saint-Gaudens double eagle, delivering excellent eye appeal for the grade. The strike is sharp, and there are no mentionable abrasions. NGC ID# 26FH, PCGS# 9156

#### 1911-D Saint-Gaudens Twenty, MS66 Few Are Finer

**4678 1911-D MS66 NGC.** Vibrant medium-gold surfaces display rich, frosty luster and very few marks while the strike is undeniably sharp. Only minor ticks are seen on either side of this exceptional Premium Gem. The 1911-D is a plentiful mintmarked twenty through the MS65 level, at which point the trip up the grading ladder becomes much more challenging. NGC and PCGS combined have certified just 44 numerically finer examples (6/16). NGC ID# 26FK, PCGS# 9158

**4679 1911-D/D FS-501 MS64 PCGS. CAC.** The mintmark is repunched due east, one of the few gold RPM varieties listed in *Cherrypickers'*. Highly lustrous and well struck with pleasing preservation. The obverse is untoned and the reverse displays light pumpkin-gold patina. NGC ID# 26FK, PCGS# 145010 Base PCGS# 9158

**4680 1911-S MS64 PCGS.** A satiny Choice Uncirculated example with original rose and honey-gold luster. The strike is bold, and only light chatter here and there limits the grade. A collectible example of this early San Francisco Saint. NGC ID# 26FL, PCGS# 9159

**4681 1911-S MS64 PCGS.** The 1911-S double eagle is a popular date that is readily collectible through near-Gem condition. This example of that grade level displays a bold strike and satiny yellow-gold luster. Eye appeal is pleasing for the grade. NGC ID# 26FL, PCGS# 9159

#### 1911-S Saint-Gaudens Twenty, Resplendent MS65

**4682 1911-S MS65 NGC.** Frosty cartwheel mint luster swirls across the surfaces of this radiant twenty. The strike on Liberty's portrait is pinpoint-sharp with strong finger definition on both hands. The eagle is likewise fully defined, as is the legend and other peripheral elements. Only a few scattered, tiny marks are seen with a loupe. PCGS and NGC together report a scant 70 numerically finer certifications (6/16). NGC ID# 26FL, PCGS# 9159

#### 1911-S Double Eagle, Lustrous MS65 Spiked L in LIBERTY

**4683 1911-S MS65 PCGS Secure.** Die anomalies and varieties in the Saint-Gaudens series are by-and-large undocumented, as is the unusual die gouge visible at the L in LIBERTY on this coin. Our archives reveal few examples of the die flaw despite many hundreds of 1911-S appearances. Housed in a PCGS Secure holder, this Gem example is notable not only for the Spiked L, but also for the nearly abrasion-free surfaces and its razor-sharp strike. Lustrous, sun-gold surfaces display orange highlights across the frosty fields and devices. PCGS reports just 38 numerically finer examples of the 1911-S (6/16). NGC ID# 26FL, PCGS# 9159

**4684 1913-D MS64 PCGS.** The yellow and rose-gold surfaces of this attractive Choice example show only scattered minor contact marks, with vibrant mint luster on both sides. The design elements are well-detailed and the overall presentation is quite pleasing. NGC ID# 26FP, PCGS# 9162

**4685 1913-D MS64 PCGS.** Two factors make the 1913-D appropriate for type purposes: examples are usually found sharply struck with satin luster, and large quantities survived in overseas hoards before trickling back to the American market. This near-Gem is one such coin with incredibly clean surfaces and top-notch appeal. NGC ID# 26FP, PCGS# 9162

**4686 1913-D MS64+ PCGS.** This Denver double eagle issue was well-produced. Choice examples are correspondingly accessible and frequently targeted for type representation. Honey-gold surfaces radiate satiny luster. Scattered marks are unobtrusive throughout this well-detailed and clearly high-end near-Gem. NGC ID# 26FP, PCGS# 9162

#### 1913-D Double Eagle, MS65 Lovely Original Surfaces

**4687 1913-D MS65 PCGS.** The 1913-D is the most accessible in Gem condition of the three double eagles of this year. Nonetheless, finer pieces are rarely seen, making this MS65 coin among the best most collectors will find pursuable. The figure of Liberty shares outstanding sharpness with the eagle, and the wheat-gold surfaces display thickly frosted mint luster. There are just six finer coins in PCGS holders (6/16). NGC ID# 26FP, PCGS# 9162

**4688 1913-S AU58 NGC.** An important low-mintage issue, this example survives from a production that was halted after just 34,000 strikes. Both sides of this light yellow example are highly lustrous with a trace of rub on the high points. NGC ID# 26FR, PCGS# 9163

**4689 1914 MS62 PCGS.** The general rule of thumb in the Saint-Gaudens double eagle series is that P-Mints of the teens are scarce and those of the following decade are common. The 1914 had a production of only 95,250 coins, one of just six issues with a mintage under 100,000 coins. This lovely piece exhibits typical grade-consistent marks with brilliant and lustrous light yellow surfaces. A splendid example. NGC ID# 26FS, PCGS# 9164

#### 1914 Double Eagle, MS64 Apricot-Orange Surfaces

**4690 1914 MS64 PCGS Secure.** The apricot-orange surfaces boast an ample amount of mint luster on both sides that complements a bold strike and overall good eye appeal. A few minor abrasions and one oval dark spot in the left obverse field preclude a Gem grade, a level at which this issue is far more elusive. PCGS reports only 43 submitted in MS65 and above (6/16). NGC ID# 26FS, PCGS# 9164

#### 1914 Double Eagle, MS64 Seldom Seen Finer

**4691 1914 MS64 PCGS.** The 1914 Saint-Gaudens double eagle boasts a minimal 95,250-coin mintage. Uncirculated examples are generally available through MS64, but anything finer is seldom seen and expensive to acquire. This Choice representative displays boldly rendered design elements and smooth, satiny luster in honey-gold hues. PCGS lists 43 finer examples (6/16). NGC ID# 26FS, PCGS# 9164

#### 1914-D Saint-Gaudens Double Eagle, MS65 Colorful and Lustrous Denver Issue

**4692 1914-D MS65 NGC.** The finely textured surfaces are glossy and radiant with gleaming mint luster. A sharp twenty with shades of gold ranging from pale-wheat color to glimpses of orange-gold, the variegated coloration provides tremendous eye appeal. This Denver issue is nearly always sharply struck and ideal for type. NGC shows just 53 coins in finer grades (6/16). NGC ID# 26FT, PCGS# 9165

#### 1914-D Saint-Gaudens Double Eagle Exceptional Gem Example

**4693 1914-D MS65 PCGS.** Double eagle mintages are often misleading, with the 1914-D trending toward the low end on the mintage scale yet the issue is fairly obtainable in Gem condition. It is rare any finer. This lustrous example radiates vibrant eye appeal and displays a sharp strike. The few abrasions are non-distracting and a small alloy spot above Liberty's arm is equally minor. PCGS reports just 65 numerically finer pieces (6/16). NGC ID# 26FT, PCGS# 9165

#### 1914-D Double Eagle, Eye-Catching MS65+

**4694 1914-D MS65+ NGC.** This Denver issue was struck to the extent of 453,000 coins, explaining the availability of mint condition survivors through MS64. Gems are accessible too, but not nearly to the same degree, and the population declines precipitously in MS66. Saint-Gaudens' renowned design is well brought-up. Each side is radiantly lustrous with eye-catching orange and copper-gold coloration. NGC has seen 52 submissions finer (5/16). NGC ID# 26FT, PCGS# 9165

**4695 1914-S MS65 PCGS.** The 1914-S Saint-Gaudens double eagle was produced in large numbers and is a popular choice of mintmark type collectors. This attractive Gem is sharply detailed and brightly lustrous, with well-preserved yellow-orange and rose-gold surfaces. NGC ID# 82KA, PCGS# 9166

#### 1915 Saint-Gaudens Twenty, MS64

**4696 1915 MS64 NGC.** Frostlike greenish-gold color resonates with cartwheel mint luster across the sharply appealing surfaces of this radiant near-Gem double eagle. A few scattered marks exist (consistent with the grade) yet none detract in any way from the sumptuous appeal of the coin. The 1915 Philadelphia twenty is far scarcer than its San Francisco counterpart at the MS64 level, and NGC reports a scant 64 numerically finer coins (6/16). NGC ID# 26FV, PCGS# 9167

**4697 1915-S MS65+ NGC.** A dusky orange-gold and lime-green Gem with sweeping luster and a bold strike. The reverse is exceptionally free from contact, and the obverse displays only unimportant grazes, mostly on Liberty's legs and in the upper field. NGC ID# 26FW, PCGS# 9168

**1915-S Double Eagle, MS65+  
Few CAC-Endorsed Coins Finer**

**4698 1915-S MS65+ PCGS. CAC.** A high-end Gem example, CAC-endorsed for quality and eye appeal. This 1915-S Saint-Gaudens double eagle displays a sharp strike and satiny orange-gold luster with only a few trivial marks preventing an even finer grade. The 1915-S is available in Gem condition, but finer coins are notably elusive by comparison. NGC ID# 26FW, PCGS# 9168

**1915-S Twenty  
Exceptional Premium Gem**

**4699 1915-S MS66 NGC.** Attractive reddish-gold and lemon-yellow highlights flash across the frosty surfaces of this supremely lustrous San Francisco double eagle. Marks are minimal and the strike is sharp — an unquestionable Premium Gem that is seemingly at the high end of the MS66 level. The figure of Liberty is particularly impressive on this coin with nearly full details and only a few tiny ticks. NGC lists just one numerically finer example. NGC ID# 26FW, PCGS# 9168

**1915-S Saint-Gaudens Double Eagle, MS66  
Finest Collectible Grade**

**4700 1915-S MS66 NGC.** Deeply frosty and lustrous with rich, medium-gold coloration, this Premium Gem 1915-S double eagle is for all purposes at the finest attainable grade for collectors. Small abrasions and marks are few and far between on the attractive, sharply struck surfaces. NGC reports just a single numerically finer coin (an untraced MS67 example), while PCGS lists a single MS66+ as its finest (the Akers/Duckor coin). NGC ID# 26FW, PCGS# 9168

**4701 1922 MS64+ PCGS. CAC.** This CAC-endorsed, high-end near-Gem displays frosty yellow-gold luster and well-struck design elements. A few trivial grazes are all that limit the grade. The 1922 double eagle is plentiful in MS64, but finer coins can be somewhat elusive. NGC ID# 26G3, PCGS# 9173

**1922 Twenty Dollar, MS65  
Outstanding Eye Appeal**

**4702 1922 MS65 PCGS.** Despite the substantial mintage of 1.3 million pieces, the 1922 Saint-Gaudens double eagle is a prime condition rarity in grades above the MS65 level. This impressive Gem exhibits sharply detailed design elements throughout, and the well-preserved orange-gold surfaces radiate vibrant mint luster with outstanding eye appeal. PCGS has only graded eight finer examples (6/16). NGC ID# 26G3, PCGS# 9173

**1922 Double Eagle, MS65+  
Outstanding Quality and Appeal**

**4703 1922 MS65+ PCGS.** The 1922 Saint-Gaudens double eagle is available in MS65 but becomes suddenly extremely rare in MS66. This Plus-graded Gem resides comfortably in the middle, showing clean, frosty fields and original wheat-gold luster. The strike is bold, and the eye appeal surpasses expectations for the grade and issue. Population: 12 in 65+, 8 finer (6/16). NGC ID# 26G3, PCGS# 9173

**1922-S Twenty Dollar, MS63  
Rich Luster**

**4704 1922-S MS63 PCGS.** Despite a mintage of more than 2.6 million coins, the 1922-S double eagle is a slightly better date in Uncirculated condition. This Select example remains within the grasp of budget-conscious collectors but possesses excellent eye appeal and luster. The strike is bold, and grade-limiting abrasions are minimal. NGC ID# 26G4, PCGS# 9174

**4705 1924 MS66+ NGC.** An impressive Gem, this is an ideal candidate for a gold type set. The 1924 had a high mintage of more than 4 million coins, and examples are readily available in lower Mint State grades. However, NGC has only certified 66 finer pieces (5/16). This one has frosty yellow-luster and pristine surfaces. NGC ID# 26G7, PCGS# 9177

**1924-D Double Eagle, AU58  
Better Date in High Grade**

**4706 1924-D AU58 NGC.** Significant luster remains in the fields of this near-Mint 1924-D double eagle. The surfaces retain original wheat-gold patina and are mostly smooth save for a few small marks here and there. The 1924-D was heavily melted in the 1930s, destroying much of the nearly 3 million-coin mintage. NGC ID# 34VF, PCGS# 9178

**4707 1925 MS65 NGC.** This well-detailed Gem exhibits frosty vibrant mint luster, with only a few unobtrusive contact marks in the fields. The surfaces are a pleasing copper-gold color, with green highlights.  
*Ex: Beverly Hills Signature (Heritage, 11/2011), lot 4529. NGC ID# 26GA, PCGS# 9180*

**1925-S Twenty, Partially Lustrous AU53**

**4708 1925-S AU53 NGC.** The 1925-S is a less often seen date in the Saint-Gaudens double eagle series, having been heavily melted in the 1930s by order of President Roosevelt's gold confiscation order. This AU coin is among the more affordable survivors. Each side displays partially lustrous fields and yellow-gold patina. Trivial high-point wear accounts for the sub-Mint State grade. NGC ID# 26GC, PCGS# 9182

**4709 1927 MS66 PCGS.** Ex: PCGS 30th Anniversary label. This frosty Premium Gem exhibits pristine yellow-gold surfaces with excellent eye appeal. PCGS has only certified 19 numerically finer examples (5/16). NGC ID# 26GG, PCGS# 9186

**TERRITORIAL GOLD**

**1861 Clark, Gruber & Co. Five, VF35  
Copper Die Trial, K-10c**

**4710 1861 Clark, Gruber \$5 Copper Die Trial VF35 PCGS. K-10c, R.7.** Struck in copper with a reeded edge. This coin is a die trial struck from the regular-issue dies for the 1861 five dollar gold piece of Clark, Gruber & Company. It is most unusual to find a worn specimen, since the copper composition would make it impossible for such a piece to mistakenly circulate as a gold example. This Choice VF specimen retains three-quarters of its interior design detail and the olive-brown surfaces show only minor abrasions, suggesting this coin was carried as a pocket piece. Population: 1 in 35, 8 finer (5/16). NGC ID# ANLV, PCGS# 10151

**CALIFORNIA FRACTIONAL GOLD**

**1854 Liberty Octagonal Dollar, Near-Mint  
Eagle and Shield Motif, BG-504**

**4711 1854 Liberty Octagonal Dollar, Eagle, BG-504, Low R.5, AU58 PCGS.** All Period One octagonal dollar varieties are scarce and in demand, but those with distinctive types are especially esteemed. The reverse of BG-504 imitates the iconic eagle-and-shield emblem of the U.S. Assay Office fifty dollar "slugs," a mainstay of West Coast commerce during the Gold Rush. This is a momentarily circulated caramel-gold example with moderate laminations (as made) on the left reverse field. Population: 10 in 58, 22 finer (5/16). NGC ID# 2BKZ, PCGS# 10481

**1867 Liberty Head Octagonal Quarter  
BG-709, Top-Grade MS67**

**4712 1867 Liberty Octagonal 25 Cents, BG-709, R.4, MS67 PCGS.** A conditionally elusive Period Two octagonal quarter dollar by Frontier & Co. This glittering Superb Gem is tied with one other as the finest at PCGS (5/16). The strike is bold, and the orange-gold fields are deeply mirrored, producing modest cameo contrast. There are no obvious abrasions. NGC ID# 2BMK, PCGS# 10536

1871 Liberty 25 Cents, MS67  
Octagonal, BG-717

**4713** 1871 Liberty Octagonal 25 Cents, BG-717, R.3, MS67 PCGS. A satiny and pristine green-gold Superb Gem. The strike is sharp and the eye appeal is exceptional. No flan detractions are evident. Frontier, Deviercy & Co. was the maker of this impressive piece. Population: 7 in 67, 0 finer (5/16). NGC ID# 2BMU, PCGS# 10544

**4714** 1874 Indian Round 25 Cents, BG-876, Low R.4, MS66 NGC. An impressive Premium Gem featuring a diminutive Indian Head, this brilliant yellow 25 cent California fractional gold piece exhibits reflective fields and frosty luster. NGC ID# 2BVA, PCGS# 10737

**4715** 1866 Liberty Round 50 Cents, BG-1006, R.5, MS65 PCGS. A prooflike sun-gold Gem. The buckled surfaces are unmarked save for faint lines near the star 7 and the 66 in the date. A late die state with several delicate obverse cracks. BG-1006 and BG-1017 are the only 1866-dated round half varieties. Population: 3 in 65, 1 finer (5/16). NGC ID# 2BYF, PCGS# 10835

**4716** 1870 Liberty Round 50 Cents, BG-1010, R.3, MS67 PCGS. A prooflike sun-gold Superb Gem. The strike is sharp, although the die work is fairly crude, as are most varieties in the fractional gold series. No marks are apparent, and the surfaces are also void of flan detractions. Frontier & Co. was the issuer. NGC ID# 2BYK, PCGS# 10839

**4717** 1869 Liberty Octagonal 1 Dollar, BG-1106, High R.4, MS61 PCGS. Die State I with most of the Gray initial visible below the bust. This peach-gold example displays minor obverse field marks but lacks any high point wear. The strike is good except on the final two stars and the first L in DOLLAR. NGC ID# 2C35, PCGS# 10917

## PATTERNS

1858 Flying Eagle Cent Pattern  
Judd-203, PR55 Obverse Lamination

**4718** 1858 Flying Eagle Cent, Judd-203, Pollock-247, R.5 — Obverse Lamination — PR55 NGC. The obverse shows a hooked-neck eagle flying left with tall wings. The reverse is similar to that of the issued 1860 cent but there is no shield at 12 o'clock. Struck in copper-nickel with a plain edge. NGC has classed this as an error, but it is actually a pattern struck on a defective planchet — not technically an error in our opinion. The lamination is definitely noticeable, though; located at 10 o'clock on the obverse and another, smaller segment in the center of that side. Numerous signs of light contact are peppered throughout, and the surfaces show light reddish-tinted patina. NGC ID# 29BJ, PCGS# 11869

1863 Transitional Indian Cent in Bronze  
Judd-299, Thin Planchet PR65 Red and Brown

**4719** 1863 One Cent, Judd-299, Pollock-359, R.3, PR65 Red and Brown PCGS. Snow-PT1. Medallion alignment. Struck from regular issue cent dies, but with a bronze alloy used instead of the then-current copper-nickel composition. This bronze alloy, of course, was implemented in 1864, which makes this pattern a transitional issue. Pollock lists four variants, all from the same dies, based upon the thickness of the planchet and the die alignment. This appears to be a thin planchet variant. Mellowed red luster is present in the fields on each side, giving the coin a well-balanced appearance. Slight streakiness is also noted on each side, most likely from improper mixture of the bronze alloy. The surfaces are problem-free, and the devices have a "thicker" patina, suggestive of a cameo effect. Ex: FUN Signature (Heritage, 1/2004), lot 8407. NGC ID# 29ED, PCGS# 70454

1883 Transitional Liberty Nickel, Differing Obverse  
Judd-1714, PR63

**4720** 1883 Liberty Head Five Cents, Judd-1714, Pollock-1919, Low R.6, PR63 PCGS. The design is similar to the issued Liberty nickel, but LIBERTY is moved from the coronet to the upper obverse border, and the stars are smaller and arranged 6x7. The reverse is from the same die used to strike Judd-1690, identified by the widely repunched S in PLURIBUS. Struck in nickel with a plain edge. A fully struck specimen with light golden-brown and dove-gray toning. A small spot beneath the I in LIBERTY decides the grade. Encapsulated in a green label holder. Ex: FUN Signature (Heritage, 1/2007), lot 1615; ANA Signature (Heritage, 8/2007), lot 2764. NGC ID# 2AL4, PCGS# 62131

- 7919 1908 MS62 NGC.** NGC Census: (2704/1944). PCGS Population (1881/2220). Mintage: 577,800. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$550. NGC ID# 28DE, PCGS# 8510
- 7920 1908-D MS62 NGC.** NGC Census: (832/1452). PCGS Population (934/1711). Mintage: 148,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$785. NGC ID# 93KW, PCGS# 8511
- 7921 1910 MS63 NGC.** NGC Census: (1002/350). PCGS Population (637/275). Mintage: 604,250. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$975. NGC ID# 28DK, PCGS# 8517
- 7922 1911 MS61 PCGS.** PCGS Population (1018/3709). NGC Census: (3175/4762). Mintage: 915,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$540. NGC ID# 28DP, PCGS# 8520
- 7923 1911 MS61 PCGS.** PCGS Population (1018/3709). NGC Census: (3175/4762). Mintage: 915,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$540. NGC ID# 28DP, PCGS# 8520

**7924 1911-S AU58 NGC.** NGC Census: (844/974). PCGS Population (290/956). Mintage: 1,416,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$535. NGC ID# 25ZM, PCGS# 8522

**7925 1911-S AU58 NGC.** NGC Census: (844/974). PCGS Population (290/956). Mintage: 1,416,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$535. NGC ID# 25ZM, PCGS# 8522

**7926 1912 MS61 PCGS.** PCGS Population (1066/4703). NGC Census: (2674/5292). Mintage: 790,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$535. NGC ID# 28DS, PCGS# 8523

**7927 1914 MS62 PCGS.** PCGS Population (704/800). NGC Census: (819/538). Mintage: 247,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$750. NGC ID# 28DU, PCGS# 8527

**7928 1914-D MS62 PCGS.** PCGS Population (560/549). NGC Census: (645/450). Mintage: 247,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$850. NGC ID# 28DV, PCGS# 8528

**7929 1914-S AU58 PCGS. CAC.** PCGS Population (209/485). NGC Census: (573/518). Mintage: 263,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$950. NGC ID# 28DW, PCGS# 8529

**7930 1916-S AU58 NGC.** NGC Census: (670/971). PCGS Population (261/880). Mintage: 240,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$750. NGC ID# 28DY, PCGS# 8532

**7931 1916-S AU58 PCGS.** PCGS Population (261/880). NGC Census: (670/971). Mintage: 240,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$750. NGC ID# 28DY, PCGS# 8532

## LIBERTY EAGLES

**7932 1847-O — Cleaned — ANACS. AU Details, Net XF40.** NGC Census: (74/656). PCGS Population (129/312). Mintage: 571,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$975. NGC ID# 2632, PCGS# 8598

**7933 1847-O AU50 NGC.** NGC Census: (114/366). PCGS Population (93/92). Mintage: 571,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,100. NGC ID# 2632, PCGS# 8598

**7934 1850 Large Date XF40 PCGS.** PCGS Population (38/151). NGC Census: (43/321). Mintage: 291,451. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$850. NGC ID# 2637, PCGS# 8603

**7935 1852 AU53 PCGS.** PCGS Population (36/57). NGC Census: (109/259). Mintage: 263,106. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$925. NGC ID# 263C, PCGS# 8608

**7936 1852-O — Cleaned, Tooled — ANACS. AU Details, Net VF35.** NGC Census: (2/95). PCGS Population (8/79). Mintage: 18,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$1,370. NGC ID# 263D, PCGS# 8609

**7937 1852-O — Cleaning — PCGS Genuine. AU Details.** NGC Census: (9/54). PCGS Population (14/30). Mintage: 18,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$3,250.

**7938 1853 — Improperly Cleaned — NGC Details. XF.** NGC Census: (21/558). PCGS Population (28/290). Mintage: 201,253. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$740. NGC ID# C82G, PCGS# 8610

**7939 1854-O Large Date XF45 NGC.** NGC Census: (23/117). PCGS Population (12/71). NGC ID# 263J, PCGS# 98614

**7940 1855 — Improperly Cleaned — NGC Details. AU.** NGC Census: (45/377). PCGS Population (53/115). Mintage: 121,701. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$865. NGC ID# 263L, PCGS# 8616

**7941 1856-S — Cleaned, Scratched — ANACS. AU Details, Net XF45.** NGC Census: (40/173). PCGS Population (25/94). Mintage: 68,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$1,136. NGC ID# 263S, PCGS# 8621

**7942 1867 VG10 NGC.** NGC Census: (0/58). PCGS Population (1/43). Mintage: 3,140. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG10: \$917. NGC ID# 264L, PCGS# 8651

**7943 1877-S XF40 PCGS. CAC.** PCGS Population (29/74). NGC Census: (25/121). Mintage: 17,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$1,100. NGC ID# 265H, PCGS# 8679

**7944 1878 MS61 NGC.** NGC Census: (68/40). PCGS Population (37/61). Mintage: 73,700. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$810. NGC ID# 265J, PCGS# 8680

**7945 1880 MS62 NGC.** NGC Census: (424/55). PCGS Population (321/85). Mintage: 1,644,876. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$925. NGC ID# 265S, PCGS# 8687

**7946 1881-O VG8 NGC.** NGC Census: (0/187). PCGS Population (0/132). Mintage: 8,350. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$622. NGC ID# 265Y, PCGS# 8693

**7947 1885-S MS62 PCGS.** PCGS Population (267/116). NGC Census: (231/62). Mintage: 228,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$825. NGC ID# 554W, PCGS# 8707

**7948 1886 MS61 PCGS.** PCGS Population (102/144). NGC Census: (197/125). Mintage: 236,160. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$685. NGC ID# 266F, PCGS# 8708

**7949 1886-S MS63 PCGS.** PCGS Population (282/26). NGC Census: (255/14). Mintage: 826,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$975. NGC ID# 554Y, PCGS# 8709

**7950 1888-O AU53 PCGS.** PCGS Population (20/448). NGC Census: (11/593). Mintage: 21,335. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$630. NGC ID# 266L, PCGS# 8713

**7951 1888-S MS62 NGC.** NGC Census: (547/86). PCGS Population (577/176). Mintage: 648,700. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$700. NGC ID# 266M, PCGS# 8714

**7952 1890-CC — Improperly Cleaned — NGC Details. XF.** NGC Census: (8/354). PCGS Population (12/340). Mintage: 17,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$1,050. NGC ID# 266S, PCGS# 8718

**7953 1892-CC — Improperly Cleaned — NGC Details. AU.** NGC Census: (57/324). PCGS Population (70/202). Mintage: 40,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,425.

**7954 1893 MS63 PCGS.** PCGS Population (2493/295). NGC Census: (6715/770). Mintage: 1,840,895. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$825. NGC ID# 266Z, PCGS# 8725

**7955 1894 MS63+ PCGS. CAC.** PCGS Population (1997/146 and 27/13+). NGC Census: (5628/433 and 14/6+). Mintage: 2,470,778. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$825. NGC ID# 2675, PCGS# 8729

**7956 1894-S — Reverse Improperly Cleaned — NGC Details. AU.** NGC Census: (15/113). PCGS Population (21/59). Mintage: 25,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,050.

**7957 1895 MS61 NGC.** NGC Census: (3961/6601). PCGS Population (2139/3499). Mintage: 567,700. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$685. NGC ID# 2678, PCGS# 8732

**7958 1895 MS61 PCGS.** PCGS Population (2139/3499). NGC Census: (3961/6601). Mintage: 567,700. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$685. NGC ID# 2678, PCGS# 8732

**7959 1895-O AU55 NGC.** NGC Census: (82/584). PCGS Population (103/385). Mintage: 98,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$800. NGC ID# 2679, PCGS# 8733

**7960 1897-O AU55 PCGS.** PCGS Population (50/232). NGC Census: (28/330). Mintage: 42,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$850. NGC ID# 7LHC, PCGS# 8738

**7961 1901-S MS62 Prooflike NGC.** NGC Census: (13/14). PCGS Population (0/0). Mintage: 2,812,750. NGC ID# 267S, PCGS# 8749

**7962 1903-O AU55 NGC.** NGC Census: (44/1075). PCGS Population (112/934). Mintage: 112,771. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$640. NGC ID# 267W, PCGS# 8753

**7963 1904-O AU58 NGC.** NGC Census: (156/448). PCGS Population (133/463). Mintage: 108,950. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$655. NGC ID# 7LHK, PCGS# 8756

**7964 1905 MS62 NGC.** NGC Census: (782/492). PCGS Population (577/352). Mintage: 200,900. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$700. NGC ID# 7LD3, PCGS# 8757

**7965 1905 MS63 PCGS.** PCGS Population (232/120). NGC Census: (299/193). Mintage: 200,900. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$825. NGC ID# 7LD3, PCGS# 8757

**7966 1906-D MS63 PCGS.** PCGS Population (501/230). NGC Census: (564/167). Mintage: 981,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$1,075. NGC ID# 2685, PCGS# 8760

**7967 1906-S MS61 PCGS.** PCGS Population (70/121). NGC Census: (146/82). Mintage: 457,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$800. NGC ID# 53FB, PCGS# 8762

**7968 1907-S MS61 NGC.** NGC Census: (100/78). PCGS Population (48/81). Mintage: 210,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$950. NGC ID# 38EP, PCGS# 8765

## INDIAN EAGLES

**7969 1908 No Motto — Obverse Scratched — NGC Details. UNC.** NGC Census: (31/486). PCGS Population (51/504). Mintage: 33,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$1,150. NGC ID# 28GG, PCGS# 8853

**7970 1908-D No Motto — Improperly Cleaned — NGC Details. UNC.** NGC Census: (24/430). PCGS Population (21/426). Mintage: 210,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$1,250. NGC ID# 28GH, PCGS# 8854

**7971 1908 Motto MS62 PCGS.** PCGS Population (1719/1275). NGC Census: (1493/764). Mintage: 341,300. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$885. NGC ID# 28GJ, PCGS# 8859

**7972 1909 MS62 PCGS.** PCGS Population (907/420). NGC Census: (613/215). Mintage: 184,700. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$1,050. NGC ID# 28GM, PCGS# 8862

**7973 1909 MS62 NGC.** NGC Census: (613/215). PCGS Population (907/420). Mintage: 184,700. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$1,050. NGC ID# 28GM, PCGS# 8862

**7974 1909-D MS61 PCGS.** PCGS Population (251/538). NGC Census: (231/342). Mintage: 121,540. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$1,450. NGC ID# 28GN, PCGS# 8863

**7975 1910-D AU58 ANACS.** NGC Census: (1097/11254). PCGS Population (1368/9268). Mintage: 2,356,640. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$720. NGC ID# 28GS, PCGS# 8866

**7976 1910-S AU58 NGC.** NGC Census: (742/587). PCGS Population (586/897). Mintage: 811,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$950. NGC ID# 268D, PCGS# 8867

**7977 1910-S AU58 PCGS.** PCGS Population (586/897). NGC Census: (742/587). Mintage: 811,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$950. NGC ID# 268D, PCGS# 8867

**7978 1910-S AU58 PCGS.** PCGS Population (586/897). NGC Census: (742/587). Mintage: 811,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$950. NGC ID# 268D, PCGS# 8867

**7979 1911 MS63+ PCGS.** PCGS Population (1803/711 and 38/37+). NGC Census: (1801/1077 and 11/39+). Mintage: 505,595. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$960. NGC ID# 28GT, PCGS# 8868

**7980 1913 MS62 NGC.** NGC Census: (2038/1177). PCGS Population (2136/1234). Mintage: 442,071. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$875. NGC ID# 28GY, PCGS# 8873

**7981 1914-D — Improperly Cleaned — NGC Details. AU.** NGC Census: (10/2811). PCGS Population (35/2914). Mintage: 343,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$680. NGC ID# 28H3, PCGS# 8876

## COMMEMORATIVE GOLD

- 8137** 1903 Louisiana Purchase Jefferson Gold Dollar MS64 NGC. NGC Census: (591/929). PCGS Population (949/1398). Mintage: 17,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$765. NGC ID# BYLD, PCGS# 7443
- 8138** 1903 Louisiana Purchase Jefferson Gold Dollar MS65 NGC. NGC Census: (462/467). PCGS Population (736/662). Mintage: 17,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$1,125. NGC ID# BYLD, PCGS# 7443
- 8139** 1903 Louisiana Purchase Jefferson Gold Dollar MS65 PCGS. PCGS Population (736/662). NGC Census: (462/467). Mintage: 17,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$1,125. NGC ID# BYLD, PCGS# 7443
- 8140** 1903 Louisiana Purchase McKinley Gold Dollar MS64 PCGS. CAC. PCGS Population (918/1167). NGC Census: (513/884). Mintage: 17,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$710. NGC ID# BYLE, PCGS# 7444
- 8141** 1904 Lewis and Clark Gold Dollar MS62 PCGS. PCGS Population (250/1516). NGC Census: (158/909). Mintage: 10,025. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$900. NGC ID# BYLF, PCGS# 7447
- 8142** 1905 Lewis and Clark Gold Dollar MS61 NGC. NGC Census: (95/1024). PCGS Population (84/1774). Mintage: 10,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$960. NGC ID# BYLG, PCGS# 7448

## MODERN BULLION COINS

- 8143** 1993 Half-Ounce Gold Eagle MS69 PCGS. PCGS Population (715/16). NGC Census: (2187/130). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS69: \$650. NGC ID# 26NE, PCGS# 9872
- 8144** 1994 Half-Ounce Gold Eagle MS69 NGC. NGC Census: (1733/82). PCGS Population (742/20). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS69: \$650. NGC ID# 26NF, PCGS# 9882
- 8145** 1995 Silver Eagle MS70 NGC. NGC Census: (535). PCGS Population (23). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS70: \$885. NGC ID# 26JN, PCGS# 9886
- 8146** 1998 Half-Ounce Platinum Eagle MS69 NGC. NGC Census: (448/12). PCGS Population (352/3). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS69: \$1,037. NGC ID# 26TD, PCGS# 9767

- 8147** 1998 One-Ounce Platinum Eagle MS69 NGC. NGC Census: (89/0). PCGS Population (236/1). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS69: \$1,010. NGC ID# 26TZ, PCGS# 9768
- 8148** 2002 Quarter-Ounce Platinum Eagle MS70 PCGS. PCGS Population (105). NGC Census: (640). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS70: \$460. NGC ID# 26SW, PCGS# 9795
- 8149** 2002 Half-Ounce Platinum Eagle MS69 PCGS. PCGS Population (3944/15). NGC Census: (3788/247). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS69: \$1,037. NGC ID# 26TH, PCGS# 9796
- 8150** (2004) "1781" Libertas Americana Medal, Silver, Paris Mint Restrike, Gem Proof Deep Cameo PCGS. .999 Fine. 24 gm. *From The Eagle One Collection, Part II.*
- 8151** 2006-W Half-Ounce Platinum Eagle MS70 NGC. NGC Census: (650). PCGS Population (31). Mintage: 9,602. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS70: \$1,037. NGC ID# 26TN, PCGS# 821118
- 8152** 2006-W One-Ounce Platinum Eagle MS70 NGC. NGC Census: (563). PCGS Population (30). Mintage: 6,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS70: \$1,700. NGC ID# 26SF, PCGS# 821119
- 8153** 2006-W One-Ounce Platinum Eagle PR70 Deep Cameo PCGS. PCGS Population (260). NGC Census: (620). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR70: \$1,750. NGC ID# 26UC, PCGS# 921119

- 8154** 2007-W Half-Ounce Gold Eagle PR70 Deep Cameo PCGS. PCGS Population (334). NGC Census: (0). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR70: \$800. NGC ID# 26NZ, PCGS# 148080

- 8155** 2007-W Half-Ounce Platinum Eagle PR70 Deep Cameo PCGS. PCGS Population (574). NGC Census: (899). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR70: \$1,037. NGC ID# 293L, PCGS# 149577
- 8156** 2007-W Half-Ounce Platinum Eagle PR70 Deep Cameo PCGS. PCGS Population (574). NGC Census: (899). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR70: \$1,037. NGC ID# 293L, PCGS# 149577
- 8157** 2007-W One-Ounce Platinum Eagle PR70 Deep Cameo PCGS. PCGS Population (226). NGC Census: (506). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR70: \$1,650. NGC ID# 26UF, PCGS# 149579
- 8158** 2008-W Half-Ounce Gold Buffalo, Burnished SP70 PCGS. .9999 Fine. PCGS Population (454). NGC Census: (1937). Numismedia Wsl. Price for problem free NGC/PCGS coin in 70: \$1,125. NGC ID# 26RJ, PCGS# 399930
- 8159** 2008-W Half-Ounce Gold Buffalo, Burnished SP70 PCGS. .9999 Fine. PCGS Population (454). NGC Census: (1937). Numismedia Wsl. Price for problem free NGC/PCGS coin in 70: \$1,125. NGC ID# 26RJ, PCGS# 399930
- 8160** 2008-W Half-Ounce Gold Buffalo, Burnished SP70 PCGS. .9999 Fine. PCGS Population (454). NGC Census: (1937). Numismedia Wsl. Price for problem free NGC/PCGS coin in 70: \$1,125. NGC ID# 26RJ, PCGS# 399930
- 8161** 2008-W Half-Ounce Gold Buffalo PR69 Deep Cameo PCGS. .9999 Fine. PCGS Population (473/581). NGC Census: (695/1996). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR69: \$1,075. NGC ID# 26RK, PCGS# 399936
- 8162** 2008-W Quarter-Ounce Platinum Eagle, Burnished, MS70 PCGS. PCGS Population (238). NGC Census: (137). Numismedia Wsl. Price for problem free NGC/PCGS coin in 70: \$650. NGC ID# BNKW, PCGS# 393080
- 8163** 2008-W One-Ounce Platinum Eagle, Early Releases, MS70 NGC. NGC Census: (403). PCGS Population (57). NGC ID# 26UG, PCGS# 393111
- 8164** 2008-W One-Ounce Platinum Eagle, Burnished, MS70 NGC. NGC Census: (783). PCGS Population (314). Numismedia Wsl. Price for problem free NGC/PCGS coin in 70: \$1,800. NGC ID# BNKP, PCGS# 393084
- 8165** 2013-W Half-Ounce Gold American Eagle PR70 Ultra Cameo NGC. NGC Census: (718). PCGS Population (570). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR70: \$800. PCGS# 518211

- 8166** 2013-W One-Ounce Gold Buffalo PR70 Ultra Cameo NGC. .9999 Fine. NGC Census: (0). PCGS Population (182). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR70: \$1,575. NGC ID# 2U7A, PCGS# 518205
- 8167** 2014-W Half-Ounce Gold Eagle, Early Releases, PR70 Ultra Cameo NGC. NGC Census: (0). PCGS Population (575). PCGS# 527096 Base PCGS# 527095
- 8168** 2014-W One-Ounce Gold Eagle, Early Releases MS70 NGC. NGC Census: (0). PCGS Population (2157). PCGS# 521921 Base PCGS# 521920
- 8169** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8170** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8171** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8172** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8173** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8174** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8175** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8176** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8177** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223
- 8178** 2016-W Tenth-Ounce Gold Mercury Dime, 100th Anniversary, First Strike, SP70 PCGS. PCGS Population (6027). NGC Census: (0). PCGS# 597224 Base PCGS# 597223

## CALIFORNIA FRACTIONAL GOLD

- 8179** 1854 Liberty Octagonal 25 Cents, BG-105, R.3, MS64 NGC. NGC Census: (14/14). PCGS Population (71/25). NGC ID# 2BGP, PCGS# 10374
- 8180** 1855/4 Liberty Octagonal 1 Dollar, BG-511, High R.4, AU58 NGC. NGC Census: (7/13). PCGS Population (14/42). NGC ID# 2BL8, PCGS# 10488
- 8181** 1853 Liberty Octagonal 1 Dollar, BG-530, R.2, MS61 PCGS. PCGS Population (28/60). NGC Census: (24/39). NGC ID# 2BLV, PCGS# 10507
- 8182** 1854 Liberty Octagonal 1 Dollar, BG-532, Low R.4, AU55 PCGS. PCGS Population (37/65). NGC Census: (2/27). NGC ID# 2BLX, PCGS# 10509
- 8183** 1872 Indian Octagonal 25 Cents, BG-791, R.3, MS64 PCGS. PCGS Population (95/22). NGC Census: (22/19). NGC ID# 2BRB, PCGS# 10618
- 8184** 1872 Indian Octagonal 25 Cents, BG-791, R.3, MS66 NGC. NGC Census: (3/2). PCGS Population (4/0). NGC ID# 2BRB, PCGS# 10618
- 8185** 1874 Indian Octagonal 25 Cents, BG-795, R.3, MS65 NGC. NGC Census: (4/1). PCGS Population (21/3). NGC ID# 2BRF, PCGS# 10622
- 8186** 1876 Indian Round 25 Cents, BG-853, Low R.5, MS64 PCGS. PCGS Population (14/3). NGC Census: (2/4). NGC ID# 2BUG, PCGS# 10714
- 8187** 1874 Indian Octagonal 1 Dollar, BG-1124, High R.4, AU58 NGC. NGC Census: (3/9). PCGS Population (14/50). NGC ID# 2C3S, PCGS# 10935

## PATTERN

- 8188** 1869 Three Cent Nickel, Judd-676, Pollock-753, 755, R.4, PR55 NGC. NGC Census: (1/20). PCGS Population (1/40). NGC ID# 29PV, PCGS# 60901

## ERRORS

- 8189** 1964 Jefferson Nickel — Struck On A 10C Planchet (2.4g) — MS62 NGC.
- 8190** 1922-D Peace Dollar — Obverse Struck Thru — MS65 NGC.
- 8191** 1898-S Liberty Double Eagle — Obverse Lamination — MS61 NGC.
- 8192** 1908 Saint-Gaudens Double Eagle, No Motto — Reverse Struck In, Planchet Burr — MS63 NGC.

## PROOF SETS

- 8193** Five Piece 1938 Proof Set PR65 to PR66 NGC. The coins are housed in separate holders. The set includes: Cent PR65 Red and Brown; Jefferson Nickel PR64; Dime PR65; Quarter PR65; Half Dollar PR66. (Total: 5 coins)
- 8194** Five Piece 1940 Proof Set PR64 to PR66 NGC. The coins are housed in separate holders with consecutive certification numbers. The set included: Cent PR64 Red and Brown; Reverse of 1940 Nickel PR64; Dime PR65; Quarter PR65; Half Dollar PR66. (Total: 5 coins) NGC ID# 22L7, PCGS# 3346
- 8195** Five Piece 1941 Proof Set PR64 to PR66 NGC. The coins are housed in separate holders with consecutive certification numbers. The set includes: Cent PR64 Red; Nickel PR66; Dime PR66; Quarter PR66; Half Dollar PR66. (Total: 5 coins)
- 8196** Five-Piece 1955 Proof Set PR69 NGC. The set includes: cent PR69 Red; nickel PR69; dime PR69; quarter PR69; half dollar PR69. (Total: 5 coins) NGC ID# 22L6, PCGS# 3374
- 8197** Five-Piece 1957 Proof Set PR69 NGC. The set includes: cent PR69 Red; nickel PR69; dime PR69; quarter PR69; half dollar PR69. (Total: 5 coins) NGC ID# 22LH, PCGS# 3380

## REDFIELD DOLLARS

- 8198** 1878-CC Morgan Dollar MS63+ NGC (Paramount MS65). This is not an NGC holder. The NGC guarantee does not apply. NGC Census: (5585/6031 and 48/84+). PCGS Population (9160/9069 and 121/316+). Mintage: 2,212,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$410.
- 8199** 1885-CC Morgan Dollar MS64 NGC (Paramount MS65). This is not an NGC holder. The NGC guarantee does not apply. NGC Census: (3499/2554). PCGS Population (7635/5306). Mintage: 228,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$780.
- 8200** 1889-S Morgan Dollar MS63+ NGC (Paramount MS65) and an 1891-S Morgan Dollar MS64 NGC (Paramount MS65). These are not NGC holders. The NGC guarantee does not apply. (Total: 2 coins)
- 8201** 1900-S Morgan Dollar MS64 NGC (Paramount MS65). This is not an NGC holder. The NGC guarantee does not apply. NGC Census: (898/212). PCGS Population (1751/687). Mintage: 3,540,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$550.

- 8202** 1935 Peace Dollar MS65 NGC (Paramount MS65). This is not an NGC holder. The NGC guarantee does not apply. NGC Census: (732/75). PCGS Population (971/218). Mintage: 1,576,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$650.

## GSA DOLLARS

- 8203** 1878-CC GSA MS63 NGC. NGC Census: (1204/895). PCGS Population (41/11). Mintage: 2,212,000. NGC ID# 253M, PCGS# 518845 Base PCGS# 407080
- 8204** 1878-CC GSA MS63 NGC. Box and COA included. NGC Census: (1204/895). PCGS Population (41/12). Mintage: 2,212,000. NGC ID# 253M, PCGS# 518845 Base PCGS# 407080
- 8205** 1878-CC GSA MS63 Prooflike NGC. NGC Census: (0/0). PCGS Population (4/3). Mintage: 2,212,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$850. PCGS# 518846 Base PCGS# 7081
- 8206** 1880-CC 8 Over Low 7, VAM-6, GSA, MS64 NGC. Box and COA included. NGC Census: (89/44). PCGS Population (4/0). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$1,100. NGC ID# 2542, PCGS# 518857 Base PCGS# 407100
- 8207** 1880-CC 8 Over Low 7, VAM-6, GSA, MS64+ NGC. NGC Census: (89/44 and 2/4+). PCGS Population (4/0 and 2/0+). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$1,100. NGC ID# 2542, PCGS# 518857 Base PCGS# 407100
- 8208** 1880-CC GSA MS64 NGC. NGC Census: (2208/796). PCGS Population (57/19). Mintage: 591,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$600. NGC ID# 2542, PCGS# 518851 Base PCGS# 407100
- 8209** 1880-CC GSA MS64+ NGC. NGC Census: (2208/796 and 69/28+). PCGS Population (57/19 and 20/6+). Mintage: 591,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$600. NGC ID# 2542, PCGS# 518851 Base PCGS# 407100

(Total: 6 tokens)

## CIVIL WAR TOKEN

**8249** (1861-1865) H.V. Keep Sutler Token — Scratches, Whizzed — NGC Details. AU. S&I-UI-J-25B, R.7.

## WESTERN SOUVENIR GOLD

**8250** 1914 Montana Gold (One) MS62 NGC. M.E. Hart's Coins of the Golden West.

*End of Auction*

# Terms and Conditions of Auction

## Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., or Heritage Auctions, Inc., or Heritage Numismatic Auctions, Inc., or Heritage Vintage Sports Auctions, Inc., Currency Auctions of America, Inc., Heritage Auctions (HK) Limited, or Heritage Auctions – Europe Cooperatief U.A. as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the “Auctioneer”). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

## Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
  - Fifteen percent (15%) on Domain Names & Intellectual Property Auction lots;
  - Seventeen and one-half percent (17.5%) on Currency, US Coin, and World & Ancient Coin Auction lots (the Buyer's Premium is 19.5% for auctions in Hong Kong), and except for Gallery Auction lots as noted below;
  - Nineteen and one-half percent (19.5%) on Comic, Movie Poster, Sports Collectibles, and Gallery Auction (sealed bid auctions of mostly bulk numismatic material) lots;
  - Twenty-two percent (22%) on Wine Auction lots;
  - For lots in all other categories not listed above, the Buyer's Premium per lot is twenty-five percent (25%) on the first \$200,000, plus twenty percent (20%) of any amount between \$200,000 and \$2,000,000, plus twelve percent (12%) of any amount over \$2,000,000.
- Minimum Buyer's Premium per lot is \$19, except for Sports Collectibles lots wherein the Buyer's Premium is \$14 per lot.

## Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature\* Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

## Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction (“Bidder(s)”).
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

## Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

## Bidding Options:

8. Bids in Signature, Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled “Choose your bidding method.” For auctions held solely on the Internet, see the alternatives on HA.com. Review at <http://www.ha.com/c/ref/web-tips.zx#biddingTutorial>.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-409-1425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: “How can I lose by less than an increment?” on our website. Bids will be accepted in whole dollar amounts only. No “buy” or “unlimited” bids will be accepted.

The following chart governs current bidding increments  
(see [HA.com/c/ref/web-tips.zx#guidelines-increments](http://HA.com/c/ref/web-tips.zx#guidelines-increments)).

Current Bid .....	Bid Increment	Current Bid .....	Bid Increment
< \$10.....	\$1	\$10,000 - \$19,999 .....	\$1,000
\$10 - \$49 .....	\$2	\$20,000 - \$49,999 .....	\$2,000
\$50 - \$99 .....	\$5	\$50,000 - \$99,999 .....	\$5,000
\$100 - \$199 .....	\$10	\$100,000 - \$199,999 .....	\$10,000
\$200 - \$499 .....	\$20	\$200,000 - \$499,999 .....	\$20,000
\$500 - \$999 .....	\$50	\$500,000 - \$999,999 .....	\$50,000
\$1,000 - \$1,999 .....	\$100	\$1,000,000 - \$4,999,999 ....	\$100,000
\$2,000 - \$4,999 .....	\$200	\$5,000,000 - \$9,999,999 ....	\$250,000
\$5,000 - \$9,999 .....	\$500	>= \$10,000,000 .....	\$500,000

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment (“Cut Bid”) only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature\* Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

## Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A “Minimum Bid” is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN “Minimum Bids” ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE “Minimum Bid”, THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. “Minimum Bids” are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the “Minimum Bid” for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.
14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher. Auctioneer reserves the right after the hammer fall to accept bids and reopen bidding for bids placed through the Internet or otherwise.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in “Good Faith” when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in “Good Faith.” Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40–60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (generally 40%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 877-HERITAGE (437-4824).
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

## Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes “good funds”: checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal, or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (Ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot or Auctioneer. Alternatively, Auctioneer at its sole option, may charge a twenty (20%) fee based on the amount of the purchase. In either case the Auctioneer may offset amount of its claim against any monies owing to the Bidder or secure its claim against any of the Bidder's properties held by the Auctioneer..
25. Lots delivered to you, or your representative are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, or inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction, or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 15% seller's commission, if consigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 15% seller's commissions, if sold at an Auctioneer's auction.
29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer.

# Terms and Conditions of Auction

With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale (including a 15% seller's commission, if consigned to an auction conducted by Auctioneer). In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession...

31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

## **Delivery; Shipping; and Handling Charges:**

32. Buyer is liable for shipping, handling, registration, and renewal fees, if any. Please refer to Auctioneer's website HA.com/c/shipping.zx for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.

33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.

34. All shipping charges will be borne by the successful Bidder. On all domestic shipments, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file (carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature) or delivery by Heritage to Bidder's selected third-party shipper. On all foreign shipments, any risk of loss during shipment will be borne by the Bidder following Auctioneer's delivery to the Bidder's designated common carrier or third-party shipper.

35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.

36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) Brazilian rosewood, ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay, failure, or incapacity to obtain any such license or permit does not relieve the buyer of timely payment, or afford them the capacity to void their purchase or payment. For further information, please contact Ron Brackemyre at 800-872-6467 ext. 1312.

36B. California State law prohibits the importation of any product containing Python skin into the State of California, thus no lot containing Python skin will be shipped to or invoiced to a person or company in California.

36C. Auctioneer shall not be liable for any loss caused by or resulting from:

- Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
- Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles

37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

## **Cataloging, Warranties and Disclaimers:**

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions. .

39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.

40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.

41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.

42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

## **Release:**

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.

44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or consequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

## **Dispute Resolution and Arbitration Provision:**

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.

46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.

47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.

48. Exclusive Dispute Resolution Process: All claims, disputes, or controversies in connection with, relating to and /or arising out of your Participation in the Auction or purchase of any lot, any interpretation of the Terms and Conditions of Sale or any amendments thereto, any description of any lot or condition report, any damage to any lot, any alleged verbal modification of any term of sale or condition report or description and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation or any claim made by you of a lot or your Participation in the auction involving the auction or a specific lot involving a warranty or representation of a consignor or other person or entity including Auctioneer {which claim you consent to be made a party} (collectively, "Claim") shall be exclusively heard by, and the claimant (or respondent as the case may be) and Heritage each consent to the Claim being presented in a confidential binding arbitration before a single arbitrator administered by and conducted under the rules of, the American Arbitration Association. The locale for all such arbitrations shall be Dallas, Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. If a Claim involves a consumer, exclusive subject matter jurisdiction for the Claim is in the State District Courts of Dallas County, Texas and the consumer consents to subject matter and in personam jurisdiction; further CONSUMER EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY. A consumer may elect arbitration as specified above. Any claim involving the purchase or sale of numismatic or related items may be submitted through binding PNG arbitration. Any Claim must be brought within two (2) years of the alleged breach, default or misrepresentation or the Claim is waived. Exemplary or punitive damages are not permitted and are waived. A Claim is not subject to class certification. Nothing herein shall be construed to extend the time of return or conditions and restrictions for return. This Agreement and any Claim shall be determined and construed under Texas law. The prevailing party (a party that is awarded substantial and material relief on its damage claim based on damages sought vs. awarded or the successful defense of a Claim based on damages sought vs. awarded) may be awarded its reasonable attorneys' fees and costs.

49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.

50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid of arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.

51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

## **Miscellaneous:**

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.

53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.

54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

## **State Notices:**

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in New York City: This Auction is conducted in accord with the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This a Public Auction Sale conducted by Auctioneer. The New York City Auctioneers conducting the sale of behalf of Heritage Auctions No. 41513036 ("Auctioneer") are licensed Auctioneers including Dawes, Nicholas 1304724, Guzman, Kathleen 762165, Luray, Elyse 2015375, or as listed at HA.com/ Licenses and as posted at the venue site. All lots are subject to: the consignor's right to bid thereon and consignor's option to receive advances on their consignments. Auction may offer, in its sole discretion, advances on consignments and extended financing to registered bidders, in accord with Auctioneer's internal credit standards. Auctioneer will disclose to bidders, upon request, a list of lots subject to an advance, reserve, guarantee, or Auctioneer's financial interests of any kind. All Terms and Conditions of Sale are available at HA.com and in the printed catalog, including term #21 which states: Consignor, auctioneer's affiliates and, its employees may bid on their lots or other lots for their own account in accordance with the laws of New York and they may have information as to the lots not available to the public. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.

Notice as to an Auction in Texas. In compliance with TDLR rule 67.100(c)(1), notice is hereby provided that this auction is covered by a Recovery Fund administered by the Texas Department of Licensing and Regulation, P.O. Box 12157, Austin, Texas 78711 (512) 463-6599. Any complaints may be directed to the same address.

# Terms and Conditions of Auction

## Additional Terms & Conditions:

### COINS & CURRENCY

**COINS and CURRENCY TERM A:** Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-872-6467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

**COINS and CURRENCY TERM B:** Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (877-HERITAGE (437-4824)) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

**COINS and CURRENCY TERM C:** Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

**COINS and CURRENCY TERM D:** Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcgs.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

**COINS and CURRENCY TERM E:** Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

**COINS and CURRENCY TERM F:** Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

**COINS and CURRENCY TERM G:** Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

**COINS and CURRENCY TERM H:** Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

**COINS and CURRENCY TERM I:** Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

**COINS and CURRENCY TERM J:** All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

**COINS and CURRENCY TERM K:** Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

**COINS and CURRENCY TERM L:** NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

**COINS and CURRENCY TERM M:** For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

**COINS and CURRENCY TERM N:** Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.

**COINS and CURRENCY TERM O:** Financing. Auctioneer offers various extended payment options to qualified pre-approved persons and companies. The options include Extended Payment Programs (EPP) Flexible Payment Program (FPP) and Dealer Terms. Each program has its specific terms and conditions and such terms and conditions are strictly enforced. Each program has to be executed by the purchaser. Auctioneer reserves the right to alter or deny credit and in such case these auction terms shall control.

For wiring instructions call the Credit department at 877-HERITAGE (437-4824) or e-mail: CreditDept@HA.com

## Notice as to an Auction in New York City

This Auction is conducted in accord with the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This a Public Auction Sale conducted by Auctioneer. The New York City Auctioneers conducting the sale of behalf of Heritage Auctions No. 41513036 ("Auctioneer") are licensed Auctioneers including Dawes, Nicholas 1304724, Guzman, Kathleen 762165, Luray, Elyse 2015375, or as listed at HA.com/Licenses and as posted at the venue site.

All lots are subject to: the consignor's right to bid thereon and consignor's option to receive advances on their consignments. Auction may offer, in its sole discretion, advances on consignments and extended financing to registered bidders, in accord with Auctioneer's internal credit standards. Auctioneer will disclose to bidders, upon request, a list of lots subject to an advance, reserve, guarantee, or Auctioneer's financial interests of any kind. All Terms and Conditions of Sale are available at HA.com and in the printed catalog, including term #21 which states: Consignor, auctioneer's affiliates and, its employees may bid on their lots or other lots for their own account in accordance with the laws of New York and they may have information as to the lots not available to the public. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders. Rev 6-8-2016
